

COMMERCE

2026

DEPARTMENT VISION AND MISSION

a. Vision Statement:

To be a centre of excellence in the realm of Commerce and Management, developing and nurturing global competencies in students through quality education, research and continuous innovation.

b. Mission Statement:

M1: To nurture commerce professionals who possess a high level of knowledge and competence to effectively contribute to society with commitment and integrity.

SYLLABUS FOR

COURSE NAME: CLIMATONOMICS

COURSE CODE: COM401-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the interlinkages between climate systems, economic growth, and sustainability frameworks.

CO2: Analyze the economic impacts of climate change and evaluate the effectiveness of policy tools such as carbon pricing, green taxes, and emissions trading.

CO3: Design innovative and sustainable financial or policy models that promote low-carbon transitions and circular economies.

CO4: Apply climatonic principles to assess sectoral risks and develop adaptive strategies for businesses, communities, and governments.

CO5: Demonstrate leadership and ethical responsibility in formulating evidence-based, climate-resilient economic decisions

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Foundations of Climatedonomics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Foundations of Climatedonomics Introduction to Climatedonomics: Definition, scope, and significance, Climate science fundamentals and the economics of environmental degradation, Climate externalities and market interdependencies, Sustainable development frameworks: UN Sustainable Development Goals (SDGs), Triple Bottom Line, and Planetary Boundaries, Concept of green economy and low-carbon development pathways

Description

U2: Economic Impacts and Policy Instruments of Climate Change

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Economic Impacts and Policy Instruments of Climate Change Relationship between GDP growth, resource consumption, and emissions, Economic impacts of climate change: adaptation vs. mitigation costs, Policy instruments for climate management – carbon pricing, emissions trading, green taxes, and subsidies, Climate policy frameworks: Kyoto Protocol, Paris Agreement, and COP outcomes, Case studies: EU Emissions Trading System (EU ETS) and India's Perform–Achieve–Trade (PAT) Scheme

Description

U3: Green and Sustainable Finance Mechanisms

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Green and Sustainable Finance Mechanisms Green bonds, ESG investing, and sustainable finance principles; role of development banks and institutional investors in climate finance; risk assessment, disclosure, and sustainability reporting frameworks (TCFD, GRI); financing circular economy and renewable energy transitions; designing green business and investment models. Add Practical Elements: ·Case Study (India): Examine India's Sovereign Green Bond (2023 issue) — structure, pricing, investor r

Description

U4: Climate Risk Management and Adaptive Strategies

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Climate Risk Management and Adaptive Strategies Sectoral risk analysis: agriculture, energy, transport, and finance, Climate resilience, disaster risk reduction, and insurance mechanisms, Public–private partnerships for adaptation and resilience building, Technological innovations for mitigation (AI, IoT, green tech), Case studies on successful adaptation models (India and global). Add Practical Elements: ·Risk Mapping Exercise:

Students create a simple climate risk profile for an Indian sect
Description

U5: Ethics, Leadership, and Climate Governance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Ethics, Leadership, and Climate Governance Ethical dimensions of climate economics and intergenerational equity, Global governance for climate action: UNEP, IPCC, IMF, World Bank, Corporate responsibility and climate disclosure practices, Leadership in sustainability: case studies of climate champions and policy innovators, Practical exercises in sustainable decision-making and climate ethics.

Description

Essential Reading

1.Green and Sustainable Finance: Principles and Practice (3rd Ed., 2025) by Simon Thompson provides a comprehensive guide to how finance, regulation, and innovation drive-global-climate-and-sustainability-transitions.

Principles of Sustainable Finance (2nd Ed.,2023) by Dirk Schoenmaker and Willem Schramade explains how financialsystems and economic decisions can align with environmental and socialsustainability within planetary boundaries

EXAMINATION PATTERN

COURSE NAME: CLIMATONOMICS

COURSE CODE: COM401-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I (20 marks), CIA II (50 marks), CIA III (20 marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions, out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions, out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: ADVANCED AUDITING & ASSURANCE

COURSE CODE: COM401A-7

COURSE TYPE: Theory

TOTAL HRS: 60 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understand and analyse audit engagement terms, quality control requirements, documentation standards, fraud responsibilities, and advanced audit planning procedures.

CO2: Apply and evaluate audit risk assessment, materiality determination, analytical review techniques and sampling methodologies in audit engagements.

CO3: Analyse and perform audit evidence evaluation, substantive testing, external confirmations, accounting estimates assessment, and complex audit area procedures.

CO4: Evaluate digital audit environments, IT controls, data analytics tools, and technology-enabled assurance techniques including AI-driven audit procedures.

CO5: Perform sector-specific audits, assess internal controls, execute assurance engagements, and apply methodologies for group audits and specialized audit assignments.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Quality control, Technological literacy

Course Content

U1: Audit Engagement, Quality Control and Planning

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Audit objectives, conduct of audit in accordance with standards, quality control requirements for audit firms, terms of audit engagement, engagement letters for new and recurring audits, acceptance and continuance procedures, responsibilities relating to fraud during audit, communication with those charged with governance, documentation requirements SA 230 (Documentation), establishing overall audit strategy, detailed audit planning, understanding of the entity and

Description

its internal controls, assessing risks at financial-statement and assertion levels, planning audit responses SA 300 (Audit Planning), determining materiality and performance materiality, directing and supervising audit teams.

U2: Audit Risk, Materiality, Analytical Procedures and Sampling

Teaching Hours: (11)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Audit risk identification and assessment, inherent risk factors, control risk assessment, detection risk and responses, determining overall materiality, applying performance materiality, analytical procedures at planning, substantive and final review stages, data-driven analytical review, indicators of fraud and misstatement, sampling methods, statistical sampling, non-statistical sampling SA 530 (Audit Sampling), evaluating sample results, projecting misstatements,

Description

sampling risks and non-sampling risks.

U3: Audit Evidence, Substantive Testing and Complex Audit Areas

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. SA 701 (KAM), SA 700–705 (Audit Reports) SA 500 (Audit Evidence) Requirements for obtaining sufficient and appropriate audit evidence, testing internal controls SA 315 (Identifying and Assessing the Risks of Material Misstatement), substantive procedures for various assertions, dual-purpose procedures SA 330 (Auditor's Responses to Assessed Risks), external confirmation processes

Description

SA 505 (External Confirmations), evidence for opening balances, evaluating accounting estimates, fair-value evidence, impairment testing, revenue recognition evidence, inventory attendance procedures, litigation and claims evidence, verification of related-party arrangements, examination of segment disclosures, obtaining written representations, assessing going concern, evaluation of work performed by experts, resolving contradictory or inconsistent audit evidence.

U4: Digital Audit, Technology, Data Analytics and Artificial Intelligence in Assurance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Digital audit environments, automated transaction processing systems SA 330 (Testing automated controls), enterprise resource planning systems, cloud-based accounting systems, maintaining audit trails in digital platforms SA 402 (Using cloud-based service organisations), information technology general controls,

Description

information technology application controls, automated control testing, use of computer-assisted audit techniques, data extraction and validation, artificial intelligence for document analysis, blockchain-enabled transaction verification, cybersecurity considerations in audit SA 250 (Compliance with laws relating to data protection & cybersecurity).

U5: Specialized Audits, Sectoral Audits and Group Audit

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Environment

U5-T1. Audit of banking institutions, audit of non-banking financial institutions, audit of insurance companies (SA 315, SA 330, SA 505, SA 540), audit of manufacturing entities, audit of service-sector organisations, audit of government and public-sector entities, audit of nonprofit organisations, audit of internal financial controls and internal control over financial reporting (SA 315, SA610, SA265 Identification of internal controls), environmental and sustainability assurance engagements

Description

SAE 3410 – Assurance Engagements on Greenhouse Gas (GHG) Statements, SAE 3000 (Revised) – General Assurance Engagement Standard, SA 720 – Other information (ESG reports), special-purpose audits, agreed-upon procedures engagements, limited review engagements, forensic audit methodologies, fraud investigation procedures, due diligence reviews, audit of consolidated financial statements, group auditor and component auditor responsibilities.

Essential Reading

1. Institute of Chartered Accountants of India (ICAI) – Advanced Auditing and Professional Ethics: Study Material (Latest Edition)
1. International Auditing and Assurance Standards Board (IAASB) – International Standards on Auditing (ISAs) – Complete Handbook
1. ICAI Guidance Notes – Guidance on Audit of Internal Financial Controls, Bank Audits, Group Audits, and Forensic Aspects
1. IFAC (International Federation of Accountants) – Handbook of International Quality Management, Quality Control, Auditing, Review & Other Assurance Standards
1. Padhuka's Students' Handbook on Advanced Auditing and Professional Ethics (Latest Edition)
1. Aruna Jha – Auditing and Assurance (Indian Context, suitable for higher-level understanding)
1. Data Analytics for Auditors – ICAI Digital Learning Hub (Compulsory for tech-enabled modules)

EXAMINATION PATTERN

COURSE NAME: ADVANCED AUDITING & ASSURANCE

COURSE CODE: COM401A-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I- 20 MARKS;CIA II- 50 MARKS;CIA III- 20 MARKS

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A - $7 \times 5 = 35$ marks Section B - $5 \times 10 = 50$ marks Section C - $1 \times 15 = 15$ marks ESE- 100 MARKS

COURSE NAME: ACCOUNTING ANALYTICS

COURSE CODE: COM401A-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Apply foundational concepts of accounting analytics to analyse financial statement structures of real or simulated firms.

CO2: Apply data preprocessing, visualization, and exploratory analysis techniques to financial datasets in order to identify trends, anomalies, and insights.

CO3: Apply diagnostic and predictive models to evaluate financial reports and detect anomalies.

CO4: Analyze valuation models and integrate non-financial metrics for business decision insights.

CO5: Design AI-driven accounting solutions and apply ethical principles in data-driven financial analysis

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Foundations of Accounting Analytics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Evolution of analytics in accounting – from descriptive to AI-driven analytics - how to derive insights from financial statements - Data-driven decision-making in financial reporting, auditing, and valuation - Machine vs Man – automation, augmentation, and ethical implications - Structure of financial data and corporate annual reports - Overview of data formats: numerical, textual, and unstructured - Data ecosystems: internal vs external data sources

U2: Data Analytics in Accounting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Data cleaning and preprocessing for accounting data - Parsing, tagging, and

transforming financial statement data - Data visualization and dashboarding for accounting insights - Ratio interlinkages and financial pattern identification - Exploratory Data Analysis (EDA) for financial datasets - Correlation, causation, and outlier detection - Introduction to Python/R tools for accounting analytics

U3: Predictive & Diagnostic Analytics

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Forecasting financial performance and cash flows - Diagnostic analytics – Earnings management detection - Discretionary accrual models - Modified Jones, Kothari models - Discretionary expenditure and revenue recognition models - Fraud prediction models and forensic analytics - Benford's Law and data irregularity testing - Big Data prediction models in accounting - Linking macroeconomic data and firm-level outcomes

U4: Prescriptive and Valuation Analytics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Accounting-based valuation models (Ohlson, Residual Income Models) - Forecasting firm value using accounting metrics - Linking non-financial metrics to financial performance (ESG, employee data, customer metrics) - Scenario and sensitivity analysis - Prescriptive models for decision optimization - Integrating managerial accounting data for strategic insights

U5: AI and Textual Analytics in Accounting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. AI applications in accounting: audit, financial reporting, and valuation - Procedures for applying ML models - Textual analysis of corporate filings - dictionary-based approaches - Emerging AI technologies for text - transformers, embeddings, LLMs - Data cleaning, parsing, and feature selection in textual data - Prompt Engineering for accounting insights - Word and sentence representation - TF-IDF, Word2Vec, BERT concepts - Ethics and interpretability issues

Essential Reading

·Vernon J. Richardson, Ryan A. Teeter, Katie L. Terrell (2024), Data Analytics for Accounting, McGraw-Hill Higher Education, 2nd Edition.

EXAMINATION PATTERN

COURSE NAME: ACCOUNTING ANALYTICS

COURSE CODE: COM401A-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: ORGANISATIONAL BEHAVIOUR

COURSE CODE: COM402-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Analyse organisational behaviour concepts, models, and interdisciplinary foundations to examine contemporary challenges such as diversity, sustainability, and green organisational behaviour.

CO2: Evaluate the influence of personality, values, attitudes, emotions, on individual behaviour, ethical conduct, employee well-being and sustainability outcomes in AI-driven work environments.

CO3: Analyse learning, perception, motivation and decision-making processes to assess behavioural change, ethical judgement, sustainability-oriented decisions, and the impact of artificial intelligence on managerial decision-making..

CO4: Analyse group dynamics, team processes, and collaborative mechanisms, including green teams and technology-enabled teams, to evaluate their effectiveness in achieving organisational and sustainability goals.

CO5: Evaluate the role of power, conflict, negotiation, resilience, leadership, organisational culture, and change in managing sustainability initiatives.

Sustainability Development Goals (SDG)

Decent work and economic growth, Gender equality, Good health and well-being, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Introduction to Organisational Behaviour

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Introduction to Organisational Behaviour

Description

Meaning of Organisational Behaviour, Nature of Organisational Behaviour, Disciplines contributing to Organisational Behaviour, Challenges and opportunities for OB, Diversity in organisations, Biographical characteristics, Diversity management, Organisational Behaviour models, Green Organisational Behaviour (GOB), Sustainability and workplace behaviour, Environmental psychology in the workplace, Pro-environmental behaviour and psychological safety at work.

U2: Individual Behaviour

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Professional Ethics

U2-T1. Individual Behaviour

Description

Individual Behaviour - Factors Influencing Individual Behaviour, Personality – meaning, Type A and Type B personality, MBTI, Big Five Personality Model, Locus of Control, Core Self-Evaluation, Machiavellianism, Narcissism, Values and attitudes – importance of values, Terminal and Instrumental values, Whistle-blowing as an ethical issue in organisational behaviour, Values across cultures – Hofstede and GLOBE frameworks, Components of attitudes, Job-related attitudes, Job involvement, Job satisfaction – causes and effects Emotions and moods – emotional labour, Emotional intelligence, OB applications of emotions and moods, Stress management – work-related stress, Stress and burnout, Management of stress, Technostress and AI-driven work stress Motivation, theories of motivation - Need Hierarchy Theory, Theory X and Theory Y, Herzberg's Two-Factor Theory, McClelland's Theory of Needs.

U3: Learning, Perception and Individual Decision-Making

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U3-T1. Learning, Perception and Individual Decision-Making

Description

Learning – definition and importance, Theories of learning - Stimulus-Response Theory, Cognitive Theory, Social Learning Theory, Principles of learning, Shaping as a managerial tool, Learning for green behaviour Perception – factors influencing perception, Attribution theory, Common shortcuts in judging people, Link between perception and individual decision-making. Decision-making in organisations, Ethics in decision-making, Artificial intelligence in managerial decision-making, and Data-driven decision-making.

U4: Foundations in Group Behaviour and Team

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U4-T1. Group Behaviour and Team Dynamics

Description

Defining and classifying groups, Tuckman's model of group development, Factors influencing group behaviour, Group properties – roles, norms, status, size, cohesiveness, Group decision- making – groupthink, group shift, Techniques in group decision-making, Transactional Analysis, Johari Window, Types of teams - green teams, virtual teams, cross-functional sustainability teams. Creating effective teams - Teams and collaborations - Technology-enabled collaboration.

U5: Power, Conflict and Negotiation – Dynamics of Organisational Behaviour

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics, Sustainability

U5-T1. Dynamics of Organisational Behaviour - Power, Conflict and Negotiation

Description

Leadership - shared leadership, transformational leadership, authentic leadership, Ethical and responsible leadership, Leadership for sustainability Power – meaning and sources, Power and politics in organisations, Conflict – process, sources and outcomes, Conflict management, Negotiation process, Negotiation strategies, Global implications of negotiation Organisational culture – definition and functions, Creating and sustaining culture, Organisational culture and climate, Creating a culture for sustainability and innovation, Green organisational culture, Spirituality and organisational culture. Organisational change – meaning, forces for change, Resistance to change – overcoming resistance to change, Approaches to managing organisational change, Behavioural change for sustainability.

Essential Reading

1. Robbins, S. P., & Judge, T. A. (2022). Organizational Behavior (19th ed.). Pearson Education.
1. Luthans, F., Doh, J. P., & Luthans, B. C. (2021). Organizational Behavior: An Evidence-Based Approach (14th ed.). Information Age Publishing.
1. McShane, S. L., & Von Glinow, M. A. (2021). Organizational Behavior: Emerging Knowledge, Global Reality (9th ed.). McGraw-Hill Education.

COURSE NAME: BUSINESS POLICY AND STRATEGIC MANAGEMENT

COURSE CODE: COM402-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the fundamental concepts, evolution, and scope of business policy and strategic management, and articulate the role of strategic intent and governance in modern organizations.

CO2: Analyze the external and internal business environment using strategic tools such as PESTEL, Porter's Five Forces, value chain, RBV, and SWOT to identify strategic issues and opportunities.

CO3: Formulate appropriate business-level, corporate-level, and global strategies—including innovative and sustainable options—based on organizational capabilities and environmental conditions

CO4: Apply strategic models to implement strategies effectively through appropriate structures, leadership, culture, resource allocation, and ethical practices, addressing challenges in strategic change.

CO5: Evaluate organizational strategies using strategic control systems, KPIs, the Balanced Scorecard, and sustainability/ESG metrics to enhance performance and long-term value creation.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Introduction to Business Policy and Strategic Management

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U1-T1. Introduction to Business Policy and Strategic Management

Description

Definition, nature and scope of Business Policy; Evolution of Strategic Management as a field; Concepts of Strategy and Strategic Management; Levels of strategy — corporate, business, and functional; Strategic intent — vision, mission, goals, and objectives; Strategic fit and strategic flexibility; The role of

strategic management in sustainability and corporate governance.

U2: Environmental and Internal Analysis

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U2-T1. Environmental and Internal Analysis

Description

Environmental scanning: PESTEL, Porter's Five Forces Model; Industry life cycle analysis; Competitor analysis and benchmarking; Internal environment: resource-based view (RBV), value chain analysis, core competencies, VRIO framework; SWOT analysis and strategic gap analysis.

U3: Strategy Formulation

Teaching Hours: (14)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U3-T1. Strategy Formulation

Description

Business-level strategies: Cost leadership, differentiation, and focus; Corporate-level strategies: growth, stability, retrenchment, diversification, mergers and acquisitions, strategic alliances, joint ventures, international strategies; Blue Ocean strategy; Global strategic options in the digital era. Integrating core strategic management themes, environmental analysis, competitive advantage, corporate & business-level strategy, and governance with AI-enabled strategic intelligence, scenario planning, decision support systems, & platform strategies.

U4: Strategy Implementation

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U4-T1. Strategy Implementation

Description

Organizational structure and strategy; Resource allocation; Leadership and culture in strategy

implementation; Managing strategic change and innovation; Business ethics and corporate social responsibility in strategy execution; Managing resistance and building commitment.

U5: Strategy Evaluation and Control

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U5-T1. Strategy Evaluation and Control

Description

Nature, importance, and process of strategy evaluation; Strategic control systems; Balanced Scorecard and Key Performance Indicators (KPIs); Measuring strategic effectiveness and organizational performance; Strategic audit; Contemporary issues — digital disruption, sustainability strategy, ESG integration. Embedding green perspectives through sustainability-driven strategy, climate risk assessment, circular & regenerative models, ESG integration, and long-term value creation would help learners engage with strategy as a tool for resilience.

Essential Reading

1. Wheelen, T. L., Hunger, J. D., Hoffman, A. N., & Bamford, C. E. (2023). Strategic Management and Business Policy: Globalization, Innovation, and Sustainability (17th ed.). Pearson Education. Hill, C. W. L., Schilling, M. A., & Jones, G. R. (2023). Strategic Management: Theory and Cases — An Integrated Approach (14th ed.). Cengage Learning. Grant, R. M. (2021). Contemporary Strategy Analysis: Text and Cases Edition (11th ed.). Wiley.

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understanding the foundational concepts and environment of financial strategy.

CO2: Ability to analyze investment alternatives, evaluate capital budgeting decisions, and design appropriate financing strategies.

CO3: Understanding corporate restructuring mechanisms, financial distress indicators, and valuation approaches.

CO4: Ability to analyze cost behavior under risk and apply strategic risk management tools.

CO5: Ability to understand contemporary strategic financial practices and global developments.

Sustainability Development Goals (SDG)

Affordable and clean energy, Consumption and production, Decent work and economic growth, Gender equality, Industry, innovation and infrastructure, No poverty, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities, Sustainable cities, Zero hunger

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Interlinkage of Corporate Strategy and Finance

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. U1-T1. Introduction to Financial Strategy Description Concept of financial strategy, Strategic financial management vs traditional financial management, Goals of financial strategy: wealth maximisation and value creation, Interlinkage between financial objectives and corporate strategy. Relationship between corporate strategy and financial strategy, Strategic financial planning process, Environmental analysis for financial strategy formulation, Corporate Strategy, Diversification and value creation, Business Level Strategies, Testing a Strategy, Innovative Strategies and Business Models, Evaluating a Strategy for its value Creation Potential. Balancing stakeholder expectations against shareholder wealth maximisation.

U2: Capital Allocation and Strategic Financing Decisions

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development
Cross Cutting Issues:
Professional Ethics

U2-T1. U2-T1: Capital Allocation Linkage between strategy and capital budgeting, Principles of Capital Allocation, Improving Capital Productivity, Strategic Planning and Financial Analysis, Investment in capabilities and R&D, Investment Timing Strategy. Advanced Capital Budgeting- Incorporating inflation and capital rationing into strategic investment appraisals (Net Present Value and Internal Rate of Return methodologies).

Description

, and hybrid securities, Risk management using derivatives – forwards, futures, options, swaps, Value at Risk (VaR) and risk-adjusted performance measure,

U2-T2. U2-T2: Strategic Financing Decisions Deep dive into strategic sourcing - Ordinary shares, rights issues, debt instruments, hybrid financing (convertible debt, warrants), and specialised funding (Venture Capital, Private Equity). Capital Structure and Value, Signaling Theory, Tools for Developing Effective Capital Structure, Dividend Policy and Firm Value, Dividend Policy formulation, Rationale and Objectives of Share Buy Back, and Share Buy Back and Valuation, International Sourcing - Sourcing international long-term finance (Eurobonds, ADRs, GDRs, and green finance initiatives).

U3: Corporate Actions, Valuations, and M&A

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. U3-T1. Corporate Actions, Valuations, and M&A Entity Valuation Methods: Practical calculation of enterprise and equity value using Asset-based approaches, Income-based approaches (Free Cash Flow to Firm/Equity models), and Market-based relative valuation metrics (Price-to-Earnings, EV/EBITDA). Mergers, Acquisitions, and Divestments: Strategic motives behind domestic and cross-border M&As. Pricing acquisition targets and computing post-merger share swap exchange ratios. Takeover Dynamics: Understanding regulatory takeover panels, structuring friendly acquisitions, implementing defensive maneuvers against hostile takeovers (poison pills, white knights), and integrating cross-border operations. Demergers and Corporate Splits: Financial evaluation of spin-offs, sell-offs, and equity carve-outs.

U4: Risk Management & Financial Distress

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. U4-T1. Risk Management & Financial Distress

Foreign

Exchange and Interest Rate Risk: Identifying transactional, translational, and economic currency exposures. Hedging and Risk Mitigation: Basic applications of internal hedging

strategies (netting, leading, lagging) and financial derivatives (forwards, money market hedges, futures, swaps, options). Financial Distress & Turnaround Management: Identifying signs of industrial sickness, calculating bankruptcy probabilities (Altman's Z-score), and executing corporate restructuring schemes for distressed entities.

U5: Emerging Trends in Financial Strategy

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. U5-T1. Emerging Trends in Financial Strategy Description Financial strategies for startups and digital businesses, Including Sustainable and ESG-based financial strategies, Fintech and strategic financial decision-making, Behavioral finance and strategic decision-making, and Global financial strategy and cross-border decision-making.

Essential Reading

EXAMINATION PATTERN

COURSE NAME: FINANCIAL STRATEGY AND DECISION MAKING

COURSE CODE: COM402A-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

20 marks CIA 1 50 marks mid sem , 20 marks CIA 3

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: INSOLVENCY LAW AND PRACTICE

COURSE CODE: COM402A-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the legal framework and institutional mechanisms under the Insolvency and Bankruptcy Code (IBC), 2016.

CO2: Apply the provisions and procedures related to Corporate Insolvency Resolution Process (CIRP), including filing, claims, moratorium, and role of stakeholders.

CO3: Analyze insolvency cases with reference to liquidation processes, waterfall mechanism, and avoidance transactions.

CO4: Evaluate resolution plans and strategic restructuring alternatives in line with statutory, procedural, and ethical requirements.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Insolvency Framework

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Introduction to Insolvency Framework

Description

Concept of insolvency; concept of bankruptcy; concept of liquidation; need for IBC 2016; problems with previous regime; scope of IBC; objectives of IBC; structure of IBC; key definitions under IBC; institutional framework under IBC – IBBI, adjudicating authorities (NCLT/NCLAT), DRT, appellate mechanisms; role of insolvency professionals; role of information utilities.

U2: Corporate Insolvency Resolution Process (CIRP)

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U2-T1. Corporate Insolvency Resolution Process (CIRP)

Description

Triggering insolvency – default & initiation by financial/operational creditors/corporate debtors; admission of application & moratorium; public announcement & claims verification; appointment, rights & duties of Interim Resolution Professional (IRP) & RP; Committee of Creditors (CoC) – constitution, powers, voting; resolution plans – preparation, submission, evaluation, approval; fast-track CIRP; withdrawal of application under Section 12A.

U3: Liquidation & Individual Insolvency

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U3-T1. Liquidation & Individual Insolvency

Description

Liquidation process & initiation; liquidator's powers, duties & responsibilities; waterfall mechanism under Section 53; avoidance transactions (PUFE) – preferential, undervalued, fraudulent & extortionate; individual & partnership firm insolvency procedures; fresh start process

U4: Emerging Issues, Cross-border Insolvency & Practical Aspects

Teaching Hours: (13)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Emerging Issues, Cross-border Insolvency & Practical Aspects

Description

Cross-border insolvency – Model Law & India's approach; group insolvency; pre-pack insolvency; out-of-court restructuring; role of RBI frameworks (e.g., stressed asset resolution); current issues, reforms, case laws; fraud management, professional ethics of IPs; drafting applications to NCLT – practical exposure.

U5: Case Studies & Practical Training

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. Case Studies & Practical Training insolvency.

Description

Case study on CIRP; case study on liquidation; review of successful and failed resolution cases; investor and creditor perspectives; best practices.

Essential Reading

1. Sahoo, M. S. – Law Relating to Insolvency & Bankruptcy Code, 2016
1. Taxmann's – Guide to Insolvency and Bankruptcy Code
1. S. K. Kataria & Sons – Insolvency and Bankruptcy Code

EXAMINATION PATTERN

COURSE NAME: INSOLVENCY LAW AND PRACTICE

COURSE CODE: COM402A-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: ADVANCED COST MANAGEMENT

COURSE CODE: COM403A-7

COURSE TYPE: Theory

TOTAL HRS: 60 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Analyze strategic cost management concepts and evaluate cost structures for competitive advantage.

CO2: Apply advanced costing techniques for strategic decision-making and pricing.

CO3: Design and evaluate strategic budgeting and cost control systems.

CO4: Assess organizational performance using responsibility accounting and advanced performance measures

CO5: Critically evaluate contemporary cost management practices for long-term value creation.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking

Course Content

U1: Strategic Cost Management Foundations

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, None

Cross Cutting Issues:

Professional Ethics

U1-T1. Evolution of cost accounting to strategic cost management, Role of cost information in strategy formulation, Value chain analysis, Structural and executional cost drivers, Strategic positioning: cost leadership and differentiation, Cost management across the product life cycle, Strategic cost management and sustainable competitive advantage.

Description

U2: Advanced Costing Techniques for Strategic Decision Making

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Target costing and value engineering, Kaizen costing, Throughput accounting, Relevant costing for strategic decisions, Pricing under competition and capacity constraints,

Product mix, make-or-buy, shutdown, and replacement decisions, Strategic profitability analysis.

Description

U3: Strategic Budgeting and Cost Control Systems

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Limitations of traditional budgeting, Rolling budgets and forecasts, Beyond budgeting concepts, Activity-based budgeting and activity-based management, Cost control versus cost reduction, Behavioral aspects of budgeting, Alignment of budgeting systems with organizational strategy.

Description

U4: Performance Measurement and Responsibility Accounting

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Responsibility accounting and decentralization, Cost centers, profit centers, and investment centers, Transfer pricing methods, Performance measures: Return on Investment (ROI), Residual Income (RI), Economic Value Added (EVA), Balanced Scorecard, Linking performance measurement systems with strategic objectives.

Description

U5: Contemporary Issues in Advanced Costing

Teaching Hours: (12)

Development Needs:

Global, Local, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Strategic profitability analysis, Customer and product profitability, Lean accounting, Sustainability and environmental costing, Cost management in service and digital organizations, Emerging trends in cost management, Case-based analysis in Indian and global business contexts.

Description

Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: BEHAVIOURAL FINANCE

COURSE CODE: COM403A-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Comprehend the theoretical foundations of behavioural finance.

CO2: Identify and evaluate various behavioural biases and heuristics.

CO3: Analyze how behavioural factors influence market anomalies and investment decisions.

CO4: Apply behavioural principles to personal finance and portfolio management.

CO5: Reflect critically on policy implications and ethical concerns in behavioural interventions

Sustainability Development Goals (SDG)

Decent work and economic growth, No poverty, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning

Course Content

U1: Introduction to Behavioural Finance

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Evolution and Scope of Behavioural Finance, Contrasting Traditional and Behavioural Models of Finance, Rationality Assumptions in Classical Finance, Efficient Market Hypothesis (EMH) and its Critique. Foundations of Behavioural Decision Theory, Prospect Theory: Reference points, Diminishing sensitivity, Loss aversion. Key contributors: Daniel Kahneman, Amos Tversky, Richard Thaler

U2: Cognitive Biases and Heuristics

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Heuristics and Biases in Judgement, Availability, Anchoring, Representativeness, Common Cognitive Biases: Overconfidence, Confirmation Bias, Hindsight Bias, Loss Aversion and Disposition Effect, Status Quo Bias, Endowment Effect, Framing, Mental Accounting and Sunk Cost Fallacy, Implications on Investment, Forecasting, Risk-taking

U3: Emotional and Social Influences in Finance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Role of Emotion in Financial Decisions: Fear, Greed, Regret, Pride, Emotional Trading and Market Volatility, Herding Behaviour and Groupthink, Social Influence and Peer Pressure in Markets, Impact of Media, Rumours, and Social Media, Introduction to Neurofinance: Brain and Decision-Making

U4: Market Anomalies and Behavioural Explanations

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Overview of Market Anomalies: Momentum, Reversals, Value-Growth Anomalies, Calendar Effects (January Effect, Weekend Effect), Speculative Bubbles and Crashes:

Behavioural Causes of Market Booms & Busts, Limits to Arbitrage, Role of Noise Traders

Case Studies: Tulip Mania, Dot-com Bubble, 2008 Crisis

U5: Applications and Contemporary Issues

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Behavioural Portfolio Theory (BPT) vs. Modern Portfolio Theory, Behavioural Asset Pricing Models, Behavioural Financial Planning and Personal Finance, Investor Profiling and Risk Assessment Tools, Use of Nudges in Finance (Thaler & Sunstein), Behavioural Insights in Retirement, Insurance, Credit Cards, Ethical Concerns and Criticisms of Behavioural Finance, Regulatory and Policy Implications (SEBI/Global insights)

Essential Reading

Ackert, L. F., & Deaves, R. (2010). Behavioural Finance: Psychology, Decision-Making, and Markets
Chandra, P. (2017). Behavioural Finance – Tata McGraw Hill

EXAMINATION PATTERN

COURSE NAME: BEHAVIOURAL FINANCE

COURSE CODE: COM403A-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I (20 MARKS) + CIA II (50 MARKS) + CIA III (20 MARKS)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE 100 MARKS

Written examination conducted for 3 hours duration: Sections Type Marks
A Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks $7 \times 5 = 35$
B Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks $5 \times 10 = 50$
C Case Study (Compulsory) $1 \times 15 = 15$

COURSE NAME: CAPSTONE PROJECT

COURSE CODE: COM481-7

COURSE TYPE: Practical

TOTAL HRS: 8 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Identify and define a domain related research problem that requires data-driven analysis.

CO2: Apply financial, statistical, and computational tools to analyze real-world data.

CO3: Analyze relationships and patterns within financial datasets using appropriate models.

CO4: Evaluate the robustness and reliability of analytical outcomes.

CO5: Design and present a data-driven solution or model that addresses a financial problem

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking

Course Content

U1: Project Submission Phases

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Phases of Project: Phase 1: Orientation and Proposal Development Weeks 1–2 - Introduction to project-based learning and applied research in finance- Topic selection and scope definition- Proposal writing and approval process Project proposal (Title, objectives, rationale, data source, methodology) Phase 2: Literature Review and Conceptual Framework Weeks 3–4 - Review of relevant academic and industry literature- Identification of variables and hypotheses- Building conceptual and analytical framework Literature review report and research design Phase 3: Data Collection and Preparation Weeks 5–6 - Data sourcing (Bloomberg, NSE, RBI, Yahoo Finance, Kaggle, etc.)- Data cleaning, preprocessing, and descriptive analysis. Cleaned dataset and exploratory data analysis report Phase 4: Model Building and Analysis Weeks 7–11 - Model development using econometrics, machine learning, or financial modeling tools- Application of Python, R, or Excel for analysis- Validation and performance testing

Description

Phase | Weeks | Focus Area | Expected Deliverables | Phase 1: Orientation and Proposal Development | Weeks 1–2 | - Introduction to project-based learning and applied research in finance- Topic selection and scope definition- Proposal writing and approval process | Project proposal (Title, objectives, rationale, data source, methodology) | Phase 2: Literature Review and Conceptual Framework | Weeks 3–4 | - Review of relevant academic and industry literature- Identification of variables and hypotheses- Building a conceptual and analytical framework | Literature review report and research design | Phase 3: Data Collection and Preparation | Weeks 5–6 | - Data sourcing (Bloomberg, NSE, RBI, Yahoo Finance, Kaggle, etc.)- Data cleaning, preprocessing, and descriptive analysis | Cleaned dataset and exploratory data analysis report | Phase 4: Model Building and Analysis | Weeks 7–11 | - Model development using econometrics, machine learning, or financial modeling tools- Application of Python, R, or Excel for analysis- Validation and performance testing | Analytical model with output, interpretation, and visualizations | Phase 5: Report Writing and Presentation | Weeks 12–15 | - Structuring report (Abstract, Methodology, Results, Conclusion)- Final presentation and viva preparation | Final report, project presentation, and viva voce | Phase 6: Evaluation and Reflection | Week 16 | - Final evaluation by panel- Reflection on learning outcomes | Evaluation report and reflective summary |

U2: Suggested Project Themes

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. ♦ Financial Markets & Investment Analytics • Predicting stock price movements using machine learning • Sentiment analysis of financial news and its impact on stock returns • Portfolio optimization using risk-return analytics • Volatility modeling using GARCH or ARIMA models ♦ Corporate Finance & Valuation • Startup valuation using financial ratios and cash flow models • Financial distress prediction using logistic regression or random forest • Cost of capital and capital structure optimization ♦ Banking & Risk Analytics • Credit risk modeling using historical default data • Loan default prediction using classification algorithms • Value-at-Risk (VaR) and Expected Shortfall computation for portfolios ♦ Macroeconomics & Policy Analysis • Exchange rate forecasting using time series models • Impact of macroeconomic indicators on stock market performance • Inflation forecasting using ARIMA or regression techniques

Description

Financial Reporting & ESG Analytics • ESG disclosure sentiment analysis using NLP

- Financial statement fraud detection using anomaly detection
- Earnings call transcript analysis and its impact on firm performance

EXAMINATION PATTERN

COURSE NAME: CAPSTONE PROJECT

COURSE CODE: COM481-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Evaluation and Assessment Structure (100 Marks)

Component | Weightage | Evaluation Criteria | Project Proposal | 10% | Clarity of problem statement, feasibility, and research plan | Literature Review | 10% | Depth of review, conceptual framework | Data Preparation & Analysis | 20% | Data quality, methodology, and statistical rigor | Model Building & Findings | 25% | Accuracy, interpretation, and innovation | Final Report | 20% | Structure, clarity, referencing, and conclusions | Presentation & Viva | 15% | Communication, defense, and analytical insights |

COURSE NAME: INTERNSHIP

COURSE CODE: COM481-8

COURSE TYPE: Practical

TOTAL HRS: 30 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Apply theoretical knowledge to real-world business environments

CO2: Demonstrate professional skills and workplace competencies

CO3: Critically analyse business operations and organizational practices

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to the Organization

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. 1.1 Profile of the organization (including evolution, awards and recognition) 1.2

Vision, Mission, Goals

U2: Organizational Design and Functional Areas

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. 2.1 Organization design & structure 2.2 Departments and Divisions 2.3 Product/s and Service/s 2.4 Business Model

Description

- Hierarchical/flat/matrix structure (include organogram if possible) • Overview of key functional

departments • Major offerings, features, target market • Revenue generation, customer acquisition, delivery mechanism

U3: Key Performance Areas (KPA's), Organizational Control and Strategies

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. 3.1 KPA's of the various departments 3.2 Accounting Standards & Reporting followed 3.3 HR Practices 3.4 Financial Highlights 3.5 Modes of Marketing 3.6 Integration of AI 3.7 Tax Filing & Auditing 3.8 SWOC Analysis of the Organization (Based on the intern's observation and analysis supported by facts)

Description

KPAs across various departments (Sales, HR, Finance, etc.) • IND AS, internal reporting systems, compliance frameworks • Recruitment, appraisal, training, and retention strategies • Key financials (Turnover, Profit, Investments – if available) • Digital, traditional, B2B/B2C approaches, branding • Use of AI, automation tools, ERP systems, CRM tools • Tax practices, statutory audit process, internal audits • Strengths, Weaknesses, Opportunities, Challenges • Factors driving organisational growth and sustainability • Intern's strategic operational recommendations

U4: Course Learning Outcomes and Conclusion

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U4-T1. 4.1 Applications of Theoretical Knowledge to Real-World Business Environments 4.1.1 Relevance of Academic Theories (Accounting, Finance, HR, etc.) 4.1.2 Gaps or Irrelevance Identified 4.2 Professional Skills and Workplace Competencies 4.2.1 New Skills Acquired During Internship 4.2.2 Existing Skills Nurtured or Strengthened 4.2.3 Skills/Competencies Identified for Further Development 4.2.4 Input from Key Personnel

Description

4.3 Critical Analysis of Business Operations and Practices

4.3.1 Good Business Practices Observed

4.3.2 Practices Worth Replicating at CHRIST University

Conclusion

Summary of internship experience

Key takeaways and reflections

Impact of internship on career readiness

EXAMINATION PATTERN

COURSE NAME: INTERNSHIP

COURSE CODE: COM481-8

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Assessment (Marks Distribution) Weekly Report Submission - 40 Marks Industry Mentor's Evaluation - 20 Marks Internship Mentor's Evaluation - 40 Marks Internship Report Evaluation - 50 Marks Viva Voce Examination - 50 Marks Total - 200 Marks

COURSE NAME: QUANTITATIVE RESEARCH METHODS

COURSE CODE: COM501R-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, necessity, and defining characteristics of quantitative research, and distinguish it from qualitative research

CO2: Design a basic survey framework by identifying suitable sampling methods, data collection modes, and approaches to minimize non-response bias.

CO3: Develop valid and reliable survey instruments through appropriate question design, scaling, and pretesting techniques.

CO4: Evaluate experimental designs and identify strategies to ensure validity, control variables, and derive causal inferences in business research.

CO5: Perform and interpret statistical analyses ethically, integrating quantitative findings into evidence-based business decision-making.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Motivation and self-awareness, Technological literacy

Course Content

U1: Foundations of Quantitative Research

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Quantitative Research -. Nature, Necessity, and Importance - Relevance and Urgency in the Data-Driven Era (ADHOGS & DVUCA) - Defining Characteristics: Scope, Objectivity, Goal, Data, and Method - Quantitative vs. Qualitative Research - Strengths and Shortcomings

U2: Introduction to Survey Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Survey Research – Meaning and Purpose – When and Why Surveys Are Used – Types of Surveys (Cross-Sectional, Longitudinal) – Sampling in Survey Research (Sampling Frame, Probability & Non-probability Methods) – Non-response and Bias Reduction – Modes of Survey Data Collection (Mail, Telephone, Online, Face-to-Face) – Implementation and Ethical Considerations

U3: Advanced Considerations in Survey Research

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Designing Good Measures – Question Design and Wording – Scales and Response Formats – Reliability and Validity of Instruments – Pre-testing and Pilot Studies – Survey Implementation and Interviewer Training – Data Preparation (Coding, Cleaning, Data Entry) – Ethical and Error Perspectives (Total Survey Error, Bias Control)

U4: Experimental Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Experimental Research – Concept and Purpose – Independent and Dependent Variables – Randomization and Control – True, Quasi-, and Field Experiments – Internal and External Validity – Threats to Validity and Control Techniques – Practical Applications in Commerce and Management Contexts – Ethical Issues in Experimental Studies

U5: Data Analysis in Quantitative Research

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Data Preparation – Handling Missing Data and Outliers – Testing Assumptions (Normality, Linearity, Multicollinearity) – Descriptive and Inferential Statistics (Mean, SD, t-test, ANOVA, Correlation, Regression) – Multivariate Analysis (Factor Analysis, CB-SEM, PLS-SEM) – Hypothesis Testing and Error Types (I–IV) – Effect Size and Statistical Power – Interpreting and Reporting Results – Ensuring Reproducibility and Ethical Reporting
Essential Reading

1. Fowler, F. J. (2025). Survey research methods (Reprint 5th ed.). SAGE Publications.
1. Campbell, D. T., & Stanley, J. C. (2025). Experimental and quasi-experimental designs for research. Ravenio Books.
1. Field, A. (2025). Discovering statistics using IBM SPSS statistics (5th ed.). SAGE Publications.

EXAMINATION PATTERN

COURSE NAME: QUANTITATIVE RESEARCH METHODS

COURSE CODE: COM501R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA - I - 20 CIA - II - 50 CIA -III - 20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A - 7 x 5 = 35

Section B - 5 x 10 = 50 Section C - 1 x 15 = 15

COURSE NAME: QUALITATIVE RESEARCH METHODS

COURSE CODE: COM502R-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, design process, and ethical considerations of qualitative research.

CO2: Distinguish among the five qualitative research approaches and identify suitable designs for business contexts.

CO3: Develop qualitative research problems, purpose statements, and research questions aligned with study objectives.

CO4: Apply appropriate methods for qualitative data collection, coding, and thematic analysis using software tools.

CO5: Write and evaluate qualitative research reports incorporating reflexivity, validation, and ethical standards.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Technological literacy

Course Content

U1: Designing a Qualitative Study

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Qualitative Research – Meaning - Characteristics and purpose of qualitative research - When to use qualitative research - Ethical considerations and preliminary design issues - Steps in the qualitative research process - Components of a qualitative research proposal.

U2: Five Qualitative Approaches to Inquiry

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Overview of five approaches – Narrative, Phenomenological, Grounded Theory, Ethnographic, and Case Study – Definition, features, and procedures of each approach – Application in business and management research – Challenges in each approach – Comparison of approaches.

U3: Introducing and Focusing the Study

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Formulating the research problem – Developing purpose and research questions – The central question and sub-questions – Aligning research questions with the chosen qualitative approach – Writing qualitative purpose statements and research questions.

U4: Data Collection, Analysis and Representation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Data Collection: Meaning and process of data collection in qualitative studies – The data collection circle – Selection of sites and participants – Purposeful sampling strategy – Forms of data: interviews, observations, documents, audiovisual materials – Field issues and ethical considerations.

U4-T2. Data Analysis and Representation: Organising, coding, and categorising qualitative data – Data analysis spiral – Thematic analysis – Representing and visualising data – Introduction to qualitative software (NVivo, Atlas.ti, MAXQDA).

U5: Writing, Validation and Evaluation in Qualitative Research

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Writing qualitative research reports – Structure and style – Reflexivity and representation – Validation and reliability in qualitative research – Strategies for trustworthiness – Evaluation standards for qualitative studies.

Essential Reading

Creswell, J. W., & Poth, C. N. (2025). Qualitative Inquiry and Research Design: Choosing Among Five Approaches (4th ed.). SAGE Publications.

EXAMINATION PATTERN

COURSE NAME: QUALITATIVE RESEARCH METHODS

COURSE CODE: COM502R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA - I - 20 CIA - II - 50 CIA - III - 20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A - 7 x 5 = 35 Section B - 5 x 10 = 50 Section C - 1 x 15 = 15

COURSE NAME: RESEARCH DISSERTATION

COURSE CODE: COM581R-8

COURSE TYPE: Practical

TOTAL HRS: 360 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Demonstrate the ability to plan and execute a research project within defined time constraints and available resources.

CO2: Perform a substantial review of literature relevant to the chosen research topic to justify the significance of the study.

CO3: Demonstrate mastery of quantitative or qualitative research skills applicable to commerce and management contexts.

CO4: Demonstrate a clear knowledge and understanding of ethical standards in data collection, reporting, and academic integrity

CO5: Demonstrate effective communication of complex business concepts through both a written document and an oral presentation

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Dissertation Proposal

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Before beginning the full dissertation, candidates must submit a proposal that proves the research is novel, significant, and feasible.

Description

Content and Structure• Specific Aims: Concisely state research goals, hypotheses (if applicable), and the expected impact on management practices or commerce theory.

Research Strategy:• Significance: Explain the critical barrier in commerce/management the project addresses and how it improves existing professional knowledge.

- Innovation: Describe any novel theoretical frameworks, methodologies, or applications that challenge current business paradigms.
- Approach: Detail the methodology (e.g., quantitative, qualitative, or mixed methods) and data analysis plans.
- Timeline and Milestones (1 page): A outline of benchmarks, from data collection to the final defense.
- Preliminary Studies: Discuss any initial data or pilot studies conducted to establish the feasibility of the project.

U2: Dissertation Structure

Teaching Hours: (295)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Dissertation is divided into three parts - Preliminary Pages, Main Body and End Matter

Description

PRELIMINARY PAGES

1. Title Page - Title of the Dissertation, Student Name & Register Number, Programme: BCom (Honours) with Research, Department / Institution Name, Supervisor Name & Designation, Academic Year 2. Declaration by the Student - Certificate from the Supervisor, Acknowledgements (Optional but recommended) 3. Abstract - 200–300 words, Background, Objectives, Methodology, Key findings, Keywords (4–6) 4. Table of Contents 5. List of Tables 6. List of Figures (if applicable) 7. List of Abbreviations (if applicable)

B. MAIN BODY OF THE DISSERTATION

Chapter I – Introduction - Background of the Study, Conceptual / Theoretical Context, Statement of the Problem, Need and Significance of the Study, Objectives of the Study, Research Questions , Scope of the Study, Limitations of the Study, Chapterisation Scheme

Chapter II – Review of Literature and Hypotheses Development - Introduction, Review of International Studies, Review of National Studies, Research Gap Identification, Conceptual Framework / Research Model (if applicable), Hypothesis Development Chapter - 3 Research Methodology

Chapter - 4 Data Analysis and Interpretation

Chapter V – Findings, Suggestions and Conclusion

END MATTER

References and Appendices

U3: Other Guidelines

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Font Style: Times New Roman Font Size (Preliminary Pages): 14 point (e.g., Title Page, Abstract, Table of Contents). Font Size (Main Body): 12 point. Line Spacing: 1.5 spacing throughout (No double spacing). Margins: One inch on all sides. APA 7th edition guidelines to be followed. Final Viva Voce Examination. Students are encouraged to present their work in the conferences. They are also encouraged to convert their research into Scopus, WoS, or ABDC publications.

EXAMINATION PATTERN

COURSE NAME: RESEARCH DISSERTATION

COURSE CODE: COM581R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA Overall = 300

COURSE NAME: FINANCIAL REPORTING - IFRS

COURSE CODE: COSF401-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain and interpret the IFRS conceptual framework and presentation requirements for general-purpose financial statements in a cross-border context.

CO2: Apply IFRS to complex transactions in revenue, leases, non-current assets, provisions, and income taxes with appropriate disclosures.

CO3: Evaluate, classify, and account for financial instruments under IFRS 9/IFRS 7/IFRS 13, including impairment and hedge accounting.

CO4: Prepare and analyze consolidated financial statements under IFRS (IFRS 10, IFRS 3, IFRS 11, IAS 28, IAS 21), including complex group structures and foreign operations.

CO5: Critically analyze IFRS-based financial reports of multinational entities, including EPS, segment reporting, share-based payments, employee benefits, and IFRS for SMEs, and communicate findings to stakeholders.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Technological literacy

Course Content

U1: IFRS Framework, Presentation & Global Context

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. IASB, due process, hierarchy of IFRS literature; difference between rules-based and principles-based frameworks. IFRS Conceptual Framework: objectives of GPFR, qualitative characteristics, reporting entity, elements, recognition, measurement bases. IAS 1: Presentation of Financial Statements – structure, fair presentation, OCI, non-controlling interests, notes. IAS 8: Accounting policies, changes in estimates, errors. Distinction from Ind AS where relevant (only at comparative/highlight level)

U2: Performance Reporting under IFRS – Revenue, Leases & Related Areas

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U2-T1. IFRS 15: 5-step model; variable consideration; significant financing; principal vs agent; contract modifications; licensing; bundled contracts; extensive caselets. IFRS 16: Lessee and lessor accounting, ROU assets, lease modifications, sale and leaseback. IAS 16, IAS 38, IAS 40, IAS 36: PPE, intangibles, investment property, impairment cash-generating units. IAS 37: Provisions, contingent liabilities, onerous contracts, decommissioning.

U3: Financial Instruments & Fair Value

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. IFRS 9: Classification (amortised cost, FVOCI, FVTPL); business model tests; embedded derivatives. Expected Credit Loss (ECL) model; staging; trade receivables; illustrative bank / fintech case. Hedge accounting: cash flow hedges, fair value hedges, net investment hedges. IFRS 7: Risk disclosures (credit, liquidity, market) and sensitivity analysis. IFRS 13: Fair value hierarchy; Level 1/2/3; valuation techniques; disclosure integration.

U4: Business Combinations & Group Reporting

Teaching Hours: (16)

Development Needs:

Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. IFRS 3: Acquisition method; consideration, NCI measurement options, goodwill/bargain purchase, step acquisitions. IFRS 10: Control model (power, returns, linkage); de facto control; potential voting rights; structured entities. IFRS 11: Joint operations vs joint ventures; accounting implications. IAS 28: Equity method; upstream/downstream transactions. Consolidation mechanics: elimination entries, intragroup inventory and PPE, unrealised profits, intra-group loans and interest.

U5: Specialized Topics, IFRS for SMEs & Current Developments

Teaching Hours: (8)

Development Needs:

Local

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Sustainability

U5-T1. IAS 19: Employee benefits (defined benefit overview, actuarial assumptions – conceptual, not actuarial math heavy). IFRS 2: Share-based payment – equity vs cash-settled, basic computations, expense recognition. IAS 12: Income taxes – temporary differences, deferred tax on key items, interaction with business combinations. IAS 33 & IFRS 8: EPS and segment reporting – performance communication. Overview: IFRS for SMEs framework vs

full IFRS (only high-level contrast).

Description

Brief introduction to sustainability-related financial disclosures (ISSB IFRS S1 & S2) as they connect to investor-focused reporting (descriptive).

Essential Reading

IFRS Foundation. IFRS Accounting Standards—Required 1 January 2025. London: IFRS Foundation, 2025.

IFRS Foundation. IFRS Accounting Standards—Issued 1 January 2025. London: IFRS Foundation, 2025.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL REPORTING - IFRS

COURSE CODE: COSF401-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Sections | Type | Marks | A | Conceptual/Descriptive type questions (One internal choice question) | 3*5 = 15 | B | Analytical/Essay type questions (One internal choice question) | 2*10 = 20 | C | Case Study-Compulsory question | 1*15 = 15 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x15 = 15 |

COURSE NAME: FEDERAL TAXATION

COURSE CODE: COSF401-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Describe the structure, sources, and administration of the U.S. federal tax system, including ethical standards for tax professionals.

CO2: Compute U.S. federal taxable income and tax liability for individuals, integrating inclusions, exclusions, deductions, and credits in standard CPA-style problems.

CO3: Apply federal tax rules to C corporations and pass-through entities, including formation, operations, distributions, and basic compliance considerations.

CO4: Analyze and compute federal tax consequences of property transactions, loss limitations, and basic estate & gift scenarios.

CO5: Use primary U.S. tax authorities and research tools to resolve issues, evaluate tax positions, and understand controversy/penalty provisions.

Sustainability Development Goals (SDG)

Decent work and economic growth, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Technological literacy

Course Content

U1: U.S. Federal Tax System, Authorities & Ethics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. U.S. Federal Tax System, Authorities & Ethics

Description

Objectives and structure of the U.S. federal tax system; progressive taxation; key terminology.

Primary authorities: Internal Revenue Code, Treasury Regulations, IRS guidance, court decisions; hierarchy of authority. Filing considerations: taxpayers, filing status, dependency rules (overview), due dates, payment & extensions. Overview of IRS administration: audits, notices, assessments, collections, statute of limitations. Ethical framework: AICPA Statements on Standards for Tax Services, Circular 230 responsibilities, penalties for preparers & taxpayers; professional responsibility link to CPA REG. Contrast with Indian system at conceptual level only (no computational overlap).

U2: Individual Federal Income Taxation

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Individual Federal Income Taxation

Description

Gross income vs exclusions: compensation, fringe benefits, interest, dividends, rental income, unemployment, Social Security (overview), scholarships; common exclusions. Deductions: for AGI vs from AGI; standard vs itemized; medical, taxes, interest, charity, casualty, misc. Adjustments: retirement contributions basics, student loan interest, HSA, etc. Tax computation: rate schedules, kiddie tax overview, self-employment tax (basic conceptual coverage). Tax credits: child and dependent credits (overview), education credits, foreign tax credit (intro). Introduction to Alternative Minimum Tax (framework only).

U3: C Corporations and Other Business Taxation

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. C Corporations and Other Business Taxation

Description

C corporation formation (Section 351 concept), control requirement, property transfers; basis rules. Operating rules: taxable income, charitable contributions, DRD (dividends received deduction) – conceptual; NOLs overview. Corporate distributions: dividends, E&P concept (high level), stock redemptions – characterization framework. Corporate liquidations (basic consequences to corporation & shareholders). Overview of Accounting periods, methods, and common elections. Exposure to tax issues relevant to US GAAP/IFRS reporting.

U4: Pass-through Entities – Partnerships & S Corporations

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Partnerships: formation, contributions, outside vs inside basis, profit/loss allocations, distributions (current vs liquidating – basic), loss limitation framework (basis/at-risk/passive – conceptual). Limited liability companies (LLCs) and check-the-box rules (overview). S corporations: eligibility, election, shareholder basis, income/loss pass-through, distributions. Comparative analysis of C corps vs pass-throughs for planning purposes (non-duplicative of Indian tax).

U5: Property Transactions, Estate/Gift & Tax Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Property Transactions, Estate/Gift & Tax Research

Description

Capital gains & losses: holding periods, netting, preferential rates (conceptual), limitations. Section 1231, 1245, 1250 concepts (qualitative and selected calculations). Non-recognition provisions (like-kind exchanges etc. – conceptual overview). Loss limitations recap for individuals & entities (integrated view). Estate & gift tax: basic concepts (taxable transfers, unified credit, annual exclusion). Intro to U.S. international tax touchpoints: source rules, overview of double taxation relief (only conceptual for global exposure). Tax research: using Internal Revenue Code, regulations, IRS publications, commercial databases; documenting a tax file memo. Tax controversy: penalties, interest, dispute resolution options (appeals, courts) – link to ethics and governance.

Essential Reading

United States Congress. Internal Revenue Code of 1986, as amended. Selected sections (latest official version via U.S. Code / IRS).

Internal Revenue Service. Primary IRS Publications (latest editions): Pub. 17 (Your Federal Income Tax), Pub. 334 (Tax Guide for Small Business), Pub. 463, Pub. 535, Pub. 541, Pub. 542, etc.

Internal Revenue Service. Regulations Governing Practice before the Internal Revenue Service (Circular 230). Latest revision.

Internal Revenue Service. Official IRS Website Materials (irs.gov). Latest forms, instructions, FAQs, and guidance.

EXAMINATION PATTERN

COURSE NAME: FEDERAL TAXATION

COURSE CODE: COSF401-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 2 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 |

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal

choice). Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |
