CO5: Analyze and evaluate foreign currency transactions and interim financial reports as per Ind AS 21 and Ind AS 34, applying professional judgment and ethical considerations.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control

Course Content

U1: Introduction to Indian Accounting Standards

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Accounting standards - Ind AS - IFRS – Applicability - Differences between IND AS and IFRS. Conceptual Framework for Financial Reporting - Objectives- usefulness and limitations of general purpose financial reporting- Qualitative characteristics of useful financial information- The cost constraint on useful financial reporting - Financial statements and Reporting Entity- The elements of financial statements- Recognition and Derecognition- Measurement- Presentation and disclosure- Concepts of cap

Description

Concepts of capital and capital maintenance.

U2: Indian Accounting Standards 113

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Scope- Applicability- Objectives- Core Principles- Definition – Key Concepts- Transactions- Exit Price- Entry Price- Principal Market- Most Advantageous Market- Market Participants- Valuation of Assets & Liabilities- Disclosures
Description

U3: Indian Accounting Standards – 01

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Ind AS – 01 - Presentation of financial statements: Scope- Objective – Financial Statements- Purpose - Features – Components of Financial Statements - Presentation requirements - Comparison of AS-1 with IND AS-1
Description

U4: Asset Related Standards

Teaching Hours: (27)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. U4-T1. Ind AS – 02 – Inventories

Description

Objective – Definition - Applicability - Measurement of Inventory - Methods of Valuation – Cost Formula - Specific identification method – First in First out method - Weighted Average cost - Standard cost - Retail method - Net realizable value - Disclosure in the financial statement - Comparison of AS-2 with IND AS 2.

U4-T2. Ind AS – 16 -Property Plant and Equipment:

Description

Objectives – Scope – Relevant Definition – Recognition – Measurement – Revaluation – Depreciation – Impairment – Derecognition - Disclosure - Differences between IND AS 16 and AS 10.

U4-T3. Ind AS – 38-- Intangible Assets

Description

Overview – Objective – Scope – Applicability – Definition - Identification of Intangible Assets – Recognition – Measurement - Cost and Revaluation Model – Impairment – Retirement – Disposal – Disclosure - Differences between IND AS 38 and AS 26.

U5: Other Standards

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Ind AS – 21 -Effects of changes in Foreign Exchange Rates

Description

Need and objective - Scope and applicability - foreign currency transactions – Definitions - Recording foreign currency transaction using functional currency – Translation to the presentation currency from functional currency – Translation of foreign operation – Disposal of foreign currency - Comparison of AS-11 with IND AS-21.

U5-T2. Ind AS – 34 -Interim Financial Reporting

Description

Introduction – Objective – Scope - Relevant Definitions – Recognition and Measurement - Forms and content of Interim Financial statement – Significance events and transactions – Disclosure – Restatement – Impairment - Differences between IND AS 34 and AS 25.

Essential Reading

2. Taxmann. (2020). Taxmann’s Guide to Indian Accounting Standards (Ind AS)-Based on IFRS Official Pronouncements (Set of 2 Volumes)(5th Edition August 2020). Taxmann Publications Private Limited.

EXAMINATION PATTERN

COURSE NAME: INDIAN ACCOUNTING STANDARDS

COURSE CODE: MCO401-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: BUSINESS ETHICS AND CORPORATE GOVERNANCE

COURSE CODE: MCO401-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - II)

Analytical thinking, Creative thinking, Dependability and attention to detail, Leadership and social influence, Motivation and self-awareness, Technological literacy

Course Content

U1: Introduction to Managerial Economics

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

None

U1-T1. Unit 1: Introduction to Managerial Economics

Description

The Nature and Scope of Managerial Economics:-the economic approach to business decisions. Some qualitative preliminaries in the managerial decision making process: How to make the right choices? -- Cost, value and price as the major determinants for creating economic profit; Markets: -Competitive markets, market power, imperfect markets.

U2: Theory of Consumer Behaviour

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Unit 2: Theory of Consumer Behaviour

Description

Utility: concept and management—optimization: the cardinal approach an ordinal approach-indifference curves—properties and uses—consumer equilibrium consumer surplus. Individual Demand:

Construction; Slope; Preferences; Law of Demand; Demand Curve; Demand and Income; Income Changes; Normal vs. Inferior Goods; Other Factors in Demand; Complements and Substitutes; Advertising; Durable Goods. Market Demand: Construction. The Concept of the Elasticity :Own Price Elasticity of Demand; Construction and Properties; Intuitive Factors; Elasticity and Slope. Other elasticities: Income and Cross-Price Elasticities; Advertising Elasticity.

U3: Theories of Production and Cost

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Unit 3: Theories of Production and Cost

Description

The Production Function: Inputs and Outputs, marginal products, diminishing returns to an input From the Production Function to Cost Curves Supply, Output and Costs: Short Run Costs; Fixed vs. Variable Costs; Other Key Concepts: Marginal Cost and Average Cost; Technology; Short Run Individual Supply; Production Rate; Break even; Individual Supply Curve. Long Run Individual Supply: Long Run Costs; Production Rate; Break even Market Supply: Short Run vs. Long Run Seller Surplus: Price vs. Marginal Cost.

U4: Market Structure

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U4-T1. Unit 4: Market Structure

Description

Perfect Competition: Definition and Necessary Conditions: Homogeneous Product; Many Buyers and Sellers Arguments; Free Entry and Exit; Equal Information; Market Equilibrium: Demand and Supply; Excess Supply and Excess Demand. Adjustment Time: Short-Run vs. Long-Run Analysis; Price and Quantity over Time Why Governments Control Prices: Price Ceilings and Price Floors.

Monopoly: features -types - price - output determination - price discrimination : features conditions to make price discrimination more effective - price output determination -Monopolistic competition : features - product differentiation - price output determination - Oligopoly: features -Kinked demand curve - price output determination - administered prices.

U5: National Income Accounting

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Unit 5: National Income Accounting

Description

Basic concepts: circular flow of income and wealth, methods for measuring National Income, problems. Theory of Employment: classical theory of employment, Keynesian models, multiplier, accelerator principles.

U6: Macroeconomic Stability

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U6-T1. Unit 6: Macroeconomic Stability

Description

Inflation: types:-demand pull-cost push-structural inflation. Impacts on economy, causes and effects. Solutions: fiscal and monetary policies. Philips curve. Business cycle: phases of Business cycle, policy implications. Globalizations of Indian Business. Nature of Globalization – Effects on Indian Economy – India and competitiveness. CIA 1 - Part B = 10 marks

CIA 2 - 50 marks, Section A ($5 \times 3 = 15$ marks), Section B ($10 \times 2 = 20$ marks), Section C ($15 \times 1 = 15$ marks)

CIA 3 - 20 marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A: $7 \times 5 = 35$,

Section B: $5 \times 10 = 50$,

Section C: $1 \times 15 = 15$

COURSE NAME: SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT

COURSE CODE: MCO402-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - II)

Course learning Outcomes

CO1: Explain various concepts relating to Security Analysis and Portfolio Management

CO2: Apply the statistical techniques using Microsoft excel to figure out the risk and return of investments.

CO3: Calculate the true value of a security

CO4: Analyse a company fundamentally and technically and make appropriate recommendations for Investment planning

CO5: Construct portfolio using the various tools and techniques of SAPM.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Financial Markets & Securities

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Structure of Indian Financial System - Objectives and Functions of Financial System- Financial markets – functions- classification- Primary Market - its role and functions-Stock Exchanges in India: History and development- importance and functions- Stock exchanges- Bombay Stock Exchange- National Stock exchange- Role of SEBI in capital market- Global Securities Market- overview- Introduction to investment- Meaning of Investment- Investment v/s speculation- Investment process-

Description

investment categories- investment attributes- objectives of investments- types of investors- Hedging- Innovative financial instruments- Common pitfalls and tips for investing. Evolution of Fintech and its impact on financial markets.

U2: Risk & Return

Teaching Hours: (8)

Development Needs:

None

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U2-T1. Meaning of risk & return –Types of risks-Components of return-Measuring historical return- measuring historical risk-Measuring return and risk under both certain and uncertain conditions, -Concept of probability- Calculation of systematic risk-Beta calculation.

Description

Meaning of risk & return –Types of risks-Components of return-Measuring historical return- measuring historical risk-Measuring expected return and risk-Concept of probability-Calculation of systematic risk-Beta calculation

U3: Valuation of Securities

Teaching Hours: (9)

Development Needs:

None

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Concept of value-Meaning of Intrinsic value, and time value concept (Only PV of single amount & PV of annuity) - Bond valuation- Current yield- YTM- YTC- pricing theorems (specific only) Duration (simple problems) Equity valuation-1-year and multiple-year holding period-Constant growth model-Multiple growth model (only concept).

Description

Concept of value-Meaning of Intrinsic value and time value concept (Only PV of single amount & PV of annuity)- Bond valuation- Current yield- YTM- YTC-Bond pricing theorems(specific only) Duration(simple problems). Equity valuation-1year and multiple year holding period-Constant growth model-Multiple growth model (only concept)

U4: Fundamental Analysis & Technical Analysis

Teaching Hours: (12)

Development Needs:

None

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Fundamental Analysis: EIC analysis- Economic analysis- tools for economic analysis- Industry analysis- standard industrial classification- tools for industry analysis- quantitative industry analysis- company analysis- tools for company analysis. Technical Analysis Charting tools- charts- line charts- line and volume charts- reversal patterns- continuation patterns- bar chart- candlestick chart- point and figure chart-Relative Strength Index-Support & Resistance- Dow Theory- Elliott wave theory

Description

tools of technical analysis- market structure- and market indicators -Efficient Market Hypothesis

U5: Portfolio Management

Teaching Hours: (15)

Development Needs:

None

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Meaning of portfolio management-portfolio construction- approach & process of portfolio construction- Expected return and expected risk of a portfolio (2 securities only).

Description

Portfolio Theory & Selection

Modern portfolio analysis-diversification-Meaning and simple problem Markowitz model (Only theory)- Sharpe's single index model-measuring portfolio return using SI model (only problems on return)- CAPM model- Efficient frontier with risk-less lending-CAPM equation-CML & SML-Pricing of securities with CAPM -Tax implications of different investments.

U6: Portfolio Evaluation

Teaching Hours: (8)

Development Needs:

None

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U6-T1. Growth investing- value investing- passive and active portfolio management- Rupee cost averaging formula plans- performance Index- Portfolio revision- Sharpe's - Treynor and Jensen's measures of portfolio evaluation- portfolio hedging.

Description

Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

3 Hrs ESE will be conducted for 100 Marks

Sections | Type | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | C | Case Study (Compulsory) |

COURSE NAME: STRATEGIC COST MANAGEMENT

COURSE CODE: MCO403-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - II)

Course learning Outcomes

CO1: Understand the concept of Costing and Strategic Cost Management to apply them in cost control and cost reduction.

CO2: Analyze the performance of a manufacturing company based on Activity Based Costing.

CO3: Apply the life cycle costing in operation strategies to reduce overall costs.

CO4: Evaluate and choose among alternate costing proposals using Pricing decisions.

CO5: Understand and apply the techniques adopted to strategize the cost-effective methods through Transfer Pricing and the techniques of Balanced Scorecard and Benchmarking in the process of managerial decision making.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Quality control

Course Content

U1: Introduction to Strategic Cost Management

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Strategic Cost Management-Meaning, Process, Methods and Techniques of Cost Control and Cost Reduction. Cost Management, Difference between Cost Management and Cost Accounting, Role of Cost Accounting in Strategic Planning and Management Control. Strategic Cost Management, concept, importance, core functions and support functions and its framework of techniques.

Description

U2: Activity Based Costing

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Activity Based Costing-Introduction to traditional methods of overheads absorption, problems of overhead absorption system under traditional system, Introduction to ABC,

Kalpan and Coopers Approach to ABC, Cost drivers and Cost activities, Allocation of Overheads under ABC, characteristics of ABC, benefits from adoption of ABC System – Practical Problems
Description

U3: Life Cycle Costing

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Life Cycle Costing-Meaning of Life Cycle Costing, Factors affecting LCC, phases in product life cycle, characteristics, Product Life Cycle and Cost Control. Experience Curve in Product Life Cycle Costing. Project Life Cycle Costing Meaning, categories of project life cycle costs, optimization of project life cycle costs – Practical Problems
Description

U4: Pricing Decisions and Pareto Analysis

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Pricing Decisions and Pareto Analysis-Meaning, objectives of Pricing Policy, Importance, factors influencing pricing decision, cost of Product Pricing, Cost vs. Prices, Pricing methods based on costs, Cost-Plus Method, Estimated Costs. Factors for pricing in the export market, Price below Costs, Preparation of Tender, Conversion Costs Method, return on Investment Method, Learning Curve Method. Pareto Analysis – Practical Problems
Description

U5: Transfer Pricing

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Transfer Pricing meaning-Objectives of transfer pricing, methods of transfer pricing, Total Cost Method, Marginal Cost Method, Market Price Method and Bargained Price Method. Transfer Pricing in International Business, BEPS-Base Erosion and Profit Shifting, Financial and Strategic Aspects – Practical Problems.
Description

U6: Balanced Scorecard and Benchmarking

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Balanced Scorecard- Introduction, drawback of traditional financial measures, attributes to good performance measurement system, Concepts of BSC, perspectives and implementation of BSC.

Description

U6-T2. Benchmarking-Concepts, Process, Impact on Industry, Types of Benchmarking and case studies on Benchmarking.

Description

Benchmarking- Concepts, Process, Impact on Industry, Types of Benchmarking and case studies on Benchmarking.

Essential Reading

1. Jawahar Lal, (2023). Strategic Cost Management. Mumbai, India: Himalaya Publishing House.

EXAMINATION PATTERN

COURSE NAME: STRATEGIC COST MANAGEMENT

COURSE CODE: MCO403-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

written examination was conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: DATA VISUALIZATION AND DASHBOARDING

COURSE CODE: MCO461-1

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - I)

Course learning Outcomes

CO1: Recall the fundamental concepts of data visualization.

CO2: Create basic visualizations such as bar charts, line charts, scatter plots, and maps.

CO3: Customize Visualizations to communicate insights effectively, including adding labels, annotations, and filters.

CO4: Create interactive dashboards using filters, parameters, and actions to provide dynamic and interactive views of data.

CO5: Create data visualization skills to real-world scenarios and communicate data insights effectively to stakeholders.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Data Visualization

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U1-T1. Level of knowledge: Conceptual and Analytical Importance of data visualization- Principles of effective visual design -Choosing the right chart types - Introduction to Power BI - Describe the Microsoft Power BI data Pipeline

Description

U2: Data Preparation and Transformation

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U2-T1. Level of knowledge: Conceptual and Analytical Data import and connection in Power BI - Data cleaning and shaping using Power Query - Combining multiple data sources - Data modeling basics - Recognize the range of stakeholders a data modeler should collaborate with. - Become familiar with the role of Power Query, data modelling, and

reporting to meet business needs

Description

U3: Creating Interactive Visualizations

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Level of knowledge: Conceptual and Analytical Building basic visualizations (bar charts, line charts, scatter plots, etc.) - Customizing visuals (colors, labels, formatting) - Using slicers, filters, and drill-through - Advanced visualizations (tree maps, heatmaps, funnel charts)

Description

U4: Designing Effective Dashboards

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Level of knowledge: Conceptual and Analytical Dashboard layout and organization - Storytelling with data - Creating KPI cards and scorecards - Adding interactivity (buttons, bookmarks)

Description

U5: Publishing and Sharing Dashboards

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U5-T1. Level of knowledge: Conceptual and Analytical Publishing to Power BI Service - Collaborating with colleagues - Security and access control - Best practices for sharing and embedding

Description

Essential Reading

- Powell, Brett-Mastering Microsoft Power BI
- Healy, Kieran-Data Visualization: A Practical Introduction"

EXAMINATION PATTERN

COURSE NAME: DATA VISUALIZATION AND DASHBOARDING

COURSE CODE: MCO461-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1- 20% , CIA 2- 20%, CIA3-20%, Final assessment - 40%,

COURSE NAME: TIME SERIES ANALYSIS USING PYTHON

COURSE CODE: MCO461-2

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - II)

Course learning Outcomes

CO1: Create python programmes for analysing data

CO2: Apply data visualization techniques and extract meaningful insights

CO3: Estimate Linear and Non- Linear models for research

CO4: Build Price and volatility forecast models

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Python Variables Expressions and Statements

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U1-T1. Python Variables Expressions and Statements History of Python - Installing python and interacting with Python through Jupyter Notebooks– Python Prompt – Traceback – Handling Traceback- Writing a python program – variables – variable names and keywords – Operators and Operands- Expressions - Order of operations – String operations – taking inputs from users- Built in functions –Math functions – User defined functions – parameters and arguments – Void functions –

Description

Creating UDF for business applications – Loops- Updating variables – While Loops – Infinite Loops – for loops – counting and summing loops – Maximum and minimum loops

U2: Data Pre-processing

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U2-T1. Data Pre-processing Pandas Library – installation – Reading CSV/Excel files - Data structures – series – DataFrame-index-Reindexing-operations between DataFrame and series – Function applications and Mapping – Functions by element, Row and Column -statistical functions.

Description

U3: Data visualization

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U3-T1. Data visualization Data visualization libraries – Matplotlib, Seaborn, Plotly – 2D plots -Line plot- scatter plot- bar plot- pie plot- Histograms- cat plot – swarm plot – violin plot- joint plot - Multiple plots – handling dates for plots – 3D plots – surface and mesh plots
Project: Create a data visualization project in Kaggle

Description

U4: Data analysis I

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U4-T1. Data analysis I Data types – cross section – time series – panel data – analyse questionnaire responses in python - Statsmodels library -Assumptions of linear regression -Estimating regression – interpreting results – diagnosing residuals – Corrections for auto correlation and Heteroskedasticity – Univariate time series forecasting with ARIMA models – diagnosing ARIMA models – time series forecasting – Forecast evaluation.

Description

Project

: Building a forecast model for a stock index

U5: Data analysis II

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U5-T1. Data analysis II Granger causality test – assumptions – estimation and interpretation – Panel data estimation – Fixed effect model and Random effect model - Vector AutoRegression and Impulse Analysis – Variance decomposition - GARCH library – Time varying volatility – Estimating volatility – ARCH – GARCH – TGARCH – EGARCH and PGARCH models estimation and interpretation.

Description

Project

: Build a volatility forecast model for financial asset

COURSE NAME: CORPORATE AND ACADEMIC TRAINING

COURSE CODE: MCO462-1

COURSE TYPE: Theory

TOTAL HRS: 1 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - I)

Course learning Outcomes

CO1: Students will be able to solve problems on aptitude and logical reasoning in competitive examinations

CO2: Students will be able to analyse interview contexts and career profiles to adapt and demonstrate appropriate soft skills during interview processes.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Empathy and active listening, Quality control

Course Content

U1: Building Fundamental Skills & LinkedIn Optimization

Teaching Hours: (5)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. key components of a professional resume, formatting guidelines, tailoring resumes for different job roles, and avoiding common mistakes. - How to craft a compelling cover letter that highlights strengths, aligns with job descriptions, and creates a strong first impression. - Identifying frequent errors in resumes and cover letters and implementing strategies to improve clarity, conciseness, and professionalism. - Setting up and optimizing LinkedIn profiles for professional visibility & writing

U2: Aptitude and Logical Reasoning

Teaching Hours: (5)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. fundamental mathematical concepts-percentages, ratios, averages, profit & loss, and time-speed-distance, commonly tested in recruitment exams. - Understanding logical puzzles, syllogisms, coding-decoding, and pattern-based questions to develop problem-solving skills. Practicing previous years' aptitude and reasoning questions from corporate placement tests to understand difficulty levels and question patterns. A one-page guide summarizing key formulas, shortcuts, and tips problem solving.

U3: Soft Skills & Personal Grooming

Teaching Hours: (5)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Professional Ethics, Sustainability

U3-T1. Techniques to develop confidence while speaking, structuring presentations effectively, and engaging the audience. Understanding non-verbal communication cues, maintaining eye contact, handshakes, posture, and dressing appropriately for professional settings. Strategies to manage nervousness, practice self-assurance techniques, and prepare mentally for different interview scenarios. Importance of personal grooming, dressing appropriately for professional interactions, and understanding workplace

EXAMINATION PATTERN

COURSE NAME: CORPORATE AND ACADEMIC TRAINING

COURSE CODE: MCO462-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Corporate and Academic Training (Assessment for 50 marks and converted into grades and credits) is introduced for scaling up the students' skills & talents by encouraging participation and vibrancy among them. The course delivery comprises 4 sessions in a month that covers preparing the students for competitive exams like NET/JRF, aptitude tests and logical reasoning and other skills that also help in increasing their chances for corporate placements.

CIA1 25 marks and CIA2 25 marks.

COURSE NAME: CORPORATE AND ACADEMIC TRAINING

COURSE CODE: MCO462-2

COURSE TYPE: Theory

TOTAL HRS: 1 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - II)

Course learning Outcomes

CO1: Students will be able to solve problems on aptitude and logical reasoning in competitive examinations

CO2: Students will be able to showcase effective soft skills during the interview processes for varied career profiles.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Quality control, Resilience flexibility and agility

Course Content

U1: Mock Group Discussions and Debates

Teaching Hours: (5)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U1-T1. Insights into how recruiters assess candidates in group discussions based on communication skills, leadership, logical reasoning, and adaptability. – Engaging in structured group discussions based on real-world business challenges to develop problem-solving and teamwork skills. – Learning how to give and receive feedback positively, refining speaking skills, and improving articulation of thoughts. – A visual representation (Infographic) of best practices and mistakes to avoid in group discussion

U2: Interview Skills and Mock Interview

Teaching Hours: (5)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Understanding different formats, such as panel interviews, one-on-one HR rounds, and academic interviews for higher studies. – Learning the STAR (Situation, Task, Action, Result) approach to frame structured and impactful responses to behavioral interview questions. – Practicing live mock interview sessions with peers and mentors to refine communication, articulation, and confidence. – Elevator Pitch

U3: Corporate Placement and Academic Entrance Preparation

Teaching Hours: (5)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U3-T1. Tips and techniques to crack corporate aptitude tests, verbal ability assessments, and technical screenings. - Preparing for NET/JRF and Higher Education Exams - Time Management and Test-Taking Strategies – Crafting engaging PowerPoint presentations, improving storytelling skills, and handling Q&A sessions effectively.

COURSE NAME: ADVANCED CORPORATE ACCOUNTING

COURSE CODE: MCO501-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - I)

Course learning Outcomes

CO1: Understand and apply corporate valuation methods to estimate firms' value using Accounting information

CO2: Create a consolidated Balance sheet for a client

CO3: Calculate fair value of share-based payments

CO4: Apply inflation accounting and prepare inflation adjusted financial statements

CO5: Recall the latest developments in Accounting

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Quality control

Course Content

U1: Corporate Valuation

Teaching Hours: (18)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U1-T1. Context of Valuation; Approaches to Valuation; Features of the Valuation Process; Corporate Valuation in Practice; Information Needed for Valuation. Corporate Valuation Methods, problems on Accounting approach only; Net Asset Value (NAV) Method, Adjusted Net Asset Method, Liquidation Value Method, and Replacement Cost Method.

Description

U2: Consolidation of Financial Statements (Ind AS 110)

Teaching Hours: (10)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U2-T1. Meaning of Holding and subsidiary company– definition and legal requirements for the preparation of consolidated financial statements. Steps in the preparation of consolidated balance sheet: capital profit and revenue profit- cost of control- minority interest. Accounting treatment for various adjustments such as intercompany owing- unrealized profit- revaluation of assets and liabilities- preference shares in subsidiary company- issue of bonus

shares by subsidiary company- dividend declared by
Description

subsidiary company. Preparation of consolidated profit and loss accounts.

U3: Accounting for share based Payments and Impairment of Assets

Teaching Hours: (14)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U3-T1. Objective and scope - Transaction, types of share-based payments, Recognition and Measurement, Accounting issues with vesting conditions, calculation of fair value of share-based transactions, Disclosure requirements - Accounting for Impairment of Assets: Meaning of impairment, measurement, treatment of impairment loss, Journal Entries and Disclosure.

Description

U4: Accounting for Price Level Changes

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. Accounting for price level changes: meaning of inflation accounting- disadvantages of historical cost accounting- methods of inflation accounting-CPP & CCA (problems on both the methods) limitations of inflation accounting.

Description

U5: Current Developments in Accounting

Teaching Hours: (10)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U5-T1. • Human Resource Accounting: meaning of HRA- need and objectives of HRA- various approaches of Human resource accounting- HRA practices in Indian corporate. • ESG accounting: Meaning- need and objectives of environmental accounting- practices in Indian corporates. Carbon accounting : projected impacts, valuing, Greenhouse Gas Emissions - Social cost of carbon. • Social responsibility accounting: Meaning- need and objectives of Social responsibility accounting- practices in Indian corporate.

Description

- Forensic Accounting: Meaning- need and objectives of forensic accounting- practices in Indian corporate.
- Introduction to Accounting ERP. Functions and Benefits. Accounting ERP software.

EXAMINATION PATTERN

COURSE NAME: ADVANCED TAXATION

COURSE CODE: MCO501-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Section | Description / Type | Marks | CIA I | | Quizzes, role plays, objective type tests, written assignments, discussion forums, article reviews, case analysis, etc. | 20 | CIA II (Mid Semester – 2 Hours) | | Written Examination | | A | Short Answer Questions Answer ALL 3 questions (3rd has internal choice). Each carries 5 marks. | $3 \times 5 = 15$ | | B | Conceptual / Descriptive / Problem Type Questions Answer ALL 2 questions (1 has internal choice). Each carries 10 marks. | $2 \times 10 = 20$ | | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA II Total | | | 50 | CIA III | | Group Work Presentations, Viva Voce, Report Submission | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type / Description | Marks | A | Short Answer Questions (Answer ALL seven questions, out of which questions 6 and 7 will have internal choice. Each question carries five marks.) | $7 \times 5 = 35$ | B | Conceptual / Descriptive / Problem Type Questions (Answer ALL five questions, out of which two questions are internal choice. Each question carries ten marks.) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | Total | | 100 |

COURSE NAME: BEHAVIOURAL FINANCE

COURSE CODE: MCO501-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - III)

Course learning Outcomes

CO1: Apply fundamental concepts of behavioural finance to analyse financial decision-making

CO2: Identify and analyse the behavioural bias and psychological factors of investors.

CO3: Critically evaluate behavioural influences on individuals investment decisions.

CO4: Critically evaluate behavioural anomalies and executive biases affecting corporate financial decisions and ethical investment performance.

CO5: Apply acquired knowledge to draw conclusions on financial decision-making.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Quality control

Course Content

U1: Introduction to Behavioural Finance

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values

U1-T1. Meaning-nature-scope & history of Behavioural finance- Behavioural finance & Traditional finance- Behaviour and decision making-Financial decision making-Expected Utility theory- Criticisms of Efficient Market Hypothesis (EMH). Behavioural rationale for green finance and ESG investing

Description

U2: Behaviour and Decision Making

Teaching Hours: (14)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Prospect theory- Expected Utility theory and prospect Theory: Comparison-application of prospect theory- Framing- Mental Accounting - Asymmetric information- Egocentricity Human Behavioural Theories - Heuristics (Representativeness Heuristic, Availability Heuristic) - Deficient Market Hypothesis- Biases: Emotional Bias (Endowment Effect, Loss Aversion, Disposition Effect, Statistical Bias), Cognitive Bias- Cognitive Bias

(Confirmation Bias, Familiarity Bias, Overconfidence, Anchoring, Reference

Description

Prospect theory- Expected Utility theory and prospect Theory: Comparison- application of prospect theory- Framing- Mental Accounting - Asymmetric information- Egocentricity
Human Behavioural Theories - Heuristics (Representativeness Heuristic, Availability Heuristic) - Deficient Market Hypothesis- Biases: Emotional Bias (Endowment Effect, Loss Aversion, Disposition Effect, Statistical Bias), Cognitive Bias- Cognitive Bias (Confirmation Bias, Familiarity Bias, Overconfidence, Anchoring, Reference Price Effect)

Role of AI Financial Decision Making, Robo-advisors and nudging behaviour.

U3: Non-consequentialism Biases

Teaching Hours: (14)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Disjunction Effect, Self-deception, Neuro finance (introduction only); Self- control, Regret avoidance and Cognitive dissonance, Representativeness and Availability, Anchoring and Belief perseverance, Overconfidence, Optimism and wishful thinking, Overreaction and Conservatism, Self-attribution, Recency bias. Interaction Between Biases - Outcomes of Biases - Intermediate Outcomes - Final Outcomes- Dealing with Biases - Overcoming the Biases – De-biasing (Identification of Potential Bias, Consider
Description

Disjunction Effect, Self-deception, Neuro finance (introduction only); Self- control, Regret avoidance and Cognitive dissonance, Representativeness and Availability, Anchoring and Belief perseverance, Overconfidence, Optimism and wishful thinking, Overreaction and Conservatism, Self-attribution, Recency bias.

Interaction Between Biases - Outcomes of Biases - Intermediate Outcomes - Final Outcomes- Dealing with Biases - Overcoming the Biases – De-biasing (Identification of Potential Bias, Considering Techniques to Lower the Impact, Evaluation of Selected Technique)

U4: Anomalies

Teaching Hours: (8)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Fundamental anomalies, Accounting Based Anomalies, Calendar Anomalies, Technical anomalies: Value v/s Growth, size, equity premium myopia. Ethical investing anomalies.

Description

U5: Behavioural Corporate Finance and Market Bubble

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Identification and causes, investor behaviour during bubbles, case study of prominent market bubbles/scams. Herd behaviour and behavioural contagion, Introduction to Behavioural Corporate Finance. Corporate finance from behavioural perspective- rational managers in efficient markets- market timing- catering- managerial biases in efficient markets. Behavioural Barriers to Sustainable Financial Decisions

Description

Essential Reading

1. Keith Redhead, Personal Finance and Investments: A Behavioural Finance Perspective||, Routledge
1. Forbes, William, (2011), Behavioural Finance, Wiley- India Edition.
1. Shefrin, Hersh, (2005), A Behavioural Approach to Asset Pricing, Elsevier Academic Press.

EXAMINATION PATTERN

COURSE NAME: BEHAVIOURAL FINANCE

COURSE CODE: MCO501-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1 - 20 Marks, CIA 2 - 50 Marks, and CIA 3 - 20 Marks

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE 100 Marks

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: FINTECH AND AI APPLICATIONS IN COMMERCE

COURSE CODE: MCO501-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - IV)

Course learning Outcomes

CO1: Analyze the architectural components of Decentralized Finance (DeFi) and their impact on traditional banking ecosystems

CO2: Design and backtest sophisticated algorithmic trading strategies

CO3: Evaluate the creditworthiness of non-traditional borrowers by developing AI-driven credit scoring models using alternative data

CO4: Develop automated financial reporting or sentiment analysis tools utilizing Generative AI and Natural Language Processing (NLP)

CO5: Construct a comprehensive Fintech project proposal that addresses a real-world commercial problem, incorporating ethical AI frameworks

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Blockchain & Decentralized Finance (DeFi)

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Blockchain fundamentals and distributed ledger technologies - Cryptocurrencies and digital assets ecosystem - Smart contracts and decentralized finance (DeFi) - Applications in supply chain finance and trade finance - Central Bank Digital Currency (CBDC) concepts - Risks, governance, and adoption challenges - Smart Contracts in automating commercial agreements - Tokenomics (Utility vs. Security), Liquidity Pools, Automated Market Makers (AMM), and the India Stack (CBDC and UPI interoperability).

U2: : Algorithmic Trading

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Market microstructure, alpha generation, and the transition from Time Series to Reinforcement Learning (RL) in trading - Limit Order Books (LOB), High-Frequency

Trading (HFT) logic, and Reinforcement Learning (RL) for portfolio optimization. Project: Developing a Algorithmic Trading model that switches trading strategies based on market regime shifts.

U3: AI-Driven Credit Risk & Alternative Data Intelligence

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Ensemble learning (XGBoost, LightGBM) for credit risk; Graph Analytics for identifying money laundering patterns- Feature engineering for Alternative Data, Graph Neural Networks (GNN) for identifying fraud clusters, and Explainable AI (XAI) tools like SHAP. Project: Building a 'Financial Inclusion Scorecard' that predicts creditworthiness for a rural MSME using non-banking data.

U4: Generative AI & Natural Language Processing (NLP) in Finance

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Transformers in Finance; Fine-tuning LLMs for financial document summarization (Earnings calls, Prospectuses) - Fine-tuning LLMs for financial sentiment, Retrieval-Augmented Generation (RAG) for querying annual reports, and automated speech-to-text for earnings calls- Web based application development with Gradio. Project: Developing an 'AI Research Analyst' bot that can ingest a 100-page prospectus and generate a risk-summary report.

U5: RegTech, Ethical AI, and the Future of Commerce

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U5-T1. Explainable AI (XAI) in Finance; Regulatory Sandboxes; Algorithmic Bias and Fairness. - Algorithmic Bias detection, Regulatory Sandboxes (SEBI/RBI frameworks), KYC automation via Computer Vision, and the future of autonomous commerce. Project: Conducting a 'Fairness Audit' on a commercial AI model to detect and mitigate demographic bias.

Essential Reading

Hilpisch, Y. J. (2020). Artificial intelligence in finance: A Python-based guide. O'Reilly Media.

- King, B. (2018). Bank 4.0: Banking everywhere, never at a bank. John Wiley & Sons.
- Nian, L. P., & Chuen, D. L. K. (2015). Handbook of digital currency: Bitcoin, innovation, financial instruments, and big data. Academic Press.
- Prasad, E. S. (2021). The future of money: How the digital revolution is transforming currencies and finance. Harvard University Press.

EXAMINATION PATTERN

COURSE NAME: FINTECH AND AI APPLICATIONS IN COMMERCE

COURSE CODE: MCO501-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA II - 50 Marks (Projects, Reflective writing assessments, Exams)

CIA overall - 50 Marks (Project presentations and VIVA)

COURSE NAME: DIRECT TAXES

COURSE CODE: MCO502-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - I)

Course learning Outcomes

CO1: Analyse the assessment of individuals under various heads of income and compute tax liability.

CO2: Evaluate tax computation for individuals, incorporating deductions, set-offs, carry-forward provisions, and tax regimes.

CO3: Apply and Analyse the taxation of Hindu Undivided Families (HUF), including tax treatment, implications, and deductions.

CO4: Analyse tax provisions to compute total income, book profits, and tax liability for firms and LLPs, including AMT applicability

CO5: Assess the legal framework for return filing and advance tax, ensuring compliance with tax laws.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Assessment of Individuals - I

Teaching Hours: (15)

Development Needs:

National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Assessment of Individuals - I

Description

Introduction to Heads of Income under the Income Tax Act, 1961, Income from Salary (including Perquisites except RFA & Car facility – all other perquisites through self-learning module), Income from House Property, Income from Business or Profession, Income from Capital Gains, Income from Other Sources Provisions and Computation.

U2: Assessment of Individuals - II

Teaching Hours: (16)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Assessment of Individuals - II

Description

Aggregation of income- set-off and carry forward of losses- deductions from Gross Total Income- Tax

Incidence on individuals - Total income. - Tax liability under Default and Optional Regime - rebates & relief - Problems on the Computation of taxable income (old and new regime) - AI in Taxation through self-learning.

U3: Assessment of Hindu Undivided Family

Teaching Hours: (8)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Assessment of Hindu Undivided Family

Description

Meaning of HUF - Different Schools of Hindu law - Assessment of Hindu Undivided Family- Deductions available- Taxable income - Rates of tax - Partition of HUF - Problems on Hindu Undivided Families.

U4: Taxation of Firms and Limited Liability Partnership

Teaching Hours: (12)

Development Needs:

National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Taxation of Firms and Limited Liability Partnership

Description

Meaning of Partnership- Computation of Book profits u/s 40(b)-remuneration allowed in the hands of partnership firms- scheme of taxation of firms – assessment as a firm u/s 184 – computation of total income of firm and tax liability of firm. Taxation of Limited Liability Partnership (LLP)- Problems on computation of taxable income of firms/partners/LLP.

U5: Return of Income

Teaching Hours: (5)

Development Needs:

National, Regional

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U5-T1. Return of Income

Description

Meaning- requirement of PAN- prescribed forms of returns- compulsory filing of returns- due date for filing returns- authorized signatories- interest in case of default- return of loss- belated return- revised return- defective return

U6: Advance Payment of Tax

Teaching Hours: (4)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Advance Payment of Tax

Description

Income liable for advance tax - Advance tax liability under different situations- Interest payable by the assessee or Government - Problems illustrating advance tax provisions.

Essential Reading

1. Gaur and Narang Income Tax law and practices Kalyani Publication 2026
1. Vinod K Singhania and Monica Singhania, Students Guide to Income Tax including GST problems& solutions, Taxmann publications, 2026.

EXAMINATION PATTERN

COURSE NAME: DIRECT TAXES

COURSE CODE: MCO502-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I 20 Marks, CIA II 50 Marks, CIA III 20 Marks.

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

Examination Pattern for Continuous Internal Assessment (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE 100 marks

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for a 3-hour duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: CORPORATE FINANCE AND FOREX MANAGEMENT

COURSE CODE: MCO502-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - II)

Course learning Outcomes

CO1: Analyze capital structure theories and leverage to determine the most cost-effective financing mix for a firm

CO2: Evaluate investment projects using Excel-based appraisal techniques and risk analysis tools like sensitivity and simulation.

CO3: Construct integrated financial models to forecast future financial statements and business performance.

CO4: Explain the functions of foreign exchange markets and the theories governing exchange rate movements.

CO5: Apply hedging tools and risk management techniques to mitigate translation, transaction, and economic exchange exposures.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Partnerships for the goals, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Technological literacy

Course Content

U1: Corporate Finance and Financing Decision

Teaching Hours: (12)

Development Needs:

National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Corporate Finance - Profit Maximization vs. Wealth Maximization - Concept of Capital Structure; Importance of Capital Structure - Net Income Approach- Net Operating approach- Traditional Approach- Essentials of a Sound Capital Structure - Optimum capital structure - Point of Indifference.

U1-T2. Capital Structure Policies in Practice - Factors Determining Capital Structure - Leverages – Meaning- Significance of Leverages - Types of Leverages and Risk Factor- Relationship between leverage and Risk - AI Integration in Corporate Finance and Financial Decision-Making

U2: Investment Appraisal and Working Capital

Teaching Hours: (16)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development
Cross Cutting Issues:
Professional Ethics

U2-T1. Principles and Techniques Nature of Capital Budgeting; Identifying Relevant Cash Flows; Evaluation Techniques; Traditional Methods and Discounted Cash Flows Methods - Factors determining capital budgeting; Limitations of Capital Budgeting - Capital Budgeting Practices in India- - Investment Criteria- - Practical approach to methods of Evaluation of Investment decisions using Excel (Industry relevant); Analysis of Risk and Uncertainty in Capital Budgeting Description and Measurement of Risk.

U2-T2. Risk Evaluation Approaches— Sensitivity Analysis- - Simulation Analysis- Decision Tree Analysis. (Practical Problems with case studies) (Industry relevant) - Ethical Aspect of Decision Making. Meaning; Concept; Objectives; Kinds of Working Capital; Operating Cycle; Importance of Working Capital; Dangers of Inadequate and Excessive Working Capital; Management of Working Capital; Factors determining Working capital - Estimation of Working Capital Requirement (problems).

U3: Financial Modelling and Forecasting

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Objectives of forecasting -Understanding business model- Basics of financial modelling - How to create a basic financial model- Case study and model discussion -Project Future Financial Statements.

U4: Foreign Exchange Markets & Theories of Foreign Exchange Rate Movement

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Foreign exchange markets- spot markets- Functions of the foreign exchange market- the foreign exchange rates- arbitrage- cross rates of exchange- Bid-Ask spreads- forward market- Interest arbitrage- covered interest arbitrage and interest parity theory- Purchasing power parity- absolute purchasing power parity- relative purchasing power parity- International Fisher Effect comparison PPP- IFE- and IRP theories.

U5: Management of Foreign Exchange Risk

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Exchange risk- types of exposure- Translation exposure- Translation methods- functional versus reporting currency- comparison of four translation methods- Transaction Exposure- Measurement of transaction exposure- transaction exposure based on currency variability

U5-T2. Managing transaction exposure- Risk management products- Hedging- currency correlation and variability as hedging tools- Economic Exposure- Transaction exposure versus economic exposure- measuring economic exposure- managing economic exposure- tools and techniques of foreign exchange risk management.

COURSE NAME: FINANCIAL DERIVATIVES AND COMMODITIES

COURSE CODE: MCO502-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - III)

Course learning Outcomes

CO1: Explain the fundamental principles of financial derivatives and their role in modern finance.

CO2: Construct and evaluate models for pricing and analyzing financial derivatives

CO3: Apply and implement option strategies for risk management, option pricing models and hedging strategies using options.

CO4: Evaluate swaps and emerging derivatives market

CO5: Classify commodity market, its evaluation and recent development in India.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Introduction to Derivatives and Commodities Markets

Teaching Hours: (8)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Overview of financial derivatives and commodities. The purpose and function of derivatives and commodities markets. Types of financial derivatives and commodities. Participants in the derivatives and commodities markets. Market structure and regulations. Criticism and Myths of financial and commodity derivatives. SEBI and FMC regulations on derivatives. Global Derivatives Markets.

U2: Forward and Future Contracts

Teaching Hours: (16)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Meaning of Forward Contracts and Futures Contracts, Mechanism of forward contracts, forward vs future contracts, Types of futures contracts: commodity, financial, and currency futures. Future contract specifications, types of margin, Mark-to-Mark Margin, calculations of call margin, Futures and forward pricing and valuation of future contracts, Hedging strategies using futures. Real-world applications of futures. Global futures contract and global markets.

U3: Option Contracts

Teaching Hours: (16)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Meaning of Options contracts, Understanding options mechanisms. Types of options: call and put options. Open Interest Analysis and Volume Analysis. Hedging using option: Long Stock Long Put, Long Stock Short Call, Short Stock Long Call, Short Stock Short Call. Option strategies: covered calls, uncovered calls, bull spreads, bear spreads, butterfly, straddle, strangle, calendar spread, Iron condor and box spread. Option pricing models: Black-Scholes with Greeks applications and Binomial models.

U4: Swaps

Teaching Hours: (10)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Meaning of Swaps, Types of swaps: interest rate swaps, currency swaps, commodity swaps. Pricing and valuation of swaps, Mechanics of derivatives swaps, Hedging strategies using swaps, Regulatory and ethical issues, Future development and trends - Emerging markets and products -Technological innovations and digitalization - Environmental, social, and governance (ESG) considerations, Real-world applications of swaps.

U5: Commodity Markets

Teaching Hours: (10)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Overview of commodity markets, Types of commodities: agricultural, energy, metal, and soft commodities, Factors affecting commodity prices, Role of Commodity Boards, Investment opportunities in commodities, Trading and mechanism of commodity trading, supply and demand factors - Geopolitical risks and events, Weather and climate patterns, Seasonality and crop cycles, Technological and environmental factors, Regulatory and ethical issues - Regulatory framework for commodity markets.

COURSE NAME: BUSINESS RESEARCH METHODOLOGY

COURSE CODE: MCO503-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - I)

Course learning Outcomes

CO1: Apply appropriate research approaches to the real-world business and social research problem

CO2: Build a research problem and critically appraise and synthesize prior research

CO3: Examine the suitability of research and sampling designs

CO4: Construct and evaluate data collection instruments and implement appropriate qualitative or quantitative data collection methods.

CO5: Develop a research proposal and demonstrate the ability to write a structured research report.

Sustainability Development Goals (SDG)

Decent work and economic growth, Partnerships for the goals, Reduced inequalities

U1-T1. Introduction to Research

Description

Meaning - Objectives of Research - Types of Research -Research Approaches; Concept of theory, empiricism, deductive and inductive theory - Research Methods versus Methodology - Research and Scientific Method - Research Process - Criteria for Good Research - Mixed methods approach – Understanding the language of research – Concept, Construct, Definition, Variable; Research Process; Ethics in Research.

U2: Research Problem

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Research Problem

Description

Identification and Selection of Research Problem (Practical)- Research Question – Investigation Question – Measurement Issues; Necessity of defining the Problem - Techniques involved in defining a problem - Review of Literature - Synthesizing literature review (Practical) - Research Gap identification (Practical) - Presenting literature review in discussion format (Practical) - APA 7th edition format.

U3: Research Design and Testing of Hypothesis

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Research Design and Testing of Hypothesis

Description

Meaning of Research Design - Need for Research Design - Features of a Good Design - Important concepts relating to Research Design –Dependent and Independent Variables - Extraneous Variable - Control Variable - Confounded Relationship - Research Design in case of Exploratory- Descriptive and Diagnostic research studies; Meaning of Hypothesis - Basic concepts concerning testing of hypothesis – Null Hypothesis and Alternate Hypothesis - Type I and Type II errors- Confidence Interval and Level of significance - Two tailed and One Tailed tests - Testing the hypothesis

U4: Sampling Design

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Sampling Design

Description

Introduction - Sample, Sampling Frame, Sampling Error, Sample Size, Sample Design - Sampling and Non-sampling errors -, Characteristics of a good sample, Sample Survey V/s Census Survey - Types of Sampling designs - Complex random sampling designs –Determination of Sample Size

U5: Measurement and Data Collection

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Measurement and Data Collection

Description

Concept of measurement – Levels of measurement – Nominal, Ordinal, Interval, Ratio - Problems in measurement in research: Validity and Reliability; Primary & secondary methods of data collection - Qualitative methods of data collection – Interviews, Observation method, Focus group method, Unfocus groups, Projective techniques; Quantitative methods – Survey using Questionnaire/Schedule; Guidelines for Constructing Questionnaire/Schedule (practical) - Standardized questionnaire - conducting pilot study

U6: Report Writing

Teaching Hours: (10)

Development Needs:

Global, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Report Writing

Description

Report Writing - Significance of Report Writing - Different Steps in Writing Report - Layout of the Research Report - Types of Reports - Mechanics of Writing a Research Report - Precautions for Writing Research Reports; Layout of a Research Paper, Identification of journals in social sciences, Ethical issues related to publishing - Plagiarism and Self-Plagiarism - Signification of indexation and citation - Preparing Research papers for journals, Seminars and Conferences-preparation of project reports.

Essential Reading

Kothari, C.K (2014). Research Methodology. New Age International.

Creswell, J.W. (2014). Research Design: Qualitative, Quantitative, and Mixed methods Approaches.

United States of America: Sage Publications, Inc.

EXAMINATION PATTERN

COURSE NAME: BUSINESS RESEARCH METHODOLOGY

COURSE CODE: MCO503-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I (20 Marks)+ CIA II (50 Marks) + CIA III (20 Marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE(Centralized) = 100 marks

Section A: 35 Marks (7 questions of 5 Marks each), Section B:50 Marks (5 Question of 10 Marks each) and Section C: Case Question 15 Marks (1 Compulsory question 1 * 15 marks)

COURSE NAME: ENTERPRISE RISK MANAGEMENT

COURSE CODE: MCO503-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - III)

Course learning Outcomes

CO1: Analyze various risk categories and risk management concepts by examining their characteristics, interrelationships, and relevance to financial decision-making.

CO2: Analyze the sources of enterprise risk by examining internal and external risk drivers and their potential impact on organizational performance.

CO3: Evaluate and design appropriate models for measuring risk by assessing their assumptions, applicability, and limitations in different business contexts.

CO4: Evaluate risk management techniques used to reduce credit and operational risks by assessing their effectiveness, efficiency, and suitability in banking and financial institutions.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Introduction to Risk

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Risk

Description

Risk – Meaning – Types of risk- Business Risk – Operational Risk – Financial risk – Liquidity risk - Risk categories by COSO Framework – Internal vs external risk – controllable vs uncontrollable risk – Inherent and Residual risk – Risk and Uncertainty

U2: Risk Sources and Management

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Risk Sources and Management

Description

Risk Assessment and measurement – risk quantification – qualitative risk assessment – Risk sources

matrix – quantitative risk assessment – techniques of risk quantification and risk identification and assessment – Sources of risk identification - Risk analysis and root cause analysis – Risk treatment and responses – Role of risk manager and risk committee in identifying risk - Risk attitude, appetite and tolerance – Risk management – steps – risk management checklist – risk management techniques – Internal control environment and risk management – Integrated risk reporting

U3: Risk modeling

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Risk modeling

Description

Value at Risk – concept – calculation of VAR – VaR conversions and parameters – VaR methods: Linear method – Full revaluation method – Theory of coherent risk measures – Conditional VaR – Limitations of VaR – Stress Testing- Concept – Enterprise-wide stress testing application of stress testing – Stress test steps – Certainty Equivalent approach, Scenario analysis, Simulation analysis – Problems.

U4: Credit and Liquidity risk management

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Credit and Liquidity risk management

Description

Concept – risk return trade off – components of credit risk - measurement of credit risk in banking – factors affecting credit risk - evaluating credit risk – Credit risk mitigation – qualitative techniques in credit risk management – Liquidity Risk, measurement – factors affecting liquidity risk. Quantitative techniques of credit and liquidity risk management – Altman z score – Piotroski Score– Risk adjusted returns / capital – Return in risk adjusted capital – Credit scoring models - Problems

U5: Operational risk management

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Operational risk management

Description

Concept – causes of operational risk – operational risk management – Types of operational risk – risk grading – Risk control self-assessment (RCSA) – Technology risk – Business continuity plan – Business

impact analysis – Functional recovery plan – Cyber risk – Business intelligence and AI – Enterprise risk management – techniques of ERM – Risk maturity of a business - Risk management disclosures in India.

EXAMINATION PATTERN

COURSE NAME: ENTERPRISE RISK MANAGEMENT

COURSE CODE: MCO503-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

Examination Pattern for Continuous Internal Assessment (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for a 3-hour duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: GST AND CUSTOMS

COURSE CODE: MCO504-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - III)

Course learning Outcomes

CO1: Explain the need for GST and understand the framework of GST laws

CO2: Apply various provisions of GST laws with respect to classification, levy, collection and assessment.

CO3: Determine the levy of GST as per statutory provisions

CO4: Understand the provisions relating filing of returns under GST laws

CO5: Analyze and apply provisions of Customs Act to Compute the various duties levied.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Goods and Services Tax (GST)

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Goods and Services Tax (GST)

Description

Objectives and basic scheme of GST- Meaning – Salient features of GST – Subsuming of taxes – Benefits of implementing GST – Constitutional amendments - Structure of GST (Dual Model) – Central GST – State / Union Territory GST – Integrated GST - GST Council: Structure- Powers and Functions- Provisions for amendments. Digital GST ecosystem and role of GSTN – Use of data analytics and AI in GST policy formulation, revenue forecasting, and compliance monitoring

U2: GST Acts: CGST Act- SGST Act (Karnataka State)- IGST Act

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. GST Acts: CGST Act- SGST Act (Karnataka State)- IGST Act

Description

Salient features of CGST Act- SGST Act (Karnataka State)- IGST Act- Meaning and Definition: Aggregate turnover- Adjudicating authority- Agent- Business- Capital goods- Casual taxable person- Composite supply- Mixed supply- Exempt supply- Outward supply- Principal supply- Place of supply- Supplier- Goods- Input service distributor- Job work- Manufacture- Input tax- Input tax credit- Person- Place of business- Reverse charge- Works contract- Casual taxable person- Non-resident person- Export of go

U3: Procedure and Levy Under GST

Teaching Hours: (20)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Procedure and Levy Under GST

Description

Registration under GST: Procedure, persons liable and not liable, compulsory registration, deemed registration, special provisions for casual and non-resident taxable persons.

Levy and Collection (CGST & SGST): Scope of supply, time of supply, value of taxable supply, tax liability on composite and mixed supplies, computation of tax liability.

Levy under IGST: Inter-state and intra-state supply, zero-rated supply, valuation and computation of tax liability.

Input Tax Credit: Eligibility, apportionment, capital goods, Input Service Distributor, utilization and transfer of ITC – Practical problems.

Technology & AI Applications: E-invoicing system, e-way bill integration, AI-based ITC fraud detection, automated scrutiny and faceless GST assessments.

U4: Returns

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. Returns

Description

Furnishing details of outward supplies and inward supplies- First return- Claim of input tax credit- Various return forms, QRMP Scheme, Matching reversal and reclaim of input tax credit- Annual return and Final return.

U5: Customs

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Customs

Description

Levy- Definitions- Types of Duties- Export Duty Classification- Analysis of Section 14- Rate of exchange- Tariff value- Customs Valuation Rules 2007- Rate of Duties- Import and Export procedure- Bill of Entry- Assessments- Examination- Provisional assessment- Re-import- Baggage- Baggage Exempt- Personal effects- computation of customs duty. ICEGATE portal, faceless customs assessment, Risk Management System (RMS), AI-based valuation and fraud detection, trade facilitation through digital customs

Essential Reading

Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: ENTREPRENEURSHIP

COURSE CODE: MCO561-3

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - III)

Course learning Outcomes

CO1: Analyse contemporary entrepreneurial environments, entrepreneurial behaviour, and decision-making processes under conditions of uncertainty.

CO2: Evaluate entrepreneurial opportunities using market validation techniques, competitive analysis, and business model frameworks to assess venture viability.

CO3: Develop strategic plans for venture financing, market entry, growth, and investor readiness using appropriate financial and marketing tools.

CO4: Demonstrate an understanding of startup operations, leadership, sustainability, and ethical considerations, and reflect on entrepreneurial outcomes, including failure and exit.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Gender equality, Industry, innovation and infrastructure, Partnerships for the goals, Quality education, Reduced inequalities

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Technological literacy

Course Content

U1: Foundations of Entrepreneurial Thinking and Startup Ecosystems

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U1-T1. Evolution of entrepreneurship: from MSMEs to startups; Classical and contemporary theories of entrepreneurship: Theory-AI-Practice linkages of Schumpeter's Innovation Theory, Kirzner's Opportunity Recognition Theory, Knight's Risk and Uncertainty Theory, Effectuation Theory (Saras Sarasvathy); Contemporary Perspective: Human-AI Collaboration in Entrepreneurship ; Types of entrepreneurship; Emerging Opportunity Domain in Entrepreneurship; Opportunity recognition vs idea generation;

Description

This unit examines the evolution of entrepreneurship from MSMEs to startup-driven ecosystems and analyses classical and contemporary entrepreneurial theories through Theory-Ai-Practice linkages, highlighting the role of human-AI collaboration in opportunity recognition and decision-making under uncertainty. It introduces types of entrepreneurship including social entrepreneurship, green entrepreneurship and technology/digital based entrepreneurship, and presents an overview of emerging opportunity such as climate-tech entrepreneurship, agri-tech and food system innovation and clean energy and energy transition ventures. The unit also covers opportunity recognition versus idea generation,

entrepreneurial cognition and bias, and the nature of risk, uncertainty, and ambiguity in entrepreneurial decision-making.

U2: From Ideas to Viable Ventures: Market Assessment and Economic Design

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U2-T1. Problem - solution fit; AI-assisted market research and customer insight generation; Market sizing (TAM–SAM–SOM); Customer discovery & validation techniques; Competitive analysis beyond “no competition”; Business Model Innovation; Revenue models & unit economics (Customer Acquisition Cost and Customer Lifetime Value); Cost structures in startups; Pricing strategies for new ventures.

Description

This unit equips students with analytical frameworks to evaluate entrepreneurial opportunities systematically. It covers problem- solution fit, market sizing techniques, customer discovery and validation methods, and competitive analysis. The unit further examines business model innovation, revenue models, pricing strategies, cost structures, and unit economics under uncertain market conditions. Emphasis is placed on evidence-based decision-making and financial viability of new ventures.

U3: Funding New Ventures and Designing Go-to-Market Strategies

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U3-T1. Bootstrapping vs external funding: Angel, VC, crowdfunding, debt; Green finance, impact investing, and ESG-linked funding; Startup valuation methods; Financial projections for startups; Pitching to investors; Go-to-market strategy design; Digital marketing & growth hacking basics; Sales vs marketing in startups; Partnerships & distribution; Scaling challenges; India’s startup ecosystem: accelerators, incubators, and government policies encouraging entrepreneurship.

Description

This unit focuses on the financial and strategic aspects of venture execution and growth. It explores various funding options such as bootstrapping, angel investment, venture capital, crowdfunding, and debt financing. Students are introduced to term sheets, valuation fundamentals, financial projections, and investor pitching. The unit also covers go-to-market strategy design, digital marketing and growth approaches, sales and distribution

U4: Organisational Design and Leadership in Startup Enterprises

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U4-T1. Building startup teams; Founder roles & conflicts; Startup culture & leadership; Operations management in early-stage ventures; Crisis management; Social entrepreneurship models; ESG & sustainability driven innovation and business model; Circular economy and resource-efficient business models; Impact measurement; Women & rural entrepreneurship;

Description

This unit examines the operational and human dimensions of entrepreneurship. It addresses team formation, founder roles, leadership styles, startup culture, and conflict management. Operational challenges in early-stage ventures and crisis management are also discussed. The unit further introduces students to social, sustainable, and inclusive entrepreneurship, including ESG considerations, impact measurement, and entrepreneurial initiatives focused on women, rural communities, and inclusive innovation.

U5: Managing Failure and Exit in the Entrepreneurial Lifecycle

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U5-T1. Reasons for startup failure; Pivoting strategies; Exit options: acquisition, IPO, shutdown; Learning from failure; Entrepreneurial career paths;

Description

This unit explores venture failure as an integral part of the entrepreneurial process. It analyses common reasons for startup failure, pivoting strategies, and exit options such as acquisition, IPO, and venture shutdown. The unit encourages reflective learning by examining entrepreneurial career paths and deriving insights from both successful and failed ventures, enabling students to develop resilience and a long-term perspective on entrepreneurship.

Essential Reading

- 2.Hirsch, R. D., Peters, M. P., & Shepherd, D. A. Entrepreneurship.
- 3.Scarborough, N. M. Essentials of Entrepreneurship and Small Business Management.
- 4.Blank, S., & Dorf, B. The Startup Owner's Manual.
- 5.Orser, B. J., & Elliott, C. J. Feminine Capital.
- 6.Manimala, M. J., & Thomas, P. (Eds.). Entrepreneurship Education.

EXAMINATION PATTERN

COURSE NAME: ENTREPRENEURSHIP

COURSE CODE: MCO561-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1 + CIA 2= 50; CIA 3=50

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Assessment

COURSE NAME: RESEARCH PUBLICATION AND VIVA

COURSE CODE: MCO561-4

COURSE TYPE: Practical

TOTAL HRS: 8 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - IV)

Course learning Outcomes

CO1: To bringing out a research article publication in collaboration with a faculty mentor

CO2: Demonstrate ethical publication practices and defend research findings in viva voce.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals
21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Technological literacy

Course Content

U1: Research Planning and Topic Finalization

Teaching Hours: (25)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Identification of research area, formulation of research problem, defining objectives, research gap identification, scope of study, feasibility assessment, and preparation of research proposal.

Description

U2: Literature Review and Research Methodology

Teaching Hours: (25)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Systematic literature review, use of academic databases, development of theoretical framework, research design, sampling techniques, questionnaire design, hypothesis formulation, and selection of statistical tools.

Description

U3: Data Analysis and Research Report Writing

Teaching Hours: (25)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Data collection, statistical analysis using appropriate tools, interpretation of results, discussion, findings, conclusion, implications, limitations, and structuring of research manuscript as per journal standards.

Description

U4: Research Publication Process and Ethics

Teaching Hours: (25)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Journal selection (Scopus/ABDC/Indexed journals), plagiarism norms (maximum 10% similarity), referencing styles, peer review process, responding to reviewers, copyright issues, and publication ethics.

Description

U5: Conference Presentation and Viva Voce

Teaching Hours: (20)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Preparation of research presentation, participation in national/international conferences, handling Q&A sessions, networking, and final viva voce evaluation based on novelty, research gap, methodology, analysis, findings, and defense.

Description

EXAMINATION PATTERN

COURSE NAME: RESEARCH PUBLICATION AND VIVA

COURSE CODE: MCO561-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 100

COURSE NAME: BUSINESS ANALYTICS WITH PYTHON

COURSE CODE: MCO562-3

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - III)

Course learning Outcomes

CO1: Apply machine learning tools to aid business decisions

CO2: Apply supervised machine learning algorithms for classification, prediction and forecasting

CO3: Apply Unsupervised machine learning algorithms for clustering and segmentation

CO4: Apply NLP methods for text analytics

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Machine Learning

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U1-T1. Introduction to Machine Learning

Description

Data mining and Machine learning – Machine learning and statistics – Data mining and ethics – Python data structures – lists – dictionaries – data frames – pandas - Data types – types of variables – continuous – discrete – nominal - ordinal– Instances – features and target - Visualization of data with Seaborn library- types of plots – automating plot generation with for loops - Data preprocessing – handling missing values – scaling data – handling text data – encoding - data split - Training, Validation and Test data set

U2: Unit 2: Supervised Learning Algorithms I

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Unit 2: Supervised Learning Algorithms

Description

Classification Algorithms with Scikit Learn library – probit - Decision trees – Pruning of a tree - Random forests – K-Nearest Neighbors – Support Vector Machines - Gradient Boosting Classifier –XGBClassifier – CatBoost Classifier - Classification report – Accuracy – Recall – Precision- F1- Score – confusion

matrix – cross-validation – hyperparameter tuning – GridSearchCv algorithm.

Practical exercises: HR Attrition prediction, Fraud detection, Loan Application processing

U3: Unit 3: Supervised Learning Algorithms II

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Unit 3: Supervised Learning Algorithms II Linear Regression - OLS- Random Forest Regressor- Gradient Boosting Regression – XGBRegressor - Ensemble methods – Bagging – Boosting – ADA Boosting –Performance evaluation - MAE – MSE MAPE — Time series forecasting with time feature extraction – Neural Networks - Structure of an NN – Deep learning introduction – LSTM and CNN Practical Exercises Airline passenger number forecasting – Sales forecasting – Stock price forecasting- House price prediction

Description

U4: Unsupervised Learning Algorithms

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

None

U4-T1. Unsupervised Learning Algorithms Clustering – Choosing the number of clusters – Hierarchical Clustering – Incremental Clustering – Probability based clustering – EM Algorithm – Bayesian Clustering – K means clustering. Practical Exercises: Customer Segmentation, Glass Type clustering.

Description

U5: Text Mining and Analytics

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Text Mining and Analytics Introduction to text mining and analytics - python text mining methods – tweets data analytics – natural language processing – Natural Language Toolkit library- frequency distribution – normalization – normalization and stemming words- lemmatization – tokenization – Text classification and sentiment analysis

Description

Essential Reading

Géron, A. (2019). Hands-on Machine Learning with Scikit-Learn, Keras and Tensorflow. In O'Reilly Media, Inc.

EXAMINATION PATTERN

COURSE NAME: BUSINESS ANALYTICS WITH PYTHON

COURSE CODE: MCO562-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-II: 50 Marks

CIA Overall : 50 Marks

COURSE NAME: CORPORATE AND ACADEMIC TRAINING

COURSE CODE: MCO563-3

COURSE TYPE: Theory

TOTAL HRS: 1 Hours/Week

OFFERED PROGRAMMES:

- Master of Commerce (SEMESTER - III)

Course learning Outcomes

CO 1: Students will be able to analyse aptitude and logical reasoning problems by identifying patterns, relationships, and constraints to solve questions in competitive examinations.

CO 2: Students will be able to analyse interview processes and varied career profiles to identify and demonstrate appropriate soft skills.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Aptitude

Teaching Hours: (5)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. CAT student coordinators prepare for aptitude and ensure that the same is taught in class.

Description

U2: Competitive Examinations for Teaching and Research

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Department faculties will ensure to train for NET/JRF (Paper 1 and Paper 2)

Description

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Resilience flexibility and agility, Technological literacy

Course Content

U1: Pre-Internship Preparation and Industry Orientation

Teaching Hours: (85)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. This unit prepares students for professional corporate engagement. It includes structured training in resume building, cover letter drafting, LinkedIn optimization, interview simulations, aptitude preparation, and corporate etiquette. Students will be oriented towards workplace ethics, corporate governance, compliance norms, confidentiality agreements (NDA), and ESG (Environmental, Social, Governance) awareness. Faculty shall guide students in setting measurable internship objectives aligned

Description

with industry expectations. Sessions on business communication, workplace diversity, cross-cultural sensitivity, time management, and digital professionalism will be conducted to ensure students are industry ready before deployment.

U2: Industry Immersion and Functional Exposure

Teaching Hours: (85)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability
Cross Cutting Issues:
None

U2-T1. Students will undergo structured immersion within assigned departments such as Finance, Marketing, HR, Operations, Analytics, Consulting, Banking, or emerging domains. The focus is on understanding organizational structure, business models, workflow systems, KPI frameworks, reporting hierarchies, and decision-making processes. Students will observe and participate in meetings, assist in data handling, prepare MIS reports, interact with clients/vendors where permitted, and support

Description

cross-functional teams. Faculty mentors will monitor progress through periodic reviews and ensure meaningful learning outcomes beyond routine clerical exposure.

U3: Live Corporate Project Execution

Teaching Hours: (85)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Students must undertake a live business problem identified in consultation with the industry mentor. The project should involve problem identification, objective formulation, data collection (primary/secondary), analytical tool application (Excel, Power BI, SPSS, etc.), interpretation of findings, and preparation of strategic recommendations. Emphasis shall be placed on evidence-based decision making, cost-benefit analysis, risk assessment, benchmarking, and innovation. The project must

Description

generate measurable value for the organization. Faculty shall ensure academic rigor while maintaining practical feasibility.

U4: Performance Review, Reflection and Professional Development

Teaching Hours: (85)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

None

U4-T1. This unit focuses on structured reflection and competency assessment. Students shall maintain a weekly logbook documenting tasks performed, skills acquired, challenges faced, and solutions implemented. A mid-internship evaluation will be conducted with industry mentor feedback. Students will analyze their strengths, skill gaps, and professional growth areas. Faculty will guide students in converting internship experiences into career narratives suitable for placements and higher career mobility.

Description

Networking strategies, professional branding, and ethical workplace conduct will be reinforced.

U5: Project Report Submission and Viva Voce

Teaching Hours: (20)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Students shall prepare a comprehensive internship project report structured as follows: Executive Summary, Organization Profile, Industry Analysis, Problem Statement, Objectives, Methodology, Data Analysis, Findings, Strategic Recommendations, Implementation Plan, Learning Outcomes, and Conclusion. The report must demonstrate analytical depth and managerial relevance. A final viva voce will be conducted by an internal and external panel to evaluate domain knowledge, analytical ability,

Description

professional maturity, communication skills, and overall industry readiness. Industry mentor evaluation may be incorporated as part of assessment.
