

COMMERCE

2026

DEPARTMENT VISION AND MISSION

a. Vision Statement:

To be a centre of excellence in the realm of Commerce and Management, developing and nurturing global competencies in students through quality education, research and continuous innovation.

b. Mission Statement:

M1: To nurture commerce professionals who possess a high level of knowledge and competence to effectively contribute to society with commitment and integrity.

INTRODUCTION TO BACHELOR OF COMMERCE (FINANCE AND INVESTMENT)

PROGRAMME OUTCOME

Reference No	Statement	Attribute
PO1	Apply interdisciplinary commerce knowledge, including finance, accounting, management, and technology, to develop sustainable and innovative business strategies that address cross-cutting issues and global challenges.	Academic Excellence: Domain Expertise,Problem Solving Skills Leadership: Consultative Decision Making
PO2	Demonstrate leadership, communication, and teamwork skills to collaborate in diverse business environments while designing innovative, socially responsible business models that integrate sustainability principles, technological advancements, and ethical frameworks to address societal and environmental challenges.	Leadership: Team Building Skills Professional Excellence: Entrepreneurship Social Sensitivity: Environmental Sensitivity,Social Awareness and Contribution
PO3	Utilize appropriate research methodologies and analytical tools to critically evaluate business challenges and provide evidence-based, technology-driven solutions.	Academic Excellence: Knowledge Application,Problem Solving Skills,Self-Learning and Research Skills
PO4	Create strategies to integrate new knowledge, skills, and technologies, adapting to the dynamic nature of business and supporting continuous professional growth.	Leadership: Dynamism Professional Excellence: Continuous Learning
PSO1	Evaluate investing and financing strategies to meet specific financial goals of companies and individual investors.	Academic Excellence: Domain Expertise,Knowledge Application,Problem Solving Skills Professional Excellence: Analytical Skills,Critical and Solution-Oriented Thinking,Employability
PSO2	Apply economic way of thinking for business decisions.	Academic Excellence: Domain Expertise,Knowledge Application,Problem Solving Skills,Self-Learning and Research Skills Professional Excellence: Critical and Solution-Oriented Thinking,Employability,Practical Skills

COURSE STRUCTURE

Bachelor of Commerce (Finance and Investment)

SEMESTER - I

SYLLABUS FOR

COURSE NAME: FINANCIAL ACCOUNTING

COURSE CODE: COFI101-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Course learning Outcomes

CO1: Analyse the loss of stock and determine the amount claimable from insurance companies.

CO2: Prepare journal entries and ledger accounts for hire purchase transactions.

CO3: Evaluate the profit earned on consignment transactions based on given data.

CO4: Evaluate the profitability of inland branches using branch accounts

CO5: Apply different accounting software for accounting and reporting purposes.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Insurance Claim

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Insurance Claim

Description

Introduction – Need – loss of stock policy – preparation of statement to ascertain value of stock on the date of fire – Treatment of salvage – valuation of stocks prior to date of fire – calculation of GP Ratio when GP Ratio is not given – Treatment of Average Clause, Treatment of Abnormal items.

U2: Accounting for Hire Purchase and Installment Systems

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Accounting for Hire Purchase and Installment Systems

Description

Hire Purchase - Meaning - Legal provisions - Calculation of interest - when rate of interest and cash price is given - when cash price and total amount payable is given when rate of interest and installments amount are given but cash price is not given - Calculation of cash price under annuity method - Journal

entries and Ledger accounts in the books of hire-purchaser and hire-vendor – Repossession of Assets by Hire vendor.

Installment system- Meaning - Difference between hire purchase and installment system (Theory only)

U3: Consignment

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Consignment

Description

Consignment: Features – Del-credere commission - Accounting treatment in the books of the consignor and consignee – Valuation of unsold stock – Accounting treatment of Normal loss and abnormal loss – Abnormal loss account - Goods sent to consignee at invoice price – Accounting treatment – stock reserve calculation.

U4: Accounting for Inland Branches

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Accounting for Inland Branches

Description

Concept of dependent branches, Accounting aspects, Debtors system. Independent branches: Concept- Accounting treatment: important adjustment entries.

U5: Automation in Accounting

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Automation in Accounting

Description

Meaning of Automation, Automation in Accounting, Impact on Accountants and Industry, Tally, XBRL, Blockchain, Cloud Computing in Accounting, Big Data in Accounting, Robotic Process Automation in Accounting, Recent innovations in Accounting: Agile Accounting, Connected Banking.

Essential Reading

- Anil Kumar, (2024) Financial Accounting, Himalaya Publication
- Jain & Narang, (2024). Financial Accounting. Mumbai: Kalyani.

- Gupta, R.L., & Radhaswamy, M.,(2024) Financial Accounting . New Delhi: Sultan Chand & Sons.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL ACCOUNTING

COURSE CODE: COFI101-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: SPREADSHEET FOR BUSINESS

COURSE CODE: COFI161-1

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Course learning Outcomes

CO1: Explain basic terminologies and functionalities of excel & Apply basic Excel functionalities to format data structures.

CO2: Apply the techniques of time value of money through excel for financial calculations

CO3: Evaluate long-term investment proposals and select the best alternative for the organization.

CO4: Application of basic macro excel functions

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Excel

Teaching Hours: (8)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Basic Excel functions: Structure of an excel function, functions such as SUM (), MIN (), MAX (), AVERAGE (), COUNT (), AUTOSUM, AUTOFILL. Working with an Excel List: Understanding Excel List Structure, Sorting a List Using Single Level Sort, Sorting a List Using Multi-Level Sorts, Using Custom Sorts in an Excel List, Filter an Excel List Using the AutoFilter, Creating Subtotals in a List, Format a List as a Table, Using Conditional Formatting to Find Duplicates, Removing Duplicates

U2: Validation

Teaching Hours: (7)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U2-T1. Excel Data Validation: Understanding the Need for Data Validation, Creating a Validation List, Adding a Custom Validation Error, Dynamic Formulas by Using Validation Techniques

U3: Excel PivotTables

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U3-T1. Understanding Excel PivotTables, Creating an Excel PivotTable, Modifying Excel PivotTable Calculations, Grouping PivotTable Data, Formatting PivotTable Data, Drilling Down into PivotTable Data, Creating Pivot Charts, Filtering PivotTable Data, Filtering with the Slicer Tool.

U4: Conditional Functions and Working with Large Excel Data Sets

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U4-T1. Conditional Functions: Working with Excel Name Ranges, Using Excel's IF () Function, Nesting Functions, Using Excel's COUNTIF () Function, Using Excel's SUMIF () Function, Using Excel's IFERROR () Function. Working with Large Sets of Excel Data: Using the Freeze Panes Tool, Grouping Data (Columns and/or Rows), Consolidating Data from Multiple Worksheets.

U5: LookUp, Text Based Function and financial function

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

**U5-T1. Components of time series; additive and multiplicative models; Trend analysis: Finding trend by moving average method and Fitting of linear trend line using principle of least squares. Problems on all concepts
Essential Reading**

1. Microsoft Excel Essential Hints and Tips Fundamental hints and tips to kick start your Excel skills By Diane Griffiths Published, 2015 edition. 2. Excel 2010 Formulas, by Wiley Publishing, 2010 Edition.

EXAMINATION PATTERN

COURSE NAME: SPREADSHEET FOR BUSINESS

COURSE CODE: COFI161-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I | Quizzes, objective type tests, written assignments, discussion forums etc | 20 Mark | CIA II | Demonstration & Presentation, Quizzes, Assignments, Discussion etc | 30 Mark | CIA III | Comprehensive Practical Test, Viva-Voce, Report Book Submission | 40 Mark | Attendance | 10 Mark |

COURSE NAME: ACCOUNTING PACKAGE FOR BUSINESS

COURSE CODE: COFI161-2

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - II)

Course learning Outcomes

CO1: Explain basic accounting concepts and the role of computerized accounting using Tally Prime

CO2: Create and configure a company in Tally Prime and use fundamental software features

CO3: Create, classify, and manage accounting and inventory masters using chart of accounts in Tally Prime

CO4: Prepare and analyze financial statements using Tally Prime

CO5: Explain and use payroll processing, bank reconciliation, and advanced technology concepts using Tally Prime

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Tally and Accounting concepts

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction – Terminologies in Accounting – Concepts of Accounting – Double Entry System – Types of Accounts – Rules of Debit and Credit – Book Keeping – Financial Statements – Subsidiary Books and Control Accounts – Introduction to Computerized Accounting – Automation in Accounting – Impact of Automation – Introduction to Tally Prime – Company Creation and Modification.

Description

U2: Fundamentals of Tally Prime

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Computerised Accounting using Tally Prime – Fundamentals of Tally Prime – Creation of Company – Alter and Shut Company – Features and Configurations – Activating GST – Configuration in Tally Prime.

Description

U3: Maintaining Chart of Accounts

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Chart of Accounts – Accounting Masters – Group and Ledger Creation – Inventory Masters – Stock Group, Stock Category, Units of Measure, Stock Item and Godown – Alteration and Deletion – Multi Master Creation.

Description

U4: Recording of Transactions

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Accounting Vouchers – Recording Transactions – Trial Balance – Trading Account – Profit and Loss Account – Balance Sheet – Ratio Analysis – Interpretation of Financial Statements using Tally Prime.

Description

U5: Advanced Features in Tally

Teaching Hours: (9)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Payroll Accounting in Tally Prime – Employee Creation – Pay Heads – Salary Processing – Payroll Reports – Bank Reconciliation Statement (BRS): Meaning, Need, Causes of Differences, Preparation of BRS in Tally Prime – Automation in Accounting – Robotic Process Automation – Cloud Computing – Blockchain – XBRL – Big Data – Connected Banking – Recent Innovations in Accounting. Essential Reading

Description

Essential Reading

Gaurav Agrawal, Learn Tally Prime With GST Book, Digital Muneem Ji, 1 January 2021.

Tally ERP 9 (Power Of Simplicity): Software for Business and Accounts (Singh & Mehra). (2015). Tally ERP 9 (Power of Simplicity): Software for business and accounts. V&S Publishers.

EXAMINATION PATTERN

COURSE NAME: ACCOUNTING PACKAGE FOR BUSINESS

COURSE CODE: COFI161-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA II (50), Overall (50)

COURSE NAME: BUSINESS STATISTICS

COURSE CODE: COFI201-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - II)

Course learning Outcomes

CO1: Apply measures of central tendency, variation, shape, and position to summarize and interpret business data.

CO2: Analyze relationships between variables using correlation and regression techniques for business insights.

CO3: Analyze sample data and perform hypothesis tests to support business decision-making.

CO4: Evaluate and construct index numbers to assess business and economic trends.

CO5: Evaluate time series data using trend analysis and forecasting techniques for business planning.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Quality control

Course Content

U1: Descriptive Statistics

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Descriptive Statistics Measures of Central Tendency: Mean, Median, Mode Measures of Variation: Range, Mean Deviation, Standard Deviation, Quartile Deviation Measures of Shape: Kurtosis, Skewness, Histogram Measures of Position: Partition Values (Percentiles, Deciles, Quartiles) (Cases using Excel)

Description

U2: Correlation and Regression

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Correlation and Regression **Meaning, Definition and Use of Correlation, Scatter diagram, Types of correlation - Karl Pearson's correlation coefficient, Spearman's Rank correlation, Probable Error, Coefficient of determination; Regression- Meaning and utility of**

Regression analysis, Comparison between Correlation and Regression, regression lines – X on Y, Y on X, Regression Equations and Regression Coefficients. Problems on all concepts
(Cases us
Description

U3: Sampling, Estimation and Hypothesis testing:

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Sampling, Estimation and Hypothesis Testing: Sampling – Probabilistic and Non-Probabilistic techniques; Statistic, Parameter, Point, and Interval Estimates, Confidence intervals, Level of Significance; Hypothesis Testing: Types of Hypothesis; How to formulate a hypothesis; Process of hypothesis testing; Tests of hypothesis: Z test, T test, F test, Chi square test, ANOVA, Run test, Median test, and Sign test; Problems on all concepts.

Description

U4: Index Numbers

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Index Numbers Meaning and characteristics of index numbers; Application of index numbers; Problems in the construction of index numbers; Methods of Constructing Index numbers – Simple Aggregative method, Average of Price Relative method, Weighted Aggregative method (Laspeyre, Pasche, Dorbish & Bowley, Fisher, Marshall-Edgeworth, Kelly); Tests of adequacy of index numbers, Construction of consumer price indices.

Description

U5: Time-Series Analysis

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Time-Series Analysis Time Series – Meaning, Time Series Vs Longitudinal Data Vs Panel Data, Components of time series; additive and multiplicative models; Trend analysis: Finding trend by semi-average method, moving average method, and least squares method; Problems on all concepts.

Description

Essential Reading

- Chikkodi, C.M., & Satyaprasad, B. (2014). Business Statistics . Himalaya Publishing House.
- S.P.Gupta, Statistical Methods. Sultan Chand and Sons.
- Das and Swain, Business statistics for Managerial Decision , Himalaya Publishing House

EXAMINATION PATTERN

COURSE NAME: BUSINESS STATISTICS

COURSE CODE: COFI201-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I: Department Submission Based

Overall CIA: Department Submission Based

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A: $7 \times 5 = 35$

Section B: $5 \times 10 = 50$

Section C: $15 \times 1 = 15$

COURSE NAME: CORPORATE ACCOUNTING

COURSE CODE: COFI201-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - III)

Course learning Outcomes

CO1: Analyze and interpret the financial performance and position of a company through preparation of final accounts in compliance with Schedule III and Accounting Standards.

CO2: Evaluate and account for transactions relating to alteration of share capital, including bonus issues and buy-back of shares, in accordance with statutory guidelines.

CO3: Analyze the terms of reconstruction scheme, pass appropriate journal entries and prepare a reconstructed balance sheet.

CO4: Analyze business combinations and prepare the balance sheet of the transferee company in accordance with Ind AS 103.

CO5: Analyze relevant financial information and prepare a consolidated balance sheet of a holding company by applying principles of consolidation.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Quality control

Course Content

U1: Final Accounts

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U1-T1. Framework for preparation and presentation of Financial Statements – Compliance with Accounting standards- Form and contents of Statement of Profit or Loss and Balance Sheet as per SCHEDULE III (Division ii) – General Instructions for preparation of Statement of Profit and Loss and Balance Sheet – Disposal of company profits – dividend tax deducted at source-Declaration of dividends out of reserves-Transfer to Reserves etc., excluding calculation of managerial remuneration.

Description

U2: Accounting for Alteration of Share Capital

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U2-T1. Meaning of Alteration of share capital – Accounting treatment- Bonus shares- Characteristic of Bonus shares- circumstances for issue of bonus shares-SEBI guidelines for issue of bonus shares-Accounting Treatment for Bonus shares-Buy-back of shares- advantages-Accounting entries in buy-back of shares - equity shares with differential rights, employee stock option (theory only).

Description

U3: Internal Reconstruction

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U3-T1. Introduction - Meaning, Importance- Legal provision relating to Capital Reduction-steps in reconstruction - Accounting entries on Internal Reconstruction - Re-organization through Surrender of shares - Preparation of reconstructed Balance sheet.

Description

U4: Accounting for Business Combinations

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. Introduction – Definitions - Business Combinations - Accounting procedure as per IndAS 103, Purchase consideration - Accounting Entries in the Books of the Acquirer and acquiree company Reconstruction - Accounting Entries in the Books of the Transferor and Transferee company - Disclosure in Financial Statements.

Description

U5: Accounts of Holding Companies/Parent Companies

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Meaning of Holding & Subsidiary Company – Consolidation of Balance Sheet of Holding and Subsidiary Company - Relevant provisions of Accounting Standard (ICAI). Calculation of Cost of Control – Minority Interest –Treatment of Unrealized Profit on stock and assets- Revaluation of Assets and Liabilities- Inter Company Owing-Preference shares --

Preparation of consolidated balance sheet with one subsidiary company.

EXAMINATION PATTERN

COURSE NAME: CORPORATE ACCOUNTING

COURSE CODE: COFI201-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: COST ACCOUNTING

COURSE CODE: COFI201-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - IV)

Course learning Outcomes

CO1: Explain the concept, classification, and elements of cost, and apply these elements to prepare a comprehensive cost sheet.

CO2: Evaluate material cost and labour cost using appropriate costing techniques.

CO3: Analyze various types of overheads and apply suitable methods for their allocation, apportionment, and absorption.

CO4: Analyze the costing methods used in job costing, batch costing, and contract costing.

CO5: Interpret the costs involved in process costing and operating costing for effective cost determination.

CO6: Critically evaluate recent trends and developments in the field of Cost Accounting.

Sustainability Development Goals (SDG)

Consumption and production, Quality education

21st Century Skills

Analytical thinking, Quality control

Course Content

U1: Introduction to Cost Accounting

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Cost Accounting Meaning, objectives and advantages of cost accounting; Difference between cost accounting and financial accounting; Cost concepts and classifications;

Description

U1-T2. Cost Sheet Elements of cost, Format of Cost Sheet - Tenders and Quotations (Practical problems on above).

Description

U2: Elements of Cost: Costing of the Material and Labour

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Elements of Cost: Costing of the Material and Labour : Material Cost - Materials: Need for material control, Stages of material control, Control of purchases , Storage control, Methods of valuing of materials issues — FIFO, LIFO, Simple and Weighted Average methods. Material/inventory control techniques- EOQ, Materials Stock Levels, Inventory Turnover ratio.

Description

U2-T2. Labour Cost - Labour: Accounting and Control of labour cost; time keeping and time booking. Concept and treatment of idle time, over time, labour turnover. Methods of wage payment – Time rate and Piece rate systems; Labour Incentive schemes- Halsey premium plan, Rowan plan, Taylor’s Differential piece rate system and Merrick’s Differential piece rate system.

Description

U3: Elements of Cost: Overheads

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Elements of Cost: Overheads Collections and Classification of Overheads - Allocation & Apportionment – Primary Distribution - Secondary Distribution – Methods of Reapportionment (Simultaneous Equation Method); Absorption of Overheads and Computation of Machine Hour Rate.

Description

U4: Methods of Costing - I

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Methods of Costing - I - Job Costing Job Costing - Meaning - Features of Job Costing - Types of Job Costing - Preparation of Job Cost Sheet

Description

U4-T2. Batch Costing Batch Costing – Meaning - Its Application.

Description

U4-T3. Contract Costing Contract Costing - Definition - Difference between Job Costing and Contract Costing - Contract Ledger - Ascertainment of Profit/Loss on Contract – Work In Progress and Balance Sheet - Cost Plus and Estimated Contracts.

Description

U5: Methods of Costing– II

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Methods of Costing– II - Process Costing Process Costing - Normal Loss - Abnormal Loss/gain - (Including Inter-Process Profit and Equivalent Production - closing W-I-P with no process losses; closing W-I-P with process losses; opening and closing W-I-P with no process losses – ONLY weighted average method; opening and closing W-I-P with process losses) - Preparation of Process Accounts.

Description

U5-T2. Operating Costing Operating Costing – Concept - Features - Performance of Operating Costing and Problems on Transport Costing

Description

U6: Recent Developments in Cost Accounting (Theory)

Teaching Hours: (4)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Recent Developments in Cost Accounting (Theory) Target Costing, Life cycle Costing, Activity Based Costing, Transfer pricing and Throughput Accounting – Theory of Constraint.

COURSE NAME: TAXATION LAWS I

COURSE CODE: COFI201-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - V)

Course learning Outcomes

CO1: Apply the provisions to determine the residential status and incidence of tax

CO2: Compute taxable salary income, apply relevant exemptions, and navigate the complexities of salary-related tax laws.

CO3: Compute income from both let-out and self-occupied house properties and the deductions available.

CO4: Apply the provisions under the business head, including allowable expenses and expenses expressly disallowed to compute income under this head

CO5: Apply the provisions to compute income from other sources, deductions, and non-deductible expenses.

Sustainability Development Goals (SDG)

Consumption and production, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Introduction to Income Tax and Basis of Charge

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Concept of Income Tax-Finance Bill & Act; Definitions: Assessee, Person, Assessment year, Previous year, Income, Total Income, and Agricultural Income – Concept of Capital & Revenue Receipts (b) Payments (Expenditure). Charge of Income - Tax Residence Status of Individuals - Scope of Total Income - Income deemed to be received - Income Deemed to accrue or arise in India – problems on residential status.

U2: Incomes from Salary

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Brief introduction – Income from Salary – Definition; Characteristics of Salary Income; Computation of Salary Income – Basic Salary – Allowances – Perquisites (Valuation of RFA, Motor car, Benefits provided to specified employees) - Leave Encashment -

Commutation of Pension - Death-cum-Retirement Gratuity, Deduction from Gross Salary u/s 16 – Computation of income from salary.

U3: Income from House Property

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Meaning – Types of House Properties - Annual value Determination in different situations: House- treatment of unrealized rent and vacancy- Deductions for let out House properties – Annual Value of Self Occupied House Property –Deduction for Self-Occupied Property — Computation of Income from Let-Out House Property, Income from Self Occupied House Property.

U4: Profits and Gains from Business and Profession

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Computation of Income under this head - Allowable Expenses - Expenses expressly disallowed - Problems relating to business (sole trader only) and Problems on profession relating to Chartered Accountant, Advocate and Doctor.

U5: Income from Other Sources

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Meaning and Explanation of Income from Other sources – Various Incomes which are falling under this head, taxation of dividends, deemed dividend, dividend stripping – Deductions allowed – Expenses Not Deductible – Computation of Income

choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: GLOBAL BUSINESS STRATEGY AND ORGANIZATIONAL LEADERSHIP

COURSE CODE: COFI201-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - VI)

Course learning Outcomes

CO1: Analyze the motivations and factors influencing countries' decisions to engage in global trade, demonstrating an understanding of international trade theories and barriers.

CO2: Evaluate different strategies and mechanisms for conducting global business, including the formulation of international sales contracts and the identification of competitive advantage

CO3: Apply knowledge of logistics, compliance, and risk management in international trade, utilizing INCOTERMS and understanding the regulatory framework to navigate global business effectively.

CO4: Discover leadership ideas in global business situations, including culture, ethics, and technology.

CO5: Analyze how leaders manage change, solve problems, and lead in global markets.

Sustainability Development Goals (SDG)

Decent work and economic growth, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Leadership and social influence

Course Content

U1: Introduction to Global Business Strategy

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Introduction to Global Business Strategy

Description

Understanding Global Business- Motivations for International Trade- Trade Barriers & Tariffs - Types of Tariffs- Competitive Advantage in Global Markets - Modes of Engaging in Global Business

U2: Mechanisms of Global Trade

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Mechanisms of Global Trade

Description

International Sales Contract- Components -Risk undertaking - Popular Trade Routes - Logistics in International Trade -Regulatory Frameworks- Compliance Processes - Shipping and associated risks

Operating Export Businesses, Documentation,
U3: Logistics and Compliance in Global Trade

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Logistics and Compliance in Global Trade

Description

International Chamber of Commerce Terms (INCO), Explanation and significance-Seller and Buyer Obligations- Customs, Carriage, Freight, Insurance responsibilities – Issues in International Trade -

U4: Leadership in Global Business Strategy.

Teaching Hours: (11)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Environment, Professional Ethics

U4-T1. Leadership in Global Business Strategy.

Description

Introduction to Global Leadership – Role of Leadership in International Business Growth and Sustainability, Transformational and Adaptive Leadership – Understanding how leaders navigate globalisation, rapid change, and crises. Cultural Intelligence & Diversity Management – Strategies for leading cross-cultural teams and fostering inclusion in global trade, Ethical Leadership in Global Trade – Managing integrity, sustainability, and corporate social responsibility (CSR), Technology & Digital Leadership – Impact of AI, automation, and digital transformation on leadership in global business.

U5: Strategic Leadership for Innovation and Change.

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Strategic Leadership for Innovation and Change.

Description

Leadership in Uncertain Global Markets – How leaders manage volatility, inflation, trade disruptions, and supply chain crises, Decision-Making in Global Trade – Data-driven leadership and risk management in uncertain business environments, Crisis Leadership & Resilience – Case studies on leadership during economic downturns, pandemics, and geopolitical conflicts, Climate Crisis Leadership & Organizational Resilience-Leadership during climate disasters and environmental shocks, Building climate-resilient organizations and communities, Agile and Collaborative Leadership – Role of agile methodologies in

global business and trade negotiations, Sustainable and Responsible Leadership – Circular economy, ESG (Environmental, Social, and Governance) leadership, and stakeholder capitalism, Global collaboration for sustainable development.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

Pattern -
Section A

7X5 marks =35 Marks

(two questions have internal choice)

Section B

5X10 marks =50 Marks

(two questions have internal choice)

Section C

Case study question – Compulsory - 1X15 marks =15 Marks

COURSE NAME: CORPORATE FINANCE

COURSE CODE: COFI202-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - III)

Course learning Outcomes

CO1: Describe the role of corporate finance and relate the concept of time value of money to estimate the present and future value of cash flows.

CO2: Explain the analytical skills to assess various risks and returns in financial investments.

CO3: Appraise the analytical skills to assess financing costs and capital structure decisions.

CO4: Evaluate working capital management principles to optimize liquidity, profitability, and firm value under diverse market conditions.

CO5: Critique diverse theoretical models and practical implications of dividend policy.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Motivation and self-awareness, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Corporate Finance and Time Value

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Why study Corporate Finance – Role of Financial Manager – Financial functions, Financial Planning - Objectives of financial management – profit maximization & wealth maximization - Time value of money – Compounding and Discounting- Present value of money - single cash flow and uneven cash flow – Future Value of Money – Valuing cash flow streams - Annuity- Annuity due and ordinary annuity- constantly growing annuity perpetuity- practical problems (using MS Excel too). Interest Rates- Effective.

Description

U2: Cost of Capital

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Sources of financing, Traditional and Modern sources of financing –Relevance of Green financing - Concept of Opportunity Cost of Capital, Cost of debenture capital, cost of preferential capital, cost of equity capital (Dividend growth and CAPM Model), Determination of Weighted average cost of capital (WACC), Causes for the changes in WACC and Marginal cost of capital.

Description

U3: Capital Structure and Financing Decisions

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Factors determining capital structure – Optimal Capital Structure- EBIT- E.P.S Analysis - Concepts of leverages - operating leverages - financial leverages - combined leverages- Relevance of Capital Structure: The Net Income and the Traditional Views- Irrelevance of Capital Structure: NOI Approach and the MM Hypothesis without taxes- Relevance of Capital Structure: The MM Hypothesis under Corporate Taxes- The Trade-off Theory-Pecking order theory.

Description

U4: Working Capital Management

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Working capital management, need for working capital - types of working capital - Factors affecting working capital - adequacy of working capital - Sources of Working Capital, Management of working capital –Principles of Working Capital - working capital cycle - working capital estimation and calculation. Accounts Receivables and Cash Management. Meaning of cash - motives for holding cash - Objectives of cash - management of cash. Meaning of receivables - Meaning of receivables management, Credit

Description

Policy , purpose of receivables management - Cost of maintaining receivables - Factors affecting - Policies for managing receivables - Factoring services

U5: Dividend Theory

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Issues in Dividend Policy, Relevance of dividend policy - Walter model - Gordon model Residual theory of dividend policy - Modigliani and Miller theory (only theoretical concepts) - Dividend policy retained earning - Dividend payout ratio - Stability of dividend - Forms of dividend, relevance of Dividend Policy under Market Imperfections. Regulatory compliance in dividend policy.

Essential Reading:

- Pandey, I. M. (2015). Financial Management. India: Vikas Publishing House Pvt Limited.

EXAMINATION PATTERN

COURSE NAME: CORPORATE FINANCE

COURSE CODE: COFI202-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1 - 20 Marks CIA 2 - 50 Marks CIA 3 - 20 Marks ESE - 100 marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE - 100 Marks

COURSE NAME: BUSINESS MATHEMATICS

COURSE CODE: COFI202-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - IV)

Course learning Outcomes

CO1: Demonstrate the working knowledge of set notation and operations and its application to solve business problems.

CO2: Apply conceptual knowledge of Matrices and Determinants to solve business problems.

CO3: Evaluate the various financial alternatives through application of simple interest, compound interest, annuities, sinking funds.

CO4: Solve problems involving ratio and proportional reasoning in different business situations

CO5: Formulate Linear Programming models for service and manufacturing systems and solve it graphically.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Quality control

Course Content

U1: BUSINESS MATHEMATICS

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Set theory- Notation of Sets, Singleton Set, Types of sets, Union of Sets, Inter-section of Sets, Use of set theory in business. Sets Theory: Meaning of Set - Set Operation – Venn Diagrams.

Description

U2: Matrices and Determinants

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Definition of a matrix; types of matrices; Algebra of matrices, Properties of determinants; calculations of values of determinants up to third order; Adjoint of a matrix, inverse of Matrix (Simple Problems only). Solution of a system of linear equations using

Cramer's Rule and Matrix method, Applications of Matrices and Determinants in business.

Description

U3: Commercial Arithmetic

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Simple interest – Compound interest – Equivalent rate – Depreciation of Assets – Compounding and discounting of a sum using different types of rates. Types of annuities - like ordinary, due, deferred, continuous, perpetual, and their future and present values using different types of rates of interest. – Sinking Fund.

Description

U4: Ratio and Proportions

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Ratio – Proportion – Direct Proportion - Inverse Proportion – Compound proportions – related problems.

Description

U5: Probability

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Permutation and Combination: – Definition, Factorial notation, permutations with repetitions; restricted permutations. Definition of combination; Basic identities; restricted combinations. Concept of Probability—Meaning and Definition— Approaches to Probability Theorems of Probability—Addition Theorem— Multiplication Theorem—Conditional Probability—Inverse Probability—Bayes' Theorem

Description

U6: Linear Programming

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Definition – Linear Programming Problem – Formulation – Solution by Graphical method - Introduction to Transportation Problem – Initial Basic Feasible solution – Moving towards Optimality – Degeneracy in Transportation Problems – Unbalanced Transportation Problem – Assignment Problems.

Description

EXAMINATION PATTERN

COURSE NAME: BUSINESS MATHEMATICS

COURSE CODE: COFI202-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA1- 20 marks, CIA2 Centralised 50 marks, CIA3 20 (Converted to 45), 5 marks attendance, ESE 100 marks(converted to 50 marks).

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A: $7 \times 5 = 35$ Section B: $5 \times 10 = 50$ Section C: $15 \times 1 = 15$

COURSE NAME: FINANCIAL MARKETS AND SERVICES

COURSE CODE: COFI203-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - III)

Course learning Outcomes

CO1: Explain the structure, participants, regulatory framework, and functioning of Indian and global financial markets and services.

CO2: Analyse equity investments by comparing ownership benefits, corporate actions, and associated risks across domestic and global stock markets.

CO3: Analyse bonds and other financial instruments by differentiating their features, returns, risks, and applications in financial markets.

CO4: Assess the suitability of investment funds and financial products for different investor profiles based on risk, return, and sustainability considerations.

CO5: Evaluate regulatory frameworks, ethical principles, and emerging trends such as ESG and AI in addressing challenges in financial services.

Sustainability Development Goals (SDG)

Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction: Financial Markets and Services (Indian and Global)

Teaching Hours: (15)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Introduction: Financial Markets and Services (Indian and Global)

Description

Introduction to Financial Markets and Services, three core functions - the investment chain, risk, payment systems, Indian Financial System – Role of Participants (Commercial Banks, Investment Banks, Custody operations, Depositories & Institutions –Regulators-

Settlement cycle - Role of the central counterparty in clearing and settlement, participants; process-settlement cycles - Securities and Regulations Act- SEBI- Deficiencies in Markets

U2: Equities/Stocks

Teaching Hours: (15)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. Equities/Stocks

Description

Listing and process for new issue – Private placement- Holding Shares- registered and bearer form, nominal value, partly paid, fully paid - Benefits of owning shares – dividends- voting rights etc- Risks of owning shares - price risk; liquidity risk; issuer risk; foreign exchange risk- Corporate Actions- mandatory, voluntary and mandatory with options, including takeovers and mergers, Bonus, Stock split- American Depository Receipt & Global Depository Receipt – World Stock Market indices, Indian stock exchanges and stock Indices.

U3: Bonds and other instruments (Property/Foreign exchange/Derivative/Commodities)

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Bonds and other instruments (Property/Foreign exchange/Derivative/Commodities)

Description

Bonds- Meaning and types - domestic; foreign; Eurobond; asset-backed securities including covered bonds; zero coupon; convertible; preferred; floating rate notes; medium-term notes- asset backed securities – Terminologies – Coupon , Redemption & Yield of a bond – Role of Credit rating agencies - Other Instruments -Property investment, Investing in Foreign Exchange market- Derivatives Meaning, types and applications – Futures terminologies - long; short; open; close; covered; naked; Options terminologies - calls; puts; holder; writer; premium; covered; naked; Swaps and its types – Commodity markets investing

U4: Investment funds & Other financial products

Teaching Hours: (15)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U4-T1. Investment funds & Other financial products

Description

Investment funds- Meaning - advantages, disadvantages, and risks – Active & Passive investment and techniques- Types of funds – open-ended & close-ended, Hedge fund, Private equity-Other financial products- Life insurance products Term Plans/Endowment plans /Whole life plans , Pension funds, Mortgage contracts and its basics, Islamic Finance

U5: Regulations, Professional Ethics & Recent Trends

Teaching Hours: (5)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Regulations, Professional Ethics & Recent Trends

Description

Regulation – Need for Regulation – Money laundering and Insider Trading, Financial crime: fraud; cybercrime; terrorist financing- Market Manipulation, Principles of professional integrity and ethical behavior- Professional Ethics –Financial advice areas – Budgeting, protection, investment/saving, agency; real estate, personal property and joint ownership; powers of attorney (ordinary and lasting); insolvency and bankruptcy; identifying, reporting scams, information to clients- Chartered Institute for Securities & Investment (CISI) Code of Conduct -Recent Trends - ESG investing and responsible investing – Sustainable finance and climate finance – Use of Artificial Intelligence (AI) in financial services such as fraud detection and anti-money laundering (AML), Robo-advisory services, credit scoring, risk management, and market surveillance – Ethical and regulatory concerns related to AI including algorithmic bias, data privacy, cybersecurity risks, transparency, accountability, and the need for regulatory oversight.

2. “International Introduction to Securities & Investment”, Edition 16, June 2023 (Investment Operations Certificate)
3. E.Gardon & K.Natarajan, “Financial Markets & Services”, 10th Edition, Himalaya Publishing House, Mumbai, 2016
4. Bharti V Pathak, “The Indian Financial System: Markets, Institutions and Services” 5th Edition, Pearson Publication, 2018

EXAMINATION PATTERN

COURSE NAME: FINANCIAL MARKETS AND SERVICES

COURSE CODE: COFI203-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

100 CIA + 0 ESE 50D + 50 Overall = 100

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: STRATEGIC FINANCIAL MANAGEMENT

COURSE CODE: COFI301-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - IV)

Course learning Outcomes

CO1: Analyse the various strategies available for the effective financial management of the firm.

CO2: Evaluate the risk associated with various sources of finance and their costs.

CO3: Appraise the long-term investment proposals and select the best alternative for the firm

CO4: Critique the corporate financial restructuring and expansion through mergers and acquisitions (M&A).

CO5: Develop a comprehensive understanding on corporate governance principles and their application in ethical dilemmas.

CO6: Apply and analyze various corporate valuation approaches for informed financial decision-making.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, No poverty

21st Century Skills

Analytical thinking, Dependability and attention to detail

Course Content

U1: Introduction and Ethical Aspects in SFM

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning of SFM - Reasons for managing business financially - 9-s model for SFM - Financial goals and strategy- Strategic Position Audit Value Chain analysis- Cost Benefit analysis- Strategic Business Units-Strategic Planning process, COSO framework-Changing Environment of Business Finance – Recent Trends and Financial Strategies

Description

The unit introduces Strategic Financial Management (SFM) and its role in driving business success. It explores financial goal-setting, and strategic tools like value chain analysis, cost-benefit analysis, and strategic position audits. Learners will understand the strategic planning process, the COSO framework for risk and control, and how businesses adapt their financial strategies in a dynamic environment shaped by recent trends.

U2: Investment decision and project cash flows

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Long- term Investment decisions- Types of long-term investment decisions- Phases in long term investment decisions- Different analyses for evaluating an investment proposal- Estimation of project cash flow- Initial cash flow, Sunk cost, Terminal cash flow (problems on estimation of cash flow) – Relevant cost analysis (concept)

Description

It focuses on long-term investment decisions, their types, and the phases involved. It guides learners through various analyses used to evaluate investment proposals, including the estimation of project cash flows—initial, terminal, and sunk costs. The unit also covers relevant cost analysis and practical problem-solving to support informed capital investment planning.

U3: Investment Decision – Capital Budgeting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Importance of investment decision-Capital Budgeting Process-Techniques of Capital Budgeting-Advantages & disadvantages-Non-discounting methods-Discounting methods-(problems using all techniques)-Risk analysis in Capital Budgeting- -Factors affecting Long term investment decision-Practical application and Case studies

Description

The unit highlights the importance of investment decisions and the capital budgeting process. It covers various capital budgeting techniques—both discounting and non-discounting methods—along with their advantages, limitations, and practical application through problem-solving. The unit also explores risk analysis and key factors influencing long-term investment decisions.

U4: Capital Budgeting Decisions under Uncertainty

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Capital budgeting decisions Capital budgeting decisions under uncertainty and risky situations-Concept of probability & expected value Certainty Equivalent approach, Simulation and Decision tree analysis, Sensitivity analysis, Replacement decisions, Effect of inflation on CB decisions (case study).

Description

It focuses on capital budgeting decisions, especially under risk and uncertainty. It covers tools like probability, expected value, certainty equivalent, sensitivity analysis, simulation, and decision tree analysis. Learners will also explore replacement decisions and understand how inflation impacts investment choices, enabling more informed and strategic financial planning.

U5: Expansion and Financial Re-structuring Expansion and Financial Re-structuring

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U5-T1. Need for financial restructuring - Restructuring through privatization-Restructuring of sick companies - Mergers and amalgamations – Calculation of purchase consideration- Share exchange ratio- Evaluation of M&A decisions (problems)- legal procedure for merger – benefits and cost of merger; Takeover & Defense Mechanism -Corporate and distress restructuring –Voluntary Settlements and DIP Financing for Reconstruction-Formulating Revival Plan. Demergers- Leverage buyout-share repurchases-Spin off-D

Description

This unit explores the need for financial restructuring in corporations to improve performance and value. It covers various restructuring strategies such as privatization, revival of sick companies, mergers and amalgamations, and takeovers. Key concepts include the calculation of purchase consideration, share exchange ratios, and evaluation of M&A decisions. The unit also examines legal procedures, costs and benefits of mergers, corporate distress handling, voluntary settlements, DIP financing, and revival planning. Advanced strategies like demergers, leverage buyouts, spin-offs, share repurchases, and divestitures are also discussed to understand comprehensive corporate restructuring.

U6: Corporate Governance and Valuation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Ethical Dilemma faced by Financial Managers - Need for corporate social responsibility – Key stakeholders - Corporate governance - Principles - Audit Committee- Role of BOD- Good CG practices (case study) - Role of ESG in investment decisions in ESG compliance. Reasons for valuation of business enterprise - Different Approaches to corporate valuation – Discounted Cash Flow valuation- - Traditional techniques of evaluating value - New approaches to shareholder valuation

Description

This unit helps learners understand the ethical dilemmas financial managers often face and the growing importance of corporate social responsibility (CSR) and good governance. It explores the roles of key stakeholders, the Board of Directors, and audit committees in promoting transparency and trust. Through case studies, students will learn about best practices in corporate governance and how Environmental, Social, and Governance (ESG) factors influence investment decisions. The unit also introduces business valuation—why it matters, traditional and modern valuation approaches, and the basics of financial modelling to support sound decision-making.

U6-T2. Different Approaches to corporate valuation -Discounted Cash Flow valuation- - Traditional techniques of evaluating value - New approaches to shareholder valuation- Introduction to Financial Modelling

Essential Reading

- 1.Rustagi., R P (6th Revised Edition, October 2018), Financial Management - Theory, Concepts and

Problem, New Delhi:Taxman Publications Pvt. Limited.

- 2. Strategic Financial Management –Managing for value creation | Second Edition Prasanna Chandra(2020), Publisher-McGrawHill.

EXAMINATION PATTERN

COURSE NAME: STRATEGIC FINANCIAL MANAGEMENT

COURSE CODE: COFI301-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I -20 Marks, CIA II -50 Marks, CIA 3- 20 Marks with MSE QP Pattern of Short answer (5 Marks question) =15 Marks, Conceptual/Analytical (10 Mark Question) = 20 Marks, Case Study (Compulsory-15 Marks) =15 Marks, for the total of 50 Marks.

CIA I-20 Marks (Scaled down to 10 Marks), CIA II 50 Marks(Scaled down to 25 Marks) & CIA III 20 Marks(Scaled down to 10 Marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE 100 Marks Scales down to 50 marks . The Question paper Pattern for ESE is Short Answer (5 Marks Question)= 35 Marks , Conceptual/Analytical (10 Mark Question)= 50 Marks & Case Study (15 Marks)=15 Marks with total of 100 Marks question paper.

COURSE NAME: INVESTMENT ANALYSIS AND PORTFOLIO MANAGEMENT

COURSE CODE: COFI301-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - V)

Course learning Outcomes

CO1: Understand basic investment concepts and compare major investment avenues, including money market, fixed-income, equity, mutual funds, and insurance.

CO2: Analyse risk–return relationships and compute expected return, variance, standard deviation, and beta using basic methods.

CO3: Apply fundamental (EIC) analysis and technical analysis tools such as trends, patterns, indicators, and theories for investment decisions.

CO4: Perform bond and equity valuation using bond pricing models, YTM/YTC, and dividend discount models.

CO5: Construct and evaluate portfolios using MPT, CAPM, index models, and optimal portfolio selection techniques.

Sustainability Development Goals (SDG)

Consumption and production, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Investment

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction to Investment

Description

Meaning of investment – Financial and economic meaning, Investment vs speculation and Gambling, Importance of investments – Reasons for investing, Essential features of a good investment Programme/Features- Factors influencing the investment decision - Qualities of a successful investment – Contrary thinking - Patience composure - Flexibility and openness and decisiveness - Process - Common Errors in Investment Management – Investment strategies. Overview of Financial Markets, Instruments, Asset Classes, and Recent Capital Market Reforms.

U2: Risk and Return

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Risk and Return

Description

Risk & Return Analysis of Individual Security: Meaning – risk, return and realised return–Types of risks- Systematic risk and unsystematic risk- Measurement of systematic risk- Beta - Regression and correlation method. Return – Meaning – expected return – realized return - Holding Period Return – Equivalent Annual Return – Expected Value of Return – Calculation of expected return- Ex-post and Ex-ante return, Expected risk-return trade-off. , Choosing a Security Based on Risk and Return. ,Coefficient of Variation.

U3: Fundamental and Technical Analysis

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Fundamental and Technical Analysis

Description

Fundamental Analysis -Economy Analysis - Meaning, Key economic variables, Industry Analysis -Meaning, Industry life cycle, characteristics of industry and Porter's model, Company Analysis - Analysis of financial statements, future prospects of a company. Technical analysis-Meaning of Technical analysis and basic principles of technical analysis- Different types of Charts- line chart, bar chart, candle stick, Trends and Chart patterns – support and resistance level, triangle pattern, head and shoulders, double tops, double bottom, rectangles, cup and handle. Eliot wave theory, Dow Theory, Random Walk theory, Efficient market theory, Mathematical indicators – Moving averages, Oscillators, and Market indicators. Fundamental Vs technical analysis.

U4: Security Valuation (Equity and Debt Instruments)

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Security Valuation (Equity and Debt Instruments)

Description

Time value of money - Concept of present value. Debt instruments and valuations, Holding period return, Current yield, Bond Risk, Bond Valuation Models – Bond with a maturity period, Bonds redeemable in installments, Bond values with semiannual interest and Bonds in perpetuity, Bond pricing theorems, YTM and YTC (Direct method and trial and error method. Bond duration convexity. Equity instrument and valuations - Earning valuations revenue valuations yield valuation, Discounted cash flow methods, Dividend discount models – Single period model, multi-period model, Constant growth model, and Two-stage growth model

U5: Portfolio Selection and Construction

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Portfolio Selection and Construction

Description

Meaning– Portfolio – Portfolio Management – Objectives – Process – Types of portfolio management – Portfolio Manager - MPT and Dominance concept—SEBI guidelines for portfolio managers-Portfolio managers- portfolio management service. Asset Allocation: Process, Types of asset allocation, Management style, Different approaches to allocation decision, and an overview of allocation techniques. Portfolios return, Portfolio risk, Portfolio diversification. Feasible set of portfolios, Efficient set of portfolios. Selection of optimal portfolio, Markowitz model and its limitations, The Sharpe Index Model, Single Index Model, Measuring security and portfolio's return and risk under single index model, Sharpe's Optimum Portfolio. Capital Asset Pricing Theory- Assumptions, Efficient frontier, SML and CML, Pricing of securities with CAPM and arbitrage theory. Green Portfolio – Concept of green portfolio, ESG-based stock selection, sustainable investing, and its relevance to portfolio construction and risk–return trade-off.

Description

This unit helps learners understand the ethical dilemmas financial managers often face and the growing importance of corporate social responsibility (CSR) and good governance. It explores the roles of key stakeholders, the Board of Directors, and audit committees in promoting transparency and trust. Through case studies, students will learn about best practices in corporate governance and how Environmental, Social, and Governance (ESG) factors influence investment decisions. The unit also introduces business valuation—why it matters, traditional and modern valuation approaches, and the basics of financial modelling to support sound decision-making.

U6-T2. Different Approaches to corporate valuation -Discounted Cash Flow valuation- - Traditional techniques of evaluating value - New approaches to shareholder valuation- Introduction to Financial Modelling

Essential Reading

- 1.Rustagi., R P (6th Revised Edition, October 2018), Financial Management - Theory, Concepts and

Problem, New Delhi:Taxman Publications Pvt. Limited.

- 2. Strategic Financial Management –Managing for value creation | Second Edition Prasanna Chandra(2020), Publisher-McGrawHill.

EXAMINATION PATTERN

COURSE NAME: STRATEGIC FINANCIAL MANAGEMENT

COURSE CODE: COFI302-5

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Examination Pattern for Continuous Internal Assessment (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 3-hour duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal

choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: FINANCIAL DERIVATIVES

COURSE CODE: COFI302-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - VI)

Course learning Outcomes

CO1: Apply derivative instruments and market mechanisms, including forwards and futures, to pricing, margining, settlement, and arbitrage decisions.

CO2: Analyze futures-based hedging strategies and associated risks, including hedge ratio and basis risk.

CO3: Evaluate option pricing concepts and option trading and hedging strategies to assess payoff structures and risk exposure.

CO4: Explain the structure, valuation, and risk-management role of swap contracts.

CO5: Explain and assess the functioning, regulation, and importance of commodity and emerging derivative markets in India.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Derivatives

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U1-T1. Meaning of Derivatives, Types of derivatives- forwards, futures, options, and swaps- Participants and Functions- Development of Exchange-traded derivatives- Global derivatives markets- Exchange-traded Vs OTC derivatives markets- Derivatives trading in India- Requirements for a successful derivatives market, Misuse and criticism of derivatives Myths about derivatives.

U2: Introduction to Futures& Forwards

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Types of future contract- Futures market in India, specification of future contract and terminology. Difference between forward and future - margin requirement, Mark to Margin. Market lot, Tick size; Problems related to the calculation of margin

balances. Futures and forward valuations. (Problems) Basic concepts in future pricing – Basis, the repo rate, arbitrage, spread, and convergence. Settlement of future contract. Significance of the future market.

Description

Theories (Approaches or Models) of future prices – Cost to carry approach – The expectation Approach – Contango, and Normal Backwardation approach – The CAPM

U3: Hedging Using Futures

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Principles of Hedging, Hedging strategies -Long Hedge, Short Hedge, Cross Hedge, Risks in Hedging, Basis Risk, Factors affecting Basis Risk, Hedge Ratio, Static and Dynamic Hedging, strip and stack rolling hedge (Problems).

U4: Option Pricing, Strategies & Valuation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Introduction to Options contracts –basic principles. Types of options – Basic concepts or Terms used in Option trading - Options terminology. Open Interest Analysis. Trading and settlement of options. Difference between options and futures. Options pricing – Determinants of Option Pricing – Upper and Lower limits of option pricing – In the Money – at the money and out of the money. Options Strategies – Bull Spread, Bear Spread, Butterfly Spread, Strangle, and Straddle (Problems).

Description

Hedging & Trading strategies involving options, valuation of options: Introduction to basic model, one-step binomial model (Problems), Black and Scholes Model (Problems), option Greeks (problems).

U5: Swaps and Emerging Derivatives

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Swaps-Meaning - History of swaps in India – Types of swaps-Mechanics of interest rate swaps using the swap to transform a liability – Using a swap to transform an asset – Advantages and disadvantages of swaps – Valuation of interest rate swaps Emerging derivatives products: Currency Derivatives, Credit-Linked Notes, Credit Default Swaps, Structured Finance, Securitization, CDO, Synthetic CDOs, ABS, Weather derivatives, Bitcoin futures, diamond derivatives, and inflation-indexed derivatives.

U6: Commodity Market

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U6-T1. Commodity market and derivatives - Meaning and its importance. Historical changes and growth of global and domestic Commodities derivatives markets. FCR Act 1952 and Regulatory structure of Commodities Derivatives Markets in India, Commodities Derivative Exchanges, and design of the markets (Major Exchanges in India). Commodity Exchange, Role of Commodity Exchanges, Commodity Derivative Markets in India, Indian Commodity Exchanges. Difference between Commodity and financial derivatives.

Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ CIA III Group work consisting of presentations- Viva voce- and report submission. 20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections Type Marks A Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks $7 \times 5 = 35$ B Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks $5 \times 10 = 50$ C Case Study (Compulsory) $1 \times 15 = 15$

COURSE NAME: FINANCIAL STATEMENT ANALYSIS

COURSE CODE: COFI303-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Finance and Investment) (SEMESTER - VI)

Course learning Outcomes

CO1: Describe the structure and components of financial statements and use various methods and techniques for analysing financial statements, including comparative analysis, trend analysis, and ratio analysis

CO2: Interpret financial statements to assess the financial health and performance of companies. Encourage usage of Excel and financial modelling for real-world financial analysis

CO3: Analyze financial statements to identify patterns, trends, and potential areas of concern or improvement.

CO4: Evaluate cash flow statements and funds flow statement to assess liquidity and financial health.

CO5: Apply analysis tools for investment and credit decision-making and assess the ethical implications of financial reporting practices and recommend appropriate actions.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Quality control, Technological literacy

Course Content

U1: Overview of Financial Statement Analysis

Teaching Hours: (15)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Overview of Financial Statement Analysis

Description

Financial Statement Analysis Framework -Scope of Financial Statement Analysis, Contents of Annual reports, Quality of financial reporting, Reporting regulation in India, Preparation of financial statements according to GAAP/IFRS standards, Disclosure requirements and footnotes in financial statements, Assessing earnings management and accounting frauds, Impact of regulations (e.g., Sarbanes Oxley Act) on financial reporting. ESG disclosures (climate risk, carbon footprint, green capex, sustainability reports), ESG elements in Financial Statement Analysis: Red Flags in Financial Statements and Red Flags in Greenwashing.

U2: Analysis and Interpretation of Financial Statements

Teaching Hours: (13)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Analysis and Interpretation of Financial Statements.

Description

Concept and types of Financial Statements, significance and importance of Financial Statements, methods of analysis of financial statements, techniques of analysis and interpretation – Horizontal and Vertical Analysis, Comparative Income Statements, Comparative Balance Sheets, Common Size Income Statements, Common Size Balance Sheets, Trend Analysis: Year-on-Year and Industry Comparisons, Du-Pont Analysis, EVA Analysis, Ratio analysis & Its applications: Liquidity ratios, Solvency ratios, Profitability ratios. AI-assisted ratio analysis and peer analysis comparing a company's ratios with industry benchmarks using AI dashboards.

U3: Analysis of Income Statement & Balance Sheet

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Analysis of Income Statement & Balance Sheet

Description

Analysis of revenue recognition methods, Expense Recognition, Liabilities and equity analysis - Non-Recurring Items, Earnings per share (EPS) analysis, Components of the balance sheet, Asset valuation techniques, Financial Distress Indicators. Case studies of companies with strong ESG performance.

U4: Analysis of Fund Flow Statement and Cash Flow Statement

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Analysis of Fund Flow Statement and Cash Flow Statement

Description

Fund Flow Statements: Meaning and concept of Fund - Current and Non-Current Accounts, Flow of Funds - Preparation of Fund Flow Statement - Uses and Significance. Cash Flow Statement: Difference between Fund Flow Statement and Cash Flow Statement - Preparation of Cash Flow Statement as per AS-3 Norms – Direct Vs Indirect method

U5: Credit Analysis and Risk Assessment & Ethical Issues in Financial Reporting

Teaching Hours: (10)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Credit Analysis and Risk Assessment & Ethical Issues in Financial Reporting

Description

Basics of credit analysis, Credit risk assessment techniques, Credit scoring models, Credit risk mitigation strategies, Ethical considerations in financial reporting, Corporate social responsibility and financial reporting, Professional standards and codes of conduct for financial analysts, Introduction to financial analysis software (e.g., Bloomberg), AI in credit risk.

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - II)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - II)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - II)
- Bachelor of Commerce (SEMESTER - II)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - II)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - II)

Course learning Outcomes

CO1: Analyze and differentiate the concept of a Company and LLP, and examine the procedural requirements for their formation.

CO2: Evaluate and categorize different types of company-related documents and judge their binding effects on various stakeholders.

CO3: Analyze the role of the Board of Directors (BOD) and Key Managerial Personnel (KMPs) in company administration, and analyze the procedural requirements for conducting different types of meetings, including committee meetings.

CO4: Critically evaluate the provisions relating to dividends, books of accounts, and reports, and assess their statutory requirements for the Company.

CO5: Evaluate and compare different modes of winding up a company and critically analyze the relevance of the Insolvency and Bankruptcy Code (IBC), 2016 in corporate restructuring.

Sustainability Development Goals (SDG)

Gender equality, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Creative thinking

Course Content

U1: Introduction and Jurisprudence of Company Law

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction and Jurisprudence of Company Law

Description

History of Company Law and scope; Company and its Characteristics; Lifting of corporate veil, types of companies including one-person company, Conversion of private company to One Person company, small company and dormant company; association not for profit; illegal association and Limited Liability Partnership (LLP); formation of company, on-line filing of documents, on-line registration of a company; promoters, their legal position, pre-incorporation contract-AI-Powered MCA21 V3 Portal

U2: Documents

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U2-T1. Documents

Description

Documents : Memorandum of association and its contents; Articles of association and its contents; Entrenchment clause, Doctrine of Ultra vires, Doctrine of Constructive Notice and Doctrine of Indoor management, prospectus and its types; Misstatement in prospectus; liability for misstatements.

U3: Management

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Management and ESG compliance

Description

Management and ESG compliance

: Director and its Classification including Women directors, Independent directors, Small shareholder's director; Disqualifications, Director Identification Number (DIN); Their appointment; Legal positions, powers and duties; removal of directors; Key Managerial Personnel.

Meetings: Meetings of shareholders and board; Types of meeting, convening and conduct of meetings, Quorum, Agenda, proxy forms, Minutes book and Voting Methods including postal ballot, Ordinary and Special resolution,, drafting of resolutions, Circular Resolution, e-voting; Corporate Governance and Committee, Committees of Board of Directors - Audit Committee, Nomination and Remuneration Committee, Stakeholders Relationship Committee, Corporate Social Responsibility Committee, Grievance Redressal Committee.

ESG Framework: ESG Vs.CSR-BRSR (BusinessResponsibility and Sustainability Report)- NGRBC(National Guidelines forResponsible Business Conduct)

U4: Dividends, Books of Account, Secretarial Audit and Reports

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Dividends, Books of Account and Reports

Description

Dividends, Accounts, Audit: Provisions relating to payment of Dividends, Interim dividend, Declaration of dividend out of reserves, provisions relating to Unpaid and unclaimed dividends, Provisions relating to Books of Account, IEPF with relation to Dividends, Board's Report.

U5: Winding up, Insolvency and administration of Company Law

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values

U5-T1. Winding up, Insolvency and administration of Company Law

Description

Winding Up and IBC: Concept and modes of Winding Up, Introduction to Insolvency and Bankruptcy Code, 2016: Need for the Insolvency and Bankruptcy Code; Overall scheme of the Insolvency and Bankruptcy Code; Important Definitions; Institutions under Insolvency and Bankruptcy Code, 2016. Administration of Company Law [including National Company Law Tribunal (NCLT), National Company Law Appellate Tribunal (NCLAT), Special Courts].

EXAMINATION PATTERN

COURSE NAME: CORPORATE LAW AND ADMINISTRATION

COURSE CODE: COM101-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Examination Pattern for Continuous Internal Assessment (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: BUSINESS ANALYTICS

COURSE CODE: COM101-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - IV)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - IV)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - IV)

Course learning Outcomes

CO1: Analyze the foundational principles and methodologies of business analytics.

CO2: Apply descriptive analytics techniques to summarize and interpret business data.

CO3: Analyze data using predictive analytics techniques such as trend analysis, regression modelling, and forecasting.

CO4: Optimize decision-making using prescriptive analytics techniques, including linear and nonlinear optimization methods.

CO5: Apply analytical tools and techniques to real-world business scenarios, fostering strategic decision-making and organizational improvement.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Business Analytics

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Business Analytics

Description

Business Analytics – Evolution of Business Analytics - Concept of analytics and its significance in decision-making processes. Understanding the science behind data-driven decision-making in various business contexts. Exploring the 5V's of data (Volume, Velocity, Variety, Veracity, and Value) and their impact on analytics. Types of Analytics: Descriptive, Predictive, and Prescriptive, and their respective purposes. Examining the Business Analytics maturity curve and its implications. Application fields of Business Analytics: Marketing, Finance, HR, Operations, Sports, Healthcare, etc. Framework for Data-Driven Decision Making and Analytics Capability Building. Roadmap for developing analytics capabilities within organizations. Challenges in Data-Driven Decision Making and Future Trends in Business Analytics. Problem-solving methodologies with analytics. CRISP Framework for Business Analytics. Role of Artificial Intelligence in the Evolution of Business Analytics. Difference between Traditional Analytics vs AI-driven Analytics.

Cases on data-driven decision-making

U2: Descriptive Analytics

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Descriptive Analytics

Description

Introduction to Descriptive Analytics, Data Types - Structured and Unstructured Data, Cross-Sectional, Time Series, and Panel Data. Types of Data Measurement Scales, Measures of Central Tendency, Percentile, Decile, and Quartile, Measures of Variation, Measures of Shape-Skewness and Kurtosis. Frequency Distribution and Histogram. Correlation analysis, Data Visualization – Histogram, Bar chart, Pie Chart, Scatter Plot using Excel. Application of these concepts in the fields of finance, human resources, marketing, etc. Introduction to Green Finance and Sustainable Analytics. Descriptive analysis based on actual Carbon emissions data, Energy consumption trends, ESG performance indicators.

Exercises And Cases: Descriptive Analytics

U3: Predictive Analytics

Teaching Hours: (16)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Predictive Analytics

Description

Modeling Relationships and Trends in Data, Analytics in Practice: Using Predictive Trendline Models, Simple Linear Regression, Finding the Best-Fitting Regression Line, Using Regression Models for Prediction, Least-Squares Regression, Simple Linear Regression with Excel, Regression as Analysis of Variance, Testing Hypotheses for Regression Coefficients, Confidence Intervals for Regression Coefficients, Residual Analysis, and Regression Assumptions, Checking Assumptions, Multiple Linear Regression, Analytics in Practice: Using Linear Regression and Interactive Risk Simulators to Predict Performance, Building Good Regression Models, Correlation and Multicollinearity, Practical Issues in Trendline and Regression Modeling, Regression with Categorical Independent Variables, Categorical Variables with More Than Two Levels. Introduction to Machine Learning for Prediction, Difference between Regression Models and Machine Learning Models

Case and Exercise: Predictive Analytics

U4: Prescriptive Analytics and Decision-Making

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Prescriptive Analytics and Decision-Making

Description

Optimization Model – Elements of Optimization model. Assumptions of Linear Programming. Developing a Linear Optimization Model for a business scenario. Formulating Decision problem – Decision outcome with and without outcome probabilities.

Exercises and Cases: Prescriptive and Decision Analysis.

U5: Trends in Business Analytics and Data Visualization

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Trends in Business Analytics and Data Visualization

Description

Data Mining - Artificial Intelligence and Machine Learning - Fundamentals of AI and ML - Applications of AI/ML in business analytics. IoT and Sensor Data Analytics - Internet of Things (IoT) and its impact on data generation - Sensor data analytics for predictive maintenance, supply chain optimization, etc. Case studies and industry examples. Blockchain and Data Security - Overview of blockchain technology - Applications in data security and integrity - Implications for business analytics and data management.

Data Visualization - Introduction to advanced visualization techniques (e.g., interactive visualizations, geospatial visualizations) - Emerging trends in data visualization (e.g., VR/AR, storytelling with data) - Practical exercises using visualization tools.

Essential Reading

2. Evans, J. R. (2021). Business analytics (3rd ed.). Pearson Higher Ed.
2. Kumar, U. D. (2021). Business analytics: The science of data-driven decision making (2nd ed.).

2.

EXAMINATION PATTERN

COURSE NAME: BUSINESS ANALYTICS

COURSE CODE: COM101-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA- II- 50 Marks

CIA Overall- 50 Marks

COURSE NAME: RESEARCH METHODOLOGY

COURSE CODE: COM101-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - V)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - V)
- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - V)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Apply appropriate research types and approaches in real world business and social research situations.

CO2: Construct a structured literature review and apply American Psychological Association (APA) format to cite scholarly and non-scholarly sources .

CO3: Identify and discuss the complex issues inherent in selecting a research problem, selecting an appropriate research design, and implementing a research project

CO4: Evaluate the key components of a research proposal

CO5: Appraise different sampling techniques and research instruments to determine their appropriate use in research studies.

CO6: Analyse data using appropriate statistical tools and statistical software and interpret the results.

Sustainability Development Goals (SDG)

Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Quality control, Technological literacy

Course Content

U1: Introduction to Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Research

Description

Nature of Research, Brief History of Research, Relevance: Why and How to do it?; Criteria of good research, Attributes of a good researcher; Social Research – Objectives, Assumptions and Applications, Significance and Difficulties of Social research; Business research – Purpose, Dimensions and Fields of Application; Ethics in research – APA Ethics code.

U2: Methods and Techniques of Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Methods and Techniques of Research

Description

Classification of Research – Pure Research, Applied Research, Exploratory Research, Descriptive Study, Diagnostic Research, Action Research; Quantitative Research, Qualitative Research, Triangulation Research; Experimental Research, Analytical Research, Survey Research, Historical Research, Case Study Research; Inter Disciplinary Research, Multi-Disciplinary Research and its essentials; Inductive and Deductive Methods.

U3: Literature Review, Research Problem, Research design

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Literature Review, Research Problem, Research design

Description

Literature Review – Scholarly and Non-Scholarly Sources, Literature Review formats – Narrative, Systematic, Scoping, Bibliometric; APA 7 th Edition for References;
Research Problem – Components, Problem Definition, Evaluation of Problem;
Research Design – Classification of Research Design, Importance of Research Design, Contents of a Research Plan.

U4: Sampling and Sample Design

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Sampling and Sample Design

Description

Key terms and terminologies, Purpose of Sampling, Sampling Techniques – Random Sampling and Non-random sampling, Errors in Sample Surveys – Sampling Errors and Non-Sampling Errors

U5: Methods and Tools of Data Collection

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Methods and Tools of Data Collection

Description

Meaning and Importance of Data, Sources of data – Primary, Secondary, Tertiary; Data collection methods – Surveys, Interviews, Focus group Discussions, Un focus Groups, Observations, Projective Techniques; Instruments of data collection – Questionnaire, Schedule, Interview schedule, Rating Scale, Check list, Opinionnaire; Variable – Meaning and types; Scales of Measurement – Nominal, Ordinal, Interval, Ratio

U6: Processing of Data and Report Writing

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U6-T1. Processing of Data and Report Writing

Description

Data Cleaning – Handling duplicate values, missing values and extreme values; Data Coding – Classification and transcription; Quantitative data analysis using SPSS (Practical aspects); Qualitative analysis using NVIVO (Practical aspects);

Report Writing – Types of report, Format of research report, Evaluation of reports.

Essential Reading

Krishnaswami, O.R (2023). Research Methodology. Mumbai: Himalaya Publishing House.

EXAMINATION PATTERN

COURSE NAME: RESEARCH METHODOLOGY

COURSE CODE: COM101-5

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

5 ASSESSMENTS OF 20 MARKS EACH Resulting in 100

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ASSESSMENTS OF

COURSE NAME: BUSINESS ECONOMICS

COURSE CODE: COM102-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - I)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Develop the conceptual foundations and analytical methods used in micro economics.

CO2: Develop the ability to understand and appreciate the economic theories and their application in real economic life.

CO3: Understand the role of prices in allocating scarce resources in market economies and explain the consequences of government policies in the form of price controls.

CO4: Appraise the monetary policy and fiscal policy prevalent within a country.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Demand and supply Analysis and Applications

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Sustainability

U1-T1. Demand and supply Analysis and Applications

Description

Economic models- Production Possibility Frontier and Circular Flow of Income: Two Sector Model; Demand Analysis: Law of demand, Exceptions to the law; Changes in demand, Elasticity of Demand: Definition, degrees and measurement - Supply Analysis: Laws of supply, Changes in supply, and elasticity of supply - Market equilibrium, Applications in real life: Price Ceiling, Price Floor and Externality.

U2: Theory of Consumer Choice

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U2-T1. Theory of Consumer Choice

Description

The Budget Constraint: What the Consumer Can Afford, Preferences: What the Consumer Wants, Indifference curves- Properties, Optimization: What the Consumer Chooses and definition of Price Effect, Income Effect and Substitution Effect.

U3: Theory of Production and Cost

Teaching Hours: (10)

Development Needs:

None

Skill Focused:

None

Cross Cutting Issues:

None

U3-T1. Theory of Production and Cost

Description

Production function; Law of variable proportions; Laws of returns, Economies of scale; Cost Function- Important cost concepts. Short run and long run cost analysis (traditional theory) Modern theory of cost- Revenue analysis. TR, AR and MR.

U4: Market Structure

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U4-T1. Market Structure

Description

Market structure- Perfect competition, Price and output determination- Monopoly- Price output determination, Price discrimination Monopolistic Competition – Features, Price and Output determination (Short Run and Long Run). Oligopoly: Definition and types of Oligopoly.

U5: Measuring Nation's Income and Cost of Living

Teaching Hours: (9)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U5-T1. Measuring Nation's Income and Cost of Living

Description

Measuring GDP - Real and Nominal GDP and GDP Deflator – Inflation: Consumer Price Index,

Comparison of CPI and GDP Deflator and Adjusting economic variables to inflation – Money Supply Measures.

U6: Money and the Financial System

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

None

U6-T1. Money and the Financial System

Description

Saving and Investment in National Income Accounts. The Market for Loanable Funds. Banks and the Money Supply. Monetary Measures. Meaning of Inflation and Costs of Inflation. Tools of Credit Control.

Essential Reading

- 2. CORE's The Economy (<https://www.core-econ.org/>)
- 2. CORE's The Economy: A South Asian Perspective
- 2. Lipsey, R.G. and K.A. Chrystal (2011). Principles of Economics (IX ed.). Oxford University Press: Oxford
- 2. Ramsfield, E. (2012). Micro Economics (IX ed.). New York: W.W Norton and company.
- 2. Ray, N.C. (2014). An introduction to Microeconomics, Macmillan Company of India Ltd: Delhi.

EXAMINATION PATTERN

COURSE NAME: BUSINESS ECONOMICS

COURSE CODE: COM102-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1 Part A-10*1=10 marks

Part B- 10 marks

CIA- 2 - 3*5=15 marks, 10*2=20 marks, 15*1= 15marks

CIA 3- 20 marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

7*5= 35 marks

5*10=50 marks

1*15=15 marks

COURSE NAME: PRACTICES OF BANKING AND INSURANCE

COURSE CODE: COM103-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - II)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - II)

Course learning Outcomes

CO1: Understand the origin and growth of banking in India

CO2: Differentiate the various negotiable instruments

CO3: Analyze the recent technological developments in Banking

CO4: Enumerate the significance of Principles of Insurance

CO5: Explain the various types of Insurance products.

CO6: Summarize about the regulation and legal framework of the Indian insurance system.

Sustainability Development Goals (SDG)

Decent work and economic growth, Peace, justice and strong institutions, Sustainable cities

21st Century Skills

Dependability and attention to detail, Leadership and social influence

Course Content

U1: Introduction to Banking

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Banking

Description

Origin of banking: Definition –Development of Banking in India- banker and customer relationship - General and special types of customers - Types of deposits - Deposit Accounts - Opening Operations and Closure of Fixed Deposit Accounts - Recurring Account – Savings Account -Current Account - Deposit Schemes for NRIs – Types of Loans and Advances - Principles of Sound lending - Secured vs. Unsecured Advances - Priority sector lending; Types

of banks - Commercial Banks- Origin and growth of commercial banks in India - Functions of Commercial Banks - Cooperative Banks- Regional Rural Banks- Agriculture and Rural Development Banks - Development Banks and NBFCs - Financial Services offered by banks -

Changing role of commercial banks - Reserve Bank of India - Powers & Functions – Monetary Policy – Credit Control Measures.

U2: Negotiable Instrument Act

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability
Cross Cutting Issues:
Professional Ethics

U2-T1. Negotiable Instrument Act **Description**

Negotiable Instruments Act –Meaning-Characteristics- Types of NI- Cheques - Meaning - Precautions before honouring a cheque-Circumstances under which a cheque can be dishonoured – Crossing and endorsement - meaning- definitions- types and rules of crossing. Endorsement – Definition - Kinds of endorsement – Significance of endorsement – Paying Banker - Duties and Protection to paying banker- Collecting bankers – Duties – Statutory protection for the holder in due course- Concept of negligence – Case Laws on Responsibility of Paying and Collecting Bank.

U3: Bank Lending, Banking Sector Reforms & Trends

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Bank Lending, Banking Sector Reforms & Trends **Description**

Genesis of modern banking in India- Compliance with KYC norms- Banking sector reforms- Emerging trends and issues in banking; Electronic payments- Digital Banking - Meaning- Benefits- Home banking- Mobile banking- Virtual banking- Payment Banking-E-payments- ATM Card/Biometric card debit/Credit card- Smart card-Prepaid Instruments- NEFT- RTGS- ECS (credit/debit)- E-money- Electronic purse- Digital cash – Impact of IT on Banks- Neo banks- ASBA- payment banks-e-wallet- BASEL Norms I, II & III-Non-Performing Assets – SARFAESI Act- Meaning and Scope. Policy rates (CRR- SLR- Repo and Reverse Repo- Bank Rate- MSF etc.) Capital adequacy requirements: Tier 1 capital, Tier 2 Capital, Bancassurance, ALM: concept, components, functions, IBC- Meaning and benefits and penalties.

U4: Introduction to Insurance

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Introduction to Insurance **Description**

Risk and the Business Model of Insurance – Perils and hazards – Physical, Moral, Morale, General Principles of an Insurance Contract – Specific Principles of Insurance - Utmost good faith (including Law of Contra Proferentum) - Insurable Interest in Life and General – Indemnity (Working out problems) Under insurance Average clause in indemnity- Proximate cause (with life and General insurance cases) -

Subrogation (Suing rights and Scrap value with calculation) Contribution, Mitigation of Loss – Application of principles to Life and General. Underwriting –General Meaning of Underwriting; Premium – Meaning and General basis for calculation of premium for Life and General; Other terms – Riders, Clauses, Conditions, Warranties, Covers, add on covers, Claim, Repudiation, Reinsurance

U5: Types of Insurance

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Types of Insurance

Description

Life Insurance meaning – Plans -Term, Endowment, Money back policy – Whole life plan – Child life plans; Aspects of Premium calculation for a basic Life Insurance plan Non-life - Fire – Marine Cargo and Marine Hull – Motor (Own Damage and Third-party damage) - Personal Accident – Health –Engineering - Liability – Other new Insurance Products – Underwriting aspects, Premium calculation aspects and Settlement of Claims of Non-life Insurance products (Fire, Marine, Motor and Health) - (Clauses and conditions for Fire, Marine Hull and Cargo, Motor, Personal Accident, Health, Engineering and Liability)

U6: Insurance Regulation and Legal Framework

Teaching Hours: (2)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Insurance Regulation and Legal Framework

Description

Powers and Functions of IRDA , Salient features of IRDA ACT, LIC 1956, and GIC ACT 1972, Agency law and Insurance Ombudsman – Careers in Insurance sector- Responsibility of Insurance companies towards rural and social sector.

Essential Reading

"Banking and Insurance" by O.P. Agarwal
(Himalaya Publishing House)

"Principles and Practice of Banking and Insurance" by Dr. Rashmi Prakash Patil.

EXAMINATION PATTERN

COURSE NAME: PRACTICES OF BANKING AND INSURANCE

COURSE CODE: COM103-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA1 - MCQs, Quiz, Roleplay, Written assignments, case study analysis and presentations, discussion forums, article reviews etc

CIA2 -Mid Semester Examination conducted for 2 hours duration.

SECTION | TYPE | Marks | A | Short Answer Questions (Answer All three questions out of which third question will be an internal choice, each question carries Five marks) | $3 \times 5 = 15$ | B |

Conceptual/Descriptive/ Problem solving type questions (Answer All two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study Compulsory | $1 \times 15 = 15$ |

CIA - III - Group Work consisting of presentations, Viva-Voce and report submission.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written Examination will be conducted for 3 hours duration:

SECTION | TYPE | Marks | A | Short Answer Questions (Answer All seven questions out of which sixth and seventh have internal choice, each question carries Five marks) | $7 \times 5 = 35$ | B | Conceptual/Descriptive/ Problem solving type questions (Answer All five questions out of which two questions will have internal choice. Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: SERVICE LEARNING AND COMMUNITY ENGAGEMENT

COURSE CODE: COM162-3

COURSE TYPE: Practical

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - III)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - III)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - III)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - III)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: To demonstrate their ability to apply commerce knowledge to real-world situations, communicate effectively with diverse groups of people, work collaboratively in teams.

CO2: To reflect on their experiences before, during, and after the service learning project, and assess the individuals' skills developed.

CO3: To exhibit teamwork in the planning and execution of meaningful service learning projects and report presentation.

CO4: To showcase appreciation for the discipline knowledge through service learning initiatives in the field of commerce.

Sustainability Development Goals (SDG)

Affordable and clean energy, Decent work and economic growth, Good health and well-being, Partnerships for the goals, Quality education, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Introduction to Service learning and Community Engagement

Teaching Hours: (10)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U1-T1. Service-Learning: The Concept, Objectives, and Scope; Need for Community and Academia. Exploring the Intersection of Business and Community Impact, Overview of Service-Learning Types of Service-Learning, Stages in Service Learning Needs Assessment: Identifying community partners, Conducting needs assessment, Community mapping, Reflecting on Personal Expectations and Preconceptions, Finalising the community for the service learning project.

Description

U2: Planning and Designing Service Learning Projects

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Investigating Community Problems and Aligning Course Objectives and Outcomes, Identifying Relevant Literature for the problem, PRA tools, Reflection: Kolb's Model of Experiential Learning, Types of reflection, Reflective Journals and Diary, Planning and Designing the Service Learning Project (Block 8 Model), Plan for Effective Implementation, Reflect on Challenges, Reciprocal Learning Moments, and Adaptations.

Description

U3: Theoretical Models and Impact Analysis

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U3-T1. Exploring Theoretical Models for Solving Community Problems and Understanding Their Applicability, Reflections on the Selected Model for the service learning project, Presentation of the possible Impact and Effectiveness of the Service Learning Project, Executing the service learning Project, preparing and delivering the Project Deliverables: Review the project and conduct an impact analysis

Description

U4: Project Outcomes and Reflection

Teaching Hours: (15)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. Execution of service learning project, Showcasing Project Outcomes, Celebrating Achievements, and Reflecting on the Overall Service-Learning Experience, Showcasing Project Outcomes, Celebrating Achievements, Reflecting on the Overall Service-Learning Experience, Final review and assessment.

1. Service-Learning in Business: A Guide to Integrating Community Engagement into the Business Curriculum, by Robert G. Bringle and Julie A. Hatcher (2015).

1. Cress, C. M., Collier, P. J., Reitenauer, V. L., & Associates. (1962). Learning through Serving: A Student Guidebook for Service-Learning and Civic Engagement Across Academic Disciplines and Cultural Communities. Publisher.

EXAMINATION PATTERN

COURSE NAME: SERVICE LEARNING AND COMMUNITY ENGAGEMENT

COURSE CODE: COM162-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 20 Marks, CIA II 20 Marks, CIA III 20 Marks, CIA IV 20 Marks, CIA V 20 Marks

COURSE NAME: INTERNSHIP

COURSE CODE: COM181-5

COURSE TYPE: Practical

TOTAL HRS: 30 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - V)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - V)
- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - V)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Apply theoretical knowledge to real-world business environments

CO2: Demonstrate professional skills and workplace competencies

CO3: Critically analyse business operations and organizational practices

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Curiosity and lifelong learning

Course Content

U1: Introduction to the Organization

Teaching Hours: (60)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. 1.1 Profile of the organization (including evolution and awards and recognition) 1.2

Vision, Mission, Goals

Description

U2: Organizational Design and Functional Areas

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. 2.1 Organization design & structure 2.2 Departments and Divisions 2.3 Product/s and Service/s 2.4 Business Model

Description

- Hierarchical/flat/matrix structure (include organogram if possible)
- Overview of key functional departments
- Major offerings, features, target market

Revenue generation, customer acquisition, delivery mechanism

U3: Key Performance Areas (KPA's), Organizational Control and Strategies

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. 3.1 KPA's of the various departments 3.2 Accounting Standards & Reporting followed 3.3 HR Practices 3.4 Financial Highlights 3.5 Modes of Marketing 3.6 Integration of AI 3.7 Tax Filing & Auditing 3.8 SWOC Analysis of the Organization (Based on the intern's observation and analysis supported by facts) 3.9 Key Success Factors and Strategies of the Organization (Based on the intern's observation and analysis supported by facts) 3.10 Suggestions for the future growth of the organization

Description

- KPAs across various departments (Sales, HR, Finance, etc.)
- IND AS, internal reporting systems, compliance frameworks
- Recruitment, appraisal, training, and retention strategies
- Key financials (Turnover, Profit, Investments – if available)
- Digital, traditional, B2B/B2C approaches, branding
- Use of AI, automation tools, ERP systems, CRM tools
- Tax practices, statutory audit process, internal audits
- Strengths, Weaknesses, Opportunities, Challenges
- Factors driving organizational growth and sustainability

Intern's strategic or operational recommendations

U4: Course Learning Outcomes

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. 4.1.1 Relevance of Academic Theories (Accounting, Finance, HR, etc.) 4.1.2 Gaps or Irrelevance Identified 4.2.1 New Skills Acquired during Internship 4.2.2 Existing Skills Nurtured or Strengthened 4.2.3 Skills/Competencies Identified for Further Development 4.2.4 Input from Key Personnels 4.3.1 Good Business Practices Observed 4.3.2 Practices Worth Replicating at CHRIST University

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Life below water, Life on land, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U1-T1. The Flowering Tree by A K Ramanujam

Description

"The Flowering Tree", written in the folklore tradition, is often seen as a metaphor for female resilience, ecological balance, and cultural memory. Ramanujan's retelling bridges ancient oral traditions and modern literary sensibilities, making it a timeless narrative open to multiple readings.

U1-T2. Balai by Rabindranath Tagore

Description

Rabindranath Tagore's short story Bolai (from the collection Lipika) is a poignant exploration of innocence, nature, and the clash between childhood wonder and adult pragmatism.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U2-T1. SHAZADPUR (Glimpses of Bengal by Rabindranath Tagore)

Description

Between 1885 and 1895, Rabindranath Tagore spent extended periods in rural Bengal, overseeing his family's estates in places like Sheldaidaha, Patisar, and Shazadpur (now in Bangladesh). During this time, he wrote a series of personal letters, mostly addressed to family members and close friends. These letters, later selected and translated by Tagore himself in Glimpses of Bengal, offer vivid portraits of village life, natural beauty, and human relationships in colonial Bengal.

U2-T2. Message to the Modern World by an Indian Chief (Script)

Description

In 1854, Chief Seattle delivered a letter (often misrepresented as a speech) to the then-President of the United States, Franklin Pierce, following a request by the U.S. government to purchase his tribe's land for the purpose of expanding the American frontier. The context of the letter is tied to the encroachment of settlers on Native American lands and the forced relocation of tribes as part of broader U.S. government policies such as the Indian Removal Act.

U3: Essay

Teaching Hours: (7)

Development Needs:

Global, Local

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U3-T1. Trees of Bangalore by Madhav Gadgil

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U3-T2. Thinking Like a Mountain - Aldo Leopold

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U4-T1. Green building ratings crucial to address climate change

Description

As the global community intensifies efforts to address climate change, the building and construction sector—responsible for a significant share of carbon emissions—presents both a challenge and an opportunity. This article explores the critical role of sustainability in shaping the built environment.

U4-T2. International Rivers statement on Teesta dam disaster in Sikkim

Description

This powerful and urgent article highlights the devastating collapse of the Chungthang dam (Teesta III) in Sikkim on October 4, 2023, following a glacial lake outburst flood (GLOF).

EXAMINATION PATTERN

COURSE NAME: ENGLISH FOR PROFESSIONAL COMMUNICATION

COURSE CODE: ENG283-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1- Structured Analytical Writing through PEEL (20 Marks)

Creative thinking, Curiosity and lifelong learning, Empathy and active listening

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U1-T1. The Story of an Hour by Kate Chopin

Description

A classic American short story, Kate Chopin's "The Story of an Hour" is praised for both its potent feminist themes and its economical use of language.

U1-T2. Mrs Sen Jhumpa Lahiri

Description

One of the most notable stories in Jhumpa Lahiri's *Interpreter of Maladies* (1999) is Mrs. Sen's, which provides a subtly potent reflection on cultural isolation, gender, identity, and displacement.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Employability

Cross Cutting Issues:

Gender

U2-T1. Visual Text: Speech by Wangari Maathai (Noble Acceptance Speech)

Description

Wangari Maathai delivered her Nobel Peace Prize lecture in December 2004, after being honored for her contributions to sustainable development, democracy, and peace. In her speech, she emphasized the interconnection between environmental conservation, human rights, and peace.

U2-T2. True Liberation of Women by Indira Gandhi

Description

Indira Gandhi's speech, "True Liberation of Women", was delivered on March 26, 1980, at the inauguration of the All-India Women's Conference Building Complex in New Delhi. In this address, she reflected on the role of women's organizations in India and highlighted the need for a liberation that acknowledges women's individuality rather than merely imitating men.

U3: Essay

Teaching Hours: (7)

Development Needs:

National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U3-T1. Intersectional Discrimination: Understanding the Indian Perspective

Description

This essay looks at gender discrimination in the Indian context with examples.

U3-T2. Excerpt from “The Truth About Me: A Hijra Life Story” - A. Revathi

Description

The novel shares experiences of an Indian hijra in a stigmatized society.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U4-T1. Changing Face of Women's Representation in Hindi Cinema

Description

In a country where cinema is both cultural currency and a reflection of societal values, the portrayal of women in Bollywood deserves critical scrutiny. This article unpacks the complex history of women’s representation in Hindi cinema—from the silencing of their presence in early 20th-century films to their objectification through item numbers and the male gaze, as theorized by Laura Mulvey.

U4-T2. Why Diversity Programs

Description

This article critically examines the efficacy of long-standing corporate diversity programs, revealing that many popular strategies—such as mandatory diversity training, hiring tests, and grievance systems—not only fail to improve diversity but often worsen it.

EXAMINATION PATTERN

Course learning Outcomes

CO1: CO1: To develop basic and communication skills sharpen oral and written skills: By the end of the course, students will be able to engage in basic conversations in French, demonstrating comprehension and correct pronunciation, and write short paragraphs with minimal grammatical errors.

CO2: CO2: To enhance knowledge on French culture: By the end of the course, students will be able to identify and describe at least five key aspects of French culture, such as traditions, customs, and social norms, in both oral and written formats.

CO3: CO3: To enrich the learner's vocabulary: By the end of the course, students will be able to accurately use at least 200 new French vocabulary words in context, both in speaking and writing.

CO4: To enable learners to engage in and discuss simple topics with ease: By the end of the course, students will be able to participate in simple discussions on everyday topics (e.g., family, hobbies, travel) with fluency and confidence, using appropriate sentence structures.

Sustainability Development Goals (SDG)

Good health and well-being, Life on land, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Dossier 0 Nous découvrons le français

Teaching Hours: (4)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction Establish rapport

Description

Grammar | Activity | Verbe s'appeler -Les articles définis -Les pronoms sujets - Les nombres | Simple communicative words and phrases to develop interest. |

U2: Dossier 1 Nous apprenons le français pour..

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U2-T1. Saluer -Demander et donner les informations - Donner des informations personnelles -Présenter et identifier une personne - Se présenter

Description

-Tu ou Vous -Les articles indéfinis -Les mots interrogatifs -Verbe Être -C'est ou il est -Adjectif interrogatif
-Verbe avoir -Les adjectifs possessifs (1) | -Speech acts – talk about oneself. -Final task: create one's profile in a video mode. (oral communication skills, global) |

U3: Dossier 2 Nous faisons connaissance..

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U3-T1. Nommer des pays et des villes - situer un lieu - Faire connaissance - Parler d'un type d'hébergement - Échanger des informations sur un hébergement

Description

- Les prépositions (noms de pays et de villes) - les prépositions de lieu et l'article contracté - négation - verbes aller, venir, Prendre - les adjectifs démonstratifs | Speech act – Asking closed questions. Final task: to create a city portrait(integrating global skills) |

U4: Dossier 3 Nous parlons la même langue

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U4-T1. - Parler de la famille - Décrire et caractériser un/des personnes - Parler de nos goûts - Parler de nous - Parler de nos activités - Expliquer un problèmes de santé

Description

-Les adjectifs possessifs (2) -Les adjectifs qualificatifs (M/F/Sin/Pl) -Aimer+ Adorer+ Détester
+Nom/Verbe -Les verbes « er » -Le verbe faire+ du/de la / de l'/ des -Les pronoms toniques -Avoir mal à
+ les parties du corps | Tache finale : Introduce oneself to the class in French.(global ,communicative and speaking skills) |

EXAMINATION PATTERN

COURSE NAME: FRENCH

COURSE CODE: FRE181-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Description:

This course includes three CIAs and an End Semester Evaluation. CIA 1 & 3 for 20 marks (later reduced to 10 marks) each will be administered by the respective faculty in the class. CIA 2 is mid semester examination for 50 marks which is a descriptive test conducted at the central level through the office of examination. MSE is carried out as a two-hour paper, conducted out of 50 marks and later reduced to 25 marks. ESE also is a centralized examination. ESE is conducted as a two - hour paper which carries 50 percent weightage. Examination is conducted out of 50 marks. Attendance carries 5 marks.

CIA-1

CIA1:20 marks-Written test on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge. (Mapped to CO2 and CO3)

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

All questions are multiple-choice (1 correct option out of 3 or 4).

No negative marking.

Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.

Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA - 2(Mid SemExam):50 marks –Writtenexam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. Learners are required to attempt SEC -A containing grammar, Section B- Containing comprehension, civilization and translation and Section C containing Writing comprehension. The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.CO1, CO2 and CO 3 would be covered for MSE.

MSE is scheduled during August ,2026.

CIA - 3

CIA3:20 marks– Creative Assignment on Oral Competence.

Assignment type- Group of 3/4, Formative

Outcome: Learners will be able to apply their spoken French knowledge and listening competence. (Mapped to CO1, CO3 and CO4)

Evaluation Criteria:

1.Pronunciation & Intonation – (4)

2.Vocabulary Use – (4)

3.Grammatical Accuracy – (4)

4.Fluency & Coherence – (4)

5.Comprehension & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

SECTION A- 20 MARKS
SECTION B- 15 MARKS
SECTION C - 15 MARKS.

EXAMINATION PATTERN

COURSE NAME: GERMAN -II

COURSE CODE: GER181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment:

CIA

CIA-1

CIA 1: 20 marks -Test / assignment on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge.

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

No negative marking.

Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.

Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA- 2 (Mid Semester Exam): 50 marks – Written exam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. The question paper contains three sections:

Section A - Consists of questions on reading comprehension for 15 marks

Section B - Consists of questions on grammar and vocabulary for 20 marks

Section C - Consists of questions on writing and translation skills for 15 marks

The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.

CIA - 3

CIA 3: 20 marks – Creative Assignment / project / presentation on Linguistic and Oral Competence.

Assignment type- Individual / Groups of 3-4, Formative

Evaluation Criteria:

Pronunciation & Intonation – (4), Vocabulary Use – (4), Grammatical Accuracy – (4)

Fluency & Coherence – (4), Creativity & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

The End Semester Examination is a centralised assessment. The question paper contains three sections:

Section A - Consists of questions on reading comprehension for 15 marks

Section B - Consists of questions on grammar and vocabulary for 20 marks

Section C - Consists of questions on writing and translation skills for 15 marks

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Fundamentals of Hindi Language

Teaching Hours: (21)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Alphabets-Vowels and Consonants Parts of Speech-Noun, pronoun, verb, adverb, adjective, prepositions, conjunction and interjection Numbers Gender and Tense

Description

This unit introduces students to the basic structure of the Hindi language with emphasis on foundational linguistic competence. Students will learn the Hindi alphabet, including vowels and consonants, to develop correct pronunciation and script familiarity. The unit covers essential parts of speech such as nouns, pronouns, verbs, adverbs, adjectives, prepositions, conjunctions, and interjections, enabling students to understand sentence construction and grammatical usage. Instruction in numbers, gender, and tense forms helps students grasp basic grammatical agreement and sentence patterns in Hindi. Through systematic practice, this unit aims to build a strong grammatical foundation that supports basic reading, writing, and introductory conversational skills in Hindi.

U2: Vocabulary Development

Teaching Hours: (3)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Names of things, animals, birds, vegetables, flowers, days, months etc.**Description**

This unit focuses on building basic Hindi vocabulary required for everyday communication. Students will learn commonly used words related to names of objects, animals, birds, vegetables, flowers, days, months, and other familiar categories. Emphasis will be placed on correct pronunciation, spelling, and contextual usage of vocabulary items. Through structured exercises and classroom activities, students will gradually develop the ability to recognize, recall, and use essential Hindi words in simple sentences, thereby strengthening their lexical competence and confidence in basic language use.

U3: Conversation Practice

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Conversation practice**Description**

This unit aims to develop basic conversational skills in Hindi through guided and interactive practice. Students will engage in simple dialogues and short interactions based on everyday situations such as greetings, introductions, daily activities, and common social contexts. The focus will be on listening and speaking skills, sentence formation, and appropriate use of vocabulary and basic grammar. Through repeated practice and teacher-guided interaction, students will gain confidence in using Hindi for simple oral communication and real-life situations.

Course Content

U1: Hindi language

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Oral Traditions of Hindi

Description

Learn how Hindi was shared through stories, songs, and spoken words before writing. Students will explore simple examples of folk tales and poems.

U1-T2. Language Policy and Hindi (Basic Overview)

Description

Simple explanation of how Hindi is recognized and used in India, including its role in government, education, and communication

U1-T3. Devanagari Script

Description

Introduction to the Hindi script, learning letters (vowels and consonants) and simple words. Focus on reading and writing basics.

U1-T4. Hindi in Academic Writing

Description

Learn to write simple Hindi for school or academic use, including notices, short stories, paragraphs, and summaries. Focus on clear and correct writing

U1-T5. Link Language, Dialects of Hindi

Description

Learn how Hindi acts as a bridge language to connect people from different regions of India. Focus on

easy phrases for conversation

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Translation Translation - Concept and processes Types of translation Qualities required for a Translator Issues and challenges in Translation, translation practice.

Description

This unit introduces students to the theory and practice of translation with a focus on developing foundational translation skills. Students will study the concept of translation, its objectives, and the various stages involved in the translation process. Different types of translation will be discussed, along with the essential qualities and competencies required of a translator. The unit also examines common issues and challenges faced in translation, such as linguistic, cultural, and contextual difficulties. Practical translation exercises will help students apply theoretical knowledge and improve accuracy, clarity, and equivalence between source and target languages.

U3: Communicative Hindi

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Communicative Hindi

Description

This unit aims to enhance students' practical communication skills in Hindi for real-life and professional contexts. Emphasis is placed on public speaking in Hindi, day-to-day communication, and effective voice modulation. Students will be trained in spoken Hindi through interactive activities, including role plays and voice-over practice. The unit also includes micro-presentation exercises to develop confidence, fluency, and clarity of expression. Overall, the unit focuses on improving oral communication skills and functional language use in Hindi.

U1-T1. Samakaleen Kavita Sanchay? (Collection of Poems)

edited by: Dr. Sebastian K A & Dr. Deepak Kumar Gond 20 Hrs. Level of knowledge: Anal

Description

In this course utilizes the textbook Samkaaleen Kavita Sanchay to foster critical thinking and poetic analysis through a diverse range of contemporary themes. The curriculum spans historical tragedies like 'Hiroshima', environmental concerns in 'Ek Vriksh Ki Hatya', and intense political commentary in works such as 'Tisara Rasta' and 'Hanso Hanso Jaldi Hanso'. Students will explore social identity and language in 'Meri Bhasha Ke Log', confront systemic corruption in 'Varnamaala', and analyze gender dynamics and marginalized perspectives in poems like 'Striyaan', and 'Mein Geeth Gaana Chaahta Hun'. Through these readings, the course aims to enhance vocabulary and enable students to analyze poems within their

specific social and political contexts while developing technical skills through digital assignments

Cross Cutting Issues:

Human Values

U2-T1. Yakshagana, Kathakali, Ramleela, Krishnaleela

Description

This unit introduces students to select traditional Indian cultural and performing art forms, namely Yakshagana, Kathakali, Ramleela, and Krishnaleela, with a focus on their historical origins, thematic concerns, performance techniques, and cultural significance. The unit examines how these art forms function as powerful mediums of storytelling rooted in Indian mythology, epics, and devotional traditions. Students will study the narrative structures, character types, costume design, makeup, music, dance movements, and symbolic gestures associated with each form. Emphasis will be given to understanding how Yakshagana and Kathakali represent regional theatrical traditions of South India, while Ramleela and Krishnaleela reflect the devotional and performative retellings of the Ramayana and the life of Lord Krishna. Through this unit, students will gain insight into the role of cultural art forms in preserving collective memory, moral values, and social traditions, and will critically appreciate their relevance in contemporary cultural and literary studies

U3: Translation Practice- English to Hindi

Teaching Hours: (5)

Development Needs:

Global, National

None

U3-T1. Translation Practice- English to Hindi

Description

This unit focuses on developing students' practical translation skills through the translation of medium-level English prose passages into Hindi, with special emphasis on themes related to education, culture, and environmental awareness. Students will be trained to translate paragraphs that discuss the role of education in social development, the significance of cultural values and traditions, and contemporary environmental concerns such as conservation, sustainability, and ecological responsibility. The unit emphasizes accuracy, clarity, and contextual appropriateness in translation, encouraging students to maintain the original meaning, tone, and style of the source text while adapting it effectively into the target language. Attention will be given to vocabulary selection, sentence structure, idiomatic expressions, and grammatical equivalence between English and Hindi. Through guided practice, this unit aims to enhance students' linguistic competence, cultural sensitivity, and analytical understanding of translation as a meaningful academic and communicative practice.

Hour: 5

Level of knowledge: Basic

- Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

CO1: Develop critical and interpretative abilities to analyze modern Hindi short stories with reference to social, cultural, political, and marginalized perspectives.

CO2: Examine and interpret the thematic, narrative, and technical elements of Hindi films by engaging with cinema as a visual and cultural text..

CO3: Demonstrate creative and expressive competence in Hindi by producing original poems, short stories, or creative essays that respond meaningfully to contemporary social issues.

Sustainability Development Goals (SDG)

Gender equality, No poverty, Peace, justice and strong institutions, Reduced inequalities, Zero hunger

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Empathy and active listening, Motivation and self-awareness

Course Content

U1: UNIT 1 STORIES

Teaching Hours: (20)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Sustainability

U1-T1. Essential reading : Samakaleen katha sanchay edited by Dr Sebastian K A & Dr Deepak Kumar Gond
STORIES 1 Malbe ka maalik 2 Dilli mein ek mouth 3 Mein haar gayi 4 Pita 5 Salam 6 Mousa ji 7 Tangnazar 8 Ek roomal ek anguthi ek chalni

Description

This unit introduces advanced learners of Hindi to select modern Hindi short stories that reflect complex social, political, and cultural realities of contemporary India. The prescribed texts include 'Malbe ka Malik' by Mohan Rakesh, which explores the trauma of Partition (Vibhajan ki Samasya), and 'Delhi Mein Ek Maut' by Kamleshwar, focusing on urban alienation and metropolitan tragedy (Mahanagariya Visangati). 'Main Haar Gayi' by Mannu Bhandari examines political consciousness and individual conflict, while 'Salam' by Omprakash Valmiki foregrounds Dalit experience and caste-based oppression. Pita by 'Gyanranjan' presents the struggle of marginalized communities (Pithiyon ka Sangharsh), and 'Mausaji' by Uday Prakash highlights the tension between imagination and reality (Kalpana aur Yatharth ka Dwandv). 'Ek Rumal, Ek Anguthi, Ek Chalni' by Amrita Pritam explores themes of incomplete love and women's issues (Adhoori Mohabbat aur Stri Samasyayen), while 'Tang Nazar' by Mahendra Bhishm

introduces transgender discourse (Transgender Vimarsh). Through critical reading and analysis of these narratives, the unit aims to enhance students' interpretative skills, deepen socio-literary awareness, and develop an advanced understanding of modern Hindi prose and its engagement with contemporary issues.

Hours : 5

Level of knowledge: Analytical

U2: Film studies

Teaching Hours: (5)

Development Needs:

Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Sustainability

U2-T1. 12 th fail, Lunch box, English- Vinglish, Dangal Queen

Description

This unit introduces students to the study of select contemporary Indian films as cultural texts, focusing on their narrative structures, themes, character development, and socio-cultural significance. The prescribed films-The Lunch Box, 12th Fail, Dangal, Queen, and English Vinglish-will be studied for their representation of everyday life, education and perseverance, gender roles, self-identity, empowerment, and social transformation. Through guided classroom discussions, students will analyze cinematic techniques such as storytelling, visual symbolism, dialogue, and characterization. The unit adopts an interactive teaching pedagogy that includes film screening, selected clip presentations, group discussions, and critical interpretation to enhance analytical and communicative skills. Students will be encouraged to relate film narratives to contemporary social realities and literary concepts. For assessment, students will be provided with options in the examination, allowing them to answer questions based on any of the prescribed films, thereby promoting critical thinking, choice-based learning, and independent interpretation.

Hours : 5

Level of knowledge: Conceptual

U3: Creative Writing

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Social Media Writing

Description

This unit aims to develop students' creative expression and imaginative writing skills through guided practice in various literary forms. Students will be given simple and socially relevant topics, based on contemporary social issues, and will be encouraged to respond creatively by writing a poem, short story, or creative essay, according to their choice and aptitude. Emphasis will be placed on originality of thought, clarity of expression, thematic coherence, and effective use of language. The unit seeks to foster critical awareness of social realities while enabling students to articulate personal perspectives through creative modes of writing. Through this process, students will enhance their linguistic competence, creative confidence, and ability to engage meaningfully with social issues using literary expression.

Hours: 5

Level of Knowledge ; Analysis

Essential Reading

U1-T1. 1.Sanskrit Varnamale 2. Guneetakshara 3. Origin of Letter 4. Verbs 5. Latlakara Shabda (Male and Female)

Description

This course introduces fundamental concepts in Sanskrit language learning. Sanskrit Varnamala covers the basic alphabet, including vowels (svaras) and consonants (vyanjanas), forming the foundation of pronunciation and writing. The unit on Guneetakshara explores compound letters formed by combining consonants and vowels, helping learners understand proper articulation. Origin of Letters delves into the phonetic and physiological aspects of Sanskrit sounds, highlighting how each letter is produced through specific speech organs. The Verbs unit introduces the concept of root words (dhatus), their conjugations, and usage in sentence formation, focusing on tense and subject agreement. Finally, Latlakara Shabda emphasizes the present tense forms of verbs, along with masculine and feminine noun declensions, enabling learners to form basic sentences accurately. Together, these units lay a strong grammatical foundation, essential for reading, writing, and understanding Sanskrit texts with clarity and confidence.

U2-T1. 6. Aatmanepade (Indirect Speech) 7. Akaaranta Shabda (Male) 8. Numbers 9. Question words 10. Relations
Description

The unit on Ātmanepada introduces verbs in the middle voice, commonly referred to as indirect or reflexive forms, where the action reflects upon the doer. It is essential for understanding verb conjugation beyond the active voice. Akārānta Shabda (Masculine) focuses on masculine nouns ending with ‘a’, teaching learners their declension across different cases and numbers, which is vital for proper sentence construction. The Numbers unit presents Sanskrit numerals and their usage in counting, sentence formation, and agreements with nouns. Understanding Question Words (kaḥ, kā, kim, etc.) equips learners to ask and answer basic questions, forming an interactive language foundation. Lastly, the Relations topic introduces vocabulary related to family and kinship, helping students speak and write about their surroundings and relationships. These topics enhance vocabulary, grammar, and conversational ability, fostering deeper comprehension and practical usage of the Sanskrit language.

U3: Syntax

Teaching Hours: (8)

Development Needs:

Skill Focused:
Skill Development
Cross Cutting Issues:
Sustainability

U3-T1. Syntax 11. Pronouns 12. Active, Passive Voice Conversion 13. Akaaranta Shabda (Female) 14. Prayoge Parivartana 15 Gendered Words

Description

This section focuses on essential grammatical structures to strengthen sentence formation in Sanskrit. Syntax teaches the rules and order of words in a sentence, enabling clarity and correctness in expression. The unit on Pronouns covers words used in place of nouns, such as aham (I), tvam (you), enhancing fluency and reducing repetition. Active and Passive Voice Conversion enables learners to transform sentences from kartari prayoga (active) to karmani prayoga (passive) and vice versa, an important skill in understanding text variations. Akārānta Shabda (Female) introduces feminine nouns ending in ‘ā’, focusing on their case-wise declension and grammatical usage. The topic Prayoge Parivartana refers to changing sentence patterns based on context or purpose, such as from imperative to interrogative or affirmative to negative. Gendered Words explains masculine, feminine, and neuter nouns, helping learners identify and apply correct agreements in sentence structure. These topics collectively enrich both written and spoken Sanskrit proficiency.

U4: Conversation

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. 16. Karakas (7) 17. Body Parts 18. Basic words for conversation (Good Morning, introduction etc). 19. Colours 20. Translation Description

This final set of topics builds practical language skills and deepens grammatical understanding. Kāraḥas (7) introduces the seven syntactic roles or cases in Sanskrit—like kartā (doer), karma (object), karaṇa (instrument), etc.—which are crucial for accurate sentence construction and meaning. The Body Parts unit teaches commonly used anatomical terms, enhancing vocabulary for everyday description and communication. Basic Words for Conversation, such as greetings (suprabhātam – good morning), self-introduction, and polite expressions, help learners use Sanskrit in simple interactions. The Colours unit adds descriptive vocabulary, allowing students to talk about appearance, nature, and objects more vividly. Lastly, Translation strengthens comprehension and writing skills by enabling learners to convert sentences between Sanskrit and their native language, reinforcing grammar and vocabulary in context. Together, these topics prepare students to use Sanskrit both accurately and confidently in practical, real-life situations and further reading.

U1-T1. Subhashithani-Barthruhari's Neethi shatakam, Selected 30 shlokas

Description

Subhashitani from Bhartrhari's Neeti Shatakam is a refined collection of didactic Sanskrit verses that reflect timeless wisdom and ethical values. This module explores 30 carefully selected shlokas that deal with practical life lessons, covering themes such as the power of knowledge, importance of humility, value of time, dangers of greed, and traits of noble versus ignoble individuals. Each verse, compact yet profound, offers moral instruction through vivid imagery and precise language. Bhartrhari's reflections are rooted in a deep understanding of human behavior and societal dynamics. By studying these verses, learners not only enhance their command of Sanskrit language and poetic expressions but also gain insights into Indian philosophical thought. These shlokas serve as mirrors to human nature, inspiring ethical living and thoughtful decision-making. The study of these subhashitas promotes critical thinking, cultural appreciation, and an enriched worldview anchored in classical Indian wisdom.

Human Values

U2-T1. 1.Hiranyaka taamrachooda katha 2. Tila choorna vikraya katha 3. Shabarashookara katha 4. VaNikputra katha

Description

The selected stories from the Panchatantra —Hiranyaka-Taamrachooda Katha , Tila Choorna Vikraya Katha , Shabarashookara Katha , and Vanikputra Katha —are moral tales embedded with practical wisdom and clever strategies for daily life. In the Hiranyaka-Taamrachooda Katha , a mouse and a hermit bird form an unusual bond that highlights trust, mutual aid, and the impact of fear and friendship. The Tila Choorna Vikraya Katha teaches a lesson on greed and cleverness through a tale of dishonest trade. Shabarashookara Katha tells of a wild boar and a hunter, focusing on the consequences of impulsive behavior and revenge. The Vanikputra Katha involves a merchant's son and presents a narrative on intelligence, planning, and turning misfortune into success. Together, these stories blend animal characters and human experiences to convey sharp life lessons. Their engaging plots and rich moral layers make

them relevant across generations and ideal for teaching values through storytelling.

U3-T1. sandhi prakaranam swara and vyanjana -4 each Samskrutha sambhashanaabhyaasa
Description

This unit introduces students to Sandhi Prakaranam , focusing on the rules of euphonic combination in Sanskrit. It covers four types each of Swarasandhi (vowel combinations) and Vyanjanasandhi (consonant combinations), enabling learners to understand how sounds merge for fluent pronunciation and script accuracy. Additionally, Samskrutha Sambhashana Abhyasa emphasizes oral practice in simple Sanskrit conversation. Through structured dialogues and daily usage expressions, students develop confidence in speaking Sanskrit. The combined study of sandhi and spoken practice builds a strong foundation in both linguistic accuracy and communicative ability, fostering deeper engagement with the language in both textual and conversational forms.

U1-T1. Nrusimha champu by Suryakantha shastri, Ramamurthy Tripathi – 1&2 canto

Description

by Śrī Vedānta Deśika is a poetic retelling of the Nṛsimha avatāra, composed in the elegant campū kāvya style—a blend of prose and verse. The editions edited by Śrī Sūryakānta Śāstrī and Śrī Rāmamūrti Tripathī provide a critical and lucid presentation of the first two cantos. The first canto narrates the tyranny of Hiraṇyakaśipu and the birth and virtuous life of Prahlāda, emphasizing devotion (bhakti) and the tension between divine grace and demonic arrogance. The second canto vividly describes the ferocious manifestation of Lord Nṛsimha from the pillar and the dramatic slaying of the demon king. The editors offer detailed Sanskrit commentary and explain grammatical, poetic, and philosophical elements, making the work accessible to students and scholars alike. These cantos exemplify devotional grandeur, poetic artistry, and philosophical depth, serving as ideal texts for understanding classical Sanskrit literature and Śrīvaiṣṇava theology.

U2-T1. Charudattam of Bhasa – 1 canto

Description

The unfinished Daridra-Charudatta (Charudatta in poverty) tells the story of the courtesan Vasantasena and is interesting for the same story was developed by Śhudraka into the more famous play Mrichakatika . Charudatta is an impoverished Brahman, who is one of the central characters in Sudraka's play Mricchakatika. Sudraka presents Charudatta as a noble and sensitive man, of respectable social position. His state of poverty is a result of his charitable nature, which is also shown as a positive trait.

**U3-T1. Samasaprakaranam – 4 samasa's
Samskrutha sambhashanaabhyaasa
Description**

By learning grammar, it builds analytical, linguistic, and communication skills that are transferrable to many other areas like law, government, and tech.

EXAMINATION PATTERN

COURSE NAME: SANSKRIT

COURSE CODE: SAN281-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

This course includes three CIAs and an End Semester Evaluation. CIA 1 and CIA 3, each worth 20 marks (later reduced to 10 marks), will be administered by the respective faculty during class hours. CIA 2 is the Mid-Semester Examination (MSE), a descriptive test conducted centrally by the Office of Examinations. The MSE is a two-hour exam conducted for 50 marks, which is later reduced to 25 marks. The End Semester Examination (ESE) is also a centralized exam, conducted as a two-hour paper with a weightage of 50%. The ESE is conducted out of 50 marks and subsequently reduced to 50 marks. Attendance carries an additional 5 marks.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

2Nanthikkalambagam.	6.Saintha Tharasu.		1.Vetri murasa chirappau.
2.Nandhi mann			

Description

The Sweetness of Tamil (Tamilin Enimai) This topic highlights the beauty and richness of the Tamil language. It explores the melodious nature of Tamil, its deep literary heritage, cultural significance, classical value, and global presence.

When Will It Be? (Ennaalo?) A reflective theme that contemplates the future. It deals with hopes, dreams, goals, and the anticipation of when change, progress, or aspirations will come true—both individually and collectively.

World Unity (Ulaga Ottrumai) A call for global harmony and togetherness. It emphasizes the importance of peace, tolerance, cooperation among nations, cultures, religions, and languages. The theme promotes humanity and universal brotherhood.

Workers' Petition (Tholilaalar Vinnappam) This theme centers around the rights, struggles, and demands of workers. It can be framed as a plea or request to society or authorities, advocating for better working conditions, fair wages, and dignity of labor.

Human Power (Maanida Sakthi) A theme that celebrates the inner strength of humans—willpower, courage, intelligence, perseverance, and the ability to overcome challenges. It reflects on how human strength can drive social change and innovation.

The Balanced Scale (Saintha Tharasu) This symbolizes justice, fairness, and equality. The topic could explore the importance of law, ethics, and moral balance in society. It may also relate to how fairness should be upheld in personal and social relationships.

Library (Putthaga Saalai) A symbol of knowledge and enlightenment. This topic praises the importance of books, the habit of reading, and the role of libraries in shaping minds and communities. It may focus on how libraries are gateways to wisdom.

U2-T1. Kanneerum Thanneerum-by Dr.S.Sethuraman - 10 hours (All Stories)

Description

Kanneerum Thanneerum (Tears and Water) is a powerful collection of short stories by Dr. S. Sethuraman that delves into the emotional and social landscapes of ordinary people. Spanning approximately 10 hours of reading, these stories explore themes such as human suffering, resilience, poverty, injustice, love, and compassion. Each narrative is deeply rooted in reality, portraying characters from diverse backgrounds—farmers, workers, women, and the marginalized—with empathy and nuance. The title metaphorically connects “tears” (sorrow) and “water” (life), symbolizing how emotional pain and daily survival are intertwined. Sethuraman’s writing is both simple and profound, using strong imagery and subtle social critique. The stories not only reflect the harsh truths of life but also reveal moments of hope, dignity, and inner strength. Kanneerum Thanneerum is a moving literary experience that captures the essence of human struggle and spirit in a relatable, honest way.

U3-T1. Thol. Porul Adhigaram

Description

Porul Adhigaram is the third and final section of the Tolkappiyam, the earliest known Tamil grammar text attributed to Tolkappiyar. While the first two sections deal with phonology (Ezhuthu) and morphology/syntax (Sol), Porul Adhigaram explores semantics, societal structure, and the themes of classical Tamil literature. It is divided into two major parts: Akam (inner life – love, emotions, relationships) and Puram (outer life – war, heroism, ethics, generosity). This section outlines how emotions, human behavior, and social customs are expressed in poetry based on setting, mood, and context. It also classifies landscapes (tinai), symbolic elements, and ideal conduct. Porul Adhigaram forms the foundation for understanding Sangam literature and classical Tamil aesthetics. It is not just grammatical but also cultural and ethical, reflecting the values, duties, and poetic conventions of ancient Tamil society. This section makes Tolkappiyam unique among world grammars for blending linguistics with literary theory and social philosophy.

U4: Language Skill-

Teaching Hours: (3)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. General essay writing

Description

listening, speaking, reading, and writing. Mastery of these skills allows individuals to communicate ideas clearly, understand others, and engage meaningfully in social, academic, and professional contexts. Good language skills help in expressing emotions, exchanging information, and building relationships. They also enhance learning, critical thinking, and creativity. Developing strong language skills is essential for students, as it supports academic achievement across all subjects. In the workplace, effective communication boosts collaboration and productivity. Language is not just a tool for conversation—it is a medium for sharing culture, values, and knowledge. Therefore, improving language skills is key to personal growth, social interaction, and success in life. It empowers individuals to be confident, informed, and active participants in society. In short, language skill is the foundation of meaningful communication and lifelong learning.

U1-T1. Kappiyam – Silappathigaram- Purancheri Iruthak kathai.

SANGAM

LITRETURE – Natrinaip Paadalgal. (poetry).

1.Kurinchi thinai 01. 2. Kurinchi thinai - 393 3.Mullai thinai
169. 4.Mullai thinai 367. 5. Marutha thinai 70.
6.Neithal thinai 172.

Description

Silappathigaram – Purancheri Episode & Natrinai Poems – Description (150 words):

Silappathigaram , one of the five great Tamil epics, tells the powerful tale of Kannagi. The Purancheri episode describes her arrival in Madurai, seeking justice for her wrongly executed husband, Kovalan. This part highlights her inner strength, grief, and righteous anger, ultimately leading to divine justice and moral reflection in society. It combines deep emotion with epic grandeur, suitable for six hours of focused reading or analysis.

The Sangam literature , particularly Natrinai, is a classical Tamil anthology of love poems organized by landscapes (thinai). Each landscape symbolizes a specific phase of love:

- Kurinchi (mountainous – joyful union)
- Mullai (forest – patient waiting)
- Marutham (farmland – domestic life)
- Neithal (seashore – longing)
- Paalai (desert – separation and hardship)

These selected poems (e.g., Kurinchi 1 & 393, Mullai 169 & 367) reveal emotional depth, cultural imagery, and human experiences, offering a poetic journey through ancient Tamil life and love.

U2-T1. Novel – Aathankarai Oram – By V.Iraianbu, published by NCBH ,Chennai.

Description

Aathankarai Oram (The Riverbank) is a thought-provoking Tamil novel written by Dr. V. Iraianbu and published by NCBH, Chennai. The novel explores the intricate journey of human life, using the flowing river as a powerful metaphor for time, change, and inner reflection. Set against a rural backdrop, it delves into themes such as human relationships, self-realization, and the moral dilemmas individuals face while navigating life's uncertainties. The riverbank symbolizes the threshold between choices and consequences, dreams and reality. Through simple yet profound storytelling, Iraianbu crafts characters

who are emotionally layered and socially grounded. His narrative style combines literary elegance with philosophical insight, making the novel both accessible and intellectually rich. Aathankarai Oram is not just a story but a journey of introspection, encouraging readers to pause and think about the direction of their own lives. It's a deeply reflective work that resonates with readers across age groups and backgrounds.

Aathankarai Oram (The Riverbank) is a thought-provoking Tamil novel written by Dr. V. Iraianbu and published by NCBH, Chennai. The novel explores the intricate journey of human life, using the flowing river as a powerful metaphor for time, change, and inner reflection. Set against a rural backdrop, it delves into themes such as human relationships, self-realization, and the moral dilemmas individuals face while navigating life's uncertainties. The riverbank symbolizes the threshold between choices and consequences, dreams and reality. Through simple yet profound storytelling, Iraianbu crafts characters who are emotionally layered and socially grounded. His narrative style combines literary elegance with philosophical insight, making the novel both accessible and intellectually rich. Aathankarai Oram is not just a story but a journey of introspection, encouraging readers to pause and think about the direction of their own lives. It's a deeply reflective work that resonates with readers across age groups and backgrounds.

U3-T1. – Ani Ilakkanam.

Description

Ani Ilakkanam is the study of prosody and poetic meters in classical Tamil literature. It focuses on the rhythmic and structural patterns of Tamil poetry, defining how verses are composed and measured. This branch of Tamil grammar analyzes syllable length, stresses, and the arrangement of words to create musicality and harmony in poems. Ani Ilakkanam includes rules about various metrical forms like venpa, aciriyam, and kalithurai. It plays a crucial role in preserving the traditional poetic art by guiding poets to maintain meter and sound patterns, ensuring the aesthetic quality of Tamil classical and Sangam literature.

U4-T1. Letter Writing

Description

Letter writing is an essential part of the language syllabus, focusing on developing written communication skills. It is usually divided into two main types:

3. Formal Letters – Used for official purposes, such as applications, complaints, requests, and business correspondence. These follow a structured format with clear, concise language and a professional tone.
3. nds, family, or acquaintances. These letters are personal in tone and follow a more relaxed style.

The syllabus covers:

- Format (sender's address, date, greeting, body, closing)
- Tone and language appropriate to the type
- Clarity, coherence, and purpose
- Grammar and spelling accuracy
