DEPARTMENT VISION AND MISSION

a. Vision Statement:

To be a centre of excellence in the realm of Commerce and Management, developing and nurturing global competencies in students through quality education, research and continuous innovation.

b. Mission Statement:

M1: To nurture commerce professionals who possess a high level of knowledge and competence to effectively contribute to society with commitment and integrity.

INTRODUCTION TO BACHELOR OF COMMERCE (APPLIED FINANCE AND ANALYTICS)

PROGRAMME OUTCOME

Reference No	Statement	Attribute
PO1	Apply interdisciplinary commerce knowledge, including finance, accounting, management, and technology, to develop sustainable and innovative business strategies that address cross-cutting issues and global challenges.	Academic Excellence: Domain Expertise,Knowledge Application,Problem Solving Skills Leadership: Consultative Decision Making
PO2	Demonstrate leadership, communication, and teamwork skills to collaborate in diverse business environments while designing innovative, socially responsible business models that integrate sustainability principles, technological advancements, and ethical frameworks to address societal and environmental challenges.	Communication: Clarity and Comprehensiveness Leadership: Team Building Skills Professional Excellence: Entrepreneurship Social Sensitivity: Cross Cultural Recognition,Environmental Sensitivity,Social Awareness and Contribution
PO3	Utilize appropriate research methodologies and analytical tools to critically evaluate business challenges and provide evidence-based, technology-driven solutions.	Academic Excellence: Knowledge Application,Problem Solving Skills,Self-Learning and Research Skills Professional Excellence: Analytical Skills,Critical and Solution-Oriented Thinking
PO4	Create strategies to integrate new knowledge, skills, and technologies, adapting to the dynamic nature of business and supporting continuous professional growth.	Leadership: Dynamism Professional Excellence: Continuous Learning
PSO1	Evaluate and implement effective investing and financing strategies to achieve specific financial objectives, ensuring alignment with broader organizational goals and adaptability to changing market dynamics.	Academic Excellence: Domain Expertise,Knowledge Application,Problem Solving Skills Professional Excellence: Analytical Skills,Creative Thinking,Critical and Solution-Oriented Thinking,Employability,Practical Skills
PSO2	Utilize advanced analytical tools and techniques, such as statistical analysis, data visualization, and predictive modeling, to assess financial and other business data, enabling informed, strategic decisions across finance and other business domains.	Academic Excellence: Domain Expertise,Knowledge Application,Problem Solving Skills,Self-Learning and Research Skills Professional Excellence: Analytical Skills,Creative Thinking,Critical and Solution-Oriented Thinking,Employability,Entrepreneurship,Practical Skills

COURSE STRUCTURE

Bachelor of Commerce (Applied Finance and Analytics)

SEMESTER - I

Course Code	Course Name	Course Type	Category	Total Marks	L-Hr/W week	T-Hr/W week	P-Hr/W week	Credits

SYLLABUS FOR

COURSE NAME: FINANCIAL ACCOUNTING

COURSE CODE: COAF101-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Estimate the fire insurance claims using accounting records

CO2: Construct journal entries and ledger accounts for hire purchase transactions

CO3: Analyse the profitability of inland branches.

CO4: Construct accounting entries for sale of a partnership to a company

CO5: Explain the usage of different accounting software in accounting operations.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control

Course Content

U1: Insurance Claim

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Insurance Claim - Introduction - Need - loss of stock policy - preparation of statement to ascertain value of stock on the date of fire - Treatment of salvage - valuation of stocks prior to date of fire - calculation of GP Ratio when GP Ratio is not given - Treatment of Average Clause, Treatment of Abnormal items.
Description

U2: Accounting for Hire Purchase and Instalment Systems

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Accounting for Hire Purchase and Instalment Systems - Hire Purchase - Meaning - Legal provisions, [including repossession, only theory] - Calculation of interest - when rate of interest and cash price is given - when cash price and total amount payable is given when

rate of interest and installments amount are given but cash price is not given - Calculation of cash price under annuity method - Journal entries and Ledger accounts in the books of hire-purchaser and hire-vendor.

Description

Installment system- Meaning - Difference between hire purchase and installment system (Theory only). Interest calculation using MS Excel.

U3: Accounting for Inland Branches

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Accounting for Inland Branches - Concept of dependent branches, Accounting aspects, Debtors system. Independent branches: Concept- Accounting treatment: important adjustment entries.

Description

U4: Conversion of Partnership firm into company

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Conversion of Partnership firm into company - Meaning - Need for conversion - Purchase Consideration - Mode of Discharge of Purchase Consideration - Methods of calculation of Purchase Consideration - Net Payment Method - Net Assets Method - Journal Entries and Ledger Accounts in the books of vendor firm - Treatment of items: Dissolution Expenses, Unrecorded Assets and Liabilities, Assets and Liabilities not taken over by the Purchasing Company,

Description

Contingent liabilities, Incorporation entries and preparation of balance sheet in the books of purchasing company.

U5: Automation in Accounting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Automation in Accounting - Meaning of Automation, Automation in Accounting, Impact on Accountants and Industry, Tally, quickbooks, XBRL, Blockchain, Cloud

Computing in Accounting, Big Data in Accounting, Robotic Process Automation in Accounting, Recent innovations in Accounting: Connected Banking.
Description

Essential Reading

1. Jain & Narang, (2024). Financial Accounting. Mumbai: Kalyani Publisher
2. Gupta, R.L., & Radhaswamy, M., (2024) Financial Accounting (18ed.). New Delhi: Sultan Chand & Sons.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL ACCOUNTING

COURSE CODE: COAF101-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: SPREADSHEET FOR BUSINESS

COURSE CODE: COAF161-1

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Explain basic terminologies and functionalities of excel

CO2: Use Excel's data analysis tools, including sorting, filtering, and pivot tables, to analyse financial data.

CO3: Perform the conditional formatting with finance data.

CO4: Evaluate long-term investment proposals and select the best alternative for the organisation

CO5: Create charts and graphs in Excel to visually represent financial data.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Excel

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Basic Excel functions: Understanding the Excel interface - Entering and formatting data - Basic formulas and functions - Structure of an excel function, functions such as SUM (), MIN (), MAX (), AVERAGE (), COUNT (), AUTOSUM, AUTOFILL. Sort - Filter - Conditional Formatting to Find Duplicates, Removing Duplicates.

Description

U2: Validation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Excel Data Validation: Understanding the Need for Data Validation, Creating a Validation List, Adding a Custom Validation Error, Dynamic Formulas by Using Validation Techniques - Understanding Excel PivotTables, Creating an Excel PivotTable, Modifying Excel Pivot Table Calculations, Grouping Pivot. Table Data, Formatting PivotTable Data,

Drilling Down into PivotTable Data, Creating Pivot Charts, Filtering PivotTable Data, Filtering with the Slicer Tool.
Description

U3: Conditional Functions and Working with Large Excel Data Sets

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Conditional Functions: Working with Excel Name Ranges, Using Excel's IF () Function, Nesting Functions, Using Excel's COUNTIF () Function, Using Excel's SUMIF () Function, Using Excel's IFERROR () Function. Working with Large Sets of Excel Data: Using the Freeze Panes Tool, Grouping Data (Columns and/or Rows), Consolidating Data from Multiple Worksheets.

Description

U4: Lookup, Text Based Function and financial function

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Excel's Lookup Functions: Using Excel's VLOOKUP() Function, Using Excel's HLOOKUP() Function, Using Excel's INDEX() and MATCH() Functions. Excel's Text Based Functions: Using Excel's functions such as LEFT(), RIGHT() and MID(), LEN(), SEARCH(), CONCATENATE(). Time value of money - present value of money - capital budgeting, Net present value, Internal rate of return. Introduction to macros. Creation of simple macro functions

Description

U5: Data Analysis and visualisation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Pivot tables and charts - Data analysis tools - Charting and graphing techniques - Dashboard creation

Essential Reading

1. Microsoft Excel Essential Hints and Tips Fundamental hints and tips to kick start your Excel skills By Diane Griffiths Published, 2015 edition. 2. Excel 2010 Formulas, by Wiley Publishing, 2010 Edition

EXAMINATION PATTERN

COURSE NAME: SPREADSHEET FOR BUSINESS

COURSE CODE: COAF161-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1 - 50 Marks; CIA 2 - 50 Marks

COURSE NAME: BASICS OF ACCOUNTANCY AND ECONOMICS

COURSE CODE: COM001-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)

Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Bachelor of Commerce (SEMESTER - I)

Bachelor of Commerce (Strategic Finance) (SEMESTER - I)

Bachelor of Commerce (Work Integrated) (SEMESTER - I)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Understand the basic concepts and objectives of accounting

CO2: Apply accounting principles and double entry system to record transactions

CO3: Prepare ledger accounts and trial balance

CO4: Explain fundamental concepts of economics and economic problems

CO5: Analyse demand and supply concepts and market equilibrium

CO6: Understand national income concepts and the impact of inflation

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, No poverty

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Accounting

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning and Objectives of Accounting – Users of Accounting Information – Book Keeping vs Accounting – Branches of Accounting – Accounting Terminologies.

U2: Accounting Concepts and Double Entry System

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Accounting Concepts and Conventions – Double Entry System – Types of Accounts – Rules of Debit and Credit – Journal Entries.

U3: Ledger and Trial Balance

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Ledger Posting – Balancing of Accounts – Trial Balance – Errors and Rectification (Introductory level). Introduction to Partnership accounts

U4: Introduction to Economics

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Meaning and Scope of Economics – Micro and Macro Economics – Basic Economic Problems – Opportunity Cost – Production Possibility Curve

U5: Demand and Supply

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Law of Demand – Law of Supply – Determinants – Elasticity of Demand – Market Equilibrium.

U6: National Income and Inflation

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U6-T1. Meaning of National Income – Concepts of National Income – Methods of Measurement – Inflation: Meaning, Causes and Effects.

Essential Reading

Author:

Paul A. Samuelson, William D. Nordhaus Title:Economics Edition: 20th Edition (most commonly listed edition) Publisher: McGraw Hill Education (often published by McGraw-Hill / Tata McGraw Hill for Indian editions) Details: Widely used comprehensive economics

textbook covering microeconomics and macroeconomics fundamentals. Copy-ready reference:
Samuelson, P. A., & Nordhaus, W. D. Economics (20th ed.). McGraw Hill Education.

EXAMINATION PATTERN

COURSE NAME: BASICS OF ACCOUNTANCY AND ECONOMICS

COURSE CODE: COM001-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 50

COURSE NAME: BUSINESS LAW

COURSE CODE: COM101-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)

Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Bachelor of Commerce (SEMESTER - I)

Bachelor of Commerce (Strategic Finance) (SEMESTER - I)

Bachelor of Commerce (Work Integrated) (SEMESTER - I)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: *Analyze the fundamental principles of agreements and contracts under the Indian Contract Act, 1872, including the rules relating to offer, acceptance, consideration, and capacity/competency to contract.*

CO2: *Evaluate the concept of free consent, its implications on contractual validity, the legality of object, and interpret judicial decisions under the Indian Contract Act, 1872.*

CO3: *Evaluate the legal framework governing contracts of indemnity, guarantee, bailment, pledge, lien, and agency, including their essentials and legal implications.*

CO4: *Analyze the principles of the contract of sale by distinguishing conditions and warranties, examining the transfer of ownership, rights of an unpaid seller, performance obligations, and the doctrine of caveat emptor.*

CO5: *Critically evaluate competition law by analyzing fair and unfair trade practices, abuse of dominant position, anti-competitive agreements and combinations, and the role and functioning of the Competition Commission of India (CCI).*

Sustainability Development Goals (SDG)

Decent work and economic growth, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Dependability and attention to detail, Leadership and social influence

Course Content

U1: The Indian Contract Act, 1872- General Contracts-I

Teaching Hours: (15)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. The Indian Contract Act, 1872- General Contracts-I

Description

Contract – meaning, characteristics, and kinds; Essentials of valid contract – Offer- meaning, Essential elements of a valid offer, types of offer; Acceptance- meaning and valid rules of acceptance; Communication of offer and acceptance, Revocation of offer and acceptance, Lapse of Offer, Consideration- meaning, essential elements, legal rules regarding consideration,

exceptions to the general rule of consideration, Rule of Privity of contract and its exceptions; Contractual Capacity- meaning and types of parties, persons not competent to contract, Nature and effects of Minor's agreements. Landmark judgments. (Meaning includes definitions given by the Act)

U2: The Indian Contract Act, 1872- General Contracts-II

Teaching Hours: (15)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. The Indian Contract Act, 1872- General Contracts-II

Description

Free Consent- meaning and Five elements which affect the consent and the legal rules of each of the elements (essentials, effects, and remedies); Legality of Objects- meaning, agreements opposed to public policy; illegal agreements, their effects; Void Agreements- meaning and contracts expressly declared void (types of void agreements); Contingent contracts- meaning and essentials, Quasi contracts- meaning; Landmark judgments. (Meaning includes definitions given by the Act). AI enables contract drafting and offer-acceptance automation.

U3: The Indian Contract Act, 1872- General and Specific Contracts

Teaching Hours: (10)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. The Indian Contract Act, 1872- General and Specific Contracts

Description

Performance of contracts- meaning and types, Discharge of contracts – modes of discharge including breach and its remedies. Concept and essentials of Indemnity and Guarantee, Contract of Bailment-essentials and Kinds; Lien and its types; Pledge- meaning and essentials; Contract of Agency -Creation of Agency – Kinds of Agents –Termination of Agency. Landmark judgments. (Meaning includes definitions given by the Act).

U4: The Sale of Goods Act, 1930

Teaching Hours: (10)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. The Sale of Goods Act, 1930

Description

Contract of sale - meaning, essentials, and the difference between sale and agreement to sell; Conditions and warranties- meaning, essentials and differences; Transfer of ownership in goods

including sale by non-owners, Performance of the contract of sale, Unpaid seller – meaning and rights of an unpaid seller against the goods and the buyer. The Doctrine of Caveat Emptor (SDG 12 Responsible Consumption and Production): Landmark Judgments.

U5: Competition Act, 2002

Teaching Hours: (10)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Competition Act, 2002

Description

Competition- Meaning and Nature, Fair and Unfair competitive practices, Dominant Position, Malicious Economic Practices, Anti-Competitive Agreements (Algorithmic Collusion & Digital Cartels), Types and sub-types of Anti-Competitive Agreements, Definition of Combination, Competition Commission of India (CCI), Establishment Composition. Landmark judgments.

EXAMINATION PATTERN

COURSE NAME: BUSINESS LAW

COURSE CODE: COM101-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis, etc. | 20 | CIA II | Mid-semester written examination conducted for a 2-hour duration Sections Type Marks A Short Answer Questions (Answer ALL three questions, of which the third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions, of which the third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions, of which the third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for a 3-hour duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions, out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions, out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: BUSINESS ECONOMICS

COURSE CODE: COM102-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)

Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Bachelor of Commerce (Strategic Finance) (SEMESTER - I)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Develop the conceptual foundations and analytical methods used in micro economics.

CO2: Develop the ability to understand and appreciate the economic theories and their application in real economic life.

CO3: Understand the role of prices in allocating scarce resources in market economies and explain the consequences of government policies in the form of price controls.

CO4: Appraise the monetary policy and fiscal policy prevalent within a country.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Demand and supply Analysis and Applications

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Sustainability

U1-T1. Demand and supply Analysis and Applications

Description

Economic models- Production Possibility Frontier and Circular Flow of Income: Two Sector Model; Demand Analysis: Law of demand, Exceptions to the law; Changes in demand, Elasticity of Demand: Definition, degrees and measurement - Supply Analysis: Laws of supply, Changes in supply, and elasticity of supply - Market equilibrium, Applications in real life: Price Ceiling, Price Floor and Externality.

U2: Theory of Consumer Choice

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

U2-T1. Theory of Consumer Choice

Description

The Budget Constraint: What the Consumer Can Afford, Preferences: What the Consumer Wants, Indifference curves- Properties, Optimization: What the Consumer Chooses and definition of Price Effect, Income Effect and Substitution Effect.

U3: Theory of Production and Cost

Teaching Hours: (10)

Development Needs:

None

Skill Focused:

None

Cross Cutting Issues:

None

U3-T1. Theory of Production and Cost

Description

Production function; Law of variable proportions; Laws of returns, Economies of scale; Cost Function-Important cost concepts. Short run and long run cost analysis (traditional theory) Modern theory of cost- Revenue analysis. TR, AR and MR.

U4: Market Structure

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U4-T1. Market Structure

Description

Market structure- Perfect competition, Price and output determination- Monopoly- Price output determination, Price discrimination Monopolistic Competition – Features, Price and Output determination (Short Run and Long Run). Oligopoly: Definition and types of Oligopoly.

U5: Measuring Nation's Income and Cost of Living

Teaching Hours: (9)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U5-T1. Measuring Nation's Income and Cost of Living

Description

Measuring GDP - Real and Nominal GDP and GDP Deflator – Inflation: Consumer Price Index,

Comparison of CPI an GDP Deflator and Adjusting economic variables to inflation – Money Supply Measures.

U6: Money and the Financial System

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

None

U6-T1. Money and the Financial System

Description

Saving and Investment in National Income Accounts. The Market for Loanable Funds. Banks and the Money Supply. Monetary Measures. Meaning of Inflation and Costs of Inflation. Tools of Credit Control.

Course learning Outcomes

CO1: Construct and deliver professional presentations, reports and emails, demonstrating clear, concise, and persuasive communication appropriate for diverse business audiences.

CO2: Analyze and interpret texts, including financial reports and case studies, to identify key arguments, evaluate evidence, and draw informed conclusions.

CO3: Demonstrate proficiency in using specialized business vocabulary accurately in both written and oral communication, enhancing their professional credibility.

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Life below water, Life on land, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U1-T1. The Flowering Tree by A K Ramanujam

Description

"The Flowering Tree", written in the folklore tradition, is often seen as a metaphor for female resilience, ecological balance, and cultural memory. Ramanujan's retelling bridges ancient oral traditions and modern literary sensibilities, making it a timeless narrative open to multiple readings.

U1-T2. Balai by Rabindranath Tagore

Description

Rabindranath Tagore's short story Bolai (from the collection Lipika) is a poignant exploration of innocence, nature, and the clash between childhood wonder and adult pragmatism.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U2-T1. SHAZADPUR (Glimpses of Bengal by Rabindranath Tagore)

Description

Between 1885 and 1895, Rabindranath Tagore spent extended periods in rural Bengal, overseeing his family's estates in places like Sheldaidaha, Patisar, and Shazadpur (now in Bangladesh). During this time, he wrote a series of personal letters, mostly addressed to family members and close friends. These letters, later selected and translated by Tagore himself in Glimpses of Bengal, offer vivid portraits of village life, natural beauty, and human relationships in colonial Bengal.

U2-T2. Message to the Modern World by an Indian Chief (Script)

Description

In 1854, Chief Seattle delivered a letter (often misrepresented as a speech) to the then-President of the United States, Franklin Pierce, following a request by the U.S. government to purchase his

tribe's land for the purpose of expanding the American frontier. The context of the letter is tied to the encroachment of settlers on Native American lands and the forced relocation of tribes as part of broader U.S. government policies such as the Indian Removal Act.

U3: Essay

Teaching Hours: (7)

Development Needs:

Global, Local

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U3-T1. Trees of Bangalore by Madhav Gadgil

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U3-T2. Thinking Like a Mountain - Aldo Leopold

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U4-T1. Green building ratings crucial to address climate change

Description

As the global community intensifies efforts to address climate change, the building and construction sector – responsible for a significant share of carbon emissions – presents both a challenge and an opportunity. This article explores the critical role of sustainability in shaping the built environment.

U4-T2. International Rivers statement on Teesta dam disaster in Sikkim

Description

This powerful and urgent article highlights the devastating collapse of the Chungthang dam (Teesta III) in Sikkim on October 4, 2023, following a glacial lake outburst flood (GLOF).

EXAMINATION PATTERN

COURSE NAME: ENGLISH FOR PROFESSIONAL COMMUNICATION

COURSE CODE: ENG283-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1- Structured Analytical Writing through PEEL (20 Marks)

Course Component: Analytical Writing / Critical Thinking

Mode: Individual (In-class / Internal Assessment)

Students will write three structured analytical paragraphs using the PEEL framework in response to a prescribed literary or visual text studied in class.

Each paragraph must: Present a clear argumentative Point. Provide relevant textual or contextual Evidence. Offer a critical Explanation using a theoretical lens. Conclude with a strong Link to the central argument

CIA 3- Narrative Writing/Report writing7. Narrative Writing - 20 Marks

Component Title: Critical Narrative Construction

Instructions: Write a 800–1000 word narrative that integrates reflection, perspective, and socio-cultural awareness. The narrative must move beyond storytelling and demonstrate thematic depth.

2. Field Study Analytical Report

Marks: 20

Word Limit: 800 -1000 words

Mode: Individual Field-Based Study

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A : Short Notes (3x10=30)

Section B: Long Answer (2x10=20)

Section C: Composition (2x10=20)

EXAMINATION PATTERN

COURSE NAME: BUSINESS DATA VISUALIZATION

COURSE CODE: COAF161-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I - 50 Marks, CIA II - 50 Marks

COURSE NAME: CORPORATE ACCOUNTING

COURSE CODE: COAF201-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - II)

Course learning Outcomes

CO1: Construct the profit or loss and balance sheet of a company according the schedule III of companies Act 2013.

CO2: Organize accounting entries for buy-back, bonus issue of shares.

CO3: Illustrate appropriate method for redemption of debentures.

CO4: Estimate the value of shares and goodwill of a company.

CO5: Construct a consolidated balance sheet of holding company

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Quality control

Course Content

U1: Final Accounts

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U1-T1. Final Accounts

Description

Framework for preparation and presentation of Financial Statements – Compliance with accounting standards- Form and contents of Statement of Profit or Loss and Balance Sheet as per SCHEDULE III (Division ii) – General Instructions for preparation of Statement of Profit and Loss and Balance Sheet – Disposal of company profits – dividend tax deducted at source - Declaration of dividends out of reserves-Transfer to Reserves etc., excluding calculation of managerial remuneration

U2: Accounting for Alteration of Share Capital

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U2-T1. Accounting for Alteration of Share Capital

Description

Meaning of Alteration of share capital – Accounting treatment- Bonus shares-Characteristic of

Bonus shares- circumstances for issue of bonus shares-SEBI guidelines for issue of bonus shares- Accounting Treatment for Bonus shares-Buy-back of shares- advantages- Accounting entries in buy-back of shares - equity shares with differential rights, employee stock option(theory only).

U3: Accounting for Redemption of Debentures

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U3-T1. Accounting for Redemption of Debentures

Description

Meaning of debentures – Types of debentures - Redemption of debentures- Methods of redemption – problems on conversion method -problems on buying own debentures from open market (including ex-interest and cum interest quotations) – problems on redemption using sinking fund method

U4: Valuation of Goodwill and Valuation of Shares

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U4-T1. Valuation of Goodwill and Valuation of Shares

Description

Valuation of Goodwill – Meaning of Goodwill – Need for Valuation of Goodwill – Factors Affecting Valuation of Goodwill – Methods of Valuation – Average Profit Method – Super Profit Method – Annuity Method-Capitalization Method-Valuation of Shares – Need for Valuation – Factors Affecting valuation of Shares- Net Asset Method – Yield Method – Fair Value-Simple Practical Problems

U5: Accounts of Holding Companies/Parent Companies

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U5-T1. Accounts of Holding Companies/Parent Companies

Description

Meaning of Holding & Subsidiary Company – Consolidation of Balance Sheet of Holding and Subsidiary Company - Relevant provisions of Accounting Standard (ICAI). Calculation of Cost of Control – Minority Interest –Treatment of Unrealized Profit on stock and assets- Revaluation of Assets and Liabilities- Inter Company Owing-Preference shares - Issue of bonus Shares by

Subsidiary Company -Proposed Dividend –Preparation of consolidated balance sheet with one subsidiary company.

Integrated Master of Business Administration (iMBA) (SEMESTER - II)

Course learning Outcomes

CO1: Construct and deliver professional presentations, reports and emails, demonstrating clear, concise, and persuasive communication appropriate for diverse business audiences.

CO2: Analyze and interpret texts, including financial reports and case studies, to identify key arguments, evaluate evidence, and draw informed conclusions.

CO3: Demonstrate proficiency in using specialized business vocabulary accurately in both written and oral communication, enhancing their professional credibility.

Sustainability Development Goals (SDG)

Gender equality, Reduced inequalities

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Empathy and active listening

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U1-T1. The Story of an Hour by Kate Chopin

Description

A classic American short story, Kate Chopin's "The Story of an Hour" is praised for both its potent feminist themes and its economical use of language.

U1-T2. Mrs Sen Jhumpa Lahiri

Description

One of the most notable stories in Jhumpa Lahiri's *Interpreter of Maladies* (1999) is Mrs. Sen's, which provides a subtly potent reflection on cultural isolation, gender, identity, and displacement.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U2-T1. Visual Text: Speech by Wangari Maathai (Noble Acceptance Speech)

Description

Wangari Maathai delivered her Nobel Peace Prize lecture in December 2004, after being honored for her contributions to sustainable development, democracy, and peace. In her speech, she emphasized the interconnection between environmental conservation, human rights, and peace.

U2-T2. True Liberation of Women by Indira Gandhi

Description

Indira Gandhi's speech, "True Liberation of Women", was delivered on March 26, 1980, at the inauguration of the All-India Women's Conference Building Complex in New Delhi. In this address, she reflected on the role of women's organizations in India and highlighted the need for a liberation that acknowledges women's individuality rather than merely imitating men.

U3: Essay

Teaching Hours: (7)

Development Needs:

National, Regional

Skill Focused:*Employability***Cross Cutting Issues:***Gender***U3-T1. Intersectional Discrimination: Understanding the Indian Perspective****Description**

This essay looks at gender discrimination in the Indian context with examples.

U3-T2. Excerpt from “The Truth About Me: A Hijra Life Story” - A. Revathi**Description**

The novel shares experiences of an Indian hijra in a stigmatized society.

U4: Case Study**Teaching Hours: (8)****Development Needs:***Global, National***Skill Focused:***Employability***Cross Cutting Issues:***Gender***U4-T1. Changing Face of Women's Representation in Hindi Cinema****Description**

In a country where cinema is both cultural currency and a reflection of societal values, the portrayal of women in Bollywood deserves critical scrutiny. This article unpacks the complex history of women’s representation in Hindi cinema – from the silencing of their presence in early 20th-century films to their objectification through item numbers and the male gaze, as theorized by Laura Mulvey.

U4-T2. Why Diversity Programs**Description**

This article critically examines the efficacy of long-standing corporate diversity programs, revealing that many popular strategies – such as mandatory diversity training, hiring tests, and grievance systems – not only fail to improve diversity but often worsen it.

EXAMINATION PATTERN

COURSE NAME: ENGLISH FOR PROFESSIONAL COMMUNICATION

COURSE CODE: ENG283-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1 and CIA 3 Internal at Department Level for 20 marks each

CIA 2 Centralized exam for 50 marks (4x5=20, 1x10=10, 2x10=20)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A : Short Notes (4x5=20)

Section B: Long Answer (1x10=10)

Section C: Composition (2x10=20)

COURSE NAME: PYTHON FOR ANALYTICS

COURSE CODE: COAF201-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: Develop basic Python programs and understand the fundamentals of computer programming

CO2: Develop Python programs using variables, expressions, conditional logic, and exception handling

CO3: Create Python programs using built-in and user-defined functions and looping constructs to solve business-oriented problems.

CO4: Analyse string data and file contents using Python string manipulation and file handling techniques to extract, organize, and interpret textual information

CO5: Analyse data using Python data structures such as lists, tuples, dictionaries, and list comprehensions to identify patterns and generate meaningful summaries

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to programming

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to programming

Description

Computer programs – Computer Hardware and software interaction – Need for programming – Human Languages and computer programming languages – Interpreter and Compiler - Reserved words – History of Python - Installing python and interacting with Python – Python Prompt – Traceback – Handling Traceback- Writing a python program - Basic building blocks of programs – Input – Output – Sequential execution – Conditional execution – Repeated execution – Reuse (functions) – Types of errors in programs –

U2: Variables Expressions and Statements

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Variables Expressions and Statements

Description

Values – Types – variables – variable names and keywords – Statements – Operators and Operands- Expressions - Order of operations – String operations – taking inputs from users – importance of mnemonic variable names – Debugging python code – Conditional executions – Boolean and logical operators – Chained and Nested conditionals – Try and Except

U3: Python Functions and Loops**Teaching Hours: (15)****Development Needs:***Global***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Professional Ethics***U3-T1. Python Functions and Loops****Description**

Built in functions – Conversion, Math functions – user defined functions – parameters and arguments – Void functions – Creating UDF for business applications – Electricity bill, ratio analysis, Financial statement analysis, Goodwill and share valuation – Loops - Updating variables – While Loops – Infinite Loops – for loops – counting and summing loops – Maximum and minimum loops

U4: Strings and file operations**Teaching Hours: (15)****Development Needs:***Global***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Professional Ethics***U4-T1. Strings and file operations****Description**

Length of a string – Traversal through a string through a loop – string slices – Looping and counting – ‘in’ operator – string comparison – string methods – parsing strings – format operator – Files – opening files with file handle- text files and lines – Reading files – searching through a file – Writing files

U5: Python data structures**Teaching Hours: (15)****Development Needs:***Global***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Professional Ethics***U5-T1. Python data structures****Description**

Lists – traversing a list – List operations – list slices – list methods – Lists and Functions – Lists and strings – parsing lines – Dictionaries – Dictionaries and files – Looping and dictionaries – Advanced text parsing – Tuples – Immutability – comparing tuples – tuple assignment –

dictionaries and tuples – multiple assignments with dictionaries – program to count most common words – list comprehension – Introduction to pandas data frames.

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: Apply probability theory for business decision making

CO2: Experiment hypothesis and perform hypothesis testing and interpret the results of hypothesis tests

CO3: Apply permutation and combination for business problems and decision making.

CO4: Apply the concept of Matrices and Determinants in solving business problems

CO5: Develop the ability to formulate and solve linear programming, transportation, and assignment problems.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Quality control

Course Content

U1: Probability Distribution

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Probability Distribution

Description

Meaning of probability – Approaches to probability – Probability Theorems (Addition theorem, Multiplication Theorem) – Rules of probability, Conditional probability – Bayes' Probability; Probability distributions – Bernoulli distribution, Binominal distribution, Poisson distribution, Normal distribution (Conditions, Constants, Properties, and Problems).

U2: Inferential statistics

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Inferential statistics

Description

Sampling – Probabilistic and Non-Probabilistic techniques;

Statistics, Parameter and Estimation – Point Estimates and Interval Estimates; Confidence level

and Level of Significance;

Hypothesis testing – Types of Hypotheses, How to formulate a hypothesis, Testing Process;
Statistical testing – Chi Square test, T tests, One way ANOVA, Pearson's Correlation, Linear Regression.

U3: Basic Mathematics

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Basic Mathematics

Description

Permutation and Combination: – Definition, Factorial notation, permutations with repetitions; restricted permutations. Definition of combination; Basic identities; restricted combinations.

U4: Matrices and Determinants

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Matrices and Determinants

Description

Definition of a matrix; types of matrices; Algebra of matrices, Properties of determinants; calculations of values of determinants up to third order; Adjoint of a matrix, inverse of Matrix (Simple Problems only). Solution of a system of linear equations using Cramer's Rule and Matrix method, Applications of Matrices and Determinants in business.

U5: Linear Programming in Excel

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Linear Programming in Excel

Description

Linear Programming Problem – Formulation – Simplex method – LPP in Excel; Transportation Problem – Initial Basic Feasible solution – Degeneracy; Assignment Problems – Transportation and Assignment problems in Excel.

Essential Reading

1. Rajesh S Rajaghatta and N H Gangadharappa, Quantitative methods for Business 1 and 2 – (2018). Kalyani Publications.

2. Mizrahi and John Sullivan. (2019). Mathematics for Business and Social Sciences . Wiley and Sons.

EXAMINATION PATTERN

COURSE NAME: BUSINESS STATISTICS AND MATHEMATICS

COURSE CODE: COAF202-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA1- 20 marks, CIA2 Centralised 50 marks, CIA3 20 (Converted to 45), 5 marks attendance, ESE 100 marks(converted to 50 marks).

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A: $7 \times 5 = 35$ Section B: $5 \times 10 = 50$ Section C: $15 \times 1 = 15$

COURSE NAME: COST ACCOUNTING

COURSE CODE: COAF203-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: Recall the concept of cost, classification of cost and elements of cost and profit

CO2: Application of cost elements to prepare cost sheet

CO3: Evaluate the various elements of cost

CO4: Analyze the different methods and techniques of Cost Accounting

CO5: Estimate the cost involved in service industry

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Partnerships for the goals, Peace, justice and strong institutions, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Introduction

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Cost Accounting and Cost Sheet

Description

Meaning, objectives and advantages of cost accounting; Difference between cost accounting and financial accounting; Cost concepts and classifications; Elements of cost; Installation of a Costing system – Contemporary Trends in Costing Techniques - Format of Cost Sheet - Tenders and Quotations (Problems on above).

U2: Elements of Cost: Material and Labor

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Materials and Labour

Description

Material/inventory control techniques. Accounting and control of purchases, storage and issue

of materials. Materials Stock Level, Methods of pricing of materials issues – FIFO, LIFO, Simple and Weighted Average methods
Accounting and Control of labour cost; time keeping and time booking. Concept and treatment of idle time, over time, labour turnover and fringe benefits. Methods of wage payment and the Incentive schemes- Halsey and Rowan only

U3: Elements of Cost: Overheads

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Overheads

Description

Collections and Classification of Overheads - Allocation & Apportionment – Primary Distribution - Secondary Distribution - Reapportionment of Service Department Costs to Production Departments (Simultaneous Equation Method only); absorption of Overheads and Computation of Machine Hour Rate.

U4: Methods of Costing - I (Job, Batch and Contract Costing)

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Job Costing, Batch and Contract Costing

Description

Job Costing - Batch Costing - Definition - Difference between Job Costing and Contract Costing - Contract Ledger - Ascertainment of Profit/Loss on Contract – Work In Progress and Balance Sheet - Cost Plus and Estimated Contracts

U5: Methods of Costing- II(Process Costing and Operating Costing)

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Process Costing and Operating Costing

Description

Process Costing - Normal Loss - Abnormal Loss/gain - Including Inter-Process Profit and Equivalent Production (Theory Only) Preparation of Process Accounts and Joint and By-Products (theory only).

Operating Costing – Concept - Features - Performance of Operating Costing and Problems on Transport Costing Only. Operating and Operation costing: cost unit - preparation of operation

cost sheet – cinema house operating costing – hotel operating costing powerhouse operating costing (Theory Only).

Essential Reading

1. Jain. S.P, Narang, K. L & Simi Agrawal (2021). Cost Accounting (2nd ed.). Delhi, India: Kalyani Publishers. 2. Arora M. N. (2023). Methods and Techniques of Cost Accounting (4th ed.). India: Himalaya Publishing House.

EXAMINATION PATTERN

COURSE NAME: COST ACCOUNTING

COURSE CODE: COAF203-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: SERVICE LEARNING AND COMMUNITY ENGAGEMENT

COURSE CODE: COM162-3

COURSE TYPE: Practical

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - III)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - III)

Bachelor of Commerce (Finance and Investment) (SEMESTER - III)

Bachelor of Commerce (Strategic Finance) (SEMESTER - III)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: To demonstrate their ability to apply commerce knowledge to real-world situations, communicate effectively with diverse groups of people, work collaboratively in teams.

CO2: To reflect on their experiences before, during, and after the service learning project, and assess the individuals' skills developed.

CO3: To exhibit teamwork in the planning and execution of meaningful service learning projects and report presentation.

CO4: To showcase appreciation for the discipline knowledge through service learning initiatives in the field of commerce.

Sustainability Development Goals (SDG)

Affordable and clean energy, Decent work and economic growth, Good health and well-being, Partnerships for the goals, Quality education, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Introduction to Service learning and Community Engagement

Teaching Hours: (10)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U1-T1. Service-Learning: The Concept, Objectives, and Scope; Need for Community and Academia. Exploring the Intersection of Business and Community Impact, Overview of Service-Learning Types of Service-Learning, Stages in Service Learning Needs Assessment: Identifying community partners, Conducting needs assessment, Community mapping, Reflecting on Personal Expectations and Preconceptions, Finalising the community for the service learning project.

Description

U2: Planning and Designing Service Learning Projects

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Investigating Community Problems and Aligning Course Objectives and Outcomes, Identifying Relevant Literature for the problem, PRA tools, Reflection: Kolb's Model of Experiential Learning, Types of reflection, Reflective Journals and Diary, Planning and Designing the Service Learning Project (Block 8 Model), Plan for Effective Implementation, Reflect on Challenges, Reciprocal Learning Moments, and Adaptations.

Description

U3: Theoretical Models and Impact Analysis

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U3-T1. Exploring Theoretical Models for Solving Community Problems and Understanding Their Applicability, Reflections on the Selected Model for the service learning project, Presentation of the possible Impact and Effectiveness of the Service Learning Project, Executing the service learning Project, preparing and delivering the Project Deliverables: Review the project and conduct an impact analysis

Description

U4: Project Outcomes and Reflection

Teaching Hours: (15)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. Execution of service learning project, Showcasing Project Outcomes, Celebrating Achievements, and Reflecting on the Overall Service-Learning Experience, Showcasing Project Outcomes, Celebrating Achievements, Reflecting on the Overall Service-Learning Experience, Final review and assessment.

Description

Essential Reading

1. Service-Learning in Business: A Guide to Integrating Community Engagement into the Business Curriculum, by Robert G. Bringle and Julie A. Hatcher (2015).

1. Cress, C. M., Collier, P. J., Reitenauer, V. L., & Associates. (1962). Learning through Serving: A Student Guidebook for Service-Learning and Civic Engagement Across Academic Disciplines and

Cultural Communities. Publisher.

 Bachelor of Science (Economics, Mathematics) (SEMESTER - III)
 Bachelor of Science (Economics, Mathematics, Statistics/Econometrics) (SEMESTER - III)
 Bachelor of Science (Economics, Statistics) (SEMESTER - III)
 Bachelor of Science (Life Sciences) (SEMESTER - III)
 Bachelor of Science (Physics, Chemistry) with minor in Mathematics (SEMESTER - III)
 Bachelor of Science (Physics, Mathematics) with minor in Astrophysics (SEMESTER - III)
 Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - III)
 Bachelor of Science (Psychology) (SEMESTER - III)

Course learning Outcomes

CO1: CO1: To develop basic and communication skills sharpen oral and written skills: By the end of the course, students will be able to engage in basic conversations in French, demonstrating comprehension and correct pronunciation, and write short paragraphs with minimal grammatical errors.

CO2: CO2: To enhance knowledge on French culture: By the end of the course, students will be able to identify and describe at least five key aspects of French culture, such as traditions, customs, and social norms, in both oral and written formats.

CO3: CO3: To enrich the learner's vocabulary: By the end of the course, students will be able to accurately use at least 200 new French vocabulary words in context, both in speaking and writing.

CO4: To enable learners to engage in and discuss simple topics with ease: By the end of the course, students will be able to participate in simple discussions on everyday topics (e.g., family, hobbies, travel) with fluency and confidence, using appropriate sentence structures.

Sustainability Development Goals (SDG)

Good health and well-being, Life on land, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Dossier 0 Nous découvrons le français

Teaching Hours: (4)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction Establish rapport

Description

Grammar | Activity | Verbe s'appeler -Les articles définis -Les pronoms sujets - Les nombres | Simple communicative words and phrases to develop interest. |

U2: Dossier 1 Nous apprenons le français pour..

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

**U2-T1. Saluer -Demander et donner les informations - Donner des informations personnelles
-Présenter et identifier une personne - Se presenter**

Description

-Tu ou Vous -Les articles indéfinis -Les mots interrogatifs -Verbe Être -C'est ou il est -Adjectif interrogatif -Verbe avoir -Les adjectifs possessifs (1) | -Speech acts – talk about oneself. -Final task: create one's profile in a video mode. (oral communication skills, global) |

U3: Dossier 2 Nous faisons connaissance..

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U3-T1. Nommer des pays et des villes - situer un lieu - Faire connaissance - Parler d'un type d'hébergement - Échanger des informations sur un hébergement

Description

- Les prépositions (noms de pays et de villes) - les prépositions de lieu et l'article contracté - négation - verbes aller, venir, Prendre - les adjectifs démonstratifs | Speech act – Asking closed questions. Final task: to create a city portrait(integrating global skills) |

U4: Dossier 3 Nous parlons la même langue

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U4-T1. - Parler de la famille - Décrire et caractériser un/des personnes - Parler de nos goûts - Parler de nous - Parler de nos activités - Expliquer un problèmes de santé

Description

-Les adjectifs possessifs (2) -Les adjectifs qualificatifs (M/F/Sin/Pl) -Aimer+ Adorer+ Détester +Nom/Verbe -Les verbes « er » -Le verbe faire+ du/de la / de l'/ des -Les pronoms toniques - Avoir mal à + les parties du corps | Tache finale : Introduce oneself to the class in French.(global ,communicative and speaking skills) |

EXAMINATION PATTERN

COURSE NAME: FRENCH

COURSE CODE: FRE181-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Description:

This course includes three CIAs and an End Semester Evaluation. CIA 1 & 3 for 20 marks (later reduced to 10 marks) each will be administered by the respective faculty in the class. CIA 2 is mid semester examination for 50 marks which is a descriptive test conducted at the central level through the office of examination. MSE is carried out as a two-hour paper, conducted out of 50 marks and later reduced to 25 marks. ESE also is a centralized examination. ESE is conducted as a two - hour paper which carries 50 percent weightage. Examination is conducted out of 50 marks. Attendance carries 5 marks.

CIA-1

CIA1:20 marks-Written test on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge. (Mapped to CO2 and CO3)

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

- ☐ All questions are multiple-choice (1 correct option out of 3 or 4).
- ☐ No negative marking.
- ☐ Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.
- ☐ Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA - 2(Mid SemExam):50 marks -Writtenexam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. Learners are required to attempt SEC -A containing grammar, Section B- Containing comprehension, civilization and translation and Section C containing Writing comprehension. The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.CO1, CO2 and CO 3 would be covered for MSE.

MSE is scheduled during August ,2026.

CIA - 3

CIA3:20 marks– Creative Assignment on Oral Competence.

Assignment type- Group of 3/4, Formative

Outcome: Learners will be able to apply their spoken French knowledge and listening competence. (Mapped to CO1, CO3 and CO4)

Evaluation Criteria:

- 1.Pronunciation & Intonation – (4)
- 2.Vocabulary Use – (4)
- 3.Grammatical Accuracy – (4)

4. Fluency & Coherence – (4)

5. Comprehension & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

SECTION A- 20 MARKS

SECTION B- 15 MARKS

SECTION C - 15 MARKS.

COURSE NAME: GERMAN-I

COURSE CODE: GER181-3

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

EXAMINATION PATTERN

COURSE NAME: GERMAN-I

COURSE CODE: GER181-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1

CIA 1: 20 marks -Test / assignment on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge.

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

No negative marking.

Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.

Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA- 2 (Mid Semester Exam): 50 marks – Written exam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE).

The question paper contains three sections:

Section A - Consists of questions on reading comprehension for 15 marks

Section B - Consists of questions on grammar and vocabulary for 20 marks

Section C - Consists of questions on writing and translation skills for 15 marks

The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.

CIA - 3

CIA 3: 20 marks – Creative Assignment / project / presentation on Linguistic and Oral Competence.

Assignment type- Individual / Groups of 3-4, Formative

Evaluation Criteria:

Pronunciation & Intonation – (4), Vocabulary Use – (4), Grammatical Accuracy – (4)

Fluency & Coherence – (4), Creativity & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

The End Semester Examination is a centralised assessment for 50 marks. The question paper contains three sections:

Section A - Consists of questions on comprehension for 15 marks

Section B - Consists of questions on grammar and vocabulary for 20 marks

Section C - Consists of questions on writing and translation skills for 15 marks

Course learning Outcomes

CO1: Identify and use Hindi alphabets, words, and basic sentence structures for simple communication.

CO2: Apply basic grammatical concepts such as parts of speech, gender, number, and tense in spoken and written Hindi.

CO3: Develop functional vocabulary related to everyday life and use it appropriately in simple contexts.

CO4: Demonstrate basic conversational ability in Hindi through guided dialogue and short interactions.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Fundamentals of Hindi Language

Teaching Hours: (21)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Alphabets-Vowels and Consonants Parts of Speech-Noun, pronoun, verb, adverb, adjective, prepositions, conjunction and interjection Numbers Gender and Tense

Description

This unit introduces students to the basic structure of the Hindi language with emphasis on foundational linguistic competence. Students will learn the Hindi alphabet, including vowels and consonants, to develop correct pronunciation and script familiarity. The unit covers essential parts of speech such as nouns, pronouns, verbs, adverbs, adjectives, prepositions, conjunctions, and interjections, enabling students to understand sentence construction and grammatical usage. Instruction in numbers, gender, and tense forms helps students grasp basic grammatical agreement and sentence patterns in Hindi. Through systematic practice, this unit aims to build a strong grammatical foundation that supports basic reading, writing, and introductory conversational skills in Hindi.

U2: Vocabulary Development

Teaching Hours: (3)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Names of things, animals, birds, vegetables, flowers, days, months etc.

Description

This unit focuses on building basic Hindi vocabulary required for everyday communication. Students will learn commonly used words related to names of objects, animals, birds, vegetables, flowers, days, months, and other familiar categories. Emphasis will be placed on correct pronunciation, spelling, and contextual usage of vocabulary items. Through structured exercises and classroom activities, students will gradually develop the ability to recognize, recall, and use essential Hindi words in simple sentences, thereby strengthening their lexical competence and confidence in basic language use.

U3: Conversation Practice

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Conversation practice

Description

This unit aims to develop basic conversational skills in Hindi through guided and interactive practice. Students will engage in simple dialogues and short interactions based on everyday situations such as greetings, introductions, daily activities, and common social contexts. The focus will be on listening and speaking skills, sentence formation, and appropriate use of vocabulary and basic grammar. Through repeated practice and teacher-guided interaction, students will gain confidence in using Hindi for simple oral communication and real-life situations.

EXAMINATION PATTERN

U1-T1. Samakaleen Kavita Sanchay? (Collection of Poems) edited by: Dr. Sebastian K A & Dr. Deepak Kumar Gond 20 Hrs. Level of knowledge: Anal

Description

In this course utilizes the textbook Samkaaleen Kavita Sanchay to foster critical thinking and poetic analysis through a diverse range of contemporary themes. The curriculum spans historical tragedies like 'Hiroshima', environmental concerns in 'Ek Vriksh Ki Hatya', and intense political commentary in works such as 'Tisara Rasta' and 'Hanso Hanso Jaldi Hanso'. Students will explore social identity and language in 'Meri Bhasha Ke Log', confront systemic corruption in 'Varnamaala', and analyze gender dynamics and marginalized perspectives in poems like 'Striyaan', and 'Mein Geeth Gaana Chaahta Hun'. Through these readings, the

course aims to enhance vocabulary and enable students to analyze poems within their specific social and political contexts while developing technical skills through digital assignments

Hour 20 Hrs.

Level of knowledge: Analytical

U2: Cultural art forms of India Yakshagana, Kathakali, Ramleela, Krishnaleela

Teaching Hours: (5)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U2-T1. Yakshagana, Kathakali, Ramleela, Krishnaleela

Description

This unit introduces students to select traditional Indian cultural and performing art forms, namely Yakshagana, Kathakali, Ramleela, and Krishnaleela, with a focus on their historical origins, thematic concerns, performance techniques, and cultural significance. The unit examines how these art forms function as powerful mediums of storytelling rooted in Indian mythology, epics, and devotional traditions. Students will study the narrative structures, character types, costume design, makeup, music, dance movements, and symbolic gestures associated with each form. Emphasis will be given to understanding how Yakshagana and Kathakali represent regional theatrical traditions of South India, while Ramleela and Krishnaleela reflect the devotional and performative retellings of the Ramayana and the life of Lord Krishna. Through this unit, students will gain insight into the role of cultural art forms in preserving collective memory, moral values, and social traditions, and will critically appreciate their relevance in contemporary cultural and literary studies

U3: Translation Practice- English to Hindi

Teaching Hours: (5)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Translation Practice- English to Hindi

Description

This unit focuses on developing students' practical translation skills through the translation of medium-level English prose passages into Hindi, with special emphasis on themes related to education, culture, and environmental awareness. Students will be trained to translate paragraphs that discuss the role of education in social development, the significance of cultural values and traditions, and contemporary environmental concerns such as conservation, sustainability, and ecological responsibility. The unit emphasizes accuracy, clarity, and contextual appropriateness in translation, encouraging students to maintain the original meaning, tone, and style of the source text while adapting it effectively into the target language. Attention will be given to vocabulary selection, sentence structure, idiomatic expressions, and grammatical equivalence between English and Hindi. Through guided practice, this unit aims to enhance students' linguistic competence, cultural sensitivity, and analytical understanding of

translation as a meaningful academic and communicative practice.

Hour: 5

Level of knowledge: Basic

Essential Reading

1. A Hand Book of Translation Studies By: Das Bijay Kumar.
2. SaralSubodh Hindi Vyakaran, By: MotilalChaturvedi. Vinod
3. AnuvadEvam Sanchar – Dr.PooranchandTandon, Rajpal and Son's
4. AnuvadVignan By:Bholanath Tiwari
5. Anuvad Kala By: N.E VishwanathIyer

EXAMINATION PATTERN

COURSE NAME: HINDI ADVANCED

COURSE CODE: HIN281-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

The evaluation and assessment will be based on Continuous Internal Assessments and an End Semester Examination.

CIA 1 – Will be Hindi Wikipedia –Project (1) and Seminar (20)

CIA 2 – Mid-semester Examination (50 marks)

CIA 3 –Will be Hindi Wikipedia- Project and Seminar (2) (20 marks)

CIAs and attendance will have 50% weight

The end semester examination will have 50% weight.

The final grade will be weighted average of ESE and CIAs.

Late submission of assignments will be accepted only with prior notice and only under truly exceptional circumstances.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

The End-Semester Examination for III Semester BA / B.Sc / B.Com (Paper I – Hindi) is conducted for a duration of 2 hours with a total of 50 marks. The question paper is divided into three sections: A, B, and C. Section A (Poetry) consists of essay-type questions. Students are given three choices, out of which one question has to be answered, carrying 10 marks. Section B (Cultural Art Forms of India) includes descriptive and objective-type questions. Students are required to answer one question, which carries 10 marks. Section C (Translation) contains one passage for translation from English to Hindi. This section has one compulsory question for 10 marks.

U1-T1. 1.Sanskrit Varnamale 2. Guneetakshara 3. Origin of Letter 4. Verbs 5. Latlakara Shabda (Male and Female)

Description

This course introduces fundamental concepts in Sanskrit language learning. Sanskrit Varnamala covers the basic alphabet, including vowels (svaras) and consonants (vyanjanas), forming the foundation of pronunciation and writing. The unit on Guneetakshara explores compound letters formed by combining consonants and vowels, helping learners understand proper articulation. Origin of Letters delves into the phonetic and physiological aspects of Sanskrit sounds, highlighting how each letter is produced through specific speech organs. The Verbs unit introduces the concept of root words (dhatus), their conjugations, and usage in sentence formation, focusing on tense and subject agreement. Finally, Latlakara Shabda emphasizes the present tense forms of verbs, along with masculine and feminine noun declensions, enabling learners to form basic sentences accurately. Together, these units lay a strong grammatical foundation, essential for reading, writing, and understanding Sanskrit texts with clarity and confidence.

U2: 2 Morphology

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U2-T1. 6. Aatmanepade (Indirect Speech) 7. Akaaranta Shabda (Male) 8. Numbers 9.

Question words 10. Relations

Description

The unit on Ātmanepada introduces verbs in the middle voice, commonly referred to as indirect or reflexive forms, where the action reflects upon the doer. It is essential for understanding verb conjugation beyond the active voice. Akārānta Shabda (Masculine) focuses on masculine nouns ending with 'a', teaching learners their declension across different cases and numbers, which is vital for proper sentence construction. The Numbers unit presents Sanskrit numerals and their usage in counting, sentence formation, and agreements with nouns. Understanding Question Words (kaḥ, kâ, kim, etc.) equips learners to ask and answer basic questions, forming an interactive language foundation. Lastly, the Relations topic introduces vocabulary related to family and kinship, helping students speak and write about their surroundings and relationships. These topics enhance vocabulary, grammar, and conversational ability, fostering deeper comprehension and practical usage of the Sanskrit language.

U3: Syntax

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Syntax 11. Pronouns 12. Active, Passive Voice Conversion 13. Akaaranta Shabda (Female) 14. Prayoge Parivartana 15 Gendered Words

Description

This section focuses on essential grammatical structures to strengthen sentence formation in Sanskrit. Syntax teaches the rules and order of words in a sentence, enabling clarity and correctness in expression. The unit on Pronouns covers words used in place of nouns, such as aham (I), tvam (you), enhancing fluency and reducing repetition. Active and Passive Voice Conversion enables learners to transform sentences from kartari prayoga (active) to karmani prayoga (passive) and vice versa, an important skill in understanding text variations. Akārānta Shabda (Female) introduces feminine nouns ending in 'ā', focusing on their case-wise declension and grammatical usage. The topic Prayoge Parivartana refers to changing sentence patterns based on context or purpose, such as from imperative to interrogative or affirmative to negative. Gendered Words explains masculine, feminine, and neuter nouns, helping learners identify and apply correct agreements in sentence structure. These topics collectively enrich both written and spoken Sanskrit proficiency.

U4: Conversation

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. 16. Karakas (7) 17. Body Parts 18. Basic words for conversation (Good Morning, introduction etc). 19. Colours 20. Translation

Description

This final set of topics builds practical language skills and deepens grammatical understanding. Kāraḥas (7) introduces the seven syntactic roles or cases in Sanskrit – like kartā (doer), karma (object), karaṇa (instrument), etc. – which are crucial for accurate sentence construction and meaning. The Body Parts unit teaches commonly used anatomical terms, enhancing vocabulary for everyday description and communication. Basic Words for Conversation , such as greetings (suprabhātam – good morning), self-introduction, and polite expressions, help learners use Sanskrit in simple interactions. The Colours unit adds descriptive vocabulary, allowing students to talk about appearance, nature, and objects more vividly. Lastly, Translation strengthens comprehension and writing skills by enabling learners to convert sentences between Sanskrit and their native language, reinforcing grammar and vocabulary in context. Together, these topics prepare students to use Sanskrit both accurately and confidently in practical, real-life situations and further reading.

U1-T1. Subhashithani-Barthruhari's Neethi shatakam, Selected 30 shlokas

Description

Subhashitani from Bhartrhari's Neeti Shatakam is a refined collection of didactic Sanskrit verses that reflect timeless wisdom and ethical values. This module explores 30 carefully selected shlokas that deal with practical life lessons, covering themes such as the power of knowledge, importance of humility, value of time, dangers of greed, and traits of noble versus ignoble individuals. Each verse, compact yet profound, offers moral instruction through vivid imagery and precise language. Bhartrhari's reflections are rooted in a deep understanding of human behavior and societal dynamics. By studying these verses, learners not only enhance their command of Sanskrit language and poetic expressions but also gain insights into Indian philosophical thought. These shlokas serve as mirrors to human nature, inspiring ethical living and thoughtful decision-making. The study of these subhashitas promotes critical thinking, cultural appreciation, and an enriched worldview anchored in classical Indian wisdom.

Cross Cutting Issues:

Human Values

U2-T1. 1.Hiranyaka taamrachooda katha 2. Tila choorna vikraya katha 3. Shabarashookara kathaa 4. VaNikputra kathaa

Description

The selected stories from the Panchatantra – Hiranyaka-Taamrachooda Katha , Tila Choorna Vikraya Katha , Shabarashookara Katha , and Vanikputra Katha – are moral tales embedded with practical wisdom and clever strategies for daily life. In the Hiranyaka-Taamrachooda Katha , a mouse and a hermit bird form an unusual bond that highlights trust, mutual aid, and the impact of fear and friendship. The Tila Choorna Vikraya Katha teaches a lesson on greed and cleverness through a tale of dishonest trade. Shabarashookara Katha tells of a wild boar and a hunter, focusing on the consequences of impulsive behavior and revenge. The Vanikputra Katha involves a merchant's son and presents a narrative on intelligence, planning, and turning misfortune into success. Together, these stories blend animal characters and human experiences

to convey sharp life lessons. Their engaging plots and rich moral layers make them relevant across generations and ideal for teaching values through storytelling.

U3-T1. sandhi prakaranam swara and vyanjana -4 each Samskrutha sambhashanaabhyaasa

Description

This unit introduces students to Sandhi Prakaranam , focusing on the rules of euphonic combination in Sanskrit. It covers four types each of Swarasandhi (vowel combinations) and Vyanjanasandhi (consonant combinations), enabling learners to understand how sounds merge for fluent pronunciation and script accuracy. Additionally, Samskrutha Sambhashana Abhyasa emphasizes oral practice in simple Sanskrit conversation. Through structured dialogues and daily usage expressions, students develop confidence in speaking Sanskrit. The combined study of sandhi and spoken practice builds a strong foundation in both linguistic accuracy and communicative ability, fostering deeper engagement with the language in both textual and conversational forms.

U1-T1. 1.Bharathidasan kavithaigal. 6 hours 1.Tamilin enimai 2.Ennaalo? 3.Ulaga otttrumai 4.Tholilaalar vinnappam. 5.Maanida sakthi. 6.Saintha Tharasu. 7.putthaga Saalai. 2Nanthikkalambagam. 1.Vetri murasa chirappau. 2.Nandhi mann

Description

The Sweetness of Tamil (Tamilin Enimai) This topic highlights the beauty and richness of the Tamil language. It explores the melodious nature of Tamil, its deep literary heritage, cultural significance, classical value, and global presence.

When Will It Be? (Ennaalo?) A reflective theme that contemplates the future. It deals with hopes, dreams, goals, and the anticipation of when change, progress, or aspirations will come true – both individually and collectively.

World Unity (Ulaga Otttrumai) A call for global harmony and togetherness. It emphasizes the importance of peace, tolerance, cooperation among nations, cultures, religions, and languages. The theme promotes humanity and universal brotherhood.

Workers' Petition (Tholilaalar Vinnappam) This theme centers around the rights, struggles, and demands of workers. It can be framed as a plea or request to society or authorities, advocating for better working conditions, fair wages, and dignity of labor.

Human Power (Maanida Sakthi) A theme that celebrates the inner strength of humans – willpower, courage, intelligence, perseverance, and the ability to overcome challenges. It reflects on how human strength can drive social change and innovation.

The Balanced Scale (Saintha Tharasu) This symbolizes justice, fairness, and equality. The topic could explore the importance of law, ethics, and moral balance in society. It may also relate to how fairness should be upheld in personal and social relationships.

Library (Putthaga Saalai) A symbol of knowledge and enlightenment. This topic praises the importance of books, the habit of reading, and the role of libraries in shaping minds and communities. It may focus on how libraries are gateways to wisdom.

U2: Prose-- Short Stories

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:*Human Values***U2-T1. Kanneerum Thanneerum-by Dr.S.Sethuraman - 10 hours (All Stories)****Description**

Kanneerum Thanneerum (Tears and Water) is a powerful collection of short stories by Dr. S. Sethuraman that delves into the emotional and social landscapes of ordinary people. Spanning approximately 10 hours of reading, these stories explore themes such as human suffering, resilience, poverty, injustice, love, and compassion. Each narrative is deeply rooted in reality, portraying characters from diverse backgrounds – farmers, workers, women, and the marginalized – with empathy and nuance. The title metaphorically connects “tears” (sorrow) and “water” (life), symbolizing how emotional pain and daily survival are intertwined. Sethuraman’s writing is both simple and profound, using strong imagery and subtle social critique. The stories not only reflect the harsh truths of life but also reveal moments of hope, dignity, and inner strength. Kanneerum Thanneerum is a moving literary experience that captures the essence of human struggle and spirit in a relatable, honest way.

U3: GRAMMAR- Porul Ilakkanam.**Teaching Hours: (5)****Development Needs:***Regional***Skill Focused:***Skill Development***Cross Cutting Issues:***Sustainability***U3-T1. Thol. Porul Adhigaram****Description**

Porul Adhigaram is the third and final section of the Tolkappiyam, the earliest known Tamil grammar text attributed to Tolkappiyar. While the first two sections deal with phonology (Ezhuthu) and morphology/syntax (Sol), Porul Adhigaram explores semantics, societal structure, and the themes of classical Tamil literature. It is divided into two major parts: Akam (inner life – love, emotions, relationships) and Puram (outer life – war, heroism, ethics, generosity). This section outlines how emotions, human behavior, and social customs are expressed in poetry based on setting, mood, and context. It also classifies landscapes (tinai), symbolic elements, and ideal conduct. Porul Adhigaram forms the foundation for understanding Sangam literature and classical Tamil aesthetics. It is not just grammatical but also cultural and ethical, reflecting the values, duties, and poetic conventions of ancient Tamil society. This section makes Tolkappiyam unique among world grammars for blending linguistics with literary theory and social philosophy.

U4: Language Skill-**Teaching Hours: (3)****Development Needs:***Global***Skill Focused:***Skill Development***Cross Cutting Issues:***Professional Ethics***U4-T1. General essay writing**

Description

listening, speaking, reading, and writing. Mastery of these skills allows individuals to communicate ideas clearly, understand others, and engage meaningfully in social, academic, and professional contexts. Good language skills help in expressing emotions, exchanging information, and building relationships. They also enhance learning, critical thinking, and creativity. Developing strong language skills is essential for students, as it supports academic achievement across all subjects. In the workplace, effective communication boosts collaboration and productivity. Language is not just a tool for conversation – it is a medium for sharing culture, values, and knowledge. Therefore, improving language skills is key to personal growth, social interaction, and success in life. It empowers individuals to be confident, informed, and active participants in society. In short, language skill is the foundation of meaningful communication and lifelong learning.

EXAMINATION PATTERN

COURSE NAME: TAMIL (ADVANCED)

COURSE CODE: TAM281-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

The evaluation and assessment will be based on Continuous Internal Assessments and an End Semester Examination.

CIA 1 -Project/ Assignment submission

CIA 2 - Mid-semester Examination

CIA 3 - Project/ Assignment submission

CIA 's and Attendance will have 50% weight

The End semester Examination will have 50% weight

The final grade will be weighed with the average of ESE and CIAs.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Course Code-TAM-Advanced 281- 3 -THIRD SEMSTER

BA/B.Sc/B.Com - Paper III - TAMIL Advanced

Max. Time: 2 Hours Max. Marks: 50

Section Subject Title Types of Questions Choice Marks

A poetrries Short Answers with Choice 3X6=18

B Prose Descriptive Answers With Choice 2x9=18

C Grammar short Answers With Choice 3X3=09

D Language skill- General essay writing

Descriptive Answer With Choice 1X5=05 TOTAL MARKS 50

COURSE NAME: FINANCIAL SYSTEM AND SERVICES

COURSE CODE: COAF201-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Explain the structure and functioning of the Indian financial system, including financial assets, intermediaries, indicators of financial development, and the role of capital markets.

CO2: Apply knowledge of primary and secondary capital markets to interpret IPO/FPO mechanisms, trading processes, depository systems, corporate actions, and practical stock market data.

CO3: Analyse the structure, instruments, regulatory framework, and digital developments of the Indian money market in comparison with capital markets, including the role of RBI, commercial banks, and inflation indices.

CO4: Analyse microfinance models, institutional frameworks, policy initiatives, and case studies to assess their impact on poverty alleviation, financial inclusion, and economic development.

CO5: Evaluate modern financial services, fintech innovations, AI-driven financial solutions, cybersecurity practices, and sustainable finance initiatives to assess their effectiveness in the evolving financial services sector.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Resilience flexibility and agility, Technological literacy

Course Content

U1: Financial System & Capital Market - Primary Market

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Financial System, Financial Assets, Financial Intermediaries, Key Elements of well-functioning Financial System, Indicators of Financial Development. Capital markets-meaning; Classification of the capital market; Primary market, Functions of new issue market, Methods of floating new issue - offer for sale, fresh issue, Private placement, Book building, Rights issue, FPO, ESOP. Live demand and supply for IPO book building

Description

Red herring prospectus – purpose, content and procedures, Intermediaries in the new issue market; Role of registrars, brokers, bankers, and Underwriters in the new issue. Raising of funds from International Markets: ADRs and GDRs, FCCB and Euro Issues. SEBI guidelines for new issue, FPO, private placement, book building, and right issues. Case Study: Paytm, LIC, Adani FPO, IPO why it is failed. Green debts securities and SEBI guidelines for sustainable issuance in primary market, Green masala bonds.

U2: Capital Market - Secondary Market

Teaching Hours: (16)

Development Needs:*National, Regional***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Sustainability*

U2-T1. Secondary markets – Stock Exchange – growth of stock exchange, functions of the stock exchange, Index and Index Calculations (Nifty or Sensex Constituents & Methodology), functions of indices, Major Indices in India, SME platforms: OTCEI lessons vs current BSE SME/ NSE emerge, Meaning and function of Depositories & Depositories participants, Clearing and rolling settlement procedure in Indian Capital markets.

Description

Corporate actions – Dividend – Ex-dividend -record date - book closure date, bonus issue, stock split, reverse stock split and buy backs. SEBI as capital market regulator -Objectives, Functions, Powers, SEBI and government, SEBI guidelines on secondary markets, corporate actions, buyback of shares. Global Market: Global equity market and Indices, Ways to invest in the global markets. Practicals: Opening DEMAT and Trading account, Stock Market data view – Scriptname, Symbol, LTP vs CMP, Bid Ask Price, 52 week high and low, Open, Close, High, Low, Volume, Market Capitalization, Advances and Declines, Face value, Market circuit filters and its application, Case Discussion: Stock Market cases –Harshad Mehta Scam, Ketan Parikh Scam, etc. ,

U3: Money Market**Teaching Hours: (10)****Development Needs:***Local, National***Skill Focused:***Employability, Entrepreneurship***Cross Cutting Issues:***Sustainability*

U3-T1. Money Market and Capital Market, Definition, Features, Objectives, Importance, Composition of Money Market, Money Market Instruments, Structure of Indian Money Market, Features of Indian Money Market, Features of a Developed Money Market, Call Money Market, Recent Developments, the role of RBI and Commercial Banks in the Indian

Description
Money market - The Impact of credit policy of RBI on financial markets, Inflation index, WPI & CPI. Digital money market instruments, RBI's digital initiatives and regulations. Case Study: Inflation and its measures to control. Sustainable Financial Products and Investments

U4: Microfinance**Teaching Hours: (12)****Development Needs:***Local, National***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Human Values, Professional Ethics*

U4-T1. Microfinance – Meaning, definition and conceptual framework and its history– Models of microfinance – Microcredit Vs Micro-savings Vs Microfinance – Microfinance

institutions (MFI) Development of microfinance in India – GOI, RBI, MFDF and NABARD initiatives for development of microfinance in India – Innovative microfinance models in India – Issues faced by microfinance in India-Micro delivery mechanism – case study of SKS MFI and Grameen Bank-NGO and SHG.

Description

Y. H. Malegam committee report on Microfinance – Microfinance and poverty – Microfinance and economic development – microfinance and rural development – microfinance and women empowerment – Microfinance and informal finance sector – Microfinance and small business development.

U5: Technology in Financial Services

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Modern Activities -Sources of Revenue- causes of Financial Innovation – Financial Services and promotions of Industries - Digital transformation and its impact on financial services – Innovation in finance – Fintech, types of fintech companies and their services– Insuretech – Regtech - Regulatory Sandbox of RBI and IRDAI - Treds Platform- Distributed Ledger Technology/Artificial Intelligence in financial service – Automated wealth management/Robo- advisors -

Description

Challenges Facing the Financial Servicesector-Present Scenario.Overview of AIand machine learning in financial services - Applications of AI and machinelearning in financial services - Ethical considerations in the use of AI andmachine learning in financial services - Overview of cybersecurity threats infinancial services -Best practices for cybersecurity in financialservices.Overview of payment systems -Introduction to digital currencies. AI for ESG analytics and sustainablefinance, Reg Tec and Blockchain for green innovations

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: CORPORATE FINANCE

COURSE CODE: COAF202-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Understand the concept, objectives, and scope of corporate finance and the role of the finance manager.

CO2: Apply time value of money concepts to solve practical financial problems.

CO3: Analyse financing decisions through cost of capital, capital structure theories, and leverage analysis.

CO4: Evaluate capital budgeting techniques to apply long-term investment decision-making.

CO5: Evaluate dividend and working capital decisions in corporate financial management.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Curiosity and lifelong learning

Course Content

U1: Introduction to Corporate Finance

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Corporate Finance

Description

Corporate Finance – meaning and definition- Nature and Importance – Objectives- profit maximisation – wealth maximisation – Functions of Finance Manager – Sources of raising finance - long term – short term - problems in financial forecasting. Time value of money – present value of money – concepts- practical problems.

U2: Cost of capital and Capital Structure

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Cost of capital and Capital Structure

Description

Financing Decisions: Sources of long-term financing, Estimation of components of cost of capital, Methods for calculating Cost of Equity, Cost of Retained Earnings, Cost of Debt and

Cost of Preference Capital, Weighted Average Cost of Capital (WACC). Capital Structure-Theories of Capital Structure (Net Income, Net Operating Income, MM Hypothesis, Traditional Approach). Operating and Financial leverage and combined leverage. Practical problems. Determinants of capital structure.

U3: Capital Budgeting

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Capital Budgeting

Description

Long term investment decisions: Capital budgeting - importance – procedure - Factors Determining Capital Budgeting - Steps in Capital Budgeting - Methods of capital budgeting Payback Period Method, Accounting Rate of Return, Net Present Value (NPV), Net Terminal Value, Internal Rate of Return (IRR), Profitability Index – problems in capital budgeting.

U4: Dividend Decisions

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Dividend Decisions

Description

Dividend Decisions: Theories for Relevance and irrelevance of dividend decision for corporate valuation. Walter's Model, Gordon's Model, MM Approach, Cash and stock dividends. Dividend policies in practice.

U5: Working Capital

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Working Capital

Description

Working Capital Decisions: Concepts of Working Capital, Operating & Cash Cycles, sources of short-term finance, working capital estimation, cash management, receivables management, inventory management.

COURSE NAME: INTRODUCTION TO MACHINE LEARNING

COURSE CODE: COAF301-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Apply machine learning tools to aid business decisions

CO2: Apply supervised machine learning algorithms for classification, prediction and forecasting

CO3: Apply Unsupervised machine learning algorithms for clustering and segmentation

CO4: Recall concepts of Reinforcement learning

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail

Course Content

U1: Introduction to Machine Learning

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Introduction to Machine Learning

Description

Data mining and Machine learning – Machine learning and statistics – Data mining and ethics – Green AI and Sustainable Machine Learning – Environmental impact of data-driven models – Energy consumption in data collection, model training, and deployment – Trade-off between model accuracy and computational efficiency – Role of Artificial Intelligence in achieving Sustainable Development Goals (SDGs) – Instances – Attributes and Target – Visualization of data – Data pre-processing – `isnull()` – `dropna` – `fillna` – data scaler – coding text columns to numeric columns – `pd.get_dummies()` – `map()` – `OneHotEncoder()` – Training, Validation and Test data set – Cross validation – Scikit Learn library – Train-Test Split – Stratified Random sampling.

U2: Classification Models

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Classification Models

Description

Classification Algorithms with Scikit Learn library - Logistic Regression - Decision trees - Pruning of a tree - Neural Networks - Structure of an NN - Training a NN- Multi-Layer Perceptron - K Nearest Neighbour classifier and Support Vector Machines- Ensemble methods - Bagging - Boosting - ADA Boosting - Random forest classifier - Gradient Boosting classifier - HistGradientBoosting classifier - catboost classifier - Performance evaluation - Accuracy - Recall - Precision- F1-Score - classification report and confusion matrix - Hyper parameter tuning - GridSearchCV - best score and best parameters from grid search - Feature selection algorithms - Binary and multiclass classification.

Practical exercises: Smoker classification, Admission prediction, Fraud detection, House price prediction , Loan Application processing,

U3: Regression Models**Teaching Hours: (10)****Development Needs:***Global, National***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Sustainability*

U3-T1. Regression Models Regression algorithms - Linear Regression - Random forest regressor - Gradient Boosting Regressor- time series models with time and seasonal dummy variables - forecasting - Time series forecasting with skforecast - metrics for evaluating regression forecast - MSE - MAE - MAPE and R squared. Practical Exercises Airline passenger number forecasting - Sales forecasting - Asset price forecasting
Description

U4: Clustering Algorithms**Teaching Hours: (10)****Development Needs:***Global, National***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***None*

U4-T1. Clustering Algorithms Customer segmentation - customer Clustering - K means clustering - Choosing the number of clusters - Elbow method - Hierarchical Clustering - Incremental Clustering - Probability based clustering - EM Algorithm - Bayesian Clustering. Practical Exercises: Customer Segmentation, Glass Type clustering.
Description

U5: Introduction to Reinforcement Learning**Teaching Hours: (10)****Development Needs:***Global, National***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***None*

U5-T1. Introduction to Reinforcement Learning Concept – creating an agent to learn – reward function – Markov decision processes – sequential decision making under uncertainty – Dynamic Programming – Value function approximation – Policy Gradient methods
Description

U1: Introduction

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U1-T1. Introduction

Description

Evolution, Characteristics, Nature, Types, Functions of Entrepreneur - Distinction between an Entrepreneur and a Manager, Concept, Growth of Entrepreneurship in India, Role of Entrepreneurship in Economic Development. Emerging trends of contemporary entrepreneurship – Determinants of entrepreneurship, creative responses to social challenges; Dimensions of entrepreneurship: intrapreneurship, technopreneurship, entrepreneurship, ecopreneurship, social entrepreneurship.

U2: The Entrepreneurial Skills and Practices

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U2-T1. The Entrepreneurial Skills and Practices

Description

Entrepreneurial myth, motivation for entrepreneurship, Entrepreneurial skills and competencies, entrepreneurial values and attitude; Entrepreneurial risk propensity and ability to cope; Implementing and managing the venture, Harvesting the venture, Design Thinking, Systems Thinking, Agile thinking and Lean thinking Blue Ocean Strategy, Role and relevance of mentors, Incubation cell, Methods of Brainstorming ideas. Types of ventures, Risk and Benefits, Legal and Regulatory Framework, Ethics and Social Responsibility, Market Research (venture opportunity screening), Feasibility Analysis.

U3: Creativity and Innovation

Teaching Hours: (14)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U3-T1. Creativity and Innovation

Description

Creativity, Principles of creativity, Creative Problem Solving: Heuristics, Brainstorming, Syntetic, Value Analysis Innovation and Entrepreneurship: Profits and Innovation, Principles of Innovation, Disruptive, Incremental and Open innovations, Nurturing and Managing Innovation, Globalization, Concept and Models of Innovation, Methods of protecting Innovation and creativity, Significance of Intellectual Property Rights, Patents & Copyright, Business Model Canvas, and Lean Canvas. Geographical Indications (GI), Types, GI Law in India.

U4: Entrepreneurial Process

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U4-T1. Entrepreneurial Process

Description

Introduction to the Business Plan, Opportunity sensing and identification process (cases to be discussed on how business ideas are perceived); Generation of business ideas, feasibility analysis of business ideas, preparation of a business plan (practical work on devising of a plan is to be assigned to the students) in the form of a project report on specific business proposal; Project appraisal and its techniques Developing the Business Model for starting a new venture,

E-Commerce and Growing the Venture: The Internet and its impact on venture development, Approaches to E-Commerce, Strategies for E-Commerce Success, The nature of international entrepreneurship and their importance

U5: Entrepreneurial Sustainability

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U5-T1. Entrepreneurial Sustainability

Description

Entrepreneurial mindset in the contemporary business scenario, family business and entrepreneurship vis-à-vis first generation entrepreneurs (Nascent Entrepreneurship). Social support system for entrepreneurship, public and private system of stimulation; Availability of finance, marketing, technological and managerial support systems; Role of industries association; Entrepreneurs' self-help group, trade and industry associations; Existence of business incubators; Availability of venture capital and angel investors support system; Private equity funds; Startup Action Plan; Make in India initiative.

 Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - IV)
 Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

CO1: To develop basic and communication skills sharpen oral and written skills: By the end of the course, students will be able to engage in basic conversations in French, demonstrating comprehension and correct pronunciation, and write short paragraphs with minimal grammatical errors.

CO2: To enhance knowledge on French culture: By the end of the course, students will be able to identify and describe at least five key aspects of French culture, such as traditions, customs, and social norms, in both oral and written formats.

CO3: To enrich the learner's vocabulary: By the end of the course, students will be able to accurately use at least 200 new French vocabulary words in context, both in speaking and writing.

CO4: To enable learners to engage in and discuss simple topics with ease: By the end of the course, students will be able to participate in simple discussions on everyday topics (e.g., family, hobbies, travel) with fluency and confidence, using appropriate sentence structures.

Sustainability Development Goals (SDG)

Climate action, Good health and well-being, Quality education, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Technological literacy

Course Content

U1: Dossier 4- Nous parlons de notre quotidien

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, None

U1-T1. Indiquer l'heure et les horaires -Parler de nos activités et de nos habitudes quotidiennes. -Parler de notre journée de travail. -Parler de nos sorties -Inviter et accepter ou refuser une invitation

Description

Grammar | Activity | -Quelques articulateurs de temps -L'heure -Les verbes pronominaux - Verbes : Lire, écrire -L'expression de l'habitude, et de la fréquence -Verbes : Choisir, Sortir - Poser des questions L'impératif | Tache finale : Organise an outdoor activity, a day in nature. |

U2: Dossier 5 Nous nous informons en français

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender

U2-T1. ▪ Raconter des événements passés ▪ Parler d'expériences ▪ Comprendre des informations biographiques ▪ Décrire physiquement une personne ▪ Donner des conseils.

Description

- Le Passé Composé avec avoir ▪Le Passé Récent ▪Le Futur Proche ▪Être/ Avoir+ Adjectif
- L'impératif Présent | Create a virtual space to describe a stranger. |

U3: Étape 6 Nous rêvons d'aller dans un pays francophone

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Sustainability

U3-T1. ▪ Comprendre le programme d'un séjour. ▪ Choisir une destination et une formule de voyage ▪ Caractériser une ville ▪ Décrire un hébergement ▪ Parler des saisons.

Description

- Les adjectifs qualificatifs ▪Des structures pour parler du climat ▪Le Futur simple ▪Le pronom Y |
- Organise a virtual tour to a Francophone country. |

EXAMINATION PATTERN

COURSE NAME: FRENCH

COURSE CODE: FRE181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1

CIA1:20 marks-Written test on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge. (Mapped to CO2 and CO3)

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

- ☐ All questions are multiple-choice (1 correct option out of 3 or 4).
- ☐ No negative marking.
- ☐ Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.
- ☐ Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA - 2(Mid SemExam):50 marks -Writtenexam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. Learners are required to attempt SEC -A containing grammar, Section B- Containing comprehension, civilization and translation and Section C containing Writing comprehension. The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.CO1, CO2 and CO 3 would be covered for MSE.

MSE is scheduled in August ,2026.

CIA - 3

CIA3:20 marks– Creative Assignment on Oral Competence.

Assignment type- Group of 3/4, Formative

Outcome: Learners will be able to apply their spoken French knowledge and listening competence. (Mapped to CO1, CO3 and CO4)

Evaluation Criteria:

- 1.Pronunciation & Intonation – (4)
- 2.Vocabulary Use – (4)
- 3.Grammatical Accuracy – (4)
- 4.Fluency & Coherence – (4)
- 5.Comprehension & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern

- Section A – Grammar –20 marks
- Section B – Civilization, translation, reading comprehension - 15marks
- Section C - Writing skills include – dialogue, email, invitation letter, essay- 15 marks

Course learning Outcomes

CO1: Explain the role of oral tradition in the evolution of Hindi and demonstrate functional use of Hindi in public and professional domains using the Devanagari script.

CO2: Describe the basic framework of India's language policy and analyze the significance of Hindi as a link language in a linguistically diverse society.

CO3: Understand and apply the concept, process, and types of translation while evaluating the quality, issues, and challenges involved in translation practices.

CO4: Communicate effectively in Hindi in oral and written forms for academic, social, and workplace contexts.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Hindi language

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Oral Traditions of Hindi

Description

Learn how Hindi was shared through stories, songs, and spoken words before writing. Students will explore simple examples of folk tales and poems.

U1-T2. Language Policy and Hindi (Basic Overview)

Description

Simple explanation of how Hindi is recognized and used in India, including its role in government, education, and communication

U1-T3. Devanagari Script

Description

Introduction to the Hindi script, learning letters (vowels and consonants) and simple words. Focus on reading and writing basics.

U1-T4. Hindi in Academic Writing

Description

Learn to write simple Hindi for school or academic use, including notices, short stories, paragraphs, and summaries. Focus on clear and correct writing

U1-T5. Link Language, Dialects of Hindi

Description

Learn how Hindi acts as a bridge language to connect people from different regions of India.

Focus on easy phrases for conversation

U2: Translation

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Translation Translation - Concept and processes Types of translation Qualities required for a Translator Issues and challenges in Translation, translation practice.**Description**

This unit introduces students to the theory and practice of translation with a focus on developing foundational translation skills. Students will study the concept of translation, its objectives, and the various stages involved in the translation process. Different types of translation will be discussed, along with the essential qualities and competencies required of a translator. The unit also examines common issues and challenges faced in translation, such as linguistic, cultural, and contextual difficulties. Practical translation exercises will help students apply theoretical knowledge and improve accuracy, clarity, and equivalence between source and target languages.

U3: Communicative Hindi

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Communicative Hindi**Description**

This unit aims to enhance students' practical communication skills in Hindi for real-life and professional contexts. Emphasis is placed on public speaking in Hindi, day-to-day communication, and effective voice modulation. Students will be trained in spoken Hindi through interactive activities, including role plays and voice-over practice. The unit also includes micro-presentation exercises to develop confidence, fluency, and clarity of expression. Overall, the unit focuses on improving oral communication skills and functional language use in Hindi.

EXAMINATION PATTERN

COURSE NAME: BASIC HINDI

COURSE CODE: HIN181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1: Oral quiz or viva, or short class test to assess students' understanding of basic Hindi.

CIA-2: Mid-Semester Examination

CIA-3: Viva, class test or interactive quiz to evaluate translation and communicative Hindi skills.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End-Semester Examination

Course name- Basic Hindi

Course Code-HIN181-4

Paper 2 - Hindi

Max. Time: 2 Hrs Max. Marks: 50

Section	Subject Title	Types of Questions	Choice	Marks

 Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

CO1: Develop critical and interpretative abilities to analyze modern Hindi short stories with reference to social, cultural, political, and marginalized perspectives.

CO2: Examine and interpret the thematic, narrative, and technical elements of Hindi films by engaging with cinema as a visual and cultural text..

CO3: Demonstrate creative and expressive competence in Hindi by producing original poems, short stories, or creative essays that respond meaningfully to contemporary social issues.

Sustainability Development Goals (SDG)

Gender equality, No poverty, Peace, justice and strong institutions, Reduced inequalities, Zero hunger

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Empathy and active listening, Motivation and self-awareness

Course Content

U1: UNIT 1 STORIES

Teaching Hours: (20)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Sustainability

U1-T1. Essential reading : Samakaleen katha sanchay edited by Dr Sebastian K A & Dr Deepak Kumar Gond
STORIES 1 Malbe ka maalik 2 Dilli mein ek mouth 3 Mein haar gayi 4 Pita 5 Salam 6 Mousa ji 7 Tangnazar 8 Ek roomal ek anguthi ek chalni

Description

This unit introduces advanced learners of Hindi to select modern Hindi short stories that reflect complex social, political, and cultural realities of contemporary India. The prescribed texts include 'Malbe ka Malik' by Mohan Rakesh, which explores the trauma of Partition (Vibhajan ki Samasya), and 'Delhi Mein Ek Maut' by Kamleshwar, focusing on urban alienation and metropolitan tragedy (Mahanagariya Visangati). 'Main Haar Gayi' by Mannu Bhandari examines political consciousness and individual conflict, while 'Salam' by Omprakash Valmiki foregrounds Dalit experience and caste-based oppression. Pita by 'Gyanranjan' presents the struggle of marginalized communities (Pithiyon ka Sangharsh), and 'Mausaji' by Uday Prakash

highlights the tension between imagination and reality (Kalpana aur Yatharth ka Dwandv). 'Ek Rumaal, Ek Anguthi, Ek Chalni' by Amrita Pritam explores themes of incomplete love and women's issues (Adhoori Mohabbat aur Stri Samasyayen), while 'Tang Nazar' by Mahendra Bhishm introduces transgender discourse (Transgender Vimarsh). Through critical reading and analysis of these narratives, the unit aims to enhance students' interpretative skills, deepen socio-literary awareness, and develop an advanced understanding of modern Hindi prose and its engagement with contemporary issues.

Hours : 5

Level of knowledge: Analytical

U2: Film studies

Teaching Hours: (5)

Development Needs:

Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Sustainability

U2-T1. 12 th fail, Lunch box, English- Vinglish, Dangal Queen

Description

This unit introduces students to the study of select contemporary Indian films as cultural texts, focusing on their narrative structures, themes, character development, and socio-cultural significance. The prescribed films-The Lunch Box, 12th Fail, Dangal, Queen, and English Vinglish-will be studied for their representation of everyday life, education and perseverance, gender roles, self-identity, empowerment, and social transformation. Through guided classroom discussions, students will analyze cinematic techniques such as storytelling, visual symbolism, dialogue, and characterization. The unit adopts an interactive teaching pedagogy that includes film screening, selected clip presentations, group discussions, and critical interpretation to enhance analytical and communicative skills. Students will be encouraged to relate film narratives to contemporary social realities and literary concepts. For assessment, students will be provided with options in the examination, allowing them to answer questions based on any of the prescribed films, thereby promoting critical thinking, choice-based learning, and independent interpretation.

Hours : 5

Level of knowledge: Conceptual

U3: Creative Writing

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Social Media Writing

Description

This unit aims to develop students' creative expression and imaginative writing skills through guided practice in various literary forms. Students will be given simple and socially relevant topics, based on contemporary social issues, and will be encouraged to respond creatively by

writing a poem, short story, or creative essay, according to their choice and aptitude. Emphasis will be placed on originality of thought, clarity of expression, thematic coherence, and effective use of language. The unit seeks to foster critical awareness of social realities while enabling students to articulate personal perspectives through creative modes of writing. Through this process, students will enhance their linguistic competence, creative confidence, and ability to engage meaningfully with social issues using literary expression.

Hours: 5

Level of Knowledge ; Analysis

Essential Reading

Samakaleen Katha sanchay – (collection of stories)

edited by: Dr. Sebastian K A & Dr. Deepak Kumar Gond

EXAMINATION PATTERN

COURSE NAME: HINDI ADVANCED

COURSE CODE: HIN281-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

The evaluation and assessment will be based on Continuous Internal Assessments and an End Semester Examination.

CIA 1 - Will be Hindi Wikipedia -Project (1) and Seminar (20)

CIA 2 - Mid-semester Examination (50 marks)

CIA 3 -Will be Hindi Wikipedia- Project and Seminar (2) (20 marks)

CIAs and attendance will have 50% weight

The end semester examination will have 50% weight.

The final grade will be weighted average of ESE and CIAs.

Late submission of assignments will be accepted only with prior notice and only under truly exceptional circumstances.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End-Semester Examination

4 Sem - BA/ B.SC/ BCOM

Course Code-HIN281-4

Paper - Hindi

Max. Time: 2 Hrs Max. Marks : 50

Section	Subject Title	Types of Questions	Choice	Marks
A	Stories	Essay types question	3 questions	3x10=30
B	Film studies	Descriptive type	1 out of 2	1x10=10
C	creative writing social media writing/ blog	1 question	1	1x10= 10

Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - IV)

Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

- CO1: Remember and write the Kannada vocabulary
- CO2: Understand words and write Kannada meaning
- CO3: Evaluate text and create the sentences
- CO4: Apply the language to the context

Sustainability Development Goals (SDG)

Quality education

21st Century Skills

Technological literacy

Course Content

U1: Syntax: Sentence Formation

Teaching Hours: (15)

Development Needs:

Local, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Syntax: Sentence Formation

Description

Names of the week, month, time, measures, fruits, vegetables, colors in Kannada

Question form; Question tag

Negation

Opposite words for nouns and verbs.

Translation of simple sentences from English to Kannada and vice versa

U2: Conversational activity in various contexts: script writing, Skit based activity

Teaching Hours: (15)

Development Needs:

Local, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U2-T1. Conversational writing activity for the various contexts

Description

Greetings forms in Kannada for the different Occassions : Festival, Birthday and other special occasions.

Self Introduction – writing a small passage.

Conversation with the Guests visit to home, Auto Drivers, Vegetable and fruits Vendors.

Essential Reading

1.Muddu Kannada: R. L. Anantharamiah

2.Tili Kannada- K.S. Madhusudana & H.N. Muralidhara

3.Conversational Kannada: N D Krishnamurthy & Dr. U P Upadhyaya

EXAMINATION PATTERN

COURSE NAME: FOUNDATION KANNADA

COURSE CODE: KAN181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

The evaluation and assessment will be based on Continuous Internal Assessments, written exam and submission.

CIA 1 : First written test to test their writing ability (Vocabulary) - 20 Marks

CIA 2: Second written test to test their writing ability (MSE) – 50 Marks

CIA 3: Four Small Passage writing and submission.- 20 Marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

SECTION A Two and Three Marks 1. Kannada Varnamale, Vowels, Divided Consonants, Undivided Consonants, Nasal letters 2. Kaagunita 3. Gunitaaksharagalu 4. Kannada digits 5. Time 6. measure or weight in Kannada) 7. Kannada days 8. Months in Kannada 9. Vegetables Names 10. Fruits Names SECTION B Four Marks 1. Fruits names in Kannada 2. Color names in Kannada SECTION C Five Marks 1. Question Form, Question Tag, Translate the Sentence from Kannada to English and Vice-Versa 2. Negative forms 3. Fill in the blanks according to the Instructions 4. Opposite's words/Phrases 5. Conversational writings

U1-T1. Kappiyam – Silappathigaram- Purancheri Iruthak kathai. SANGAM LITRETURE – Natrinaip Paadalgal. (poetry). 1.Kurinchi thinai 01. 2. Kurinchi thinai - 393 3.Mullai thinai 169. 4.Mullai thinai 367. 5. Marutha thinai 70. 6.Neithal thinai 172.

Description

Silappathigaram – Purancheri Episode & Natrinai Poems – Description (150 words):

Silappathigaram , one of the five great Tamil epics, tells the powerful tale of Kannagi. The Purancheri episode describes her arrival in Madurai, seeking justice for her wrongly executed husband, Kovalan. This part highlights her inner strength, grief, and righteous anger, ultimately leading to divine justice and moral reflection in society. It combines deep emotion with epic grandeur, suitable for six hours of focused reading or analysis.

The Sangam literature , particularly Natrinai, is a classical Tamil anthology of love poems organized by landscapes (thinai). Each landscape symbolizes a specific phase of love:

- Kurinchi (mountainous – joyful union)
- Mullai (forest – patient waiting)
- Marutham (farmland – domestic life)
- Neithal (seashore – longing)
- Paalai (desert – separation and hardship)

These selected poems (e.g., Kurinchi 1 & 393, Mullai 169 & 367) reveal emotional depth, cultural imagery, and human experiences, offering a poetic journey through ancient Tamil life and love.

U2-T1. Novel – Aathankarai Oram – By V.Iraianbu, published by NCBH ,Chennai.

Description

Aathankarai Oram (The Riverbank) is a thought-provoking Tamil novel written by Dr. V. Iraianbu and published by NCBH, Chennai. The novel explores the intricate journey of human life, using the flowing river as a powerful metaphor for time, change, and inner reflection. Set against a rural backdrop, it delves into themes such as human relationships, self-realization, and the moral dilemmas individuals face while navigating life's uncertainties. The riverbank symbolizes the threshold between choices and consequences, dreams and reality. Through simple yet profound storytelling, Iraianbu crafts characters who are emotionally layered and socially grounded. His narrative style combines literary elegance with philosophical insight, making the novel both accessible and intellectually rich. Aathankarai Oram is not just a story but a journey of introspection, encouraging readers to pause and think about the direction of

their own lives. It's a deeply reflective work that resonates with readers across age groups and backgrounds.

U3-T1. – Ani Ilakkanam.

Description

Ani Ilakkanam is the study of prosody and poetic meters in classical Tamil literature. It focuses on the rhythmic and structural patterns of Tamil poetry, defining how verses are composed and measured. This branch of Tamil grammar analyzes syllable length, stresses, and the arrangement of words to create musicality and harmony in poems. Ani Ilakkanam includes rules about various metrical forms like venpa, aciriyam, and kalithurai. It plays a crucial role in preserving the traditional poetic art by guiding poets to maintain meter and sound patterns, ensuring the aesthetic quality of Tamil classical and Sangam literature.

U4-T1. Letter Writing

Description

Letter writing is an essential part of the language syllabus, focusing on developing written communication skills. It is usually divided into two main types:

3. Formal Letters – Used for official purposes, such as applications, complaints, requests, and business correspondence. These follow a structured format with clear, concise language and a professional tone.

3. nds, family, or acquaintances. These letters are personal in tone and follow a more relaxed

style.

The syllabus covers:

- Format (sender's address, date, greeting, body, closing)
- Tone and language appropriate to the type
- Clarity, coherence, and purpose
- Grammar and spelling accuracy

EXAMINATION PATTERN

COURSE NAME: TAMIL (ADVANCED)

COURSE CODE: TAM281-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Pattern

The evaluation and assessment will be based on Continuous Internal Assessments and an End Semester Examination.

CIA 1 -Project/ Assignment submission

CIA 2 - Mid-semester Examination

CIA 3 - Project/ Assignment submission

CIA 's and Attendance will have 50% weight

The End semester Examination will have 50% weight

The final grade will be weighed with the average of ESE and CIAs.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Course Code- TAMAdvanced281-4

BA/B.Sc/B.Com - Paper IV – TAMIL Advanced Fourth semester.

Max. Time: 2 Hours Question Paper Pattern Max. Marks: 50
Section Subject Title Types of Questions Choice Marks
A poetries Short Answers with Choice 3X6=18
B Prose Descriptive Answers With Choice 2x9=18
C Grammar short Answers With Choice 3X3=09
D Language skill- Letter Writing Descriptive Answer No Choice 1X5=05
Total Marks 50

COURSE NAME: DATABASE MANAGEMENT SYSTEM AND STRUCTURED QUERY LANGUAGE

COURSE CODE: COAF201-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Understand the fundamentals of database systems and their role in modern information management.

CO2: Develop a solid foundation in relational database design and management, including the use of Entity- Relationship models, normalization, and SQL.

CO3: Create and modify relational database schemas using SQL by applying key constraints, foreign key constraints, and general constraints to ensure data integrity.

CO4: Analyze data using SQL queries with expressions, set operations, nested queries, and aggregate functions.

CO5: Analyze the behavior and impact of NULL values in SQL queries involving comparisons, logical operators and outer joins.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Databases and Transactions

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction to Databases and Transactions

Description

Data Management – Databases Vs Relational Databases - File Systems Vs DBMS Vs RDBMS – Levels of Abstraction in DBMS – Queries; Transaction Management: Concurrent Execution of Transactions – Incomplete Transactions and System Crashes; DBMS Structures

U2: Database Design (Theory and Practical)

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Database Design (Theory and Practical)

Description

Database Design and ER Diagrams – Entities, Attributes and Entity Sets – Relationships and Relationship Sets; Key Constraints, Participation Constraints, Weak Entities, Class Hierarchies, Aggregation; Conceptual Designs with ER Models – Unified Modelling Language - PMML

U3: Relational Models and Relational Algebra (Theory and Practical)

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Relational Models and Relational Algebra (Theory and Practical)

Description

Creating and Modifying Relations Using SQL – Key Constraints, Foreign Key Constraints, General Constraints – Enforcing Integrity Constraints – Querying Relational Data – Logical Database Design – Views, Data Independence, Security – Destroying/ Altering Tables and Views; Relational Algebra: Selection – Projection – Set Operations – Renaming – Join – Division – Tuple Relational Calculus – Domain Relational Calculus – Expressive Power of Algebra and Calculus

U4: SQL Queries (Practical)

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U4-T1. SQL Queries (Practical)**Description**

Basic SQL Queries – Expressions and Strings in the SELECT Command – Union, Intersect and Except – Nested Queries: Introduction, Correlated Nested Queries, Set-Comparison Operators; Aggregate Operators: GROUPBY and HAVING Clauses

U5: Null Values, Constraints, Triggers (Practical)

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Null Values, Constraints, Triggers (Practical)**Description**

Null Values: Comparisons, Logical Connectives AND OR NOT, Impact and SQL Constructs, Outer Joins, Disallowing Null Values; Complex Integrity Constraints in SQL: Constraints Over a Single Table – Domain Constraints and Distinct Types – Assertions: ICs Over Several Tables; Triggers and Active Databases – Designing Active Databases: Constraints Vs Triggers – Uses of Triggers.

COURSE CODE: COAF202-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Understand the basic concepts of taxation and definitions

CO2: Apply the residential status provisions to determine the residential status individuals

CO3: Compute income from salary and income from house property

CO4: Apply the provisions to compute Business income and income from other sources

Sustainability Development Goals (SDG)

Decent work and economic growth, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Introduction to Income Tax and Basis of Charge

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Income Tax and Basis of Charge: Concept of Income Tax-Finance Bill & Act; Definitions: Assessee, Person, Assessment year, Previous year, Income, Total Income and Agricultural Income – Concept of Capital & Revenue - Receipts, Payments (Expenditure). Charge of Income - Tax Description

U2: Basis of Charge and Exempted Income

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Basis of Charge and Exempted Income: Charge of Income - Tax Residence Status of Individuals - Scope of Total Income - Income deemed to be received - Income Deemed to accrue or arise in India – Computation of total income based on Residential Status. Income not included in Total Income u/s 10: Fully exempted and partly exempted incomes. Description

U3: Incomes from Salary

Teaching Hours: (14)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Incomes from Salary: Brief introduction – Income from Salary – Definition; Characteristics of Salary Income; Computation of Salary Income – Basic Salary – Allowances – Perquisites - Retirement benefits - Gratuity, Pension and Leave Encashment, Deduction from Gross Salary u/s 16 – Computation of income from salary.

Description

U4: Income from House Property

Teaching Hours: (12)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Income from House Property: Meaning – Types of House Properties - Annual value Determination in different situations: House- treatment of unrealized rent and vacancy- Deductions u/s 24, Computation of Income from House Property.

Description

U5: Profits and Gains from Business and Profession

Teaching Hours: (12)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Profits and Gains from Business and Profession: Computation of Income under this head - Allowable Expenses - Expenses expressly disallowed - Problems relating to business (sole trader only) and Problems on profession relating to Chartered Accountant, Advocate and Doctor.

Description

U6: Incomes from Other Sources

Teaching Hours: (6)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

U6-T1. Incomes from Other Sources: Meaning and Explanation – Various Incomes which are falling under this head – Deductions allowed – Expenses Not Deductible – Computation of Income.

Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: INVESTMENT MANAGEMENT

COURSE CODE: COAF301-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Explain basic investment concepts and compare major investment avenues, including money market, fixed-income, equity, mutual funds, and insurance.

CO2: Analyse risk-return relationships and compute expected return, variance, standard deviation, and beta using basic methods.

CO3: Apply fundamental (EIC) analysis and technical analysis tools such as trends, patterns, indicators, and theories for investment decisions.

CO4: Perform bond and equity valuation using bond pricing models, YTM/YTC, and dividend discount models.

CO5: Evaluate and Construct portfolios using MPT, CAPM, index models, and optimal portfolio selection techniques.

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure, Reduced inequalities

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Investment Management

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning of investment-Investment vs speculation, gambling -Reasons for investing - Essential qualities of a good investment Programme - Contrary thinking - Patience composure Factors influencing the investment decision - Common Errors in Investment Management - Investment Schemes: Non-Marketable Financial Assets: Bank Deposits- Company Deposits- Post-Office Deposits Schemes- Employees Provident Funds. Money Market Investments: Treasury Bills- Certificate of Deposits- Commercial Papers- Description

Commercial Bills. Fixed Income Securities: Govt. Securities- RBI Relief Bonds-debentures- Public Undertakings Bonds- Preference Shares- Equity Shares- Mutual Fund Schemes- Life Insurance Schemes

U2: Risk- Return Analysis

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Risk and Return: Risk and uncertainty; causes of risk; types of risk - systematic and unsystematic risk; expected risk- return trade-off; calculation of expected return - ex-ante and ex-post returns; measurement of risk - variance and standard deviation; beta estimation using correlation and regression methods; basic numerical problems.

Description

U3: Fundamental Analysis and Technical Analysis

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Economy Analysis - Meaning, Key economic variables, Industry Analysis -Meaning, Industry life cycle, characteristics of industry and Porter's model, Company Analysis - Analysis of financial statements, future prospects of a company, Technical Analysis - Meaning and basic principles of technical analysis - Trends and Chart patterns - Eliot wave theory - Dow Theory - support and resistance level - different types of Charts - Mathematical indicators and Market indicators.

Description

U4: Equity and Bond Valuation

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Security valuation: Bond Valuation- fundamentals – Holding period return - current yield, Bond Valuation Models with a maturity period, Bonds redeemable in installments, Bond values with semi-annual interest and Bonds in perpetuity, Bond pricing theorems, Yield to Maturity (YTM) and Yield to Call (YTC), Equity valuation: Discounted cash flow methods, Dividend discount models – Single period model, multi-period model, Constant growth model, and Two-stage growth model

Description

U5: Portfolio Management

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

U5-T1. Meaning - Efficient market theory -The Portfolio Management Process- Risk and Return -MPT and Dominance concept- Asset Allocation: Process - Types of asset allocation - Management style - Different approaches to allocation decision - Portfolio diversifications - Feasible set of portfolios - Efficient set of portfolios - Selection of optimal portfolio. Portfolio Construction Markowitz model and its limitations, the sharp Index model Single index model

Description

. Measuring security and portfolio's return and risk under single index model. Capital Asset Pricing Theory, Assumptions, Efficient frontier - SML and CML (problems), Pricing of securities with CAPM and its arbitrage theory. Sharpe's Optimal Portfolio (problems). Green Portfolio - ESG-based sustainable investment portfolio and its relevance to risk-return analysis.

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics, Sustainability

U4-T1. HRM 4.0 and Electronic HRM Environment

Description

HRM 4.0 (People Trends): Gig Economy and Remote Work – Generational Shifts (Gen Z and Millennials) – Alternative Workforce Management – People Analytics and Workforce Analytics (Overview). HRM 4.0 (IT Trends): AI and RPA Enabled Automation – Chatbots, Virtual Reality and Augmented Reality in HRP – Employee Experience Platform – HR Guidance -Real-Time Performance Feedback Cost Control Techniques: Reengineering –Downsizing – Outsourcing – Offshoring.

U5: Electronic HRM Applications

Teaching Hours: (15)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U5-T1. Electronic HRM Applications**Description**

EHRM Concepts: Meaning, Objectives, Functions, Types (Operational E-HRM, Relational E-HRM, Transformational E-HRM), Outcomes; Virtual HRM: Meaning, Driving Forces; E- HRM Applications: HRM Functional Applications - Integrated HRM Suite Applications - Interactive Voice Response (IVR) Systems – Employee Portals.

Essential Reading

1. Kotler, P. Kartajaya, H. and Setiawan, I.(2022) Marketing 4.0. Wiley.
2. Mello, Jeffrey A. (2020). Strategic Human Resource Management (2nd ed.). India: Thomson South Western.

EXAMINATION PATTERN

COURSE NAME: DIGITAL MARKETING AND HUMAN RESOURCES APPLICATIONS

COURSE CODE: COAF201-6

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: DEEP LEARNING AND NATURAL LANGUAGE PROCESSING

COURSE CODE: COAF301-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Understand the fundamental concepts of deep learning and neural networks and apply them to solve problems in natural language processing.

CO2: Apply a neural network for classification and regression tasks.

CO3: Use Python libraries such as NumPy, Pandas, TensorFlow, and Keras to implement deep learning models for NLP tasks.

CO4: Build and train neural networks for tasks such as binary classification, image recognition, text classification, sentiment analysis, and text generation

CO5: Understand the role of optimization techniques such as stochastic gradient descent and backpropagation in deep learning.

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Deep Learning and TensorFlow

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction to Deep Learning and TensorFlow

Description

Level of knowledge: Conceptual and Analytical

Introduction to Deep Learning and TensorFlow - Neural Network - Understanding Neural Network Model - Installing TensorFlow - Simple Computation, Constants, and Variables - Types of file formats in TensorFlow - Creating A Graph - Graph Visualization - Creating a Model - Logistic Regression Model Building using TensorFlow - TensorFlow Classification Examples Introduction to TensorFlow Installing- TensorFlow Simple Computation, Contents and Variables Types of file formats in TensorFlow.

U2: Neural Network

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Neural Network

Description

Level of knowledge: Conceptual and Analytical

Basic Neural Network - Single Hidden Layer Model - Multiple Hidden Layer Model - Backpropagation – Learning Algorithm and visual representation - Understand Backpropagation – Using Neural Network Example TensorBoard - Convolutional Layer Motivation Convolutional Layer Application. The architecture of a CNN Pooling Layer Application - Deep CNN - Understanding and Visualizing a CNN - Application use cases of RNN - Manual Creation of RNN Long Short Term Memory (LSTM) And GRU- theory Restricted Boltzmann Machine(RBM) - Autoencoders Collaborative Filtering with RBM Dimensionality Reduction with Linear Autoencoder.

U3: Natural Language Processing

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Natural Language Processing

Description

Level of knowledge: Conceptual and Analytical

Text Analytics - Introduction to NLP - Use cases of NLP algorithms - NLP Libraries - Need for Textual Analytics - Applications of NLP - Word Frequency Algorithms for NLP Sentiment Analysis. - Text Analysis - Distance Algorithms used in Text Analytics - String Similarity - Cosine Similarity Mechanism - The similarity between two text documents - Levenshtein distance - measuring the difference between two sequences.

U4: KNN

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. KNN

Description

Level of knowledge: Conceptual and Analytical

Information Retrieval Systems Information Retrieval – Precision - Recall,F- score TF-IDF KNN for document retrieval - K-Means for document retrieval - Clustering for document retrieval – uses of NLP – sentimental analysis for marketing – language identification.

U5: Text Pre Processing Techniques and Stemming

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Text Pre Processing Techniques and Stemming**Description**

Need for Pre-Processing - Various methods to Process the Text data - Tokenization, Challenges in Tokenization - Stopping, Stop Word Removal - Stemming - Errors in Stemming - Types of Stemming Algorithms - Table Lookup Approach - N-Gram Stemmers

EXAMINATION PATTERN

COURSE NAME: DEEP LEARNING AND NATURAL LANGUAGE PROCESSING

COURSE CODE: COAF301-6

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

ASSESSMENT TYPE | ASSESSMENT TEMPLATE | 100 PERCENT CIA: 0 PERCENT ESE | CIA-II 50D:
CIA OVERALL-50D |

COURSE NAME: RISK MANAGEMENT & DERIVATIVES

COURSE CODE: COAF302-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Identify and assess risks using various techniques and frameworks and Understand the types of derivatives, including forwards, futures, options, and swaps, and their participants and functions.

CO2: Analyze the functioning of the futures and forward markets, including margin requirements, mark to margin, and settlement of future contracts.

CO3: Evaluate options contracts, option pricing, and Option strategies.

CO4: Evaluate the Option pricing models and implications of option Greeks.

CO5: Apply interest rate swaps in the Indian context for asset-liability management and ethical management of operational, credit, market, and liquidity risks.

Sustainability Development Goals (SDG)

Decent work and economic growth, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Risk Management & Derivatives

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Risk in Business, Specific Risks in Financial Services, external sources of risk and their potential impact on a business: economic, political, competitive environment, social and market forces, technological including cyber security, shocks and natural events, external stakeholders and third parties. Types of Risk (Market, Credit, Operational, Liquidity, Climate and ESG Risks), Risk Management Frameworks and Approaches, Risk Identification and Assessment Techniques.

Description

Definition – Types of derivatives- forwards, futures, options, and swaps- Participants and Functions- Development of Exchange-traded derivatives- Global derivatives markets- Exchange traded vs OTC derivatives markets- Weather and climate derivatives - Derivatives trading in India- Requirements for a successful derivatives markets, Misuse and criticism of derivatives Myths about derivatives. Risk Management in AI and Role of AI in Sentiment Analysis.

U2: Introduction to Futures & Forwards

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Forward & future contract: Meaning – evolution – features – differences –types – Futures market in India, specification of future contract and terminology. – Margin requirement – Mark to Margin – Market lot – Tick size –Problems related to calculation of margin balances. Futures and forward valuations (problems) – Hedging using futures (Problems) – Basic concepts in future pricing – Basis, the repo rate, arbitrage, spread and convergence.

Description

Settlement of future contract. Significance of future market. Theories (Approaches or Models) of future prices – Cost to carry approach – The expectation Approach – The Normal Backwardation approach.

U3: Option Pricing and strategies

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Introduction to Options contracts –basic principles. Types of options – Basic concepts or Terms used in Option trading – Options terminology. Open Interest Analysis. Trading and settlement of options. Difference between option and futures. Options pricing – Determinants of Option Pricing – Upper and Lower limits of option pricing – In the Money – at the money and out of the money. Options Strategies – Bull Spread, Bear Spread, Butterfly Spread, Strangle and Straddle (Problems).

Description

Hedging & Trading strategies involving options.

U4: Option Valuation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Meaning of valuation of options contracts – different models – Binomial Option Pricing Model (BOPM) – meaning – types – valuation using one step binomial model (Problems) – Black and Scholes Model (BSM) – meaning – different constructs in BSM – valuation of option contracts (Problems), Option Greeks – meaning – types – importance .

Description

U5: Swaps and Risk Management

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Swaps-Meaning - History of swaps in India – types of swaps - mechanics of interest rate swaps using the swap to transform a liability – using a swap to transform an asset – advantages and disadvantages of swaps – valuation of interest rate swaps Operational Risk Framework: - Identification - Assessment and Measurement,. Credit Risk: Identification - key components of credit risk and how they arise: counterparty risk, issuer risk, and concentration risk.

Description

Identification of Market Risk, different types of market risk: volatility risk, liquidity risk, currency risk, basis risk, Interest rate risk, commodity risk, equity risk. Market Risk Management: techniques and their application in managing market risk: hedging, market risk limits diversification. Value-at-Risk (VaR) approach to managing market risk. Identification of Liquidity Risk: constituents of liquidity risk and how they can arise within the contexts of credit, market, investment and operational risk. Measurement of Liquidity Risk: funding liquidity risk analysis: liquidity gap analysis, stress testing, expected future funding requirement, AI-Enabled Risk Management.

Essential Reading

Vohra & Bagri (2003). Futures and Options. Tata McGraw-Hill Education

Srivastava,R.(2010). Derivatives and Risk management. IOU India.

EXAMINATION PATTERN

COURSE NAME: RISK MANAGEMENT & DERIVATIVES

COURSE CODE: COAF302-6

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I 20 Marks, CIA II 50 Marks, CIA III 20 Marks

Assessment Component Description Marks CIA I Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. 20 CIA II Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ 50 CIA III Group work consisting of presentations- Viva voce- and report submission. 20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE 100 Marks

Written examination conducted for 3 hours duration: Sections Type Marks A Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks $7 \times 5 = 35$ B Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) $5 \times 10 = 50$ C Case Study (Compulsory) $1 \times 15 = 15$

COURSE NAME: TAXATION LAWS -II

COURSE CODE: COAF303-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Apply the provisions to compute taxable capital gains

CO2: Apply the Clubbing and setoff provisions to compute total income of an assessee.

CO3: Calculate the total income for tax purposes and estimate the tax liability of an Individual.

CO4: Calculate the transaction value and GST liability, Input tax credit

Sustainability Development Goals (SDG)

Decent work and economic growth, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Capital Gains

Teaching Hours: (10)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Capital Gains

Description

Capital Asset – inclusions/exclusions; Short Term Capital Asset; Long Term Capital Asset, Definition of Transfer, Transactions not regarded as transfer (relevant to individuals only); Computation of LTCG and STCG, indexation benefit and exemption with reference to sections 54, 54B, 54D, 54EC, 54ED, 54F, 54G; Sec 54H (Basic Problems only)

U2: Clubbing of Income and Set off and Carry forward of losses

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Clubbing of Income and Set off and Carry forward of losses

Description

Income of other Persons - Included in Assessee's Total Income. Set off of losses -Different sources under the same head of income - Sources from different heads of income (Including problems)

U3: Computation of Total Income and Tax Liability

Teaching Hours: (12)

Development Needs:*Local, National, Regional***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Professional Ethics***U3-T1. Computation of Total Income and Tax Liability****Description**

Deduction from Gross Total Income u/s 80C- 80CCC - 80CCD - 80D - 80DD - 80DDB - 80E - 80G - 80GG - 80GGA-80QQB-80RRB-80TTA - 80U. Computation of Total Income and Tax Liability. Assessment - types of assessment, Return of Income - types of returns

U4: Introduction to Goods and Services Tax (GST)**Teaching Hours: (10)****Development Needs:***Local, National, Regional***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Professional Ethics***U4-T1. Introduction to Goods and Services Tax (GST)****Description**

Objectives and basic scheme of GST, meaning - Salient features of GST - Subsuming of taxes - Benefits of implementing GST - Constitutional amendments - Structure of GST (Dual Model)- Central GST - State / Union Territory GST - Integrated GST - GST Council: Structure, Powers and Functions, Provisions for amendments. Important Definitions - Aggregate turnover, Adjudicating authority, Agent, Business, Capital goods, Casual taxable person, Composite supply, Mixed supply, Exempt supply, Outward supply, Principal supply, Zero Rate Supply, Concept of OIDAR, Place of supply, Supplier, Goods, Input service distributor, Job work, Manufacture, Input tax, Input tax credit, Person, Place of business, Reverse charge, Works contract, Casual taxable person, Non-resident person, Export of goods / services, Import of goods / services, Intermediary.

U5: Procedure and Levy Under GST**Teaching Hours: (12)****Development Needs:***Global, Local, National, Regional***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Professional Ethics***U5-T1. Procedure and Levy Under GST****Description**

Registration under GST: Procedure for registration, Persons liable for registration, Persons not liable for registration, Compulsory registration, deemed registration, Special provisions for Casual taxable persons and Non-resident taxable persons, Exempted goods and services - Rates of GST. Composition scheme

Procedure relating to Levy: (CGST & SGST): Scope of supply, Tax liability on Mixed and Composite supply, Time of supply of goods and services, Value of taxable supply, Computation of taxable value and tax liability.

Procedure relating to Levy: (IGST): Inter-state supply, intra-state supply, Zero rates supply, Value of taxable supply – Computation of taxable value and tax liability.

U6: Input Tax Credit and Return Filing

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U6-T1. Input Tax Credit and Return Filing

Description

Input tax Credit: Eligibility, Apportionment, Inputs on capital goods, Distribution of credit by Input Service Distributor (ISD) – Transfer of Input tax credit – Simple Problems on utilization of input tax credit.

Return Filing: Procedures relating to Filing the monthly/quarterly returns, reconciliation and correction of online returns. Electronic Cash Ledger, Electronic Credit Ledger and provisions of internal set off of CGST/SGST and IGST.

Essential Reading

COURSE NAME: BEHAVIOURAL FINANCE

COURSE CODE: COAF304-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Comprehend the theoretical foundations of behavioural finance.

CO2: Identify and evaluate various behavioural biases and heuristics.

CO3: Analyze how behavioural factors influence market anomalies and investment decisions.

CO4: Apply behavioural principles to personal finance and portfolio management.

CO5: Reflect critically on policy implications and ethical concerns in behavioural interventions

Sustainability Development Goals (SDG)

Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning

Course Content

U1: Unit 1: Introduction to Behavioural Finance

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Evolution and Scope of Behavioural Finance, Contrasting Traditional and Behavioural Models of Finance, Rationality Assumptions in Classical Finance, Efficient Market Hypothesis (EMH) and its Critique. Foundations of Behavioural Decision Theory, Prospect Theory: Reference points, Diminishing sensitivity, Loss aversion. Key contributors: Daniel Kahneman, Amos Tversky, Richard Thaler.

Description

U2: Cognitive Biases and Heuristics

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Heuristics and Biases in Judgement, Availability, Anchoring, Representativeness, Common Cognitive Biases: Overconfidence, Confirmation Bias, Hindsight Bias, Loss Aversion and Disposition Effect, Status Quo Bias, Endowment Effect, Framing, Mental Accounting and Sunk Cost Fallacy, Implications on Investment, Forecasting, Risk-taking.

Description

Heuristics and Biases in Judgement, Availability, Anchoring, Representativeness, Common Cognitive Biases: Overconfidence, Confirmation Bias, Hindsight Bias, Loss Aversion and Disposition Effect, Status Quo Bias, Endowment Effect, Framing, Mental Accounting and Sunk Cost Fallacy, Implications on Investment, Forecasting, Risk-taking

U3: Emotional and Social Influences in Finance**Teaching Hours: (10)****Development Needs:***Global, Regional***Skill Focused:***Employability***Cross Cutting Issues:***Human Values, Professional Ethics*

U3-T1. Role of Emotion in Financial Decisions: Fear, Greed, Regret, Pride, Emotional Trading and Market Volatility, Herding Behaviour and Groupthink, Social Influence and Peer Pressure in Markets, Impact of Media, Rumours, and Social Media, Introduction to Neurofinance: Brain and Decision-Making.

Description**U4: Market Anomalies and Behavioural Explanations****Teaching Hours: (8)****Development Needs:***Global, National***Skill Focused:***Employability***Cross Cutting Issues:***Human Values, Professional Ethics*

U4-T1. Overview of Market Anomalies: Momentum, Reversals, Value-Growth Anomalies, Calendar Effects (January Effect, Weekend Effect), Speculative Bubbles and Crashes: Behavioural Causes of Market Booms & Busts, Limits to Arbitrage, Role of Noise Traders Case Studies: Tulip Mania, Dot-com Bubble, 2008 Crisis.

Description**U5: Applications and Contemporary Issues****Teaching Hours: (12)****Development Needs:***Global, National***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Human Values, Professional Ethics*

U5-T1. Behavioural Portfolio Theory (BPT) vs. Modern Portfolio Theory, Behavioural Asset Pricing Models, Behavioural Financial Planning and Personal Finance, Investor Profiling and Risk Assessment Tools, Use of Nudges in Finance (Thaler & Sunstein), Behavioural Insights in Retirement, Insurance, Credit Cards, Ethical Concerns and Criticisms of Behavioural Finance, Regulatory and Policy Implications (SEBI/Global insights).

Description

Essential Reading

Questions (Answer ALL seven questions out of which six and seven have internal choice). Each

question carries five marks $7 \times 5 = 35$ B Conceptual / Descriptive/Problem Type questions

(Answer ALL five questions out of which two questions are internal choice). Each question

carries ten marks) $5 \times 10 = 50$ C Case Study (Compulsory) $1 \times 15 = 15$

COURSE NAME: FINANCIAL RISK ANALYTICS

COURSE CODE: COAF401-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the fundamental concepts and types of financial risks and their relevance to financial institutions.

CO2: Apply Python-based data analysis techniques to measure and visualize different forms of financial risk.

CO3: Analyze market, credit, and operational risk exposure using quantitative risk metrics and simulations.

CO4: Evaluate alternative risk mitigation and stress-testing approaches using data-driven models.

CO5: Design Python-based financial risk analytics solutions and present project outcomes effectively.

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking, Technological literacy

Course Content

U1: Introduction to Financial Risk Analytics and Python Setup

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Overview of financial risks: market, credit, liquidity, and operational risks - Role of risk analytics in finance and regulation (Basel norms) - Python environment setup (Jupyter, libraries for finance) - Python basics refresher: data types, control structures, functions, and visualization - Importing and handling financial data from APIs and CSVs Project: Retrieve stock data using Yahoo Finance API and compute daily returns, return patterns & volatility.

U2: Market Risk Modeling using Python

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Measuring market risk: volatility, correlation, beta - Value-at-Risk (VaR): Historical Simulation, Variance-Covariance, and Monte Carlo methods - Expected Shortfall (CVaR) estimation - Backtesting VaR models - Risk visualisation and interpretation Python

Libraries: numpy, pandas, matplotlib, scipy.stats **Project:** Develop a Python model to estimate VaR and Expected Shortfall for a multi-asset portfolio.

U3: Credit Risk Analytics using Python

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Credit risk measurement: exposure, default probability, and loss given default - Credit scoring and logistic regression models - Credit portfolio models and Credit VaR - Machine Learning applications in credit risk (Decision Trees, Random Forest) - Model performance metrics (AUC, confusion matrix, classification report) Python Libraries: scikit-learn, statsmodels, seaborn Project: Build a credit scoring model using a real or open dataset (e.g., Kaggle's "German Credit Data").

U4: Operational and Liquidity Risk Analytics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Sources and measurement of operational risk - Loss Distribution Approach (LDA) for operational risk - Liquidity risk modeling: cash flow gaps, liquidity ratios - Stress testing and scenario analysis using Python - Visualizing and communicating risk analytics - Simulation methods for operational loss estimation- liquidity stress testing. Python Libraries: numpy, matplotlib, seaborn, scipy Project: Simulate operational loss distribution and visualize tail risk under stress scenarios.

U5: Integrated Risk Modeling and Capstone Project

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Risk aggregation - Concept - relevance- combining market, credit, and operational risk - Portfolio-level risk analytics and capital allocation - Risk-adjusted performance measures (Sharpe ratio, RAROC, Treynor ratio) - Dashboards and visual storytelling using Python - Ethical and regulatory considerations in financial risk analytics Capstone Project suggestions: Develop an integrated risk analytics dashboard for a financial portfolio. Simulate credit defaults and estimate credit VaR for a bank'

Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: INTERNATIONAL BUSINESS

COURSE CODE: COAF402-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research)
(SEMESTER - VII)

Course learning Outcomes

CO1: Explain the fundamental concepts, theories, terminology, and evolving environment of international business.

CO2: Discuss and interpret the impact of globalization on international business with reference to economic, political, socio-cultural, and technological factors.

CO3: Apply international marketing intelligence, trade practices, and export–import procedures to solve problems in global business contexts.

CO4: Analyze the effects of government policies, trade regulations, and regional economic integrations on international business operations and decision-making.

CO5: Evaluate alternative market entry strategies and the role of Foreign Direct Investment (FDI) in international expansion to recommend suitable approaches for business growth.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking

Course Content

U1: Foundations of International Business

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Evolution, nature, and significance of international business. Stages of internationalization and the EPRG framework. Trade theories: Mercantilism, Absolute Advantage, Comparative Advantage, Factor Endowment, and Competitive Advantage. Overview of political, economic, social-cultural, and technological environments. Barriers to trade and their economic and political motives. Protection of domestic industries and preservation of national identity. Tools such as tariffs, quotas, subsidies, and export financing.

Description

U2: Globalization and Trade Environment

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U2-T1. Meaning, features, and implications of globalization. Globalization's socio-cultural, political, legal, and economic impact. Global trade organizations: GATT, WTO, and the role of UNCTAD. Current trends: Sustainability, digitalization, and global supply chains.

U3: Market Entry Strategies and FD

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U3-T1. Modes of entry: Exporting, licensing, franchising, contract manufacturing, joint ventures, and turnkey projects. Strategic alliances and mergers & acquisitions. FDI: Drivers, challenges, and its role in economic development. Comparison of entry modes with case studies.

U4: Regional Integration and Multinational Corporations

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. Types of regional integration: Free trade area, customs union, common market, and economic union. Key trade blocs: EU, ASEAN, NAFTA, SAARC, and MERCOSUR. Role and influence of MNCs on global trade and economies. Ethical dilemmas and CSR practices in international business

U5: International Marketing Intelligence and Business Practices

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U5-T1. Key elements of international marketing. International marketing research and information systems. Emerging trends: E-commerce, digital marketing, and consumer behavior analysis. Strategies for cultural adaptation and global branding. Export-import practices: Trade financing, EXIM Bank, ECGC, and methods of payment. Key trade terms: FOB, CIF, FAS, EXW, and others. Export and import procedures and documentation.

U6: Business-Government Relations in International Trade

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U6-T1. Analysis of government policies impacting international trade. Tools like foreign trade zones, administrative delays, and currency controls. Special government agencies promoting trade. Barriers to trade, motives, and protectionist policies to safeguard domestic industries. Preservation of national identity and responses to unfair trade practices

Essential Reading

2. Cateora, Philip R., Graham, John L., and Gilly, Mary C., International Marketing, 19th Edition, McGraw Hill, 2022.

2. Keegan, Warren J., Global Marketing Management, 9th Edition, Pearson, 2021. 17th Edition, Pearson, 2022.////

EXAMINATION PATTERN

COURSE NAME: INTERNATIONAL BUSINESS

COURSE CODE: COAF402-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Section A- Short Answer Questions (Answer ALL three questions, out of which the third question has internal choice). Each question carries 5 marks. $3 \times 5 = 15$

Section B- Conceptual/Descriptive/Problem Type Questions(Answer ALL two questions, out of which one question has internal choice). Each question carries 10 marks, $2 \times 10 = 20$

Section C - Case Study (Compulsory). $1 \times 15 = 15$

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A- Short Answer Questions–Answer ALL seven questions, out of which Questions 6 and 7 have internal choice. Each question carries 5 marks. $7 \times 5 = 35$ Marks

Section B- Conceptual / Descriptive / Problem Type Questions –Answer ALL five questions, out of which two questions have internal choice. Each question carries 10 marks. $5 \times 10 = 50$

Section C- Case Study (Compulsory). $1 \times 15 = 15$

COURSE NAME: FIXED INCOME SECURITIES & TREASURY MANAGEMENT

COURSE CODE: COAF403A-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research)
(SEMESTER - VII)

Course learning Outcomes

CO1: Understand fixed-income securities and their markets, yield measures, risk factors, and valuation measures and drivers.

CO2: Estimate the risks and expected returns for fixed income instruments

CO3: Analyse the term structure of interest rates and yield spreads.

CO4: Understanding the treasury function and raising different forms of capital.

CO5: Appraise Equity Structured Products Capital-Guaranteed and High-Yield Products

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking

Course Content

U1: Analysis of Fixed Income Securities

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Analysis of Fixed Income Securities Bond Valuation & Interest rate Models; Yield Curve and Term Structure Analysis Determinants of bond yields; Fixed income derivatives: T-bill, t-note, t-bond derivatives, Euro-bond and municipal bond derivatives, Pricing fixed income derivatives: cost of Carry model – under perfect & imperfect market conditions

U2: Bond Risk analysis, management & bond portfolio strategies

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Measuring & managing Interest rate risk, currency risk & credit risk; Micro hedging & Macro Hedging; Concept of yield curve risk – passive & active portfolio strategies

U3: Fixed Income Structured Products

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Introduction to structured finance products; Concept of Securitization; Fixed income structured finance products; Mortgage backed and asset backed securities; collateralized bond obligations (CBO); Application of structured products in various financial areas

U4: Equity Structured Products

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. Principle protected note; Equity trading strategies involving options: Call & Put spreads, Straddle, Calendar spreads. Equity Exotics: Asian options, Barrier options. Other Structured Derivatives: Complex structured derivatives based on multi-asset payoff (Hybrid Products based on instruments from different asset classes); Effect of correlation between various asset classes on product price. Credit derivatives Default Probabilities; Credit derivatives; Credit Default swap (CDS); Credit Linked note (CLN); Modeling default correlations; First to default baskets; Convertible bonds.

U5: Treasury Management

Teaching Hours: (6)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Concept, Functions, Meaning, Structure, overview of risk management, Treasury organisation and structure, A treasury control framework, Treasury performance management, Complying with Sarbanes-Oxley, Corporate credit ratings

U6: The role of the Treasury and Treasurer

Teaching Hours: (6)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U6-T1. Cash Management, Objectives, Cash Flow forecasting, working capital management, excess liquidity, short term investing, using long term instruments, rolling down the curve, short term borrowing etc

U7: Raising Capital

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U7-T1. Loan Finance, Debt securities, Bond risk management, equity funding, alternative sources of financing, Asset Finance, Project Finance, Leasing, Hire Purchase etc.

U8: Risk Management

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U8-T1. Foreign currency risk management, other risks involved in treasury operations, corporate treasury, bank treasury, managing financial risk, Enterprise risk management, Accounting for treasury. Issues relating to LIBOR transition and its impact.

COURSE NAME: MERGER & ACQUISITION

COURSE CODE: COAF403B-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research)
(SEMESTER - VII)

Course learning Outcomes

CO1: Understand the Concepts and importance of Mergers, Acquisitions, and Corporate restructuring to the business world.

CO2: Evaluate the effectiveness of pre- and post-merger performances

CO3: Evaluate the value of a company for a merger, acquisition, and Corporate restructuring deal

CO4: Evaluate the effectiveness of different legal and Cultural aspects in Mergers, Acquisitions, and Corporate restructuring transactions.

CO5: Evaluate the takeover defenses to protect the company and fulfill shareholder duties.

Sustainability Development Goals (SDG)

Quality education

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Mergers and Acquisitions

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction. History of Merger Movements. Forms of Corporate Restructuring: Expansions, Mergers and Acquisitions, Tender Offers, Joint Ventures, Sell Offs, Spinoffs, Split offs, Split ups, Divestitures, Employees Stock Option Plans (ESOPs), Equity Carve Outs, Master Limited Partnership (MLP). Corporate Control Premium, Buybacks, Standstill Agreements, Leveraged Buyouts. Merger Process: Five-stage model. Economic rationale for M&A. Description

U1-T2. Major types of Mergers- Horizontal mergers - Vertical mergers - Conglomerate mergers - Concentric Mergers. Framework for analysis of mergers. Organization learning and organization capital. The Role of industry life cycle, Product life cycle in M&A. Role of AI in M&A decision making

U2: Cost and Benefit of Merger

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

U2-T1. Cost and benefit analysis of merger (mergers as a capital budgeting decision) - Share exchange ratio - Problems of calculating pre- and post-merger performances.

U3: Valuation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Multiples – various kinds of multiples and how to view this from the perspective of M&A. What are the factors that impact the multiple, and how to find the right multiple to value the company? Risk-free rate of return – Key things to remember while doing cross-border M&A. Beta- What factors impact beta. Levered and unlevered beta. Valuation during special situations of M&A- growth companies, distress companies, stable growth companies, listed and unlisted companies, volume and liquidity discount

U3-T2. Companies with negative cash flows, cash risk companies, IRR expectations, and control premium. Valuation for cash Vs stock deals. Common mistakes/biases at the time of valuation. Negotiation for valuation in M&A deals – convert structure, warrant structure, and other ways of structuring options. Special situation in valuation – SEBI valuation rules, takeover code valuation rules, FDI valuation rules. AI-assisted multiple selection and peer comparison - AI in forecasting cash flows and IRR

Description

U4: Legal and Cultural Aspects in Merger

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Organizational and human aspects – managerial challenges of M & A - Legal and regulatory framework of M & A – provisions of Companies Act - Indian Income Tax Act - SEBI takeover code

U5: Take Over Defenses

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Takeover defences – financial defensive measures – Coercive offers and defence – anti-takeover amendments – poison pill defence. Case examples: AI use in modern corporate defence Description

EXAMINATION PATTERN

COURSE NAME: MERGER & ACQUISITION

COURSE CODE: COAF403B-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Section A- Short Answer Questions (Answer ALL three questions, out of which the third question has internal choice). Each question carries 5 marks. $3 \times 5 = 15$

Section B- Conceptual/Descriptive/Problem Type Questions(Answer ALL two questions, out of which one question has internal choice). Each question carries 10 marks, $2 \times 10 = 20$

Section C - Case Study (Compulsory). $1 \times 15 = 15$

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A - Short Answer Questions (Answer ALL seven questions ,out of which Questions 6 and 7 have internal choice). Each question carries 5 marks. $7 \times 5 = 35$

Section B - Conceptual / Descriptive / Problem Type Questions (Answer ALL five questions, out of which two questions have internal choice).Each question carries 10 marks. $5 \times 10 = 50$

Section C - Case Study (Compulsory). $1 \times 15 = 15$

COURSE NAME: INTERNATIONAL FINANCIAL MANAGEMENT

COURSE CODE: COAF404-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research)
(SEMESTER - VII)

Course learning Outcomes

CO1: Understand the basic concepts of Multinational firms, environment of international financial management and foreign exchange market;

CO2: Understand financial viability of capital expenditure plans and risk in financial decision making;

CO3: Analyse issues related to various finance functions of MNCs;

CO4: Evaluate translation, transaction, and economic exposure to exchange rate changes;

CO5: Create and appraise foreign exchange portfolio

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking

Course Content

U1: Introduction:

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U1-T1. Globalization and the multinational enterprise (MNE); Environment of International Financial Management; Complexities and issues in financial decision making of MNEs; Decisions in a global setting; Foreign Exchange Market- Spot and Forward market; Participants in foreign exchange market; Arbitrage, hedging and speculation; Covered interest rate arbitrage; Contemporary issues in international financial management.

U2: Cross-Border Investment Decision:

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U2-T1. Types of and issues in cross border investment decision; Green field investment vs. cross border M&As; Estimation of cash flows from cross border investment projects; Valuation techniques including adjusted present value method; Risks in cross border investment decision-currency risk, political risk, country risk, inflation risk etc; Techniques for incorporating risks in cross border investment decision

U3: Working Capital Management in MNEs:

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U3-T1. International Cash management, International Inventory management and International receivables management; International capital structure and cost of capital; Determinants of capital structure of MNEs; Dividend decision and policies of MNEs; International transfer pricing.

U4: Managing currency Risk and Interest Rate Risk:

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. Types of risk exposure - Transaction exposure, Economic exposure, and Translation exposure; Measurement of risk exposure; Management of currency risk using currency forwards and futures, currency options and currency swaps; Assessment of interest rate risk; Management of interest rate risk using Interest rate futures, interest rate swaps and other financial swaps.

U5: International Diversification and Portfolio Investment:

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U5-T1. Global markets for equities; Risk factors in international investing; International diversification-risk and return aspects; International CAPM assuming no differences in consumption and no barriers to investment as well as assuming such differences; Identification of optimum portfolio; International Capital Market. Foreign Portfolio. GDR, ADR, Cross, listing of shares Global registered shares. International Financial Instruments: Foreign Bonds Eurobonds, Global Bonds. Floating rate Notes, Zero coupon Bonds, International Money Markets International Banking services; Correspondent Bank, Representative offices, Foreign Branches. Forward Rate Agreements.

COURSE NAME: CLIMATONOMICS

COURSE CODE: COM401-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the interlinkages between climate systems, economic growth, and sustainability frameworks.

CO2: Analyze the economic impacts of climate change and evaluate the effectiveness of policy tools such as carbon pricing, green taxes, and emissions trading.

CO3: Design innovative and sustainable financial or policy models that promote low-carbon transitions and circular economies.

CO4: Apply climatonic principles to assess sectoral risks and develop adaptive strategies for businesses, communities, and governments.

CO5: Demonstrate leadership and ethical responsibility in formulating evidence-based, climate-resilient economic decisions

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Foundations of Climatonomics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Foundations of Climatonomics Introduction to Climatonomics: Definition, scope, and significance, Climate science fundamentals and the economics of environmental degradation, Climate externalities and market interdependencies, Sustainable development frameworks: UN Sustainable Development Goals (SDGs), Triple Bottom Line, and Planetary Boundaries, Concept of green economy and low-carbon development pathways

Description

U2: Economic Impacts and Policy Instruments of Climate Change

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Economic Impacts and Policy Instruments of Climate Change Relationship between GDP growth, resource consumption, and emissions, Economic impacts of climate change: adaptation vs. mitigation costs, Policy instruments for climate management - carbon pricing, emissions trading, green taxes, and subsidies, Climate policy frameworks: Kyoto Protocol, Paris Agreement, and COP outcomes, Case studies: EU Emissions Trading System (EU ETS) and India's Perform-Achieve-Trade (PAT) Scheme

Description

U3: Green and Sustainable Finance Mechanisms

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Green and Sustainable Finance Mechanisms Green bonds, ESG investing, and sustainable finance principles; role of development banks and institutional investors in climate finance; risk assessment, disclosure, and sustainability reporting frameworks (TCFD, GRI); financing circular economy and renewable energy transitions; designing green business and investment models. Add Practical Elements: Case Study (India): Examine India's Sovereign Green Bond (2023 issue) – structure, pricing, investor r

Description

U4: Climate Risk Management and Adaptive Strategies

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Climate Risk Management and Adaptive Strategies Sectoral risk analysis: agriculture, energy, transport, and finance, Climate resilience, disaster risk reduction, and insurance mechanisms, Public-private partnerships for adaptation and resilience building, Technological innovations for mitigation (AI, IoT, green tech), Case studies on successful

adaptation models (India and global). Add Practical Elements: Risk Mapping Exercise: Students create a simple climate risk profile for an Indian sector
Description

U5: Ethics, Leadership, and Climate Governance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Ethics, Leadership, and Climate Governance Ethical dimensions of climate economics and intergenerational equity, Global governance for climate action: UNEP, IPCC, IMF, World Bank, Corporate responsibility and climate disclosure practices, Leadership in sustainability: case studies of climate champions and policy innovators, Practical exercises in sustainable decision-making and climate ethics.

Description

Essential Reading

1. Green and Sustainable Finance: Principles and Practice (3rd Ed., 2025) by Simon Thompson provides a comprehensive guide to how finance, regulation, and innovation drive global climate and sustainability transitions.

Principles of Sustainable Finance (2nd Ed., 2023) by Dirk Schoenmaker and Willem Schramade explains how financial systems and economic decisions can align with environmental and social sustainability within planetary boundaries

EXAMINATION PATTERN

COURSE NAME: CLIMATONOMICS

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I (20 marks), CIA II (50 marks), CIA III (20 marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions, out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions, out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: FINANCIAL MODELING

COURSE CODE: COM401F-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Apply the concept of financial modelling with respect to business decisions and framing strategies.

CO2: Analyse financial statements to derive insights about business performance.

CO3: Develop forecasts based on realistic assumptions and market conditions.

CO4: Apply strategic analysis tools alongside financial modelling techniques to inform business decisions.

CO5: Construct robust financial models using advanced Excel techniques.

Sustainability Development Goals (SDG)

Decent work and economic growth, Gender equality, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Foundations of Financial Architecture

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Reviewing the significance, core blocks, and operational goals of structured models in corporate governance. Establishing professional formatting frameworks: FAST design guidelines, color-coding models (input sheets, calculation blocks, output displays), and row indexing structures. High-speed manual layout execution tools: keyboard shortcut navigation paths, freezing layout panels, row sorting filters, and data validations. Advanced formula modeling: deploying multi-level logic statements (IF, AND, OR), data tracking parameters (VLOOKUP, INDEX-MATCH), and time-value metrics (CAGR, simple IRR). Integrating conversational AI modeling assistants as formula coaches to write clean logic strings and identify broken references. Designing error-isolation panels, balancing diagnostic view grids, and net cash reconciliation checks to ensure absolute model stability without hardcoded data plugs.

Description

Project: Historical Three-Statement Corporate Core Builder. Students select a listed public

company and download its raw financial filings for the past 3 years. Using AI prompting students to clean, format, and structure the unorganized figures into an international-standard spreadsheet database template, completely backed by automated error check validation panels to prove the sheets balance dynamically.

U2: Visual Dashboarding

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Shifting out of flat tabular charts into dynamic cross-platform data visualizations using Microsoft Power BI Desktop. Ingesting disjointed transactional data sources safely. Data engineering inside the Power Query Editor environment: previewing data column qualities, formatting data types, removing blank cells, splitting text strings, and deleting nested duplicate transaction errors without manual typing. Formulating advanced operational accounting metrics using Data Analysis Expressions (DAX): creating calculated columns, rolling averages, Year-over-Year (YoY) revenue variances, and margin growth percentage counters. Structuring high-impact canvas containers: cash flow waterfall blocks, line trend distributions, correlation scatter charts, and primary corporate KPI display cards. Configuring interactive parameter switchboards and visual slicers to build user-friendly report layouts.

Description

Project: Corporate Interactive Performance Intelligence Board. Working with a multi-file database of raw monthly retail operations and warehouse distribution records, students use Power Query to clean and link the disjointed tables. They write basic DAX financial metrics to build a multi-page interactive executive dashboard evaluating branch efficiency and monthly revenue growth against company margins.

U3: Financial Statement Analysis & Modelling

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Structural rules of connected corporate data modeling. Building seamless calculations that link the core three financial statements together: Income Statement, Balance Sheet, and Statement of Cash Flows. Accounting logic translation: tracking changes in working capital accounts, modeling asset depreciation schedules, and structuring equity/debt balances. Utilizing conversational AI data tools to draft forecasting assumptions, define key growth drivers, and map long-term operational lines. Establishing dynamic statement links. Integrating text summarizers to generate quick margin-safety reports on historical data records. Financial statement scenario analysis and sensitivity analysis.

Description

Project: Integrated Multi-Year Corporate Projection Model. Students take their clean historical corporate spreadsheet from Unit 1 and construct a fully linked multi-year forecasting extension.

Utilizing AI assistance to trace metric behaviors, they build a model where changing an operational driver cell (such as inventory turnover or sales growth) causes all three statements to recalculate across the forecast horizon while remaining perfectly balanced.

U4: Corporate Finance & Valuation Modelling

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Time value of money concepts. Leverage measures and cost of capital. The long-term financing decisions. Discounted Cash Flow (DCF) valuation. Engineering analytical systems to evaluate long-term corporate investments, project cash allocations, and funding targets. Formulating multi-stage project cash flows. Advanced project evaluation metrics modeling: Net Present Value (NPV), Internal Rate of Return (IRR), and discounted payback durations. Leveraging AI data interpreters to analyze raw industry sector benchmarks and calculate the dynamic Weighted Average Cost of Capital (WACC). Engineering multi-variable base, best, and worst-case scenario matrices. Using built-in Excel tools (Data Tables, Scenario Manager) alongside conversational AI scripting prompts to design automated model controllers using CHOOSE and OFFSET arrays.

Description

Project: Capital Allocation Strategy & Cost Sensitivity Matrix. Students build a capital project model evaluating an enterprise franchise expansion plan. Deployed entirely without coding, students integrate dynamic scenario switchboards and multi-variable Data Tables that allow company executives to instantly view the project's adjusted NPV and IRR whenever cost variables, tax structures, or inflation rates shift.

U5: Forecasting & Applied Financial Modelling

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Budgeting and forecasts models - revenue and cost forecasting, working capital forecasts. Key value driver and assumptions. Base, best and worst cases scenario analysis. Introduction to the concepts of investment and project finance modelling- project evaluation phases, cash flows patterns, decision making frameworks. Risk analysis and sensitivity test. Integrated financial models and presentation sheets preparation. LBO, and M&A models.

Description

Project: The Capstone Project: Integrated Enterprise Advisory Portfolio. Students form collaborative analytics squads to analyze a real enterprise experiencing a strategic expansion. Teams integrate their multi-year projection models with a live-published Power BI dashboard layout. The course culminates in a boardroom simulation presentation where squads defend their visual indicators, data transformation models, and strategic conclusions under questioning from an expert panel.

Essential Reading

1. Day, A. (2013). Mastering financial modelling in Microsoft Excel (3rd ed.). Pearson.
2. Sengupta, C. (2009). Financial analysis and modeling using Excel and VBA (2nd ed.). Wiley.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL MODELING

COURSE CODE: COM401F-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

5 CIA components should take place. The total should be divided into 50 marks each.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE - 100 Marks

COURSE NAME: ORGANISATIONAL BEHAVIOUR

COURSE CODE: COM402-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Analyse organisational behaviour concepts, models, and interdisciplinary foundations to examine contemporary challenges such as diversity, sustainability, and green organisational behaviour.

CO2: Evaluate the influence of personality, values, attitudes, emotions, on individual behaviour, ethical conduct, employee well-being and sustainability outcomes in AI-driven work environments.

CO3: Analyse learning, perception, motivation and decision-making processes to assess behavioural change, ethical judgement, sustainability-oriented decisions, and the impact of artificial intelligence on managerial decision-making..

CO4: Analyse group dynamics, team processes, and collaborative mechanisms, including green teams and technology-enabled teams, to evaluate their effectiveness in achieving organisational and sustainability goals.

CO5: Evaluate the role of power, conflict, negotiation, resilience, leadership, organisational culture, and change in managing sustainability initiatives.

Sustainability Development Goals (SDG)

Decent work and economic growth, Gender equality, Good health and well-being, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Introduction to Organisational Behaviour

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Introduction to Organisational Behaviour

Description

Meaning of Organisational Behaviour, Nature of Organisational Behaviour, Disciplines contributing to Organisational Behaviour, Challenges and opportunities for OB, Diversity in organisations, Biographical characteristics, Diversity management, Organisational Behaviour models, Green Organisational Behaviour (GOB), Sustainability and workplace behaviour, Environmental psychology in the workplace, Pro-environmental behaviour and psychological safety at work.

U2: Individual Behaviour**Teaching Hours: (14)****Development Needs:***Global***Skill Focused:***Employability***Cross Cutting Issues:***Environment, Professional Ethics***U2-T1. Individual Behaviour****Description**

Individual Behaviour - Factors Influencing Individual Behaviour, Personality – meaning, Type A and Type B personality, MBTI, Big Five Personality Model, Locus of Control, Core Self-Evaluation, Machiavellianism, Narcissism, Values and attitudes – importance of values, Terminal and Instrumental values, Whistle-blowing as an ethical issue in organisational behaviour, Values across cultures – Hofstede and GLOBE frameworks, Components of attitudes, Job-related attitudes, Job involvement, Job satisfaction – causes and effects Emotions and moods – emotional labour, Emotional intelligence, OB applications of emotions and moods, Stress management – work-related stress, Stress and burnout, Management of stress, Technostress and AI-driven work stress Motivation, theories of motivation - Need Hierarchy Theory, Theory X and Theory Y, Herzberg's Two-Factor Theory, McClelland's Theory of Needs.

U3: Learning, Perception and Individual Decision-Making**Teaching Hours: (14)****Development Needs:***Global***Skill Focused:***Employability***Cross Cutting Issues:***Gender, Human Values, Professional Ethics***U3-T1. Learning, Perception and Individual Decision-Making****Description**

Learning – definition and importance, Theories of learning - Stimulus-Response Theory, Cognitive Theory, Social Learning Theory, Principles of learning, Shaping as a managerial tool, Learning for green behaviour Perception – factors influencing perception, Attribution theory, Common shortcuts in judging people, Link between perception and individual decision-making. Decision-making in organisations, Ethics in decision-making, Artificial intelligence in managerial decision-making, and Data-driven decision-making.

U4: Foundations in Group Behaviour and Team**Teaching Hours: (10)****Development Needs:**

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U4-T1. Group Behaviour and Team Dynamics

Description

Defining and classifying groups, Tuckman's model of group development, Factors influencing group behaviour, Group properties – roles, norms, status, size, cohesiveness, Group decision-making – groupthink, group shift, Techniques in group decision-making, Transactional Analysis, Johari Window, Types of teams - green teams, virtual teams, cross-functional sustainability teams. Creating effective teams - Teams and collaborations - Technology-enabled collaboration.

U5: Power, Conflict and Negotiation – Dynamics of Organisational Behaviour

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics, Sustainability

U5-T1. Dynamics of Organisational Behaviour - Power, Conflict and Negotiation

Description

Leadership - shared leadership, transformational leadership, authentic leadership, Ethical and responsible leadership, Leadership for sustainability Power – meaning and sources, Power and politics in organisations, Conflict – process, sources and outcomes, Conflict management, Negotiation process, Negotiation strategies, Global implications of negotiation Organisational culture – definition and functions, Creating and sustaining culture, Organisational culture and climate, Creating a culture for sustainability and innovation, Green organisational culture, Spirituality and organisational culture. Organisational change – meaning, forces for change, Resistance to change – overcoming resistance to change, Approaches to managing organisational change, Behavioural change for sustainability.

Essential Reading

1. Robbins, S. P., & Judge, T. A. (2022). *Organizational Behavior* (19th ed.). Pearson Education.
1. Luthans, F., Doh, J. P., & Luthans, B. C. (2021). *Organizational Behavior: An Evidence-Based Approach* (14th ed.). Information Age Publishing.
1. McShane, S. L., & Von Glinow, M. A. (2021). *Organizational Behavior: Emerging Knowledge, Global Reality* (9th ed.). McGraw-Hill Education.

EXAMINATION PATTERN

COURSE NAME: ORGANISATIONAL BEHAVIOUR

COURSE CODE: COM402-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid-semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: INTERNATIONAL FINANCE AND GLOBAL MARKETS

COURSE CODE: COM402F-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Analyze the international financial environment, including the monetary system, the Balance of Payments, and global capital markets like those for Masala Bonds and ADRs/GDRs.

CO2: Evaluate the theories of exchange rate determination like PPP and IRP and apply forecasting techniques to understand currency movements.

CO3: Analyze, measure, and differentiate between the various types of foreign exchange exposures – transaction, translation, and economic – while also assessing political risk.

CO4: Develop and apply appropriate risk management strategies using both internal techniques like netting and external derivative instruments like forwards, options, and swaps.

CO5: Assess multinational capital budgeting decisions like FDI and critically examine the impact of emerging trends, including FinTech, CBDCs, and Sustainable Finance on global markets.

Sustainability Development Goals (SDG)

Affordable and clean energy, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Resilience flexibility and agility

Course Content

U1: The International Financial Environment

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. International vs. Domestic Finance. Globalization and the Multinational Corporation (MNC). The Balance of Payments (BOP) framework and its interpretation. International Monetary System: A critical review of the evolution from the Gold Standard to the Bretton Woods system and the current managed-float regime. Parity Conditions: A deep dive into PPP, IRP, and the International Fisher Effect (IFE). Introduction to Parity Anomalies: A conceptual look at failure of these theories.

U2: Foreign Exchange (Forex) Market and Forecasting

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:*Professional Ethics*

U2-T1. Market Mechanics: Structure of the global forex market (spot, forward, futures, swaps). Key participants and the role of arbitrage (locational, triangular, covered interest). **Exchange Rate Determination:** Factors influencing exchange rates (economic fundamentals, central bank intervention, market sentiment). **Introduction to Forex Forecasting:** Market-Based Forecasts (using forward rates). **Fundamental Forecasting** (using economic models like PPP). **Technical Analysis.** UCITS tools.

U3: International Financial Markets and Institutions**Teaching Hours: (10)****Development Needs:***Global***Skill Focused:***Skill Development***Cross Cutting Issues:***Professional Ethics*

U3-T1. Global Capital Markets: Eurocurrency markets (Eurodollars), International Bond Markets (Eurobonds, Foreign Bonds). **Indian Context:** Offshore Rupee Instruments, specifically Masala Bonds, and the framework for External Commercial Borrowings (ECB). **International Equity Markets:** Raising capital globally: Cross-listing and strategic rationale. **Depository Receipts (DRs):** ADRs/GDRs and IDRs.

U3-T2. India's Integration with Global Markets: The role and impact of Foreign Portfolio Investors (FPIs) on Indian capital markets. **Introduction to India's Capital Account Convertibility (CAC)** and its current status. **International Institutions:** Role and impact of the IMF, World Bank, WTO and Bank for International Settlements (BIS), relationship with India. **International Asset Pricing:** Introduction to the International CAPM, benefits of global diversification, and the 'home bias' puzzle.

U4: Foreign Exchange Risk and Exposure**Teaching Hours: (10)****Development Needs:***Global***Skill Focused:***Skill Development***Cross Cutting Issues:***None*

U4-T1. Defining and Measuring Exposure: Transaction Exposure: Risk from contractual foreign currency payables/receivables. Translation (Accounting) Exposure: Risk in consolidating foreign-subsidary financials. Economic (Operating) Exposure: Long-term risk to the firm's competitive position. **Political and Country Risk:** Assessing and managing risks like expropriation, currency inconvertibility, and regulatory changes.

U5: Hedging Strategies and Derivatives**Teaching Hours: (10)****Development Needs:***Global***Skill Focused:***Skill Development*

Cross Cutting Issues:

Professional Ethics

U5-T1. Internal Hedging Techniques: Leading and lagging, multilateral netting, and price invoicing. **External Hedging Instruments (Application):** Managing risk with Forwards and Futures contracts. **Money Market Hedging.** **Hedging with Options (Puts and Calls):** Strategies and cost-benefit analysis. **Introduction to Swaps (Currency and Interest Rate).** **Managing Economic and Translation Exposure:** Strategic, operational, and financial hedges. **U6: Multinational Investment and Emerging Trends**

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U6-T1. Foreign Direct Investment (FDI): Motives, strategic considerations, and political risk assessment. **International Capital Budgeting:** Process of evaluating foreign projects. **Adjusting cash flows vs. discount rates for country risk.** **Introduction to the Adjusted Present Value (APV).** **Emerging Trends in Global Finance:** Impact of Blockchain on trade finance, supply chain management, and cross-border payments. **Central Bank Digital Currencies (CBDCs):** payment efficiency, financial inclusion.

U6-T2. Models (Wholesale vs. Retail CBDCs). **CBDCs and the International System:** Implications for cross-border payments, correspondent banking, and the potential impact on systems like SWIFT. **The Move to a Global Cashless Economy:** Drivers: Mobile payments, FinTech innovation, and policy pushes. **Impact on global e-commerce, international remittances, and financial transparency.** **Regulatory and security challenges in a digital-first financial world.** **Sustainable Finance:** ESG, green and blue bond markets.

COURSE NAME: ALTERNATIVE INVESTMENTS

COURSE CODE: COM403F-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the concept, characteristics, and role of alternative investments in a portfolio.

CO2: Differentiate between traditional and alternative asset classes.

CO3: Analyze hedge funds, private equity, real estate, commodities, and structured products.

CO4: Evaluate risk-return profiles and performance measurement techniques of alternative investments.

CO5: Understand regulatory, ethical, and operational aspects associated with alternative assets and apply portfolio diversification strategies using alternative assets.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Resilience flexibility and agility, Technological literacy

Course Content

U1: The Alternative Investment Landscape & Portfolio Theory

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Definition and evolution of alternative investments, Differences between traditional and alternative assets, Liquid vs. Illiquid assets, Role in portfolio diversification, Market players and trends, Overview of major asset classes. , Private Credit Boom- (Direct Lending, Distressed Debt, Mezzanine Financing). The "Democratization" of alternatives (retail access). Portfolio Construction: The Yale Model (Endowment Model) vs. Traditional 60/40 portfolios.

U2: Hedge Funds

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Structure, strategies, and classifications (long/short, event-driven, global macro, arbitrage), Directional: Global Macro, Managed Futures. Event-Driven: Distressed Debt, Merger Arbitrage, Relative Value: Long/Short Equity, Fixed Income Arbitrage. Risk-return characteristics, Hedge fund performance evaluation (Sharpe, Sortino, Information ratio), Fees and incentives (2 & 20 model), Regulatory and ethical issues. Case Study Discussion: The Collapse of Long-Term Capital Management (LTCM) - A lesson in leverage and correlation breakdown

Description

Case Study Discussion: The Collapse of Long-Term Capital Management(LTCM) - A lesson in leverage and correlation breakdown

U3: Private Equity and Venture Capital

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U3-T1. Structure of private equity funds, Stages of investment: venture capital, growth capital, buyouts, The PE Lifecycle: Fundraising, Deal Sourcing, Value Creation, and Exit. Valuation of private firms (DCF, multiples, comparables), Strategies: Venture Capital (Seed to Series C), Growth Equity, and Leveraged Buyouts (LBOs). Exit routes: IPO, M&A, secondary sale. Case studies: Blackstone, Sequoia Capital.

U4: Real Estate and Infrastructure Investments

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Background of Real Estate Funds in India, Commencement of REIT in India, Types: residential, commercial, REITs, infrastructure funds, Real estate valuation techniques, Risks and returns in property investment, Global and Indian REIT market trends, Performance of Indian REIT Case Discussion on Embassy REIT, IndiGrid, InvIT, Power Grid InvIT.

U5: Commodities and Derivatives & Structured Products and Other Alternatives

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Physical vs. derivative-based commodity investment, Types of Commodities traded in the market, Commodity indices and ETFs, Pricing dynamics and risk management, Role in inflation hedging and portfolio diversification, Activity: Live commodity market tracking

and report, Overview of structured notes, CDOs, CLOs, MBS, Infrastructure funds, art funds, collectibles, and Digital Assets. Risk-return implications.

U6: Global and Indian regulatory framework (SEBI, AIF Regulations 2012)

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. SEBI (Alternative Investment Funds) Regulations, 2012. Categories I, II, and III AIFs. Ethics in alternative investing, Due Diligence (DD): Investment DD vs. Operational DD (Checking the "back office" to prevent fraud).BRSR framework, ESG and sustainability in alternatives, Future of alternative assets (tokenization, AI, green infrastructure funds). Ethics & ESG: Greenwashing in impact funds; Ethical conflicts in short-selling and asset stripping.

Essential Reading

- CAIA Level I: An Introduction to Core Topics in Alternative Investments – CAIA Association
- Alternative Investments: Instruments, Performance, Benchmarks, and Strategies by Donald R. Chambers et al.
- Private Equity: History, Governance, and Operations – Harry Cendrowski
- Hedge Funds: Quantitative Insights – François-Serge habitant

EXAMINATION PATTERN

COURSE NAME: ALTERNATIVE INVESTMENTS

COURSE CODE: COM403F-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

20 Marks CIA 1

50 Marks MSE

20 Marks CIA 3

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 hours duration: Sections Type Marks
A Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks $7 \times 5 = 35$
B Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks $5 \times 10 = 50$
C Case Study (Compulsory) $1 \times 15 = 15$

COURSE NAME: CAPSTONE PROJECT

COURSE CODE: COM481-7

COURSE TYPE: Practical

TOTAL HRS: 8 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Identify and define a domain related research problem that requires data-driven analysis.

CO2: Apply financial, statistical, and computational tools to analyze real-world data.

CO3: Analyze relationships and patterns within financial datasets using appropriate models.

CO4: Evaluate the robustness and reliability of analytical outcomes.

CO5: Design and present a data-driven solution or model that addresses a financial problem

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking

Course Content

U1: Project Submission Phases

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Phases of Project: Phase 1: Orientation and Proposal Development Weeks 1-2 - Introduction to project-based learning and applied research in finance- Topic selection and scope definition- Proposal writing and approval process Project proposal (Title, objectives, rationale, data source, methodology) Phase 2: Literature Review and Conceptual Framework Weeks 3-4 - Review of relevant academic and industry literature- Identification of variables and hypotheses- Building conceptual and analytical framework Literature review report and research design Phase 3: Data Collection and Preparation Weeks 5-6 - Data sourcing (Bloomberg, NSE, RBI, Yahoo Finance, Kaggle, etc.)- Data cleaning, preprocessing, and descriptive analysis. Cleaned dataset and exploratory data analysis report Phase 4: Model Building and Analysis Weeks 7-11 - Model development using econometrics, machine learning, or financial modeling tools- Application of Python, R, or Excel for analysis- Validation and performance testing

Description

Phase | Weeks | Focus Area | Expected Deliverables | Phase 1: Orientation and Proposal Development | Weeks 1–2 | - Introduction to project-based learning and applied research in finance- Topic selection and scope definition- Proposal writing and approval process | Project proposal (Title, objectives, rationale, data source, methodology) | Phase 2: Literature Review and Conceptual Framework | Weeks 3–4 | - Review of relevant academic and industry literature- Identification of variables and hypotheses- Building a conceptual and analytical framework | Literature review report and research design | Phase 3: Data Collection and Preparation | Weeks 5–6 | - Data sourcing (Bloomberg, NSE, RBI, Yahoo Finance, Kaggle, etc.)- Data cleaning, preprocessing, and descriptive analysis | Cleaned dataset and exploratory data analysis report | Phase 4: Model Building and Analysis | Weeks 7–11 | - Model development using econometrics, machine learning, or financial modeling tools- Application of Python, R, or Excel for analysis- Validation and performance testing | Analytical model with output, interpretation, and visualizations | Phase 5: Report Writing and Presentation | Weeks 12–15 | - Structuring report (Abstract, Methodology, Results, Conclusion)- Final presentation and viva preparation | Final report, project presentation, and viva voce | Phase 6: Evaluation and Reflection | Week 16 | - Final evaluation by panel- Reflection on learning outcomes | Evaluation report and reflective summary |

U2: Suggested Project Themes

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. ◇ Financial Markets & Investment Analytics • Predicting stock price movements using machine learning • Sentiment analysis of financial news and its impact on stock returns • Portfolio optimization using risk-return analytics • Volatility modeling using GARCH or ARIMA models ◇ Corporate Finance & Valuation • Startup valuation using financial ratios and cash flow models • Financial distress prediction using logistic regression or random forest • Cost of capital and capital structure optimization ◇ Banking & Risk Analytics • Credit risk modeling using historical default data • Loan default prediction using classification algorithms • Value-at-Risk (VaR) and Expected Shortfall computation for portfolios ◇ Macroeconomics & Policy Analysis • Exchange rate forecasting using time series models • Impact of macroeconomic indicators on stock market performance • Inflation forecasting using ARIMA or regression techniques

Description

Financial Reporting & ESG Analytics • ESG disclosure sentiment analysis using NLP

- Financial statement fraud detection using anomaly detection
- Earnings call transcript analysis and its impact on firm performance

EXAMINATION PATTERN

COURSE NAME: CAPSTONE PROJECT

COURSE CODE: COM481-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Evaluation and Assessment Structure (100 Marks)

Component | Weightage | Evaluation Criteria | Project Proposal | 10% | Clarity of problem statement, feasibility, and research plan | Literature Review | 10% | Depth of review, conceptual framework | Data Preparation & Analysis | 20% | Data quality, methodology, and statistical rigor | Model Building & Findings | 25% | Accuracy, interpretation, and innovation | Final Report | 20% | Structure, clarity, referencing, and conclusions | Presentation & Viva | 15% | Communication, defense, and analytical insights |

COURSE NAME: FINANCIAL SENTIMENT ANALYTICS

COURSE CODE: COAF401-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the role of textual data and sentiment in financial markets.

CO2: Apply Python-based NLP techniques to extract and preprocess financial text data.

CO3: Analyze sentiment trends from news articles, reports, and social media data.

CO4: Evaluate sentiment models for accuracy and predictive power in financial contexts.

CO5: Design a sentiment-driven financial analytics project for investment or risk decisions.

Sustainability Development Goals (SDG)

Climate action, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Financial Sentiment and Text Analytics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U1-T1. Introduction to Financial Sentiment and Text Analytics

Description

Overview of financial sentiment analysis and its importance in finance - Market psychology and behavioural finance overview - Data sources: news headlines, earnings reports, analyst commentary, social media (Twitter, Reddit) - Introduction to text data, structure, and representation (tokens, words, corpora) - Applications in asset pricing, risk assessment, and portfolio management

U2: Text Mining and NLP Fundamentals using Python

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U2-T1. Text Mining and NLP Fundamentals using Python

Description

Text preprocessing: tokenization, stemming, lemmatization, stopword removal - Word frequency analysis and visualization (word clouds, n-grams) - Text representation models: Bag-of-Words, TF-IDF, Word2Vec, BERT embeddings - Introduction to Python NLP libraries: nltk, spaCy, textblob, transformers - Practical exercises with financial datasets.

Project: Cleaning and preparing stock news headlines dataset for analysis

U3: Financial Sentiment Scoring and Analysis**Teaching Hours: (12)****Development Needs:***Regional***Skill Focused:***Skill Development***Cross Cutting Issues:***Sustainability***U3-T1. Financial Sentiment Scoring and Analysis****Description**

Lexicon-based approaches: Loughran-McDonald, VADER, and Harvard IV dictionaries - Calculating sentiment polarity and subjectivity - Topic modeling: LDA and NMF - Measuring sentiment impact on asset prices - Sentiment indices and correlation with market returns - sentiment and financial performance of stocks - sentiment trends in world market events.

Project : Constructing a sentiment index using Loughran-McDonald dictionary for company news

U4: Machine Learning for Sentiment Prediction**Teaching Hours: (12)****Development Needs:***Global***Skill Focused:***Skill Development***Cross Cutting Issues:***Professional Ethics***U4-T1. Machine Learning for Sentiment Prediction****Description**

Supervised and unsupervised learning for text data - Feature extraction for sentiment classification - Algorithms: Logistic Regression, Random Forests, Naive Bayes, SVM - Deep learning with RNNs and Transformers (BERT, FinBERT overview) - Model training, testing, and evaluation (precision, recall, F1, ROC-AUC)

Project: Build a sentiment classification model using FinBERT on financial news headlines

U5: Applications and Project Development in Financial Sentiment Analytics**Teaching Hours: (14)****Development Needs:***Global***Skill Focused:***Entrepreneurship***Cross Cutting Issues:***Professional Ethics***U5-T1. Applications and Project Development in Financial Sentiment Analytics**

Description

Integrating sentiment analysis in trading strategies and portfolio management - Event studies using sentiment data (earnings announcements, policy changes, crises) - Sentiment-driven volatility forecasting and risk modeling - Capstone Project: End-to-end Financial Sentiment Analytics Model - Presentation and interpretation of project outcomes Capstone Project

Suggestions:

- Building a Twitter-based stock sentiment prediction model
- Predicting stock price movements using FinBERT sentiment scores
- Analyzing sentiment-driven volatility during financial crises

EXAMINATION PATTERN

COURSE NAME: FINANCIAL SENTIMENT ANALYTICS

COURSE CODE: COAF401-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: ALGORITHMIC TRADING AND QUANTITATIVE FINANCE

COURSE CODE: COM401F-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the principles and architecture of algorithmic trading systems and quantitative finance models.

CO2: Apply Python tools to analyze, process, and visualize financial market data.

CO3: Develop and backtest algorithmic trading strategies using Python

CO4: Evaluate trading performance using risk-adjusted return measures and optimization techniques.

CO5: Design a complete algorithmic trading project integrating strategy logic, coding, and performance reporting.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Algorithmic Trading and Quantitative Finance

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U1-T1. Overview of algorithmic trading and quantitative finance - Market microstructure, order types, and trade execution - Components of an algorithmic trading system - Python environment setup for financial analytics - Importing and managing financial data using APIs (Yahoo Finance, Alpha Vantage) Project: Import stock price data from an API, compute returns and volatility, and visualize price trends.

U2: Financial Data Analysis and Time Series Modeling using Python

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Financial time series concepts: returns, autocorrelation, volatility clustering - Stationarity and ARIMA models - Technical indicators: moving averages, RSI, MACD - Statistical and ML/ DL-based forecasting of prices - Data preprocessing for model building. Python Libraries needed: statsmodels, scikit-learn, pandas, matplotlib Project: Build and evaluate an ARIMA-based short-term stock price predictor using python

U3: Strategy Design and Backtesting Framework

Teaching Hours: (12)

Development Needs:

Regional

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Sustainability

U3-T1. Basics of trading strategies: mean reversion, momentum, and pairs trading - Portfolio construction and optimization - Backtesting concepts: data-snooping bias, look-ahead bias - Building backtesting systems in Python - Evaluating trading performance metrics (Sharpe ratio, Sortino ratio, Max drawdown) Python Libraries: numpy, pandas, matplotlib, backtrader, pyfolio Project: Implement and backtest a momentum-based trading strategy using historical price data.

U4: Machine Learning and AI in Algorithmic Trading

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment

U4-T1. Overview of ML techniques in finance (classification, regression, clustering) - Feature engineering and selection for financial datasets - Model evaluation and cross-validation - Reinforcement learning for trading (introductory concepts) - Risk management and position sizing Python Libraries: scikit-learn, tensorflow (optional), xgboost Project: Develop an ML-based trading signal model using historical financial indicators.

U5: Integrated Trading Systems and Capstone Project

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Integrated Trading Systems and Capstone Project Description

Integrating data analysis, strategy logic, and execution simulation - Real-time trading simulation using Python APIs - Portfolio optimization and risk-adjusted performance measurement - Visualization and reporting dashboards using Python - Ethical, regulatory, and practical considerations in algorithmic trading

Capstone Project Options:

5. Design and backtest a multi-factor trading strategy (momentum + volatility).
5. Develop an AI-based trading bot using ML classifiers for buy/sell signals.
5. Build a portfolio optimization model integrating Sharpe ratio and risk metrics.

Essential Reading

1. Tucker Balch, M. (2020). Machine learning for algorithmic trading. Packt Publishing.
1. Lopez de Prado, M. (2018). Advances in financial machine learning. Wiley.
1. Jansen, R. (2021). Hands-on financial modeling with Python. Packt Publishing.

EXAMINATION PATTERN

COURSE NAME: ALGORITHMIC TRADING AND QUANTITATIVE FINANCE

COURSE CODE: COM401F-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I (20 marks)+ CIA II (50 marks)+ CIA III (20 Marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE-100 marks

COURSE NAME: BUSINESS POLICY AND STRATEGIC MANAGEMENT

COURSE CODE: COM402-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the fundamental concepts, evolution, and scope of business policy and strategic management, and articulate the role of strategic intent and governance in modern organizations.

CO2: Analyze the external and internal business environment using strategic tools such as PESTEL, Porter's Five Forces, value chain, RBV, and SWOT to identify strategic issues and opportunities.

CO3: Formulate appropriate business-level, corporate-level, and global strategies – including innovative and sustainable options – based on organizational capabilities and environmental conditions

CO4: Apply strategic models to implement strategies effectively through appropriate structures, leadership, culture, resource allocation, and ethical practices, addressing challenges in strategic change.

CO5: Evaluate organizational strategies using strategic control systems, KPIs, the Balanced Scorecard, and sustainability/ESG metrics to enhance performance and long-term value creation.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Introduction to Business Policy and Strategic Management

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U1-T1. Introduction to Business Policy and Strategic Management

Description

Definition, nature and scope of Business Policy; Evolution of Strategic Management as a field; Concepts of Strategy and Strategic Management; Levels of strategy – corporate, business, and

functional; Strategic intent – vision, mission, goals, and objectives; Strategic fit and strategic flexibility; The role of strategic management in sustainability and corporate governance.

U2: Environmental and Internal Analysis

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U2-T1. Environmental and Internal Analysis

Description

Environmental scanning: PESTEL, Porter's Five Forces Model; Industry life cycle analysis; Competitor analysis and benchmarking; Internal environment: resource-based view (RBV), value chain analysis, core competencies, VRIO framework; SWOT analysis and strategic gap analysis.

U3: Strategy Formulation

Teaching Hours: (14)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U3-T1. Strategy Formulation

Description

Business-level strategies: Cost leadership, differentiation, and focus; Corporate-level strategies: growth, stability, retrenchment, diversification, mergers and acquisitions, strategic alliances, joint ventures, international strategies; Blue Ocean strategy; Global strategic options in the digital era. Integrating core strategic management themes, environmental analysis, competitive advantage, corporate & business-level strategy, and governance with AI-enabled strategic intelligence, scenario planning, decision support systems, & platform strategies.

U4: Strategy Implementation

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U4-T1. Strategy Implementation

Description

Organizational structure and strategy; Resource allocation; Leadership and culture in strategy implementation; Managing strategic change and innovation; Business ethics and corporate social responsibility in strategy execution; Managing resistance and building commitment.

U5: Strategy Evaluation and Control

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U5-T1. Strategy Evaluation and Control**Description**

Nature, importance, and process of strategy evaluation; Strategic control systems; Balanced Scorecard and Key Performance Indicators (KPIs); Measuring strategic effectiveness and organizational performance; Strategic audit; Contemporary issues — digital disruption, sustainability strategy, ESG integration. Embedding green perspectives through sustainability-driven strategy, climate risk assessment, circular & regenerative models, ESG integration, and long-term value creation would help learners engage with strategy as a tool for resilience.

Essential Reading

- Grant, R. M. (2021). *Contemporary Strategy Analysis: Text and Cases Edition* (11th ed.). Wiley.

EXAMINATION PATTERN

COURSE NAME: BUSINESS POLICY AND STRATEGIC MANAGEMENT

COURSE CODE: COM402-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: INTERNSHIP

COURSE CODE: COM481-8

COURSE TYPE: Practical

TOTAL HRS: 30 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Apply theoretical knowledge to real-world business environments

CO2: Demonstrate professional skills and workplace competencies

CO3: Critically analyse business operations and organizational practices

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to the Organization

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. 1.1 Profile of the organization (including evolution, awards and recognition) 1.2

Vision, Mission, Goals

U2: Organizational Design and Functional Areas

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. 2.1 Organization design & structure 2.2 Departments and Divisions 2.3 Product/s and Service/s 2.4 Business Model

Description

• Hierarchical/flat/matrix structure (include organogram if possible) • Overview of key functional departments • Major offerings, features, target market • Revenue generation, customer acquisition, delivery mechanism

U3: Key Performance Areas (KPA's), Organizational Control and Strategies**Teaching Hours: (60)****Development Needs:***Global, National, Regional***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Professional Ethics*

U3-T1. 3.1 KPA's of the various departments 3.2 Accounting Standards & Reporting followed 3.3 HR Practices 3.4 Financial Highlights 3.5 Modes of Marketing 3.6 Integration of AI 3.7 Tax Filing & Auditing 3.8 SWOC Analysis of the Organization (Based on the intern's observation and analysis supported by facts)

Description

KPAs across various departments (Sales, HR, Finance, etc.) • IND AS, internal reporting systems, compliance frameworks • Recruitment, appraisal, training, and retention strategies • Key financials (Turnover, Profit, Investments – if available) • Digital, traditional, B2B/B2C approaches, branding • Use of AI, automation tools, ERP systems, CRM tools • Tax practices, statutory audit process, internal audits • Strengths, Weaknesses, Opportunities, Challenges • Factors driving organisational growth and sustainability • Intern's strategic or operational recommendations

U4: Course Learning Outcomes and Conclusion**Teaching Hours: (60)****Development Needs:***Global, National, Regional***Skill Focused:***Employability, Skill Development***Cross Cutting Issues:***Human Values, Professional Ethics, Sustainability*

U4-T1. 4.1 Applications of Theoretical Knowledge to Real-World Business Environments 4.1.1 Relevance of Academic Theories (Accounting, Finance, HR, etc.) 4.1.2 Gaps or Irrelevance Identified 4.2 Professional Skills and Workplace Competencies 4.2.1 New Skills Acquired During Internship 4.2.2 Existing Skills Nurtured or Strengthened 4.2.3 Skills/Competencies Identified for Further Development 4.2.4 Input from Key Personnel

Description

4.3 Critical Analysis of Business Operations and Practices

4.3.1 Good Business Practices Observed

4.3.2 Practices Worth Replicating at CHRIST University

Conclusion

☐ Summary of internship experience

☐ Key takeaways and reflections

☐ Impact of internship on career readiness

EXAMINATION PATTERN

COURSE NAME: INTERNSHIP

COURSE CODE: COM481-8

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Assessment (Marks Distribution) Weekly Report Submission - 40 Marks Industry Mentor's Evaluation - 20 Marks Internship Mentor's Evaluation - 40 Marks Internship Report Evaluation - 50 Marks Viva Voce Examination - 50 Marks Total - 200 Marks

COURSE NAME: QUANTITATIVE RESEARCH METHODS

COURSE CODE: COM501R-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, necessity, and defining characteristics of quantitative research, and distinguish it from qualitative research

CO2: Design a basic survey framework by identifying suitable sampling methods, data collection modes, and approaches to minimize non-response bias.

CO3: Develop valid and reliable survey instruments through appropriate question design, scaling, and pretesting techniques.

CO4: Evaluate experimental designs and identify strategies to ensure validity, control variables, and derive causal inferences in business research.

CO5: Perform and interpret statistical analyses ethically, integrating quantitative findings into evidence-based business decision-making.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Motivation and self-awareness, Technological literacy

Course Content

U1: Foundations of Quantitative Research

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Quantitative Research -. Nature, Necessity, and Importance - Relevance and Urgency in the Data-Driven Era (ADHOGS & DVUCA) - Defining Characteristics: Scope, Objectivity, Goal, Data, and Method - Quantitative vs. Qualitative Research - Strengths and Shortcomings

U2: Introduction to Survey Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Survey Research – Meaning and Purpose – When and Why Surveys Are Used – Types of Surveys (Cross-Sectional, Longitudinal) – Sampling in Survey Research (Sampling Frame, Probability & Non-probability Methods) – Non-response and Bias Reduction – Modes of Survey Data Collection (Mail, Telephone, Online, Face-to-Face) – Implementation and Ethical Considerations

U3: Advanced Considerations in Survey Research

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Designing Good Measures – Question Design and Wording – Scales and Response Formats – Reliability and Validity of Instruments – Pre-testing and Pilot Studies – Survey Implementation and Interviewer Training – Data Preparation (Coding, Cleaning, Data Entry) – Ethical and Error Perspectives (Total Survey Error, Bias Control)

U4: Experimental Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Experimental Research – Concept and Purpose – Independent and Dependent Variables – Randomization and Control – True, Quasi-, and Field Experiments – Internal and External Validity – Threats to Validity and Control Techniques – Practical Applications in Commerce and Management Contexts – Ethical Issues in Experimental Studies

U5: Data Analysis in Quantitative Research

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Data Preparation – Handling Missing Data and Outliers – Testing Assumptions (Normality, Linearity, Multicollinearity) – Descriptive and Inferential Statistics (Mean, SD, t-test, ANOVA, Correlation, Regression) – Multivariate Analysis (Factor Analysis, CB-SEM,

PLS-SEM) - Hypothesis Testing and Error Types (I-IV) - Effect Size and Statistical Power - Interpreting and Reporting Results - Ensuring Reproducibility and Ethical Reporting
Essential Reading

1. Fowler, F. J. (2025). Survey research methods (Reprint 5th ed.). SAGE Publications.
1. Campbell, D. T., & Stanley, J. C. (2025). Experimental and quasi-experimental designs for research. Ravenio Books.
1. Field, A. (2025). Discovering statistics using IBM SPSS statistics (5th ed.). SAGE Publications.

EXAMINATION PATTERN

COURSE NAME: QUANTITATIVE RESEARCH METHODS

COURSE CODE: COM501R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA - I - 20 CIA - II - 50 CIA -III - 20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A - $7 \times 5 = 35$

Section B - $5 \times 10 = 50$ Section C - $1 \times 15 = 15$

COURSE NAME: QUALITATIVE RESEARCH METHODS

COURSE CODE: COM502R-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, design process, and ethical considerations of qualitative research.

CO2: Distinguish among the five qualitative research approaches and identify suitable designs for business contexts.

CO3: Develop qualitative research problems, purpose statements, and research questions aligned with study objectives.

CO4: Apply appropriate methods for qualitative data collection, coding, and thematic analysis using software tools.

CO5: Write and evaluate qualitative research reports incorporating reflexivity, validation, and ethical standards.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Technological literacy

Course Content

U1: Designing a Qualitative Study

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Qualitative Research – Meaning - Characteristics and purpose of qualitative research - When to use qualitative research - Ethical considerations and preliminary design issues - Steps in the qualitative research process - Components of a qualitative research proposal.

U2: Five Qualitative Approaches to Inquiry

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Overview of five approaches – Narrative, Phenomenological, Grounded Theory, Ethnographic, and Case Study – Definition, features, and procedures of each approach – Application in business and management research – Challenges in each approach – Comparison of approaches.

U3: Introducing and Focusing the Study

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Formulating the research problem – Developing purpose and research questions – The central question and sub-questions – Aligning research questions with the chosen qualitative approach – Writing qualitative purpose statements and research questions.

U4: Data Collection, Analysis and Representation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Data Collection: Meaning and process of data collection in qualitative studies – The data collection circle – Selection of sites and participants – Purposeful sampling strategy – Forms of data: interviews, observations, documents, audiovisual materials – Field issues and ethical considerations.

U4-T2. Data Analysis and Representation: Organising, coding, and categorising qualitative data – Data analysis spiral – Thematic analysis – Representing and visualising data – Introduction to qualitative software (NVivo, Atlas.ti, MAXQDA).

U5: Writing, Validation and Evaluation in Qualitative Research

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Writing qualitative research reports – Structure and style – Reflexivity and representation – Validation and reliability in qualitative research – Strategies for trustworthiness – Evaluation standards for qualitative studies.

Essential Reading

Creswell, J. W., & Poth, C. N. (2025). *Qualitative Inquiry and Research Design: Choosing Among Five Approaches* (4th ed.). SAGE Publications.

EXAMINATION PATTERN

COURSE NAME: QUALITATIVE RESEARCH METHODS

COURSE CODE: COM502R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA - I - 20 CIA - II - 50 CIA - III - 20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A - $7 \times 5 = 35$ Section B - $5 \times 10 = 50$ Section C - $1 \times 15 = 15$

COURSE NAME: RESEARCH DISSERTATION

COURSE CODE: COM581R-8

COURSE TYPE: Practical

TOTAL HRS: 360 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)
- Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Demonstrate the ability to plan and execute a research project within defined time constraints and available resources.

CO2: Perform a substantial review of literature relevant to the chosen research topic to justify the significance of the study.

CO3: Demonstrate mastery of quantitative or qualitative research skills applicable to commerce and management contexts.

CO4: Demonstrate a clear knowledge and understanding of ethical standards in data collection, reporting, and academic integrity

CO5: Demonstrate effective communication of complex business concepts through both a written document and an oral presentation

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Dissertation Proposal

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Before beginning the full dissertation, candidates must submit a proposal that proves the research is novel, significant, and feasible.

Description

Content and Structure• Specific Aims: Concisely state research goals, hypotheses (if applicable), and the expected impact on management practices or commerce theory.

Research Strategy:• Significance: Explain the critical barrier in commerce/management the project addresses and how it improves existing professional knowledge.

- **Innovation:** Describe any novel theoretical frameworks, methodologies, or applications that challenge current business paradigms.
- **Approach:** Detail the methodology (e.g., quantitative, qualitative, or mixed methods) and data analysis plans.
- **Timeline and Milestones (1 page):** A outline of benchmarks, from data collection to the final defense.
- **Preliminary Studies:** Discuss any initial data or pilot studies conducted to establish the feasibility of the project.

U2: Dissertation Structure

Teaching Hours: (295)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Dissertation is divided into three parts - Preliminary Pages, Main Body and End Matter

Description

PRELIMINARY PAGES

1. Title Page - Title of the Dissertation, Student Name & Register Number, Programme: BCom (Honours) with Research, Department / Institution Name, Supervisor Name & Designation, Academic Year 2. Declaration by the Student - Certificate from the Supervisor, Acknowledgements (Optional but recommended) 3. Abstract - 200–300 words, Background, Objectives, Methodology, Key findings, Keywords (4–6) 4. Table of Contents 5. List of Tables 6. List of Figures (if applicable) 7. List of Abbreviations (if applicable)

B. MAIN BODY OF THE DISSERTATION

Chapter I – Introduction - Background of the Study, Conceptual / Theoretical Context, Statement of the Problem, Need and Significance of the Study, Objectives of the Study, Research Questions , Scope of the Study, Limitations of the Study, Chapterisation Scheme

Chapter II – Review of Literature and Hypotheses Development - Introduction, Review of International Studies, Review of National Studies, Research Gap Identification, Conceptual Framework / Research Model (if applicable), Hypothesis Development Chapter - 3 Research Methodology

Chapter - 4 Data Analysis and Interpretation

Chapter V – Findings, Suggestions and Conclusion

END MATTER

References and Appendices

U3: Other Guidelines

Teaching Hours: (5)
