72. Digital Marketing Strategies and Communication Behaviour (COH401M-8)	
73. Consumer Behaviour and Neuromarketing (COH402M-8)	304

DEPARTMENT VISION AND MISSION

a. Vision Statement:

To be a centre of excellence in the realm of Commerce and Management, developing and nurturing global competencies in students through quality education, research and continuous innovation.

b. Mission Statement:

M1: To nurture commerce professionals who possess a high level of knowledge and competence to effectively contribute to society with commitment and integrity.

INTRODUCTION TO BACHELOR OF COMMERCE (HONOURS)

The Bachelor of Commerce (Honours) curriculum is designed to develop interdisciplinary commerce knowledge, analytical capability, professional competence, technological literacy, leadership, and ethical decision-making.

PROGRAMME OUTCOME

Reference No	Statement	Attribute
PO1	Apply interdisciplinary commerce knowledge, including finance, accounting, management, and technology, to develop sustainable and innovative business strategies that address cross-cutting issues and global challenges.	Academic Excellence: Domain Expertise; Leadership: Consultative Decision Making
PO2	Demonstrate leadership, communication, and teamwork skills to collaborate in diverse business environments while designing innovative, socially responsible business models that integrate sustainability principles, technological advancements, and ethical frameworks to address societal and environmental challenges.	Leadership: Team Building Skills; Professional Excellence: Entrepreneurship; Social Sensitivity: Environmental Sensitivity
PO3	Utilize appropriate research methodologies and analytical tools to critically evaluate business challenges and provide evidence-based, technology-driven solutions.	Academic Excellence: Problem Solving Skills; Self-Learning and Research Skills
PO4	Create strategies to integrate new knowledge, skills, and technologies, adapting to the dynamic nature of business and supporting continuous professional growth.	Leadership: Dynamism; Professional Excellence: Continuous Learning

COURSE STRUCTURE

Bachelor of Commerce (Honours)

SEMESTER - I

Course Code	Course Name	Course Type	Category	Total Marks	L-Hr/Week	T-Hr/Week	P-Hr/Week	Credits
ENG283-1	ENGLISH FOR PROFESSIONAL COMMUNICATION	Theory	Ability Enhancement Compulsory Courses	50.00	2	0		2
KAN081-1Y	FOUNDATIONAL KANNADA	Theory	Ability Enhancement Compulsory Courses	50.00	2	0		0
BBA133	STOCK MARKET PRICE ACTIONS	Theory	Add On Courses for Extra Credit	50.00	2	1		3
COM171A-1	PROGRAMMING USING PYTHON (BASIC)	Theory	Add On Courses for Extra Credit		15	0		1

COURSE NAME: ENGLISH FOR PROFESSIONAL COMMUNICATION

COURSE CODE: ENG283-1

COURSE TYPE: Theory

TOTAL HRS: 2 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Auditing) [Integrated with CA] (SEMESTER - I)
- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)
- Bachelor of Commerce (Branding and Entrepreneurship) (SEMESTER - I)
- Bachelor of Commerce (Finance and Accountancy) (SEMESTER - I)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)
- Bachelor of Commerce (Financial Analytics) (SEMESTER - I)
- Bachelor of Commerce (Global Management Accounting and Strategy) (SEMESTER - I)
- Bachelor of Commerce (International Accountancy and Finance) (SEMESTER - I)
- Bachelor of Commerce (International Finance) (SEMESTER - I)

Bachelor of Commerce (Honours) (SEMESTER - I)

- Bachelor of Commerce (Strategic Finance) (SEMESTER - I)
- Bachelor of Commerce (Work Integrated) (SEMESTER - I)

Course learning Outcomes

CO1: Construct and deliver professional presentations, reports and emails, demonstrating clear, concise, and persuasive communication appropriate for diverse business audiences.

CO2: Analyze and interpret texts, including financial reports and case studies, to identify key arguments, evaluate evidence, and draw informed conclusions.

CO3: Demonstrate proficiency in using specialized business vocabulary accurately in both written and oral communication, enhancing their professional credibility.

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Life below water, Life on land, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U1-T1. The Flowering Tree by A K Ramanujam

Description

"The Flowering Tree", written in the folklore tradition, is often seen as a metaphor for female resilience, ecological balance, and cultural memory. Ramanujan's retelling bridges ancient oral traditions and modern literary sensibilities, making it a timeless narrative open to multiple readings.

U1-T2. Balai by Rabindranath Tagore

Description

Rabindranath Tagore's short story Bolai (from the collection Lipika) is a poignant exploration of innocence, nature, and the clash between childhood wonder and adult pragmatism.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U2-T1. SHAZADPUR (Glimpses of Bengal by Rabindranath Tagore)

Description

Between 1885 and 1895, Rabindranath Tagore spent extended periods in rural Bengal, overseeing his family's estates in places like Sheldaidaha, Patisar, and Shazadpur (now in Bangladesh). During this time, he wrote a series of personal letters, mostly addressed to family members and close friends. These letters, later selected and translated by Tagore himself in Glimpses of Bengal, offer vivid portraits of village life, natural beauty, and human relationships in colonial Bengal.

U2-T2. Message to the Modern World by an Indian Chief (Script)

Description

In 1854, Chief Seattle delivered a letter (often misrepresented as a speech) to the then-President of the United States, Franklin Pierce, following a request by the U.S. government to purchase his tribe's land for the purpose of expanding the American frontier. The context of the letter is tied to the encroachment of settlers on Native American lands and the forced relocation of tribes as part of broader U.S. government policies such as the Indian Removal Act.

U3: Essay

Teaching Hours: (7)

Development Needs:

Global, Local

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U3-T1. Trees of Bangalore by Madhav Gadgil

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U3-T2. Thinking Like a Mountain - Aldo Leopold

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U4-T1. Green building ratings crucial to address climate change

Description

As the global community intensifies efforts to address climate change, the building and construction sector—responsible for a significant share of carbon emissions—presents both a challenge and an opportunity. This article explores the critical role of sustainability in shaping the built environment.

U4-T2. International Rivers statement on Teesta dam disaster in Sikkim

Description

This powerful and urgent article highlights the devastating collapse of the Chungthang dam (Teesta III) in Sikkim on October 4, 2023, following a glacial lake outburst flood (GLOF).

EXAMINATION PATTERN

COURSE NAME: FOUNDATIONAL KANNADA

COURSE CODE: KAN081-1Y

COURSE TYPE: Theory

TOTAL HRS: 30 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)
- Bachelor of Commerce (Finance and Accountancy) (SEMESTER - I)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)
- Bachelor of Commerce (International Accountancy and Finance) (SEMESTER - I)

Bachelor of Commerce (Honours) (SEMESTER - I)

Course learning Outcomes

CO1: Able to confidently converse in Kannada for their everyday transaction.

CO2: Enable them to converse for the different domains.

CO3: Understand the rich culture and heritage of Karnataka.

CO4: Able to acquire vocabulary and sentence structures.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Motivation and self-awareness, Resilience flexibility and agility

Course Content

U1: Introduction to Kannada Phonetics and Basic Words of Kannada

Teaching Hours: (15)

Development Needs:

Local, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values

U1-T1. 1. Introduction to Kannada – Phonetics, Alphabets and Vocabulary.

U1-T2. 2. Introduction to Kannada Phonetics – Akaara, Ikaara, Okara, Na & na sound, Ta & ta sound, la & La sound, Sha, SHA and Sa sound finally Ha sound.

U1-T3. 3. Names of the week, month, time, measures, fruits, vegetables, colors in Kannada

U1-T4. 4. Greetings forms in Kannada for the different Occassions : Festival, Birthday and other special occasions.

U1-T5. 5. Local Place names and Directions

U1-T6. 6. Simple Sentence formation.

U2: Basic Day-to-Day Conversations

Teaching Hours: (15)

Development Needs:

Local, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values

U2-T1. 1. Self Introduction ,

U2-T2. 2. Conversational activity in various contexts: Skit-based activity.

U2-T3. 3. Conversation with the Guests visit to home, Auto Drivers, Vegetable and fruits Vndors.

U2-T4. 4. Conversation between two Students.

Essential Reading

Muddu Kannada: R. L. Anantharamiah

Vyavaharika Kannada: HSK

EXAMINATION PATTERN

COURSE NAME: BASICS OF ACCOUNTANCY AND ECONOMICS

COURSE CODE: COM001-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Bachelor of Commerce (Honours) (SEMESTER - I)

- Bachelor of Commerce (Strategic Finance) (SEMESTER - I)
- Bachelor of Commerce (Work Integrated) (SEMESTER - I)

Course learning Outcomes

CO1: Understand the basic concepts and objectives of accounting

CO2: Apply accounting principles and double entry system to record transactions

CO3: Prepare ledger accounts and trial balance

CO4: Explain fundamental concepts of economics and economic problems

CO5: Analyse demand and supply concepts and market equilibrium

CO6: Understand national income concepts and the impact of inflation

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, No poverty

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Accounting

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning and Objectives of Accounting – Users of Accounting Information – Book Keeping vs Accounting – Branches of Accounting – Accounting Terminologies.

U2: Accounting Concepts and Double Entry System

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Accounting Concepts and Conventions – Double Entry System – Types of Accounts – Rules of Debit and Credit – Journal Entries.

U3: Ledger and Trial Balance

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Ledger Posting – Balancing of Accounts – Trial Balance – Errors and Rectification (Introductory level). Introduction to Partnership accounts

U4: Introduction to Economics

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Meaning and Scope of Economics – Micro and Macro Economics – Basic Economic Problems – Opportunity Cost – Production Possibility Curve

U5: Demand and Supply

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Law of Demand – Law of Supply – Determinants – Elasticity of Demand – Market Equilibrium.

U6: National Income and Inflation

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U6-T1. Meaning of National Income – Concepts of National Income – Methods of Measurement – Inflation: Meaning, Causes and Effects.

Essential Reading

Author:

Paul A. Samuelson, William D. Nordhaus Title: Economics Edition: 20th Edition (most commonly listed edition) Publisher: McGraw Hill Education (often published by McGraw-Hill / Tata McGraw Hill for Indian editions) Details: Widely used comprehensive economics textbook covering microeconomics and macroeconomics fundamentals. Copy-ready reference: Samuelson, P. A., & Nordhaus, W. D. Economics (20th ed.). McGraw Hill Education.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL ACCOUNTING

COURSE CODE: COH101-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - I)

Course learning Outcomes

CO1: Compare the accounting system adopted in hire purchase and installment system.

CO2: Analyze and apply royalty accounting principles to calculate royalty under different situations..

CO3: Apply consignment concepts to record and account for various aspects of consignment transactions.

CO4: Analyse the branch transactions to calculate profit or loss

CO5: Analyze the significance and application of Accounting Standards and IFRS in financial reporting

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control

Course Content

U1: Accounting for Hire-Purchase and Installment Systems

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Hire Purchase - Meaning - Legal provisions, [including repossession – only theory] - Calculation of interest - when the rate of interest and cash price is given - when cash price and the total amount payable is given when the rate of interest and installments amount is given, but cash price is not given - Calculation of cash price under annuity method - Journal entries and Ledger accounts in the books of hire-vendor under outright property method

Description

Description

Meaning and importance of Human Resource Planning, Factors affecting Human Resource Planning, Forecasting the demand and supply of human resources; Recruitment – Internal and External Sources; Selection – Screening and Final Selection, Use of tests in the selection process; Placement – Basis of placement and problems involved in the placement process.

U3: Job Analysis, Job Design and Training

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Job Analysis, Job Design and Training

Description

Job Analysis, Job Design and Training

Description

Concept and uses of job analysis, Process and methods of job analysis; Job description and job specification; Role analysis; Concept of job design - Approach and methods of job design, Job redesign in India, Job simplification, Job rotation, Job enrichment and Job Enlargement; Difference Between Job Analysis and Job Design; Training: Meaning, Training versus development, Need for training, identification of training needs, methods of training - On the job and off the job methods (Recent trends in training using Extended reality Green Training and Development Training employees on: Energy conservation Waste reduction Sustainable work practices

U4: Performance Appraisal and Promotion

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Performance Appraisal and Promotion

Description

Performance Appraisal: Meaning and Objectives of Performance Appraisal; Methods of performance, appraisal and Limitations; Identifying and measuring employee performance; Performance appraisal and Performance Management system (PA vs PMS); Purpose of promotion, Basis of Promotion, Types of promotion and transfer.

U5: Contemporary issues in HRM

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Contemporary issues in HRM

Description

Impact of Globalization on Human Resource Management; Human Resource Information Systems (HRIS); Employee Coaching, Counselling and Industrial Relations; Moonlighting by employees – Flexitime and Flexiwork; The Great Resignation and Quiet Quitting; Human Resource Evaluation-HR Audit, HR Metrics and HR Accounting, Organizational Politics, Outsourcing and Outplacement; Exit Policy and Practice, Future of HRM

Essential Reading

1. Stone, D.L., & Deadrick, D.L. (2021). Human Resource Management: A Strategic Approach. Wiley.

EXAMINATION PATTERN

COURSE NAME: BUSINESS LAW

COURSE CODE: COM101-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Bachelor of Commerce (Honours) (SEMESTER - I)

- Bachelor of Commerce (Strategic Finance) (SEMESTER - I)
- Bachelor of Commerce (Work Integrated) (SEMESTER - I)

Course learning Outcomes

Decent work and economic growth, Good health and well-being, Partnerships for the goals

21st Century Skills

Analytical thinking

Course Content

U1: Automation in Accounting

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Automation in Accounting

Description

Meaning of Automation, Automation in Accounting, Impact on Accountants and Industry, Tally, XBRL, Blockchain, Cloud Computing in Accounting, Big Data in Accounting, Robotic Process Automation in Accounting, Recent innovations in Accounting: Connected Banking.

U2: Introduction to Tally Prime

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Introduction to Tally Prime

Description

Introduction - Features of TallyPrime - Downloading and Installation of TallyPrime - Types of Licenses in TallyPrime - Activate New License - Reactivate License in TallyPrime - Use License from Network in a Multiuser Environment - Working TallyPrime in Educational Mode- Company - Creation and Setting up-

Company Features in TallyPrime - Activating GST - Getting Started with TallyPrime - Configuration in Tally Prime - Alter Company - Shut Company

U3: Maintaining Chart of Accounts

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Maintaining Chart of Accounts

Description

Introduction - Chart of Accounts - Creators of Masters in Tally Prime - Accounting Masters - Group and Ledger Creation - Inventory Masters - Creation of Stock Group, Stock Category, Unit of Measure, Inventory, Stock Item and Godown - Alteration and Deletion of Masters - Multi Master Creation

U4: Recording and Maintaining Transactions

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Recording and Maintaining Transactions

Description

Recording Transactions in Accounting Vouchers - Storage and Classification of Inventory - Accounts Receivable and Payables Management - Purchase and Sales order Management - Tracking Additional Cost of Purchase - Cost/Profit Centers - Budgets and Scenarios - Inter-state and Intra-State Transactions - Regular and Composition Dealer

Teaching Hours: (7)

Development Needs:

National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U3-T1. Intersectional Discrimination: Understanding the Indian Perspective

Description

This essay looks at gender discrimination in the Indian context with examples.

U3-T2. Excerpt from “The Truth About Me: A Hijra Life Story” - A. Revathi

Description

The novel shares experiences of an Indian hijra in a stigmatized society.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U4-T1. Changing Face of Women's Representation in Hindi Cinema

Description

In a country where cinema is both cultural currency and a reflection of societal values, the portrayal of women in Bollywood deserves critical scrutiny. This article unpacks the complex history of women's representation in Hindi cinema—from the silencing of their presence in early 20th-century films to their objectification through item numbers and the male gaze, as theorized by Laura Mulvey.

U4-T2. Why Diversity Programs

Description

This article critically examines the efficacy of long-standing corporate diversity programs, revealing that many popular strategies—such as mandatory diversity training, hiring tests, and grievance systems—not only fail to improve diversity but often worsen it.

EXAMINATION PATTERN

COURSE NAME: BUSINESS MATHEMATICS AND STATISTICS

COURSE CODE: COH101-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - II)

Course learning Outcomes

CO1: Utilize knowledge of compounding and discounting to make better decisions

CO2: Articulate the laws of probability and make the best decisions based on probability

CO3: Calculate and interpret correlation and regression coefficients

CO4: Apply descriptive statistics to analyze data and draw inferences.

CO5: Explain various methods of identifying and predicting trends based on existing values.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Quality control

Course Content

U1: Basic Mathematics of Finance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Basic Mathematics of Finance

Description

Simple and Compound interest; Rates of interest – nominal, effective and continuous – their interrelationships; Compounding and discounting of a sum using different types of rates, Types of annuities.

U2: Probability

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U2-T1. Probability

Description

Meaning of probability – Approaches to probability – Rules of probability, Conditional probability – Bayes’ Probability; Probability distributions – Bernoulli distribution – Binominal distribution – Poisson distribution – Normal distribution.

U3: Unit 1: Univariate Analysis

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Unit 1: Univariate Analysis

Description

Measures of Central Tendency: Mean, Median, Mode Measures of Variation: Range, Mean Deviation, Standard Deviation, Quartile Deviation Measures of Shape: Kurtosis and Skewness Measures of Position: Partition Values

U4: Bivariate Analysis

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U4-T1. Bivariate Analysis

Description

Correlation Analysis: Meaning, types and properties; Measurement- Scatter Diagram, Karl Pearson's Correlation Co-efficient, Spearman’s Rank Correlation, Probable Error and its use. Regression Analysis: Meaning, types and properties; Linear Regression – Assumptions, Computation, Equation and Estimation.

U5: Time-Series Analysis

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Time-Series Analysis

Description

Time Series – Meaning, Time Series Vs Longitudinal Data Vs Panel Data, Components of time series; additive and multiplicative models; Trend analysis: Finding trend by semi-average method, moving average method and least squares method.

Development Needs:

None

Skill Focused:

None

Cross Cutting Issues:

None

U3-T1. Theory of Production and Cost

Description

Production function; Law of variable proportions; Laws of returns, Economies of scale; Cost Function- Important cost concepts. Short run and long run cost analysis (traditional theory) Modern theory of cost- Revenue analysis. TR, AR and MR.

U4: Market Structure

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U4-T1. Market Structure

Description

Market structure- Perfect competition, Price and output determination- Monopoly- Price output determination, Price discrimination Monopolistic Competition – Features, Price and Output determination (Short Run and Long Run). Oligopoly: Definition and types of Oligopoly.

U5: Measuring Nation's Income and Cost of Living

Teaching Hours: (9)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U5-T1. Measuring Nation's Income and Cost of Living

Description

Measuring GDP - Real and Nominal GDP and GDP Deflator – Inflation: Consumer Price Index, Comparison of CPI and GDP Deflator and Adjusting economic variables to inflation – Money Supply Measures.

U6: Money and the Financial System

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

None

U6-T1. Money and the Financial System

Description

Saving and Investment in National Income Accounts. The Market for Loanable Funds. Banks and the Money Supply. Monetary Measures. Meaning of Inflation and Costs of Inflation. Tools of Credit Control.

2. Ray, N.C. (2014). An introduction to Microeconomics, Macmillan Company of India Ltd: Delhi.

EXAMINATION PATTERN

COURSE NAME: SPREADSHEETS FOR BUSINESS

COURSE CODE: COH261-2

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - II)

Course learning Outcomes

CO1: Demonstrate basic data cleaning and pre-processing in Excel

CO2: Apply Financial, Logical, Statistical, Reference and Text Excel functions to solve Accounting and finance problems

CO3: Construct payroll, Ratio analysis, Cash flow statement of a business using Excel VBA.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction

Description

Spreadsheet - Workbook - Cell Referencing, Cell Addressing, File Menu; Home Menu, Range, Conditional Formatting, formatting as a Table, Cell Styles, AutoSum, Sort and Filter; Insert Menu: Inserting Tables and Pivot Tables, Smart Arts, Charts; Page Layout, Review and View Menus; Freeze panel Data view: Converting Text to Columns, Removing Duplicates, Data Validation, Grouping and Ungrouping. Basic Excel functions: flash fill, sum, Average, Min, Max, count, sum-product.

U2: Financial, Logical and Text Functions

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Text, Logical and Financial Functions

Description

Text Functions: UPPER, LOWER, LEFT, RIGHT, TRIM, T, TEXT, LEN, DOLLAR, EXACT, CONCATENATE Logical Functions : AND, OR, NOT, IF, TRUE Financial Functions: Depreciation (DB, DDB, VDB), Simple Interest (PMT, NPER, INTRATE) - Present Value, Net Present Value, Future Value (PV, NPV, FV) - Internal Rate of Return (IRR, MIRR); Practical exercises based on Text, Logical and Financial functions.

U3: Statistical and Reference Functions

Teaching Hours: (9)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Date & Time, Lookup & Reference and Statistical Functions

Description

Date & Time Functions: DATE, DATEVALUE, DAY, DAYS360, NOW, TIME, TIMEVALUE, WORKDAY, WEEKDAY, YEAR; Lookup and Reference Functions : HLOOKUP, VLOOKUP, TRANSPOSE, GETPIVOTDATA, HYPERLINK; Statistical Functions: Mean, Median, Mode, Standard Deviation, Correlation, Skewness, F Test, Z Test, Chi-Square Analysis; Practical Exercises based on Date & Time, Lookup & Reference and Statistical Functions

U4: Projects and Applications

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Projects and Applications

Description

Ratio Analysis, Cash Flow Statement, Payroll Processing, Marketing, Sales and Advertising Data Analytics, Social Media Marketing Analysis, Basic applications with Macros and VBAs, and Trending business applications using MS Excel.

EXAMINATION PATTERN

SEMESTER - III

COURSE NAME: CORPORATE ACCOUNTING

COURSE CODE: COH201- 3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - III)

Course learning Outcomes

CO1: Estimate underwriters' liability and be able to pass journal entries in the books of the company.

CO2: Construct the income statement and balance sheet of a company according the schedule III of companies Act 2013

CO3: Illustrate journal entries ledger accounts for the redemption of debentures

CO4: Estimate the value of goodwill under various methods

CO5: Estimate the value of shares of a company under Net assets, Earning capacity and fair value method

CO6: Distinguish between pre and post incorporation profits by constructing a statement- Profit prior of incorporation of a company.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control

Course Content

U1: Unit 1: Underwriting of Shares and Debentures

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction –Meaning of underwriting – Underwriting commission – Types of underwriting –Marked and Unmarked applications – Calculation of underwriter’s liability– Journal Entries in the books of the company on underwriter’s liability.

Description

U2: Unit 2: Final Accounts of Companies

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Framework for preparation and presentation of Financial Statements – Compliance with Accounting standards- Form and contents of Statement of Profit or Loss and Balance Sheet as per SCHEDULE III (Division ii) – General Instructions for preparation of Statement of Profit and Loss and Balance Sheet – Disposal of company profits – dividend tax deducted at source -Declaration of dividends out of Reserves-Transfer to Reserves etc., excluding calculation of manageria

Description

U3: Unit 3: Redemption of Debentures

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Meaning of debentures – Types of debentures - Redemption of debentures- Methods of redemption – problems on conversion method -problems on buying own debentures from open market (including ex-interest and cum interest quotations) – problems on redemption using sinking fund method

Description

U4: Unit 4: Valuation of Goodwill and Shares

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Valuation of Goodwill – Meaning of Goodwill – Need for Valuation of Goodwill – Factors Affecting Valuation of Goodwill – Methods of Valuation – Average Profit Method – Super Profit Method – Annuity Method-Capitalization Method-Valuation of Shares – Need for Valuation – Factors Affecting valuation of Shares- Net Asset Method – Yield Method – Fair Value-Practical Problems

Description

U5: Unit 5: Profit Prior to Incorporation

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Meaning – Calculation of Profit with the help of Time –Sales – Weighted Ratio's- Ascertainment of Profit or Loss Prior to Incorporation-Problems related to Trading and Profit and Loss Accounts based on sales ratios, time ratios and weighted ratios.

Description

Essential Reading

Jain S.P., Narang K.L., AgrawalSimmi (2024). Advanced Accounting. New Delhi: Kalyani Publishers.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL MARKETS AND INSTITUTIONS

COURSE CODE: COH202-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - III)

Course learning Outcomes

CO1: Understand the structure, components, and functions of the financial system, including financial assets, intermediaries, markets, and instruments.

CO2: Apply key concepts, classifications, and terminology related to capital markets, stock exchanges, SEBI regulations, and derivative instruments in practical and problem-based situations.

CO3: Analyse the nature, features, and scope of financial services, including fund-based and non-fund-based activities, and recent innovations in the financial services industry.

CO4: Apply knowledge of the role, functions, and regulatory framework of merchant banking, including lead management, issue management, and SEBI regulations governing capital issues and market practices.

CO5: Analyse concepts of venture capital, factoring, securitisation, and credit rating to assess their importance in financing, business development, and sustainable and ethical investment practices

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Motivation and self-awareness, Resilience flexibility and agility

Course Content

U1: 1: Introduction to Financial System

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Financial System, Financial Assets, Financial Intermediaries, Financial Markets, Classification, Components of Financial Market, Formal and Informal Financial Sectors, Financial Instruments, Multiplicity of Financial Instruments, New Financial Instruments. Key Elements of well- functioning Financial System, Financial Sector Reforms: Narasimhan Committee Report 1991and 1998. Indicators of Financial Development

Description

U2: Capital Market

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Capital markets- meaning; Classification of the capital market; growth of stock exchange, stockbrokers, functions of the stock exchange, Margin trading, Forward trading, Sensex, Nifty, OTCEI (over the counter exchange of India), Depositories, SEBI as capital market regulator - Objectives, Functions, Powers, Organization, SEBI and government, SEBI guidelines on primary markets, secondary markets, Sustainable finance and SEBI'S BSRs Frame work in Indian capital market(Briefly),

Description

cybersecurity in capital market, bookbuilding, buyback of shares. Derivatives in India- Introduction to Financial and Commodity Derivatives

U3: Introduction to Financial Services

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Meaning-features of financial services-Classification-scope-Fund-Based Activities-Non-fund-based Activities- Modern Activities -Sources of Revenue, causes of Financial Innovation – Financial Services and promotions of Industries – Innovation in finance and emerging technologies in finance services industry.

Description

U4: Merchant Banking

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Definition- origin merchant banking in India-merchant banks and commercial banks – services of merchant banks-qualities required of merchant bankers –merchant bankers as lead managers-guidelines-merchant bankers commission –Scope of Merchant Banking in India – Prohibition of Fraudulent and Unfair Trade Practices Relating to the Securities-Market regulation- Prohibition on Dealing /Communicating/Counselling on Matters Relating to Insider Trading,

Description

Issue of capital and Disclosure Requirements Regulations - SEBI issue and Listing of Debt Securities Regulation (Last amendment).

U5: Venture Capital and Factoring

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Concept - Meaning-Features- Activities of VC Funds- Scope of Venture capital - Importance-Origin-Initiative in India - Venture capital Guidelines - Methods of Venture Financing -sustainable and ethical investment, Factoring-Meaning - Modus operandi-Terms and conditions- Functions-Types of factoring- Factoring vs Discounting - Cost of factoring-Benefits – Factoring in

India-International Factoring. Securitisation of Debt. Credit Rating in India. Credit Rating agencies in India

Description

Essential Reading

2. Gordon & Natarajan. (2022), Financial Markets and Services, Himalaya Publishing House. India

EXAMINATION PATTERN

COURSE NAME: MARKETING MANAGEMENT

COURSE CODE: COH203-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - III)

Course learning Outcomes

CO1: Develop an understanding about the evolution of marketing and its relevance.

CO2: Create a marketing plan for a product or service that will meet the goals of an organization.

CO3: Evaluate the marketing strategy for an existing product.

CO4: Solve marketing problems and choose appropriate analytics techniques.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Peace, justice and strong institutions, Sustainable cities

21st Century Skills

Creative thinking, Dependability and attention to detail, Motivation and self-awareness, Resilience flexibility and agility

Course Content

U1: Fundamentals of Marketing

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Human Values, Sustainability

U1-T1. Fundamentals of Marketing

Description

Defining Marketing in 21st Century - Importance - Scope - Marketing Mix - Issues and challenges in Marketing in India - Marketing for social cause - Building customer satisfaction, value, loyalty, retention - Marketing Environment - Introduction to AI-driven marketing systems - Sustainable marketing practices sustainable product design, eco-friendly packaging, ethical sourcing, lifecycle assessment, energy efficiency, and consumer awareness towards environmentally responsible consumption

U2: STP Approach

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Sustainability

U2-T1. STP Approach

Description

- Developing & Communicating a Positioning Strategy - Writing Positioning Statement - Differentiation Strategies - Case Study - Value position and USP.

Marketing strategy-types - Levels of Market Segmentation - Segmenting Consumer Markets - Bases for Segmenting Business Markets - Market Targeting - Case Study - AI-enabled customer segmentation and targeting - Role & Scope of Brands - Brand Equity - Devising a Branding Strategy - Brand Positioning - Sustainable and purpose-driven branding

U3: Salesmanship and Service Marketing

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics, Sustainability

U3-T1. Salesmanship and Service Marketing

Description

Salesmanship: Meaning, Definition, Characteristics, Concept, Kinds, Nature, Evolution, and Psychology in Selling, Functions and Importance. Service Marketing - Goods Versus Services, Service Triangle, Service Quality, Applications in Marketing of Financial Services - Need and scope - Regulating framework of financial services Marketing of hospitality, tourism and the regulatory framework.

U4: Marketing Communication

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Human Values, Sustainability

U4-T1. Marketing Communication

Description

Marketing Communication process - Promotional tools - Factors in setting marketing communication mix - Measuring communication results - Marketing Communication Effectiveness - AIDA - DAGMAR - Hierarchy of Effects Model - Integrated Marketing Communications (IMC) -

AI in marketing communication (chatbots, programmatic advertising, AI content tools) - Social listening and sentiment analysis - Ethics and social responsibility in IMC campaigns, Green advertising, sustainability storytelling, eco-labels, environmental claims, greenwashing issues, transparency in environmental communication, and regulatory standards in India (ASCI guidelines).

U5: Marketing Research and Analytics

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics, Sustainability

U5-T1. Marketing Research and Analytics

Description

- Future of Marketing Analytics.

Introduction- Meaning of Marketing Research - Types - Scope - Marketing Research process - Introduction to Big Data and Internet of Things (IoT) - Digital Marketing - Content Marketing, Email Marketing, Mobile Marketing, Affiliate Marketing, Paidsearch Marketing, SEO - Marketing Analytics as an enabler of Marketing Strategy- POS Data - Assortment Optimization - Shelf-space optimization - Market Basket Analysis - Marketing Budget Optimization across Channels - Introduction to AI in marketing analytics - sentiment analysis, image analytics, social listening tools, predictive analytics (conceptual) - Sustainability metrics and ESG reporting basics

Essential Reading

1. Clow, K., & Baack, D. (2012). Cases in marketing management. Thousand Oaks, Calif.: SAGE.
2. Kotler, P., Kartajaya, H., & Setiawan, I. (2021). Marketing 5.0: Technology for humanity. Hoboken, NJ: Wiley.

EXAMINATION PATTERN

COURSE NAME: BUSINESS ANALYTICS

COURSE CODE: COM101-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - III)

Course learning Outcomes

CO1: Analyze the Evolution and Frameworks of Business Analytics

CO2: Apply Descriptive Analytics Techniques for Data Interpretation.

CO3: Analyse Predictive Models for Business Decision-Making

CO4: Analyse and Optimize Decision Models Using Prescriptive Analytics

CO5: Evaluate Advanced Trends in Business Analytics and Data Visualization

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Business Analytics

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Business Analytics

Description

Business Analytics – Evolution of Business Analytics - Concept of analytics and its significance in decision-making processes. Understanding the science behind data-driven decision-making in various business contexts. Exploring the 5V's of data (Volume, Velocity, Variety, Veracity, and Value) and their impact on analytics. Types of Analytics: Descriptive, Predictive, and Prescriptive, and their respective purposes. Examining the Business Analytics maturity curve and its implications. Application fields of Business Analytics: Marketing, Finance, HR, Operations, Sports, Healthcare, etc. Framework for Data-Driven Decision Making and Analytics Capability Building. Roadmap for developing analytics capabilities within organizations. Challenges in Data-Driven Decision Making and Future Trends in Business Analytics. Problem-solving methodologies with analytics. CRISP Framework for Business Analytics. Role of Artificial Intelligence in the Evolution of Business Analytics. Difference between Traditional Analytics vs AI-driven Analytics.

U2: Descriptive Analytics

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Descriptive Analytics

Description

Introduction to Descriptive Analytics, Data Types - Structured and Unstructured Data, Cross-Sectional, Time Series, and Panel Data. Types of Data Measurement Scales, Measures of Central Tendency, Percentile, Decile, and Quartile, Measures of Variation, Measures of Shape-Skewness and Kurtosis. Frequency Distribution and Histogram. Correlation analysis, Data Visualization – Histogram, Bar chart, Pie Chart, Scatter Plot using Excel. Application of these concepts in the fields of finance, human resources, marketing, etc. Introduction to Green Finance and Sustainable Analytics. Descriptive analysis based on actual Carbon emissions data, Energy consumption trends, ESG performance indicators.

Exercises And Cases: Descriptive Analytics

U3: Predictive Analytics

Teaching Hours: (16)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Predictive Analytics

Description

Modeling Relationships and Trends in Data, Analytics in Practice: Using Predictive Trendline Models, Simple Linear Regression, Finding the Best-Fitting Regression Line, Using Regression Models for Prediction, Least-Squares Regression, Simple Linear Regression with Excel, Regression as Analysis of Variance, Testing Hypotheses for Regression Coefficients, Confidence Intervals for Regression Coefficients, Residual Analysis, and Regression Assumptions, Checking Assumptions, Multiple Linear Regression, Analytics in Practice: Using Linear Regression and Interactive Risk Simulators to Predict Performance, Building Good Regression Models, Correlation and Multicollinearity, Practical Issues in Trendline and Regression Modeling, Regression with Categorical Independent Variables, Categorical Variables with More Than Two Levels. Introduction to Machine Learning for Prediction, Difference between Regression Models and Machine Learning Models.

Case and Exercise: Predictive Analytics

U4: Prescriptive Analytics and Decision-Making

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Prescriptive Analytics and Decision-Making

Description

Optimization Model – Elements of Optimization model. Assumptions of Linear Programming. Developing a Linear Optimization Model for a business scenario. Formulating Decision problem – Decision outcome with and without outcome probabilities.

Exercises and Cases: Prescriptive and Decision Analysis.

U5: Trends in Business Analytics and Data Visualization

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Trends in Business Analytics and Data Visualization

Description

Data Mining - Artificial Intelligence and Machine Learning - Fundamentals of AI and ML - Applications of AI/ML in business analytics. IoT and Sensor Data Analytics - Internet of Things (IoT) and its impact on data generation - Sensor data analytics for predictive maintenance, supply chain optimization, etc. Case studies and industry examples. Blockchain and Data Security - Overview of blockchain technology - Applications in data security and integrity - Implications for business analytics and data management.

Data Visualization - Introduction to advanced visualization techniques (e.g., interactive visualizations, geospatial visualizations) - Emerging trends in data visualization (e.g., VR/AR, storytelling with data) - Practical exercises using visualization tools.

Essential Reading

2. Albright, S. C., & Winston, W. L. (2020). Business analytics: Data analysis and decision making (5th ed.).

2. Black, K., Asafu-Adjaye, J., Burke, P., Perera, N., Sherwood, C., & Wasimi, S. (2024). Business analytics and statistics. John Wiley & Sons

EXAMINATION PATTERN

SYLLABUS FOR

COURSE NAME: HOLISTIC EDUCATION DEVELOPMENT-II

COURSE CODE: HED-NEP181-3

COURSE TYPE: Theory

TOTAL HRS: 1 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours) (SEMESTER - III)

Detailed course content was not present in the supplied syllabus text for this specific course; course structure information above is reproduced from the supplied curriculum.

COURSE NAME: FRENCH

COURSE CODE: FRE181-3

COURSE TYPE: Theory

TOTAL HRS: 2 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Arts (Communication and Media, English) (SEMESTER - III)
- Bachelor of Arts (Communication and Media, Psychology) (SEMESTER - III)
- Bachelor of Arts (Economics) (SEMESTER - III)

- Bachelor of Arts (Economics, Political Science) (SEMESTER - III)

- Bachelor of Science (Economics, Statistics) (SEMESTER - IV)
- Bachelor of Science (Life Sciences) (SEMESTER - IV)
- Bachelor of Science (Physics, Chemistry) with minor in Mathematics (SEMESTER - IV)
- Bachelor of Science (Physics, Mathematics) with minor in Astrophysics (SEMESTER - IV)

- Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - IV)
- Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

CO1: Students will be able to develop basic oral and written communication skills to comprehend and respond to situations from daily life

CO2: Students will be able to write about oneself/ others / the immediate environment and engage in simple conversation.

CO3: Students will gain awareness of German customs, traditions and norms and other socio-cultural aspects.

Sustainability Development Goals (SDG)

Quality education

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Empathy and active listening

Course Content

U1: Was machst du heute?

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Uhrzeit und Wochentage erfragen

Description

As seen in course content

U1-T2. Einen Termin vereinbaren, Auf eine Einladung antworten

U1-T3. Über Aktivitäten im Tagesablauf sprechen, Trennbare Verben

U1-T4. Freizeitaktivitäten, Verben mit Vokalwechsel

U2: Das schmeckt gut!

Teaching Hours: (8)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Einkaufsgespräche führen, Preise erfragen

Description

As seen in course content

U2-T2. Eine Einladung zum Abendessen

U2-T3. Komplimente machen

U2-T4. Über Essgewohnheiten sprechen, Vorlieben nennen, verb mögen, nehmen

U3: Meine Familie und ich

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U3-T1. Über eigene Familie sprechen, Angaben zum Familienstand machen

Description

As seen in course content

U3-T2. Sagen was ich mag, tun kann / tun muss, Modalverbs können and müssen

U3-T3. Smalltalk machen, um Hilfe bitten, Berichte über eine feier, Präteritum von sein and haben, Possessivartikel sein, ihr

U4: Endlich Freizeit

Teaching Hours: (7)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. Über Freizeitaktivitäten sprechen, Adverbien der Zeit

Description

As seen in course content

U4-T2. Sich verabreden, erzählen, was man gemacht hat

U4-T3. E Mails schreiben und antworten

U4-T4. Modalverben wollen, dürfen, sollen

Essential Reading

- Netzwerk neu Deutsch als Fremdsprache A1 Textbook, Workbook, Glossar and 2 CDs by Stefanie Dengler, Paul Rusch, Helen Schmitz, Tanja Sieber, Klett -Langenscheidt Publishers
- Studio D A1, set of three books and CD by Herr Mann Funk, Cornelsen Publishers
- Deutsch Sprachlehre für Ausländer and Glossar Deutsch-English by Heinz Griesbach-Dora Schulz, Max Hueber Publishers
- Deutsch für den Beruf, Textbook by Adelheid H, Max Hueber Publishers
- Deutsch für den Beruf Work book by Adelheid H, Max Hueber Publishers
- Grammatik Intensiv Trainer A1 Deutsch – Langenscheidt by Mark Lester, Larry Beason, Langenscheidt Publishers
- Fit für Goethe Zetifikat A1 start Deutsch 1 by Johanness Gerbes, Frauke van der Werff, Hueber Publishers
- Learn German through Games and Activities Level 1, Deutsch als Fremdsprache/Kursbuch und Arbeitsbuch and CD by Sabine Emmerich and Frederica Colombo, Eli Publishers

EXAMINATION PATTERN

COURSE NAME: GERMAN -II

COURSE CODE: GER181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment:

CIA

CIA-1

CIA 1: 20 marks -Test / assignment on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge.

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

No negative marking.

Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.

Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA- 2 (Mid Semester Exam): 50 marks – Written exam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. The question paper contains three sections:

Section A - Consists of questions on reading comprehension for 15 marks

Section B - Consists of questions on grammar and vocabulary for 20 marks

Section C - Consists of questions on writing and translation skills for 15 marks

The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.

CIA - 3

CIA 3: 20 marks – Creative Assignment / project / presentation on Linguistic and Oral Competence.

Assignment type- Individual / Groups of 3-4, Formative

Evaluation Criteria:

Pronunciation & Intonation – (4), Vocabulary Use – (4), Grammatical Accuracy – (4)

Fluency & Coherence – (4), Creativity & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

The End Semester Examination is a centralised assessment. The question paper contains three sections:

Section A - Consists of questions on reading comprehension for 15 marks

Section B - Consists of questions on grammar and vocabulary for 20 marks

Section C - Consists of questions on writing and translation skills for 15 marks

- Bachelor of Science (Physics, Mathematics) with minor in Astrophysics (SEMESTER - IV)
- Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - IV)
- Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

C01: Explain the role of oral tradition in the evolution of Hindi and demonstrate functional use of Hindi in public and professional domains using the Devanagari script.

C02: Describe the basic framework of India's language policy and analyze the significance of Hindi as a link language in a linguistically diverse society.

C03: Understand and apply the concept, process, and types of translation while evaluating the quality, issues, and challenges involved in translation practices.

C04: Communicate effectively in Hindi in oral and written forms for academic, social, and workplace contexts.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Hindi language

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Oral Traditions of Hindi

Description

Learn how Hindi was shared through stories, songs, and spoken words before writing. Students will explore simple examples of folk tales and poems.

U1-T2. Language Policy and Hindi (Basic Overview)

Description

Simple explanation of how Hindi is recognized and used in India, including its role in government, education, and communication

U1-T3. Devanagari Script

Description

Introduction to the Hindi script, learning letters (vowels and consonants) and simple words. Focus on reading and writing basics.

U1-T4. Hindi in Academic Writing

Description

Learn to write simple Hindi for school or academic use, including notices, short stories, paragraphs, and summaries. Focus on clear and correct writing

U1-T5. Link Language, Dialects of Hindi

Description

Learn how Hindi acts as a bridge language to connect people from different regions of India. Focus on easy phrases for conversation

U2: Translation

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Translation Translation - Concept and processes Types of translation Qualities required for a Translator Issues and challenges in Translation, translation practice.

Description

This unit introduces students to the theory and practice of translation with a focus on developing foundational translation skills. Students will study the concept of translation, its objectives, and the various stages involved in the translation process. Different types of translation will be discussed, along with the essential qualities and competencies required of a translator. The unit also examines common issues and challenges faced in translation, such as linguistic, cultural, and contextual difficulties. Practical translation exercises will help students apply theoretical knowledge and improve accuracy, clarity, and equivalence between source and target languages.

U3: Communicative Hindi

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Communicative Hindi

Description

This unit aims to enhance students' practical communication skills in Hindi for real-life and professional contexts. Emphasis is placed on public speaking in Hindi, day-to-day communication, and effective voice modulation. Students will be trained in spoken Hindi through interactive activities, including role plays and voice-over practice. The unit also includes micro-presentation exercises to develop confidence, fluency, and clarity of expression. Overall, the unit focuses on improving oral communication skills and functional language use in Hindi.

EXAMINATION PATTERN

COURSE NAME: BASIC HINDI

COURSE CODE: HIN181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1: Oral quiz or viva, or short class test to assess students' understanding of basic Hindi.

CIA-2: Mid-Semester Examination

CIA-3: Viva, class test or interactive quiz to evaluate translation and communicative Hindi skills.

Environment, Gender, Human Values, Sustainability

U1-T1. Essential reading : Samakaleen katha sanchay edited by Dr Sebastian K A & Dr Deepak Kumar Gond
STORIES 1 Malbe ka maalik 2 Dilli mein ek mouth 3 Mein haar gayi 4 Pita 5 Salam 6 Mousa ji 7 Tangnazar 8 Ek roomal ek anguthi ek chalni

Description

This unit introduces advanced learners of Hindi to select modern Hindi short stories that reflect complex social, political, and cultural realities of contemporary India. The prescribed texts include 'Malbe ka Malik' by Mohan Rakesh, which explores the trauma of Partition (Vibhajan ki Samasya), and 'Delhi Mein Ek Maut' by Kamleshwar, focusing on urban alienation and metropolitan tragedy (Mahanagariya Visangati). 'Main Haar Gayi' by Mannu Bhandari examines political consciousness and individual conflict, while 'Salam' by Omprakash Valmiki foregrounds Dalit experience and caste-based oppression. Pita by 'Gyanranjan' presents the struggle of marginalized communities (Pithiyon ka Sangharsh), and 'Mausaji' by Uday Prakash highlights the tension between imagination and reality (Kalpana aur Yatharth ka Dwandv). 'Ek Rumaal, Ek Anguthi, Ek Chalni' by Amrita Pritam explores themes of incomplete love and women's issues (Adhoori Mohabbat aur Stri Samasyayen), while 'Tang Nazar' by Mahendra Bhishm introduces transgender discourse (Transgender Vimarsh). Through critical reading and analysis of these narratives, the unit aims to enhance students' interpretative skills, deepen socio-literary awareness, and develop an advanced understanding of modern Hindi prose and its engagement with contemporary issues.

Hours : 5

Level of knowledge: Analytical

U2: Film studies

Development Needs:

Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Sustainability

U2-T1. 12 th fail, Lunch box, English- Vinglish, Dangal Queen

Description

This unit introduces students to the study of select contemporary Indian films as cultural texts,

focusing on their narrative structures, themes, character development, and socio-cultural significance. The prescribed films-The Lunch Box, 12th Fail, Dangal, Queen, and English Vinglish-will be studied for their representation of everyday life, education and perseverance, gender roles, self-identity, empowerment, and social transformation. Through guided classroom discussions, students will analyze cinematic techniques such as storytelling, visual symbolism, dialogue, and characterization. The unit adopts an interactive teaching pedagogy that includes film screening, selected clip presentations, group discussions, and critical interpretation to enhance analytical and communicative skills. Students will be encouraged to relate film narratives to contemporary social realities and literary concepts. For assessment, students will be provided with options in the examination, allowing them to answer questions based on any of the prescribed films, thereby promoting critical thinking, choice-based learning, and independent interpretation.

Hours : 5

Level of knowledge: Conceptual

U3: Creative Writing

Teaching Hours: (5)

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Social Media Writing

Description

This unit aims to develop students' creative expression and imaginative writing skills through guided practice in various literary forms. Students will be given simple and socially relevant topics, based on contemporary social issues, and will be encouraged to respond creatively by writing a poem, short story, or creative essay, according to their choice and aptitude. Emphasis will be placed on originality of thought, clarity of expression, thematic coherence, and effective use of language. The unit seeks to foster critical awareness of social realities while enabling students to articulate personal perspectives through creative modes of writing. Through this process, students will enhance their linguistic competence, creative confidence, and ability to engage meaningfully with social issues using literary expression.

U1-T1. 1. Time 2. Numbers from 51-100 3. Names of Animals in Sanskrit 4. Names of Birds in Sanskrit 5. Names of Fruits in Sanskrit

Description

Unit 1: Vocabulary for Nature and Numbers introduces learners to foundational Sanskrit vocabulary related to everyday natural elements and numerical expressions. The unit begins with the concept of Time, teaching basic terms for hours, parts of the day, and how to express time in Sanskrit. It extends into Numbers from 51 to 100 , building upon previously learned numerals to enable counting, calculation, and date representation. Learners will also explore the Names of Animals , Birds, and Fruits in Sanskrit, enriching their vocabulary with words commonly found in nature and daily conversations. This unit emphasizes pronunciation, spelling, and usage through engaging examples and repetition. By the end of the unit, students will be able to name various animals, fruits, and birds in Sanskrit and describe time-related activities, enhancing their confidence in both spoken and written communication.

U2: Everyday Objects

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U2-T1. 6. Names of flowers in Sanskrit 7. Names of clothes in Sanskrit 8. Names of vehicles in Sanskrit 9. Things at school. Library, classroom 10. Every day using materials

Description

Unit 2: Everyday Objects and Environment focuses on expanding learners' Sanskrit vocabulary related to common surroundings and daily life. The unit introduces names of Flowers, helping students appreciate nature's beauty through language. It then moves on to Clothes and Vehicles, providing terms useful for describing attire and modes of transportation. Learners also explore vocabulary related to Things at School, including items found in the library and classroom, enabling them to converse about their academic environment. Finally, the unit covers Everyday Household Materials, familiarizing students with objects they encounter daily at home. This practical vocabulary set helps students communicate effectively in real-life situations, strengthening their connection to the language. Emphasis is placed on correct pronunciation, gender usage, and contextual application. Activities and exercises ensure that learners not only memorize words but also use them confidently in simple sentences and conversations.

U3: Grammar and Sentence Construction

Cross Cutting Issues:

Sustainability

**U3-T1. 11. Genders 12. Antonyms 13. Days of the Week 14. Days of the Month 15.
Making Sentences**

Description

Unit 3: Grammar and Sentence Construction introduces fundamental grammatical concepts essential for building meaningful sentences in Sanskrit. This unit covers Genders, helping learners understand masculine, feminine, and neuter forms and their correct usage in sentence formation. Students will study Antonyms, enriching their vocabulary by learning pairs of opposite words, which improves expressive abilities. The unit also includes the Days of the Week and Days of the Month, enabling learners to discuss time-related topics fluently. A key focus is on Making Sentences, where students apply grammatical rules to construct simple, coherent sentences correctly. Through varied exercises, learners practice subject-verb agreement, word order, and sentence patterns. This unit bridges vocabulary knowledge and syntax skills, empowering learners to communicate ideas clearly and accurately in both spoken and written Sanskrit.

U4: Language Usage

**U4-T1. 16. Avyaya 17. Making Negative sentences 18. Translation 19.
Vachana Parevartane 20. Examination Hall**

Description

Unit 4: Language Usage and Expression focuses on advanced grammatical structures and practical language skills in Sanskrit. The unit begins with Avyaya (indeclinable words), which are essential for sentence cohesion and meaning. Students learn to form Negative Sentences, enabling them to express denial or negation accurately. The Translation component helps learners strengthen comprehension and linguistic flexibility by converting sentences between Sanskrit and their native language. The study of Vachana Parivartana introduces changing nouns and verbs between singular and plural forms, enhancing grammatical accuracy. Finally, vocabulary and expressions related to the Examination Hall prepare students for academic and formal communication contexts. This unit emphasizes correct usage, sentence transformation, and contextual application, helping learners gain confidence in both written and oral Sanskrit. Practical exercises encourage active participation and reinforce language skills needed for real-life situations.

U1-T1. Nrusimha champu by Suryakantha shastry, Ramamurthy Tripathi – 1&2 canto

Description

by Śrī Vedānta Deśika is a poetic retelling of the Nṛsimha avatāra, composed in the elegant campū kāvya style—a blend of prose and verse. The editions edited by Śrī Sūryakānta Śāstrī and Śrī Rāmamūrti Tripāṭhi provide a critical and lucid presentation of the first two cantos. The first canto narrates the tyranny of Hiranyakaśipu and the birth and virtuous life of Prahlāda, emphasizing devotion (bhakti) and the tension between divine grace and demonic arrogance. The second canto vividly describes the ferocious manifestation of Lord Nṛsimha from the pillar and the dramatic slaying of the demon king. The editors offer detailed Sanskrit commentary and explain grammatical, poetic, and philosophical elements, making the work accessible to students and scholars alike. These cantos exemplify devotional grandeur, poetic artistry, and philosophical depth, serving as ideal texts for understanding classical Sanskrit literature and Śrīvaiṣṇava theology.

U2-T1. Charudattam of Bhasa - 1 canto

Description

The unfinished Daridra-Charudatta (Charudatta in poverty) tells the story of the courtesan Vasantasena and is interesting for the same story was developed by Śhudraka into the more famous play Mrichakatika . Charudatta is an impoverished Brahman, who is one of the central characters in Sudraka's play Mricchakatika. Sudraka presents Charudatta as a noble and sensitive man, of respectable social position. His state of poverty is a result of his charitable nature, which is also shown as a positive trait.

Description

By learning grammar, it builds analytical, linguistic, and communication skills that are transferrable to many other areas like law, government, and tech.

EXAMINATION PATTERN

COURSE NAME: SANSKRIT

COURSE CODE: SAN281-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

This course includes three CIAs and an End Semester Evaluation. CIA 1 and CIA 3, each worth 20 marks (later reduced to 10 marks), will be administered by the respective faculty during class hours. CIA 2 is the Mid-Semester Examination (MSE), a descriptive test conducted centrally by the Office of Examinations. The MSE is a two-hour exam conducted for 50 marks, which is later reduced to 25 marks. The End Semester Examination (ESE) is also a centralized exam, conducted as a two-hour paper with a weightage of 50%. The ESE is conducted out of 50 marks and subsequently reduced to 50 marks. Attendance carries an additional 5 marks.

**U1-T1. Kappiyam – Silappathigaram- Purancheri Iruthak kathai. SANGAM
LITRETURE – Natrinaip Paadalgal. (poetry).**

**1.Kurinci thinai 01. 2. Kurinci thinai - 393 3.Mullai thinai
169. 4.Mullai thinai 367. 5. Marutha thinai 70.
6.Neithal thinai 172.**

Description

Silappathigaram – Purancheri Episode & Natrinai Poems – Description (150 words):

Silappathigaram , one of the five great Tamil epics, tells the powerful tale of Kannagi. The Purancheri episode describes her arrival in Madurai, seeking justice for her wrongly executed husband, Kovalan. This part highlights her inner strength, grief, and righteous anger, ultimately leading to divine justice and moral reflection in society. It combines deep emotion with epic grandeur, suitable for six hours of focused reading or analysis.

The Sangam literature , particularly Natrinai, is a classical Tamil anthology of love poems organized by landscapes (thinai). Each landscape symbolizes a specific phase of love:

- Kurinchi (mountainous – joyful union)
- Mullai (forest – patient waiting)
- Marutham (farmland – domestic life)
- Neithal (seashore – longing)
- Paalai (desert – separation and hardship)

These selected poems (e.g., Kurinchi 1 & 393, Mullai 169 & 367) reveal emotional depth, cultural imagery, and human experiences, offering a poetic journey through ancient Tamil life and love.

U2-T1. Novel – Aathankarai Oram – By V.Iraianbu, published by NCBH ,Chennai.

Description

Aathankarai Oram (The Riverbank) is a thought-provoking Tamil novel written by Dr. V. Iraianbu and published by NCBH, Chennai. The novel explores the intricate journey of human life, using the flowing river as a powerful metaphor for time, change, and inner reflection. Set against a rural backdrop, it delves into themes such as human relationships, self-realization, and the moral dilemmas individuals face while navigating life's uncertainties. The riverbank symbolizes the threshold between choices and consequences, dreams and reality. Through simple yet profound storytelling, Iraianbu crafts characters who are emotionally layered and socially grounded. His narrative style combines literary elegance with philosophical insight, making the novel both accessible and intellectually rich. Aathankarai Oram is not just a story but a journey of introspection, encouraging readers to pause and think about the direction of their own lives. It's a deeply reflective work that resonates with readers across age groups and backgrounds.

U3-T1. – Ani Ilakkanam.

Description

Ani Ilakkanam is the study of prosody and poetic meters in classical Tamil literature. It focuses on the rhythmic and structural patterns of Tamil poetry, defining how verses are composed and measured. This branch of Tamil grammar analyzes syllable length, stresses, and the arrangement of words to create musicality and harmony in poems. Ani Ilakkanam includes rules about various metrical forms like venpa, aciriyam, and kalithurai. It plays a crucial role in preserving the traditional poetic art by guiding poets to maintain meter and sound patterns, ensuring the aesthetic quality of Tamil classical and Sangam literature.

U4-T1. Letter Writing

Description

Letter writing is an essential part of the language syllabus, focusing on developing written communication skills. It is usually divided into two main types:

3. Formal Letters – Used for official purposes, such as applications, complaints, requests, and business correspondence. These follow a structured format with clear, concise language and a professional tone.
3. nds, family, or acquaintances. These letters are personal in tone and follow a more relaxed style.

The syllabus covers:

- Format (sender's address, date, greeting, body, closing)
- Tone and language appropriate to the type

- Clarity, coherence, and purpose
- Grammar and spelling accuracy

EXAMINATION PATTERN

COURSE NAME: TAMIL (ADVANCED)

COURSE CODE: TAM281-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Pattern

The evaluation and assessment will be based on Continuous Internal Assessments and an End Semester Examination.

CIA 1 –Project/ Assignment submission

CIA 2 – Mid-semester Examination

CIA 3 – Project/Assignment submission

CIA 's and Attendance will have 50% weight

The End semester Examination will have 50%weight

The final grade will be weighed with the average of ESE and CIAs.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Course Code- TAMAdvanced281-4

BA/B.Sc/B.Com - Paper IV – TAMIL AdvancedForth semester.

COURSE NAME: FINANCIAL MANAGEMENT

COURSE CODE: COH201- 4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Morning) (SEMESTER - IV)
- Bachelor of Commerce (SEMESTER - IV)

Course learning Outcomes

CO1: Explain the fundamental theories of financial management and apply Time Value of Money concepts to calculate present and future values using mathematical formulas, MS Excel, and financial tables.

CO2: Evaluate a firm's financing decisions by using capital structure theories and leverages to determine their impact on firm value.

CO3: Evaluate the costs of debt, preferred stock, and equity financing for the firm.

CO4: Evaluate long-term investment proposals to select the best alternative for the organization by applying capital budgeting tools.

CO5: Evaluate the importance of adequate working capital and to estimate working capital requirements for different organizations.

CO6: Analyse the relevance or irrelevance of the dividend decisions affecting the market value of the firm.

Sustainability Development Goals (SDG)

Decent work and economic growth

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Financial Management

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Meaning - scope and functions of Finance - Types of finance -Financial management - Nature, Characteristic, Functions, Scope & Process - Objectives of financial management - profit maximization - wealth maximization - Value creation - Time Value of Money: concept and reasons, Compounding and Discounting techniques, Concepts of Annuity and Perpetuity-practical problems (using MS excel also).

Description

U2: Financing Decision

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. Sources of Finance - Meaning of Capital Structure; Capital Structure and Financial Structure; Pattern of Capital Structure; Optimum Capital Structure - - Factors determining capital structure - Financial break even and indifference point (Only theory). Capital Structure Theories: net income approach, net operating income approach, traditional

approach and MM approach (Only theory) EBIT - EPS Analysis- Concepts of leverages - operating leverages - financial leverages - combined leverages.

Description

U3: Cost of Capital

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Concept, relevance of cost of capital- weighted average cost of Capital (computation). Computation of cost of specific source- cost of equity capital, cost of Retained Earnings, cost of Debt, and cost of Preference (only simple problems). green finance.

Description

U4: Investment Decision - Capital Budgeting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U4-T1. Long term and short term investment decisions - capital budgeting - importance - procedure - Factors Determining Capital Budgeting - Steps in Capital Budgeting - Cash flow

Estimation Methods of capital budgeting - payback period - Net present value & profitability index - Accounting rate of return - Internal rate of return - Problems based on each method- merits and demerits of each of the methods.

Description

U5: Investment Decision - Working Capital Management

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Meaning - concept of working capital, need for working capital - types of working capital - Factors affecting working capital needs - adequacy of working capital - Sources of Working Capital, Management of working capital - Principles of Working Capital - working capital cycle - working capital estimation and calculation. Meaning of cash and receivables management- Objectives of cash and receivables management- Cost of maintaining receivables - Factors affecting receivable management

Description

U6: Dividend Decision

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U6-T1. Dividend decision and valuation of firm – Meaning and form of dividend – stability of dividend – dividend policy – determinants of dividend policy – theories of dividend – relevance and irrelevance – Walter Model - Gordon Model (Problems) - Modigliani and Miller theory (only theoretical concepts)

Description

Essential Reading

Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and

seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual /
Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal
choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: PRINCIPLES AND PRACTICE OF BANKING

COURSE CODE: COH202-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Morning) (SEMESTER - IV)
- Bachelor of Commerce (SEMESTER - IV)

Course learning Outcomes

C01: C01: Analyse the origin, evolution, and role of banks and the banker–customer relationship.

C02: C02: Evaluate the operational procedures related to deposit accounts and negotiable instruments.

C03: C03: Examine lending principles, credit appraisal methods, and management of loan assets.

C04: C04: Assess the regulatory framework governing banking operations and financial stability in India.

C05: C05: Analyse the impact of technology adoption and digital innovations in banking.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Banking

Teaching Hours: (12)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Introduction to Banking

Description

Introduction to Banking – Origin and Evolution of Banking – Growth of Commercial Banks in India – Types of Banks (Commercial, Cooperative, Regional Rural, Development Banks) – Financial Services offered by Banks – Changing Role of Commercial Banks – Banker and Customer Relationship (General and Special) – Types of Customers – Rights and Obligations of Banker and Customer – AI-based KYC, AML, and Fraud Detection – Ethical Dimensions in Banking Relationships.

U2: Operational Aspects of Deposit Accounts

Teaching Hours: (12)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Operational Aspects of Deposit Accounts

Description

Banker as a Debtor and Creditor – Types of Deposit Accounts (Savings, Current, Fixed, Recurring) – Mandate and Power of Attorney – Banker's Lien and Right of Set-off – Payment and Collection of Cheques – Duties and Responsibilities of Paying Banker and Collecting Banker – Protection under Negotiable Instruments Act – Endorsements – Forged Instruments – Dishonour/Bouncing of Cheques and Legal Implications.

U3: Bank Lending

Teaching Hours: (12)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Bank Lending

Description

Principles of Bank Lending(Green Lending) – Types of Credit Facilities (Cash Credit, Overdraft, Term Loans) – Working Capital and Term Finance – AI in Credit Appraisal– Approaches to Lending – Credit Management and Monitoring – AI in NPA – Priority Sector Lending – Factoring – Ancillary Services – Remittances – Safe Deposit Lockers – Operational Aspects of Loan Accounts – Types of Collaterals and their Characteristics.

U4: Banking Regulations and Financial Stability

Teaching Hours: (12)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Banking Regulations and Financial Stability

Description

Need and Importance of Banking Regulation – Banking Regulation Act, 1949 – KYC and AML Guidelines – Banking Frauds and Preventive Measures – Banking Codes and Customer Protection – Basel Norms – SARFAESI Act – Asset Reconstruction Companies (ARCs) – Banking Ombudsman

Scheme – Policies related to Priority Sector and MSMEs – Agricultural Finance – Financing to MFIs – Co-lending Arrangements with NBFCs – Government Sponsored Schemes – Self-Help Groups (SHGs). Regulatory Support for Sustainable and Green Banking Initiatives

U5: Banking Technology

Teaching Hours: (12)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Banking Technology

Description

E-Banking – Meaning and Benefits – Home Banking – Mobile Banking – Internet Banking – Virtual Banking – Electronic Payment Systems – ATM Cards and Biometric Cards – Smart Cards – Core Banking Solutions (CBS) Environment – National Payments Corporation of India (NPCI) – Impact of Technology on Banking Operations – Green Banking through Digital Transformation- Emerging Trends in Banking Technology - Modern Delivery Channels - Drone-based payments -Open Banking models - Neo banking Models -Virtual banking models - Security aspects of digital banking systems - Revolution of Banking systems using modern technologies

Essential Reading

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U2-T1. The Entrepreneurial Skills and Practices

Description

Entrepreneurial myth, motivation for entrepreneurship, Entrepreneurial skills and competencies, entrepreneurial values and attitude; Entrepreneurial risk propensity and ability to cope; Implementing and managing the venture, Harvesting the venture, Design Thinking, Systems Thinking, Agile thinking and Lean thinking Blue Ocean Strategy, Role and relevance of mentors, Incubation cell, Methods of Brainstorming ideas. Types of ventures, Risk and Benefits, Legal and Regulatory Framework, Ethics and Social Responsibility, Market Research (venture opportunity screening), Feasibility Analysis.

U3: Creativity and Innovation

Teaching Hours: (14)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U3-T1. Creativity and Innovation

Description

Creativity, Principles of creativity, Creative Problem Solving: Heuristics, Brainstorming, Synectic, Value Analysis Innovation and Entrepreneurship: Profits and Innovation, Principles of Innovation, Disruptive, Incremental and Open innovations, Nurturing and Managing Innovation, Globalization, Concept and Models of Innovation, Methods of protecting Innovation and creativity, Significance of Intellectual Property Rights, Patents & Copyright, Business Model Canvas, and Lean Canvas. Geographical Indications (GI), Types, GI Law in India.

U4: Entrepreneurial Process

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U4-T1. Entrepreneurial Process

Description

Introduction to the Business Plan, Opportunity sensing and identification process (cases to be discussed on how business ideas are perceived); Generation of business ideas, feasibility analysis of business ideas, preparation of a business plan (practical work on devising of a plan is to be assigned to the students) in the form of a project report on specific business proposal; Project appraisal and its techniques Developing the Business Model for starting a new venture, E-Commerce and Growing the Venture: The Internet and its impact on venture development, Approaches to E-Commerce, Strategies for E-Commerce Success, The nature of international entrepreneurship and their importance

U5: Entrepreneurial Sustainability

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U5-T1. Entrepreneurial Sustainability

Description

Entrepreneurial mindset in the contemporary business scenario, family business and

entrepreneurship vis-à-vis first generation entrepreneurs (Nascent Entrepreneurship). Social support system for entrepreneurship, public and private system of stimulation; Availability of finance, marketing, technological and managerial support systems; Role of industries association; Entrepreneurs' self-help group, trade and industry associations; Existence of business incubators; Availability of venture capital and angel investors support system; Private equity funds; Startup Action Plan; Make in India initiative.

Cross Cutting Issues:

Human Values

U2-T1. Investigating Community Problems and Aligning Course Objectives and Outcomes, Identifying Relevant Literature for the problem, PRA tools, Reflection: Kolb's Model of Experiential Learning, Types of reflection, Reflective Journals and Diary, Planning and Designing the Service Learning Project (Block 8 Model), Plan for Effective Implementation, Reflect on Challenges, Reciprocal Learning Moments, and Adaptations.

Description

U3: Theoretical Models and Impact Analysis

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U3-T1. Exploring Theoretical Models for Solving Community Problems and Understanding Their Applicability, Reflections on the Selected Model for the service learning project, Presentation of the possible Impact and Effectiveness of the Service Learning Project, Executing the service learning Project, preparing and delivering the Project Deliverables: Review the project and conduct an impact analysis

Description

U4: Project Outcomes and Reflection

Teaching Hours: (15)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. Execution of service learning project, Showcasing Project Outcomes, Celebrating Achievements, and Reflecting on the Overall Service-Learning Experience, Showcasing

Project Outcomes, Celebrating Achievements, Reflecting on the Overall Service-Learning Experience, Final review and assessment.

Description

Essential Reading

1. Service-Learning in Business: A Guide to Integrating Community Engagement into the Business Curriculum, by Robert G. Bringle and Julie A. Hatcher (2015).

1. Cress, C. M., Collier, P. J., Reitenauer, V. L., & Associates. (1962). Learning through Serving: A Student Guidebook for Service-Learning and Civic Engagement Across Academic Disciplines and Cultural Communities. Publisher.

EXAMINATION PATTERN

COURSE NAME: SERVICE LEARNING AND COMMUNITY ENGAGEMENT

COURSE CODE: COM161-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 20 Marks, CIA II 20 Marks, CIA III 20 Marks, CIA IV 20 Marks, CIA V 20 Marks

SEMESTER - V SYLLABUS FOR

COURSE NAME: TAXATION - 1

COURSE CODE: COH101 - 5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)

Course learning Outcomes

CO1: Demonstrate understanding of the concepts of income, assesses, assessment, person, and other fundamental definitions.

CO2: Apply existing provisions relating to exemptions and determination of residential status.

CO3: Skillfully compute income from salary.

CO4: Execute the provisions pertaining to income from house property.

CO5: Apply the provisions and undertake the computation for Profits and Gains from Business and Profession.

CO6: Apply provisions to compute income from other sources.

Sustainability Development Goals (SDG)

Consumption and production, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Introduction

Teaching Hours: (4)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Concept of Income Tax-Finance Bill & Act; Definitions: Assessee, Person, Assessment year, Previous year, Income, Total Income and Agricultural Income – Concept of Capital & Revenue (a) Receipts (b) Payments (Expenditure) and (c) Loss – Meaning & brief explanation of Return of Income (Sec.139 /140), PAN (Sec.139 A)

U2: Basis of Charge and Exempted Income

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Charge of Income - Tax Residence Status of Individuals - Scope of Total Income - Income deemed to be received - Income Deemed to accrue or arise in India – Computation of total income based on Residential Status. Income not included in Total Income u/s 10: Fully exempted and partly exempted incomes.

U3: Income from Salary

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Brief introduction – Income from Salary – Definition; Characteristics of Salary Income; Computation of Salary Income – Basic Salary – Allowances – Perquisites - Leave Encashment- Commutation of Pension - Death-cum-Retirement Benefits – Gratuity - Compensation Received on Termination of the Service, Deduction from Gross Salary u/s 16 – Computation of income from salary.

U4: Income from House Property

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Meaning – Types of House Properties - Annual value Determination in different situations: House Property Let out but remained Vacant – Unrealized rent -Deductions for let out House properties – Annual Value of Self Occupied House Property -Deduction for Self- Occupied Property – House Property Income Exempted from Tax – Computation of Income From Let Out House Property, income From Self Occupied House Property.

U5: Profits and Gains from Business and Profession

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Computation of Income under this head - Allowable Expenses - Expenses expressly disallowed - Problems relating to business (sole trader only) and Problems on profession relating to Chartered Accountant, Advocate and Doctor.

U6: Incomes from Other Sources

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Meaning and Explanation – Various Incomes which are falling under this head – Deductions allowed – Expenses Not Deductible – Computation of Income.

COURSE NAME: PRINCIPLES AND PRACTICE OF AUDITING

COURSE CODE: COH201-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)

Course learning Outcomes

CO1: Explain various concepts relating to Auditing and list differences between book-keeping, accountancy, and audit

CO2: Apply audit preparation procedures in planning an audit by the auditor

CO3: Differentiate between internal check, internal control, and Internal audit.

CO4: Explain the concept of vouching and apply tools, techniques and procedures for verification and Valuation of Assets & Liabilities

CO5: Analyse the conditions for appointment and removal of auditors, their, qualifications, powers, duties, and liabilities.

CO6: Apply the concepts of Auditing to identify errors in framing the Financial Statements of the Companies

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control

Course Content

U1: Introduction to Audit

Teaching Hours: (9)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Introduction to Audit

Description

Origin of audit, meaning, definition, purpose and functions of audit, factors responsible for the growth of auditing, advantages and limitations of audit- Difference between book keeping, accountancy and audit, Objects of Audit- Main object & Secondary objectives, Errors, Location of errors, Position of Auditors in relation to errors & frauds, different types of audit and their relative advantages, statutory audit- partial audit- cash audit- interim audit, balance sheet audit, cost audit and occasions audit; Investigation- Meaning, difference between Investigation and Auditing; Investigation regarding business purchase and investments, Professional ethics of an auditor

U2: Preparation Before and Procedure of Audit

Teaching Hours: (9)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Preparation Before and Procedure of Audit Preparations before audit- preparations by the auditor- considerations at the commencement of audit, audit program, audit files, audit notebook, audit working papers. Procedure of audit - adoption of distinctive ticks-`- routine checking- Test checking.

Description

U3: Internal Control, Internal Check & Internal Audit

Teaching Hours: (10)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Internal Control, Internal Check & Internal Audit (A) Internal Control: Meaning, Importance, Elements for internal control. Evaluation of internal control system - Internal control questionnaire. (B) Internal Check: Meaning, definitions, fundamental principles, internal check as regards wages, cash sales, cash purchases, internal check in a store. (C) Internal Audit: Meaning, importance advantages and limitations; Differences between Internal audit and statutory audit.

Description

U4: Vouching

Teaching Hours: (11)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Vouching

Description

Meaning, definition, importance of vouching, routine checking and vouching, voucher types of vouchers, vouching of receipts, vouching of cash sales, receipts from debtors, bills receivable, proceeds from the sale of investments and buildings; Vouching of payments - vouching of cash purchases - payments of creditors, bills payable, purchase of building, plant and machinery and patent rights, vouching of deferred revenue expenditure - preliminary expenses, cost of issue of shares and debentures, under writing commission

U5: Verification and Valuation of Assets & Liabilities

Teaching Hours: (11)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Verification and Valuation of Assets & Liabilities

Description

Definition general principles, difference between verification and valuation - Auditor's position as regards valuation of assets - Verification and valuation of fixed assets- good will- land and building - plant and machinery - patents and trademarks – investments - Current assets - cash in hand, cash at bank, sundry debtors, stock in trade and bills receivable, methods of valuing stock in trade, verification of liabilities, sundry creditors, bills payable, outstanding expenses and contingent liabilities

U6: Company Auditor and Audit of Limited Companies

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U6-T1. Company Auditor and Audit of Limited Companies

Description

Company Auditor: - Appointment, qualifications and removal, powers, duties and liabilities of an auditor- civil and criminal. Audit of Limited Companies- Audit of financial statements – Balance sheet & Profit & Loss account, Contents of Audit Report – types of report audit reports. Audit of Share Capital and Transfer of Shares, Profits vs. divisible profits - Kinds of reserves- specific, general capital and reserves, duties of an auditor, legal provisions and reserves, provisions as to payment of dividend.

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Examination Pattern for Continuous Internal Assessment (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15 = 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: MANAGEMENT ACCOUNTING

COURSE CODE: COH301-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)

Course learning Outcomes

CO1: Explain the importance of management accounting in aiding organizational planning and control.

CO2: Analyze and interpret the firm's performance through various tools and techniques of management accounting.

CO3: Evaluate the managerial decisions by applying cost, profit, and volume analyses.

CO4: Prepare cash and flexible budgets to propose improvements in organizational planning.

CO5: Draft reports for decision-making under different business situations

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Quality control

Course Content

U1: Introduction

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction

Description

Evolution of Management Accounting, Meaning and Definition, Nature, Scope and Importance of Management Accounting, objectives and Functions of Management Accounting, relationship between Financial, Cost and Management Accounting, Distinction between Management accounting and financial Accounting, distinction between Management Accounting and Cost Accounting, Management Accountant: His status and Functions, duties of a Management Accountant.

U2: Analysis and Interpretation of Financial Statements

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Analysis and Interpretation of Financial Statements

Description

Concept and types of Financial Statements, Meaning, purpose and types of Financial Statement analysis, techniques/tools of analysis and interpretation – Comparative Income Statements, Comparative Balance Sheets, Common Size Income Statements, Common Size Balance Sheets, Trend Analysis (problem solving using chalk and talk as well as using excel).

U3: Ratio Analysis

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Ratio Analysis

Description

Meaning of Ratio, objectives of Ratio Analysis, Significance of Ratio Analysis, Limitations of Ratio Analysis, Classification of Ratios, calculation and interpretation of ratios- profitability ratios, liquidity ratios, solvency ratios, advanced problems on the above (including preparation of Income statement and Balance sheet) Case Study on Financial Ratio Analysis.

U4: Cash Flow Statement

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Cash Flow Statement

Description

Introduction of CFS, utility and limitations of CFS, Preparation of Cash flow Statement (Indirect method).

U5: Marginal Costing

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Marginal Costing

Description

Introduction, meaning of marginal cost and marginal costing, distinction between Absorption costing and Marginal costing, Contribution, Profit Volume Ratio, break Even Point, Margin of Safety, and Sales to earn a desired profit. Application of Marginal costing – Fixing selling price, Accept or reject an order, Profit Planning, Make or Buy decision, Shut down or continue, Problem of Key factor and Determination of sales mix.

U6: Budgetary Control and Management Reporting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Budgetary Control and Management Reporting

Description

Introduction-Meaning, Objectives, Essentials of Budgetary Controls, Classification of Budgets, Steps in Budgeting, Preparation of Cash Budget and Flexible Budget, Zero base budgeting- Concept and

Significance- Responsibility Accounting- Concept and Significance.

Meaning of Reporting and Reports, Essentials of an ideal report, Designing and Installation of Reporting system, Types of Reports, Drafting of Reports under different situations. Ethical considerations for management accounting professionals (Case study)

Essential Reading

COURSE NAME: RESEARCH METHODOLOGY

COURSE CODE: COM101-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - V)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - V)
- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - V)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

C01: Apply appropriate research types and approaches in real world business and social research situations.

C02: Construct a structured literature review and apply American Psychological Association (APA) format to cite scholarly and non-scholarly sources.

C03: Identify and discuss the complex issues inherent in selecting a research problem, selecting an appropriate research design, and implementing a research project

C04: Evaluate the key components of a research proposal

C05: Appraise different sampling techniques and research instruments to determine their appropriate use in research studies.

C06: Analyse data using appropriate statistical tools and statistical software and interpret the results.

Sustainability Development Goals (SDG)

Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Quality control, Technological literacy

Course Content

U1: Introduction to Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Research

Description

Nature of Research, Brief History of Research, Relevance: Why and How to do it?; Criteria of good research, Attributes of a good researcher; Social Research – Objectives, Assumptions and Applications, Significance and Difficulties of Social research; Business research – Purpose, Dimensions and Fields of Application; Ethics in research – APA Ethics code.

U2: Methods and Techniques of Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Methods and Techniques of Research

Description

Classification of Research – Pure Research, Applied Research, Exploratory Research, Descriptive Study, Diagnostic Research, Action Research; Quantitative Research, Qualitative Research, Triangulation Research; Experimental Research, Analytical Research, Survey Research, Historical Research, Case Study Research; Inter Disciplinary Research, Multi-Disciplinary Research and its essentials; Inductive and Deductive Methods.

U3: Literature Review, Research Problem, Research design

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Literature Review, Research Problem, Research design

Description

Literature Review – Scholarly and Non-Scholarly Sources, Literature Review formats – Narrative, Systematic, Scoping, Bibliometric; APA 7 th Edition for References;
Research Problem – Components, Problem Definition, Evaluation of Problem;
Research Design – Classification of Research Design, Importance of Research Design, Contents of a Research Plan.

U4: Sampling and Sample Design

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Sampling and Sample Design

Description

Key terms and terminologies, Purpose of Sampling, Sampling Techniques – Random Sampling and Non-random sampling, Errors in Sample Surveys – Sampling Errors and Non-Sampling Errors

U5: Methods and Tools of Data Collection

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Methods and Tools of Data Collection

Description

Meaning and Importance of Data, Sources of data – Primary, Secondary, Tertiary; Data collection methods – Surveys, Interviews, Focus group Discussions, Un focus Groups, Observations, Projective Techniques; Instruments of data collection – Questionnaire, Schedule, Interview schedule, Rating Scale, Check list, Opinionnaire; Variable – Meaning and types; Scales of Measurement – Nominal, Ordinal, Interval, Ratio

U6: Processing of Data and Report Writing

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U6-T1. Processing of Data and Report Writing

Description

Data Cleaning – Handling duplicate values, missing values and extreme values; Data Coding – Classification and transcription; Quantitative data analysis using SPSS (Practical aspects); Qualitative analysis using NVIVO (Practical aspects);
Report Writing – Types of report, Format of research report, Evaluation of reports.

Essential Reading

Q. No Question CO RBT 13 Case Study [15] 3 L3

COURSE NAME: INVESTMENT ANALYSIS AND PORTFOLIO MANAGEMENT

COURSE CODE: COH202-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Morning) (SEMESTER - VI)
- Bachelor of Commerce (SEMESTER - VI)

Course learning Outcomes

CO1: Describe the concepts of investment analysis and portfolio management

CO2: Check the risk and return of securities

CO3: Appraise securities using fundamental and technical analysis

CO4: Evaluate and interpret the intrinsic value of equity shares and debt securities using relevant financial models.

CO5: Construct and evaluate the performance of investments using portfolio management techniques

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Investment

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning of investment – Financial and economic meaning, Investment vs speculation - Importance of investments –Reasons for investing, Essential features of a good investment Programme/Features- Factors influencing the investment decision - Qualities of a successful investment – Contrary thinking - Patience composure - Flexibility and openness and decisiveness - Portfolio Management Process - Common Errors in Investment Management – Investment strategies – Investment Avenues -

Description

Green Investing – Green Investment avenues.

U2: Risk-Return Analysis

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Meaning – risk, return and realised return–Types of risks- Systematic risk and unsystematic risk- Components of return-Measuring return – ex-post return and ex-ante return – calculation of risk- Mean-Variance Approach -Calculation of systematic risk-Beta Calculation- Regression and correlation method.

Description

U3: Fundamental and Technical Analysis

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Fundamental Analysis – EIC analysis Economy Analysis- Meaning, Key economic variables, Industry Analysis-Meaning, Industry life cycle, characteristics of an industry and Porter's model, Company Analysis - Analysis of financial statements, future prospects of a company Technical analysis - Meaning of Technical analysis and basic principles of technical analysis- Trends and Chart patterns- Eliot wave theory Dow Theory, Random Walk Theory, support and resistance level -

Description

- different types of Charts Efficient market theory Mathematical indicators and Market indicators.
Fundamental Vs technical analysis

U4: Security Valuation (Equity and Debt Instruments)

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Time value of money - Concept of present value. Debt instruments and valuations, Holding Period Return- Current yield, Bond Risk, Bond Valuation Models – Bond with a maturity period, Bonds redeemable in instalments, Bond values with semiannual interest and Bonds in perpetuity, Bond pricing theorems, YTM and YTC (Direct method and trial and error method

simple problems), Bond duration convexity (simple problems). Equity instrument and valuations, Discounted cash flow methods, Dividend discount models –

Description

– Single period model, multi-period model, Constant growth model, and Two-stage growth model (simple problems)

U5: Introduction to Portfolio Management

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Meaning-The Portfolio Management Process Categories. Investment strategy objectives- Risk and Beta-Time value of money application to portfolio management-MPT and Dominance concept. Asset Allocation: Process, Types of asset allocation, Management style, Different approaches to allocation decision, and an overview of allocation techniques.

Description

U6: Portfolio Selection and Construction

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Portfolios return Portfolio risk and portfolio diversifications. Feasible set of portfolios, Efficient set of portfolios, Selection of optimal portfolio, Markowitz model and its limitations, The sharp Index model Single index model Measuring security and portfolio's return and risk under single index model. Capital Asset Pricing Theory, Assumptions, Efficient frontier, The capital market line (SML and CML), Pricing of securities with CAPM and its arbitrage theory.

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics, Sustainability

U5-T1. Dynamics of Organisational Behaviour - Power, Conflict and Negotiation

Description

Leadership - shared leadership, transformational leadership, authentic leadership, Ethical and responsible leadership, Leadership for sustainability Power – meaning and sources, Power and politics in organisations, Conflict – process, sources and outcomes, Conflict management, Negotiation process, Negotiation strategies, Global implications of negotiation Organisational culture – definition and functions, Creating and sustaining culture, Organisational culture and climate, Creating a culture for sustainability and innovation, Green organisational culture, Spirituality and organisational culture. Organisational change – meaning, forces for change, Resistance to change – overcoming resistance to change, Approaches to managing organisational change, Behavioural change for sustainability.

Essential Reading

- Robbins, S. P., & Judge, T. A. (2022). Organizational Behavior (19th ed.). Pearson Education.

- Luthans, F., Doh, J. P., & Luthans, B. C. (2021). Organizational Behavior: An Evidence-Based Approach (14th ed.). Information Age Publishing.
- McShane, S. L., & Von Glinow, M. A. (2021). Organizational Behavior: Emerging Knowledge, Global Reality (9th ed.). McGraw-Hill Education.

EXAMINATION PATTERN

COURSE NAME: ORGANISATIONAL BEHAVIOUR

COURSE CODE: COM402-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I	Quizzes, role plays, objective-type tests, written assignments, discussion forums, article reviews, case analysis, etc.	20
CIA II	Mid-Semester Written Examination (2 hours duration): Section A – Short Answer Questions (answer ALL three; the third question carries an internal choice) – $3 \times 5 = 15$ Section B – Conceptual / Descriptive / Problem-type questions (answer ALL two; one carries an internal choice) – $2 \times 10 = 20$ Section C – Case Study (compulsory) – $1 \times 15 = 15$	50
CIA III	Group work consisting of presentations, viva voce, and report submission.	20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: STRATEGIC COST MANAGEMENT

COURSE CODE: COH402-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Apply strategic cost management tools for competitive advantage.

CO2: Evaluate modern cost management techniques in business decision-making.

CO3: Design and implement strategic performance measurement systems.

CO4: Analyze pricing, profitability and transfer pricing decisions.

CO5: Interpret performance reports and recommend strategic improvements

CO6: Integrate cost management and performance evaluation for organizational effectiveness.

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Quality control

Course Content

U1: Foundations of Strategic Cost Management

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U1-T1. Introduction to Strategic Cost Management

Meaning and Scope of Strategic Cost Management (SCM)

Evolution of Cost Management

Limitations of Traditional Costing Systems

Traditional Cost Management vs Strategic Cost Management

U1-T2. Strategic Perspective of Cost Management

Competitive Advantage and Cost Leadership

Value Chain Analysis

Cost Drivers and Cost Reduction Strategies

Strategic Positioning and Cost Analysis

U1-T3. Contemporary Business Environment

Characteristics of Modern Business Environment

Impact of Globalization and Technology on Cost Management

Role of Management Accountants in Strategic Decision Making

U2: Quality, Lean Systems and Process Innovation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Environment, Sustainability

U2-T1. Quality Cost Management

Cost of Quality (COQ)

Prevention, Appraisal and Failure Costs

Total Quality Management (TQM)

U2-T2. Lean Management Systems

Just-in-Time (JIT)

Kaizen Costing

5S Methodology

Total Productive Maintenance (TPM)

U2-T3. Process Innovation

Business Process Re-engineering (BPR)

Six Sigma Concepts

Benchmarking

Continuous Improvement Techniques

U3: Advanced Strategic Cost Management Techniques

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Activity-Based Cost Management

Activity-Based Costing (ABC)

Activity-Based Management (ABM)

Cost Driver Analysis

U3-T2. Strategic Costing Techniques

Target Costing

Life Cycle Costing

Customer Profitability Analysis

U3-T3. Throughput and Constraint Management

Throughput Accounting

Theory of Constraints (TOC)

Bottleneck Analysis

U4: Strategic Revenue and Profit Management

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Strategic Pricing Decisions

Cost-Based Pricing

Market-Based Pricing

Target Pricing

Product Mix Decisions

U4-T2. Revenue Management

Strategic Revenue Management Concepts

Customer Value Analysis

U4-T3. Profitability Analysis

Strategic Profit Management

Customer and Product Profitability

Profit Planning Techniques

U4-T4. Emerging Business Models

Cost Management in Digital Business

Platform-Based Business Models

Service Sector Cost Management

U5: Strategic Performance Measurement and Control

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U5-T1. Strategic Performance Management

Concepts and Objectives

Performance Measurement Frameworks

U5-T2. Balanced Scorecard (BSC)

Financial Perspective

Customer Perspective

Internal Business Perspective

Learning and Growth Perspective

U5-T3. Performance Measurement Systems

Key Performance Indicators (KPIs)

Benchmarking and Best Practices

Responsibility Accounting

U5-T4. Performance Evaluation

Performance Prism

Performance Pyramid

Strategic Control Systems

U6: Transfer Pricing, Standard Costing and Performance Reporting

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U6-T1. Divisional Performance Evaluation

Decentralization and Responsibility Centers

Return on Investment (ROI)

Economic Value Added (EVA)

U6-T2. Transfer Pricing

Objectives of Transfer Pricing

Market-Based Transfer Pricing

Cost-Based Transfer Pricing

Negotiated Transfer Pricing

International Transfer Pricing Overview

U6-T3. Standard Costing and Variance Analysis

Standard Costing Concepts

Material, Labour and Overhead Variances

Planning and Operational Variances

Variance Investigation

U6-T4. Performance Reporting

Preparation of Performance Reports

Interpretation of Performance Reports

Strategic Recommendations

EXAMINATION PATTERN
COURSE NAME: STRATEGIC COST MANAGEMENT
COURSE CODE: COH402-7
PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I	Quizzes, role plays, objective-type tests, written assignments, discussion forums, article reviews, case analysis, etc.	20
CIA II	Mid-Semester Written Examination (2 hours duration): Section A – Short Answer Questions (answer ALL three; the third question carries an internal choice) – $3 \times 5 = 15$ Section B – Conceptual / Descriptive / Problem-type questions (answer ALL two; one carries an internal choice) – $2 \times 10 = 20$ Section C – Case Study (compulsory) – $1 \times 15 = 15$	50
CIA III	Group work consisting of presentations, viva voce, and report submission.	20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: CAPSTONE PROJECT
COURSE CODE: COM481-7
COURSE TYPE: Practical
TOTAL HRS: 8 Hours/Week
OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Identify and define a domain related research problem that requires data-driven analysis.

CO2: Apply financial, statistical, and computational tools to analyze real-world data.

CO3: Analyze relationships and patterns within financial datasets using appropriate models.

CO4: Evaluate the robustness and reliability of analytical outcomes.

CO5: Design and present a data-driven solution or model that addresses a financial problem

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking

Course Content

U1: Project Submission Phases

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Phases of Project:

Phase 1: Orientation and Proposal Development Weeks 1–2 - Introduction to project-based learning and applied research in finance- Topic selection and scope definition- Proposal writing and approval process Project proposal (Title, objectives, rationale, data source, methodology)

Phase 2: Literature Review and Conceptual Framework Weeks 3–4 - Review of relevant academic and industry literature- Identification of variables and hypotheses- Building conceptual and analytical framework Literature review report and research design

Phase 3: Data Collection and Preparation Weeks 5–6 - Data sourcing (Bloomberg, NSE, RBI, Yahoo Finance, Kaggle, etc.)- Data cleaning, preprocessing, and descriptive analysis. Cleaned dataset and exploratory data analysis report

Phase 4: Model Building and Analysis Weeks 7–11 - Model development using econometrics, machine learning, or financial modeling tools- Application of Python, R, or Excel for analysis- Validation and performance testing

Description

Phase | Weeks | Focus Area | Expected Deliverables | Phase 1: Orientation and Proposal Development | Weeks 1–2 | - Introduction to project-based learning and applied research in finance- Topic selection and scope definition- Proposal writing and approval process | Project proposal (Title, objectives, rationale, data source, methodology) | Phase 2: Literature Review and Conceptual Framework | Weeks 3–4 | - Review of relevant academic and industry literature- Identification of variables and hypotheses- Building a conceptual and analytical framework | Literature review report and research design | Phase 3: Data Collection and Preparation | Weeks 5–6 | - Data sourcing (Bloomberg, NSE, RBI, Yahoo Finance, Kaggle, etc.)- Data cleaning, preprocessing, and descriptive analysis | Cleaned dataset and exploratory data analysis report | Phase 4: Model Building and Analysis | Weeks 7–11 | - Model development using econometrics, machine learning, or financial modeling tools- Application of Python, R, or Excel for analysis- Validation and performance testing | Analytical model with output, interpretation, and visualizations | Phase 5: Report Writing and Presentation | Weeks 12–15 | - Structuring report (Abstract, Methodology, Results, Conclusion)- Final presentation and viva preparation | Final report, project presentation, and viva voce | Phase 6: Evaluation and Reflection | Week 16 | - Final evaluation by panel- Reflection on learning outcomes | Evaluation report and reflective summary |

U2: Suggested Project Themes

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. ♦ Financial Markets & Investment Analytics

- Predicting stock price movements using machine learning
- Sentiment analysis of financial news and its impact on stock returns

- Portfolio optimization using risk-return analytics
- Volatility modeling using GARCH or ARIMA models
- ◆ Corporate Finance & Valuation
 - Startup valuation using financial ratios and cash flow models
 - Financial distress prediction using logistic regression or random forest
 - Cost of capital and capital structure optimization
- ◆ Banking & Risk Analytics
 - Credit risk modeling using historical default data
 - Loan default prediction using classification algorithms
 - Value-at-Risk (VaR) and Expected Shortfall computation for portfolios
- ◆ Macroeconomics & Policy Analysis
 - Exchange rate forecasting using time series models
 - Impact of macroeconomic indicators on stock market performance
 - Inflation forecasting using ARIMA or regression techniques

Description

Financial Reporting & ESG Analytics • ESG disclosure sentiment analysis using NLP

- Financial statement fraud detection using anomaly detection
- Earnings call transcript analysis and its impact on firm performance

EXAMINATION PATTERN

COURSE NAME: CAPSTONE PROJECT

COURSE CODE: COM481-7

Evaluation and Assessment Structure (100 Marks)

Component	Weightage	Evaluation Criteria
Project Proposal	10%	Clarity of problem statement, feasibility, and research plan
Literature Review	10%	Depth of review,

Component	Weightage	Evaluation Criteria
		conceptual framework
Data Preparation & Analysis	20%	Data quality, methodology, and statistical rigor
Model Building & Findings	25%	Accuracy, interpretation, and innovation
Final Report	20%	Structure, clarity, referencing, and conclusions
Presentation & Viva	15%	Communication, defense, and analytical insights

Total Marks for the Course: 100.00

COURSE NAME: GLOBAL FINANCIAL SYSTEMS

COURSE CODE: COH401F-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the structure and evolution of the international financial system and its institutional framework.

CO2: Analyze the functioning of foreign exchange markets and the determination of exchange rates under different regimes.

CO3: Evaluate the role and policies of global financial institutions like the IMF, World Bank, and BIS in maintaining financial stability.

CO4: Assess the dynamics of international capital flows and their implications for emerging economies.

CO5: Apply theories of international finance to real-world financial issues such as currency crises, global imbalances, and digital finance.

Sustainability Development Goals (SDG)

Good health and well-being

21st Century Skills

Empathy and active listening

Course Content

U1: Introduction and Evolution of the International Financial System

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning and difference between the international monetary system (IMS) and the international financial system (IFS). The evolution of the global financial system, including the Gold Standard, the Bretton Woods system, and the transition to the current flexible/floating exchange rate regimes.

Fundamentals, accounting components (current account, capital account, reserve account), disequilibrium and adjustment mechanisms, and factors affecting international trade flows.

Description

U2: International Financial Markets

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Foreign Exchange (Forex) Market- Structure, major participants (commercial banks, central banks, corporations, brokers) and exchange rate quotations.

Exchange Rate Theories: Purchasing Power Parity (PPP), Interest Rate Parity (IRP), International Fisher Effect, and factors determining exchange rates (inflation, interest rates, government policies).

Currency Risk and Exposure: Types of exposure (transaction, translation, and economic) and

Description

internal/external hedging strategies using financial derivatives (forwards, futures, options, swaps).

Country Risk Analysis: Assessing political and economic risks associated with cross-border investments.

U3: International Financial Institutions and Regulatory Framework

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. International standard setting institutions and legal framework, for the global financial regulation. The roles, functions, and importance of major institutions like the International Monetary Fund (IMF), the World Bank Group (WBG), regional development banks (e.g., Asian Development Bank), and central banks. Bank for International Settlements (BIS) and Financial Stability Board (FSB), G7, G20, and global financial governance.

Description

Role of WTO and Regional Economic Integration such as the European Union (EU) and regional trade agreements like NAFTA.

U4: International Capital Markets and Global Financial Instruments

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Structure of international capital markets: Eurocurrency, Eurobond, and offshore markets;

International money market instruments (CDs, commercial paper, treasury bills), Equity Market: Concepts like American Depository Receipts (ADRs) and Global Depository Receipts (GDRs). Role of credit rating agencies and global benchmarks (LIBOR, SOFR)

Description

U5: Contemporary Issues in Global Finance

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Global financial crises: causes, contagion, and management, Cryptocurrency and digital currencies in international finance, Financial globalization and challenges for emerging markets, Sustainable finance and global regulatory reforms (Basel norms), India's integration with the global financial system

Description

Essential Reading

- Madura, Jeff. International Financial Management, Cengage Learning.
- Levi, Maurice D. International Finance: The Markets and Financial Management of Multinational Business, Routledge.
- Apte, P.G. International Financial Management, McGraw Hill.
- Bhalla, V.K. International Financial Management: Text and Cases, Anmol Publications.

CIA I	Quizzes, role plays, objective-type tests, written assignments, discussion forums, article reviews, case analysis, etc.	20
CIA II	Mid-Semester Written Examination (2 hours duration): Section A – Short Answer Questions (answer ALL three; the third question carries an internal choice) – $3 \times 5 = 15$	50

Component	Description	Marks
	Section B – Conceptual / Descriptive / Problem-type questions (answer ALL two; one carries an internal choice) – $2 \times 10 = 20$ Section C – Case Study (compulsory) – $1 \times 15 = 15$	
CIA III	Group work consisting of presentations, viva voce, and report submission.	20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: MERGERS AND ACQUISITIONS

COURSE CODE: COH402F-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understand the Concepts and importance of Mergers, Acquisitions, and Corporate restructuring to the business world.

CO2: Evaluate the effectiveness of pre- and post-merger performances.

CO3: Evaluate the value of a company for a merger, acquisition, and Corporate restructuring deal

CO4: Evaluate the effectiveness of different legal and Cultural aspects in Mergers, Acquisitions, and Corporate restructuring transactions.

CO5: Evaluate the takeover defenses to protect the company and fulfill shareholder duties.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Technological literacy

Course Content

U1: Introduction to Mergers and Acquisitions

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None, Professional Ethics

U1-T1. Introduction. History of Merger Movements. Forms of Corporate Restructuring: Expansions, Mergers and Acquisitions, Tender Offers, Joint Ventures, Sell Offs, Spinoffs, Split offs, Split ups, Divestitures, Employees Stock Option Plans (ESOPs), Equity Carve Outs, Master Limited Partnership (MLP). Corporate Control Premium, Buybacks, Standstill Agreements, Leveraged Buyouts. Merger Process: Five-stage model. Economic rationale for M&A.

Description

U1-T2. Major types of Mergers- Horizontal mergers - Vertical mergers - Conglomerate mergers - Concentric Mergers. Framework for analysis of mergers. Organization learning and organization capital. The Role of industry life cycle, Product life cycle in M&A. Role of AI in M&A decision making

U2: Cost and Benefit of Merger

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Cost and benefit analysis of merger (mergers as a capital budgeting decision) - Share exchange ratio - Problems of calculating pre- and post-merger performances.

Description

U3: Valuation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Multiples – various kinds of multiples and how to view this from the perspective of M&A. What are the factors that impact the multiple, and how to find the right multiple to value the company? Risk-free rate of return – Key things to remember while doing cross-border M&A. Beta- What factors impact beta. Levered and unlevered beta. Valuation during special situations of M&A- growth companies, distress companies, stable growth companies, listed and unlisted companies, volume and liquidity discount

Description

U3-T2. Companies with negative cash flows, cash risk companies, IRR expectations, and control premium. Valuation for cash Vs stock deals. Common mistakes/biases at the time of valuation. Negotiation for valuation in M&A deals – convert structure, warrant structure, and other ways of structuring options. Special situation in valuation – SEBI valuation rules, takeover code valuation rules, FDI valuation rules. AI-assisted multiple selection and peer comparison - AI in forecasting cash flows and IRR

U4: Legal and Cultural Aspects in Merger

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Organizational and human aspects – managerial challenges of M & A - Legal and regulatory framework of M & A – provisions of Companies Act - Indian Income Tax Act - SEBI takeover code.

Description

U5: Take Over Defences

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Takeover defences – financial defensive measures – Coercive offers and defence – anti-takeover amendments – poison pill defence. Case examples: AI use in modern corporate defence

Description

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: ALTERNATIVE INVESTMENTS

COURSE CODE: COH403F-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the concept, characteristics, and role of alternative investments in a portfolio.

CO2: Differentiate between traditional and alternative asset classes.

CO3: Analyze hedge funds, private equity, real estate, commodities, and structured products

CO4: Evaluate risk-return profiles and performance measurement techniques of alternative investments.

CO5: Understand regulatory, ethical, and operational aspects associated with alternative assets and apply portfolio diversification strategies using alternative assets.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Alternative Investments

Teaching Hours: (4)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Definition and evolution of alternative investments, Differences between traditional and alternative assets, Role in portfolio diversification, Market players and trends, Overview of major asset classes; Private Credit- (Direct Lending, Distressed Debt, Mezzanine Financing)

U2: Hedge Funds

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Structure, strategies, and classifications (long/short, event-driven, global macro, arbitrage), Directional: Global Macro, Managed Futures, Event-Driven: Distressed Debt, Merger Arbitrage. , Relative Value: Long/Short Equity, Fixed Income Arbitrage. Risk-return characteristics, Hedge fund performance evaluation (Sharpe, Sortino, Information ratio), Fees and incentives (2 & 20 model), Regulatory and ethical issues.

Description

Case Study Discussion: The Collapse of Long-Term Capital Management (LTCM) - A lesson in leverage and correlation breakdown.

U3: Private Equity and Venture Capital

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Structure of private equity funds, Stages of investment: venture capital, growth capital, buyouts, Valuation of private firms (DCF, multiples, comparables), Exit routes: IPO, M&A, secondary sale, Case studies: Blackstone, Sequoia Capital.

U4: Real Estate and Infrastructure Investments

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Background of Real Estate Funds in India, Commencement of REIT in India, Types: residential, commercial, REITs, infrastructure funds, Real estate valuation techniques, Risks and returns in property investment, Global and Indian REIT market trends, Performance of Indian REIT Case Discussion on Embassy REIT.

U5: Commodities and Derivatives & Structured Products and Other Alternatives

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Physical vs. derivative-based commodity investment, Types of Commodities traded in the market, Commodity indices and ETFs, Pricing dynamics and risk management, Role in inflation hedging and portfolio diversification, Activity: Live commodity market tracking and report, Overview of structured notes, CDOs, CLOs, MBS, Infrastructure funds, art funds, collectibles, and digital assets - crypto-assets, Decentralized Finance, Risk-return implications

U6: Global and Indian regulatory framework (SEBI, AIF Regulations 2012)

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Ethics in alternative investing, ESG and sustainability in alternatives, Future of alternative assets (tokenization, AI, green infrastructure funds), Due Diligence (DD): A brief overview of Operational DD vs. Investment DD.

Essential Reading

- CAIA Level I: An Introduction to Core Topics in Alternative Investments – CAIA Association
- Alternative Investments: Instruments, Performance, Benchmarks, and Strategies by Donald R. Chambers et al.
- Private Equity: History, Governance, and Operations – Harry Cendrowski
- Hedge Funds: Quantitative Insights – François-Serge Lhabitant
- Alternative Investments: A Primer for Investment Professionals – CFA Institute Research Foundation

B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: FINANCIAL DERIVATIVES

COURSE CODE: COH404F-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain fundamental concepts, evolution, and economic functions of derivatives.

CO2: Apply the mechanics of forwards and futures, including margining, MTM, and pricing.

CO3: Analyse hedging mechanisms using futures by examining basis risk and hedge ratios.

CO4: Evaluate option strategies by comparing payoff structures and risk–return trade-offs under different market conditions.

CO5: Explain swaps, commodity markets, and emerging derivative instruments.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Derivatives

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. The meaning, scope, and evolution of financial derivatives, highlighting their economic rationale and functional significance. Structure and purpose of forwards, futures, options, and swaps, categories of market participants, and the role of derivatives in hedging, speculation, and arbitrage. Distinctions between exchange-traded and OTC markets, global developments, regulatory perspectives, and the evolution of derivative markets in India are examined.

Description

Issues concerning criticism, misuse, and the requirements for an efficient derivative market structure

U2: Forwards and Futures – Structure, Mechanics and Pricing

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Contractual features, trading framework, and operational mechanics of forward and futures contracts. It includes contract specifications, settlement procedures, tick size, contract cycles, delivery systems, and the clearing and margining mechanism comprising initial margin, maintenance margin, and daily mark-to-market. Pricing relationships are developed through the cost-of-carry model, expectations approaches, basis concepts, contango, and backwardation.

Description

Applications in equity, currency, and commodity markets are integrated to illustrate pricing and risk-transfer mechanisms.

U3: Hedging with Futures

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Principles and frameworks for risk hedging using futures contracts. Long and short hedge structures, cross-hedging applications, and the influence of basis and basis risk on hedge effectiveness are

examined. The estimation and interpretation of hedge ratios are incorporated, along with distinctions between static and dynamic hedging approaches. The conceptual structure of strip hedges and stack-and-roll hedges is discussed within the context of hedging design.

U4: Options – Concepts, Strategies and Valuation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Option classification, rights and obligations, intrinsic and time value, moneyness, volatility, and price behaviour. Option market terminology, trading procedures, settlement systems, and interpretation of option chain data. Elementary option strategies—bull and bear spreads, butterfly spreads, straddles, and strangles—are presented through conceptual payoff structures.

Description

Introductory valuation techniques are included through the Binomial Model and the Black–Scholes Model, along with a conceptual outline of Option Greeks and their relevance to risk assessment

U5: Swaps, Commodity Derivatives and Emerging Derivatives

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Swap structure, mechanics, and applications of interest rate swaps, currency swaps, and other traditional swap arrangements used for transforming cash flow profiles, managing interest rate exposure, and restructuring liabilities. advantages, limitations, and standard market conventions associated with swaps.

Commodity derivatives markets, including futures and options on commodities, contract characteristics, market architecture, and the role of major domestic and global commodity exchanges.

Description

The conceptual distinction between commodities and financial derivatives is highlighted along with regulatory developments in India.

Emerging derivative instruments such as weather derivatives, carbon and energy derivatives, credit derivatives including Credit Default Swaps (CDS), and structured products such as ABS, MBS, and CDOs are also covered. Emphasis is placed on recent innovations, evolving global practices, and regulatory perspectives relevant to these new-market instruments.

Essential Reading

- Hull, J. C., Options, Futures and Other Derivatives, 11th Edition, Global Edition (Pearson, 2021)
- Srivastava, Rajiv, Derivatives and Risk Management, 2nd Edition (Oxford University Press)
- Vohra, N. D. & Bagri, B. R., Futures and Options, 2nd Edition (Tata McGraw-Hill)

EXAMINATION PATTERN

COURSE NAME: FINANCIAL DERIVATIVES

COURSE CODE: COH404F-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I	Quizzes, role plays, objective-type tests, written assignments, discussion forums, article reviews, case analysis, etc.	20
CIA II	Mid-Semester Written Examination (2 hours duration): Section A – Short Answer Questions (answer ALL three; the third question carries an internal choice) – $3 \times 5 = 15$ Section B – Conceptual / Descriptive / Problem-type questions (answer ALL two; one carries an internal choice) – $2 \times 10 = 20$ Section C – Case Study (compulsory) – $1 \times 15 = 15$	50
CIA III	Group work consisting of presentations, viva voce, and report submission.	20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: INTEGRATED MARKETING COMMUNICATION

COURSE CODE: COH401M-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the IMC framework and distinguish it from traditional, siloed promotional planning.

CO2: Design a communication strategy that translates brand positioning and brand values into coherent messages across channels

CO3: Apply knowledge of creative strategy, digital media, PR, sales promotion, and experiential marketing to campaign planning

CO4: Construct, present, and build contingency into a complete IMC campaign plan.

CO5: Evaluate IMC campaigns against ethical standards, responsible AI use, ASCI guidelines, and sustainability principles.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Gender equality

21st Century Skills

Analytical thinking, Creative thinking, Empathy and active listening, Leadership and social influence

Course Content

U1: The IMC Framework and Consumer - Centric Strategy

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Level of Knowledge: Basic and Conceptual

IMC Foundations: Promotional mix to IMC; the IMC philosophy - one voice, one brand, multiple touchpoints; Don Schultz's IMC framework ; zero-based communication planning; Kotler's customer-centric definition of IMC; Touchpoint Strategy: Consumer contact points; mapping brand touchpoints across the customer journey; brand contact audit; share of voice vs share of mind; inside-out vs outside-in planning; Consumer Behaviour & Communication Psychology: Emotional branding; consumer decision-making process; trust building; audience research and insight; difference between data and insight; psychographic and behavioural profiling; From Positioning to Platform: Translating brand positioning into a communication platform; single-minded proposition (SMP); setting IMC objectives; the IMC planning cycle as a continuous process.

Practical: Conduct a brand touchpoint audit for a chosen brand and map its customer journey.

U2: Advertising Strategy and Creative Direction

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Level of Knowledge: Conceptual and Applied

Advertising as a Strategic Tool: Role of advertising in IMC; Advertising creative process - from brief to concept; the creative brief - purpose and components; the big idea; The Creative Anchor: Brand values - sustainability, social stance, freedom of expression, child-friendliness; the creative anchor as a fixed reference point above any single campaign; checking every campaign against the anchor before finalising messaging; Craft of Communication: Copywriting principles - headline, body copy, call to action; visual communication - layout, colour, imagery as strategic choices; brand tone of voice; storytelling - emotional vs rational appeals; Campaign & Budget Logic: Campaign thinking vs single ad; multiple executions under one campaign idea; advertising budget strategy - objective-and-task method; evaluating advertising effectiveness; Ethics in Advertising: ASCI self-regulation; stereotyping; exaggeration; responsibility of the communicator

U3: Digital Communication Strategy in the IMC Mix

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Level of Knowledge: Conceptual and Applied

Owned, Earned, Paid Framework: The owned-earned-paid media model; industry and brand-type lens; Perception of each medium by category and positioning; beyond ROAS - perceived value; User Generated Content (UGC): UGC as intersection of media framework; credibility and authenticity of UGC; UGC vs branded content; designing for UGC. Community & Retention: Brand community for retention marketing; community as a long-term communication asset; Content & Direct Communication: Content strategy as an IMC discipline; the content brief; content calendar aligned to objectives; direct communication - email, SMS, WhatsApp as relationship tools; CRM as personalisation enabler; Data, Privacy & Martech: Consumer data and the ethics of personalisation; data protection landscape (India); martech for the strategist - automation, programmatic, AI-assisted content in strategic terms; digital metrics - campaign level vs channel level.

Practical: Map POEM and UGC plan

U4: Below-the-Line Tools - Sales Promotion, PR & Experiential Marketing
Teaching Hours: (12)
Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Sales Promotion: Consumer vs trade promotions; discounts, contests, sampling, loyalty programmes, bundling; promotional objectives; risk of over-reliance; integrating promotions with advertising; Shareability & Virality: Designing promotions with shareability built in from the start; peer amplification - friends, family, creators; word-of-mouth as a designed outcome, not an afterthought; Public Relations: PR as earned communication; press release; media relations; how journalists think; CSR as authentic vs performative communication; Brand Values as Crisis Foundation: Crisis communication - first 24 hours, holding statements, reputation recovery; prior consistent communication of brand values as the foundation that makes crisis response possible; reservoir of goodwill; Experiential & Sponsorship: Sponsorship evaluation beyond reach and visibility; event and experiential marketing; brand activation; Indian examples; Regulation & Ethics: Consumer protection in promotional offers; ASCI

U5: IMC Campaign Planning, Budgeting, Evaluation & Resilience
Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U5-T1. Campaign Planning Process: End-to-end IMC planning; situation analysis - the communication audit; defining target audience - demographics, psychographics, behaviour; measurable campaign objectives - awareness, consideration, trial, loyalty; Budgeting & Channel Mix: Zero-based budgeting logic; channel selection by objective, audience, and budget; allocation across channels; integration over amplification; Execution & Coordination: Creative brief as campaign anchor; coordinating across teams and agencies; campaign timeline and launch planning; Measurement & Evaluation: Channel metrics vs campaign metrics; KPIs by channel rolling up to campaign level; brand health tracking - awareness, consideration, preference, NPS; campaign post-mortem; Campaign Resilience & Contingency: Backup A and Backup B for every major component; honest probability assessment of tasks, assets, vendors, team, and external factors (weather); priority levels - critical vs flexible; Sustainability in IMC.

Essential Reading

- Moriarty, S., Mitchell, N., & Wells, W. (2018). Advertising & IMC: Principles and Practice (10th ed.). Pearson Education.
- Kotler, P., Kartajaya, H., & Setiawan, I. (2021). Marketing 5.0: Technology for Humanity. Wiley.
- Heath, C., & Heath, D. (2007). Made to Stick: Why Some Ideas Survive and Others Die. Random House.

EXAMINATION PATTERN

COURSE NAME: INTEGRATED MARKETING COMMUNICATION

COURSE CODE: COH401M-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
Written Test	Section A – $3 \times 5 = 15$ Section B – $2 \times 10 = 20$ Section C – $1 \times 15 = 15$ (compulsory case study)	50

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: STRATEGIC BRANDING

COURSE CODE: COH402M-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understand key concepts of brand management, including brand identity, brand strategy, and measuring brand performance, to develop and sustain brand equity.

CO2: Analyze various brand elements such as brand names, logos, slogans, and packaging, and apply principles of effective brand design, including digital branding aspects.

CO3: Evaluate brand resonance stages and the brand value chain to understand brand positioning, financial valuation, and impact on market performance.

CO4: Examine brand extension strategies and brand architecture models to design coherent brand portfolios and corporate branding frameworks.

CO5: Understand intellectual property rights (IPR) related to branding, including trademarks and patents, and their role in enhancing brand equity and commercialization.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility

Course Content

U1: Strategic Brand Management Process

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U1-T1. Definition - Things that can be branded - Branding Challenges and Opportunities - Brand Image, Brand Identity, Brand Strategy - Kapferer's Brand Identity Prism - Identifying and developing brand plans – Designing and implementing brand marketing programs–Measuring and interpreting brand performance – Growing and sustaining brand equity. ESG communication, responsible innovation, ethics of green claims.

Case Study: McDonald's Core Brand Values

U2: Brand Taxonomy and Brand Aesthetics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Brand Elements - Criteria for Choosing Brand Elements - Brand Names: Lippincott's Brand Name Taxonomy, Brand Name Linguistic Characteristics: Logos, Symbols and Trademarks: Types of Logos, Principles of Logo Designing - Characters – Slogans and Jingles - Packaging and Signage - Mascots - Brand Elements in the Digital Era

Case Study: The Amul Girl: Why She's Still Standing?

U3: Brand Resonance and Brand Value Chain

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U3-T1. CBBE and Larry Percy's Experiment– Brand Positioning – Brand Resonance Pyramid (Salience – Performance – Imagery – Judgements – Feelings – Resonance) – Brand Value Chain (Value Stages – Program Quality Multiplier – Marketplace Conditions Multiplier – Investor Sentiment Multiplier) - AI-enabled brand analytics, personalisation, sentiment analysis, and generative content, Financial Valuation and Accounting of Brands.

Case Study: L'Oreal's Customer-Based Brand Equity

U4: Brand Extension and Brand Architecture

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U4-T1. Ansoff's Growth Share Matrix - Edward Tauber's Guidelines for Brand Extension – Merits and Demerits of Extension – Line Extension – Category Extension; Brand Architecture Strategy - Brand Product Matrix - Brand Portfolios - Brand Hierarchies - Corporate Branding and Corporate Brand Dimensions.

Case Study: Stretching Brands To The Limit – A Case Study On Dettol.

U5: Fundamentals of IPR for Branding and Marketing

Teaching Hours: (12)

Development Needs:

Global, Local, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Concepts and Significance of IPR - Types of IPR: Patents, Trademarks, Copyrights, Industrial Designs, Geographical Indications - Definition, Importance, and Types of Trademarks - Trademark Registration Process in India (Legal Framework, Application Procedure) - Role of IPR in enhancing Brand Equity and Commercial Value - Basics of IP Valuation and Brand Monetization.

Case Study: KSRTC Vs KSRTC

EXAMINATION PATTERN

COURSE NAME: STRATEGIC BRANDING

COURSE CODE: COH402M-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I		20
CIA II	Section A – $3 \times 5 = 15$ Section B – $2 \times 10 = 20$ Section C – $1 \times 15 = 15$	50
CIA III		20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section	Marks
A	$7 \times 5 = 35$
B	$10 \times 5 = 50$
C	$15 \times 1 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: LOGISTICS AND SUPPLY CHAIN MANAGEMENT

COURSE CODE: COH403M-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understand the core concepts and evolution of logistics and supply chain management.

CO2: Analyze supply chain operations and key performance drivers.

CO3: Apply inventory management tools for efficient planning and control.

CO4: Evaluate transportation systems and logistics networks for business efficiency.

CO5: Assess digital technologies that enhance supply chain sustainability and resilience.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Resilience flexibility and agility

Course Content

U1: Logistics Aspects of SCM

Teaching Hours: (12)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. History and Evolution of Logistics and Supply Chain Management - Definitions, Differences and Similarities of Logistics and Supply Chain Management - Principles of Logistics Management - 7Rs of Logistics - Fixed and Flexible Logistics - Inbound, Outbound and Business Logistics –1PL, 2PL, 3PL, 4PL, 5PL, 6PL - Single & Multi Echelon Inventory Model of Logistics

U2: Operational Aspects

Teaching Hours: (14)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Nature, Objectives and Scope of Supply Chain Management - Value Chain Analysis – Value Web Analysis - Value in Supply Chain - Process View of Supply Chains - Drivers of Supply Chains - Types: Push-Based Supply Chain – Pull-Based Supply Chain – Agile Supply Chain - Operational Aspects: Bull Whip Effect - Just-in-Time – Kanban - Kaizen – Vendor Managed Inventory.

U3: Inventory Management Aspects

Teaching Hours: (14)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Inventory Functionality - Inventory Carrying Cost - Inventory Planning - EOQ & EOQ Adjustments - Managing Uncertainty: Demand Uncertainty, Performance Cycle Uncertainty, Safety Stock with Combined Uncertainty - Inventory Management Policies and Practices: Perpetual Review, Periodic Review, Reactive Methods, Fair Share Allocation, Requirements Planning, Quick Response, VMI, Profile Replenishment

U4: Transportation Economics and Transportation Geography

Teaching Hours: (10)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Transport Economics: Travel Demand – Travel Supply – Travel Equilibrium - Functions - Participants – Principles; Transport Geography: Indian Road and Railway Infrastructure – Indian Inland Waterways - Indian Harbours – Key Global Harbours - ICD CFS CONCOR – INCO Terms

U5: Digital Logistics and Supply Chain Management

Teaching Hours: (10)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment

U5-T1. Digital Supply Chain Transformation: Blockchain, AI, Robotics, and Smart Contracts; Omni-channel Retailing and Last-mile Delivery Solutions; Closed-loop and Circular Supply Chains- Green SCM; Risk Management in Global Events: Resilience Planning (COVID, Climate Change) - Electronic SCM Fundamentals

Essential Reading

- Christopher, M. (2021). Logistics and supply chain management (6th ed.). Pearson.
- Jacobs, F. R., & Chase, R. B. (2020). Operations and supply chain management (15th ed.). McGraw-Hill Education.
- Bowersox, D., Closs, D., & Cooper, M. B. (2023). Supply chain logistics management (6th ed.). McGraw-Hill Education.

COURSE NAME: LOGISTICS AND SUPPLY CHAIN MANAGEMENT
COURSE CODE: COH403M-7
PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I		20
CIA II	Section A – $3 \times 5 = 15$, Section B – $2 \times 10 = 20$, Section C – $1 \times 15 = 15$	50
CIA III		20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section	Marks
A	$7 \times 5 = 35$
B	$5 \times 10 = 50$
C	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: SALES MANAGEMENT AND CRM

COURSE CODE: COH404M-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understanding the concept of sales management.

CO2: Analysing the strategies for sales management and linking them to the overall marketing plan.

CO3: Examining the interlinkages between Customer Relationship Management and Sales Management.

CO4: Interpreting the various customer relationships and customer experience strategies

CO5: Designing an effective customer relationship strategy by taking into customer life cycle

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Sales Management

Teaching Hours: (12)

Development Needs:

Global, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Nature and role of selling. Characteristics of Modern Selling. Types of Selling. Electronic Selling: Meaning of Sales Management. Objectives of Sales Management. Relationship between sales and marketing. Sales management skills: conceptual and decision-making skills, People skills, and technical skills. Functions of sales managers. Managing a sales team. Environmental and managerial factors that impact sales.

U2: Sales Management Strategies

Teaching Hours: (12)

Development Needs:

Global, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Sales and marketing plan. The place of selling in a marketing plan. Forecasting sales and sales budget. Sales channels. Competitive settings and sales management strategies. Personal selling strategies. Customer segmentation and targeting for sales: segmenting markets, choosing target segments and tailoring sales approaches to each. Sales technology and digital selling strategies. Ethical issues in sales management.

U3: Customer Relationship Management

Teaching Hours: (12)

Development Needs:

Global, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Importance of the relationship with customers. Meaning and definition of CRM. Constituents of CRM, connecting CRM with customer loyalty and satisfaction. Relationship management theories, E-CRM. CRM technology and software tools, AI-driven CRM systems, predictive sales analytics, personalisation, chatbots, & ethical data use.

U4: Customer Relationship Management and Customer Experiences

Teaching Hours: (12)

Development Needs:

Global, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Understanding customer experience. Experiential marketing strategies and tactics. Customer experience and the role of CRM. Creating value for consumers: value from products, services, processes, people, physical evidence, communications, and channels. Relationship Marketing Strategies.

U5: Customer Life Cycle and CRM

Teaching Hours: (12)

Development Needs:

Global, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Customer life cycle, customer retention, and strategies for customer retention. Customer Journey mapping. Managing relationships with the suppliers and partners. Organizational issues and customer relationships. Developing an overall CRM and marketing Strategy, Embedding green perspectives through sustainable selling. Future trends in CRM.

Essential Reading

- Sales Management: Teamwork, Leadership and Technology (6th Edition) by Charles M. Futrell.
- Sales Management: Decisions, strategies and cases (5th Edition) by Richard R. Still, Edward W Cundiff and Norman A. P. Govoni
- Customer Relationship Management: Concepts and Technologies (2nd Edition) by Francis Buttle

EXAMINATION PATTERN

COURSE NAME: SALES MANAGEMENT AND CRM

COURSE CODE: COH404M-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Marks
CIA I	20
CIA II	50
CIA III	20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End Semester Examination: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: QUANTITATIVE RESEARCH METHODS

COURSE CODE: COM501R-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, necessity, and defining characteristics of quantitative research, and distinguish it from qualitative research

CO2: Design a basic survey framework by identifying suitable sampling methods, data collection modes, and approaches to minimize non-response bias.

CO3: Develop valid and reliable survey instruments through appropriate question design, scaling, and pretesting techniques.

CO4: Evaluate experimental designs and identify strategies to ensure validity, control variables, and derive causal inferences in business research.

CO5: Perform and interpret statistical analyses ethically, integrating quantitative findings into evidence-based business decision-making.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Motivation and self-awareness, Technological literacy

Course Content

U1: Foundations of Quantitative Research

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Quantitative Research -. Nature, Necessity, and Importance - Relevance and Urgency in the Data-Driven Era (ADHOGS & DVUCA) - Defining Characteristics: Scope, Objectivity, Goal, Data, and Method - Quantitative vs. Qualitative Research - Strengths and Shortcomings

U2: Introduction to Survey Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Survey Research – Meaning and Purpose – When and Why Surveys Are Used – Types of Surveys (Cross-Sectional, Longitudinal) – Sampling in Survey Research (Sampling Frame, Probability & Non-probability Methods) – Non-response and Bias Reduction – Modes of Survey Data Collection (Mail, Telephone, Online, Face-to-Face) – Implementation and Ethical Considerations

U3: Advanced Considerations in Survey Research

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Designing Good Measures – Question Design and Wording – Scales and Response Formats – Reliability and Validity of Instruments – Pre-testing and Pilot Studies – Survey Implementation and

Interviewer Training – Data Preparation (Coding, Cleaning, Data Entry) – Ethical and Error Perspectives (Total Survey Error, Bias Control)

U4: Experimental Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Experimental Research – Concept and Purpose – Independent and Dependent Variables – Randomization and Control – True, Quasi-, and Field Experiments – Internal and External Validity – Threats to Validity and Control Techniques – Practical Applications in Commerce and Management Contexts – Ethical Issues in Experimental Studies

U5: Data Analysis in Quantitative Research

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Data Preparation – Handling Missing Data and Outliers – Testing Assumptions (Normality, Linearity, Multicollinearity) – Descriptive and Inferential Statistics (Mean, SD, t-test, ANOVA, Correlation, Regression) – Multivariate Analysis (Factor Analysis, CB-SEM, PLS-SEM) – Hypothesis Testing and Error Types (I–IV) – Effect Size and Statistical Power – Interpreting and Reporting Results – Ensuring Reproducibility and Ethical Reporting

Essential Reading

- Fowler, F. J. (2025). Survey research methods (Reprint 5th ed.). SAGE Publications.
- Campbell, D. T., & Stanley, J. C. (2025). Experimental and quasi-experimental designs for research. Ravenio Books.
- Field, A. (2025). Discovering statistics using IBM SPSS statistics (5th ed.). SAGE Publications.

EXAMINATION PATTERN

COURSE NAME: QUANTITATIVE RESEARCH METHODS

COURSE CODE: COM501R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I		20
CIA II	Mid-Semester Written Examination (2 hours duration)	50
CIA III		20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section	Marks
A	$7 \times 5 = 35$
B	$5 \times 10 = 50$
C	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: QUALITATIVE RESEARCH METHODS

COURSE CODE: COM502R-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, design process, and ethical considerations of qualitative research.

CO2: Distinguish among the five qualitative research approaches and identify suitable designs for business contexts.

CO3: Develop qualitative research problems, purpose statements, and research questions aligned with study objectives.

CO4: Apply appropriate methods for qualitative data collection, coding, and thematic analysis using software tools.

CO5: Write and evaluate qualitative research reports incorporating reflexivity, validation, and ethical standards.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Technological literacy

Course Content

U1: Designing a Qualitative Study

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Qualitative Research – Meaning - Characteristics and purpose of qualitative research - When to use qualitative research - Ethical considerations and preliminary design issues - Steps in the qualitative research process - Components of a qualitative research proposal.

U2: Five Qualitative Approaches to Inquiry

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Overview of five approaches – Narrative, Phenomenological, Grounded Theory, Ethnographic, and Case Study – Definition, features, and procedures of each approach – Application in business and management research – Challenges in each approach – Comparison of approaches.

U3: Introducing and Focusing the Study

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Formulating the research problem – Developing purpose and research questions – The central question and sub-questions – Aligning research questions with the chosen qualitative approach – Writing qualitative purpose statements and research questions.

U4: Data Collection, Analysis and Representation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Data Collection: Meaning and process of data collection in qualitative studies – The data collection circle – Selection of sites and participants – Purposeful sampling strategy – Forms of data: interviews, observations, documents, audiovisual materials – Field issues and ethical considerations.

U4-T2. Data Analysis and Representation: Organising, coding, and categorising qualitative data – Data analysis spiral – Thematic analysis – Representing and visualising data – Introduction to qualitative software (NVivo, Atlas.ti, MAXQDA).

U5: Writing, Validation and Evaluation in Qualitative Research

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Writing qualitative research reports – Structure and style – Reflexivity and representation – Validation and reliability in qualitative research – Strategies for trustworthiness – Evaluation standards for qualitative studies.

Essential Reading

- Creswell, J. W., & Poth, C. N. (2025). Qualitative Inquiry and Research Design: Choosing Among Five Approaches (4th ed.). SAGE Publications.

EXAMINATION PATTERN

COURSE NAME: QUALITATIVE RESEARCH METHODS

COURSE CODE: COM502R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I		20
CIA II	Mid-Semester Written Examination (2 hours duration)	50
CIA III		20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section	Marks
A	$7 \times 5 = 35$
B	$5 \times 10 = 50$
C	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: RESEARCH DISSERTATION

COURSE CODE: COM581R-8

COURSE TYPE: Practical

TOTAL HRS: 360 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Demonstrate the ability to plan and execute a research project within defined time constraints and available resources.

CO2: Perform a substantial review of literature relevant to the chosen research topic to justify the significance of the study.

CO3: Demonstrate mastery of quantitative or qualitative research skills applicable to commerce and management contexts.

CO4: Demonstrate a clear knowledge and understanding of ethical standards in data collection, reporting, and academic integrity

CO5: Demonstrate effective communication of complex business concepts through both a written document and an oral presentation

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Dissertation Proposal

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Before beginning the full dissertation, candidates must submit a proposal that proves the research is novel, significant, and feasible.

Description

Content and Structure• **Specific Aims:** Concisely state research goals, hypotheses (if applicable), and the expected impact on management practices or commerce theory.

Research Strategy:• **Significance:** Explain the critical barrier in commerce/management the project addresses and how it improves existing professional knowledge.

- **Innovation:** Describe any novel theoretical frameworks, methodologies, or applications that challenge current business paradigms.
- **Approach:** Detail the methodology (e.g., quantitative, qualitative, or mixed methods) and data analysis plans.
- **Timeline and Milestones (1 page):** A outline of benchmarks, from data collection to the final defense.
- **Preliminary Studies:** Discuss any initial data or pilot studies conducted to establish the feasibility of the project.

U2: Dissertation Structure

Teaching Hours: (295)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Dissertation is divided into three parts - Preliminary Pages, Main Body and End Matter

Description

PRELIMINARY PAGES

1. Title Page - Title of the Dissertation, Student Name & Register Number, Programme: BCom (Honours) with Research, Department / Institution Name, Supervisor Name & Designation, Academic Year
2. Declaration by the Student - Certificate from the Supervisor, Acknowledgements (Optional but recommended)
3. Abstract - 200–300 words, Background, Objectives, Methodology, Key findings, Keywords (4–6)
4. Table of Contents
5. List of Tables
6. List of Figures (if applicable)
7. List of Abbreviations (if applicable)

B. MAIN BODY OF THE DISSERTATION

Chapter I – Introduction - Background of the Study, Conceptual / Theoretical Context, Statement of the Problem, Need and Significance of the Study, Objectives of the Study, Research Questions , Scope of the Study, Limitations of the Study, Chapterisation Scheme

Chapter II – Review of Literature and Hypotheses Development - Introduction, Review of International Studies, Review of National Studies, Research Gap Identification, Conceptual Framework / Research Model (if applicable), Hypothesis Development Chapter - 3 Research Methodology

Chapter - 4 Data Analysis and Interpretation

Chapter V – Findings, Suggestions and Conclusion

END MATTER

References and Appendices

U3: Other Guidelines

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Font Style: Times New Roman Font Size (Preliminary Pages): 14 point (e.g., Title Page, Abstract, Table of Contents).

Font Size (Main Body): 12 point.

Line Spacing: 1.5 spacing throughout (No double spacing).

Margins: One inch on all sides.

APA 7th edition guidelines to be followed.

Final Viva Voce Examination. Students are encouraged to present their work in the conferences. They are also encouraged to convert their research into Scopus, WoS, or ABDC publications.

EXAMINATION PATTERN

COURSE NAME: RESEARCH DISSERTATION

COURSE CODE: COM581R-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA (Overall)	Research proposal, progress evaluation, dissertation report, and viva voce, as prescribed by the supervisor / department.	300

Total Marks for the Course: 300.00

COURSE NAME: INTERNSHIP

COURSE CODE: COM481-8

COURSE TYPE: Practical

TOTAL HRS: 30 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Apply theoretical knowledge to real-world business environments

CO2: Demonstrate professional skills and workplace competencies

CO3: Critically analyse business operations and organizational practices

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to the Organization

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. 1.1 Profile of the organization (including evolution, awards and recognition)

1.2 Vision, Mission, Goals

U2: Organizational Design and Functional Areas

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. 2.1 Organization design & structure

2.2 Departments and Divisions

2.3 Product/s and Service/s

2.4 Business Model

Description

• Hierarchical/flat/matrix structure (include organogram if possible) • Overview of key functional departments • Major offerings, features, target market • Revenue generation , customer acquisition, delivery mechanism

U3: Key Performance Areas (KPA's), Organizational Control and Strategies

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. 3.1 KPA's of the various departments

3.2 Accounting Standards & Reporting followed

3.3 HR Practices

3.4 Financial Highlights

3.5 Modes of Marketing

3.6 Integration of AI

3.7 Tax Filing & Auditing

3.8 SWOC Analysis of the Organization (Based on the intern's observation and analysis supported by facts)

Description

KPAs across various departments (Sales, HR, Finance, etc.) • IND AS, internal reporting systems, compliance frameworks • Recruitment, appraisal, training, and retention strategies • Key financials (Turnover, Profit, Investments – if available) • Digital, traditional, B2B/B2C approaches, branding • Use of AI, automation tools, ERP systems, CRM tools • Tax practices, statutory audit process, internal audits • Strengths, Weaknesses, Opportunities, Challenges • Factors driving organisational growth and sustainability • Intern's strategic operational recommendations

U4: Course Learning Outcomes and Conclusion

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U4-T1. 4.1 Applications of Theoretical Knowledge to Real-World Business Environments

4.1.1 Relevance of Academic Theories (Accounting, Finance, HR, etc.)

4.1.2 Gaps or Irrelevance Identified

4.2 Professional Skills and Workplace Competencies

4.2.1 New Skills Acquired During Internship

4.2.2 Existing Skills Nurtured or Strengthened

4.2.3 Skills/Competencies Identified for Further Development

4.2.4 Input from Key Personnel

Description

4.3 Critical Analysis of Business Operations and Practices

4.3.1 Good Business Practices Observed

4.3.2 Practices Worth Replicating at CHRIST University

Conclusion

- ☐ Summary of internship experience
- ☐ Key takeaways and reflections
- ☐ Impact of internship on career readiness

EXAMINATION PATTERN

COURSE NAME: INTERNSHIP

COURSE CODE: COM481-8

Assessment (Marks Distribution) – 200 Marks

Component	Marks
Weekly Report Submission	40
Industry Mentor's Evaluation	20
Internship Mentor's Evaluation	40
Internship Report Evaluation	50
Viva Voce Examination	50

Total Marks for the Course: 200.00

COURSE NAME: GLOBAL BUSINESS OPERATIONS

COURSE CODE: COH401-7

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: To understand the meaning, features, and evolution of globalization; identify its key drivers and analyse the role of multinational corporations in global business along with the ethical and professional challenges they face.

CO2: Analyse the international business environment using tools like SWOT and PESTLE, and evaluate globalization's impact on economies.

CO3: Explain key international trade theories, global entry modes, and the role of FDI in economic growth.

CO4: Interpret global trade policies and agreements, India's major trade partnerships, and the role of WTO and Foreign Trade Policy.

CO5: Critically assess global production networks and supply chains, and evaluate how multinational firms optimise sourcing, outsourcing, logistics, and sustainability for competitiveness and resilience.

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Unit 1: Introduction to Globalization:

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Globalization

Description

Globalization - Meaning and Key features, the growth of globalization, Drivers and Forces of Globalization: Economic liberalization and policy reforms; Classification of international business enterprises (Domestic firm, International firm, Multinational firm (MNC), and Global firm.) - Role of multinational companies in driving globalization; Criticism of MNCs; Globalization and economic development; Challenges in global business; Geopolitics & Modern Challenges

U2: Unit 2: International Business Ecosystem

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. International Business Ecosystem

Description

International Business Environment- Definition-Importance- Scope of International Business Environment- Micro and Macro Environment -Strategic Management- Meaning, Analyzing the External Environment (SWOT Analysis, PESTLE Analysis, ETOP Framework); Analyzing the Immediate Competitive Environment (Life Cycle, Boston Box Matrix, and Ansoff Growth Matrix); Analysing the Wider Competitive Environment (Porter's Five Forces Model), Environmental compliance and Sustainable management practices

U3: Unit 3: Theories of International Trade and FDI

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U3-T1. Theories of International Trade and FDI

Description

Theory of mercantilism, Absolute advantage theory, Comparative advantage theory, Factor Endowment theory, Product life cycle theory, New trade theory, Leontief Paradox, Gravity model of trade; FDI: Meaning and types; Modes of entering Global Business – Exporting, Licensing, Franchising, Contract manufacturing, Mergers and Acquisitions, Joint ventures.

U4: Unit 4: International Trading Environment

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Sustainability

U4-T1. International Trading Environment

Description

Trade policy instruments: Tariffs, Quotas, Voluntary Export Restraints, Export incentives and subsidies; Trade Agreements – Regional Trade agreements (SAARC, ASEAN, USMCA, BRICS), - Bilateral trade agreements and India's participation (India–UAE CEPA, India–Australia ECTA); Balance of trade and Balance of payments; India's Foreign Trade Policy 2025; Trade laws & regulations - Intellectual property rights, Export/import regulations; International digital trade, Sustainable international trade

U5: Unit 5: Global Production and Supply chain

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Sustainability

U5-T1. Global Production and Supply chain

Description

Importance of global production - value chain and global value chain; Factors influencing location of production facility; Decisions in a multinational context (Make or Buy, Standardization vs. adaptation); Supply chain management - Global vs. domestic supply chains; Production strategies: Centralized, Decentralized, Outsourcing, Offshoring; Lean production and Just-in-Time (JIT) systems - Managing quality standards across global operations (ISO, TQM, Six Sigma); Green Supply Chain Management (GSCM); Role of intermediaries and global logistics partners (3PL, 4PL service providers); Logistics technology (tracking, automation); Supply Chain Risk & Resilience

Essential Reading

- Cherunilam, F. (2021). International trade and export management (20th ed.). Himalaya Publishing House

EXAMINATION PATTERN

COURSE NAME: GLOBAL BUSINESS OPERATIONS

COURSE CODE: COH401-7

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
CIA I	Quizzes, role plays, objective-type tests, written assignments, discussion forums, article reviews, case analysis, etc.	20
CIA II	Mid-Semester Written Examination (2 hours duration): Section A – Short Answer Questions (answer ALL three; the third question carries an internal choice) – $3 \times 5 = 15$ Section B – Conceptual / Descriptive / Problem-type questions (answer ALL two; one carries an internal choice) – $2 \times 10 = 20$ Section C – Case Study (compulsory) – $1 \times 15 = 15$	50
CIA III	Group work consisting of presentations, viva voce, and report submission.	20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: RISK AND FRAUD MANAGEMENT

COURSE CODE: COH401F-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the fundamental concepts, nature, and objectives of risk and uncertainty in business..

CO2: Apply appropriate tools and techniques to assess, measure, and manage various types of business and financial risks.

CO3: Analyze the causes and types of fraud, as well as their impact on organisations.

CO4: Apply techniques for detecting and preventing fraud through the implementation of effective internal controls.

CO5: Evaluate future trends and technological developments in risk and fraud management.

Sustainability Development Goals (SDG)

Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Leadership and social influence, Technological literacy

Course Content

U1: Introduction to Risk Management

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning and definition of risk and uncertainty-Nature, Scope and Objectives of risk Management-Difference between risk and uncertainty-Importance and objectives of risk management-Steps in the risk management process-Basic overview of Enterprise Risk Management (ERM) frameworks-History of Financial Disasters and Risk Management Failures-2007 Financial Crisis

U2: Types of Risk and Assessment

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Types of risks: business, financial, operational, market, and strategic risks- Risk identification techniques: checklists, brainstorming, and interviews -Risk assessment and control techniques - Qualitative and quantitative methods of measuring risk -Tools for risk assessment – SWOT analysis, risk matrix-Prioritising and ranking risks- Role of risk management in decision-making.

U3: Nature and Types of Frauds

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Meaning and Definition of fraud, nature of fraud-Difference between error and fraud-Types of fraud: financial statement fraud, employee fraud, asset misappropriation, cyber fraud-Causes and consequences of fraud in organisations-Case examples of big fraud incidents

U4: Fraud Detection, Prevention and Internal Control

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Symptoms and warning signs of fraud-Basic fraud detection methods,tools and techniques- Whistle-blower policy and internal control systems-Ethics and corporate governance in fraud prevention- Role of employees and management in preventing fraud-Use of technology and data analytics in fraud prevention- Importance of transparent reporting and monitoring systems

U5: Future trends in risk and fraud management

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Integrating risk and fraud management practices-Role of technology in managing risk and detecting fraud-Developing a risk management policy-Reporting and responding to fraud cases-Future trends in risk and fraud management.

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: FINANCIAL MODELLING

COURSE CODE: COH402F-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Apply the concept of financial modelling with respect to business decisions and framing strategies

CO2: Analyse financial statements to derive insights about business performance. xx

CO3: Develop forecasts based on realistic assumptions and market conditions.

CO4: Apply strategic analysis tools alongside financial modelling techniques to inform business decisions.

CO5: Construct robust financial models using advanced Excel techniques.

Sustainability Development Goals (SDG)

Decent work and economic growth, Gender equality, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

U1: Introduction to Financial Modeling

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to financial modelling and its role in decision-making, Distinction between data spreadsheets and dynamic financial models, Classification and applications of financial models in business, investment and valuation contexts, Core competencies and analytical mindset of an effective financial modeller, Principles of structured model architecture and documentation, Selection of appropriate modelling tools and platforms, Excel environment for financial modelling: workbook structure and n

Description

Introduction to financial modelling and its role in decision-making, Distinction between data spreadsheets and dynamic financial models, Classification and applications of financial models in business, investment and valuation contexts, Core competencies and analytical mindset of an effective financial modeller, Principles of structured model architecture and documentation, Selection of appropriate

modelling tools and platforms, Excel environment for financial modelling: workbook structure and navigation, Advanced Excel functionalities for model building, Application of financial, logical, statistical and mathematical functions in modelling, Use of lookup and reference functions for data integration, Professional formatting standards and visualization techniques, Productivity enhancement through shortcuts and automation, Dynamic array functions and data validation, Pivot tables for scenario and sensitivity analysis, Add-ins and analysis toolpak applications, Complex formula construction and nested logic, Use of named ranges and model scalability, Date functions and timeline management, Linking and managing external data sources, Operating system and Excel keyboard shortcuts for financial modellers

U2: Errors Fixing and Visualisation

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Advanced Excel functions: IF, VLOOKUP, INDEX+MATCH, XLOOKUP, data validation rules, Designing dynamic dashboards and interactive visual elements, Characteristics of high-quality financial models, Documentation standards and maintaining transparency while modelling, Debugging techniques – error tracing, formula auditing, and identifying circular references, Avoiding common modelling errors and establishing error-checking controls, Data visualisation: working with chart types including combo chart

Description

Advanced Excel functions: IF, VLOOKUP, INDEX+MATCH, XLOOKUP, data validation rules, Designing dynamic dashboards and interactive visual elements, Characteristics of high-quality financial models, Documentation standards and maintaining transparency while modelling, Debugging techniques – error tracing, formula auditing, and identifying circular references, Avoiding common modelling errors and establishing error-checking controls, Data visualisation: working with chart types including combo charts, waterfall charts, bubble charts, Creating multi-axis charts, sparklines, and dynamic data ranges, Introduction to Excel automation basics (using simple macros for repetitive tasks)

U3: Financial Statement Analysis

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Understanding financial reporting frameworks and users of financial information, Structure and interlinkages of financial statements, Detailed analysis of Balance Sheet with focus on asset quality and capital structure, Income Statement evaluation: revenue drivers, cost behavior and margin analysis, Cash Flow Statement interpretation with operating, investing and financing linkages, Common-size financial statements and structural analysis, Time-series and cross-sectional analysis, Peer comparison

Description

Understanding financial reporting frameworks and users of financial information, Structure and interlinkages of financial statements, Detailed analysis of Balance Sheet with focus on asset quality and capital structure, Income Statement evaluation: revenue drivers, cost behavior and margin analysis, Cash Flow Statement interpretation with operating, investing and financing linkages, Common-size financial statements and structural analysis, Time-series and cross-sectional analysis, Peer comparison and industry benchmarking, Advanced ratio analysis: working capital efficiency, operating performance, financial leverage, asset utilisation and market-based ratios, Assessment of earnings quality and persistence, Cash flow adequacy, free cash flow and sustainability analysis, Identification of accounting distortions and financial warning signals, Analysis of off-balance-sheet exposures and contingent liabilities, Integrating financial statement insights for forecasting, scenario analysis and strategic decision-making.

U4: Building Financial Models

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Collecting and cleaning historical data, Developing business drivers and growth assumptions, Forecasting revenue, costs, working capital, and capital expenditure, Scenario analysis tools:-Scenario Manager- What-if analysis, Distinguishing scenario vs sensitivity vs stress testing, Integrating assumptions into dynamic models, Model review checklist and quality assurance methods, Creating integrated financial statements:- Pro forma Income Statement- Projected Balance Sheet- Cash Flow Forecast, Bal

Description

Collecting and cleaning historical data, Developing business drivers and growth assumptions, Forecasting revenue, costs, working capital, and capital expenditure, Scenario analysis tools:-Scenario Manager- What-if analysis, Distinguishing scenario vs sensitivity vs stress testing, Integrating assumptions into dynamic models, Model review checklist and quality assurance methods, Creating integrated financial

statements:- Pro forma Income Statement- Projected Balance Sheet- Cash Flow Forecast, Balancing mechanisms and automated error checks.

U5: Model Creation and Applications

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Company performance analysis & business model evaluation, Cash flow modelling and free cash flow estimation, Variance analysis and break-even modelling, Capital budgeting & investment appraisal: NPV, IRR, Payback, Profitability Index, Cost of capital estimation: WACC and its components, Bond valuation, yield analysis, and amortisation schedules, Portfolio analysis, beta estimation, and risk-return concepts, Lease vs buy modelling and capital structure impact, Market behaviour interpretation

Description

Company performance analysis & business model evaluation, Cash flow modelling and free cash flow estimation, Variance analysis and break-even modelling, Capital budgeting & investment appraisal: NPV, IRR, Payback, Profitability Index, Cost of capital estimation: WACC and its components, Bond valuation, yield analysis, and amortisation schedules, Portfolio analysis, beta estimation, and risk-return concepts, Lease vs buy modelling and capital structure impact, Market behaviour interpretation and trend modelling, Group project:- Develop a complete financial model for a company/project- Presentation of model assumptions, outputs, and strategic recommendations.

Essential Reading

- Day, A. (2013). Mastering financial modelling in Microsoft Excel (3rd ed.). Pearson.
- Sengupta, C. (2009). Financial analysis and modeling using Excel and VBA (2nd ed.). Wiley.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL MODELLING

COURSE CODE: COH402F-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Five CIA components are conducted through the semester; the total is apportioned as prescribed by the course faculty (as per the source syllabus).

Component	Description	Marks
CIA (5 components)	Five continuous internal assessment components, as prescribed by the course faculty.	50 (max. per component)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End Semester Examination: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: FINTECH ECOSYSTEMS

COURSE CODE: COH403F-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the evolution, architecture, and key components of the FinTech ecosystem, including digital payments, blockchain, and financial data systems.

CO2: Analyze the impact of emerging technologies, including Artificial Intelligence, Blockchain, and Big Data, on financial inclusion, efficiency, and regulatory compliance.

CO3: Evaluate various FinTech business models and digital financial services in terms of innovation, scalability, and risk management.

CO4: Assess the ethical, legal, and cybersecurity challenges in financial technology and propose responsible frameworks for digital finance governance.

CO5: Demonstrate critical thinking and leadership in designing technology-enabled financial strategies that align with sustainability, transparency, and inclusive growth.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to FinTech Ecosystem

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning, definition, and scope of FinTech- Historical evolution and global trends- Key components: Payments, lending, wealth management, insurance, RegTech- FinTech ecosystem: Start-ups, incumbents, regulators, and consumers- Overview of global FinTech hubs (Singapore, UK, India, USA, China)

U2: Technologies Driving FinTech Innovation

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Role of AI, Machine Learning, Big Data, IoT in finance- Blockchain technology: Concept, working, use cases- Cryptocurrencies and digital assets: Bitcoin, Ethereum, CBDCs- Cloud computing, APIs, and open banking frameworks- Case studies: UPI (India), Revolut, PayPal, Ant Financial

U3: FinTech Business Models and Applications

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Classification of FinTech models: Payments, lending, wealth-tech, insur-tech- Digital banks and neobanks- Crowdfunding and peer-to-peer lending- Robo-advisory and automated investment platforms- FinTech value chains and innovation ecosystems- Start-up case studies

U4: Risk, Regulation, and Governance in FinTech

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Risk management in FinTech operations- Cybersecurity issues and digital identity management- Data privacy, protection laws, and regulatory sandboxes- AML (Anti-Money Laundering), KYC (Know Your Customer), and compliance- Role of central banks and financial regulators- Ethical issues in algorithmic decision-making

U5: FinTech for Sustainability and Inclusive Growth

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. FinTech and Sustainable Development Goals (SDGs)- Green FinTech: Financing renewable energy and carbon markets- Financial inclusion through digital platforms- Social impact investing and microfinance innovation- Designing sustainable and responsible digital finance models- Leadership, ethics, and the future of digital finance

Essential Reading

- Desai, K., Ramachandran, N., & Mahalakshmi, S. (2025). The Rise of FinTech in India's Financial Ecosystem. Springer.
- Covers core concepts on the evolution, ecosystem, and regulatory environment of Indian FinTech.
- PwC India. (2025). FinTech – powering India's USD 5 trillion economy by fostering innovation and inclusion [PDF]. PwC India.

- Provides practical insights on India's digital payments, financial inclusion, and government initiatives.
- Phadke, S. (2024). The Revival of Indian Finance: Mission
- Sage Publications.
- Examines the overall Indian financial ecosystem with emphasis on policy, FinTech innovation, and economic goals.

Component	Description	Marks
CIA I	Quizzes, role plays, objective-type tests, written assignments, discussion forums, article reviews, case analysis, etc.	20
CIA II	Mid-Semester Written Examination (2 hours duration): Section A – Short Answer Questions (answer ALL three; the third question carries an internal choice) – $3 \times 5 = 15$ Section B – Conceptual / Descriptive / Problem-type questions (answer ALL two; one carries an internal choice) – $2 \times 10 = 20$ Section C – Case Study (compulsory) – $1 \times 15 = 15$	50
CIA III	Group work consisting of presentations, viva voce, and report submission.	20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: FIXED INCOME SECURITIES

COURSE CODE: COH404F-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the structure, functioning, instruments, and market conventions of fixed income markets in India and globally.

CO2: Apply bond valuation techniques and yield measures to price fixed income securities and interpret price–yield relationships using analytical tools.

CO3: Analyse interest rate behaviour using term structure theories, duration, and convexity measures to assess interest rate risk in fixed income securities.

CO4: Evaluate credit risk, credit rating methodologies, and structured fixed income products to determine their risk–return characteristics.

CO5: Design hedging strategies and construct passive and active fixed income portfolios using derivatives to meet specific investment objectives.

Sustainability Development Goals (SDG)

Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Peace, justice and strong institutions, Sustainable cities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Fixed Income Markets

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Introduction to Fixed Income Markets

Nature and characteristics of fixed income securities, Overview of debt markets in India and globally, Primary and secondary markets, Government securities market structure, Corporate bond market structure, Bond price quotations, settlement, day-count conventions, clean price, dirty price, accrued interest, Repo and reverse repo, money market instruments.

Description

U2: Bond Valuation and Yield Measures

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Bond Valuation and Yield Measures

Pricing of fixed income securities, Cash flow valuation, Yield to maturity (YTM), Yield to call (YTC), Yield to put (YTP), Yield to worst (YTW), Current yield vs redemption yield, Spot rates & forward rates (introduction), Bootstrapping the yield curve, Price–yield relationship. Bond valuation theorems.

Description

U3: Term Structure & Interest Rate Risk

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Term Structure & Interest Rate Risk

Term structure of interest rates, Spot and forward rates; theories of the yield curve: Expectations theory, Liquidity preference theory, Market segmentation, Duration measures: Macaulay, Modified, Effective, Convexity, Price sensitivity & interest rate risk, Immunization strategies, Measuring reinvestment risk and market risk.

Description

U4: Credit Risk & Structured Products

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Credit Risk & Structured Products

Corporate bond features, Credit risk: default, downgrade, migration risk, Credit rating frameworks (CRISIL, ICRA, Moody's, S&P), Credit spreads, Credit derivatives (introduction), Securitisation, Mortgage-Backed Securities (MBS), Asset-Backed Securities (ABS), Prepayment risk & extension risk, CDO fundamentals.

Description

U5: Fixed Income Derivatives & Portfolio Strategies

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. Fixed Income Derivatives & Portfolio Strategies

Interest rate futures, Forward Rate Agreements (FRA), Interest rate swaps, Options on bonds, Hedging interest rate exposure, Bond portfolio management, Passive strategies: Buy and hold, Indexing, Active strategies: Yield curve trades, Sector rotation, Bullet, barbell, ladder strategies, Portfolio performance evaluation.

Description

Interest rate futures, Forward Rate Agreements (FRA), Interest rate swaps, Options on bonds, Hedging interest rate exposure, Bond portfolio management, Passive strategies: Buy and hold, Indexing, Active strategies: Yield curve trades, Sector rotation, Bullet, barbell, ladder strategies, Portfolio performance evaluation.

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: DIGITAL MARKETING STRATEGIES

COURSE CODE: COH401M-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Map the digital marketing ecosystem and apply platform-specific logic to real or simulated Indian brand contexts.

CO2: Design audience-first digital marketing strategies with channel-specific execution plans across search, social, content, and direct channels.

CO3: Apply SEO, AEO, SEM, social media, social commerce, and content marketing frameworks to build a coherent multi-channel digital presence.

CO4: Interpret performance marketing dashboards and make data-informed decisions on budget allocation, channel mix, and campaign optimisation.

CO5: Evaluate the strategic use of AI tools, marketing automation, and growth marketing experiments within defined ethical and legal boundaries.

CO6: Construct and present a complete, self-contained Digital Marketing Strategy Document for an Indian brand.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Peace, justice and strong institutions, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Technological literacy

Course Content

U1: The Digital Marketing Ecosystem and Strategy Architecture

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Digital marketing landscape and the shift from communication logic to performance and acquisition logic; the Indian digital opportunity -900 million internet users, UPI-powered D2C commerce, ONDC, and the rise of regional language internet users; the non-linear digital customer journey and Google's micro-moments framework (I-want-to-know, I-want-to-go, I-want-to-do, I-want-to-buy); top-of-funnel, mid-funnel, and bottom-of-funnel strategy -channel selection and content logic by funnel stage; the Indian digital platform stack -Search (Google, Bing), Social and Video (Meta, Instagram, LinkedIn, YouTube), Indian platforms (Moj, ShareChat, Josh), Marketplace (Amazon India, Flipkart, Meesho, ONDC, JioMart), Messaging (WhatsApp Business), and OTT (JioCinema, Hotstar); platform selection framework -audience demographics, category norms, and objective alignment; Customer Acquisition Cost (CAC) and Lifetime Value (LTV) as the foundational financial metrics of digital channel viability;

U2: Search Strategy -SEO, SEM and Answer Engine Optimisation

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Search Engine Optimisation (SEO) - crawl, index, and rank content; on-page SEO -keyword strategy, semantic SEO, topic clusters, meta tags, and internal linking; off-page SEO -backlink strategy and domain authority; technical SEO -site speed, mobile-first indexing, Core Web Vitals, and schema markup; shift from keyword-chasing to topical authority; SEO for Indian languages and regional content; tools -Google Search Console and

SEMrush; Answer Engine Optimisation (AEO) -AI-generated overviews ; zero-click searches and featured

snippets; optimising for AI summaries through structured content and E-E-A-T; SEM -Google Ads auction model, Quality Score, and Ad Rank; campaign types -Search, Display, Performance Max, and Shopping; keyword match types and negative keywords; ad copy

strategy and asset extensions; bidding strategy-manual CPC, Target CPA, and Target ROAS; SEM for Indian brands -vernacular keywords, Tier 2 and Tier 3 targeting, festival bidding; Local SEO, Google Business Profile.

U3: Social Media Strategy, Content Marketing and Social Commerce

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Social media-platform algorithm, ad format,audience targeting logic; platform-specific strategy - Instagram (Reels, carousel, Stories),YouTube (search-driven discovery, Shorts), LinkedIn (B2B positioning, thought leadership),X/Twitter (real-time engagement), and Indian platforms (Moj, ShareChat, Josh) for Bharat-

audience strategy; influencer marketing -nano, micro, macro, and mega differentiation;influencer ROI and ASCI Guidelines for Influencer Advertising (2024); Meta Ads Manager - campaign structure, custom and lookalike audiences, retargeting, creative formats, A/B testing, and Meta Pixel; LinkedIn Ads and YouTube Ads formats; content marketing vs. content creation -the Content Marketing Matrix (entertain, educate, inspire, convince); content calendar aligned to business objectives and platform algorithms; content formats - long-form, short-form, and interactive; social commerce -full-funnel commerce tool.

U4: Performance Marketing, Email, Mobile and Marketing Automation

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Performance marketing -paid search,paid social, affiliate marketing, programmatic display, and native advertising; key metrics -CTR, CPC, CPM, CPL, CPA, ROAS, and CAC; attribution models -last-click, first-click, linear, time-decay, and data-driven; funnel economics -CAC and LTV - Flipkart Ads, Amazon DSP, and ONDC; affiliate marketing -CashKaro and GoPaisa; programmatic advertising -DSP, SSP, and ad exchange ecosystem; real-time bidding vs. programmatic direct; retargeting and first-party data strategy; contextual advertising as the post-cookie future; email marketing

-list building, campaign types (welcome, cart abandonment, re-engagement), subject line psychology, personalisation, and A/B testing; WhatsApp Business as the Indian email equivalent -broadcast lists, chatbots, catalogue, and

payment links; mobile marketing -mobile SEO, App Store Optimisation, push notifications,

SMS marketing under TRAI DLT guidelines, and the UPI ecosystem as a marketing surface; marketing automation.

U5: AI in Digital Marketing, Growth Marketing, Ethics and the Digital Strategy Document

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. AI in digital marketing -generative AI for content generation, ad copy testing, and personalisation; predictive AI -propensity modelling and churn prediction; conversational AI -chatbots and voice assistants; AI tools -ChatGPT and Claude for content ideation, Midjourney and Adobe Firefly for visual creative, Canva AI for rapid iteration, and Google Performance Max as an AI-native campaign type; prompt engineering as a marketable skill; the marketer irreplaceable role -strategic judgment, brand intuition, and ethical oversight; growth marketing -the AARRR framework- growth loops and viral coefficients; A/B testing -hypothesis formation, statistical significance, and decision-making; landing page optimisation and conversion rate optimisation (CRO); product-led growth (PLG); DPDPA, 2023 - framework, penalty & structure - dark patterns in digital marketing -urgency fabrication, confirm-shaming, and roach motel patterns; ethics of personalisation and responsible AI use; SMART Objectives.

EXAMINATION PATTERN

COURSE NAME: DIGITAL MARKETING STRATEGIES

COURSE CODE: COH401M-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Description	Marks
Written Test	Section A – $3 \times 5 = 15$ Section B – $2 \times 10 = 20$ Section C – $1 \times 15 = 15$ (compulsory case study)	50

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination of 3 hours duration.

Section	Type	Marks
A	Short Answer Questions (answer ALL seven; Questions 6 and 7 carry an internal choice). Each question carries five marks.	$7 \times 5 = 35$
B	Conceptual / Descriptive / Problem-type questions (answer ALL five; two carry an internal choice). Each question carries ten marks.	$5 \times 10 = 50$
C	Case Study (compulsory).	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: CONSUMER BEHAVIOUR AND NEUROMARKETING

COURSE CODE: COH402M-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Analyse traditional and behavioural models to map the consumer decision-making process ethically.

CO2: Evaluate how internal psychological factors like motivation, perception, and attitude shape consumer choices.

CO3: Analyse the impact of family, social class, reference groups, and culture on consumer behaviour.

CO4: Explain brain anatomy and neuromarketing tools used to capture subconscious consumer data ethically.

CO5: Apply neuromarketing insights to design effective pricing, packaging, advertising, and retail strategies.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Good health and well-being, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Foundations of Consumer Behaviour & Decision Making

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Consumer Behaviour - Definition, Scope, and Evolution - Consumer vs. Customer - Traditional Models of Consumer Behaviour - Economic Man Model - Psychoanalytic Model - Sociological Model - Howard-Sheth Model of Buying Behaviour; The Consumer Decision-Making Process - Need Recognition - Information Search - Evaluation of Alternatives - Purchase Decision - Post-Purchase Behaviour and Cognitive Dissonance - Bounded Rationality - Heuristics - Framing Effects in Consumer Choices

Description

U2: Internal Psychological Influences on Consumers

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Consumer Motivation and Involvement - Maslow's Hierarchy of Needs Applied to Modern Branding - McClelland's Trio of Needs - Motivational Conflicts - Consumer Involvement Concept; Perception and Sensation - Dynamics of Perception - Subliminal Perception - Perceptual Selection, Organisation, and Interpretation in Marketing; Learning and Memory - Behavioural Learning Theories - Cognitive Learning Theory - Memory Structures - Brand Retrieval Cues; Attitude Formation and Change - Tricomponent Attitude Model - Multi-Attribute Attitude Models - Strategies for Changing Consumer Attitudes

U3: External and Socio-Cultural Influences

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Reference Groups and Social Media Influences - Types of Reference Groups - Opinion Leadership - Word-of-Mouth Marketing - Influencer Marketing and Digital Community Dynamics; Family and Social Class - Family Life Cycle Stages and Changing Consumption Patterns - Family Decision-Making Roles - Social Class Mobility and Status Symbols; Culture and Sub-Culture - Impact of Culture, Core Values, and Sub-Cultures - Geographic, Religious, and Age-Based Sub-Cultures; Diffusion of Innovations - Innovation Adoption Process - Categories of Adopters.

U4: Introduction to Neuromarketing and the Brain

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Neuromarketing: Definition, History, and Scope - Traditional Market Research vs. Neuromarketing - Limitations of Self-Reported Consumer Data; Anatomy of the Consumer Brain - The Triune Brain Model - Key Brain Structures - Role of Neurotransmitters in Buying Decisions; Neuromarketing Tools and Technologies - Metabolic and Hemodynamic Tools - Electrical Tools - Biometrics; Ethics in Neuromarketing.

U5: Practical Applications of Neuromarketing in Business

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Neuro-Pricing and Product Design - Price Perception and the Pain of Paying - Optimising Product Packaging - Sensory Marketing; Neuro-Advertising and Digital Engagement - Analysing Ad Effectiveness Using Eye-Tracking and EEG - Measuring Emotional Engagement and Memory Encoding - Website and UX/UI Optimisation Using Neuromarketing Principles

The Neuro-Store and Shopper Marketing - In-Store Navigation and Path-to-Purchase Optimisation - Shelf-Placement Mechanics - Lighting and Ambient Effects on Subconscious Buying Behaviour; Pepsi vs. Coke fMRI Study - Campbell's Soup Packaging Redesign - Future of Neuro-AI and Predictive Consumer Analytics

EXAMINATION PATTERN

COURSE NAME: CONSUMER BEHAVIOUR AND NEUROMARKETING

COURSE CODE: COH402M-8

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Component	Marks
Continuous Internal Assessment	50

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section	Marks
A	$7 \times 5 = 35$
B	$5 \times 10 = 50$
C	$1 \times 15 = 15$

Total: 100 Marks

Total Marks for the Course: 100.00

COURSE NAME: RETAIL MANAGEMENT AND VISUAL MERCHANDISING

COURSE CODE: COH403M-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Analyze various retail theories and apply them to explain retail evolution and formats in Indian and global contexts.

CO2: Evaluate retail location decisions using geodemographic and spatial analysis models to recommend optimal retail site selection

CO3: Design and construct effective retail store layouts and planograms that maximize customer flow and merchandise visibility.

CO4: Assess the impact of retail environment aesthetics and sensory marketing on consumer behavior and purchase decisions.

CO5: Apply retail analytics tools and emerging technologies to measure, interpret, and improve retail performance metrics.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility

Course Content

U1: Retailing Fundamentals and Theories

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Definition – Nature, Scope & Functions – Importance of Retailing in Indian and Global Contexts - Food and Nonfood Retail Formats, Web, Non-Store Based and other forms of Nontraditional Retailing; Retailing Mix; Theories of Retailing: Theory of Natural Selection, Wheel of Retailing Theory, Accordion Theory, Polarization Theory, Melting Pot Theory.

U2: Retailing Geodemographic Techniques

Teaching Hours: (12)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Sustainability

U2-T1. Trading Area Analysis: Retail Locations Types, Location Decision Process; Locational Positioning; Location Assessment Techniques: Analogue Method, Multivariate Statistical Techniques, Spatial Interaction Models Reilly's Law of Gravitation, Knowledge Based Techniques; Demand Estimation Techniques: Huff's Gravity Theory, Saturation Theory, Buying Power Index.

U3: Retail Designs, Layouts & Planograms

Teaching Hours: (12)

Development Needs:

Global, Local

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Sustainability

U3-T1. Types of Layouts: Grid Layout, Herringbone Layout, Loop or Racetrack Layout, Free-flow Layout, Spine Layout, Diagonal Layout, Angular Layout, Geometric Layout, and Mixed or Hybrid Layouts – Cognitive Maps and Store Maps - Planogram - Types of Planogram - Merchandize Presentation Techniques (Traditional, Bundled and Planograms)

U4: Retail Designs, Aesthetics & Psychology

Teaching Hours: (12)

Development Needs:

Global, Local

Skill Focused:

Employability

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U4-T1. Exterior Design Decisions – Interior Design Decisions - General Rules of Customer Traffic - Theory of Eyelevel Buylevel - Mehrabian-Russell Model - Drivers of Behaviour (Arousal, Pleasure and Dominance) - Sensory Marketing Techniques in Retailing - Color Psychology in Retailing - Hedonic Shopping Motives - Experiential Retailing

U5: Fundamentals of Retailing Analytics and Technology

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. Retail Analytics Fundamentals - Role of Data in Retail Decision Making - Types of Retail Data and Sources - Market Basket Analysis and Association Rules - Point-of-Sale Systems and RFID - Automated Inventory Management Systems - Virtual Reality (VR) and Augmented Reality (AR) Applications

EXAMINATION PATTERN

COURSE NAME: RETAIL MANAGEMENT AND VISUAL MERCHANDISING

COURSE CODE: COH404M-8

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Analyze marketing data using analytical techniques to support strategic decisions.

CO2: Apply predictive models to understand consumer behavior and market opportunities.

CO3: Evaluate digital marketing performance through marketing dashboards and KPIs.

CO4: Apply AI tools to conduct market research and generate actionable customer insights.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Technological literacy

Course Content

U1: Unit I: Foundations of Marketing Analytics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Evolution of marketing analytics; Data-driven marketing; Marketing intelligence systems; Types and sources of marketing data; Structured and unstructured data, Big data in marketing; Marketing Information Systems (MKIS); Role of analytics in strategic marketing; Introduction to business intelligence.

U2: Unit II: Customer Analytics and Market Intelligence

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Customer data platforms; Customer lifetime value (CLV); Customer segmentation; RFM analysis; Market Basket analysis; Consumer behavior analytics; Competitive intelligence; Sentiment Analysis, Semiotic Analysis, Customer Journey Analytics.

U3: Unit III: Digital Marketing Analytics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Web analytics; Social media analytics; SEO and SEM metrics; Email marketing analytics; Campaign performance measurement; Marketing KPIs; Attribution models; Conversion funnel analysis; Marketing dashboards; Google Analytics concepts; ROI and ROMI analysis.

Description

U4: Unit IV: Predictive Analytics and Business Intelligence

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Regression and classification – Linear Regression, Ordinal Regression, Binary Regression and Panel Regression; Model evaluation, Forecasting demand; Recommendation systems, Data Visualization and Insights.

U5: Unit V: Customer Insights with AI

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Qualitative Approach: Conducting interviews and observation - AI-assisted analysis - Insights generation; Quantitative Approach: Surveys – Causality; A/B testing, Experimental design, Using Generative AI applications for Marketing Research, Ethical usage of AI.
