

COMMERCE

2026

Particulars	Page No.
1. Department Vision & Mission	6
2. Programme Outcome	7
3. Course Structure	8
SEMESTER I	
4. English for Professional Communication (ENG283-1)	24
5. Basics of Accountancy and Economics (COM001-1)	28
6. Business Law (COM101-1)	31
7. Business Economics (COM102-1)	35
8. Financial Planning and Performance Management (COSF201-1)	37
9. Computerized Accounting (COSF161-1)	40
10. Environmental Studies (EVS-NEP181-1)	42
SEMESTER II	
11. English for Professional Communication (ENG283-2)	45
12. Corporate Law and Administration (COM101-2)	48
13. Financial Reporting – US GAAP (COSF201-2)	51
14. Cost Management (COSF202-2)	54
15. Excel Skills for Business Specialization (COSF161-2)	57
SEMESTER III	
16. French (FRE181-3)	60
17. German-I (GER181-3)	65
18. Basic Hindi (HIN181-3)	70
19. Hindi Advanced (HIN281-3)	74
20. Foundation Kannada (KAN181-3)	78
21. Advanced Kannada (KAN281-3)	81

22. Korean (KOR181-3)	84
23. Basic Sanskrit (SAN181-3)	87
24. Sanskrit (SAN281-3)	91
25. Spanish (SPA181-3)	95
26. Tamil (Advanced) (TAM281-3)	99
27. Business Statistics (COSF201-3)	103
28. Strategic Financial Management (COSF202-3)	106
29. Financial Reporting – US GAAP (COSF203-3)	109
30. Service Learning and Community Engagement (COM162-3)	112
SEMESTER IV	
31. French (FRE181-4)	115
32. German-II (GER181-4)	122
33. Basic Hindi (HIN181-4)	124
34. Hindi Advanced (HIN281-4)	128
35. Foundation Kannada (KAN181-4)	132
36. Advanced Kannada (KAN281-4)	135
37. Korean (KOR181-4)	138
38. Basic Sanskrit (SAN181-4)	141
39. Sanskrit (SAN281-4)	145
40. Spanish (SPA181-4)	148
41. Business Analytics (COM101-4)	151
42. Entrepreneurship (COM201-4)	154
43. Financial Markets, Institutions and Services (COSF201-4)	157
44. Forensic Audit (COSF301-4)	161
45. Strategic Decision Making (COSF302-4)	164

SEMESTER V	
46. Research Methodology (COM101-5)	167
47. Taxation-I (COSF201-5)	170
48. Ind AS and IFRS (COSF301-5)	173
49. Portfolio Management (COSF302-5)	176
50. Internship (COM181-5)	180
SEMESTER VI	
51. Taxation II (COSF201-6)	183
52. Corporate Valuation (COSF301-6)	187
53. Derivatives and Commodity Markets (COSF302-6)	190
54. Financial Modelling (COSF303-6)	193
55. Advanced Accounting and Analysis (COSF304-6)	196
SEMESTER VII	
56. Clmatonomics (COM401-7)	199
57. Financial Reporting – IFRS (COSF401-7)	202
58. Organisational Behaviour (COM402-7)	205
59. Financial Strategy and Decision Making (COM402A-7)	208
60. Advanced Cost Management (COM403A-7)	211
61. Advanced Auditing & Assurance (COM401A-7)	213
62. Capstone Project (COM481-7)	216
SEMESTER VIII	
63. Accounting Analytics (COM401A-8)	218
64. Business Policy and Strategic Management (COM402-8)	221
65. Insolvency Law and Practice (COM402A-8)	224
66. Behavioural Finance (COM403A-8)	227
67. Federal Taxation (COSF401-8)	229

68. Internship (COM481-8)	232
69. Quantitative Research Methods (COM501R-8)	234
70. Qualitative Research Methods (COM502R-8)	237
71. Research Dissertation (COM581R-8)	240

DEPARTMENT VISION AND MISSION

a. Vision Statement:

To be a centre of excellence in the realm of Commerce and Management, developing and nurturing global competencies in students through quality education, research and continuous innovation.

b. Mission Statement:

M1: To nurture commerce professionals who possess a high level of knowledge and competence to effectively contribute to society with commitment and integrity.

PROGRAMME OUTCOME

Reference No	Statement	Attribute
PO1	Apply interdisciplinary commerce knowledge, including finance, accounting, management, and technology, to develop sustainable and innovative business strategies that address cross-cutting issues and global challenges.	Academic Excellence:Domain Expertise,Knowledge Application,Problem Solving Skills Leadership:Consultative Decision Making Professional Excellence:Creative Thinking,Employability,Entrepreneurship,Global Perspective,Innovativeness
PO2	Demonstrate leadership, communication, and teamwork skills to collaborate in diverse business environments while designing innovative, socially responsible business models that integrate sustainability principles, technological advancements, and ethical frameworks to address societal and environmental challenges.	Academic Excellence:Self-Learning and Research Skills Social Sensitivity:Social Awareness and Contribution Professional Excellence:Continuous Learning,Critical and Solution-Oriented Thinking,Employability,Global Perspective,Practical Skills Leadership:Team Building Skills
PO3	Utilize appropriate research methodologies and analytical tools to critically evaluate business challenges and provide evidence-based, technology-driven solutions.	Academic Excellence:Domain Expertise,Knowledge Application,Problem Solving Skills,Self-Learning and Research Skills Leadership:Consultative Decision Making Professional Excellence:Analytical Skills,Creative Thinking,Critical and Solution-Oriented Thinking
PO4	Create strategies to integrate new knowledge, skills, and technologies, adapting to the dynamic nature of business and supporting continuous professional growth.	Academic Excellence:Domain Expertise,Knowledge Application Professional Excellence:Analytical Skills,Continuous Learning,Creative Thinking Social Sensitivity:Knowledge Sharing
PSO1	Demonstrate professional knowledge, skills, and critical thinking required by accountants and finance professionals to address the complexities of the business environment through consultative decision-making.	Leadership:Consultative Decision Making Professional Excellence:Creative Thinking,Critical and Solution-Oriented Thinking,Employability Academic Excellence:Domain Expertise,Problem Solving Skills
PSO2	Evaluate diverse financial instruments and strategies to optimize resource allocation and achieve the strategic objectives of individuals and organizations.	Academic Excellence:Problem Solving Skills Professional Excellence:Analytical Skills,Creative Thinking,Critical and Solution-Oriented Thinking,Practical Skills Social Sensitivity:Respecting Diversity

Course Structure

Bachelor of Commerce (Strategic Finance)

SEMESTER - I

Course Code	Course Name	Course Type	Category	Total Marks	L-Hr/ Week	T-Hr/ Week	P-Hr / Week	Credits

Course learning Outcomes

CO1: Construct and deliver professional presentations, reports and emails, demonstrating clear, concise, and persuasive communication appropriate for diverse business audiences.

CO2: Analyze and interpret texts, including financial reports and case studies, to identify key arguments, evaluate evidence, and draw informed conclusions.

CO3: Demonstrate proficiency in using specialized business vocabulary accurately in both written and oral communication, enhancing their professional credibility.

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Life below water, Life on land, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U1-T1. The Flowering Tree by A K Ramanujam

Description

"The Flowering Tree", written in the folklore tradition, is often seen as a metaphor for female resilience, ecological balance, and cultural memory. Ramanujan's retelling bridges ancient oral traditions and modern literary sensibilities, making it a timeless narrative open to multiple readings.

U1-T2. Balai by Rabindranath Tagore

Description

Rabindranath Tagore's short story Bolai (from the collection Lipika) is a poignant exploration of innocence, nature, and the clash between childhood wonder and adult pragmatism.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U2-T1. SHAZADPUR (Glimpses of Bengal by Rabindranath Tagore)

Description

Between 1885 and 1895, Rabindranath Tagore spent extended periods in rural Bengal, overseeing his family's estates in places like Sheldaidaha, Patisar, and Shazadpur (now in Bangladesh). During this time, he wrote a

series of personal letters, mostly addressed to family members and close friends. These letters, later selected and translated by Tagore himself in *Glimpses of Bengal*, offer vivid portraits of village life, natural beauty, and human relationships in colonial Bengal.

U2-T2. Message to the Modern World by an Indian Chief (Script)

Description

In 1854, Chief Seattle delivered a letter (often misrepresented as a speech) to the then-President of the United States, Franklin Pierce, following a request by the U.S. government to purchase his tribe's land for the purpose of expanding the American frontier. The context of the letter is tied to the encroachment of settlers on Native American lands and the forced relocation of tribes as part of broader U.S. government policies such as the Indian Removal Act.

U3: Essay

Teaching Hours: (7)

Development Needs:

Global, Local

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U3-T1. Trees of Bangalore by Madhav Gadgil

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U3-T2. Thinking Like a Mountain - Aldo Leopold

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U4-T1. Green building ratings crucial to address climate change

Description

As the global community intensifies efforts to address climate change, the building and construction sector—responsible for a significant share of carbon emissions—presents both a challenge and an opportunity. This article explores the critical role of sustainability in shaping the built environment.

U4-T2. International Rivers statement on Teesta dam disaster in Sikkim

Description

This powerful and urgent article highlights the devastating collapse of the Chungthang dam (Teesta III) in Sikkim on October 4, 2023, following a glacial lake outburst flood (GLOF).

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1- Structured Analytical Writing through PEEL (20 Marks)

Course Component: Analytical Writing / Critical Thinking

Mode: Individual (In-class / Internal Assessment)

Students will write three structured analytical paragraphs using the PEEL framework in response to a prescribed literary or visual text studied in class.

Each paragraph must: Present a clear argumentative Point. Provide relevant textual or contextual Evidence.

Offer a critical Explanation using a theoretical lens. Conclude with a strong Link to the central argument

CIA 3- Narrative Writing/Report writing7. Narrative Writing - 20 Marks

Component Title: Critical Narrative Construction

Instructions: Write a 800–1000 word narrative that integrates reflection, perspective, and socio-cultural awareness. The narrative must move beyond storytelling and demonstrate thematic depth.

2. Field Study Analytical Report

Marks: 20

Word Limit: 800 -1000 words

Mode: Individual Field-Based Study

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A : Short Notes (3x10=30)

Section B: Long Answer (2x10=20)

Section C: Composition (2x10=20)

BASICS OF ACCOUNTANCY AND ECONOMICS

Course Code	COM001-1
Course Type	Theory
Total Hours	L 2 / T 2
Category	Bridge Courses

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)

Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Bachelor of Commerce (SEMESTER - I)

Bachelor of Commerce (Strategic Finance) (SEMESTER - I)

Bachelor of Commerce (Work Integrated) (SEMESTER - I)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Understand the basic concepts and objectives of accounting

CO2: Apply accounting principles and double entry system to record transactions

CO3: Prepare ledger accounts and trial balance

CO4: Explain fundamental concepts of economics and economic problems

CO5: Analyse demand and supply concepts and market equilibrium

CO6: Understand national income concepts and the impact of inflation

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, No poverty

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Accounting

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning and Objectives of Accounting – Users of Accounting Information – Book Keeping vs Accounting – Branches of Accounting – Accounting Terminologies.

U2: Accounting Concepts and Double Entry System

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Accounting Concepts and Conventions – Double Entry System – Types of Accounts – Rules of Debit and Credit – Journal Entries.

U3: Ledger and Trial Balance

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Ledger Posting – Balancing of Accounts – Trial Balance – Errors and Rectification (Introductory level).
Introduction to Partnership accounts

U4: Introduction to Economics

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Meaning and Scope of Economics – Micro and Macro Economics – Basic Economic Problems – Opportunity Cost – Production Possibility Curve

U5: Demand and Supply

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Law of Demand – Law of Supply – Determinants – Elasticity of Demand – Market Equilibrium.

U6: National Income and Inflation

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U6-T1. Meaning of National Income – Concepts of National Income – Methods of Measurement – Inflation: Meaning, Causes and Effects.

Essential Reading

Author:

Paul A. Samuelson, William D. Nordhaus Title: Economics Edition: 20th Edition (most commonly listed edition)

Publisher: McGraw Hill Education (often published by McGraw-Hill / Tata McGraw Hill for Indian editions)

Details: Widely used comprehensive economics textbook covering microeconomics and macroeconomics

fundamentals. Copy-ready reference: Samuelson, P. A., & Nordhaus, W. D. Economics (20th ed.). McGraw Hill Education.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 50

BUSINESS LAW

Course Code	COM101-1
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)

Bachelor of Commerce (Finance and Investment) (SEMESTER - I)

Bachelor of Commerce (SEMESTER - I)

Bachelor of Commerce (Strategic Finance) (SEMESTER - I)

Bachelor of Commerce (Work Integrated) (SEMESTER - I)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Analyze the fundamental principles of agreements and contracts under the Indian Contract Act, 1872, including the rules relating to offer, acceptance, consideration, and capacity/competency to contract.

CO2: Evaluate the concept of free consent, its implications on contractual validity, the legality of object, and interpret judicial decisions under the Indian Contract Act, 1872.

CO3: Evaluate the legal framework governing contracts of indemnity, guarantee, bailment, pledge, lien, and agency, including their essentials and legal implications.

CO4: Analyze the principles of the contract of sale by distinguishing conditions and warranties, examining the transfer of ownership, rights of an unpaid seller, performance obligations, and the doctrine of caveat emptor.

CO5: Critically evaluate competition law by analyzing fair and unfair trade practices, abuse of dominant position, anti-competitive agreements and combinations, and the role and functioning of the Competition Commission of India (CCI).

Sustainability Development Goals (SDG)

Decent work and economic growth, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Dependability and attention to detail, Leadership and social influence

Course Content

U1: The Indian Contract Act, 1872- General Contracts-I

Teaching Hours: (15)

Development Needs:

Local, National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. The Indian Contract Act, 1872- General Contracts-I

Description

Contract – meaning, characteristics, and kinds; Essentials of valid contract – Offer- meaning, Essential elements of a valid offer, types of offer; Acceptance- meaning and valid rules of acceptance; Communication of offer and

acceptance, Revocation of offer and acceptance, Lapse of Offer, Consideration- meaning, essential elements, legal rules regarding consideration, exceptions to the general rule of consideration, Rule of Privity of contract and its exceptions; Contractual Capacity- meaning and types of parties, persons not competent to contract, Nature and effects of Minor's agreements. Landmark judgments. (Meaning includes definitions given by the Act)

Employability

Cross Cutting Issues:

Human Values, Sustainability

U1-T1. Demand and supply Analysis and Applications

Description

Economic models- Production Possibility Frontier and Circular Flow of Income: Two Sector Model; Demand Analysis: Law of demand, Exceptions to the law; Changes in demand, Elasticity of Demand: Definition, degrees and measurement - Supply Analysis: Laws of supply, Changes in supply, and elasticity of supply - Market equilibrium, Applications in real life: Price Ceiling, Price Floor and Externality.

U2: Theory of Consumer Choice

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U2-T1. Theory of Consumer Choice

Description

The Budget Constraint: What the Consumer Can Afford, Preferences: What the Consumer Wants, Indifference curves- Properties, Optimization: What the Consumer Chooses and definition of Price Effect, Income Effect and Substitution Effect.

U3: Theory of Production and Cost

Teaching Hours: (10)

Development Needs:

None

Skill Focused:

None

Cross Cutting Issues:

None

U3-T1. Theory of Production and Cost

Description

Production function; Law of variable proportions; Laws of returns, Economies of scale; Cost Function-Important cost concepts. Short run and long run cost analysis (traditional theory) Modern theory of cost- Revenue analysis. TR, AR and MR.

U4: Market Structure

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U4-T1. Market Structure

Description

Market structure- Perfect competition, Price and output determination- Monopoly- Price output determination, Price discrimination Monopolistic Competition – Features, Price and Output determination (Short Run and Long Run). Oligopoly: Definition and types of Oligopoly.

U5: Measuring Nation's Income and Cost of Living

Teaching Hours: (9)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U5-T1. Measuring Nation's Income and Cost of Living

Description

Measuring GDP - Real and Nominal GDP and GDP Deflator – Inflation: Consumer Price Index, Comparison of CPI an GDP Deflator and Adjusting economic variables to inflation – Money Supply Measures.

U6: Money and the Financial System

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

None

U6-T1. Money and the Financial System

Description

Saving and Investment in National Income Accounts. The Market for Loanable Funds. Banks and the Money Supply. Monetary Measures. Meaning of Inflation and Costs of Inflation. Tools of Credit Control.

FINANCIAL PLANNING AND PERFORMANCE MANAGEMENT

Course Code	COSF201-1
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - I)

Course learning Outcomes

CO1: Recall the basic concepts of business planning, supply chain management, and performance measurement.

CO2: Recall the basic concepts of internal controls, risk management, technology, data analytics and performance management.

CO3: Apply the concepts of business planning, supply chain management, and performance measurement.

CO4: Apply the concepts of internal controls, risk management, technology, data analytics to various business situations.

CO5: Identify, Compare and propose strategies and business plans for improving the overall performance of the organization.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control, Technological literacy

Course Content

U1: Strategic Planning

Teaching Hours: (10)

Development Needs:

Global, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Strategic Planning

Description

Analysis of external and internal factors affecting strategy - Long-term mission and goals - Alignment of tactics with long-term strategic goals - Strategic planning models and analytical techniques - Characteristics of the successful strategic planning process.

U2: Supply Chain Management and Business Process Improvement

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U2-T1. Supply Chain Management and Business Process Improvement

Description

Lean manufacturing - Enterprise resource planning (ERP) - Theory of constraints and throughput costing - Capacity management and analysis - Value chain analysis - Value-added concepts - Process analysis - Activity-based management - Continuous improvement concepts - Best practice analysis - Cost of quality analysis - Efficient accounting processes.

U3: Performance Measures

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Performance Measures

Description

Product profitability analysis - Business unit profitability analysis - Customer profitability analysis - Return on investment - Residual income - Investment base issues - Key performance indicators (KPIs) Balanced scorecard - Responsibility centres and reporting segments

U4: Governance, Internal Controls and Risk Management

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Governance, Internal Controls and Risk Management

Description

Internal control structure and management philosophy - Internal control policies for safeguarding and assurance - Internal control risk Managing the Risk of Fraud (ISO31000)- Corporate governance - External audit requirements - Internal auditing - Systems Control and Security Measures General accounting system controls - Application and transaction controls - Network controls Backup controls - Business continuity planning - Risk Management - Types of risk - Risk identification and assessment - Risk mitigation strategies - Managing risk.

U5: Technology and Data Analytics

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. Technology and Data Analytics

Description

Information systems – Accounting information systems – Enterprise resource planning systems – Enterprise performance management systems – Data governance – Data policies and procedures – life cycle of data – controls against security breaches – Technology enabled finance transformation – system development life cycle – process automation – innovative applications - Data analytics – Business intelligence – Data mining – Analytic tools – Data visualization.

Essential Reading

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1 (20 marks)

CIA 2 (50 Marks)

CIA 3 (20 marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A: Short Answer Questions – Answer 3 questions (with internal choice in Q3), 5 marks each → 15 marks. Section B: Conceptual/Descriptive/Problem Questions – Answer 2 questions (with 1 internal choice), 10 marks each → 20 marks. Section C: Case Study – Compulsory, 1 question, 15 marks → 15 marks.

COMPUTERIZED ACCOUNTING

Course Code	COSF161-1
Course Type	Theory
Total Hours	L 3 / T 0
Category	Skill Enhancement Courses

Course learning Outcomes

CO1: Understand the importance of the digitalized accounting system and the Tally software.

CO2: Examine the concept of accounting software and preparation of accounts using Tally.

CO3: Use Tally Prime to manage inventory and track stock levels

CO4: Develop problem-solving skills through hands-on experience using Tally software

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Motivation and self-awareness

Course Content

U1: Introduction to Accountancy

Teaching Hours: (5)

Development Needs:

Local, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Level of knowledge: Conceptual and Analytical Introduction - Terminologies in Accounting - Concepts of Accounting - Double Entry System – Types of accounts-Rules of Debit and Credit– Book keeping – Financial Statements - Subsidiary Books and Control Accounts -Computerized Accounting.

Description

U2: Unit 2: Fundamentals of Tally Prime.

Teaching Hours: (5)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Level of knowledge: Conceptual and Analytical Computerised Accounting using Tally Prime - Tally Prime –Fundamentals of Tally Prime – Creation of company- Alter and Shut Company-Features and Configurations.

Description

U3: Maintaining Chart of Accounts

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Level of knowledge: Conceptual and Analytical Chart of Accounts - Creators of Masters in Tally - Accounting Masters - Group and Ledger Creation - Inventory Masters - Creation of Stock Group, Stock Category, Unit of Measure, Inventory, Stock Item and Godown - Alteration and Deletion of Masters - Multi Master Creation

Description

U4: Recording of Transactions

Teaching Hours: (13)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Level of knowledge: Basic and Application Oriented Recording Transactions in Accounting Vouchers - Storage and Classification of Inventory - Accounts Receivable and Payables Management - Purchase and Sales order Management - Tracking Additional Cost of Purchase - Cost/Profit Centers - Budgets and Scenarios - Inter-state and Intra-State Transactions - Regular and Composition Dealer

Description

U5: Advanced Features in Tally

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Level of Knowledge: Basic and Application Oriented Advanced features of Tally in accounting - Final Accounts Reports - MIS Reports - Inventory Reports - Financial Reports - Books and Registers – Payroll administration, configuration and recording TDS transactions, E-Filing of TDS returns, Emailing in Tally.

Description

Course learning Outcomes

CO1: Construct and deliver professional presentations, reports and emails, demonstrating clear, concise, and persuasive communication appropriate for diverse business audiences.

CO2: Analyze and interpret texts, including financial reports and case studies, to identify key arguments, evaluate evidence, and draw informed conclusions.

CO3: Demonstrate proficiency in using specialized business vocabulary accurately in both written and oral communication, enhancing their professional credibility.

Sustainability Development Goals (SDG)

Gender equality, Reduced inequalities

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Empathy and active listening

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U1-T1. The Story of an Hour by Kate Chopin

Description

A classic American short story, Kate Chopin's "The Story of an Hour" is praised for both its potent feminist themes and its economical use of language.

U1-T2. Mrs Sen Jhumpa Lahiri

Description

One of the most notable stories in Jhumpa Lahiri's Interpreter of Maladies (1999) is Mrs. Sen's, which provides a subtly potent reflection on cultural isolation, gender, identity, and displacement.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U2-T1. Visual Text: Speech by Wangari Maathai (Noble Acceptance Speech)

Description

Wangari Maathai delivered her Nobel Peace Prize lecture in December 2004, after being honored for her contributions to sustainable development, democracy, and peace. In her speech, she emphasized the interconnection between environmental conservation, human rights, and peace.

U2-T2. True Liberation of Women by Indira Gandhi

Description

Indira Gandhi's speech, "True Liberation of Women", was delivered on March 26, 1980, at the inauguration of the All-India Women's Conference Building Complex in New Delhi. In this address, she reflected on the role of women's organizations in India and highlighted the need for a liberation that acknowledges women's individuality rather than merely imitating men.

U3: Essay

Teaching Hours: (7)

Development Needs:

National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U3-T1. Intersectional Discrimination: Understanding the Indian Perspective

Description

This essay looks at gender discrimination in the Indian context with examples.

U3-T2. Excerpt from “The Truth About Me: A Hijra Life Story” - A. Revathi

Description

The novel shares experiences of an Indian hijra in a stigmatized society.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U4-T1. Changing Face of Women's Representation in Hindi Cinema

Description

In a country where cinema is both cultural currency and a reflection of societal values, the portrayal of women in Bollywood deserves critical scrutiny. This article unpacks the complex history of women's representation in Hindi cinema—from the silencing of their presence in early 20th-century films to their objectification through item numbers and the male gaze, as theorized by Laura Mulvey.

U4-T2. Why Diversity Programs

Description

This article critically examines the efficacy of long-standing corporate diversity programs, revealing that many popular strategies—such as mandatory diversity training, hiring tests, and grievance systems—not only fail to improve diversity but often worsen it.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1 and CIA 3 Internal at Department Level for 20 marks each

CIA 2 Centralized exam for 50 marks (4x5=20, 1x10=10, 2x10=20)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A : Short Notes (4x5=20)

Section B: Long Answer (1x10=10)

Section C: Composition (2x10=20)

CORPORATE LAW AND ADMINISTRATION

Course Code	COM101-2
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - II)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - II)

Bachelor of Commerce (Finance and Investment) (SEMESTER - II)

Bachelor of Commerce (SEMESTER - II)

Bachelor of Commerce (Strategic Finance) (SEMESTER - II)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - II)

Course learning Outcomes

CO1: Analyze and differentiate the concept of a Company and LLP, and examine the procedural requirements for their formation.

CO2: Evaluate and categorize different types of company-related documents and judge their binding effects on various stakeholders.

CO3: Analyze the role of the Board of Directors (BOD) and Key Managerial Personnel (KMPs) in company administration, and analyze the procedural requirements for conducting different types of meetings, including committee meetings.

CO4: Critically evaluate the provisions relating to dividends, books of accounts, and reports, and assess their statutory requirements for the Company.

CO5: Evaluate and compare different modes of winding up a company and critically analyze the relevance of the Insolvency and Bankruptcy Code (IBC), 2016 in corporate restructuring.

Sustainability Development Goals (SDG)

Gender equality, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Creative thinking

Course Content

U1: Introduction and Jurisprudence of Company Law

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction and Jurisprudence of Company Law

Description

History of Company Law and scope; Company and its Characteristics; Lifting of corporate veil, types of companies including one-person company, Conversion of private company to One Person company, small company and dormant company; association not for profit; illegal association and Limited Liability Partnership

(LLP); formation of company, on-line filing of documents, on-line registration of a company; promoters, their legal position, pre-incorporation contract-AI-Powered MCA21 V3 Portal

U2: Documents

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U2-T1. Documents

Description

Documents : Memorandum of association and its contents; Articles of association and its contents; Entrenchment clause, Doctrine of Ultra vires, Doctrine of Constructive Notice and Doctrine of Indoor management, prospectus and its types; Misstatement in prospectus; liability for misstatements.

U3: Management

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Management and ESG compliance

Description

Management and ESG compliance

: Director and its Classification including Women directors, Independent directors, Small shareholder's director; Disqualifications, Director Identification Number (DIN); Their appointment; Legal positions, powers and duties; removal of directors; Key Managerial Personnel.

Meetings: Meetings of shareholders and board; Types of meeting, convening and conduct of meetings, Quorum, Agenda, proxy forms, Minutes book and Voting Methods including postal ballot, Ordinary and Special resolution,, drafting of resolutions, Circular Resolution, e-voting; Corporate Governance and Committee, Committees of Board of Directors - Audit Committee, Nomination and Remuneration Committee, Stakeholders Relationship Committee, Corporate Social Responsibility Committee, Grievance Redressal Committee.

ESG Framework: ESG Vs.CSR-BRSR (BusinessResponsibility and Sustainability Report)-NGRBC(National Guidelines forResponsible Business Conduct)

21st Century Skills

Analytical thinking, Creative thinking, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Financial statements

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Financial statements

Description

Income statement - Statement of comprehensive income - Balance sheet - Statement of changes in equity - Statement of cash flows - Notes to the financial statements – elements of financial statements and measurement base.

U2: Asset valuation

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Asset valuation

Description

Fair value standards and measurements - Accounts receivable - Inventory – Investment in marketable securities - Property, plant & equipment - Depreciation Methods - Impairment - Intangible assets - Deferred tax assets - Leasehold assets.

U3: Valuation of liabilities

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Valuation of liabilities

Description

Current liabilities - Contingencies - Long-term liabilities and bonds payable – Warranties - Off-balance sheet financing - Deferred tax liabilities - Lease liabilities.

U4: Equity transactions

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Equity transactions

Description

Paid-in capital - Retained earnings - Accumulated other comprehensive income - Stock dividends and stock splits - Stock options.

U5: Revenue recognition

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Revenue recognition

Description

Revenue recognition principles - Percentage-of-completion versus completed-contract method - Matching principle - Comprehensive income - Major differences between US GAAP and IFRS.

Essential Reading

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A: Short Answer Questions – Answer 3 questions (with internal choice in Q3), 5 marks each → 15 marks. Section B: Conceptual/Descriptive/Problem Questions – Answer 2 questions (with 1 internal choice), 10 marks each → 20 marks. Section C: Case Study – Compulsory, 1 question, 15 marks → 15 marks.

COST MANAGEMENT

Course Code	COSF202-2
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - II)

Course learning Outcomes

CO1: Demonstrate a solid understanding of cost measurement concepts, including actual and normal costs, standard costs, and different costing methods

CO2: Evaluate top-level plans, budgets, and forecasts to support strategic decision-making in organizational settings.

CO3: Apply costing systems and overhead cost principles to accurately allocate resources, including job order costing, process costing, and activity-based costing

CO4: Master the analysis of cost and variance measures, utilizing flexible budgets and standard cost systems to evaluate and improve organizational performance.

CO5: Critically evaluate and synthesize diverse cost-related information, enhancing their ability to make informed decisions in complex business environments.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail

Course Content

U1: Cost Measurement Concepts

Teaching Hours: (15)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U1-T1. Cost Measurement Concepts - Cost behaviour and cost objects - Actual and normal costs - Standard costs - Absorption (full) costing - Variable (direct) costing - Joint and by-product costing

Description

U2: Budgeting and Forecasting

Teaching Hours: (15)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U2-T1. Budgeting and Forecasting - Operations and performance goals - Characteristics of a successful budget process - Resource allocation Forecasting techniques (Normal Distribution, Regression analysis, learning curve analysis, Expected value). Annual business plans (master budgets) - Project budgeting - Activity-based budgeting - Zero-based budgeting Continuous (rolling) budgets - Flexible budgeting

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U3-T1. Costing Systems and Overhead Costs - job order costing - Process costing - Activity-based costing - Life-cycle costing - Fixed and variable overhead expenses - Plant-wide versus departmental overhead - Determination of allocation base - Allocation of service department costs

Description

U4: Cost and Variance Measures

Teaching Hours: (20)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U4-T1. Cost and Variance Measures - Comparison of actual to planned results - Use of flexible budgets to analyse performance- Management by exception - Use of standard cost systems - Analysis of variation from standard cost expectations

Description

Essential Reading

Bloch, E. J., Stout, D. E., Juras, P. E., & Smith, S. (2021). Cost management: A strategic emphasis (9th ed.). McGraw Hill.

4. Datar, S. M., & Rajan, M. V. (2021). Horngren's cost accounting: A managerial emphasis (17th ed.). Pearson Education.

4. Simkin, M. G., Worrell, J. L., & Savage, A. A. (2018). Core concepts of accounting information systems (14th ed.). Wiley. Bodnar, G. H., & Hopwood, W. S. (2013). Accounting information systems (12th ed.). Pearson Education.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I -20 Marks, CIA 2 -50 Marks, CIA 3 - 20 Marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Conceptual / Descriptive/Problem Type questions (one internal choice question) | 3
X 5 = 15 | B | Analytical/Essay Types Questions (one internal choice question) | 2x 10 = 20 | C | Case Study
(Compulsory) | 1 x15 = 15 |

EXCEL SKILLS FOR BUSINESS SPECIALIZATION

Course Code	COSF161-2
Course Type	Theory
Total Hours	L 3 / T 0
Category	Skill Enhancement Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - II)

Course learning Outcomes

CO1: Explain basic terminologies and functionalities of excel

CO2: Apply basic Excel functionalities to format data structures

CO3: Apply the techniques of time value of money through excel for financial calculations.

CO4: Evaluate long-term investment proposals and select the best alternative for the organization.

CO5: Application of Microsoft excel functions for formulating financial and marketing strategies.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Microsoft Excel application

Teaching Hours: (4)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U1-T1. Create a workbook, navigating in a worksheet, typing text or numbers in a worksheet, import data, typing simple formulas in worksheet, filling a series, inserting and deleting worksheet, Search for data within a workbook, copying and renaming a worksheet, Grouping worksheets, Freezing rows and columns, Selecting rows and columns, selecting ranges, Understanding and applying general formatting.

Description

U2: Basic activities

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U2-T1. Cell Referencing, Cell Addressing, File Menu; Home Menu, Conditional Formatting, Formatting as a Table, Cell Styles, AutoSum, Sort and Filter; Insert Menu, Inserting Tables and Pivot Tables, Smart Arts, Charts; Page Layout, Review and View Menus; Converting Text to Columns, Removing Duplicates, Data Validation, Grouping and Ungrouping.

Description

U3: Understanding Functions

Teaching Hours: (13)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Financial Functions: Depreciation (DB, DDB, VDB), Simple Interest (PMT, NPER, INTRATE) - Present Value, Net Present Value, Future Value (PV, NPV, FV) - Internal Rate of Return (IRR, MIRR); Logical Functions: AND, OR, NOT, IF, TRUE; Tax Calculation using IF, IFS and MAX functions, Text Functions: UPPER, LOWER, LEFT, RIGHT, TRIM, T, TEXT, LEN, DOLLAR, EXACT; Practical exercises based on Financial, Logical and Text functions.

Description

U4: Statistical and Reference Functions

Teaching Hours: (11)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Statistical Functions: Mean, Median, Mode, Standard Deviation, Correlation, Skewness, F Test, Z Test, Chi-Square Analysis; Date & Time Functions: DATE, DATEVALUE, DAY, DAYS360, NOW, TIME, TIMEVALUE, WORKDAY, WEEKDAY, YEAR; Lookup and Reference Functions: HLOOKUP, VLOOKUP, TRANSPOSE, GETPIVOTDATA, HYPERLINK; Practical Exercises based on Statistical, Date & Time, Lookup and Reference functions.

Description

U5: Excel Applications in Business

Teaching Hours: (9)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U5-T1. Ratio Analysis, Cash Flow Statement, Payroll Processing, Marketing, Sales and Advertising Data Analytics, Social Media Marketing Analysis, Basic applications with Macros and VBAs; Trending business applications using MS Excel.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Practical test, group assignment, presentation etc., | 30 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 50 |

 Bachelor of Science (Psychology) (SEMESTER - III)

Course learning Outcomes

CO1: CO1: To develop basic and communication skills sharpen oral and written skills: By the end of the course, students will be able to engage in basic conversations in French, demonstrating comprehension and correct pronunciation, and write short paragraphs with minimal grammatical errors.

CO2: CO2: To enhance knowledge on French culture: By the end of the course, students will be able to identify and describe at least five key aspects of French culture, such as traditions, customs, and social norms, in both oral and written formats.

CO3: CO3: To enrich the learner's vocabulary: By the end of the course, students will be able to accurately use at least 200 new French vocabulary words in context, both in speaking and writing.

CO4: To enable learners to engage in and discuss simple topics with ease: By the end of the course, students will be able to participate in simple discussions on everyday topics (e.g., family, hobbies, travel) with fluency and confidence, using appropriate sentence structures.

Sustainability Development Goals (SDG)

Good health and well-being, Life on land, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Dossier 0 Nous découvrons le français

Teaching Hours: (4)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction Establish rapport

Description

Grammar | Activity | Verbe s'appeler -Les articles définis -Les pronoms sujets - Les nombres | Simple communicative words and phrases to develop interest. |

U2: Dossier 1 Nous apprenons le français pour..

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U2-T1. Saluer-Demander et donner les informations- Donner des informations personnelles-Présenter et identifier une personne- Se présenter

Description

-Tu ou Vous -Les articles indéfinis -Les mots interrogatifs -Verbe Être -C'est ou il est -Adjectif interrogatif -Verbe avoir -Les adjectifs possessifs (1) | -Speech acts – talk about oneself. -Final task: create one's profile in a video mode. (oral communication skills, global) |

U3: Dossier 2 Nous faisons connaissance..

Teaching Hours: (9)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U3-T1. Nommer des pays et des villes- situer un lieu- Faire connaissance- Parler d'un type d'hébergement- Échanger des informations sur un hébergement

Description

- Les prépositions (noms de pays et de villes) - les prépositions de lieu et l'article contracté - négation - verbes aller, venir, Prendre - les adjectifs démonstratifs | Speech act – Asking closed questions. Final task: to create a city portrait(integrating global skills) |

U4: Dossier 3 Nous parlons la même langue

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U4-T1. - Parler de la famille- Décrire et caractériser un/des personnes- Parler de nos goûts- Parler de nous - Parler de nos activités- Expliquer un problèmes de santé

Description

-Les adjectifs possessifs (2) -Les adjectifs qualificatifs (M/F/Sin/Pl) -Aimer+ Adorer+ Détester +Nom/Verbe
-Les verbes « er » -Le verbe faire+ du/de la / de l' / des -Les pronoms toniques -Avoir mal à + les parties du corps | Tache finale : Introduce oneself to the class in French.(global ,communicative and speaking skills) |

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Description:

This course includes three CIAs and an End Semester Evaluation. CIA 1 & 3 for 20 marks (later reduced to 10 marks) each will be administered by the respective faculty in the class. CIA 2 is mid semester examination for 50 marks which is a descriptive test conducted at the central level through the office of examination. MSE is carried out as a two-hour paper, conducted out of 50 marks and later reduced to 25 marks. ESE also is a centralized examination. ESE is conducted as a two - hour paper which carries 50 percent weightage.

Examination is conducted out of 50 marks. Attendance carries 5 marks.

CIA-1

CIA1:20 marks-Written test on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge. (Mapped to CO2 and CO3)

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

■ All questions are multiple-choice (1 correct option out of 3 or 4).

■ No negative marking.

■ Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.

■ Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA - 2(Mid SemExam):50 marks –Writtenexam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. Learners are required to attempt SEC -A containing grammar, Section B- Containing comprehension, civilization and translation and Section C containing Writing comprehension. The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.CO1, CO2 and CO 3 would be covered for MSE.

MSE is scheduled during August ,2026.

CIA - 3

CIA3:20 marks– Creative Assignment on Oral Competence.

Assignment type- Group of 3/4, Formative

Outcome: Learners will be able to apply their spoken French knowledge and listening competence. (Mapped to CO1, CO3 and CO4)

Evaluation Criteria:

1.Pronunciation & Intonation – (4)

2.Vocabulary Use – (4)

3.Grammatical Accuracy – (4)

4. Fluency & Coherence – (4)

5. Comprehension & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

SECTION A- 20 MARKS

SECTION B- 15 MARKS

SECTION C - 15 MARKS.

Course learning Outcomes

CO1: Identify and use Hindi alphabets, words, and basic sentence structures for simple communication.
 CO2: Apply basic grammatical concepts such as parts of speech, gender, number, and tense in spoken and written Hindi.
 CO3: Develop functional vocabulary related to everyday life and use it appropriately in simple contexts.
 CO4: Demonstrate basic conversational ability in Hindi through guided dialogue and short interactions.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Fundamentals of Hindi Language

Teaching Hours: (21)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Alphabets-Vowels and Consonants Parts of Speech-Noun, pronoun, verb, adverb, adjective, prepositions, conjunction and interjection Numbers Gender and Tense

Description

This unit introduces students to the basic structure of the Hindi language with emphasis on foundational linguistic competence. Students will learn the Hindi alphabet, including vowels and consonants, to develop

correct pronunciation and script familiarity. The unit covers essential parts of speech such as nouns, pronouns, verbs, adverbs, adjectives, prepositions, conjunctions, and interjections, enabling students to understand sentence construction and grammatical usage. Instruction in numbers, gender, and tense forms helps students grasp basic grammatical agreement and sentence patterns in Hindi. Through systematic practice, this unit aims to build a strong grammatical foundation that supports basic reading, writing, and introductory conversational skills in Hindi.

U2: Vocabulary Development

Teaching Hours: (3)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Names of things, animals, birds, vegetables, flowers, days, months etc.

Description

This unit focuses on building basic Hindi vocabulary required for everyday communication. Students will learn commonly used words related to names of objects, animals, birds, vegetables, flowers, days, months, and other familiar categories. Emphasis will be placed on correct pronunciation, spelling, and contextual usage of vocabulary items. Through structured exercises and classroom activities, students will gradually develop the ability to recognize, recall, and use essential Hindi words in simple sentences, thereby strengthening their lexical competence and confidence in basic language use.

U3: Conversation Practice

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Conversation practice

Description

This unit aims to develop basic conversational skills in Hindi through guided and interactive practice. Students will engage in simple dialogues and short interactions based on everyday situations such as greetings, introductions, daily activities, and common social contexts. The focus will be on listening and speaking skills, sentence formation, and appropriate use of vocabulary and basic grammar. Through repeated practice and teacher-guided interaction, students will gain confidence in using Hindi for simple oral communication and real-life situations.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1: Oral quiz or viva, or short class test to assess students' understanding of basic Hindi.

CIA-2: Mid-Semester Examination

CIA-3: Viva, class test or interactive quiz to evaluate translation and communicative Hindi skills.

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values

U1-T1. Samakaleen Kavita Sanchay? (Collection of Poems)

edited by: Dr. Sebastian K A & Dr. Deepak Kumar Gond 20 Hrs. Level of knowledge: Anal

Description

In this course utilizes the textbook Samkaaleen Kavita Sanchay to foster critical thinking and poetic analysis through a diverse range of contemporary themes. The curriculum spans historical tragedies like 'Hiroshima', environmental concerns in 'Ek Vriksh Ki Hatya', and intense political commentary in works such as 'Tisara Rasta' and 'Hanso Hanso Jaldi Hanso'. Students will explore social identity and language in 'Meri Bhasha Ke Log', confront systemic corruption in 'Varnamaala', and analyze gender dynamics and marginalized perspectives in poems like 'Striyaan', and 'Mein Geeth Gaana Chaahta Hun'. Through these readings, the course aims to enhance vocabulary and enable students to analyze poems within their specific social and political contexts while developing technical skills through digital assignments

Hour 20 Hrs.

Level of knowledge: Analytical

U2: Cultural art forms of India Yakshagana, Kathakali, Ramleela, Krishnaleela

Teaching Hours: (5)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U2-T1. Yakshagana, Kathakali, Ramleela, Krishnaleela

Description

This unit introduces students to select traditional Indian cultural and performing art forms, namely Yakshagana, Kathakali, Ramleela, and Krishnaleela, with a focus on their historical origins, thematic concerns, performance techniques, and cultural significance. The unit examines how these art forms function as powerful mediums of storytelling rooted in Indian mythology, epics, and devotional traditions. Students will study the narrative structures, character types, costume design, makeup, music, dance movements, and symbolic gestures associated with each form. Emphasis will be given to understanding how Yakshagana and Kathakali represent regional theatrical traditions of South India, while Ramleela and Krishnaleela reflect the devotional and performative retellings of the Ramayana and the life of Lord Krishna. Through this unit, students will gain insight into the role of cultural art forms in preserving collective memory, moral values, and social traditions, and will critically appreciate their relevance in contemporary cultural and literary studies

U3: Translation Practice- English to Hindi

Teaching Hours: (5)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Translation Practice- English to Hindi

Description

This unit focuses on developing students' practical translation skills through the translation of medium-level English prose passages into Hindi, with special emphasis on themes related to education, culture, and environmental awareness. Students will be trained to translate paragraphs that discuss the role of education in social development, the significance of cultural values and traditions, and contemporary environmental concerns such as conservation, sustainability, and ecological responsibility. The unit emphasizes accuracy, clarity, and

contextual appropriateness in translation, encouraging students to maintain the original meaning, tone, and style of the source text while adapting it effectively into the target language. Attention will be given to vocabulary selection, sentence structure, idiomatic expressions, and grammatical equivalence between English and Hindi. Through guided practice, this unit aims to enhance students' linguistic competence, cultural sensitivity, and analytical understanding of translation as a meaningful academic and communicative practice.

Hour: 5

Level of knowledge: Basic

Essential Reading

1. A Hand Book of Translation Studies By: Das Bijay Kumar.
2. SaralSubodh Hindi Vyakaran, By: MotilalChaturvedi. Vinod
3. AnuvadEvam Sanchar – Dr.PooranchandTandon, Rajpal and Son's
4. AnuvadVignan By:Bholanath Tiwari
5. Anuvad Kala By: N.E VishwanathIyer

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

The evaluation and assessment will be based on Continuous Internal Assessments and an End Semester Examination.

CIA 1 – Will be Hindi Wikipedia –Project (1) and Seminar (20)

CIA 2 – Mid-semester Examination (50 marks)

CIA 3 –Will be Hindi Wikipedia- Project and Seminar (2) (20 marks)

CIAs and attendance will have 50% weight

The end semester examination will have 50% weight.

The final grade will be weighted average of ESE and CIAs.

Late submission of assignments will be accepted only with prior notice and only under truly exceptional circumstances.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

The End-Semester Examination for III Semester BA / B.Sc / B.Com (Paper I – Hindi) is conducted for a duration of 2 hours with a total of 50 marks. The question paper is divided into three sections: A, B, and C. Section A (Poetry) consists of essay-type questions. Students are given three choices, out of which one question has to be answered, carrying 10 marks. Section B (Cultural Art Forms of India) includes descriptive and objective-type questions. Students are required to answer one question, which carries 10 marks. Section C (Translation) contains one passage for translation from English to Hindi. This section has one compulsory question for 10 marks.

U1-T1. 1.Sanskrit Varnamale2. Guneetakshara3. Origin of Letter4. Verbs5. Latlakara Shabda (Male and Female)

Description

This course introduces fundamental concepts in Sanskrit language learning. Sanskrit Varnamala covers the basic alphabet, including vowels (svaras) and consonants (vyanjanas), forming the foundation of pronunciation and writing. The unit on Guneetakshara explores compound letters formed by combining consonants and vowels, helping learners understand proper articulation. Origin of Letters delves into the phonetic and physiological aspects of Sanskrit sounds, highlighting how each letter is produced through specific speech organs. The Verbs unit introduces the concept of root words (dhatus), their conjugations, and usage in sentence formation, focusing on tense and subject agreement. Finally, Latlakara Shabda emphasizes the present tense forms of verbs, along with masculine and feminine noun declensions, enabling learners to form basic sentences accurately. Together, these units lay a strong grammatical foundation, essential for reading, writing, and understanding Sanskrit texts with clarity and confidence.

U2-T1. 6. Aatmanepade (Indirect Speech)7. Akaaranta Shabda (Male)8. Numbers9. Question words10.

Relations

Description

The unit on Ātmanepada introduces verbs in the middle voice, commonly referred to as indirect or reflexive forms, where the action reflects upon the doer. It is essential for understanding verb conjugation beyond the active voice. Akārānta Shabda (Masculine) focuses on masculine nouns ending with 'a', teaching learners their declension across different cases and numbers, which is vital for proper sentence construction. The Numbers unit presents Sanskrit numerals and their usage in counting, sentence formation, and agreements with nouns. Understanding Question Words (kaḥ, kā, kim, etc.) equips learners to ask and answer basic questions, forming an interactive language foundation. Lastly, the Relations topic introduces vocabulary related to family and kinship, helping students speak and write about their surroundings and relationships. These topics enhance vocabulary, grammar, and conversational ability, fostering deeper comprehension and practical usage of the Sanskrit language.

U3: Syntax

Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Syntax 11. Pronouns12. Active, Passive Voice Conversion13. Akaaranta Shabda (Female)14. Prayoge Parivartana15 Gendered Words

Description

This section focuses on essential grammatical structures to strengthen sentence formation in Sanskrit. Syntax teaches the rules and order of words in a sentence, enabling clarity and correctness in expression. The unit on Pronouns covers words used in place of nouns, such as aham (I), tvam (you), enhancing fluency and reducing repetition. Active and Passive Voice Conversion enables learners to transform sentences from kartari prayoga (active) to karmani prayoga (passive) and vice versa, an important skill in understanding text variations. Akārānta Shabda (Female) introduces feminine nouns ending in 'ā', focusing on their case-wise declension and grammatical usage. The topic Prayoge Parivartana refers to changing sentence patterns based on context or purpose, such as from imperative to interrogative or affirmative to negative. Gendered Words explains masculine, feminine, and neuter nouns, helping learners identify and apply correct agreements in sentence structure. These topics collectively enrich both written and spoken Sanskrit proficiency.

U4: Conversation

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. 16. Karakas (7)17. Body Parts18.Basic words for conversation (Good Morning, introduction etc).19. Colours20. Translation

Description

This final set of topics builds practical language skills and deepens grammatical understanding. Kārakas (7) introduces the seven syntactic roles or cases in Sanskrit—like kartā (doer), karma (object), karana (instrument), etc.—which are crucial for accurate sentence construction and meaning. The Body Parts unit teaches commonly used anatomical terms, enhancing vocabulary for everyday description and communication. Basic Words for Conversation, such as greetings (suprabhātam – good morning), self-introduction, and polite expressions, help learners use Sanskrit in simple interactions. The Colours unit adds descriptive vocabulary, allowing students to talk about appearance, nature, and objects more vividly. Lastly, Translation strengthens comprehension and writing skills by enabling learners to convert sentences between Sanskrit and their native language, reinforcing grammar and vocabulary in context. Together, these topics prepare students to use Sanskrit both accurately and confidently in practical, real-life situations and further reading.

U1-T1. Subhashithani-Barthruhari's Neethi shatakam, Selected 30 shlokas

Description

Subhashitani from Bhartrhari's Neeti Shatakam is a refined collection of didactic Sanskrit verses that reflect timeless wisdom and ethical values. This module explores 30 carefully selected shlokas that deal with practical life lessons, covering themes such as the power of knowledge, importance of humility, value of time, dangers of greed, and traits of noble versus ignoble individuals. Each verse, compact yet profound, offers moral instruction through vivid imagery and precise language. Bhartrhari's reflections are rooted in a deep understanding of human behavior and societal dynamics. By studying these verses, learners not only enhance their command of Sanskrit language and poetic expressions but also gain insights into Indian philosophical thought. These shlokas serve as mirrors to human nature, inspiring ethical living and thoughtful decision-making. The study of these subhashitas promotes critical thinking, cultural appreciation, and an enriched worldview anchored in classical Indian wisdom.

U2-T1. 1.Hiranyaka taamrachooda katha2. Tila choorna vikraya katha 3. Shabarashookara kathaa 4.

VaNikputra kathaa

Description

The selected stories from the Panchatantra —Hiranyaka-Taamrachooda Katha , Tila Choorna Vikraya Katha , Shabarashookara Katha , and Vanikputra Katha —are moral tales embedded with practical wisdom and clever strategies for daily life. In the Hiranyaka-Taamrachooda Katha , a mouse and a hermit bird form an unusual bond that highlights trust, mutual aid, and the impact of fear and friendship. The Tila Choorna Vikraya Katha teaches a lesson on greed and cleverness through a tale of dishonest trade. Shabarashookara Katha tells of a wild boar and a hunter, focusing on the consequences of impulsive behavior and revenge. The Vanikputra Katha involves a merchant's son and presents a narrative on intelligence, planning, and turning misfortune into success. Together, these stories blend animal characters and human experiences to convey sharp life lessons. Their engaging plots and rich moral layers make them relevant across generations and ideal for teaching values through storytelling.

U3-T1. sandhi prakaranam swara and vyanjana -4 each Samskrutha sambhashanaabhyasa

Description

This unit introduces students to Sandhi Prakaranam , focusing on the rules of euphonic combination in Sanskrit. It covers four types each of Swarasandhi (vowel combinations) and Vyanjanasandhi (consonant combinations), enabling learners to understand how sounds merge for fluent pronunciation and script accuracy. Additionally, Samskrutha Sambhashana Abhyasa emphasizes oral practice in simple Sanskrit conversation. Through structured dialogues and daily usage expressions, students develop confidence in speaking Sanskrit. The combined study of sandhi and spoken practice builds a strong foundation in both linguistic accuracy and communicative ability, fostering deeper engagement with the language in both textual and conversational forms.

2.Ennaalo?	3.Ulaga otttrumai	4.Tholilaalar vinnappam.	5.Maanida sakthi.
6.Saintha Tharasu.	7.putthaga Saalai.	2Nanthikkalambagam.	
1.Vetri murasa chirappau.	2.Nandhi mann		

Description

The Sweetness of Tamil (Tamilin Enimai) This topic highlights the beauty and richness of the Tamil language. It explores the melodious nature of Tamil, its deep literary heritage, cultural significance, classical value, and global presence.

When Will It Be? (Ennaalo?) A reflective theme that contemplates the future. It deals with hopes, dreams, goals, and the anticipation of when change, progress, or aspirations will come true—both individually and collectively.

World Unity (Ulaga Otttrumai) A call for global harmony and togetherness. It emphasizes the importance of peace, tolerance, cooperation among nations, cultures, religions, and languages. The theme promotes humanity and universal brotherhood.

Workers' Petition (Tholilaalar Vinnappam) This theme centers around the rights, struggles, and demands of workers. It can be framed as a plea or request to society or authorities, advocating for better working conditions, fair wages, and dignity of labor.

Human Power (Maanida Sakthi) A theme that celebrates the inner strength of humans—willpower, courage, intelligence, perseverance, and the ability to overcome challenges. It reflects on how human strength can drive social change and innovation.

The Balanced Scale (Saintha Tharasu) This symbolizes justice, fairness, and equality. The topic could explore the importance of law, ethics, and moral balance in society. It may also relate to how fairness should be upheld

in personal and social relationships.

Library (Putthaga Saalai) A symbol of knowledge and enlightenment. This topic praises the importance of books, the habit of reading, and the role of libraries in shaping minds and communities. It may focus on how libraries are gateways to wisdom.

U2-T1. Kanneerum Thanneerum-by Dr.S.Sethuraman - 10 hours (All Stories)

Description

Kanneerum Thanneerum (Tears and Water) is a powerful collection of short stories by Dr. S. Sethuraman that delves into the emotional and social landscapes of ordinary people. Spanning approximately 10 hours of reading, these stories explore themes such as human suffering, resilience, poverty, injustice, love, and compassion. Each narrative is deeply rooted in reality, portraying characters from diverse backgrounds—farmers, workers, women, and the marginalized—with empathy and nuance. The title metaphorically connects “tears” (sorrow) and “water” (life), symbolizing how emotional pain and daily survival are intertwined. Sethuraman’s writing is both simple and profound, using strong imagery and subtle social critique. The stories not only reflect the harsh truths of life but also reveal moments of hope, dignity, and inner strength. Kanneerum Thanneerum is a moving literary experience that captures the essence of human struggle and spirit in a relatable, honest way.

U3-T1. Thol. Porul Adhigaram

Description

Porul Adhigaram is the third and final section of the Tolkappiyam, the earliest known Tamil grammar text attributed to Tolkappiyar. While the first two sections deal with phonology (Ezhuthu) and morphology/syntax (Sol), Porul Adhigaram explores semantics, societal structure, and the themes of classical Tamil literature. It is divided into two major parts: Akam (inner life – love, emotions, relationships) and Puram (outer life – war, heroism, ethics, generosity). This section outlines how emotions, human behavior, and social customs are expressed in poetry based on setting, mood, and context. It also classifies landscapes (tinai), symbolic elements, and ideal conduct. Porul Adhigaram forms the foundation for understanding Sangam literature and classical Tamil aesthetics. It is not just grammatical but also cultural and ethical, reflecting the values, duties, and poetic conventions of ancient Tamil society. This section makes Tolkappiyam unique among world grammars for blending linguistics with literary theory and social philosophy.

U4: Language Skill-

Teaching Hours: (3)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. General essay writing

Description

listening, speaking, reading, and writing. Mastery of these skills allows individuals to communicate ideas clearly, understand others, and engage meaningfully in social, academic, and professional contexts. Good language skills help in expressing emotions, exchanging information, and building relationships. They also enhance learning, critical thinking, and creativity. Developing strong language skills is essential for students, as it supports academic achievement across all subjects. In the workplace, effective communication boosts collaboration and productivity. Language is not just a tool for conversation—it is a medium for sharing culture, values, and knowledge. Therefore, improving language skills is key to personal growth, social interaction, and success in life. It empowers individuals to be confident, informed, and active participants in society. In short, language skill is the foundation of meaningful communication and lifelong learning.

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA1: MCQ Test ($1 \times 20 = 20$ marks)

CIA2: Section A ($5 \times 3 = 15$ marks), Section B ($10 \times 2 = 20$ marks), Section C ($15 \times 1 = 15$ marks)

CIA3: Statistics for Research (Project+ Presentation = 20 marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A ($5 \times 3 = 15$ marks),

Section B ($10 \times 2 = 20$ marks),

Section C ($15 \times 1 = 15$ marks).

STRATEGIC FINANCIAL MANAGEMENT

Course Code	COSF202-3
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - III)

Course learning Outcomes

CO1: Apply concepts from financial management, investment decisions and demonstrate the skills to evaluate the time value of money.

CO2: Evaluate the project decisions judiciously using capital budgeting techniques.

CO3: Apply financial knowledge and decision making skills to evaluate the instruments namely bond and equity.

CO4: Apply strategic skills to identify the optimum source of procuring finance and measures to manage credit.

CO5: Analyze the dividend policies by using financial knowledge in the process of financial decision making

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Financial Management

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Time value of money – Time line – Annuity - Ordinary annuity & annuity due,perpetuity, using financial calculator for TVM problems.Calculating return - Types of risk - Relationship between risk and return, CAPM – Beta.

Description

U2: Investment Decisions:

Teaching Hours: (20)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U2-T1. Capital budgeting process - Stages of capital budgeting - Incremental cash flows -Income tax considerations - Discounted cash flow analysis (net present value, internal rate of return, comparison of NPV and IRR) - Payback and discounted payback - Risk analysis in capital investment. Problems using MS Excel.

Description

U3: Security Valuation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Bonds terminology, interest rates, duration, effective duration - Term structure of interest rates - Types of financial instruments - Cost of capital -Valuation of financial instruments – Bonds & Equity.

Description

U4: Raising Capital

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Financial markets and regulation - Market efficiency - Financial institutions - Initial and secondary public offerings - Dividend policy and share repurchases - Lease financing. Types of short-term credit - Short-term credit management.

Description

U5: Dividends Decision

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. Dividend decision and valuation of firm - Relevance of dividend policy - Walter model -Gordon model Residual theory of dividend policy - Modigliani and Miller theory(theoretical concepts and problems) - Dividend policy retained earning -Dividend payout ratio - Stability of dividend - Forms of dividend. Problems on Dividend policy.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ | B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ | C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

Examination Pattern for Continuous Internal Assessment (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for BCom (Strategic Finance) – ETE/MSE (2 Hours Exam):

Section A: Short Answer Questions – Answer 3 questions (with internal choice in Q3), 5 marks each → 15 marks.

Section B: Conceptual/Descriptive/Problem Questions – Answer 2 questions (with 1 internal choice), 10 marks each → 20 marks.

Section C: Case Study – Compulsory, 1 question, 15 marks → 15 marks.

FINANCIAL REPORTING – US GAAP

Course Code	COSF203-3
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - III)

Course learning Outcomes

CO1: Prepare financial statements according to US GAAP and IFRS.

CO2: Apply fair value principles to measure and report receivables, inventory, investments, fixed assets, leasehold assets, intangible assets, deferred tax assets, depreciation, and impairment as per accounting standards.

CO3: Account and report liabilities.

CO4: Analyse the effect of stock dividends and stock splits on shareholders' equity and retained earnings.

CO5: Apply revenue recognition principles to various types of transactions.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Partnerships for the goals, Peace, justice and strong institutions, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Financial statements

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Income statement - Statement of comprehensive income - Balance sheet - Statement of changes in equity -Statement of cash flows - Notes to the financial statements – elements of financial statements and measurement base. Other Comprehensive Income (OCI) classification under US GAAP - Non-GAAP measures and ethical issues in financial reporting (CMA focus area)

Description

U2: Asset valuation

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Fair value standards and measurements - Accounts receivable - Inventory – Investment in marketable securities - Property, plant & equipment - Depreciation Methods -Impairment - Intangible assets - Deferred tax assets - Leasehold assets.

Description

U3: Valuation of liabilities

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Current liabilities - Contingencies- Long-term liabilities and bonds payable – Warranties - Off-balance sheet financing - Deferred tax liabilities - Lease liabilities.

Description

U4: Equity transactions

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Paid-in capital - Retained earnings- Accumulated other comprehensive income - Stock dividends and stock splits -Stock options.

Description

U5: Revenue recognition

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Revenue recognition principles -Percentage-of-completion versus completed-contract method - Matching principle- Comprehensive income - Major differences between US GAAP and IFRS.

SERVICE LEARNING AND COMMUNITY ENGAGEMENT

Course Code	COM162-3
Course Type	Practical
Total Hours	T 0 / P 3
Category	Skill Enhancement Courses

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - III)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - III)

Bachelor of Commerce (Finance and Investment) (SEMESTER - III)

Bachelor of Commerce (Strategic Finance) (SEMESTER - III)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: To demonstrate their ability to apply commerce knowledge to real-world situations, communicate effectively with diverse groups of people, work collaboratively in teams.

CO2: To reflect on their experiences before, during, and after the service learning project, and assess the individuals' skills developed.

CO3: To exhibit teamwork in the planning and execution of meaningful service learning projects and report presentation.

CO4: To showcase appreciation for the discipline knowledge through service learning initiatives in the field of commerce.

Sustainability Development Goals (SDG)

Affordable and clean energy, Decent work and economic growth, Good health and well-being, Partnerships for the goals, Quality education, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Introduction to Service learning and Community Engagement

Teaching Hours: (10)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U1-T1. Service-Learning: The Concept, Objectives, and Scope; Need for Community and Academia. Exploring the Intersection of Business and Community Impact, Overview of Service-Learning Types of Service-Learning, Stages in Service Learning Needs Assessment: Identifying community partners, Conducting needs assessment, Community mapping, Reflecting on Personal Expectations and Preconceptions, Finalising the community for the service learning project.

Description

U2: Planning and Designing Service Learning Projects

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Investigating Community Problems and Aligning Course Objectives and Outcomes, Identifying Relevant Literature for the problem, PRA tools, Reflection: Kolb's Model of Experiential Learning, Types of reflection, Reflective Journals and Diary, Planning and Designing the Service Learning Project (Block 8 Model), Plan for Effective Implementation, Reflect on Challenges, Reciprocal Learning Moments, and Adaptations.

Description

U3: Theoretical Models and Impact Analysis

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U3-T1. Exploring Theoretical Models for Solving Community Problems and Understanding Their Applicability, Reflections on the Selected Model for the service learning project, Presentation of the possible Impact and Effectiveness of the Service Learning Project, Executing the service learning Project, preparing and delivering the Project Deliverables: Review the project and conduct an impact analysis

Description

U4: Project Outcomes and Reflection

Teaching Hours: (15)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. Execution of service learning project, Showcasing Project Outcomes, Celebrating Achievements, and Reflecting on the Overall Service-Learning Experience, Showcasing Project Outcomes, Celebrating Achievements, Reflecting on the Overall Service-Learning Experience, Final review and assessment.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1

CIA1:20 marks-Written test on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge. (Mapped to CO2 and CO3)

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

- All questions are multiple-choice (1 correct option out of 3 or 4).
- No negative marking.
- Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.
- Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA - 2(Mid SemExam):50 marks –Writtenexam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. Learners are required to attempt SEC -A containing grammar, Section B- Containing comprehension, civilization and translation and Section C containing Writing comprehension. The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.CO1, CO2 and CO 3 would be covered for MSE.

MSE is scheduled in August ,2026.

CIA - 3

CIA3:20 marks– Creative Assignment on Oral Competence.

Assignment type- Group of 3/4, Formative

Outcome: Learners will be able to apply their spoken French knowledge and listening competence. (Mapped to CO1, CO3 and CO4)

Evaluation Criteria:

- 1.Pronunciation & Intonation – (4)
- 2.Vocabulary Use – (4)
- 3.Grammatical Accuracy – (4)
- 4.Fluency & Coherence – (4)
- 5.Comprehension & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern

- Section A – Grammar –20 marks
- Section B – Civilization, translation, reading comprehension - 15marks
- Section C - Writing skills include – dialogue, email, invitation letter, essay- 15 marks

Course learning Outcomes

CO1: Explain the role of oral tradition in the evolution of Hindi and demonstrate functional use of Hindi in public and professional domains using the Devanagari script.

CO2: Describe the basic framework of India's language policy and analyze the significance of Hindi as a link language in a linguistically diverse society.

CO3: Understand and apply the concept, process, and types of translation while evaluating the quality, issues, and challenges involved in translation practices.

CO4: Communicate effectively in Hindi in oral and written forms for academic, social, and workplace contexts.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Hindi language

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Oral Traditions of Hindi

Description

Learn how Hindi was shared through stories, songs, and spoken words before writing. Students will explore simple examples of folk tales and poems.

U1-T2. Language Policy and Hindi (Basic Overview)

Description

Simple explanation of how Hindi is recognized and used in India, including its role in government, education, and communication

U1-T3. Devanagari Script

Description

Introduction to the Hindi script, learning letters (vowels and consonants) and simple words. Focus on reading and writing basics.

U1-T4. Hindi in Academic Writing

Description

Learn to write simple Hindi for school or academic use, including notices, short stories, paragraphs, and summaries. Focus on clear and correct writing

U1-T5. Link Language, Dialects of Hindi

Description

Learn how Hindi acts as a bridge language to connect people from different regions of India. Focus on easy phrases for conversation

U2: Translation

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Translation Translation - Concept and processes Types of translation Qualities required for a Translator Issues and challenges in Translation, translation practice.

Description

This unit introduces students to the theory and practice of translation with a focus on developing foundational translation skills. Students will study the concept of translation, its objectives, and the various stages involved in the translation process. Different types of translation will be discussed, along with the essential qualities and competencies required of a translator. The unit also examines common issues and challenges faced in translation, such as linguistic, cultural, and contextual difficulties. Practical translation exercises will help students apply theoretical knowledge and improve accuracy, clarity, and equivalence between source and target languages.

U3: Communicative Hindi

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Communicative Hindi

Description

This unit aims to enhance students' practical communication skills in Hindi for real-life and professional contexts. Emphasis is placed on public speaking in Hindi, day-to-day communication, and effective voice modulation. Students will be trained in spoken Hindi through interactive activities, including role plays and voice-over practice. The unit also includes micro-presentation exercises to develop confidence, fluency, and clarity of expression. Overall, the unit focuses on improving oral communication skills and functional language use in Hindi.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1: Oral quiz or viva, or short class test to assess students' understanding of basic Hindi.

CIA-2: Mid-Semester Examination

CIA-3: Viva, class test or interactive quiz to evaluate translation and communicative Hindi skills.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End-Semester Examination

GondSTORIES1 Malbe ka maalik2 Dilli mein ek mouth3 Mein haar gayi4 Pita5 Salam6 Mousa ji7 Tangnazar8
 Ek roomal ek anguthi ek chalni

Description

This unit introduces advanced learners of Hindi to select modern Hindi short stories that reflect complex social,

political, and cultural realities of contemporary India. The prescribed texts include 'Malbe ka Malik' by Mohan Rakesh, which explores the trauma of Partition (Vibhajan ki Samasya), and 'Delhi Mein Ek Maut' by Kamleshwar, focusing on urban alienation and metropolitan tragedy (Mahanagariya Visangati). 'Main Haar Gayi' by Mannu Bhandari examines political consciousness and individual conflict, while 'Salam' by Omprakash Valmiki foregrounds Dalit experience and caste-based oppression. Pita by 'Gyanranjan' presents the struggle of marginalized communities (Pithiyon ka Sangharsh), and 'Mausaji' by Uday Prakash highlights the tension between imagination and reality (Kalpana aur Yatharth ka Dwandv). 'Ek Rumal, Ek Anguthi, Ek Chalni' by Amrita Pritam explores themes of incomplete love and women's issues (Adhoori Mohabbat aur Stri Samasyayen), while 'Tang Nazar' by Mahendra Bhishm introduces transgender discourse (Transgender Vimarsh). Through critical reading and analysis of these narratives, the unit aims to enhance students' interpretative skills, deepen socio-literary awareness, and develop an advanced understanding of modern Hindi prose and its engagement with contemporary issues.

Hours : 5

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Sustainability

U2-T1. 12 th fail, Lunch box, English- Vinglish, DangalQueen

Description

This unit introduces students to the study of select contemporary Indian films as cultural texts, focusing on their narrative structures, themes, character development, and socio-cultural significance. The prescribed films-The Lunch Box, 12th Fail, Dangal, Queen, and English Vinglish-will be studied for their representation of everyday life, education and perseverance, gender roles, self-identity, empowerment, and social transformation. Through guided classroom discussions, students will analyze cinematic techniques such as storytelling, visual symbolism, dialogue, and characterization. The unit adopts an interactive teaching pedagogy that includes film screening, selected clip presentations, group discussions, and critical interpretation to enhance analytical and communicative skills. Students will be encouraged to relate film narratives to contemporary social realities and literary concepts. For assessment, students will be provided with options in the examination, allowing them to answer questions based on any of the prescribed films, thereby promoting critical thinking, choice-based learning, and independent interpretation.

U3-T1. Social Media Writing

Description

This unit aims to develop students' creative expression and imaginative writing skills through guided practice in various literary forms. Students will be given simple and socially relevant topics, based on contemporary social issues, and will be encouraged to respond creatively by writing a poem, short story, or creative essay, according to their choice and aptitude. Emphasis will be placed on originality of thought, clarity of expression, thematic coherence, and effective use of language. The unit seeks to foster critical awareness of social realities while enabling students to articulate personal perspectives through creative modes of writing. Through this process, students will enhance their linguistic competence, creative confidence, and ability to engage meaningfully with social issues using literary expression.

Hours: 5

Level of Knowledge ; Analysis

Essential Reading

Samakaleen Katha sanchay – (collection of stories)

U1-T1. 1.Time2.Numbers from 51-1003.Names of Animals in Sanskrit4.Names of Birds in Sanskrit5.Names of Fruits in Sanskrit

Description

Unit 1: Vocabulary for Nature and Numbers introduces learners to foundational Sanskrit vocabulary related to everyday natural elements and numerical expressions. The unit begins with the concept of Time, teaching basic terms for hours, parts of the day, and how to express time in Sanskrit. It extends into Numbers from 51 to 100 , building upon previously learned numerals to enable counting, calculation, and date representation. Learners will also explore the Names of Animals , Birds, and Fruits in Sanskrit, enriching their vocabulary with words commonly found in nature and daily conversations. This unit emphasizes pronunciation, spelling, and usage through engaging examples and repetition. By the end of the unit, students will be able to name various animals, fruits, and birds in Sanskrit and describe time-related activities, enhancing their confidence in both spoken and written communication.

U2-T1. 6.Names of flowers in Sanskrit 7.Names of clothes in sankrit8.Names of vehicles in Sanskrit 9.Things at school. Library, classroom10.Every day using mateirals

Description

Unit 2: Everyday Objects and Environment focuses on expanding learners' Sanskrit vocabulary related to common surroundings and daily life. The unit introduces names of Flowers, helping students appreciate nature's beauty through language. It then moves on to Clothes and Vehicles, providing terms useful for describing attire

and modes of transportation. Learners also explore vocabulary related to Things at School , including items found in the library and classroom, enabling them to converse about their academic environment. Finally, the unit covers Everyday Household Materials , familiarizing students with objects they encounter daily at home. This practical vocabulary set helps students communicate effectively in real-life situations, strengthening their connection to the language. Emphasis is placed on correct pronunciation, gender usage, and contextual application. Activities and exercises ensure that learners not only memorize words but also use them confidently in simple sentences and conversations.

U3-T1. 11.Genders12.Antonyms13.Days of the Week14.Days of the Month15.Making Sentences

Description

Unit 3: Grammar and Sentence Construction introduces fundamental grammatical concepts essential for building meaningful sentences in Sanskrit. This unit covers Genders, helping learners understand masculine, feminine, and neuter forms and their correct usage in sentence formation. Students will study Antonyms , enriching their vocabulary by learning pairs of opposite words, which improves expressive abilities. The unit also includes the Days of the Week and Days of the Month , enabling learners to discuss time-related topics fluently. A key focus is on Making Sentences , where students apply grammatical rules to construct simple, coherent sentences correctly. Through varied exercises, learners practice subject-verb agreement, word order, and sentence patterns. This unit bridges vocabulary knowledge and syntax skills, empowering learners to communicate ideas clearly and accurately in both spoken and written Sanskrit.

U4-T1. 16.Avyaya 17. Making Negative sentences 18.Translation19. Vachana Parivartane20.Examination Hall

Description

Unit 4: Language Usage and Expression focuses on advanced grammatical structures and practical language skills in Sanskrit. The unit begins with Avyaya (indeclinable words), which are essential for sentence cohesion and meaning. Students learn to form Negative Sentences , enabling them to express denial or negation accurately. The Translation component helps learners strengthen comprehension and linguistic flexibility by converting sentences between Sanskrit and their native language. The study of Vachana Parivartana introduces changing nouns and verbs between singular and plural forms, enhancing grammatical accuracy. Finally, vocabulary and expressions related to the Examination Hall prepare students for academic and formal communication contexts. This unit emphasizes correct usage, sentence transformation, and contextual

application, helping learners gain confidence in both written and oral Sanskrit. Practical exercises encourage active participation and reinforce language skills needed for real-life situations.

U1-T1. Nrusimha champu by Suryakantha shastry, Ramamurthy Tripathi – 1&2 canto

Description

by Śrī Vedānta Deśika is a poetic retelling of the Nṛsimha avatāra, composed in the elegant campū kāvya style—a blend of prose and verse. The editions edited by Śrī Sūryakānta Śāstrī and Śrī Rāmamūrti Tripāṭhi provide a critical and lucid presentation of the first two cantos. The first canto narrates the tyranny of Hiraṇyakaśipu and the birth and virtuous life of Prahlāda, emphasizing devotion (bhakti) and the tension between divine grace and demonic arrogance. The second canto vividly describes the ferocious manifestation of Lord Nṛsimha from the pillar and the dramatic slaying of the demon king. The editors offer detailed Sanskrit commentary and explain grammatical, poetic, and philosophical elements, making the work accessible to students and scholars alike. These cantos exemplify devotional grandeur, poetic artistry, and philosophical depth, serving as ideal texts for understanding classical Sanskrit literature and Śrīvaiṣṇava theology.

U2-T1. Charudattam of Bhasa – 1 canto

Description

The unfinished Daridra-Charudatta (Charudatta in poverty) tells the story of the courtesan Vasantasena and is interesting for the same story was developed by Śhudraka into the more famous play Mricchakatika. Charudatta is an impoverished Brahman, who is one of the central characters in Sudraka's play Mricchakatika. Sudraka presents Charudatta as a noble and sensitive man, of respectable social position. His state of poverty is a result of his charitable nature, which is also shown as a positive trait.

U3-T1. Samasaprakaranam – 4 samasa's

Samskrutha sambhashanaabhyaasa

Description

By learning grammar, it builds analytical, linguistic, and communication skills that are transferrable to many other areas like law, government, and tech.

EXAMINATION PATTERN**PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)**

This course includes three CIAs and an End Semester Evaluation. CIA 1 and CIA3, each worth 20 marks (later reduced to 10 marks), will be administered by the respective faculty during class hours. CIA 2 is the Mid-Semester Examination (MSE), a descriptive test conducted centrally by the Office of Examinations. The MSE is a two-hour exam conducted for 50 marks, which is later reduced to 25 marks. The End Semester Examination (ESE) is also a centralized exam, conducted as a two-hour paper with a weightage of 50%. The ESE is conducted out of 50 marks and subsequently reduced to 50 marks. Attendance carries an additional 5 marks.

FORENSIC AUDIT

Course Code	COSF301-4
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - IV)

Course learning Outcomes

CO1: Explain the principles of fraud analysis and forensic audit methodologies used in fraud detection.

CO2: Apply a range of audit techniques, including statistical analysis and digital forensics, to investigate financial irregularities and fraud.

CO3: Demonstrate proficiency in selecting and implementing appropriate investigation methods in diverse forensic audit scenarios.

CO4: Employ legal knowledge to seamlessly integrate relevant domestic and international laws into forensic audit reports and investigations

CO5: Cultivate skills in cyber forensics to effectively detect, analyze, and respond to digital crimes and cyber fraud.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control

Course Content

U1: Fraud and Audit

Teaching Hours: (6)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Fraud and Audit Meaning of fraud Fraud vulnerabilities, Fraud triangle, Fraud diamond, Fraud Pentagon, Fraud Scale, Fraud Circle, Hollinger Clark Theory. Types of frauds – Bank, Corporate, Insurance, cyber, securities, consumer. Meaning of Forensic Audit, Need and objectives, Fraud and Forensic Audit, Forensic Audit vis-à-vis Audit, Similarity between -Forensic and Audit in general.

Description

U2: Forensic Accounting and Audit Techniques

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U2-T1. Forensic Accounting and Audit Techniques

Description

Difference between accounting and auditing, Need for analysis, associational analysis, temporal analysis, inferential analysis, associational analysis, investigative inference analysis. Constructing an investigating inference chart: plotting the chart and applying the chart for investigative process. General Audit Techniques: Statistical & Mathematical Techniques, Technology Based Digital Forensics Techniques, Computer Assisted Auditing Techniques (CAATs)/Computer Assisted Audit, Techniques and Tools(CAATT) Generalised Audit Software (GAS), Common Software Tools(CST). Data mining techniques
Laboratory Analysis of Physical and Electronic Evidence and Using Excel for Forensic Audit.

U3: Audit and Investigation

Teaching Hours: (12)

Development Needs:

Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Audit and Investigation Directors' responsibilities: Tools for handling forensic audit, Investigation mechanism: Field investigation, Methods of investigation –Reg flags and green flags. How to write forensic audit report: Litigation, recovery process, Digital forensics: types of digital forensics. Locations for evidence, computer forensic methodology.

Description

U4: Applicable Laws

Teaching Hours: (15)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Applicable Laws

Description

Indian Laws: The Information Technology Act 2000, Amended 2008: Bharatiya Nyaya Sanhita 2023 -Civil Procedure Code 1908, Indian Contract Act 1872 - Bharatiya Sakshya Adhiniyam 2023 , The Prevention of Money Laundering Act, 2002, The Foreign Exchange Management Act, 1999, Companies Act 2013. Outside India: Fraud Act 2006, United Kingdom, Bribery Act 2010, United Kingdom Foreign Corrupt Practices Act, 1977, United States of America OECD, Anti-Bribery Convention UN convention against Corruption.

U5: Cyber Forensics

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Cyber Forensics Introduction: International Guidance to Cyber Forensics Laws. Digital Forensics and Cyber Laws Introduction to Data Extraction, Concept and Process, Digital Forensics and Cyber Crime. Ethical Hacking: Digital-Incident Response. Case Laws: National & International.

The question paper pattern will be as specified below:

Sections | Type | Marks | A | Conceptual/Descriptive Type questions (One internal choice question) | 3X5=15 | B | Analytical/Essay Type Questions (One internal choice question) | 2X10=20 | C | Case Study-Compulsory question | 1X15=15 |

STRATEGIC DECISION MAKING

Course Code	COSF302-4
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - IV)

Course learning Outcomes

CO1: Critically assess financial statements using common size analysis, ratio analysis, and working capital management techniques, demonstrating a high level of financial analysis proficiency.

CO2: Apply decision analysis tools such as cost/volume/profit analysis, breakeven analysis, and pricing methodologies, showcasing competence in strategic decision-making for organizations.

CO3: Apply concepts of corporate restructuring, international finance, and managing transaction exposure, demonstrating competence in addressing financial challenges in a global context

CO4: Critically evaluate ethical considerations in management accounting and financial management, applying professional ethical standards and resolving ethical issues, fostering ethical leadership in financial practices.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Quality control, Technological literacy

Course Content

U1: Financial Statement Analysis

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Common size financial statements - Common base year financial statements - Financial Ratios (liquidity, leverage, activity, profitability, market) - Working capital terminology - Cash management - Marketable securities management - Accounts receivable management - Inventory management - Profitability analysis (income measurement analysis, revenue analysis, cost of sales analysis, expense analysis, variation analysis) - Impact of foreign operations - Effects of changing prices and inflation.

Description

U2: Decision Analysis

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Cost/volume/profit analysis - Breakeven analysis - Profit performance and alternative operating levels - Analysis of multiple products -Sunk costs, opportunity costs and other related concepts - Marginal costs and marginal revenue- Special orders and pricing - Make versus buy - Sell or process further- Add or drop a segment - Capacity considerations - Pricing methodologies- Target costing - Elasticity of demand - Product life cycle considerations -Market structure considerations.

Description

U3: Working capital management

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Working capital terminology - Cash management - Marketable securities management - Accounts receivable management - Inventory management -Types of short-term credit - Short-term credit management.

Description

U4: Corporate restructuring and International Finance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Mergers and acquisitions - Bankruptcy - Other forms of restructuring - Fixed, flexible, and floating exchange rates - Managing transaction exposure - Financing international trade - Tax implications of transfer pricing.

Description

U5: Professional Ethics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Ethical considerations for management accounting and financial management professionals (IMA's "Statement of Ethical Professional Practice", fraud triangle, evaluation and resolution of ethical issues) -Ethical considerations for the organization (IMA's Statement on Management Accounting, "Values and Ethics: From Inception to Practice", U.S. Foreign Corrupt Practices Act, corporate responsibility for ethical conduct).

Description

Hock International CMA Part 2: Strategic Financial Management

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I (20 Marks), CIA II (50 Marks), CIA III (20 Marks)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for BCom (Strategic Finance) – ETE/MSE (2 Hours Exam): Section A: Short Answer Questions – Answer 3 questions (with internal choice in Q3), 5 marks each → 15 marks. Section B: Conceptual/Descriptive/Problem Questions – Answer 2 questions (with 1 internal choice), 10 marks each → 20 marks. Section C: Case Study – Compulsory, 1 question, 15 marks → 15 marks.

SYLLABUS FOR SEMESTER - V

RESEARCH METHODOLOGY

Course Code	COM101-5
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - V)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)

Bachelor of Commerce (Finance and Investment) (SEMESTER - V)

Bachelor of Commerce (Morning) (SEMESTER - V)

Bachelor of Commerce (SEMESTER - V)

Bachelor of Commerce (Strategic Finance) (SEMESTER - V)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Apply appropriate research types and approaches in real world business and social research situations.

CO2: Construct a structured literature review and apply American Psychological Association (APA) format to cite scholarly and non-scholarly sources .

CO3: Identify and discuss the complex issues inherent in selecting a research problem, selecting an appropriate research design, and implementing a research project

CO4: Evaluate the key components of a research proposal

CO5: Appraise different sampling techniques and research instruments to determine their appropriate use in research studies.

CO6: Analyse data using appropriate statistical tools and statistical software and interpret the results.

Sustainability Development Goals (SDG)

Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Quality control, Technological literacy

Course Content

U1: Introduction to Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Research

Description

Nature of Research, Brief History of Research, Relevance: Why and How to do it?; Criteria of good research, Attributes of a good researcher; Social Research – Objectives, Assumptions and Applications, Significance and

Difficulties of Social research; Business research – Purpose, Dimensions and Fields of Application; Ethics in research – APA Ethics code.

U2: Methods and Techniques of Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Methods and Techniques of Research

Description

Classification of Research – Pure Research, Applied Research, Exploratory Research, Descriptive Study, Diagnostic Research, Action Research; Quantitative Research, Qualitative Research, Triangulation Research; Experimental Research, Analytical Research, Survey Research, Historical Research, Case Study Research; Inter Disciplinary Research, Multi-Disciplinary Research and its essentials; Inductive and Deductive Methods.

U3: Literature Review, Research Problem, Research design

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Literature Review, Research Problem, Research design

Description

Literature Review – Scholarly and Non-Scholarly Sources, Literature Review formats – Narrative, Systematic, Scoping, Bibliometric; APA 7 th Edition for References;

Research Problem – Components, Problem Definition, Evaluation of Problem;

Research Design – Classification of Research Design, Importance of Research Design, Contents of a Research Plan.

U4: Sampling and Sample Design

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Sampling and Sample Design

Description

Key terms and terminologies, Purpose of Sampling, Sampling Techniques – Random Sampling and Non-random sampling, Errors in Sample Surveys – Sampling Errors and Non-Sampling Errors

U5: Methods and Tools of Data Collection

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Methods and Tools of Data Collection

Description

Meaning and Importance of Data, Sources of data – Primary, Secondary, Tertiary; Data collection methods – Surveys, Interviews, Focus group Discussions, Un focus Groups, Observations, Projective Techniques; Instruments of data collection – Questionnaire, Schedule, Interview schedule, Rating Scale, Check list, Opinionnaire; Variable – Meaning and types; Scales of Measurement – Nominal, Ordinal, Interval, Ratio

U6: Processing of Data and Report Writing

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U6-T1. Processing of Data and Report Writing

Description

Data Cleaning – Handling duplicate values, missing values and extreme values; Data Coding – Classification and transcription; Quantitative data analysis using SPSS (Practical aspects); Qualitative analysis using NVIVO (Practical aspects); Report Writing – Types of report, Format of research report, Evaluation of reports.

Essential Reading

Krishnaswami, O.R (2023). Research Methodology. Mumbai: Himalaya Publishing House.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

5 ASSESSMENTS OF 20 MARKS EACH Resulting in 100

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ASSESSMENTS OF

TAXATION-I

Course Code	COSF201-5
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - V)

Course learning Outcomes

CO1: Apply income tax concepts to determine taxable income based on key definitions, tax rates, basis of charge, and salary computation.

CO2: Analyze the provisions for computing taxable income from house property.

CO3: Apply provisions for computing income from business or profession.

CO4: Assess the taxability of income from other sources.

Sustainability Development Goals (SDG)

Decent work and economic growth, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Introduction to Income Tax and Basis of Charge

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Concept of Income Tax-Finance Bill & Act: Key changes introduced in the Finance Act 2025.

Definitions: Assessee, Person, Assessment year, Previous year, Income, Total Income and Agricultural Income –

Concept of Capital & Revenue (a) Receipts (b) Payments (Expenditure), Tax rates, Charge of Income - Tax

Residence Status of Individuals - Scope of Total Income - Income deemed to be received - Income Deemed to accrue or arise in India – problems on residential status and problems on total income.

Description

U2: Incomes from Salary

Teaching Hours: (18)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. Brief introduction – Income from Salary – Definition; Characteristics of Salary Income; Computation of Salary Income – Basic Salary – Allowances – Perquisites (Valuation of Perquisites excluded) - Leave

Encashment - Commutation of Pension - Death-cum-Retirement Benefits – Gratuity -Deduction from Gross Salary u/s 16 – Computation of income from salary.

Description

U3: Income from House Property

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Meaning – Types of House Properties - Annual value Determination in different situations: House-treatment of unrealized rent and vacancy- Deductions for let out House properties – Annual Value of Self-occupied House Property –Deduction for Self-Occupied Property — Computation of Income from Let-out House Property, Income from Self-occupied House Property, concept of deemed owner, Co-owner, Treatment of Unrealised rent and arrears of rent recovered.

Description

U4: Profits and Gains from Business and Profession

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Computation of Income under this head - Allowable Expenses - Expenses expressly disallowed - Problems relating to business (sole trader only) and Problems on profession relating to Chartered Accountant, Advocate and Doctor, Books of Accounts and Audit requirement.

Description

U5: Income from Other Sources

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Meaning and Explanation – Various incomes that fall under this heading – Deductions allowed – Expenses Not Deductible – treatment of gifts, computation of income.

Description

IND AS AND IFRS

Course Code	COSF301-5
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - V)

Course learning Outcomes

CO1: Understand the regulatory framework of Indian financial reporting by explaining the transition from Indian GAAP to Ind AS.

CO2: Explain the conceptual framework of Ind AS, including fair value measurement, qualitative characteristics of financial information, and the structure of financial statements.

CO3: Apply the principles of recognition, measurement, and disclosure for assets, liabilities, income, and expenses under relevant Ind AS and compare them with previous Indian GAAP standards.

CO4: Examine the principles of revenue recognition, financial statement presentation, and segment reporting under Ind AS, assessing their implications for corporate financial reporting.

CO5: Apply Ind AS 1 and Ind AS 108 to prepare, present, and interpret Ind AS-compliant financial statements and segment disclosures.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Dependability and attention to detail, Quality control

Course Content

U1: Introduction

Teaching Hours: (12)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Accounting Principles – Concepts and Conventions, Accounting Standards – Introduction, Need importance, Accounting Standard setting procedure in India, Accounting Standards (Indian GAAP), Ind AS, IFRS, Carve outs/ins of IND AS, Roadmap for implementation of the Indian Accounting Standards, Conceptual Framework for Financial Reporting under Ind AS- Qualitative characteristics of useful Financial Information, The elements of Financial Statements, concepts of capital and capital maintenance.

Description

Professional judgement and estimates under Ind AS, Substance over form and economic reality, Role of ICAI, NFRA, and MCA in financial reporting oversight

U2: Ind AS relating to Valuation

Teaching Hours: (8)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Ind AS 113: Fair Value Measurement – Scope, Applicability, Objectives, Core Principles, Definition, Key Concepts- Transactions, Exit Price, Entry Price, Principal Market, Most Advantageous Market, Market Participants, Valuation of Assets & Liabilities, Disclosures. Fair Value Hierarchy (Level 1, 2, 3), Valuation techniques: market, income, cost approach, Valuation challenges in Indian markets, Disclosure requirements and audit implications

Description

U3: Ind AS relating to Assets and Liabilities

Teaching Hours: (20)

Development Needs:

Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Ind AS 2: Inventories – Objectives, Definition, Applicability, Measurement of Inventories, Recognition, Disclosure, Significant Comparison with AS 2. Ind AS 16: Property, Plant And Equipment – Definition, Scope, Recognition, Measurement- (Initial, Subsequent, Revaluation, Impairment, Depreciation, Derecognition), Disclosure, Comparison with AS 10.

Description

U4: Ind AS relating to Income and Expense

Teaching Hours: (10)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Ind AS 115: Revenue from Contracts with Customers – Introduction, Scope, Principles, Identification of contracts, Performance Obligation, Transaction Price, Allocation of Transaction Price, Recognition of Revenue, Special Issues in revenue recognition, Disclosure, Comparison with AS 9 and AS 7.

Description

U5: Financial Reporting

Teaching Hours: (10)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. IND AS 1: Presentation of Financial Statements – General Purpose Financial Statements, Objectives and components of Financial Statements, General Features of financial statements, Structure and content of Ind AS Compliant, Comparison with AS 1. Ind AS 108: Operating Segments – Introduction, Objectives, Scope, Operating Segments, Determining Reportable Segments, Disclosure, Comparison with AS 17.

Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15= 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15= 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 2 hours duration.

Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15= 15 |

PORTFOLIO MANAGEMENT

Course Code	COSF302-5
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - V)

Course learning Outcomes

CO1: Analyse the concepts of investment analysis and portfolio management.

CO2: Evaluate the risk and return of securities.

CO3: Assess Securities using fundamental and technical analysis.

CO4: Construct portfolios using portfolio construction techniques.

CO5: Evaluate the performance of investments using portfolio management techniques.

Sustainability Development Goals (SDG)

Consumption and production, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Investment

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning of investment – Financial and economic meaning, Investment vs speculation- gambling - Importance of investments –Reasons for investing, Essential features of a good investment Programme/Features- Factors influencing the investment decision - Qualities of a successful investment – Contrary thinking - Patience composure - Flexibility and openness and decisiveness - Portfolio Management Process - Common Errors in Investment Management – Investment strategies.

Description

Introduction to technology in financial markets, Fintech and Crypto currency. ; Concept of sustainable investing, role of investment in climate change.

U2: Investment Schemes and Risk-Return

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None, Professional Ethics

U2-T1. Non-Marketable Financial Assets: Bank Deposits- Company Deposits- Post-Office Deposits Schemes- Employees Provident Funds. Money Market Investments: Treasury Bills- Certificate of Deposits- Commercial Papers- Commercial Bills. Fixed Income Securities: Govt. Securities- RBI Relief Bonds-debentures- Public Undertakings Bonds- Preference Shares- Equity Shares- Mutual Fund Schemes- Life Insurance Schemes- The distinctive features and advantages of each scheme in detail. Risk- Risk and Uncertainty –

Description

Causes for risk – Types of Risk - Systematic and Unsystematic risk -Expected risk-return trade-off - Calculation of expected return- Ex-post and ex-ante method. Calculation of risk- Systematic risk- Beta calculation using regressing and correlation method.

U3: Security Analysis

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. FUNDAMENTAL ANALYSIS - EIC ANALYSIS Economy Analysis - Meaning, Key economic variables, Industry Analysis -Meaning, Industry life cycle, characteristics of an industry and Porter's model, Company Analysis - Analysis of financial statements, future prospects of a company. TECHNICAL ANALYSIS-Meaning of Technical analysis and basic principles of technical analysis- Trends and Chart patterns Eliot wave theory Dow Theory, support and resistance level different types of Charts

Description

Efficient market theory Mathematical indicators and Market indicators. Fundamental Vs technical analysis.

U4: Security Valuation

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Time value of money - Concept of present value. Debt instruments and valuations, Holding Period Return- Current yield, Bond Risk, Bond Valuation Models – Bond with a maturity period, Bonds redeemable in instalments, Bond values with semiannual interest and Bonds in perpetuity, Bond pricing theorems, YTM and YTC (Direct method and trial and error method simple problems), Bond duration convexity. Equity instrument and valuations , Discounted cash flow methods, Dividend discount models –

Description

Single period model, multi-period model, Constant growth model, and Two-stage growth model.

U5: Introduction to Portfolio Management

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Meaning-The Portfolio Management Process Categories. Investment strategy objectives—Risk and Beta—Time value of money application to portfolio management—MPT and Dominance concept. Asset Allocation: Process, Types of asset allocation, Management style, Different approaches to allocation decision, and overview of allocation techniques.

Description

Meaning-The Portfolio Management Process Categories. Investment strategy objectives—Risk and Beta—Time value of money application to portfolio management—MPT and Dominance concept. Asset Allocation: Process, Types of asset allocation, Management style, Different approaches to allocation decision, and overview of allocation techniques.

U6: Portfolio Selection and Construction

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Portfolios return Portfolio risk, Portfolio diversifications. Feasible set of portfolios, Efficient set of portfolios, Selection of optimal portfolio, Markowitz model and its limitations, The Sharp Index Model, Single Index Model Measuring security and portfolio's return and risk under single index model. Capital Asset Pricing Theory- Assumptions, Efficient frontier, SML and CML, Pricing of securities with CAPM and its arbitrage theory.

Description

Portfolios return Portfolio risk, Portfolio diversifications. Feasible set of portfolios, Efficient set of portfolios, Selection of optimal portfolio, Markowitz model and its limitations, The Sharp Index Model, Single Index Model Measuring security and portfolio's return and risk under single index model. Capital Asset Pricing Theory- Assumptions, Efficient frontier, SML and CML, Pricing of securities with CAPM and its arbitrage theory.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written

examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE 50 Marks

Written examination conducted for 2 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

INTERNSHIP

Course Code	COM181-5
Course Type	Practical
Total Hours	T 0 / P 30
Category	Internship

Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - V)

Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)

Bachelor of Commerce (Finance and Investment) (SEMESTER - V)

Bachelor of Commerce (Morning) (SEMESTER - V)

Bachelor of Commerce (SEMESTER - V)

Bachelor of Commerce (Strategic Finance) (SEMESTER - V)

Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Apply theoretical knowledge to real-world business environments

CO2: Demonstrate professional skills and workplace competencies

CO3: Critically analyse business operations and organizational practices

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Curiosity and lifelong learning

Course Content

U1: Introduction to the Organization

Teaching Hours: (60)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. 1.1 Profile of the organization (including evolution and awards and recognition) 1.2 Vision, Mission, Goals

Description

U2: Organizational Design and Functional Areas

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. 2.1 Organization design & structure 2.2 Departments and Divisions 2.3 Product/s and Service/s 2.4 Business Model

Description

- Hierarchical/flat/matrix structure (include organogram if possible)
- Overview of key functional departments
- Major offerings, features, target market

Revenue generation, customer acquisition, delivery mechanism

U3: Key Performance Areas (KPA), Organizational Control and Strategies

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. 3.1 KPA's of the various departments 3.2 Accounting Standards & Reporting followed 3.3 HR Practices 3.4 Financial Highlights 3.5 Modes of Marketing 3.6 Integration of AI 3.7 Tax Filing & Auditing 3.8 SWOC Analysis of the Organization (Based on the intern's observation and analysis supported by facts) 3.9 Key Success Factors and Strategies of the Organization (Based on the intern's observation and analysis supported by facts) 3.10 Suggestions for the future growth of the organization

Description

- KPAs across various departments (Sales, HR, Finance, etc.)
- IND AS, internal reporting systems, compliance frameworks
- Recruitment, appraisal, training, and retention strategies
- Key financials (Turnover, Profit, Investments – if available)
- Digital, traditional, B2B/B2C approaches, branding
- Use of AI, automation tools, ERP systems, CRM tools
- Tax practices, statutory audit process, internal audits
- Strengths, Weaknesses, Opportunities, Challenges
- Factors driving organizational growth and sustainability

Intern's strategic or operational recommendations

U4: Course Learning Outcomes

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. 4.1.1 Relevance of Academic Theories (Accounting, Finance, HR, etc.) 4.1.2 Gaps or Irrelevance Identified 4.2.1 New Skills Acquired during Internship 4.2.2 Existing Skills Nurtured or Strengthened 4.2.3 Skills/Competencies Identified for Further Development 4.2.4 Input from Key Personnels 4.3.1 Good Business Practices Observed 4.3.2 Practices Worth Replicating at CHRIST University

Essential Reading

Assessment (Marks Distribution) Weekly Report Submission - 20 Marks (2.5 per week) Industry Mentor's Evaluation - 10 Marks Internship Mentor's Evaluation - 20 Marks Internship Report Evaluation - 25 Marks Viva Voce Examination - 25 Marks Total - 100 Marks

SYLLABUS FOR SEMESTER - VI

TAXATION II

Course Code	COSF201-6
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - VI)

Course learning Outcomes

CO1: Compute taxable capital gains.

CO2: Determine the total taxable income and tax liability of an individual by examining the provisions relating to clubbing, set-off and carry forward of losses, and eligible deductions under the Income Tax Act.

CO3: Explain the fundamental concepts, objectives, and structure of the Goods and Services Tax (GST), including its constitutional framework and benefits.

CO4: Demonstrate the procedures for GST registration, levy, tax collection, input tax credit utilization, and return filing through relevant computations.

Sustainability Development Goals (SDG)

Decent work and economic growth, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Capital Gains

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Capital Asset – inclusions/exclusions; Short Term Capital Asset; Long Term Capital Asset, Definition of Transfer, Transactions not regarded as transfer (relevant to individuals only); Computation of LTCG and STCG, exemption relating to sections 54, 54B, 54D, 54EC, 54F, 54G; Sec 54H, Computation of taxable capital gains (Basic Problems only).

Description

U2: Clubbing of Income and Set off and Carry forward of losses

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. Income of other Persons - Included in Assessee's Total Income. Set off losses -Different sources under the same head of income - Sources from different heads of income- (Including problems).

Description

U3: Deductions and Tax Liability

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Deduction from Gross Total Income u/s 80C– 80CCC – 80CCD – 80D – 80DD – 80DDB – 80E – 80G – 80GG – 80GGA-80QQB-80RRB-80TTA – 80U. Computation of Total Income and Tax Liability both under default and optional scheme.

Description

U4: Introduction to Goods and Services Tax (GST)

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Objectives and basic scheme of GST, meaning – Salient features of GST – Subsuming of taxes Benefits of implementing GST – Constitutional amendments - Structure of GST (Dual Model) Central GST – State / Union Territory GST – Integrated GST - GST Council: Structure, Powers and Functions, Provisions for amendments. Definitions: Aggregate turnover, Adjudicating authority, Agent, Business, Capital goods, Casual taxable person, Composite supply, Mixed supply, Exempt supply, Outward supply,

Description

Principal supply, Zero Rate Supply, Place of supply, Supplier, Goods, Input service distributor, Job work, Manufacture, Input tax, Input tax credit, Person, Place of business, Reverse charge, Works contract, Casual taxable person, Non-resident person, Export of goods/services, Import of goods/services, Intermediary.

U5: Registration procedure and Levy under GST

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Registration under GST: Procedure for registration, Persons liable for registration, Persons not liable for registration, Compulsory registration, deemed registration, Special provisions for Casual taxable persons and Non-resident taxable persons, Exempted goods and services - Rates of GST. Composition scheme. Levy and Collection: Scope of supply, Tax liability on Mixed and Composite supply, Time of supply of goods and services, Value of taxable supply,

Description

Computation of taxable value and tax liability. Procedure relating to Levy (CGST, SGST and IGST): Inter-state supply, intra-state supply, Zero rates supply, Value of taxable supply – Computation of taxable value and tax liability. GST on Intermediaries.

U6: Input Tax Credit and Return Filing

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

None

U6-T1. Input tax Credit: Eligibility, Apportionment, Inputs on capital goods, Distribution of credit by Input Service Distributor (ISD) – Transfer of Input tax credit – Simple Problems on utilization of input tax credit. Return Filing: Procedures relating to filing the monthly/quarterly returns and reconciling and correcting online returns. Electronic Cash Ledger, Electronic Credit Ledger and provisions of internal set off of CGST/SGST and IGST.

CORPORATE VALUATION

Course Code	COSF301-6
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - VI)

Course learning Outcomes

CO1: Understand the approaches and process of corporate valuation and explain how Artificial Intelligence can conceptually support valuation analysis through data-driven identification of value drivers, along with its limitations and ethical considerations.

CO2: Evaluate the Enterprise DCF Model and critically assess the applicability and limitations of various models in corporate financial decision-making.

CO3: Apply relative valuation techniques by utilising standardised values and evaluate the suitability of non-DCF approaches in diverse corporate valuation scenarios.

CO4: Evaluate valuation methods for various types of companies and contexts, including intangible asset valuation and real options for high-growth or technology-driven firms.

CO5: Analyse the key premises and methods of Value-Based Management and to evaluate and enhance organisational value.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Corporate Valuation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Corporate valuation: An Overview-Context of valuation-Approaches to Valuation-Features of the valuation process: Book value approach, Stock and debt approach, discounted cash flow approach, Relative valuation approach, option valuation approach-Features of the valuation process-Corporate valuation in practice.

Description

U1-T2. Conceptual introduction to the use of Artificial Intelligence for supporting valuation analysis through data-driven identification of value drivers, along with its limitations and ethical considerations.

U2: Enterprise DCF Model

Teaching Hours: (18)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Enterprise DCF Model: Measuring cash flows, earnings, tax effect, reinvestment needs, from firm to equity, Structure of DCF Valuation, length of extraordinary growth period, detailed cash flow forecasts, terminal value, estimation approaches, Equity Discounted cash flow models, free cash flow to Equity (FCFE) model (Potential Dividend) Discount Models, Per share vs aggregate valuation- Adjusted present value model-Economic profit model-Applicability and Limitations of DCF analysis.

Description

U3: Relative valuation

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Relative valuation: Meaning, Ubiquity of relative valuation, reasons for popularity and potential pitfalls, standardized values and multiples, four basic steps to using multiples, reconciling relative and discounted cash flow, equity multiples, distributional characteristics of equity multiples, analysis of equity multiples, value multiples, distributional characteristics of value multiples, analysis and application of value multiples-Other Non DCF Approaches-Book Value approach-

Description

Stock and Debt approach-Strategic approach to valuation-Guidelines for corporate valuation.

U4: Advanced issues in valuation

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Advanced issues in valuation: Valuation of companies of different kinds-valuation in different contexts-Loose ends of valuation-Valuation of intangible assets: Patents, trademarks, copyrights and licenses; Franchises; Brands- Real Options Valuation for valuing high growth or technology driven firms.

Description

U5: Value Based Management

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Value Based Management: Methods and Key premises of VBM-Marakon approach-Alcar approach-Mckinsey approach-Stern Stewart approach-BCG approach

Description

Essential Reading

DERIVATIVES AND COMMODITY MARKETS

Course Code	COSF302-6
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - VI)

Course learning Outcomes

CO1: Understand the fundamental concepts and structure of derivative instruments and markets

CO2: Apply pricing and valuation techniques for forward and futures contracts

CO3: Analyze the pricing models and hedging strategies for futures and forwards

CO4: Evaluate option pricing models and construct option trading strategies

CO5: Analyze and evaluate the role of commodity derivatives in risk management

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Derivative Instrument and Derivative Market Features

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Definition – Types of derivatives- forwards, futures, options and swaps- Participants and Functions- Development of Exchange traded derivatives- Global derivatives markets-Exchange traded vs OTC derivatives markets- Derivatives trading in India- Requirements for a successful derivatives markets, Misuse and criticism of derivatives, Myths about derivatives. Use of AI in hedging and trading.

Description

U2: Pricing and Valuation of Forward and Future Contracts

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. Forward & future contract: Meaning of forward contract and future contract classification of forward contract. Features of Forward contract – Difference between forward and spot contract. Meaning and definition of Future contract – Features of future contract - Evolution of future Market, Types of future contract- Futures

market in India, specification of future contract and terminology. Settlement of future contract. Margining & MTM, Exposure & Risk, Significance of future market.

Description

U3: Pricing of Futures & Forwards

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Forwards & Futures Prices - valuations. Basics of Futures Hedging, Nuances in Futures Hedging. Further Aspects of Futures Hedging; Basics of Mean-Variance Portfolio Theory – Cost to carry approach – The expectation Approach – The Normal Backwardation approach and – The CAPM. Index Futures: Features, Hedging & Arbitrage

Description

Index Futures: Features, Hedging& Trading strategies involving options. Implied Volatility vs. Historical Volatility and Introduction to the VIX (Fear Gauge).

U4: Option Pricing & Strategies

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Introduction to Options contracts –basic principles. Types of options – Basic concepts or Terms used in Option trading - Options terminology. Open Interest Analysis. Trading and settlement of options. Difference between option and futures. Options pricing – Determinants of Option Pricing – Upper and Lower limits of option pricing – In the Money – at the money and out of the money. Options Strategies – Bull Spread, Bear Spread, Butterfly Spread, Strangle and Straddle (Problems).

Description

Hedging& Trading strategies involving options. Implied Volatility vs. HistoricalVolatility and Introduction to the VIX (Fear Gauge).

U5: Options Valuation

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U5-T1. Valuation of option: Introduction to basic model, one period binomial model and two-period model, Black and Scholes Model (Problems), Girsanov Theorem; option Greeks: Further Properties, Role in Trading
Description

U6: Commodity Derivatives and Risk Management

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U6-T1. Introduction to Commodity Derivatives, Commodity Exchanges and Commodity Contracts. Pricing Commodity Forward, Futures & Options. Agricultural Price Risk Management, Crude oil & Base Metal Derivatives, Gold & Electricity Price Risk Management and Weather and Carbon Derivatives. Interest Rate Swaps (IRS), Currency Swaps and CDS.

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Financial Modeling

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U1-T1. Concept of financial Modeling- difference between spreadsheet and model types and purposes of financial model-skills required for a good modeller- best practices in spreadsheet design-tool selection- Excel for financial modeling: Excel basics- - Excel features-financial – logical- statistical - mathematical, lookup reference. Custom formatting- shortcuts- array functions - pivot tables analysis – Tool pak-nested-cell references -named ranges-working with dates-linking external file-

Description

Useful windows keyboard shortcuts for financial modellers- Ethical and responsible AI use in financial modelling- Integrating Sustainability and ESG Metrics into Financial Models.

U2: Errors Fixing and Visualization

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Advanced Excel functions: IF, VLOOKUP, INDEX, MATCH, and data validation - Creating dynamic charts and dashboards for data visualization- Attributes of a good model- Documenting Excel model-debugging excel model- error avoidance strategies -using formula auditing tools for debugging-learning modelling using excel-graphic and written presentation-chart types-bubble and waterfall charts-charting with two different axes- AI-Supported model validation and error detection in excel-

Description

- sustainabilitydashboards and visualization for decision-Making.

U3: Financial Statement Analysis

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Ratio Analysis (Profitability, Liquidity, Solvency, Efficiency) - Common Size and Trend Analysis - Revenue and Expense Forecasting - Working Capital Modelling - Forecasting Receivables, Payables, and Inventory - Cash Conversion Cycle and Liquidity Management - Fixed Assets & Depreciation Modelling - Capital Expenditure Planning - Different Depreciation Methods and Their Impact- applications of AI based predictive models for financial statement analysis-

Description

ESG-LinkedRatio Analysis for Long-Term Financial Health.

U4: Building Financial Models

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Historical Data Analysis & Growth Assumptions - Scenario Analysis and Sensitivity Testing - Understanding stress testing and scenario analysis and sensitivity analysis- difference between scenario-sensitivity and what if analysis-overview of scenario tools-advanced conditional formatting- model review and checklist - Integrating assumptions into the model for scenario analysis - Developing integrated financial statements: P&L, cash flow projections, and balance sheet-

Description

AI-Driven Scenario, Sensitivity, and Stress Testing in Financial Models- Climate and Sustainability Scenario Analysis in Financial Modelling.

U5: Model Creation and Applications

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Company Analysis, Cash flow, Variance Analysis, break-even analysis, Portfolio Analysis, Cost of Capital, Bonds, Investment Analysis, Risk Analysis, Leasing, Financial Planning and Investment, Analyzing Market History, and Simulating stock prices. Group projects to develop comprehensive financial models for selected companies or projects - Presentation of models and strategic recommendations-

Description

AI-Based Investment, Risk, and Portfolio Analysis- Sustainable Investment and ESG-Based Company Analysis.

Essential Reading

1. Day, A. (2013). *Mastering financial modelling in Microsoft Excel* (3rd ed.). Pearson.
2. Sengupta, C. (2009). *Financial analysis and modeling using Excel and VBA* (2nd ed.). Wiley.
3. Benninga, S. (2022). *Financial modeling* (5th ed.). MIT Press.
4. Rees, M. (2008). *Financial modelling in practice: A concise guide for intermediate and advanced level* (1st ed.). Wiley.
5. Ferrari, A. (2025). Artificial intelligence and machine learning in finance: Addressing complex problems and ESG applications. Virtus Interpress.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | CIA I | Quizzes- role plays- objective type tests- written assignments- Practical tests etc. -20 Marks | CIA II | Practical tests, Assignments, Group activities etc. - 30 Marks | CIA Overall | Group work consisting of presentations- Viva voce- and report submission, Practical record book etc. -50 Marks |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ESE - 100 Marks

ADVANCED ACCOUNTING AND ANALYSIS

Course Code	COSF304-6
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance) (SEMESTER - VI)

Course learning Outcomes

CO1: Apply the knowledge to prepare final accounts according to the Guidelines of the Reserve Bank of India (RBI) and the Banking Regulation Act of 1949, and identify and classify non-performing assets in compliance with statutory requirements.

CO2: Apply accounting practices for life insurance businesses, preparing revenue accounts and balance sheets as per IRDA guidelines and Apply accounting practices for general insurance companies, including fire, marine, and miscellaneous insurance, preparing financial statements per IRDA guidelines.

CO3: Analyse and Apply accounting analytics tools to predict earnings management in financial statements.

CO4: Apply Current Cost Accounting (CCA) to adjust inflation to prepare financial statements.

CO5: Apply ESG frameworks and carbon accounting concepts to analyse sustainability impacts in advanced financial reporting.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking, Quality control, Technological literacy

Course Content

U1: Accounts of Banking Companies

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction and Meaning - Books of accounts to be maintained by Banking Companies - Special features of Bank Accounting - Items requiring special attention in Preparing Final Accounts – Rebate on Bills Discounted – Statutory Reserves – Statutory Liquidity Ratio – Cash Reserve Ratio – Income from Non-Performing Assets – Basis of Treating a Credit Facility as NPA – Assets Classification and Provisions – Description

Preparation of Final Accounts according to the Guidelines of RBI and Banking Regulation Act of 1949

U2: Accounts for Insurance Companies

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Meaning– Type of Insurance – Life Insurance– General Insurance – Accounts of Life Insurance Business – Statutory & Subsidiary Books – Determination of Net Liability and Amount due to policy holders – Preparation of Revenue Accounts and Balance sheet according to IRDA guidelines.

Description

U2-T2. General Insurance Companies - Fire Insurance - Marine Insurance and Miscellaneous Insurance – Provisions relating to the treatment of reserve fund – Preparation of Revenue Account, Profit and Loss Account, Profit and Loss appropriation Account and Balance Sheet according to the Guidelines of IRDA - Reinsurance

Description

U3: Earnings Management

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Earning management – means and motives – Ethical dilemmas in earnings management - aggressive revenue recognition practices and aggressive expense recognition practices – spotting earnings management. Predicting earnings management – Discretionary accruals models – Discretionary Expenditure models – Fraud prediction models – Benford’s Law – Prediction of earnings management using Benford’s Law – Linking Non-Financial metrics to financial performance –

Description

Predicting financial results using non-financial performance measures – ranking or assigning weights to non-financial measures.

U4: Inflation Accounting

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Historical cost accounting – limitations of historical cost accounting –need for inflation accounting – inflation accounting methods – Current cost accounting method – Features – Adjustments required – Problem on the calculation of adjustments – depreciation adjustment-Monetary working capital adjustment – cost of sales adjustment – gearing adjustment - problems on Current Cost Accounting(CCA) income statement and balance sheet.

Description

U5: ESG and Carbon Accounting Practices in Advanced Accounting

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. ESG accounting – meaning and importance – limitations of traditional accounting in addressing environmental and social impacts – need for ESG integration in advanced accounting – overview of ESG frameworks and standards (GRI, SASB, TCFD, IFRS S1 & S2, BRSR) – introduction to environmental and carbon accounting – Greenhouse Gas (GHG) Protocol – Scope 1, Scope 2 and Scope 3 emissions – basics of carbon footprint measurement – carbon pricing and internal carbon cost -

Description

accounting treatment of environmental costs and carbon-related liabilities – ESG performance indicators and simple scorecards – inclusion of ESG and carbon information in financial reports – brief case studies and practical illustrations on ESG reporting and carbon accounting.

Essential Reading

1. Schilit, H. M., Perler, J., & Engelhart, Y. (2018). Financial Shenanigans: How to Detect Accounting Gimmicks & Fraud in Financial Reports. 4th ed. New York: McGraw-Hill Education.
1. Ronen, J., & Yaari, V. (2008). Earnings Management: Emerging Insights in Theory, Practice, and Research. New York: Springer.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15= 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15= 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15= 15 | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third have internal choice). Each question carries five marks | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one question is internal choice). Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15 = 15 |

SYLLABUS FOR SEMESTER - VII

CLIMATONOMICS

Course Code	COM401-7
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain the interlinkages between climate systems, economic growth, and sustainability frameworks.

CO2: Analyze the economic impacts of climate change and evaluate the effectiveness of policy tools such as carbon pricing, green taxes, and emissions trading.

CO3: Design innovative and sustainable financial or policy models that promote low-carbon transitions and circular economies.

CO4: Apply climatonic principles to assess sectoral risks and develop adaptive strategies for businesses, communities, and governments.

CO5: Demonstrate leadership and ethical responsibility in formulating evidence-based, climate-resilient economic decisions

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Foundations of Climatonomics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Foundations of Climatonomics Introduction to Climatonomics: Definition, scope, and significance, Climate science fundamentals and the economics of environmental degradation, Climate externalities and market interdependencies, Sustainable development frameworks: UN Sustainable Development Goals (SDGs), Triple Bottom Line, and Planetary Boundaries, Concept of green economy and low-carbon development pathways

Description

U2: Economic Impacts and Policy Instruments of Climate Change

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Economic Impacts and Policy Instruments of Climate Change Relationship between GDP growth, resource consumption, and emissions, Economic impacts of climate change: adaptation vs. mitigation costs, Policy instruments for climate management – carbon pricing, emissions trading, green taxes, and subsidies, Climate policy frameworks: Kyoto Protocol, Paris Agreement, and COP outcomes, Case studies: EU Emissions Trading System (EU ETS) and India's Perform–Achieve–Trade (PAT) Scheme

Description

U3: Green and Sustainable Finance Mechanisms

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Green and Sustainable Finance Mechanisms Green bonds, ESG investing, and sustainable finance principles; role of development banks and institutional investors in climate finance; risk assessment, disclosure, and sustainability reporting frameworks (TCFD, GRI); financing circular economy and renewable energy transitions; designing green business and investment models. Add Practical Elements: Case Study (India): Examine India's Sovereign Green Bond (2023 issue) — structure, pricing, investor r

Description

U4: Climate Risk Management and Adaptive Strategies

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Climate Risk Management and Adaptive Strategies Sectoral risk analysis: agriculture, energy, transport, and finance, Climate resilience, disaster risk reduction, and insurance mechanisms, Public–private partnerships for adaptation and resilience building, Technological innovations for mitigation (AI, IoT, green tech), Case studies on successful adaptation models (India and global). Add Practical Elements: Risk Mapping Exercise: Students create a simple climate risk profile for an Indian sect

Description

U5: Ethics, Leadership, and Climate Governance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Ethics, Leadership, and Climate Governance Ethical dimensions of climate economics and intergenerational equity, Global governance for climate action: UNEP, IPCC, IMF, World Bank, Corporate responsibility and climate disclosure practices, Leadership in sustainability: case studies of climate champions and policy innovators, Practical exercises in sustainable decision-making and climate ethics.

Description

Essential Reading

1. Green and Sustainable Finance: Principles and Practice (3rd Ed., 2025) by Simon Thompson provides a comprehensive guide to how finance, regulation, and innovation drive global climate and sustainability transitions.

Principles of Sustainable Finance (2nd Ed., 2023) by Dirk Schoenmaker and Willem Schramade explains how financial systems and economic decisions can align with environmental and social sustainability within planetary boundaries

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

FINANCIAL REPORTING – IFRS

Course Code	COSF401-7
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Explain and interpret the IFRS conceptual framework and presentation requirements for general-purpose financial statements in a cross-border context.

CO2: Apply IFRS to complex transactions in revenue, leases, non-current assets, provisions, and income taxes with appropriate disclosures.

CO3: Evaluate, classify, and account for financial instruments under IFRS 9/IFRS 7/IFRS 13, including impairment and hedge accounting.

CO4: Prepare and analyze consolidated financial statements under IFRS (IFRS 10, IFRS 3, IFRS 11, IAS 28, IAS 21), including complex group structures and foreign operations.

CO5: Critically analyze IFRS-based financial reports of multinational entities, including EPS, segment reporting, share-based payments, employee benefits, and IFRS for SMEs, and communicate findings to stakeholders.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Peace, justice and strong institutions

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Technological literacy

Course Content

U1: IFRS Framework, Presentation & Global Context

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. IASB, due process, hierarchy of IFRS literature; difference between rules-based and principles-based frameworks. IFRS Conceptual Framework: objectives of GPFR, qualitative characteristics, reporting entity, elements, recognition, measurement bases. IAS 1: Presentation of Financial Statements – structure, fair presentation, OCI, non-controlling interests, notes. IAS 8: Accounting policies, changes in estimates, errors. Distinction from Ind AS where relevant (only at comparative/highlight level)

U2: Performance Reporting under IFRS – Revenue, Leases & Related Areas

Teaching Hours: (14)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U2-T1. IFRS 15: 5-step model; variable consideration; significant financing; principal vs agent; contract modifications; licensing; bundled contracts; extensive caselets. IFRS 16: Lessee and lessor accounting, ROU assets, lease modifications, sale and leaseback. IAS 16, IAS 38, IAS 40, IAS 36: PPE, intangibles, investment property, impairment cash-generating units. IAS 37: Provisions, contingent liabilities, onerous contracts, decommissioning.

U3: Financial Instruments & Fair Value

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. IFRS 9: Classification (amortised cost, FVOCI, FVTPL); business model tests; embedded derivatives. Expected Credit Loss (ECL) model; staging; trade receivables; illustrative bank / fintech case. Hedge accounting: cash flow hedges, fair value hedges, net investment hedges. IFRS 7: Risk disclosures (credit, liquidity, market) and sensitivity analysis. IFRS 13: Fair value hierarchy; Level 1/2/3; valuation techniques; disclosure integration.

U4: Business Combinations & Group Reporting

Teaching Hours: (16)

Development Needs:

Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. IFRS 3: Acquisition method; consideration, NCI measurement options, goodwill/bargain purchase, step acquisitions. IFRS 10: Control model (power, returns, linkage); de facto control; potential voting rights; structured entities. IFRS 11: Joint operations vs joint ventures; accounting implications. IAS 28: Equity method; upstream/downstream transactions. Consolidation mechanics: elimination entries, intragroup inventory and PPE, unrealised profits, intra-group loans and interest.

U5: Specialized Topics, IFRS for SMEs & Current Developments

Teaching Hours: (8)

Development Needs:

Local

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Sustainability

U5-T1. IAS 19: Employee benefits (defined benefit overview, actuarial assumptions – conceptual, not actuarial math heavy). IFRS 2: Share-based payment – equity vs cash-settled, basic computations, expense recognition. IAS 12: Income taxes – temporary differences, deferred tax on key items, interaction with business combinations. IAS 33 & IFRS 8: EPS and segment reporting – performance communication. Overview: IFRS for SMEs framework vs full IFRS (only high-level contrast).

Description

Brief introduction to sustainability-related financial disclosures (ISSB IFRS S1 & S2) as they connect to investor-focused reporting (descriptive).

Essential Reading

IFRS Foundation. IFRS Accounting Standards—Required 1 January 2025. London: IFRS Foundation, 2025.

IFRS Foundation. IFRS Accounting Standards—Issued 1 January 2025. London: IFRS Foundation, 2025.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ORGANISATIONAL BEHAVIOUR

Course Code	COM402-7
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Analyse organisational behaviour concepts, models, and interdisciplinary foundations to examine contemporary challenges such as diversity, sustainability, and green organisational behaviour.

CO2: Evaluate the influence of personality, values, attitudes, emotions, on individual behaviour, ethical conduct, employee well-being and sustainability outcomes in AI-driven work environments.

CO3: Analyse learning, perception, motivation and decision-making processes to assess behavioural change, ethical judgement, sustainability-oriented decisions, and the impact of artificial intelligence on managerial decision-making..

CO4: Analyse group dynamics, team processes, and collaborative mechanisms, including green teams and technology-enabled teams, to evaluate their effectiveness in achieving organisational and sustainability goals.

CO5: Evaluate the role of power, conflict, negotiation, resilience, leadership, organisational culture, and change in managing sustainability initiatives.

Sustainability Development Goals (SDG)

Decent work and economic growth, Gender equality, Good health and well-being, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Introduction to Organisational Behaviour

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Introduction to Organisational Behaviour

Description

Meaning of Organisational Behaviour, Nature of Organisational Behaviour, Disciplines contributing to Organisational Behaviour, Challenges and opportunities for OB, Diversity in organisations, Biographical

characteristics, Diversity management, Organisational Behaviour models, Green Organisational Behaviour (GOB), Sustainability and workplace behaviour, Environmental psychology in the workplace, Pro-environmental behaviour and psychological safety at work.

U2: Individual Behaviour

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Professional Ethics

U2-T1. Individual Behaviour

Description

Individual Behaviour - Factors Influencing Individual Behaviour, Personality – meaning, Type A and Type B personality, MBTI, Big Five Personality Model, Locus of Control, Core Self-Evaluation, Machiavellianism, Narcissism, Values and attitudes – importance of values, Terminal and Instrumental values, Whistle-blowing as an ethical issue in organisational behaviour, Values across cultures – Hofstede and GLOBE frameworks, Components of attitudes, Job-related attitudes, Job involvement, Job satisfaction – causes and effects Emotions and moods – emotional labour, Emotional intelligence, OB applications of emotions and moods, Stress management – work-related stress, Stress and burnout, Management of stress, Technostress and AI-driven work stress Motivation, theories of motivation - Need Hierarchy Theory, Theory X and Theory Y, Herzberg's Two-Factor Theory, McClelland's Theory of Needs.

U3: Learning, Perception and Individual Decision-Making

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U3-T1. Learning, Perception and Individual Decision-Making

Description

Learning – definition and importance, Theories of learning - Stimulus-Response Theory, Cognitive Theory, Social Learning Theory, Principles of learning, Shaping as a managerial tool, Learning for green behaviour Perception – factors influencing perception, Attribution theory, Common shortcuts in judging people, Link between perception and individual decision-making. Decision-making in organisations, Ethics in decision-making, Artificial intelligence in managerial decision-making, and Data-driven decision-making.

U4: Foundations in Group Behaviour and Team

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U4-T1. Group Behaviour and Team Dynamics

Description

Defining and classifying groups, Tuckman's model of group development, Factors influencing group behaviour, Group properties – roles, norms, status, size, cohesiveness, Group decision- making – groupthink, group shift, Techniques in group decision-making, Transactional Analysis, Johari Window, Types of teams - green teams, virtual teams, cross-functional sustainability teams. Creating effective teams - Teams and collaborations - Technology-enabled collaboration.

U5: Power, Conflict and Negotiation – Dynamics of Organisational Behaviour

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics, Sustainability

U5-T1. Dynamics of Organisational Behaviour - Power, Conflict and Negotiation

Description

Leadership - shared leadership, transformational leadership, authentic leadership, Ethical and responsible leadership, Leadership for sustainability Power – meaning and sources, Power and politics in organisations, Conflict – process, sources and outcomes, Conflict management, Negotiation process, Negotiation strategies, Global implications of negotiation Organisational culture – definition and functions, Creating and sustaining culture, Organisational culture and climate, Creating a culture for sustainability and innovation, Green organisational culture, Spirituality and organisational culture. Organisational change – meaning, forces for change, Resistance to change – overcoming resistance to change, Approaches to managing organisational change, Behavioural change for sustainability.

Essential Reading

1. Robbins, S. P., & Judge, T. A. (2022). Organizational Behavior (19th ed.). Pearson Education.
1. Luthans, F., Doh, J. P., & Luthans, B. C. (2021). Organizational Behavior: An Evidence-Based Approach (14th ed.). Information Age Publishing.
1. McShane, S. L., & Von Glinow, M. A. (2021). Organizational Behavior: Emerging Knowledge, Global Reality (9th ed.). McGraw-Hill Education.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

FINANCIAL STRATEGY AND DECISION MAKING

Course Code	COM402A-7
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understanding the foundational concepts and environment of financial strategy.

CO2: Ability to analyze investment alternatives, evaluate capital budgeting decisions, and design appropriate financing strategies.

CO3: Understanding corporate restructuring mechanisms, financial distress indicators, and valuation approaches.

CO4: Ability to analyze cost behavior under risk and apply strategic risk management tools.

CO5: Ability to understand contemporary strategic financial practices and global developments.

Sustainability Development Goals (SDG)

Affordable and clean energy, Consumption and production, Decent work and economic growth, Gender equality, Industry, innovation and infrastructure, No poverty, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities, Sustainable cities, Zero hunger

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Interlinkage of Corporate Strategy and Finance

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. U1-T1. Introduction to Financial Strategy Description Concept of financial strategy, Strategic financial management vs traditional financial management, Goals of financial strategy: wealth maximisation and value creation, Interlinkage between financial objectives and corporate strategy. Relationship between corporate strategy and financial strategy, Strategic financial planning process, Environmental analysis for financial strategy formulation, Corporate Strategy, Diversification and value creation, Business Level Strategies, Testing a Strategy, Innovative Strategies and Business Models, Evaluating a Strategy for its value Creation Potential. Balancing stakeholder expectations against shareholder wealth maximisation.

U2: Capital Allocation and Strategic Financing Decisions

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. U2-T1: Capital Allocation Linkage between strategy and capital budgeting, Principles of Capital Allocation, Improving Capital Productivity, Strategic Planning and Financial Analysis, Investment in capabilities and R&D, Investment Timing Strategy. Advanced Capital Budgeting- Incorporating inflation and capital rationing into strategic investment appraisals (Net Present Value and Internal Rate of Return methodologies).

Description

, and hybrid securities, Risk management using derivatives – forwards, futures, options, swaps, Value at Risk (VaR) and risk-adjusted performance measure,

U2-T2. U2-T2: Strategic Financing Decisions Deep dive into strategic sourcing - Ordinary shares, rights issues, debt instruments, hybrid financing (convertible debt, warrants), and specialised funding (Venture Capital, Private Equity). Capital Structure and Value, Signaling Theory, Tools for Developing Effective Capital Structure, Dividend Policy and Firm Value, Dividend Policy formulation, Rationale and Objectives of Share Buy Back, and Share Buy Back and Valuation, International Sourcing - Sourcing international long-term finance (Eurobonds, ADRs, GDRs, and green finance initiatives).

U3: Corporate Actions, Valuations, and M&A

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. U3-T1. Corporate Actions, Valuations, and M&A Entity Valuation Methods: Practical calculation of enterprise and equity value using Asset-based approaches, Income-based approaches (Free Cash Flow to Firm/Equity models), and Market-based relative valuation metrics (Price-to-Earnings, EV/EBITDA). Mergers, Acquisitions, and Divestments: Strategic motives behind domestic and cross-border M&As. Pricing acquisition targets and computing post-merger share swap exchange ratios. Takeover Dynamics: Understanding regulatory takeover panels, structuring friendly acquisitions, implementing defensive maneuvers against hostile takeovers (poison pills, white knights), and integrating cross-border operations. Demergers and Corporate Splits: Financial evaluation of spin-offs, sell-offs, and equity carve-outs.

U4: Risk Management & Financial Distress

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. U4-T1. Risk Management & Financial Distress Foreign Exchange and Interest Rate Risk: Identifying transactional, translational, and economic currency exposures. Hedging and Risk Mitigation: Basic applications of internal hedging strategies (netting, leading, lagging) and financial derivatives

(forwards, money market hedges, futures, swaps, options). Financial Distress & Turnaround Management: Identifying signs of industrial sickness, calculating bankruptcy probabilities (Altman's Z-score), and executing corporate restructuring schemes for distressed entities.

U5: Emerging Trends in Financial Strategy

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. U5-T1. Emerging Trends in Financial Strategy Description Financial strategies for startups and digital businesses, Including Sustainable and ESG-based financial strategies, Fintech and strategic financial decision-making, Behavioral finance and strategic decision-making, and Global financial strategy and cross-border decision-making.

Essential Reading

ADVANCED COST MANAGEMENT

Course Code	COM403A-7
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Analyze strategic cost management concepts and evaluate cost structures for competitive advantage.

CO2: Apply advanced costing techniques for strategic decision-making and pricing.

CO3: Design and evaluate strategic budgeting and cost control systems.

CO4: Assess organizational performance using responsibility accounting and advanced performance measures

CO5: Critically evaluate contemporary cost management practices for long-term value creation.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking

Course Content

U1: Strategic Cost Management Foundations

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, None

Cross Cutting Issues:

Professional Ethics

U1-T1. Evolution of cost accounting to strategic cost management, Role of cost information in strategy formulation, Value chain analysis, Structural and executional cost drivers, Strategic positioning: cost leadership and differentiation, Cost management across the product life cycle, Strategic cost management and sustainable competitive advantage.

Description

U2: Advanced Costing Techniques for Strategic Decision Making

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Target costing and value engineering, Kaizen costing, Throughput accounting, Relevant costing for strategic decisions, Pricing under competition and capacity constraints, Product mix, make-or-buy, shutdown, and replacement decisions, Strategic profitability analysis.

Description

U3: Strategic Budgeting and Cost Control Systems

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Limitations of traditional budgeting, Rolling budgets and forecasts, Beyond budgeting concepts, Activity-based budgeting and activity-based management, Cost control versus cost reduction, Behavioral aspects of budgeting, Alignment of budgeting systems with organizational strategy.

Description

U4: Performance Measurement and Responsibility Accounting

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Responsibility accounting and decentralization, Cost centers, profit centers, and investment centers, Transfer pricing methods, Performance measures: Return on Investment (ROI), Residual Income (RI), Economic Value Added (EVA), Balanced Scorecard, Linking performance measurement systems with strategic objectives.

Description

U5: Contemporary Issues in Advanced Costing

Teaching Hours: (12)

Development Needs:

Global, Local, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Strategic profitability analysis, Customer and product profitability, Lean accounting, Sustainability and environmental costing, Cost management in service and digital organizations, Emerging trends in cost management, Case-based analysis in Indian and global business contexts.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ADVANCED AUDITING & ASSURANCE

Course Code	COM401A-7
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Understand and analyse audit engagement terms, quality control requirements, documentation standards, fraud responsibilities, and advanced audit planning procedures.

CO2: Apply and evaluate audit risk assessment, materiality determination, analytical review techniques and sampling methodologies in audit engagements.

CO3: Analyse and perform audit evidence evaluation, substantive testing, external confirmations, accounting estimates assessment, and complex audit area procedures.

CO4: Evaluate digital audit environments, IT controls, data analytics tools, and technology-enabled assurance techniques including AI-driven audit procedures.

CO5: Perform sector-specific audits, assess internal controls, execute assurance engagements, and apply methodologies for group audits and specialized audit assignments.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Quality control, Technological literacy

Course Content

U1: Audit Engagement, Quality Control and Planning

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Audit objectives, conduct of audit in accordance with standards, quality control requirements for audit firms, terms of audit engagement, engagement letters for new and recurring audits, acceptance and continuance procedures, responsibilities relating to fraud during audit, communication with those charged with governance, documentation requirements SA 230 (Documentation), establishing overall audit strategy, detailed audit planning, understanding of the entity and

Description

its internal controls, assessing risks at financial-statement and assertion levels, planning audit responses SA 300 (Audit Planning), determining materiality and performance materiality, directing and supervising audit teams.

U2: Audit Risk, Materiality, Analytical Procedures and Sampling

Teaching Hours: (11)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Audit risk identification and assessment, inherent risk factors, control risk assessment, detection risk and responses, determining overall materiality, applying performance materiality, analytical procedures at planning, substantive and final review stages, data-driven analytical review, indicators of fraud and misstatement, sampling methods, statistical sampling, non-statistical sampling SA 530 (Audit Sampling), evaluating sample results, projecting misstatements,

Description

sampling risks and non-sampling risks.

U3: Audit Evidence, Substantive Testing and Complex Audit Areas

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. SA 701 (KAM), SA 700–705 (Audit Reports) SA 500 (Audit Evidence) Requirements for obtaining sufficient and appropriate audit evidence, testing internal controls SA 315 (Identifying and Assessing the Risks of Material Misstatement), substantive procedures for various assertions, dual-purpose procedures SA 330 (Auditor's Responses to Assessed Risks), external confirmation processes

Description

SA 505 (External Confirmations), evidence for opening balances, evaluating accounting estimates, fair-value evidence, impairment testing, revenue recognition evidence, inventory attendance procedures, litigation and claims evidence, verification of related-party arrangements, examination of segment disclosures, obtaining written representations, assessing going concern, evaluation of work performed by experts, resolving contradictory or inconsistent audit evidence.

U4: Digital Audit, Technology, Data Analytics and Artificial Intelligence in Assurance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Digital audit environments, automated transaction processing systems SA 330 (Testing automated controls), enterprise resource planning systems, cloud-based accounting systems, maintaining audit trails in digital platforms SA 402 (Using cloud-based service organisations), information technology general controls,

Description

information technology application controls, automated control testing, use of computer-assisted audit techniques, data extraction and validation, artificial intelligence for document analysis, blockchain-enabled

transaction verification, cybersecurity considerations in audit SA 250 (Compliance with laws relating to data protection & cybersecurity).

U5: Specialized Audits, Sectoral Audits and Group Audit

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Environment

U5-T1. Audit of banking institutions, audit of non-banking financial institutions, audit of insurance companies (SA 315, SA 330, SA 505, SA 540), audit of manufacturing entities, audit of service-sector organisations, audit of government and public-sector entities, audit of nonprofit organisations, audit of internal financial controls and internal control over financial reporting (SA 315, SA610, SA265 Identification of internal controls), environmental and sustainability assurance engagements

Description

SAE 3410 – Assurance Engagements on Greenhouse Gas (GHG) Statements, SAE 3000 (Revised) – General Assurance Engagement Standard, SA 720 – Other information (ESG reports), special-purpose audits, agreed-upon procedures engagements, limited review engagements, forensic audit methodologies, fraud investigation procedures, due diligence reviews, audit of consolidated financial statements, group auditor and component auditor responsibilities.

Essential Reading

1. Institute of Chartered Accountants of India (ICAI) – Advanced Auditing and Professional Ethics: Study Material (Latest Edition)
1. International Auditing and Assurance Standards Board (IAASB) – International Standards on Auditing (ISAs) – Complete Handbook
1. ICAI Guidance Notes – Guidance on Audit of Internal Financial Controls, Bank Audits, Group Audits, and Forensic Aspects
1. IFAC (International Federation of Accountants) – Handbook of International Quality Management, Quality Control, Auditing, Review & Other Assurance Standards
1. Padhuka's Students' Handbook on Advanced Auditing and Professional Ethics (Latest Edition)
1. Aruna Jha – Auditing and Assurance (Indian Context, suitable for higher-level understanding)
1. Data Analytics for Auditors – ICAI Digital Learning Hub (Compulsory for tech-enabled modules)

CAPSTONE PROJECT

Course Code	COM481-7
Course Type	Practical
Total Hours	L 8 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VII)

Course learning Outcomes

CO1: Identify and define a domain related research problem that requires data-driven analysis.

CO2: Apply financial, statistical, and computational tools to analyze real-world data.

CO3: Analyze relationships and patterns within financial datasets using appropriate models.

CO4: Evaluate the robustness and reliability of analytical outcomes.

CO5: Design and present a data-driven solution or model that addresses a financial problem

Sustainability Development Goals (SDG)

Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking

Course Content

U1: Project Submission Phases

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U1-T1. Phases of Project: Phase 1: Orientation and Proposal Development Weeks 1–2- Introduction to project-based learning and applied research in finance- Topic selection and scope definition- Proposal writing and approval process Project proposal (Title, objectives, rationale, data source, methodology) Phase 2: Literature Review and Conceptual Framework Weeks 3–4- Review of relevant academic and industry literature- Identification of variables and hypotheses- Building conceptual and analytical framework Literature review report and research design Phase 3: Data Collection and Preparation Weeks 5–6- Data sourcing (Bloomberg, NSE, RBI, Yahoo Finance, Kaggle, etc.)- Data cleaning, preprocessing, and descriptive analysis. Cleaned dataset and exploratory data analysis report Phase 4: Model Building and Analysis Weeks 7–11- Model development using econometrics, machine learning, or financial modeling tools- Application of Python, R, or Excel for analysis- Validation and performance testing

Description

U2: Suggested Project Themes

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. Financial Markets & Investment Analytics: Predicting stock price movements using machine learning | Sentiment analysis of financial news and stock returns | Portfolio optimization using risk-return analytics | Volatility modeling using GARCH or ARIMA models Corporate Finance & Valuation: Startup valuation using financial ratios and cash flow models | Financial distress prediction using logistic regression or random forest | Cost of capital and capital structure optimization Banking & Risk Analytics: Credit risk modeling using historical default data | Loan default prediction using classification algorithms | Value-at-Risk (VaR) and Expected Shortfall computation Macroeconomics & Policy Analysis: Exchange rate forecasting using time series models | Impact of macroeconomic indicators on stock market performance | Inflation forecasting using ARIMA or regression techniques Financial Reporting & ESG Analytics: ESG disclosure sentiment analysis using NLP | Financial statement fraud detection using anomaly detection | Earnings call transcript analysis and firm performance Earnings call transcript analysis and its impact on firm performance

EXAMINATION PATTERN**PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)**

Evaluation and Assessment Structure (100 Marks)

SYLLABUS FOR SEMESTER - VIII

ACCOUNTING ANALYTICS

Course Code	COM401A-8
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Apply foundational concepts of accounting analytics to analyse financial statement structures of real or simulated firms.

CO2: Apply data preprocessing, visualization, and exploratory analysis techniques to financial datasets in order to identify trends, anomalies, and insights.

CO3: Apply diagnostic and predictive models to evaluate financial reports and detect anomalies.

CO4: Analyze valuation models and integrate non-financial metrics for business decision insights.

CO5: Design AI-driven accounting solutions and apply ethical principles in data-driven financial analysis

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Foundations of Accounting Analytics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Evolution of analytics in accounting – from descriptive to AI-driven analytics - how to derive insights from financial statements - Data-driven decision-making in financial reporting, auditing, and valuation - Machine vs Man – automation, augmentation, and ethical implications - Structure of financial data and corporate annual reports - Overview of data formats: numerical, textual, and unstructured - Data ecosystems: internal vs external data sources

U2: Data Analytics in Accounting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Data cleaning and preprocessing for accounting data - Parsing, tagging, and transforming financial statement data - Data visualization and dashboarding for accounting insights - Ratio interlinkages and financial pattern identification - Exploratory Data Analysis (EDA) for financial datasets - Correlation, causation, and outlier detection - Introduction to Python/R tools for accounting analytics

U3: Predictive & Diagnostic Analytics

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Forecasting financial performance and cash flows - Diagnostic analytics – Earnings management detection - Discretionary accrual models - Modified Jones, Kothari models - Discretionary expenditure and revenue recognition models - Fraud prediction models and forensic analytics - Benford's Law and data irregularity testing - Big Data prediction models in accounting - Linking macroeconomic data and firm-level outcomes

U4: Prescriptive and Valuation Analytics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Accounting-based valuation models (Ohlson, Residual Income Models) - Forecasting firm value using accounting metrics - Linking non-financial metrics to financial performance (ESG, employee data, customer metrics) - Scenario and sensitivity analysis - Prescriptive models for decision optimization - Integrating managerial accounting data for strategic insights

U5: AI and Textual Analytics in Accounting

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. AI applications in accounting: audit, financial reporting, and valuation - Procedures for applying ML models - Textual analysis of corporate filings - dictionary-based approaches - Emerging AI technologies for text - transformers, embeddings, LLMs - Data cleaning, parsing, and feature selection in textual data - Prompt Engineering for accounting insights - Word and sentence representation - TF-IDF, Word2Vec, BERT concepts - Ethics and interpretability issues

Essential Reading

·Vernon J. Richardson, Ryan A. Teeter, Katie L. Terrell (2024), Data Analytics for Accounting, McGraw-Hill Higher Education, 2nd Edition.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

BUSINESS POLICY AND STRATEGIC MANAGEMENT

Course Code	COM402-8
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the fundamental concepts, evolution, and scope of business policy and strategic management, and articulate the role of strategic intent and governance in modern organizations.

CO2: Analyze the external and internal business environment using strategic tools such as PESTEL, Porter's Five Forces, value chain, RBV, and SWOT to identify strategic issues and opportunities.

CO3: Formulate appropriate business-level, corporate-level, and global strategies—including innovative and sustainable options—based on organizational capabilities and environmental conditions

CO4: Apply strategic models to implement strategies effectively through appropriate structures, leadership, culture, resource allocation, and ethical practices, addressing challenges in strategic change.

CO5: Evaluate organizational strategies using strategic control systems, KPIs, the Balanced Scorecard, and sustainability/ESG metrics to enhance performance and long-term value creation.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Quality control, Resilience flexibility and agility

Course Content

U1: Introduction to Business Policy and Strategic Management

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U1-T1. Introduction to Business Policy and Strategic Management

Description

Definition, nature and scope of Business Policy; Evolution of Strategic Management as a field; Concepts of Strategy and Strategic Management; Levels of strategy — corporate, business, and functional; Strategic intent

— vision, mission, goals, and objectives; Strategic fit and strategic flexibility; The role of strategic management in sustainability and corporate governance.

U2: Environmental and Internal Analysis

Teaching Hours: (12)

Development Needs:

Global, Local, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U2-T1. Environmental and Internal Analysis

Description

Environmental scanning: PESTEL, Porter's Five Forces Model; Industry life cycle analysis; Competitor analysis and benchmarking; Internal environment: resource-based view (RBV), value chain analysis, core competencies, VRIO framework; SWOT analysis and strategic gap analysis.

U3: Strategy Formulation

Teaching Hours: (14)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U3-T1. Strategy Formulation

Description

Business-level strategies: Cost leadership, differentiation, and focus; Corporate-level strategies: growth, stability, retrenchment, diversification, mergers and acquisitions, strategic alliances, joint ventures, international strategies; Blue Ocean strategy; Global strategic options in the digital era. Integrating core strategic management themes, environmental analysis, competitive advantage, corporate & business-level strategy, and governance with AI-enabled strategic intelligence, scenario planning, decision support systems, & platform strategies.

U4: Strategy Implementation

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U4-T1. Strategy Implementation

Description

Organizational structure and strategy; Resource allocation; Leadership and culture in strategy implementation; Managing strategic change and innovation; Business ethics and corporate social responsibility in strategy execution; Managing resistance and building commitment.

U5: Strategy Evaluation and Control

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Human Values, Professional Ethics

U5-T1. Strategy Evaluation and Control

Description

Nature, importance, and process of strategy evaluation; Strategic control systems; Balanced Scorecard and Key Performance Indicators (KPIs); Measuring strategic effectiveness and organizational performance; Strategic audit; Contemporary issues — digital disruption, sustainability strategy, ESG integration. Embedding green perspectives through sustainability-driven strategy, climate risk assessment, circular & regenerative models, ESG integration, and long-term value creation would help learners engage with strategy as a tool for resilience.

Essential Reading

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

INSOLVENCY LAW AND PRACTICE

Course Code	COM402A-8
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the legal framework and institutional mechanisms under the Insolvency and Bankruptcy Code (IBC), 2016.

CO2: Apply the provisions and procedures related to Corporate Insolvency Resolution Process (CIRP), including filing, claims, moratorium, and role of stakeholders.

CO3: Analyze insolvency cases with reference to liquidation processes, waterfall mechanism, and avoidance transactions.

CO4: Evaluate resolution plans and strategic restructuring alternatives in line with statutory, procedural, and ethical requirements.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Insolvency Framework

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Introduction to Insolvency Framework

Description

Concept of insolvency; concept of bankruptcy; concept of liquidation; need for IBC 2016; problems with previous regime; scope of IBC; objectives of IBC; structure of IBC; key definitions under IBC; institutional framework under IBC – IBBI, adjudicating authorities (NCLT/NCLAT), DRT, appellate mechanisms; role of insolvency professionals; role of information utilities.

U2: Corporate Insolvency Resolution Process (CIRP)

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U2-T1. Corporate Insolvency Resolution Process (CIRP)

Description

Triggering insolvency – default & initiation by financial/operational creditors/corporate debtors; admission of application & moratorium; public announcement & claims verification; appointment, rights & duties of Interim Resolution Professional (IRP) & RP; Committee of Creditors (CoC) – constitution, powers, voting; resolution plans – preparation, submission, evaluation, approval; fast-track CIRP; withdrawal of application under Section 12A.

U3: Liquidation & Individual Insolvency

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U3-T1. Liquidation & Individual Insolvency

Description

Liquidation process & initiation; liquidator's powers, duties & responsibilities; waterfall mechanism under Section 53; avoidance transactions (PUFE) – preferential, undervalued, fraudulent & extortionate; individual & partnership firm insolvency procedures; fresh start process

U4: Emerging Issues, Cross-border Insolvency & Practical Aspects

Teaching Hours: (13)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Emerging Issues, Cross-border Insolvency & Practical Aspects

Description

Cross-border insolvency – Model Law & India's approach; group insolvency; pre-pack insolvency; out-of-court restructuring; role of RBI frameworks (e.g., stressed asset resolution); current issues, reforms, case laws; fraud management, professional ethics of IPs; drafting applications to NCLT – practical exposure.

U5: Case Studies & Practical Training

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. Case Studies & Practical Traininginsolvency.

Description

Case study on CIRP; case study on liquidation; review of successful and failed resolution cases; investor and creditor perspectives; best practices.

Essential Reading

1. Sahoo, M. S. – Law Relating to Insolvency & Bankruptcy Code, 2016
1. Taxmann's – Guide to Insolvency and Bankruptcy Code
1. S. K. Kataria & Sons – Insolvency and Bankruptcy Code

EXAMINATION PATTERN

BEHAVIOURAL FINANCE

Course Code	COM403A-8
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Comprehend the theoretical foundations of behavioural finance.

CO2: Identify and evaluate various behavioural biases and heuristics.

CO3: Analyze how behavioural factors influence market anomalies and investment decisions.

CO4: Apply behavioural principles to personal finance and portfolio management.

CO5: Reflect critically on policy implications and ethical concerns in behavioural interventions

Sustainability Development Goals (SDG)

Decent work and economic growth, No poverty, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning

Course Content

U1: Introduction to Behavioural Finance

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. Evolution and Scope of Behavioural Finance, Contrasting Traditional and Behavioural Models of Finance, Rationality Assumptions in Classical Finance, Efficient Market Hypothesis (EMH) and its Critique. Foundations of Behavioural Decision Theory, Prospect Theory: Reference points, Diminishing sensitivity, Loss aversion. Key contributors: Daniel Kahneman, Amos Tversky, Richard Thaler

U2: Cognitive Biases and Heuristics

Teaching Hours: (15)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Heuristics and Biases in Judgement, Availability, Anchoring, Representativeness, Common Cognitive Biases: Overconfidence, Confirmation Bias, Hindsight Bias, Loss Aversion and Disposition Effect, Status Quo Bias, Endowment Effect, Framing, Mental Accounting and Sunk Cost Fallacy, Implications on Investment, Forecasting, Risk-taking

U3: Emotional and Social Influences in Finance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Role of Emotion in Financial Decisions: Fear, Greed, Regret, Pride, Emotional Trading and Market Volatility, Herding Behaviour and Groupthink, Social Influence and Peer Pressure in Markets, Impact of Media, Rumours, and Social Media, Introduction to Neurofinance: Brain and Decision-Making

U4: Market Anomalies and Behavioural Explanations

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Overview of Market Anomalies: Momentum, Reversals, Value-Growth Anomalies, Calendar Effects (January Effect, Weekend Effect), Speculative Bubbles and Crashes: Behavioural Causes of Market Booms & Busts, Limits to Arbitrage, Role of Noise Traders Case Studies: Tulip Mania, Dot-com Bubble, 2008 Crisis

U5: Applications and Contemporary Issues

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U5-T1. Behavioural Portfolio Theory (BPT) vs. Modern Portfolio Theory, Behavioural Asset Pricing Models, Behavioural Financial Planning and Personal Finance, Investor Profiling and Risk Assessment Tools, Use of Nudges in Finance (Thaler & Sunstein), Behavioural Insights in Retirement, Insurance, Credit Cards, Ethical Concerns and Criticisms of Behavioural Finance, Regulatory and Policy Implications (SEBI/Global insights)

Essential Reading

Chandra, P. (2017). Behavioural Finance – Tata McGraw Hill

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

FEDERAL TAXATION

Course Code	COSF401-8
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Describe the structure, sources, and administration of the U.S. federal tax system, including ethical standards for tax professionals.

CO2: Compute U.S. federal taxable income and tax liability for individuals, integrating inclusions, exclusions, deductions, and credits in standard CPA-style problems.

CO3: Apply federal tax rules to C corporations and pass-through entities, including formation, operations, distributions, and basic compliance considerations.

CO4: Analyze and compute federal tax consequences of property transactions, loss limitations, and basic estate & gift scenarios.

CO5: Use primary U.S. tax authorities and research tools to resolve issues, evaluate tax positions, and understand controversy/penalty provisions.

Sustainability Development Goals (SDG)

Decent work and economic growth, Peace, justice and strong institutions, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Technological literacy

Course Content

U1: U.S. Federal Tax System, Authorities & Ethics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. U.S. Federal Tax System, Authorities & Ethics

Description

Objectives and structure of the U.S. federal tax system; progressive taxation; key terminology.

Primary authorities: Internal Revenue Code, Treasury Regulations, IRS guidance, court decisions; hierarchy of authority. Filing considerations: taxpayers, filing status, dependency rules (overview), due dates, payment & extensions. Overview of IRS administration: audits, notices, assessments, collections, statute of limitations.

Ethical framework: AICPA Statements on Standards for Tax Services, Circular 230 responsibilities, penalties for preparers & taxpayers; professional responsibility link to CPA REG.

Contrast with Indian system at conceptual level only (no computational overlap).

U2: Individual Federal Income Taxation

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Individual Federal Income Taxation

Description

Gross income vs exclusions: compensation, fringe benefits, interest, dividends, rental income, unemployment, Social Security (overview), scholarships; common exclusions. Deductions: for AGI vs from AGI; standard vs itemized; medical, taxes, interest, charity, casualty, misc. Adjustments: retirement contributions basics, student loan interest, HSA, etc. Tax computation: rate schedules, kiddie tax overview, self-employment tax (basic conceptual coverage). Tax credits: child and dependent credits (overview), education credits, foreign tax credit (intro). Introduction to Alternative Minimum Tax (framework only).

U3: C Corporations and Other Business Taxation

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. C Corporations and Other Business Taxation

Description

C corporation formation (Section 351 concept), control requirement, property transfers; basis rules. Operating rules: taxable income, charitable contributions, DRD (dividends received deduction) – conceptual; NOLs overview. Corporate distributions: dividends, E&P concept (high level), stock redemptions – characterization framework. Corporate liquidations (basic consequences to corporation & shareholders). Overview of Accounting periods, methods, and common elections. Exposure to tax issues relevant to US GAAP/IFRS reporting.

U4: Pass-through Entities – Partnerships & S Corporations

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Partnerships: formation, contributions, outside vs inside basis, profit/loss allocations, distributions (current vs liquidating – basic), loss limitation framework (basis/at-risk/passive – conceptual). Limited liability companies (LLCs) and check-the-box rules (overview). S corporations: eligibility, election, shareholder basis, income/loss pass-through, distributions. Comparative analysis of C corps vs pass-throughs for planning purposes (non-duplicative of Indian tax).

U5: Property Transactions, Estate/Gift & Tax Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Property Transactions, Estate/Gift & Tax Research

Description

Capital gains & losses: holding periods, netting, preferential rates (conceptual), limitations. Section 1231, 1245, 1250 concepts (qualitative and selected calculations). Non-recognition provisions (like-kind exchanges etc. – conceptual overview). Loss limitations recap for individuals & entities (integrated view). Estate & gift tax: basic concepts (taxable transfers, unified credit, annual exclusion). Intro to U.S. international tax touchpoints: source rules, overview of double taxation relief (only conceptual for global exposure). Tax research: using Internal Revenue Code, regulations, IRS publications, commercial databases; documenting a tax file memo. Tax controversy: penalties, interest, dispute resolution options (appeals, courts) – link to ethics and governance.

Essential Reading

United States Congress. Internal Revenue Code of 1986, as amended. Selected sections (latest official version via U.S. Code / IRS).

Internal Revenue Service. Primary IRS Publications (latest editions): Pub. 17 (Your Federal Income Tax), Pub. 334 (Tax Guide for Small Business), Pub. 463, Pub. 535, Pub. 541, Pub. 542, etc.

Internal Revenue Service. Regulations Governing Practice before the Internal Revenue Service (Circular 230). Latest revision.

Internal Revenue Service. Official IRS Website Materials (irs.gov). Latest forms, instructions, FAQs, and guidance.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

INTERNSHIP

Course Code	COM481-8
Course Type	Practical
Total Hours	L 30 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Apply theoretical knowledge to real-world business environments

CO2: Demonstrate professional skills and workplace competencies

CO3: Critically analyse business operations and organizational practices

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to the Organization

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. 1.1 Profile of the organization (including evolution, awards and recognition)1.2 Vision, Mission, Goals

U2: Organizational Design and Functional Areas

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. 2.1 Organization design & structure2.2 Departments and Divisions2.3 Product/s and Service/s2.4 Business Model

Description

- Hierarchical/flat/matrix structure (include organogram if possible) • Overview of key functional departments
- Major offerings, features, target market • Revenue generation, customer acquisition, delivery mechanism

U3: Key Performance Areas (KPA's), Organizational Control and Strategies

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. 3.1 KPA's of the various departments 3.2 Accounting Standards & Reporting followed 3.3 HR Practices 3.4 Financial Highlights 3.5 Modes of Marketing 3.6 Integration of AI 3.7 Tax Filing & Auditing 3.8 SWOC Analysis of the Organization (Based on the intern's observation and analysis supported by facts)

Description

KPA's across various departments (Sales, HR, Finance, etc.) • IND AS, internal reporting systems, compliance frameworks • Recruitment, appraisal, training, and retention strategies • Key financials (Turnover, Profit, Investments – if available) • Digital, traditional, B2B/B2C approaches, branding • Use of AI, automation tools, ERP systems, CRM tools • Tax practices, statutory audit process, internal audits • Strengths, Weaknesses, Opportunities, Challenges • Factors driving organisational growth and sustainability • Intern's strategic or operational recommendations

U4: Course Learning Outcomes and Conclusion

Teaching Hours: (60)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics, Sustainability

U4-T1. 4.1 Applications of Theoretical Knowledge to Real-World Business Environments 4.1.1 Relevance of Academic Theories (Accounting, Finance, HR, etc.) 4.1.2 Gaps or Irrelevance Identified 4.2 Professional Skills and Workplace Competencies 4.2.1 New Skills Acquired During Internship 4.2.2 Existing Skills Nurtured or Strengthened 4.2.3 Skills/Competencies Identified for Further Development 4.2.4 Input from Key Personnel

Description

4.3 Critical Analysis of Business Operations and Practices

4.3.1 Good Business Practices Observed

4.3.2 Practices Worth Replicating at CHRIST University

Conclusion

■ Summary of internship experience

■ Key takeaways and reflections

■ Impact of internship on career readiness

EXAMINATION PATTERN

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

QUANTITATIVE RESEARCH METHODS

Course Code	COM501R-8
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, necessity, and defining characteristics of quantitative research, and distinguish it from qualitative research

CO2: Design a basic survey framework by identifying suitable sampling methods, data collection modes, and approaches to minimize non-response bias.

CO3: Develop valid and reliable survey instruments through appropriate question design, scaling, and pretesting techniques.

CO4: Evaluate experimental designs and identify strategies to ensure validity, control variables, and derive causal inferences in business research.

CO5: Perform and interpret statistical analyses ethically, integrating quantitative findings into evidence-based business decision-making.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Motivation and self-awareness, Technological literacy

Course Content

U1: Foundations of Quantitative Research

Teaching Hours: (6)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Quantitative Research -. Nature, Necessity, and Importance - Relevance and Urgency in the Data-Driven Era (ADHOGS & DVUCA) - Defining Characteristics: Scope, Objectivity, Goal, Data, and Method - Quantitative vs. Qualitative Research - Strengths and Shortcomings

U2: Introduction to Survey Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Survey Research – Meaning and Purpose – When and Why Surveys Are Used – Types of Surveys (Cross-Sectional, Longitudinal) – Sampling in Survey Research (Sampling Frame, Probability & Non-probability Methods) – Non-response and Bias Reduction – Modes of Survey Data Collection (Mail, Telephone, Online, Face-to-Face) – Implementation and Ethical Considerations

U3: Advanced Considerations in Survey Research

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Designing Good Measures – Question Design and Wording – Scales and Response Formats – Reliability and Validity of Instruments – Pre-testing and Pilot Studies – Survey Implementation and Interviewer Training – Data Preparation (Coding, Cleaning, Data Entry) – Ethical and Error Perspectives (Total Survey Error, Bias Control)

U4: Experimental Research

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Experimental Research – Concept and Purpose – Independent and Dependent Variables – Randomization and Control – True, Quasi-, and Field Experiments – Internal and External Validity – Threats to Validity and Control Techniques – Practical Applications in Commerce and Management Contexts – Ethical Issues in Experimental Studies

U5: Data Analysis in Quantitative Research

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Data Preparation – Handling Missing Data and Outliers – Testing Assumptions (Normality, Linearity, Multicollinearity) – Descriptive and Inferential Statistics (Mean, SD, t-test, ANOVA, Correlation, Regression) – Multivariate Analysis (Factor Analysis, CB-SEM, PLS-SEM) – Hypothesis Testing and Error Types (I-IV) –

Effect Size and Statistical Power – Interpreting and Reporting Results – Ensuring Reproducibility and Ethical Reporting

Essential Reading

1. Fowler, F. J. (2025). Survey research methods (Reprint 5th ed.). SAGE Publications.
1. Campbell, D. T., & Stanley, J. C. (2025). Experimental and quasi-experimental designs for research. Ravenio Books.
1. Field, A. (2025). Discovering statistics using IBM SPSS statistics (5th ed.). SAGE Publications.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

QUALITATIVE RESEARCH METHODS

Course Code	COM502R-8
Course Type	Theory
Total Hours	L 4 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Explain the philosophical foundations, design process, and ethical considerations of qualitative research.

CO2: Distinguish among the five qualitative research approaches and identify suitable designs for business contexts.

CO3: Develop qualitative research problems, purpose statements, and research questions aligned with study objectives.

CO4: Apply appropriate methods for qualitative data collection, coding, and thematic analysis using software tools.

CO5: Write and evaluate qualitative research reports incorporating reflexivity, validation, and ethical standards.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Technological literacy

Course Content

U1: Designing a Qualitative Study

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Qualitative Research – Meaning - Characteristics and purpose of qualitative research - When to use qualitative research - Ethical considerations and preliminary design issues - Steps in the qualitative research process - Components of a qualitative research proposal.

U2: Five Qualitative Approaches to Inquiry

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Overview of five approaches – Narrative, Phenomenological, Grounded Theory, Ethnographic, and Case Study – Definition, features, and procedures of each approach – Application in business and management research – Challenges in each approach – Comparison of approaches.

U3: Introducing and Focusing the Study

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Formulating the research problem – Developing purpose and research questions – The central question and sub-questions – Aligning research questions with the chosen qualitative approach – Writing qualitative purpose statements and research questions.

U4: Data Collection, Analysis and Representation

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Data Collection: Meaning and process of data collection in qualitative studies – The data collection circle – Selection of sites and participants – Purposeful sampling strategy – Forms of data: interviews, observations, documents, audiovisual materials – Field issues and ethical considerations.

U4-T2. Data Analysis and Representation: Organising, coding, and categorising qualitative data – Data analysis spiral – Thematic analysis – Representing and visualising data – Introduction to qualitative software (NVivo, Atlas.ti, MAXQDA).

U5: Writing, Validation and Evaluation in Qualitative Research

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Writing qualitative research reports – Structure and style – Reflexivity and representation – Validation and reliability in qualitative research – Strategies for trustworthiness – Evaluation standards for qualitative studies.

Essential Reading

Creswell, J. W., & Poth, C. N. (2025). Qualitative Inquiry and Research Design: Choosing Among Five Approaches (4th ed.). SAGE Publications.

EXAMINATION PATTERN

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

RESEARCH DISSERTATION

Course Code	COM581R-8
Course Type	Practical
Total Hours	L 360 / T 0
Category	Core Courses

Bachelor of Commerce (Accountancy and Taxation Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Applied Finance and Analytics Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Finance and Investment Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Honours/Honours with Research) (SEMESTER - VIII)

Bachelor of Commerce (Strategic Finance Honours/Honours with Research) (SEMESTER - VIII)

Course learning Outcomes

CO1: Demonstrate the ability to plan and execute a research project within defined time constraints and available resources.

CO2: Perform a substantial review of literature relevant to the chosen research topic to justify the significance of the study.

CO3: Demonstrate mastery of quantitative or qualitative research skills applicable to commerce and management contexts.

CO4: Demonstrate a clear knowledge and understanding of ethical standards in data collection, reporting, and academic integrity

CO5: Demonstrate effective communication of complex business concepts through both a written document and an oral presentation

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Dissertation Proposal

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Before beginning the full dissertation, candidates must submit a proposal that proves the research is novel, significant, and feasible.

Description

Content and Structure• Specific Aims: Concisely state research goals, hypotheses (if applicable), and the expected impact on management practices or commerce theory.

Research Strategy:• Significance: Explain the critical barrier in commerce/management the project addresses and how it improves existing professional knowledge.

• Innovation: Describe any novel theoretical frameworks, methodologies, or applications that challenge current

business paradigms.

- Approach: Detail the methodology (e.g., quantitative, qualitative, or mixed methods) and data analysis plans.
- Timeline and Milestones (1 page): A outline of benchmarks, from data collection to the final defense.
- Preliminary Studies: Discuss any initial data or pilot studies conducted to establish the feasibility of the project.

U2: Dissertation Structure

Teaching Hours: (295)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Dissertation is divided into three parts - Preliminary Pages, Main Body and End Matter

Description

PRELIMINARY PAGES

1. Title Page - Title of the Dissertation, Student Name & Register Number, Programme: BCom (Honours) with Research, Department / Institution Name, Supervisor Name & Designation, Academic Year
2. Declaration by the Student - Certificate from the Supervisor, Acknowledgements (Optional but recommended)
3. Abstract - 200–300 words, Background, Objectives, Methodology, Key findings, Keywords (4–6)
4. Table of Contents
5. List of Tables
6. List of Figures (if applicable)
7. List of Abbreviations (if applicable)

B. MAIN BODY OF THE DISSERTATION

Chapter I – Introduction - Background of the Study, Conceptual / Theoretical Context, Statement of the Problem, Need and Significance of the Study, Objectives of the Study, Research Questions, Scope of the Study, Limitations of the Study, Chapterisation Scheme

Chapter II – Review of Literature and Hypotheses Development - Introduction, Review of International Studies, Review of National Studies, Research Gap Identification, Conceptual Framework / Research Model (if applicable), Hypothesis Development
Chapter - 3 Research Methodology

Chapter - 4 Data Analysis and Interpretation

Chapter V – Findings, Suggestions and Conclusion

END MATTER

References and Appendices

U3: Other Guidelines

Teaching Hours: (5)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Font Style: Times New Roman
Font Size (Preliminary Pages): 14 point (e.g., Title Page, Abstract, Table of Contents).
Font Size (Main Body): 12 point.
Line Spacing: 1.5 spacing throughout (No double spacing).
Margins: One inch on all sides.
APA 7th edition guidelines to be followed.
Final Viva Voce Examination. Students are encouraged to present their work in the conferences. They are also encouraged to convert their research into Scopus, WoS, or ABDC publications.
