DEPARTMENT VISION AND MISSION

a. Vision Statement:

To be a centre of excellence in the realm of Commerce and Management, developing and nurturing global competencies in students through quality education, research and continuous innovation.

b. Mission Statement:

M1: To nurture commerce professionals who possess a high level of knowledge and competence to effectively contribute to society with commitment and integrity.

INTRODUCTION TO BACHELOR OF SCIENCE (ACCOUNTANCY AND ANALYTICS)

PROGRAMME OUTCOME

Reference No	Statement	Attribute
P01	Apply interdisciplinary commerce knowledge, including finance, accounting, management, and technology, to develop sustainable and innovative business strategies that address cross-cutting issues and global challenges.	Academic Excellence: Domain Expertise,Knowledge Application Professional Excellence: Employability,Entrepreneurship,Global Perspective
P02	Demonstrate leadership, communication, and teamwork skills to collaborate in diverse business environments while designing innovative, socially responsible business models that integrate sustainability principles, technological advancements, and ethical frameworks to address societal and environmental challenges.	Leadership: Consultative Decision Making,Dynamism,Self - Confidence Personality: Positive Attitude Professional Excellence: Creative Thinking,Critical and Solution-Oriented Thinking,Innovativeness
P03	Utilize appropriate research methodologies and analytical tools to critically evaluate business challenges and provide evidence-based, technology-driven solutions.	Academic Excellence: Self-Learning and Research Skills Leadership: Consultative Decision Making Professional Excellence: Analytical Skills,Critical and Solution-Oriented Thinking,Practical Skills
P04	Create strategies to integrate new knowledge, skills, and technologies, adapting to the dynamic nature of business and	Academic Excellence: Domain Expertise,Knowledge Application

	supporting continuous professional growth.	
PS01	Demonstrates Accounting skill and knowledge to analyze the data, design appropriate models, apply ethical principles and propose recommendations to the stakeholders.	Academic Excellence: Problem Solving Skills Leadership: Dynamism Personality: Self-Awareness Professional Excellence: Analytical Skills
PS02	Apply analytical tools and statistical models to solve real time cases across diverse industries and also apply research-based knowledge to solve advanced problems and provide valid solutions.	Academic Excellence: Self-Learning and Research Skills Leadership: Consultative Decision Making Professional Excellence: Analytical Skills

COURSE STRUCTURE

Bachelor of Science (Accountancy and Analytics)

SEMESTER - I

Course Code	Course Name	Course Type	Category	Total Marks	L-Hr/Week	T-Hr/Week	P-Hr/Week	Credits
ENG283-1	ENGLISH FOR PROFESSIONAL COMMUNICATION	Theory	Ability Enhancement Compulsory Courses	50.00	2	0		2
BBA133	STOCK MARKET PRICE ACTIONS	Theory	Add On Courses for Extra Credit	50.00	2	1		3
COM171A-1	PROGRAMMING USING PYTHON (BASIC)	Theory	Add On Courses for Extra Credit		15	0		1
COM172A-1	DATA VISUALIZATION USING POWER BI	Theory	Add On Courses for Extra Credit		4	0		1
COM173A-1	AI TOOLS FOR COMMERCE AND BUSINESS (BASICS)	Theory	Add On Courses for Extra Credit		4	0		1
COM174A-1	SELF-DISCOVERY DESIGN THINKING AND INTERACTION SKILLS	Theory	Add On Courses for Extra Credit		4	0		1
COM181-1	ESSENTIAL SKILLS - I	Theory	Add On Courses for Extra Credit	50.00	1	0		1
CPCG161A-1	PROFESSIONAL EXCELLENCE AND	Practical	Add On Courses for Extra Credit			0	2	1

	CAREER FOUNDATIONS							
COM001-1	BASICS OF ACCOUNTANCY AND ECONOMICS	Theory	Bridge Courses	50.00	2	2		0

SYLLABUS FOR

COURSE NAME: PYTHON PROGRAMMING FOR ANALYTICS

COURSE CODE: COAA101-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - II)

Course learning Outcomes

CO1: Apply basic Python programming concepts to write and execute simple scripts for data manipulation and automation.

CO2: Apply Pandas library techniques to load, clean, transform, and analyze datasets using DataFrame operations, aggregation, and data integration methods.

CO3: Create effective static and interactive data visualizations using Matplotlib, Seaborn, and Plotly to communicate analytical insights.

CO4: Analyze datasets using descriptive and inferential statistical techniques and build regression models to interpret results and evaluate model performance.

CO5: Apply time series analysis and basic machine learning techniques to analyze data, build simple models, and generate forecasts.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Python Programming

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction to Python Programming

Description

Introduction to Python Basics: Installation and setup - Understanding the Python interpreter and IDEs - Writing and executing simple scripts - Core Programming Concepts: Variables and data types - Operators and expressions - Control flow statements (if, for, while) - Functions and modules. Data Structures: Lists, tuples, sets, and dictionaries - String manipulation - List comprehensions

Practical Exercises: Writing scripts to automate basic tasks, implementing control structures in data processing, Manipulating and storing data using appropriate data structures

U2: Data Handling and Manipulation with Pandas

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U2-T1. Data Handling and Manipulation with Pandas

Description

Introduction to Pandas: Installing and importing Pandas - Understanding Series and DataFrame –

objects. Data Operations: Reading and writing data from various sources (CSV and Excel). Data selection, filtering, and sorting - Handling missing data - Merging and concatenating DataFrames. Data Transformation: Applying functions to data - Grouping and aggregating data - Pivot tables and cross-tabulations

Practical Exercises: Loading datasets and performing exploratory data analysis - Cleaning and transforming real-world datasets

U3: Data Visualization

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U3-T1. Data Visualization

Description

Matplotlib Library: Creating basic plots (line, bar, scatter), Customizing plots (titles, labels, legends), Subplots and figure aesthetics. Seaborn Library: Statistical plots (boxplot, violin plot, pairplot), Customizing themes and color palettes. Plotly Library: Interactive visualizations, Geographical plots

Practical Exercises: Visualizing distributions and relationships in datasets, Creating dashboards with interactive plots, Designing visualizations for effective communication of insights

U4: Statistical Analysis and Modeling

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U4-T1. Statistical Analysis and Modeling Descriptive Statistics: Measures of central tendency and dispersion, Data distribution analysis. Inferential Statistics: Hypothesis testing, Confidence intervals, ANOVA and chi-square tests. Regression Analysis: Linear regression, Multiple regression, Model evaluation metrics Practical Exercises: Performing statistical tests on sample data, Building and interpreting regression models, Evaluating model performance and assumptions

Description

U5: Advanced Topics in Data Analytics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U5-T1. Advanced Topics in Data Analytics Time Series Analysis: Working with time-indexed data, Decomposition and forecasting. Machine Learning Basics: Introduction to supervised and unsupervised learning – Decision Tree, Random Forest, Clustering. Practical Exercises: Analyzing and forecasting time series data, Building simple machine learning models.

Description

Essential Reading

☐ McKinney, W. (2022). Python for Data Analysis: Data Wrangling with Pandas, NumPy, and Jupyter (3rd ed.). O'Reilly Media.

EXAMINATION PATTERN

COURSE NAME: PYTHON PROGRAMMING FOR ANALYTICS

COURSE CODE: COAA101-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA II : 50 Marks

CIA Overall : 50 Marks

COURSE NAME: SPREADSHEET FOR BUSINESS

COURSE CODE: COAA161-1

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Explain the basic terminologies and functionalities of Excel.

CO2: Apply Excel's data analysis tools, including sorting, filtering, and pivot tables, to analyze financial data.

CO3: Apply conditional formatting techniques to interpret and highlight patterns in financial data.

CO4: Analyze and evaluate long-term investment proposals using Excel-based techniques to select the most suitable alternative for an organization.

CO5: Create appropriate charts and graphs in Excel to visually present financial data and insights.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Excel

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U1-T1. Understanding the Excel interface - Entering and formatting data - Basic formulas and functions - Structure of an excel function, functions such as SUM (), MIN (), MAX (), AVERAGE (), COUNT (), AUTOSUM, AUTOFILL. Sort - Filter - Conditional Formatting to Find Duplicates, Removing Duplicates.

U2: Excel Data Validation

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U2-T1. Understanding the Need for Data Validation, Creating a Validation List, Adding a Custom Validation Error, Dynamic Formulas by Using Validation Techniques - Understanding Excel PivotTables, Creating an Excel PivotTable, Modifying Excel Pivot Table Calculations, Grouping Pivot. Table Data, Formatting PivotTable Data, Drilling Down into PivotTable Data, Creating Pivot Charts, Filtering PivotTable Data, Filtering with the Slicer Tool.

U3: Conditional Functions and Working with Large Excel Data Sets

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Conditional Functions

Description

Working with Excel Name Ranges, Using Excel's Using Excel's IF () Function, Nesting Functions, Using Excel's COUNTIF () Function, Using Excel's SUMIF () Function, Using Excel's IFERROR () Function. The COUNTIFS function and The SUMIFS function based on multiple criteria.

U3-T2. Working with Large Sets of Excel Data

Description

Using the Freeze Panes Tool, Grouping Data(Columns and/or Rows), Consolidating Data from Multiple Worksheets.

U4: Lookup, Text Based Function and financial function

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Excel's Lookup Functions

Description

Using Excel's VLOOKUP() Function, Using Excel's HLOOKUP() Function, Using Excel's INDEX() and MATCH() Functions.

U4-T2. Excel's Text Based Functions

Description

Using Excel's functions such as LEFT(), RIGHT()and MID(), LEN(), SEARCH(), CONCATENATE().

Time value of money - present value of money - capital budgeting, Net present value, Internal rate of return. Introduction to macros. Creation of simple macro functions.

U5: Data Analysis and Visualisation

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Sustainability

U5-T1. Data Analysis and Visualisation

Description

Descriptive statistics (mean, median, mode, standard deviation), Correlation and regression analysis and Data distribution analysis using Excel. Pivot tables Creating basic charts (bar charts, line charts, pie charts), Formatting and customizing charts, basic knowledge about Advanced Charting Techniques - Combination charts, Sparklines and Dynamic charts using data validation

EXAMINATION PATTERN

COURSE NAME: SPREADSHEET FOR BUSINESS

COURSE CODE: COAA161-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I | Quizzes, objective type tests, written assignments, discussion forums etc | 30% | CIA II |
Demonstration & Presentation, Quizzes, Assignments, Discussion etc | 45% | CIA III |
Comprehensive Practical Test, Viva-Voce, Report Book Submission | 20% | Attendance | | 5% |

COURSE NAME: DATA VISUALIZATION AND DASHBOARDING

COURSE CODE: COAA161-2

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - II)

Course learning Outcomes

CO1: CO1: Recall the fundamental concepts of data visualisation and its importance in data analysis.

CO2: CO2: Create basic visualisations such as bar charts, line charts, scatter plots, and maps.

CO3: CO3: Customise visualisations to communicate insights effectively, including adding labels, annotations, and filters.

CO4: CO4: Create interactive dashboards using filters, parameters, and actions to provide dynamic and interactive views of data.

CO5: CO5: Apply data visualisation skills to real-world scenarios and communicate data insights effectively to stakeholders.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Unit 1: Introduction to Data visualisation

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Tableau and its interface - Getting started with Tableau Desktop - Connecting to data sources - Dimensions and Measures - Basic visualisations: bar charts, line charts, scatter plots - Connecting to the tutorial dataset - Creating the first charts

Description

U2: Unit 2: Common Charts

Teaching Hours: (8)

Development Needs:

National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Common charts: Creating common visualisations (bar charts, line charts etc.) - Filtering and sorting data- Context filters - Top and bottom filters - Interactive filters - Adding Titles, Labels, and descriptions - Publish your work to Tableau Cloud Home, Assignment: Create a standalone data visualisation

Description

U3: Unit 3: Advanced charts and Interactions

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Tree maps - Heat maps - Bullet charts - Waterfall charts - Dual-axis charts -Highlight tables. Interactions: Data viz best practices (lecture) - Interactivity with text and visual tooltips - Interactivity with actions (filter, highlight, URL) - Assembling dashboards from multiple charts.

Description

U4: Unit 4: Transform Data

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Creating simple calculations in Tableau - Using table calculations - Basic calculations: arithmetic - logic - date calculations - Table calculations: running total, percent, difference, rank - Aggregate calculations: average, median, mode

Description

U5: Unit 5: Mapping and Dashboards

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Introduction to mapping in Tableau – Geocoding - Creating maps with different types of data: points, lines, shapes - Advanced mapping: heat maps, density maps, custom geocoding - Creating and formatting dashboards - Interactivity between sheets and dashboards - Advanced dashboard features: actions, filters, parameters

Description

Essential Reading

- Ben Jones, Communicating Data with Tableau: Designing, Developing, and Delivering • Data Visualisations. O'Reilly Publications.
- Chandraish Sinha, Tableau 10 for Beginners: Step by Step guide to developing visualisations in Tableau 10. Ohio Computer Academy Publications.

EXAMINATION PATTERN

COURSE NAME: DATA VISUALIZATION AND DASHBOARDING

COURSE CODE: COAA161-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1- 20% , CIA 2- 20%, CIA3-20%, Final assessment - 40%

COURSE NAME: INTERMEDIATE ACCOUNTING-I

COURSE CODE: COAA201-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Recall accounting principles, conventions and policies and financial statements.

CO2: Understand disclosure requirements, inventory valuation and revenue recognition

CO3: Construct accounting entries for the hire purchase and installment system

CO4: Analyze the profit earned by domestic and foreign branches.

CO5: Explain the usage of different accounting software

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail

Course Content

U1: Fundamental principles of Accounting & disclosure

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Fundamental principles of Accounting & disclosure: Introduction – Meaning and Definition- Accountancy - accounting concepts and Conventions and Principles, GAAP, Structure of Financial Accounting, Review of the Accounting Process & The Balance Sheet and Financial Disclosures (US perspective)

Description

U2: Concept of AS, IAS, IRFS

Teaching Hours: (16)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Concept of AS, IAS, IRFS: Introduction –Concept of AS, IND AS, FASB and IFRS. Similarities and differences between FASB and IFRS. Application of FASB & IFRS. Introduction to FASB Accounting Standard Codification. Convergence process, AS-1 (Concept, Application of the standard Case based), AS-2 (Meaning, Classification, Measurement, Subsequent Measurement, Application of the standard Case based), AS-3 (Meaning, introduction to the statement of cash flows,

Description

Introduction to the concept of discounting, compounding cash flows and annuity cash flows, Application of the standard Case based) (AS-9 (Meaning, Recognition and Application Case based) and its compatibility with IFRS

U3: Hire Purchase and Installment Systems

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Hire Purchase and Installment Systems: Hire Purchase - Meaning - Legal provisions, [including repossession] - Calculation of interest - when rate of interest and cash price is given - when cash price and total amount payable is given when rate of interest and installments amount are given but cash price is not given - Calculation of cash price under annuity method - Journal entries and Ledger accounts in the books of hire-purchaser and hire-vendor.

Description

Installment system- Meaning - Difference between hire purchase and installment system (Concepts only).

U4: Accounting for Domestic and Foreign Branches

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Accounting for Domestic and Foreign Branches: Domestic Branches: Concept of dependent branches; accounting aspects; debtors' system – cost price method – Invoice price method – Branch Debtors account (problems). Independent branches: concept-accounting treatment: adjustment entries - incorporation of branch trial balance in head office books. Foreign Branches Concept of foreign branch, Rules for conversion of branch trial balance when exchange rates are

Description

stable and fluctuating. Problems

U5: Automation in Accounting

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Automation in Accounting: Meaning of Automation, Automation in Accounting, Impact on Accountants and Industry, Tally, quick-books, XBRL, Blockchain, Cloud Computing in Accounting, Big Data in Accounting, Robotic Process Automation in Accounting, Recent innovations in Accounting: Connected Banking.

Description**Essential Reading**

3. Jain & Narang, (2023). Financial Accounting (18ed.). Mumbai: Kalyani.
3. Gupta, R. L., & Radhaswamy, M., (2023) Financial Accounting (16ed.). New Delhi: Sultan Chand & Sons.
3. Custom Book: Intermediate Accounting, 11th Edition, by Spiceland, Nelson, Thomas, and Winchel and Advanced Financial Accounting, 13th Edition, by Christensen, Cottrell, and Budd – ISBN for Connect Access – 1264993846.
3. <https://www.principlesofaccounting.com/>

EXAMINATION PATTERN

COURSE NAME: INTERMEDIATE ACCOUNTING-I

COURSE CODE: COAA201-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: FINANCIAL SYSTEM & SERVICES

COURSE CODE: COAA201-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: Understand the key concepts, principles, and practices related to the financial system and capital market, including primary and secondary markets, financial intermediaries, and regulatory frameworks.

CO2: Analyse the various financial instruments, investment options, and techniques used in the capital market, including IPOs, FPOs, ADRs, GDRs, and book building.

CO3: Explain the functions of the stock exchange, depositories, and clearing and settlement procedures.

CO4: Identify the composition, features, and importance of the money market, including the role of the RBI and commercial banks.

CO5: Evaluate the models, initiatives, and issues related to microfinance and its impact on poverty, economic and rural development, and women empowerment.

CO6: Assess the impact of digital transformation, fintech, and AI on the financial services sector, including the ethical considerations and cybersecurity threats

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Motivation and self-awareness, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Financial System & Capital Market – Primary Market

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Financial System & Capital Market – Primary Market

Description

Financial System, Financial Assets, Financial Intermediaries, Key Elements of well-functioning Financial System, Indicators of Financial Development.

Capital markets- meaning; Classification of the capital market; Primary market, Functions of new issue market, Methods of floating new issue - offer for sale, fresh issue, Private placement, Book building, Rights issue, FPO, ESOP. Live demand and supply for IPO book building, Red herring prospectus – purpose, content and procedures, Intermediaries in the new issue market; Role of registrars, brokers, bankers, and Underwriters in the new issue. Raising of funds from International Markets: ADRs and GDRs, FCCB and Euro Issues. SEBI guidelines for new issue, FPO, private placement, book building, and right issues.

Case Study: Paytm, LIC, Adani FPO, IPO why it is failed.

U2: Capital Market – Secondary Market

Teaching Hours: (16)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U2-T1. Capital Market – Secondary Market

Description

Secondary markets – Stock Exchange – growth of stock exchange, functions of the stock exchange, Index and Index Calculations (Nifty or Sensex Constituents & Methodology), functions of indices, Major Indices in India, OTCEI (over-the counter exchange of India), meaning and function of Depositories & Depositories participants, Clearing and rolling settlement procedure in Indian Capital markets. Corporate actions – Dividend – Ex-dividend - record date - book closure date, bonus issue, stock split, reverse stock split and buy backs. SEBI as capital market regulator - Objectives, Functions, Powers, SEBI and government, SEBI guidelines on secondary markets, corporate actions, buyback of shares. Global Market: Global equity market and Indices, Ways to invest in the global markets.

Practicals: Opening DEMAT and Trading account, Stock Market data view – Script name, Symbol, LTP vs CMP, Bid Ask Price, 52 week high and low, Open, Close, High, Low, Volume, Market Capitalization, Advances and Declines, Face value, Market circuit filters and its application,

Case Discussion: Stock Market cases – Harshad Mehta Scam, Ketan Parikh Scam, etc.,

U3: Money Market

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U3-T1. Money Market

Description

Money Market and Capital Market, Definition, Features, Objectives, Importance, Composition of Money Market, Money Market Instruments, Structure of Indian Money Market, Features of Indian Money Market, Features of a Developed Money Market, Call Money Market, Recent Developments, the role of RBI and Commercial Banks in the Indian Money market - The Impact of credit policy of RBI on financial markets, Inflation index, WPI & CPI.

Case Study: Inflation and its measures to control. Sustainable Financial Products and Investments

U4: Microfinance

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Microfinance

Description

Meaning, definition and conceptual framework and its history – Models of microfinance – Microcredit Vs Micro-savings Vs Microfinance – Microfinance institutions (MFI) Development of microfinance in India – GOI, RBI, MFDF and NABARD initiatives for development of microfinance in India – Innovative microfinance models in India – Issues faced by microfinance in India-Micro delivery mechanism – case study of SKS MFI and Grameen Bank-NGO and SHG. Y.H. Malegam committee report on Microfinance – Microfinance and poverty – Microfinance and economic development – microfinance and rural development – microfinance and women empowerment – Microfinance and informal finance sector – Microfinance and small business development.

U5: Technology in Financial Services

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Professional Ethics, Sustainability

U5-T1. Technology in Financial Services

Description

Modern Activities -Sources of Revenue- causes of Financial Innovation – Financial Services and promotions of Industries - Digital transformation and its impact on financial services – Innovation in finance –

Fintech, types of fintech companies and their services– Insuretech – Regtech - Regulatory Sandbox of RBI and IRDAI - Treds Platform- Distributed Ledger Technology/Artificial Intelligence in financial service – Automated wealth management/Robo- advisors - Challenges Facing the Financial Service sector-Present Scenario. Overview of AI and machine learning in financial services - Applications of AI and machine learning in financial services - Ethical considerations in the use of AI and machine learning in financial services - Overview of cybersecurity threats in financial services -Best practices for cybersecurity in financial services. Overview of payment systems - Introduction to digital currencies. Case study: Digital currency implementations in financial services

Essential Reading

1. Financial Markets and Institutions by Frederic S. Mishkin and Stanley Eakins
2. Capital Markets: Institutions and Instruments by Frank J. Fabozzi
- 3.

EXAMINATION PATTERN

COURSE NAME: FINANCIAL SYSTEM & SERVICES

COURSE CODE: COAA201-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations/viva voce and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: MACHINE LEARNING MODELS FOR BUSINESS

COURSE CODE: COAA201-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Analyze machine learning systems, challenges, and data preprocessing techniques to enhance model performance.

CO2: Evaluate regression and classification models using performance metrics to optimize predictive accuracy.

CO3: Analyze SVM and Decision Tree models to determine their effectiveness in classification and regression tasks.

CO4: Evaluate clustering techniques to uncover patterns and insights in unlabeled data.

CO5: Create optimized ensemble models and apply dimensionality reduction techniques to improve machine learning performance.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Machine Learning

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U1-T1. Introduction to Machine Learning

Description

The Machine Learning Landscape - What is Machine Learning? - Why Use Machine Learning? - Types of ML Systems - Supervised vs. Unsupervised Learning - Batch vs. Online Learning - Instance-Based vs. Model-Based Learning. Challenges in Machine Learning - Insufficient Training Data - Nonrepresentative Data - Overfitting & Underfitting - Hyperparameter Tuning and Model Selection. Introduction to Jupyter Notebook, Python, and Scikit-learn. Working with Real-World Data - Steps in ML Projects
Framing the Problem - Selecting a Performance Measure - Checking Assumptions - Getting the Data. Data Preprocessing - Handling Missing Data - Encoding Categorical Features - Feature Scaling & Transformation Pipelines. Exploratory Data Analysis (EDA) and Data Preprocessing.
Project on EDA and Data Preprocessing

U2: Supervised Learning I

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

None

U2-T1. Linear Regression - The Normal Equation - Gradient Descent (Batch, Stochastic, Mini-batch) - Polynomial Regression - Regularization Techniques - Ridge, Lasso, Elastic Net - Evaluating Regression Models - RMSE, MSE, R^2 . Binary Classification - Logistic Regression, Multiclass Classification - Softmax Regression - Error Analysis, Performance

Metrics - Confusion Matrix - Precision-Recall, F1 Score, ROC Curve. Project on Regression for prediction

Description

U3: Supervised Learning II

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

U3-T1. Linear SVM Classification - Nonlinear SVM Classification - Polynomial & RBF Kernel - SVM Regression. Decision Tree - Training and Visualizing Decision Trees - Making Predictions with Decision Trees - Gini Impurity vs. Entropy - Regularization in Decision Trees. Project on SVM and Decision Tree

Description

U4: Unsupervised Learning & Clustering

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

**U4-T1. K-Means Clustering - Hierarchical Clustering - DBSCAN - Gaussian Mixture Models
- Applications of Clustering (Segmentation) Project on K-Means Clustering**

Description

U5: Ensemble Learning and Dimensionality Reduction

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

None

**U5-T1. Bagging and Pasting - Random Forests and Extra Trees - Boosting, AdaBoost,
Gradient Boosting - Stacking. The Curse of Dimensionality - Principal Component Analysis
(PCA) - Explained Variance - Incremental & Kernel PCA - Local Linear Embedding (LLE).
Project on Random Forest and PCA.**

Description

EXAMINATION PATTERN

COURSE NAME: MACHINE LEARNING MODELS FOR BUSINESS

COURSE CODE: COAA201-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

ASSESSMENT TYPE | WHICH ASSESSMENT TYPE THE COURSE IS ALIGNED TO?
MENTION YES | 100 PERCENT CIA: 0 PERCENT ESE | Yes | 50 PERCENT CIA :50
PERCENT ESE | | 70 PERCENT CIA: 30 PERCENT ESE | |

COURSE NAME: NATURAL LANGUAGE PROCESSING

COURSE CODE: COAA201-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Explain core concepts, terminology, and applications of Natural Language Processing in business analytics.

CO2: Apply text preprocessing and feature extraction techniques to real-world business text data.

CO3: Analyze business and financial text using appropriate NLP models and methods

CO4: Build and evaluate NLP-based solutions for accounting and analytics problems

CO5: Create end-to-end NLP projects addressing practical business decision-making scenarios

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail, Technological literacy

Course Content

U1: Introduction to Natural Language Processing

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Overview of NLP, history and evolution, NLP pipeline, challenges in NLP, applications in business, accounting, finance, and auditing. Introduction to Python NLP ecosystem. Hands-on Project: Exploratory analysis of business text data (annual reports or news articles).

U2: Text Preprocessing and Representation

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Text cleaning, tokenization, stop-word removal, stemming, lemmatization, part-of-speech tagging, named entity recognition. Text representation methods: Bag of Words, TF-IDF. Hands-on Project: Build a text preprocessing pipeline for financial documents.

U3: NLP with Machine Learning

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Text classification, sentiment analysis, topic modeling, feature engineering, model evaluation techniques. Applications in customer feedback and financial sentiment analysis. Hands-on Project: Sentiment analysis of financial news or social media data.

U4: Advanced NLP and Deep Learning

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Word embeddings (Word2Vec, GloVe), introduction to deep learning for NLP, RNNs, LSTMs, Transformers overview. Use cases in document classification and risk analysis. Hands-on Project: Document classification using word embeddings and neural networks.

U5: Applied NLP Projects in Accounting and Analytics

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Information extraction, text summarization, chatbot basics, ethical issues in NLP, model deployment basics. Integrating NLP with business analytics workflows. Hands-on Project: Capstone project – NLP-based solution for an accounting or business analytics problem.

Essential Reading

Jurafsky, D., & Martin, J. H. (2023). Speech and language processing (3rd ed.). Pearson.
Bird, S., Klein, E., & Loper, E. (2009). Natural language processing with Python. O'Reilly Media.
Aggarwal, C. C., & Zhai, C. (2012). Mining text data. Springer. Chopra, S., & Joshi, A. (2020). Natural language processing in the real world. Packt Publishing.

EXAMINATION PATTERN

COURSE NAME: NATURAL LANGUAGE PROCESSING

COURSE CODE: COAA201-5

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA II 50 marks - Department level assessment

CIA Overall 50 marks - Department level assessment ;

Attendance 5 Marks

COURSE NAME: TAXATION - I

COURSE CODE: COAA202-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: Analyze the sources of Indian income tax law and key tax concepts.

CO2: Analyze the residential status of different types of persons.

CO3: Evaluate the components of salary income.

CO4: Evaluate the income from house property.

CO5: Assess the income from other sources.

Sustainability Development Goals (SDG)

Decent work and economic growth, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Introduction

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Sources of Income Tax Law and Practices- Income Tax Act 1961, Finance Act, Income Tax Rules, Circulars and Notifications and Court Decisions, Basic Concepts- Income, Person, Assessee, Previous Year, Assessment Year, Residential Status, Heads of Income, Clubbing of Income, Set off and carry forward of losses, Gross total income, Deductions, Taxable Income.

U1-T2. Advance Tax, Tax Deducted at Source, Tax Rate and Surcharge, Levy of Tax, Tax Regime, Difference between Tax Planning, Tax Avoidance, Tax Evasion and Tax Management.

U2: Determination of Residential Status and Scope of income

Teaching Hours: (8)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Determination of residential status of Individual, Deemed resident, Income received or deemed to be received in India, Income accrue or arise or deemed to accrue or arise in India, Taxability of income in the hands of different types of residents.

U3: Computation of income from Salary

Teaching Hours: (22)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Definition of Salary, Essential facts to know about salary income – Employer and Employee Relationship, Full time or part time employment, Forgoing of Salary, Surrender of Salary, Tax Free Salary, Place of Accrual of Salary, Basis of charge of salary income, Advance Salary, Arrears of Salary, Allowances – Fully Taxable, Partially Taxable and Fully Exempted Allowances

U3-T2. Perquisites – Taxable in the case of all employees, Taxable only in the hand of specified employees and Tax free perquisites, Profit in lieu of Salary, Concept of Provident Fund, Computation of Taxable Leave Salary, Gratuity, Pension, Compensation for Retrenchment, and Compensation For Voluntary Retirement

U4: Determination of income from House Property

Teaching Hours: (12)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Basis of charge, Definition of House Property, Property income not charged to tax, Computation of Gross Annual Value and Net Annual Value, Deductions under section 24, Computation of taxable house property income – Let Out and Self Occupied Property, Taxability of Unrealized Rent and Arrears of Rent.

U5: Computation of income from Other Sources

Teaching Hours: (8)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Basis of charge, Examples of Income from Other Sources, Specific Incomes - Dividend Income, Income from Lotteries, Crossword Puzzles, Horse Races and Card Games, Income from composite letting of Building, Machinery, Plant or Furniture, Money or Property received without consideration, Permissible Deductions from Income from Other Sources.

Essential Reading

- 2. Singhania & Singhania (Current A.Y.). Students' Guide to Income Tax. Taxmann.
- 2. Ahuja & Gupta (Current A.Y.). Systematic Approach to Income Tax. Commercial Law Publishers (India) Pvt. Ltd.
- 2. Manoharan (Current A.Y.). Students Handbook on Taxation. Snow White.
- 2. Sekhar (Current A.Y.). Handbook on Taxation. Wolter Kluwer.
- 2.

EXAMINATION PATTERN

COURSE NAME: TAXATION - I

COURSE CODE: COAA202-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA I - 20 Marks, CIA II - 50 Marks, CIA III - 20 Marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End Term Examination (ETE)

Section A (7*5=35)

Section B (5*10=50)

Section C (1*15=15)

COURSE NAME: BUSINESS STATISTICS AND MATHEMATICS

COURSE CODE: COAA203-3

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: Analyze and select appropriate statistical techniques for interpreting and drawing inferences from business data sets.

CO2: Evaluate hypotheses by applying suitable statistical tools and interpret the results to support managerial decision-making.

CO3: Analyze and apply matrix algebra techniques to solve and model complex business and economic problems.

CO4: Evaluate business decisions by applying and interpreting the laws of probability and calculated probabilities under conditions of uncertainty.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Descriptive Statistics

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U1-T1. Descriptive Statistics

Description

Measures of Central Tendency: Mean, Median, Mode

Measures of Variation: Range, Mean Deviation, Standard Deviation, Quartile Deviation

Measures of Shape: Kurtosis, Skewness (Pearson, Bowley, Kelly)

Measures of Position: Partition Values (Percentiles, Deciles, Quartiles)

Practical exercises and cases using Excel.

U2: Inferential statistics

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U2-T1. Inferential statistics

Description

Sampling – Probabilistic and Non-Probabilistic techniques;

Statistics, Parameter and Estimation – Point Estimates and Interval Estimates;

Confidence level and Level of Significance;

Hypothesis – Types of Hypotheses, How to formulate a hypothesis, Hypothesis Testing Process;

Statistical tests – Chi Square test, T tests, ANOVA, Pearson's Correlation, Linear Regression

Practical exercises and cases using Excel.

U3: Index numbers

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Index numbers

Description

Meaning, Nature; Application of index numbers; Problems in the construction of index numbers; Methods of Constructing Index numbers – Simple Aggregative method, Average of Price Relative method, Weighted Aggregative method (Laspeyre, Pasche, Dorbish & Bowley, Fisher, Marshall-Edgeworth, Kelly); Tests of adequacy of index numbers; Practical exercises and cases using Excel.

U4: Matrices and Determinants

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Matrices and Determinants

Description

Definition of a matrix; types of matrices; Algebra of matrices, Properties of determinants; calculations of values of determinants up to third order; Adjoint of a matrix, inverse of Matrix (Simple Problems only). Solution of a system of linear equations using Cramer's Rule and Matrix method, Applications of Matrices and Determinants in business.

U5: Probability

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Probability

Description

Meaning of probability – Approaches to probability – Rules of probability, Conditional probability – Bayes' Probability; Probability distributions – Bernoulli distribution – Binominaldistribution – Poisson distribution – Normal distribution – Problems on all distributions.

Essential Reading

Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: COST ACCOUNTING

COURSE CODE: COAA203-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Understand the fundamental concepts of cost accounting, including objectives, cost behaviour, cost classification, and cost measurement concepts, and prepare cost sheets for decision-making, such as tenders and quotations.

CO2: Apply material, labour, and overhead cost control techniques by computing stock levels, material issue prices, labour remuneration, and overhead absorption rates using appropriate methods.

CO3: Evaluate and apply appropriate costing methods—job order, process, activity-based, and service costing—to determine and compare costs for managerial decision-making.

CO4: Evaluate budgeting processes by preparing and interpreting various budgets, including flexible, zero-based, activity-based, project, and rolling budgets for planning and performance control.

CO5: Differentiate and apply cost accounting techniques such as absorption costing, variable costing, joint and by-product costing, and compute and analyses material and labour variances for cost control and managerial decision-making.

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail

Course Content

U1: Introduction

Teaching Hours: (8)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning, objectives and advantages of cost accounting; Difference between cost accounting and financial accounting; Cost concepts and classifications; Elements of cost; Installation of a Costing system; Cost behaviour and cost objects - Actual and normal costs - Standard costs; Format of Cost Sheet - Tenders and Quotations (Problems on above).

Description

U2: Elements of Cost: Material Labour and Overheads

Teaching Hours: (20)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Material/inventory control techniques. Accounting and control of purchases, storage, and issue of materials. Materials Stock Level, Methods of pricing of materials issues – FIFO, LIFO, Simple, and Weighted Average methods. Accounting and Control of labour costs, timekeeping, and time booking. Concept and treatment of idle time, overtime, labour turnover, and fringe benefits. Methods of wage payment and the Incentive schemes- Halsey and Rowan. Collections and Classification of Overheads - Allocation

Description

Material/inventory control techniques. Accounting and control of purchases, storage, and issue of

materials. Materials Stock Level, Methods of pricing of materials issues — FIFO, LIFO, Simple, and Weighted Average methods.

Accounting and Control of labour costs, timekeeping, and time booking. Concept and treatment of idle time, overtime, labour turnover, and fringe benefits. Methods of wage payment and the Incentive schemes- Halsey and Rowan.

Collections and Classification of Overheads - Allocation & Apportionment – Primary Distribution - Secondary Distribution - Reapportionment of Service Department Costs to Production Departments (Simultaneous Equation Method only); absorption of Overheads and Computation of Machine Hour Rate.

U3: Methods of Costing

Teaching Hours: (15)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Job order costing, Batch costing, Process costing, Normal Loss, Abnormal Loss, Normal Gain, and Abnormal Gain. Joint and by-product costing - Service Costing; Introduction to Service Costing, Cost Classification in Service Costing, Costing of Transportation Companies

Description

U4: Budget and Budgetary Control

Teaching Hours: (5)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Budgets - Characteristics of a successful budget process - Types of budgets: Project budgeting - Activity-based budgeting - Zero-based budgeting, Continuous (rolling) budgets (Only theory) - Problems on all types of Functional Budget (production budget, purchase budget, overheads budget, sales budget), Cash budget, Flexible budgeting and Master Budget

Description

U5: Cost Accounting Techniques

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Absorption (full) costing - Marginal costing - Activity-based costing - Determination of allocation base - Allocation of service department costs - Standard Costing and Variance analysis - Computation and Analysis of Variances (Material and Labour Only)

Description

EXAMINATION PATTERN

COURSE NAME: FINANCIAL MANAGEMENT

COURSE CODE: COAA204-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Explain the fundamental concepts and theories of financial management.

CO2: Apply the time value of money concept to calculate present value and future value of money through mathematical calculation, MS Excel and PV/FV tables.

CO3: Evaluate the costs of debt, preferred stock, and equity financing for the firm.

CO4: Evaluate long-term investment proposals to select the best alternative for the organisation by applying capital budgeting tools.

CO5: Evaluate the importance of adequate working capital and to estimate working capital requirements for different organisations.

CO6: Analyze the relevance or irrelevance of the dividend decisions affecting the market value of the firm.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Reduced inequalities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Quality control

Course Content

U1: Introduction to Financial Management

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Meaning - scope and functions of Finance – Types of finance -Financial management – Nature, Characteristic, Functions, Scope & Process - Objectives of financial management – profit maximisation - wealth maximisation – Value creation -Green Finance concept and Sustainable Financial Management - Time Value of Money: concept and reasons, Compounding and Discounting techniques, Concepts of Annuity and Perpetuity-practical problems (using MS excel also).

U2: Financing Decision

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Sources of Finance - Meaning of Capital Structure; Capital Structure and Financial Structure; Pattern of Capital Structure; Optimum Capital Structure - Factors determining capital structure - Financial break even and indifference point (Only theory). Capital Structure Theories: net income approach, net operating income approach, traditional approach and MM approach (Only theory) EBIT – EPS Analysis- Concepts of leverages - operating leverages - financial leverages - combined leverages.

U3: Cost of Capital

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Concept, relevance of cost of capital- weighted average cost of Capital (computation) Computation of cost of specific source- cost of equity capital cost of Retained Earnings cost of Debt and cost of Preference (only simple problems). Role of AI Financial Decision Making.

U4: Investment Decision – Capital Budgeting

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Long term and short term investment decisions - capital budgeting - importance - procedure - Factors Determining Capital Budgeting - Steps in Capital Budgeting - Cash flow Estimation Methods of capital budgeting - payback period - Net present value & profitability index - Accounting rate of return -Internal rate of return – Problems based on each method- merits and demerits of each of the methods. Cross-border Investment Decisions and Global Capital Budgeting (Theory Only)

U5: Investment Decision – Working Capital Management

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Meaning - concept of working capital, need for working capital - types of working capital - Factors affecting working capital needs - adequacy of working capital - Sources of Working Capital, Management of working capital -Principles of Working Capital - working capital cycle - working capital estimation and calculation. Meaning of cash and receivables management- Objectives of cash and receivables management- Cost of maintaining receivables - Factors affecting receivable management

U6: Dividend Decision

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U6-T1. Dividend decision and valuation of firm – Meaning and form of dividend – stability of dividend – dividend policy – determinants of dividend policy – theories of dividend – relevance and irrelevance – Walter Model - Gordon Model (Problems) - Modigliani and Miller theory (only theoretical concepts)

Essential Reading

2. Sharma, R. K & Gupta, S .K (2020). Financial Management, (9th Ed.), Kalyani Publishers. New Delhi.
3. Pandey, I.M. Financial Management (2016), (11th Ed). Vikas Publications

EXAMINATION PATTERN

COURSE NAME: FINANCIAL MANAGEMENT

COURSE CODE: COAA204-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA1-20 + CIA2-50 + CIA3-20

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

CHRIST (DEEMED TO BE UNIVERSITY), BANGALORE

DEPARTMENT OF COMMERCE

SECTION A

Answer ALL questions 7 X 5 marks =35 MarksQ. No Questions CO RBT 1 xyz[5] 3 L3 2 xyz[5] 2 L2 3 xyz[5] 1 L1 4 xyz[5] 3 L4 5 xyz[5] 5 L2 6 xyz[5] or xyz[5] 4 L1 7 xyz[5] or xyz[5] 3 L4

SECTION B

Answer ALL questions 5 X 10 marks =50 MarksQ. No Questions CO RBT 8 xyz[10] 4 L5 9 xyz[10] 4 L5 10 xyz[10] 4 L5 11 a) xyz[10] or xyz[10] 5 L4 12 b) xyz[10] or xyz[10] 5 L4

SECTION C

Case Study – Compulsory Question 1 X 15 marks =15 MarksQ. No Question CO RBT 13 Case Study [15] 3 L3

Revised Bloom's Taxonomy (RBT) Levels : | L1 – Remembering | L2 – Understanding | L3 – Applying | L4 – Analyzing | L5 – Evaluating | L6 - Creating |

COURSE NAME: INTERMEDIATE ACCOUNTING II

COURSE CODE: COAA301-2

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - II)

Course learning Outcomes

CO1: Construct the income statement and balance sheet of a company according the schedule III of Companies Act 2013

CO2: Estimate underwriters' liability

CO3: Construct journal entries and ledger accounts for the redemption of debentures

CO4: Estimate the value of shares and goodwill

CO5: Prepare consolidated balance sheet

Sustainability Development Goals (SDG)

Decent work and economic growth, Quality education

21st Century Skills

Analytical thinking, Dependability and attention to detail

Course Content

U1: Final Accounts of Companies

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Final Accounts of Companies. Framework for preparation and presentation of Financial Statements – Compliance with Accounting standards- Form and contents of Statement of Profit or Loss and Balance Sheet as per SCHEDULE III (Division ii) – General Instructions for preparation of Statement of Profit and Loss and Balance Sheet, Problems on Final Accounts, Financial analysis and statement of cash flows, Corporate Equity Accounting, Current Liability, Contingencies and Employer Obligation

Description

U2: Underwriting of Shares and Debentures

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Underwriting of Shares and Debentures Introduction – Meaning of underwriting – Underwriting commission – Types of underwriting – Marked and Unmarked applications – Calculation of underwriters liability– Journal Entries in the books of company on underwriters liability, Problems on Underwriting, Concept of Long term Obligation & Long term Investment, Concept of Bonds and long term Notes.

Description

U3: Redemption of Debentures

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Redemption of Debentures Meaning of debentures – Types of debentures - Redemption of debentures- Methods of redemption – problems on conversion method - problems on buying own debentures from open market (including ex-interest and cum interest quotations) – problems on redemption using sinking fund method

Description

U4: Valuation of Goodwill and Shares

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Valuation of Goodwill and Shares Valuation of Goodwill – Meaning of Goodwill – Need for Valuation of Goodwill – Factors Affecting Valuation of Goodwill – Methods of Valuation – Average Profit Method – Super Profit Method – Annuity Method-Capitalization Method-Valuation of Shares – Need for Valuation –Factors Affecting valuation of Shares- Net Asset Method – Yield Method – Fair Value-Practical Problems, Concept of share based compensation and Earnings per share

Description

U5: Accounts of Holding Companies/Parent Companies

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Accounts of Holding Companies/Parent Companies Meaning of Holding & Subsidiary Company – Consolidation of Balance Sheet of Holding and Subsidiary Company - Relevant provisions of Accounting Standard (ICAI).Calculation of Cost of Control – Minority Interest –Treatment of Unrealized Profit on stock and assets- Revaluation of Assets and Liabilities- Inter Company Owing-Preference shares - Issue of bonus Shares by Subsidiary Company -Proposed Dividend –Preparation of consolidated balance sheet with

Description

2. Custom Book: Intermediate Accounting, 11th Edition, by Spiceland, Nelson, Thomas, and Winchel and Advanced Financial Accounting, 13th Edition, by Christensen, Cottrell, and Budd – ISBN for Connect Access – 1264993846.

EXAMINATION PATTERN

COURSE NAME: INTERMEDIATE ACCOUNTING II

COURSE CODE: COAA301-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | QuizzeAs- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out which third question will be an internal choice. Each question carries five marks) $3 \times 5 = 15$ B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) $2 \times 10 = 20$ C Case Study (Compulsory) $1 \times 15 = 15$ | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out which third question will be an internal choice. Each question carries five marks) | $3 \times 5 = 15$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 =$

35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x15 = 15 |

COURSE NAME: TAXATION-II

COURSE CODE: COAA301-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Analyze the income from business or profession of individual.

CO2: Analyze the capital gain of individual.

CO3: Evaluate the total income of individual.

CO4: Analyze cross-border transactions to interpret and recommend solutions based on the concepts, principles, and provisions of international taxation and direct tax laws.

CO5: Analyze the provisions of GST Act in computation of GST liability.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Curiosity and lifelong learning

Course Content

U1: Income from Business or Profession of Individual

Teaching Hours: (15)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Basis of charge, Difference between Business, Profession and Vocation, Basic principles for arriving at business income, Allowable and disallowable expenses, Specific Deductions under sections 32, 33AB, 35, 35CCA, 35CCC, 35D, 36(1), 36(1)(ii), 36(1)(iii), 36(1)(iv), 36(1)(iva), 36(1)(v), 36(1)(va), 36(1)(vi), 36(1)(vii), 37(2B)

U1-T2. General Deductions, Specific Disallowances under sections 40, 40A and 43B, Compulsory Maintenance of Books of Accounts u/s 44AA, Compulsory Audit of Books of Accounts u/s 44AB, Computation of Income on estimated basis under sections 44AD, 44ADA and 44AE, Deemed Profits u/s 41

U2: Determination of Capital Gain of Individual

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Basis of charge, Definition of Capital Assets, Classification of capital assets, Meaning of Capital Gain, Classification of capital gain, Fully Exempted Capital Gain, Computation of Capital Gain, Computation of Capital Gain in Special Cases - Transfer of capital assets acquired under section 49(1), Capital Assets acquired by the current owner or previous owner before April 1, 2001, Transfer of Depreciable Assets, Conversion of Capital Assets into stock in trade,

U2-T2. Exemption of Capital Gain in Certain Cases - Sections 54, 54B, 54EC and 54F

U3: Computation of Total Income of Individual

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Deductions under sections 80C, 80CCC, 80CCD(1), 80CCD, 80D, 80DD, 80DDB, 80E, 80EE, 80G and 80U, Clubbing of Income, Set Off and Carry Forward of Losses, and Computation of total taxable income and tax liability.

U4: Good and Service Tax

Teaching Hours: (15)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Objectives and basic scheme of GST, Subsuming of taxes, Structure of GST – Central GST, State / Union Territory GST, and Integrated GST, Definition of Key terms, Registration under GST - Procedure for registration, Persons liable for registration, Persons notliable for registration, Compulsory registration, Deemed registration, Special provisions forCasual taxable persons and Non-resident taxable persons, Exempted goods and services, Computation of Taxable Value and tax liability.

U5: International Taxation

Teaching Hours: (10)

Development Needs:

Global, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Non Resident Taxation, Double Taxation Relief, Advance Ruling, Transfer Pricing, Fundamental of Base Erosion and Profit Shifting (BEPS), Application and Interpretation of Tax Treaties, Overview of Mode, Tax Conventions, Latest developments in International Taxation.

Essential Reading

1. Study Material of professional courses like Institute of Chartered accountant of India. and Institute of Cost and Management Accountants of India
2. Income Tax Act.
3. GST Act

EXAMINATION PATTERN

COURSE NAME: TAXATION-II

COURSE CODE: COAA301-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: AUDITING AS PER GAAS

COURSE CODE: COAA301-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Analyze the Generally Accepted Auditing Standards (GAAS) framework, audit objectives, and professional responsibilities of auditors.

CO2: Understand audit planning, risk assessment, internal control frameworks (COSO), and engagement acceptance procedures.

CO3: Evaluate the sufficiency and appropriateness of audit evidence obtained during the audit engagement and apply auditing procedures.

CO4: Apply audit findings evaluation, formulation of professional audit opinions, and prepare audit reports.

CO5: Assess ethical responsibilities, professional conduct standards, compliance requirements, and prepare examination or review reports for attestation engagements.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: PROFESSIONAL RESPONSIBILITIES, ETHICS AND GAAS FRAMEWORK

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U1-T1. Introduction to auditing scope and objectives, distinction between auditing, accounting, investigation. GAAS General Standards, ethics, competence, skepticism. Fieldwork planning, risk, evidence. Reporting. AICPA Code, SOX 2002, PCAOB Standards, SEC requirements, ISA. Professional judgment, skepticism, independence, fact and appearance threats and safeguards.

U2: AUDIT PLANNING AND RISK ASSESSMENT

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U2-T1. Engagement acceptance and communications. Audit planning, entity environment, objectives, business risks. Materiality - quantitative and qualitative, performance materiality threshold. Audit risk model - Inherent, Control, Detection. Risk assessment procedures, fraud risk, related parties. Audit strategy, resource allocation, specialists. Quality control standards, partner responsibilities, Engagement Quality Control Review.

U3: INTERNAL CONTROL FRAMEWORK AND TESTING

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U3-T1. COSO Framework - control environment, risk assessment, activities, communication, monitoring, control deficiencies. Internal control understanding, operating cycles, walkthrough procedures. Control testing - design and operating effectiveness, sample selection. Substantive procedures - transaction and balance tests. Audit sampling - statistical and non-statistical, evaluation. Audit documentation and retention requirements.

U4: AUDIT EVIDENCE AND VERIFICATION TECHNIQUES

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Audit evidence - physical examination, confirmations, documentation, analytical procedures, inquiry, recalculation, reperformance. Sufficiency and appropriateness. Account cycles - Revenue, Expenditure, Production, Finance and Investment. Substantive procedures - related parties, subsequent events, going concern. Specialists, CAAT tools, data analytics. Evaluation of findings and conclusions.

U5: AUDIT REPORTING, OPINIONS AND PROFESSIONAL ETHICS

Teaching Hours: (13)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

U5-T1. Audit report - responsibility statements, basis for opinion. Opinion types - Unmodified, Qualified, Adverse, Disclaimer, Emphasis and Other matter. Engagement types - comparative statements, supplementary information, group statements. Attestation - SSAE, Review Services, SSARS. GAS - government audits, Single Audit Act, SEC, PCAOB. Ethics - independence, competence, confidentiality, skepticism, quality control. Fraud and non-compliance reporting, IT considerations.

Essential Reading

1. Miles CPA Review Learning System Auditing Attestation

EXAMINATION PATTERN

COURSE NAME: AUDITING AS PER GAAS

COURSE NAME: MANAGEMENT ACCOUNTING AND PERFORMANCE ANALYSIS

COURSE CODE: COAA302-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Recall fundamental concepts of management accounting, cost behavior, and cost classification systems

CO2: Explain and interpret cash flow statements for assessing liquidity and solvency.

CO3: Analyse cost–volume–profit relationships and short-term decision scenarios using marginal costing techniques.

CO4: Apply standard costing and variance analysis to evaluate operational efficiency.

CO5: Apply budgeting, forecasting, and performance measurement systems for organizational effectiveness

CO6: Evaluate integrated performance measurement systems using financial, non-financial, and sustainability-oriented indicators aligned to strategy and SDGs.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure, Quality education

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Management Accounting

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U1-T1. Meaning, nature, scope and objectives of management accounting – Distinction between financial accounting, cost accounting and management accounting – Role and responsibilities of management accountant – Functions, advantages and limitations of management accounting – Tools and techniques of management accounting (costing, budgeting, standard costing, marginal costing, cash flow analysis, ratio analysis, performance measurement) – Ethical issues and sustainability in management accounting

U2: Marginal Costing

Teaching Hours: (12)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U2-T1. Meaning and objectives of cash flow statement – Difference between cash flow and fund flow – Classification of cash flows into operating, investing and financing activities as per relevant standards – Direct and indirect methods of computing cash flow from operating activities – Preparation of cash flow statement from given financial data – Interpretation of cash flow statement for liquidity, solvency and performance assessment – Linkage between cash budget, cash flow statement

U3: Marginal Costing

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U3-T1. Concept and features of marginal costing; absorption vs marginal costing; contribution, fixed and variable cost, P/V ratio and margin of safety; short-term decisions (make or buy, special order, shut-down, product-mix under limiting factor); impact of price, volume and cost changes on profit; managerial uses, advantages and limitations

Description

U4: Standard Costing and Variance Analysis

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U4-T1. Concept and objectives of standard cost and standard costing; setting standards for materials, labour and overheads; advantages and limitations; computation and analysis of material and labour cost variances; overview of overhead and sales variances; investigation and reporting of significant variances; environmental variance analysis for carbon footprint; analytics-based anomaly detection and root-cause analysis.

Description

U5: Budgeting and forecasting

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Sustainability

U5-T1. Concepts and objectives of budget and budgetary control; types of budgets – functional, operating, financial, capital and flexible; preparation of functional and master budgets; budgetary control vs standard costing; advantages and limitations of budgeting; zero-based and participatory budgeting; AI-enabled forecasting, rolling budgets and predictive demand sensing; behavioural and sustainability aspects including carbon budgeting.

Description

U6: Performance Measurement and Balanced Scorecard

Teaching Hours: (8)

Development Needs:

Global, Local

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U6-T1. Performance measurement concepts and objectives; financial indicators (profitability, liquidity, solvency and efficiency ratios); non-financial indicators (quality, customer satisfaction, innovation, employee metrics); Balanced Scorecard perspectives;

Sustainability Balanced Scorecard with environmental and social perspective; KPI design aligned to strategy and SDGs; responsibility accounting, responsibility centres, divisional performance and transfer pricing basics.

Description

Essential Reading

1. R.S.N Pillai & V.Bagavathi, Management Accounting. S.Chand Publishing
- 2.M.Y.Khan & P.K.Jain, Management Accounting, McGraw Hill Education
- 3.S. P. Gupta, Management Accounting, Sahitya Bhawan Publications
- 4.Atkinson, Kaplan, Matsumura & Young, Management Accounting: Information for Decision-Making and Strategy Execution, Pearson Education

EXAMINATION PATTERN

COURSE NAME: MANAGEMENT ACCOUNTING AND PERFORMANCE ANALYSIS

COURSE CODE: COAA302-5

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15= 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15= 15 |

CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: DATABASE MANAGEMENT SYSTEM AND STRUCTURED QUERY LANGUAGE

COURSE CODE: COAA302-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Understand the fundamentals of database systems and their role in modern information management.

CO2: Apply relational database design principles using ER models, normalization, and SQL.

CO3: Apply key principles of transaction management, including the ACID properties and concurrency control, to ensure data consistency and integrity

CO4: Understand how to optimize database performance through indexing, query optimization, and other techniques.

CO5: Analyze data integrity requirements and use SQL constraints and triggers to ensure consistency in relational databases.

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Technological literacy

Course Content

U1: Unit 1 Introduction to Databases and Transactions

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Data Management – Databases Vs Relational Databases - File Systems Vs DBMS Vs RDBMS – Levels of Abstraction in DBMS – Queries; Transaction Management: Concurrent Execution of Transactions – Incomplete Transactions and System Crashes; DBMS Structures

U2: Unit 2 Database Design (Theory and Practical)

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Database Design and ER Diagrams – Entities, Attributes and Entity Sets – Relationships and Relationship Sets; Key Constraints, Participation Constraints, Weak Entities, Class Hierarchies, Aggregation; Conceptual Designs with ER Models – Unified Modelling Language - PMML

U3: Unit 3 Relational Models and Relational Algebra (Theory and Practical)

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Creating and Modifying Relations Using SQL – Key Constraints, Foreign Key Constraints, General Constraints – Enforcing Integrity Constraints – Querying Relational Data – Logical Database Design – Views, Data Independence, Security – Destroying/Altering Tables and Views; Relational Algebra: Selection – Projection – Set Operations – Renaming – Join – Division – Tuple Relational Calculus – Domain Relational Calculus – Expressive Power of Algebra and Calculus

U4: Unit 4 SQL Queries (Practical)

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U4-T1. Basic SQL Queries – Expressions and Strings in the SELECT Command – Union, Intersect and Except – Nested Queries: Introduction, Correlated Nested Queries, Set-Comparison Operators; Aggregate Operators: GROUPBY and HAVING Clauses

Description

U5: Unit 5 Null Values, Constraints, Triggers (Practical)

Teaching Hours: (12)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U5-T1. Null Values: Comparisons, Logical Connectives AND OR NOT, Impact and SQL Constructs, Outer Joins, Disallowing Null Values; Complex Integrity Constraints in SQL: Constraints Over a Single Table – Domain Constraints and Distinct Types – Assertions: ICs Over Several Tables; Triggers and Active Databases – Designing Active Databases: Constraints Vs Triggers – Uses of Triggers.

Essential Reading

- 1.Elmasri, R., & Navathe, S. B. (2020). Fundamentals of database systems (8th ed.). Pearson.
- 2.Ramakrishnan, R., & Gehrke, J. (2018). Database management systems. McGraw-Hill.
- 3.Silberschatz, A., Korth, H. F., & Sudarshan, S. (2020). Database system concepts (8th ed.). McGraw-Hill.
- 4.Molinaro, A. (2005). SQL cookbook: Query solutions and techniques for all SQL users. O'Reilly Media.

EXAMINATION PATTERN

COURSE NAME: DATABASE MANAGEMENT SYSTEM AND STRUCTURED QUERY LANGUAGE

COURSE CODE: COAA302-6

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA II - 50 Marks

CIA Overall : 50 Marks

COURSE NAME: CORPORATE FINANCE

COURSE CODE: COAA303-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - VI)

Course learning Outcomes

C01: Understand the fundamentals of corporate finance

C02: Analyze investment decisions

C03: Evaluate financing and capital structure decisions

C04: Apply dividend and working capital management concepts

C05: Evaluate risk, valuation, and contemporary practices

Sustainability Development Goals (SDG)

Affordable and clean energy, Climate action, Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Leadership and social influence, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction to Corporate Finance

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Nature and scope of corporate finance, Objectives of corporate finance – profit maximization vs wealth maximization, Role and responsibilities of a finance manager (including AI agents for automated compliance and governance monitoring), Agency problem and corporate governance, financial environment and regulatory framework, Ethical issues in corporate financial management. (with ethical AI deployment).

U2: Investment Decision and Capital Budgeting

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Concept of capital budgeting, Estimation of project cash flows (using AI-driven predictive models), Time value of money, Capital budgeting techniques – Payback, ARR, NPV, IRR, PI, Risk and uncertainty in investment decisions (using AI-driven predictive models), Capital rationing, Project evaluation and post-audit.

U3: Financing Decision and Capital Structure

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Sources of long-term finance: equity, preference shares, debentures, and term loans. Sources of short-term finance, Concept of capital structure, Capital structure theories – Net Income, Net Operating Income, MM approach, Trade-off and Pecking Order theory, (tested via AI/ML optimization), Leverage analysis – operating, financial, and combined leverage. (with AI simulations).

U4: Dividend Policy and Working Capital Management

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Dividend policy – meaning, relevance, and determinants, (AI predictive forecasting), Dividend theories – Walter, Gordon, MM, Forms of dividends, Meaning and components of working capital, Working capital financing, Management of cash, receivables, and inventory. (AI liquidity tools).

U5: Risk, Valuation, and Emerging Issues in Corporate Finance

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Risk and return concepts, Measurement of risk and return (AI ESG scoring), Cost of capital – concept and computation, Valuation of shares, bonds, and green instruments, Introduction to derivatives for risk management, ESG considerations in corporate finance (AI data analytics and green accounting practices), Contemporary issues in corporate financial management (2026 sustainable finance trends).

Essential Reading

I. M. Pandey – Financial Management. 13th Edition (Pearson, revised/expanded edition) — blends theory and practical applications in the Indian context.

▣ Prasanna Chandra – Financial Management: Theory and Practice. 11th Edition (Published in 2023 / released Dec 2022).

▣ Eugene F. Brigham & Joel F. Houston – Fundamentals of Financial Management. 17th Edition(2026) — covers contemporary finance topics, fintech, AI impacts, Excel/MindTap resources (published 2026).

EXAMINATION PATTERN

COURSE NAME: CORPORATE FINANCE

COURSE CODE: COAA303-6

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

5 CIA of 20 marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | 7 X 5 = 35 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions

out of which two questions are internal choice). Each question carries ten marks) | 5 x 10 = 50 | C | Case Study (Compulsory) | 1 x 15 = 15 |

COURSE NAME: ADVANCED FINANCIAL ACCOUNTING

COURSE CODE: COAA401-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Analyze relevant financial information and prepare a consolidated balance sheet of a holding company by applying principles of consolidation.

CO2: Analyze the terms of reconstruction scheme, pass appropriate journal entries and prepare a reconstructed balance sheet.

CO3: Analyze business combinations and prepare the balance sheet of the transferee company in accordance with Ind AS 103.

CO4: Evaluate liquidation outcomes by applying statutory provisions, analysing the waterfall mechanism, and preparing the liquidator's final statement.

CO5: Understand key contemporary trends in accounting and their ethical, sustainability, and professional implications.

Sustainability Development Goals (SDG)

Decent work and economic growth

21st Century Skills

Analytical thinking, Creative thinking

Course Content

U1: Consolidation of Companies

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning of Holding & Subsidiary Company – Consolidation of Balance Sheet of Holding and Subsidiary Company - Relevant provisions of Accounting Standard (ICAI). Calculation of Cost of Control – Minority Interest – Treatment of Unrealized Profit on stock and assets- Revaluation of Assets and Liabilities- Inter Company Owing-Preference shares - Issue of bonus Shares by Subsidiary Company -Proposed Dividend –Preparation of consolidated balance sheet with one subsidiary company.

Description

U2: Internal Reconstruction

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Introduction - Meaning, Importance- Legal provision relating to Capital Reduction- steps in reconstruction - Accounting entries on Internal Reconstruction - Re-organization through Surrender of shares - Preparation of reconstructed Balance sheet - Preparation of reconstruction Scheme

Description

U3: Accounting for Business Combinations

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Introduction - Corporate Restructuring - Types of corporate restructuring - purpose of corporate restructuring - Accounting procedure as per Ind AS 103, Purchase consideration - Identification of Acquirer - Accounting Entries in the Books of the Acquirer and acquiree company Reconstruction - Accounting Entries in the Books of the Transferor and Transferee company - Treatment of acquisition acquisition related costs - treatment of goodwill and bargain purchase - Disclosure in Financial Statements

Description

U4: Liquidation of Companies

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Meaning of Liquidation - Types of Liquidation - Provisions as per IBC and Companies Act, 2013 in the event of liquidation - Waterfall mechanism for payment of debt - Preparation of Liquidators final statement - Liquidation Expenses - Liquidators Remuneration - Calculation of Preferential Creditors - Pro-Rata Payment - List of Contributors - Treatment of capital surplus - Return of capital to shareholders having the same capital rights but different paid-up capitals.

Description

U5: Emerging practices in Accounting

Teaching Hours: (5)

Development Needs:

Global, National

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U5-T1. Sustainability and ESG accounting – Carbon accounting, social impact metrics, governance disclosures Integrated reporting – evolution, value creation and six capitals, elements Forensic and investigative accounting – Types of financial frauds, fraud risk assessment and red flags, forensic tools, techniques and evidence collection, legal aspects and courtroom role of forensic accountants. Accounting for digital assets – Cryptocurrencies, NFTs, SaaS revenues, platform fees, subscription models.

COURSE NAME: FEDERAL TAXATION

COURSE CODE: COAA401-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Understand the structure, sources, and policy objectives of the U.S. tax system.

CO2: Apply the individual income tax formula to compute taxable income and tax liability.

CO3: Analyze gross income inclusions, exclusions, deductions, and loss limitations under U.S. tax law.

CO4: Evaluate tax implications of property transactions, tax credits, and tax payment procedures

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Introduction to the U.S. Tax System

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Overview and evolution of the U.S. federal tax system. Sources of U.S. tax law – statutory (Internal Revenue Code), administrative (Treasury Regulations, IRS rulings), and judicial sources. Objectives of tax policy including equity, efficiency, simplicity, and revenue generation. Structure and basic principles of the U.S. income tax system and types of federal taxes.

U2: Individual Income Tax Formula and Computation

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U2-T1. Concept of individual income taxation, taxable units, filing status, and tax year. Structure of the individual income tax formula. Computation of gross income, Adjusted Gross Income (AGI), deductions for and from AGI, standard deduction, and personal and dependency exemptions. Computation of taxable income and tax liability with practical illustrations.

U3: Gross Income – Inclusions and Exclusions

Teaching Hours: (14)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

None

U3-T1. Meaning and scope of gross income under IRC Section 61. Major income inclusions and statutory exclusions including gifts, inheritances, life insurance proceeds, scholarships, and fringe benefits. Accounting methods – cash and accrual basis. Timing of income recognition and relevant judicial principles.

U4: Deductions and Losses

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. General principles governing deductions. Business expenses and itemized deductions. Loss deductions and limitations including capital losses, hobby loss rules, passive activity loss rules, and at-risk rules. Compliance and ethical considerations in claiming deductions.

U5: : Property Transactions, Tax Credits & Payment Procedures

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Basis of property and adjusted basis. Capital gains and losses and their tax treatment. Depreciation and depreciation recapture. Tax-deferred exchanges. Major tax credits. Tax

payment procedures including withholding, estimated tax payments, filing requirements, penalties, and compliance.

Essential Reading

Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: ACCOUNTING ANALYTICS

COURSE CODE: COAA402-6

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Science (Accountancy and Analytics) (SEMESTER - VI)

Course learning Outcomes

CO1: Recollect fundamental concepts, scope, and types of accounting analytics and differentiate between traditional accounting and analytics-driven accounting systems.

CO2: Explain the process of accounting data lifecycle, data preparation, visualization techniques, and exploratory analysis using Excel tools and dashboards.

CO3: Apply analytical techniques such as ratio analysis, trend analysis, and predictive methods to evaluate financial statements and assess organizational performance.

CO4: Analyze accounting data to detect frauds, errors, and anomalies using audit analytics tools, red-flag indicators, and exception reporting techniques.

CO5: Design Excel-based managerial and cost accounting models for budgeting, forecasting, break-even analysis, and scenario evaluation to support data-driven managerial decision-making.

Sustainability Development Goals (SDG)

Quality education

21st Century Skills

Analytical thinking, Creative thinking, Technological literacy

Course Content

U1: Introduction to Accounting Analytics

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning and scope of Accounting Analytics - Difference between Traditional Accounting & Accounting Analytics - Role of analytics in financial reporting and auditing - Types of analytics: Descriptive, Diagnostic, Predictive, Prescriptive - Accounting data lifecycle.

U2: Excel for Accounting Analytics

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Spreadsheet modelling for accounting decisions (Trend and ratio analysis - Dashboard creation for financial statements), Advanced Excel functions: IF, VLOOKUP/XLOOKUP, SUMIFS, COUNTIFS, INDEX & MATCH, Pivot Tables & Pivot Charts.

U3: Financial Statement Analytics

Teaching Hours: (15)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Ratio analysis using analytics (Visualising profitability, liquidity, and solvency) - Comparative financial statement analysis - Inter-firm and intra-firm comparison - Common-size and trend analysis - Cash flow analytics.

U4: Fraud Detection & Audit Analytics

Teaching Hours: (10)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. Accounting frauds and red flags - Identifying unusual transactions - Duplicate payment detection - Revenue manipulation analysis - Aging analysis of receivables - Role of analytics in auditing - Benford's Law - Exception reporting.

U5: Managerial & Cost Accounting Analytics

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U5-T1. Cost behavior analysis -Cost variance analysis using Excel - Break-even and CVP analytics - Break-even models - Budgetary control using analytics - Forecasting sales and expenses - Scenario and sensitivity analysis.

CIA III - 20 Marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End-semester Exam question paper - 100 marks

Section A - $7 * 5 = 35$ marks

Section B - $5 * 10 = 50$ Marks

Section C - $1 * 15 = 15$ marks

COURSE NAME: BASICS OF ACCOUNTANCY AND ECONOMICS

COURSE CODE: COM001-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)
- Bachelor of Commerce (SEMESTER - I)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - I)
- Bachelor of Commerce (Work Integrated) (SEMESTER - I)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Understand the basic concepts and objectives of accounting

CO2: Apply accounting principles and double entry system to record transactions

CO3: Prepare ledger accounts and trial balance

CO4: Explain fundamental concepts of economics and economic problems

CO5: Analyse demand and supply concepts and market equilibrium

CO6: Understand national income concepts and the impact of inflation

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, No poverty

21st Century Skills

Analytical thinking

Course Content

U1: Introduction to Accounting

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Meaning and Objectives of Accounting – Users of Accounting Information – Book Keeping vs Accounting – Branches of Accounting – Accounting Terminologies.

U2: Accounting Concepts and Double Entry System

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Accounting Concepts and Conventions – Double Entry System – Types of Accounts – Rules of Debit and Credit – Journal Entries.

U3: Ledger and Trial Balance

Teaching Hours: (5)

Development Needs:

Local

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Ledger Posting – Balancing of Accounts – Trial Balance – Errors and Rectification (Introductory level). Introduction to Partnership accounts

U4: Introduction to Economics

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics, Sustainability

U4-T1. Meaning and Scope of Economics – Micro and Macro Economics – Basic Economic Problems – Opportunity Cost – Production Possibility Curve

U5: Demand and Supply

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Law of Demand – Law of Supply – Determinants – Elasticity of Demand – Market Equilibrium.

U6: National Income and Inflation

Teaching Hours: (5)

Development Needs:

National

Skill Focused:

Entrepreneurship

Cross Cutting Issues:

Professional Ethics

U6-T1. Meaning of National Income – Concepts of National Income – Methods of Measurement – Inflation: Meaning, Causes and Effects.

Description

Documents : Memorandum of association and its contents; Articles of association and its contents; Entrenchment clause, Doctrine of Ultra vires, Doctrine of Constructive Notice and Doctrine of Indoor management, prospectus and its types; Misstatement in prospectus; liability for misstatements.

U3: Management

Teaching Hours: (16)

Development Needs:

National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Management and ESG compliance

Description

Management and ESG compliance

: Director and its Classification including Women directors, Independent directors, Small shareholder's director; Disqualifications, Director Identification Number (DIN); Their appointment; Legal positions, powers and duties; removal of directors; Key Managerial Personnel.

Meetings: Meetings of shareholders and board; Types of meeting, convening and conduct of meetings, Quorum, Agenda, proxy forms, Minutes book and Voting Methods including postal ballot, Ordinary and Special resolution,, drafting of resolutions, Circular Resolution, e-voting; Corporate Governance and Committee, Committees of Board of Directors - Audit Committee, Nomination and Remuneration Committee, Stakeholders Relationship Committee, Corporate Social Responsibility Committee, Grievance Redressal Committee.

ESG Framework: ESG Vs.CSR-BRSR (BusinessResponsibility and Sustainability Report)- NGRBC(National Guidelines forResponsible Business Conduct)

U4: Dividends, Books of Account, Secretarial Audit and Reports

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability, Entrepreneurship

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Dividends, Books of Account and Reports

Description

Dividends, Accounts, Audit: Provisions relating to payment of Dividends, Interim dividend, Declaration of dividend out of reserves, provisions relating to Unpaid and unclaimed dividends, Provisions relating to Books of Account, IEPF with relation to Dividends, Board's Report.

U5: Winding up, Insolvency and administration of Company Law

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values

U5-T1. Winding up, Insolvency and administration of Company Law

Description

Winding Up and IBC: Concept and modes of Winding Up, Introduction to Insolvency and Bankruptcy Code, 2016: Need for the Insolvency and Bankruptcy Code; Overall scheme of the Insolvency and Bankruptcy Code; Important Definitions; Institutions under Insolvency and Bankruptcy Code, 2016. Administration of Company Law [including National Company Law Tribunal (NCLT), National Company Law Appellate Tribunal (NCLAT), Special Courts].

Kapoor, N.D. (2024). Elements of Mercantile Law (39th Ed.). New Delhi: Sultan Chand & Sons
Singh, A (2022)-Company law (17 th ed.)- Eastern Book Company

EXAMINATION PATTERN

COURSE NAME: CORPORATE LAW AND ADMINISTRATION

COURSE CODE: COM101-2

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Examination Pattern for Continuous Internal Assessment (CIA)

Assessment Component | Description | Marks | CIA I | Quizzes- role plays- objective type tests- written assignments- discussion forums- article reviews- case analysis etc. | 20 | CIA II | Mid Semester written examination conducted for 2 hours duration Sections Type Marks A Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) 3 X 5 = 15 B Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) 2 x 10 = 20 C Case Study (Compulsory) 1 x 15= 15 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | 2 x 10 = 20 | C | Case Study (Compulsory) | 1 x 15= 15 | 50 | Sections | Type | Marks | A | Short Answer Questions (Answer ALL three questions out of which third question will be an internal choice. Each question carries five marks) | 3 X 5 = 15 | B | Conceptual / Descriptive/Problem Type

questions (Answer ALL two questions out of which one will be an internal choice. Each question carries ten marks) | $2 \times 10 = 20$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ | CIA III | Group work consisting of presentations- Viva voce- and report submission. | 20 |

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Question Paper Pattern for End Term Examination (ETE)

Written examination conducted for 3 hours duration:

Sections | Type | Marks | A | Short Answer Questions (Answer ALL seven questions out of which six and seven have internal choice). Each question carries five marks | $7 \times 5 = 35$ | B | Conceptual / Descriptive/Problem Type questions (Answer ALL five questions out of which two questions are internal choice). Each question carries ten marks) | $5 \times 10 = 50$ | C | Case Study (Compulsory) | $1 \times 15 = 15$ |

COURSE NAME: RESEARCH METHODOLOGY

COURSE CODE: COM101-5

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - V)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - V)
- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - V)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

CO1: Apply appropriate research types and approaches in real world business and social research situations.

CO2: Construct a structured literature review and apply American Psychological Association (APA) format to cite scholarly and non-scholarly sources .

CO3: Identify and discuss the complex issues inherent in selecting a research problem, selecting an appropriate research design, and implementing a research project

CO4: Evaluate the key components of a research proposal

CO5: Appraise different sampling techniques and research instruments to determine their appropriate use in research studies.

CO6: Analyse data using appropriate statistical tools and statistical software and interpret the results.

Sustainability Development Goals (SDG)

Partnerships for the goals, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Quality control, Technological literacy

Course Content

U1: Introduction to Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U1-T1. Introduction to Research

Description

Nature of Research, Brief History of Research, Relevance: Why and How to do it?; Criteria of good research, Attributes of a good researcher; Social Research – Objectives, Assumptions and Applications, Significance and Difficulties of Social research; Business research – Purpose, Dimensions and Fields of Application; Ethics in research – APA Ethics code.

U2: Methods and Techniques of Research

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. Methods and Techniques of Research

Description

Classification of Research – Pure Research, Applied Research, Exploratory Research, Descriptive Study, Diagnostic Research, Action Research; Quantitative Research, Qualitative Research, Triangulation Research; Experimental Research, Analytical Research, Survey Research, Historical Research, Case Study Research; Inter Disciplinary Research, Multi-Disciplinary Research and its essentials; Inductive and Deductive Methods.

U3: Literature Review, Research Problem, Research design

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. Literature Review, Research Problem, Research design

Description

Literature Review – Scholarly and Non-Scholarly Sources, Literature Review formats – Narrative, Systematic, Scoping, Bibliometric; APA 7 th Edition for References;
Research Problem – Components, Problem Definition, Evaluation of Problem;
Research Design – Classification of Research Design, Importance of Research Design, Contents of a Research Plan.

U4: Sampling and Sample Design

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. Sampling and Sample Design

Description

Key terms and terminologies, Purpose of Sampling, Sampling Techniques – Random Sampling and Non-random sampling, Errors in Sample Surveys – Sampling Errors and Non-Sampling Errors

U5: Methods and Tools of Data Collection

Teaching Hours: (10)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U5-T1. Methods and Tools of Data Collection

Description

Meaning and Importance of Data, Sources of data – Primary, Secondary, Tertiary; Data collection methods – Surveys, Interviews, Focus group Discussions, Un focus Groups, Observations, Projective Techniques; Instruments of data collection – Questionnaire, Schedule, Interview schedule, Rating Scale, Check list, Opinionnaire; Variable – Meaning and types; Scales of Measurement – Nominal, Ordinal, Interval, Ratio

U6: Processing of Data and Report Writing

Teaching Hours: (12)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U6-T1. Processing of Data and Report Writing

Description

Data Cleaning – Handling duplicate values, missing values and extreme values; Data Coding – Classification and transcription; Quantitative data analysis using SPSS (Practical aspects); Qualitative analysis using NVIVO (Practical aspects);
Report Writing – Types of report, Format of research report, Evaluation of reports.

Essential Reading

Krishnaswami, O.R (2023). Research Methodology. Mumbai: Himalaya Publishing House.

EXAMINATION PATTERN

COURSE NAME: RESEARCH METHODOLOGY

COURSE CODE: COM101-5

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

5 ASSESSMENTS OF 20 MARKS EACH Resulting in 100

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

ASSESSMENTS OF

COURSE NAME: BUSINESS ECONOMICS

COURSE CODE: COM102-1

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - I)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - I)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - I)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - I)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - I)

Course learning Outcomes

CO1: Develop the conceptual foundations and analytical methods used in micro economics.

CO2: Develop the ability to understand and appreciate the economic theories and their application in real economic life.

CO3: Understand the role of prices in allocating scarce resources in market economies and explain the consequences of government policies in the form of price controls.

CO4: Appraise the monetary policy and fiscal policy prevalent within a country.

Sustainability Development Goals (SDG)

Consumption and production, Decent work and economic growth, Industry, innovation and infrastructure, No poverty, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Demand and supply Analysis and Applications

Teaching Hours: (12)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values, Sustainability

U1-T1. Demand and supply Analysis and Applications

Description

Economic models- Production Possibility Frontier and Circular Flow of Income: Two Sector Model; Demand Analysis: Law of demand, Exceptions to the law; Changes in demand, Elasticity of Demand: Definition, degrees and measurement - Supply Analysis: Laws of supply, Changes in supply, and elasticity of supply - Market equilibrium, Applications in real life: Price Ceiling, Price Floor and Externality.

U2: Theory of Consumer Choice

Teaching Hours: (8)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U2-T1. Theory of Consumer Choice

Description

The Budget Constraint: What the Consumer Can Afford, Preferences: What the Consumer Wants, Indifference curves- Properties, Optimization: What the Consumer Chooses and definition of Price Effect, Income Effect and Substitution Effect.

U3: Theory of Production and Cost

Teaching Hours: (10)

Development Needs:

None

Skill Focused:

None

Cross Cutting Issues:

None

U3-T1. Theory of Production and Cost

Description

Production function; Law of variable proportions; Laws of returns, Economies of scale; Cost Function-Important cost concepts. Short run and long run cost analysis (traditional theory) Modern theory of cost- Revenue analysis. TR, AR and MR.

U4: Market Structure

Teaching Hours: (15)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

Human Values

U4-T1. Market Structure

Description

Market structure- Perfect competition, Price and output determination- Monopoly- Price output determination, Price discrimination Monopolistic Competition – Features, Price and Output determination (Short Run and Long Run). Oligopoly: Definition and types of Oligopoly.

U5: Measuring Nation's Income and Cost of Living

Teaching Hours: (9)

Development Needs:

National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U5-T1. Measuring Nation's Income and Cost of Living

Description

Measuring GDP - Real and Nominal GDP and GDP Deflator – Inflation: Consumer Price Index, Comparison of CPI and GDP Deflator and Adjusting economic variables to inflation – Money Supply Measures.

U6: Money and the Financial System

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

None

Cross Cutting Issues:

None

U6-T1. Money and the Financial System

Description

Saving and Investment in National Income Accounts. The Market for Loanable Funds. Banks and the Money Supply. Monetary Measures. Meaning of Inflation and Costs of Inflation. Tools of Credit Control.

3. Lipsey, R.G. and K.A. Chrystal (2011). Principles of Economics (IX ed.). Oxford University Press: Oxford
4. Ramsfield, E. (2012). Micro Economics (IX ed.). New York: W.W Norton and company.
5. Ray, N.C. (2014). An introduction to Microeconomics, Macmillan Company of India Ltd: Delhi.

EXAMINATION PATTERN

COURSE NAME: BUSINESS ECONOMICS

COURSE CODE: COM102-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1 Part A- $10 \times 1 = 10$ marks

Part B- 10 marks

CIA- 2 - $3 \times 5 = 15$ marks, $10 \times 2 = 20$ marks, $15 \times 1 = 15$ marks

CIA 3- 20 marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

$7 \times 5 = 35$ marks

$5 \times 10 = 50$ marks

$1 \times 15 = 15$ marks

COURSE NAME: SERVICE LEARNING AND COMMUNITY ENGAGEMENT

COURSE CODE: COM162-3

COURSE TYPE: Practical

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - III)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - III)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - III)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - III)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - III)

Course learning Outcomes

CO1: To demonstrate their ability to apply commerce knowledge to real-world situations, communicate effectively with diverse groups of people, work collaboratively in teams.

CO2: To reflect on their experiences before, during, and after the service learning project, and assess the individuals' skills developed.

CO3: To exhibit teamwork in the planning and execution of meaningful service learning projects and report presentation.

CO4: To showcase appreciation for the discipline knowledge through service learning initiatives in the field of commerce.

Sustainability Development Goals (SDG)

Affordable and clean energy, Decent work and economic growth, Good health and well-being, Partnerships for the goals, Quality education, Reduced inequalities

21st Century Skills

Analytical thinking, Curiosity and lifelong learning, Empathy and active listening, Leadership and social influence, Motivation and self-awareness

Course Content

U1: Introduction to Service learning and Community Engagement

Teaching Hours: (10)

Development Needs:

Global, Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U1-T1. Service-Learning: The Concept, Objectives, and Scope; Need for Community and Academia. Exploring the Intersection of Business and Community Impact, Overview of Service-Learning Types of Service-Learning, Stages in Service Learning Needs Assessment: Identifying community partners, Conducting needs assessment, Community mapping, Reflecting on Personal Expectations and Preconceptions, Finalising the community for the service learning project.

Description

U2: Planning and Designing Service Learning Projects

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U2-T1. Investigating Community Problems and Aligning Course Objectives and Outcomes, Identifying Relevant Literature for the problem, PRA tools, Reflection: Kolb's Model of Experiential Learning, Types of reflection, Reflective Journals and Diary, Planning and

Designing the Service Learning Project (Block 8 Model), Plan for Effective Implementation, Reflect on Challenges, Reciprocal Learning Moments, and Adaptations.

Description

U3: Theoretical Models and Impact Analysis

Teaching Hours: (10)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U3-T1. Exploring Theoretical Models for Solving Community Problems and Understanding Their Applicability, Reflections on the Selected Model for the service learning project, Presentation of the possible Impact and Effectiveness of the Service Learning Project, Executing the service learning Project, preparing and delivering the Project Deliverables: Review the project and conduct an impact analysis

Description

U4: Project Outcomes and Reflection

Teaching Hours: (15)

Development Needs:

Local

Skill Focused:

Skill Development

Cross Cutting Issues:

Human Values

U4-T1. Execution of service learning project, Showcasing Project Outcomes, Celebrating Achievements, and Reflecting on the Overall Service-Learning Experience, Showcasing Project Outcomes, Celebrating Achievements, Reflecting on the Overall Service-Learning Experience, Final review and assessment.

Description

Essential Reading

1. Service-Learning in Business: A Guide to Integrating Community Engagement into the Business Curriculum, by Robert G. Bringle and Julie A. Hatcher (2015).
1. Cress, C. M., Collier, P. J., Reitenauer, V. L., & Associates. (1962). Learning through Serving: A Student Guidebook for Service-Learning and Civic Engagement Across Academic Disciplines and Cultural Communities. Publisher.

EXAMINATION PATTERN

COURSE NAME: SERVICE LEARNING AND COMMUNITY ENGAGEMENT

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 20 Marks, CIA II 20 Marks, CIA III 20 Marks, CIA IV 20 Marks, CIA V 20 Marks

COURSE NAME: INTERNSHIP

COURSE CODE: COM181-5

COURSE TYPE: Practical

TOTAL HRS: 30 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - V)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - V)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - V)
- Bachelor of Commerce (Morning) (SEMESTER - V)
- Bachelor of Commerce (SEMESTER - V)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - V)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - V)

Course learning Outcomes

C01: Apply theoretical knowledge to real-world business environments

C02: Demonstrate professional skills and workplace competencies

C03: Critically analyse business operations and organizational practices

Sustainability Development Goals (SDG)

Decent work and economic growth, Industry, innovation and infrastructure

21st Century Skills

Curiosity and lifelong learning

Course Content

U1: Introduction to the Organization

Teaching Hours: (60)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U1-T1. 1.1 Profile of the organization (including evolution and awards and recognition) 1.2 Vision, Mission, Goals

Description

U2: Organizational Design and Functional Areas

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U2-T1. 2.1 Organization design & structure 2.2 Departments and Divisions 2.3 Product/s and Service/s 2.4 Business Model

Description

☐ Hierarchical/flat/matrix structure (include organogram if possible)

☐ Overview of key functional departments

☐ Major offerings, features, target market

Revenue generation, customer acquisition, delivery mechanism

U3: Key Performance Areas (KPA's), Organizational Control and Strategies

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U3-T1. 3.1 KPA's of the various departments 3.2 Accounting Standards & Reporting followed 3.3 HR Practices 3.4 Financial Highlights 3.5 Modes of Marketing 3.6 Integration of AI 3.7 Tax Filing & Auditing 3.8 SWOC Analysis of the Organization (Based on the intern's observation and analysis supported by facts) 3.9 Key Success Factors and Strategies of the Organization (Based on the intern's observation and analysis supported by facts) 3.10 Suggestions for the future growth of the organization

Description

- ☑KPA's across various departments (Sales, HR, Finance, etc.)
- ☑IND AS, internal reporting systems, compliance frameworks
- ☑Recruitment, appraisal, training, and retention strategies
- ☑Key financials (Turnover, Profit, Investments – if available)
- ☑Digital, traditional, B2B/B2C approaches, branding
- ☑Use of AI, automation tools, ERP systems, CRM tools
- ☑Tax practices, statutory audit process, internal audits
- ☑Strengths, Weaknesses, Opportunities, Challenges
- ☑Factors driving organizational growth and sustainability
- Intern's strategic or operational recommendations

U4: Course Learning Outcomes

Teaching Hours: (60)

Development Needs:

Global

Skill Focused:

Employability

Cross Cutting Issues:

Professional Ethics

U4-T1. 4.1.1 Relevance of Academic Theories (Accounting, Finance, HR, etc.) 4.1.2 Gaps or Irrelevance Identified 4.2.1 New Skills Acquired during Internship 4.2.2 Existing Skills Nurtured or Strengthened 4.2.3 Skills/Competencies Identified for Further Development 4.2.4 Input from Key Personnels 4.3.1 Good Business Practices Observed 4.3.2 Practices Worth Replicating at CHRIST University

Essential Reading

EXAMINATION PATTERN

COURSE NAME: INTERNSHIP

COURSE CODE: COM181-5

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment (Marks Distribution) Weekly Report Submission - 20 Marks (2.5 per week) Industry Mentor's Evaluation - 10 Marks Internship Mentor's Evaluation - 20 Marks Internship Report Evaluation - 25 Marks Viva Voce Examination - 25 Marks Total - 100 Marks

COURSE NAME: ENTREPRENEURSHIP

COURSE CODE: COM201-4

COURSE TYPE: Theory

TOTAL HRS: 4 Hours/Week

OFFERED PROGRAMMES:

- Bachelor of Commerce (Accountancy and Taxation) (SEMESTER - IV)
- Bachelor of Commerce (Applied Finance and Analytics) (SEMESTER - IV)
- Bachelor of Commerce (Finance and Investment) (SEMESTER - IV)
- Bachelor of Commerce (Morning) (SEMESTER - IV)
- Bachelor of Commerce (SEMESTER - IV)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - IV)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - IV)

Course learning Outcomes

CO1: Discuss the fundamental concept and emerging trends of entrepreneurship.

CO2: Elaborate the entrepreneurial process and classify the different styles of thinking.

CO3: Develop and summarise the creative problem-solving technique and types of innovation.

CO4: Create a business model for a start-up.

CO5: Analyze the Entrepreneurial Sustainability and Social support systems for entrepreneurs.

Sustainability Development Goals (SDG)

Gender equality, Good health and well-being, Industry, innovation and infrastructure, Reduced inequalities, Sustainable cities

21st Century Skills

Analytical thinking, Creative thinking, Curiosity and lifelong learning, Dependability and attention to detail, Empathy and active listening, Leadership and social influence, Motivation and self-awareness, Quality control, Resilience flexibility and agility, Technological literacy

Course Content

U1: Introduction

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U1-T1. Introduction

Description

Evolution, Characteristics, Nature, Types, Functions of Entrepreneur - Distinction between an Entrepreneur and a Manager, Concept, Growth of Entrepreneurship in India, Role of Entrepreneurship in Economic Development. Emerging trends of contemporary entrepreneurship – Determinants of entrepreneurship, creative responses to social challenges; Dimensions of entrepreneurship: intrapreneurship, technopreneurship, entrepreneurship, ecopreneurship, social entrepreneurship.

U2: The Entrepreneurial Skills and Practices

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U2-T1. The Entrepreneurial Skills and Practices

Description

Entrepreneurial myth, motivation for entrepreneurship, Entrepreneurial skills and competencies, entrepreneurial values and attitude; Entrepreneurial risk propensity and ability to cope; Implementing and managing the venture, Harvesting the venture, Design Thinking, Systems Thinking, Agile thinking and Lean thinking Blue Ocean Strategy, Role and relevance of mentors, Incubation cell, Methods of Brainstorming ideas. Types of ventures, Risk and Benefits, Legal and Regulatory Framework, Ethics and Social Responsibility, Market Research (venture opportunity screening), Feasibility Analysis.

U3: Creativity and Innovation

Teaching Hours: (14)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U3-T1. Creativity and Innovation

Description

Creativity, Principles of creativity, Creative Problem Solving: Heuristics, Brainstorming, Synectic, Value Analysis Innovation and Entrepreneurship: Profits and Innovation, Principles of Innovation, Disruptive, Incremental and Open innovations, Nurturing and Managing Innovation, Globalization, Concept and Models of Innovation, Methods of protecting Innovation and creativity, Significance of Intellectual Property Rights, Patents & Copyright, Business Model Canvas, and Lean Canvas. Geographical Indications (GI), Types, GI Law in India.

U4: Entrepreneurial Process

Teaching Hours: (12)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U4-T1. Entrepreneurial Process

Description

Introduction to the Business Plan, Opportunity sensing and identification process (cases to be discussed on how business ideas are perceived); Generation of business ideas, feasibility analysis of business ideas, preparation of a business plan (practical work on devising of a plan is to be assigned to the students) in the form of a project report on specific business proposal; Project appraisal and its techniques; Developing the Business Model for starting a new venture, E-Commerce and Growing the Venture: The Internet and its impact on venture development, Approaches to E-Commerce, Strategies for E-Commerce Success, The nature of international entrepreneurship and their importance

U5: Entrepreneurial Sustainability

Teaching Hours: (10)

Development Needs:

Global, Local, National, Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Environment, Gender, Human Values, Professional Ethics, Sustainability

U5-T1. Entrepreneurial Sustainability

Description

Entrepreneurial mindset in the contemporary business scenario, family business and entrepreneurship vis-à-vis first generation entrepreneurs (Nascent Entrepreneurship). Social support system for entrepreneurship, public and private system of stimulation; Availability of finance, marketing, technological and managerial support systems; Role of industries association; Entrepreneurs' self-help group, trade and industry associations; Existence of business incubators;

Availability of venture capital and angel investors support system; Private equity funds; Startup Action Plan; Make in India initiative.

Environment, Sustainability

U2-T1. SHAZADPUR (Glimpses of Bengal by Rabindranath Tagore)

Description

Between 1885 and 1895, Rabindranath Tagore spent extended periods in rural Bengal, overseeing his family's estates in places like Shelaidaha, Patisar, and Shazadpur (now in Bangladesh). During this time, he wrote a series of personal letters, mostly addressed to family members and close friends. These letters, later selected and translated by Tagore himself in *Glimpses of Bengal*, offer vivid portraits of village life, natural beauty, and human relationships in colonial Bengal.

U2-T2. Message to the Modern World by an Indian Chief (Script)

Description

In 1854, Chief Seattle delivered a letter (often misrepresented as a speech) to the then-President of the United States, Franklin Pierce, following a request by the U.S. government to purchase his tribe's land for the purpose of expanding the American frontier. The context of the letter is tied to the encroachment of settlers on Native American lands and the forced relocation of tribes as part of broader U.S. government policies such as the Indian Removal Act.

U3: Essay

Teaching Hours: (7)

Development Needs:

Global, Local

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U3-T1. Trees of Bangalore by Madhav Gadgil

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U3-T2. Thinking Like a Mountain - Aldo Leopold

Description

This unit introduces essays on environment to the learners along with developing skills of essay writing.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Environment, Sustainability

U4-T1. Green building ratings crucial to address climate change

Description

As the global community intensifies efforts to address climate change, the building and construction sector—responsible for a significant share of carbon emissions—presents both a challenge and an opportunity. This article explores the critical role of sustainability in shaping the built environment.

U4-T2. International Rivers statement on Teesta dam disaster in Sikkim

Description

This powerful and urgent article highlights the devastating collapse of the Chungthang dam (Teesta III) in Sikkim on October 4, 2023, following a glacial lake outburst flood (GLOF).

EXAMINATION PATTERN

COURSE NAME: ENGLISH FOR PROFESSIONAL COMMUNICATION

COURSE CODE: ENG283-1

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA 1- Structured Analytical Writing through PEEL (20 Marks)

Course Component: Analytical Writing / Critical Thinking

Mode: Individual (In-class / Internal Assessment)

Students will write three structured analytical paragraphs using the PEEL framework in response to a prescribed literary or visual text studied in class.

Each paragraph must: Present a clear argumentative Point. Provide relevant textual or contextual Evidence. Offer a critical Explanation using a theoretical lens. Conclude with a strong Link to the central argument

CIA 3- Narrative Writing/Report writing7. Narrative Writing - 20 Marks

Component Title: Critical Narrative Construction

Instructions: Write a 800–1000 word narrative that integrates reflection, perspective, and socio-cultural awareness. The narrative must move beyond storytelling and demonstrate thematic depth.

2. Field Study Analytical Report

Marks: 20

Word Limit: 800 -1000 words

Mode: Individual Field-Based Study

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

Section A : Short Notes (3x10=30)

Section B: Long Answer (2x10=20)

Section C: Composition (2x10=20)

COURSE NAME: ENGLISH FOR PROFESSIONAL COMMUNICATION

COURSE CODE: ENG283-2

COURSE TYPE: Theory

TOTAL HRS: 3 Hours/Week

OFFERED PROGRAMMES:

- BCom (International Business Accounting/Honours/Honours with Research) [Integrated with CPA Australia] (SEMESTER - II)
- Bachelor of Business Administration (Applied Finance with FinTech) (SEMESTER - II)
- Bachelor of Business Administration (Business Analytics) (SEMESTER - II)
- Bachelor of Business Administration (Decision Science) (SEMESTER - II)

- Bachelor of Commerce (International Accountancy and Finance) (SEMESTER - II)
- Bachelor of Commerce (International Finance) (SEMESTER - II)
- Bachelor of Commerce (Morning) (SEMESTER - II)
- Bachelor of Commerce (SEMESTER - II)
- Bachelor of Commerce (Strategic Finance) (SEMESTER - II)
- Bachelor of Commerce (Work Integrated) (SEMESTER - II)
- Bachelor of Hotel Management (SEMESTER - II)
- Bachelor of Science (Accountancy and Analytics) (SEMESTER - II)
- Bachelor of Science (Actuarial Science) (SEMESTER - II)
- Integrated Master of Business Administration (iMBA) (SEMESTER - II)

Course learning Outcomes

CO1: Construct and deliver professional presentations, reports and emails, demonstrating clear, concise, and persuasive communication appropriate for diverse business audiences.

CO2: Analyze and interpret texts, including financial reports and case studies, to identify key arguments, evaluate evidence, and draw informed conclusions.

CO3: Demonstrate proficiency in using specialized business vocabulary accurately in both written and oral communication, enhancing their professional credibility.

Sustainability Development Goals (SDG)

Gender equality, Reduced inequalities

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Empathy and active listening

Course Content

U1: Short Story

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U1-T1. The Story of an Hour by Kate Chopin

Description

A classic American short story, Kate Chopin's "The Story of an Hour" is praised for both its potent feminist themes and its economical use of language.

U1-T2. Mrs Sen Jhumpa Lahiri

Description

One of the most notable stories in Jhumpa Lahiri's *Interpreter of Maladies* (1999) is Mrs. Sen's, which provides a subtly potent reflection on cultural isolation, gender, identity, and displacement.

U2: Speeches and Letters

Teaching Hours: (7)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U2-T1. Visual Text: Speech by Wangari Maathai (Noble Acceptance Speech)

Description

Wangari Maathai delivered her Nobel Peace Prize lecture in December 2004, after being honored for her contributions to sustainable development, democracy, and peace. In her speech, she emphasized the interconnection between environmental conservation, human rights, and peace.

U2-T2. True Liberation of Women by Indira Gandhi

Description

Indira Gandhi's speech, "True Liberation of Women", was delivered on March 26, 1980, at the inauguration of the All-India Women's Conference Building Complex in New Delhi. In this address, she reflected on the role of women's organizations in India and highlighted the need for a liberation that acknowledges women's individuality rather than merely imitating men.

U3: Essay

Teaching Hours: (7)

Development Needs:

National, Regional

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U3-T1. Intersectional Discrimination: Understanding the Indian Perspective

Description

This essay looks at gender discrimination in the Indian context with examples.

U3-T2. Excerpt from "The Truth About Me: A Hijra Life Story" - A. Revathi

Description

The novel shares experiences of an Indian hijra in a stigmatized society.

U4: Case Study

Teaching Hours: (8)

Development Needs:

Global, National

Skill Focused:

Employability

Cross Cutting Issues:

Gender

U4-T1. Changing Face of Women's Representation in Hindi Cinema

Description

In a country where cinema is both cultural currency and a reflection of societal values, the portrayal of women in Bollywood deserves critical scrutiny. This article unpacks the complex history of women's representation in Hindi cinema—from the silencing of their presence in early 20th-century films to their objectification through item numbers and the male gaze, as theorized by Laura Mulvey.

U4-T2. Why Diversity Programs

Description

This article critically examines the efficacy of long-standing corporate diversity programs, revealing that many popular strategies—such as mandatory diversity training, hiring tests, and grievance systems—not only fail to improve diversity but often worsen it.

EXAMINATION PATTERN

COURSE NAME: FRENCH

COURSE CODE: FRE181-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

Assessment Description:

This course includes three CIAs and an End Semester Evaluation. CIA 1 & 3 for 20 marks (later reduced to 10 marks) each will be administered by the respective faculty in the class. CIA 2 is mid semester examination for 50 marks which is a descriptive test conducted at the central level through the office of examination. MSE is carried out as a two-hour paper, conducted out of 50 marks and later reduced to 25 marks. ESE also is a centralized examination. ESE is conducted as a two - hour paper which carries 50 percent weightage. Examination is conducted out of 50 marks. Attendance carries 5 marks.

CIA-1

CIA1:20 marks-Written test on grammar & vocabulary.

Assignment type- Individual, Formative

Outcome: Learners will be able to apply their grammar and vocabulary knowledge. (Mapped to C02 and C03)

Evaluation Criteria:

Grammar – Verbs/ Articles & Gender – full mark per correct answer.

Vocabulary – Daily life- focus on thematic vocabulary - full mark per correct answer

Identifying correct sentence structures or completing basic phrases- full mark per correct answer.

Note:

☑All questions are multiple-choice (1 correct option out of 3 or 4).

☑No negative marking.

☑Difficulty level tailored to A1.1 CEFR : simple, concrete language and structures.

☑Mark distribution can be adjusted slightly depending on emphasis in the course (e.g., more on verbs if that was a major learning point).

CIA - 2(Mid SemExam):50 marks –Writtenexam.

This is a formative assignment conducted as a centralized Mid-Semester Examination (MSE) as per the university calendar. Learners are required to attempt SEC -A containing grammar, Section B-Containing comprehension, civilization and translation and Section C containing Writing comprehension. The examination is for 50 marks and has a duration of 2 hours. Please note that only learners with a minimum of 75% attendance are allowed to write the exam.CO1, CO2 and CO 3 would be covered for MSE.

MSE is scheduled during August ,2026.

CIA - 3

CIA3:20 marks– Creative Assignment on Oral Competence.

Assignment type- Group of 3/4, Formative

Outcome: Learners will be able to apply their spoken French knowledge and listening competence. (Mapped to CO1, CO3 and CO4)

Evaluation Criteria:

1.Pronunciation & Intonation – (4)

2.Vocabulary Use – (4)

3.Grammatical Accuracy – (4)

4.Fluency & Coherence – (4)

5.Comprehension & Interaction – (4)

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

SECTION A- 20 MARKS

SECTION B- 15 MARKS

SECTION C - 15 MARKS.

- Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - III)
- Bachelor of Science (Psychology) (SEMESTER - III)

Course learning Outcomes

CO1: Students will be able to develop basic oral and written communication skills to comprehend and respond to situations from daily life

CO2: Students will be able to comprehend about oneself/ others / the immediate environment and engage in simple conversation.

CO3: Students will gain awareness of German customs, traditions and norms and other socio-cultural aspects.

Sustainability Development Goals (SDG)

Quality education

21st Century Skills

Creative thinking, Curiosity and lifelong learning, Empathy and active listening

Course Content

U1: Herzlich willkommen!

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Gender, Human Values, Professional Ethics

U1-T1. Sich grüßen und verabschieden

Description

Same as course content

U1-T2. Sich und anderen vorstellen

U1-T3. Nach Namen, Herkunft und Wohnort fragen, W-Fragen, Verben und Personalpronomen

U1-T4. Das Alphabet, buchstabieren, Zahlen bis 10, Telefonnummer/ Email Adresse sagen, ein Formular ausfüllen

U2: Kontakte

Teaching Hours: (7)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U2-T1. Zahlen von 20-100, Ja/Nein Fragen, Nach Telefonnummer/ Email Adresse fragen

Description

Same as course content

U2-T2. Nach Sprachen und Nationalität fragen, persönliche Angaben machen, Verbkonjugation, haben and sein

U2-T3. Berufsbezeichnungen

U3: Wie heißt das auf Deutsch?

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U3-T1. Fragen, wie etwas auf Deutsch heißt, Dinge erfragen und benennen

Description

Same as course content

U3-T2. Bestimmter und unbestimmter Artikel, Possessivartikel mein, dein, Negationsartikel und Personalpronomen

U3-T3. Aufforderungen verstehen und machen, um Hilfe bitten, Imperativ

U4: Einen Kaffee, bitte.

Teaching Hours: (8)

Development Needs:

Global

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Human Values, Professional Ethics

U4-T1. Fragen wie es geht, jemanden vorstellen, Preise nennen, verstehen und erfragen

Description

Same as course content

U4-T2. Verb möchten, in der Cafeteria bestellen

U4-T3. Singular and plural, Komposita

U4-T4. Preisliste, Einkaufsliste machen, ein Fest planen

Course learning Outcomes

C01: Identify and use Hindi alphabets, words, and basic sentence structures for simple communication.

C02: Apply basic grammatical concepts such as parts of speech, gender, number, and tense in spoken and written Hindi.

C03: Develop functional vocabulary related to everyday life and use it appropriately in simple contexts.

C04: Demonstrate basic conversational ability in Hindi through guided dialogue and short interactions.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Fundamentals of Hindi Language

Teaching Hours: (21)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Alphabets-Vowels and Consonants Parts of Speech-Noun, pronoun, verb, adverb, adjective, prepositions, conjunction and interjection Numbers Gender and Tense

Description

This unit introduces students to the basic structure of the Hindi language with emphasis on foundational linguistic competence. Students will learn the Hindi alphabet, including vowels and consonants, to develop correct pronunciation and script familiarity. The unit covers essential parts of speech such as nouns, pronouns, verbs, adverbs, adjectives, prepositions, conjunctions, and interjections, enabling students to understand sentence construction and grammatical usage. Instruction in numbers, gender, and tense forms helps students grasp basic grammatical agreement and sentence patterns in Hindi. Through systematic practice, this unit aims to build a strong grammatical foundation that supports basic reading, writing, and introductory conversational skills in Hindi.

U2: Vocabulary Development

Teaching Hours: (3)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Names of things, animals, birds, vegetables, flowers, days, months etc.

Description

This unit focuses on building basic Hindi vocabulary required for everyday communication. Students will learn commonly used words related to names of objects, animals, birds, vegetables, flowers, days, months, and other familiar categories. Emphasis will be placed on correct pronunciation, spelling, and contextual usage of vocabulary items. Through structured exercises and classroom activities, students will gradually develop the ability to recognize, recall, and use essential Hindi words in simple sentences, thereby strengthening their lexical competence and confidence in basic language use.

U3: Conversation Practice

Teaching Hours: (6)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Conversation practice

Description

This unit aims to develop basic conversational skills in Hindi through guided and interactive practice. Students will engage in simple dialogues and short interactions based on everyday situations such as greetings, introductions, daily activities, and common social contexts. The focus will be on listening and speaking skills, sentence formation, and appropriate use of vocabulary and basic grammar. Through repeated practice and teacher-guided interaction, students will gain confidence in using Hindi for simple oral communication and real-life situations.

EXAMINATION PATTERN

- Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - IV)
- Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

CO1: Explain the role of oral tradition in the evolution of Hindi and demonstrate functional use of Hindi in public and professional domains using the Devanagari script.

CO2: Describe the basic framework of India's language policy and analyze the significance of Hindi as a link language in a linguistically diverse society.

CO3: Understand and apply the concept, process, and types of translation while evaluating the quality, issues, and challenges involved in translation practices.

CO4: Communicate effectively in Hindi in oral and written forms for academic, social, and workplace contexts.

Sustainability Development Goals (SDG)

Quality education, Reduced inequalities

21st Century Skills

Curiosity and lifelong learning, Dependability and attention to detail

Course Content

U1: Hindi language

Teaching Hours: (13)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U1-T1. Oral Traditions of Hindi

Description

Learn how Hindi was shared through stories, songs, and spoken words before writing. Students will explore simple examples of folk tales and poems.

U1-T2. Language Policy and Hindi (Basic Overview)

Description

Simple explanation of how Hindi is recognized and used in India, including its role in government, education, and communication

U1-T3. Devanagari Script

Description

Introduction to the Hindi script, learning letters (vowels and consonants) and simple words. Focus on reading and writing basics.

U1-T4. Hindi in Academic Writing

Description

Learn to write simple Hindi for school or academic use, including notices, short stories, paragraphs, and summaries. Focus on clear and correct writing

U1-T5. Link Language, Dialects of Hindi

Description

Learn how Hindi acts as a bridge language to connect people from different regions of India. Focus on easy phrases for conversation

U2: Translation

Teaching Hours: (10)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U2-T1. Translation Translation - Concept and processes Types of translation Qualities required for a Translator Issues and challenges in Translation, translation practice.

Description

This unit introduces students to the theory and practice of translation with a focus on developing foundational translation skills. Students will study the concept of translation, its objectives, and the various stages involved in the translation process. Different types of translation will be discussed, along with the essential qualities and competencies required of a translator. The unit also examines common issues and challenges faced in translation, such as linguistic, cultural, and contextual difficulties. Practical translation exercises will help students apply theoretical knowledge and improve accuracy, clarity, and equivalence between source and target languages.

U3: Communicative Hindi

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

Professional Ethics

U3-T1. Communicative Hindi

Description

This unit aims to enhance students' practical communication skills in Hindi for real-life and professional contexts. Emphasis is placed on public speaking in Hindi, day-to-day communication, and effective voice modulation. Students will be trained in spoken Hindi through interactive activities, including role plays and voice-over practice. The unit also includes micro-presentation exercises to develop confidence, fluency, and clarity of expression. Overall, the unit focuses on improving oral communication skills and functional language use in Hindi.

EXAMINATION PATTERN

COURSE NAME: BASIC HINDI

COURSE CODE: HIN181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

CIA-1: Oral quiz or viva, or short class test to assess students' understanding of basic Hindi.

CIA-2: Mid-Semester Examination

CIA-3: Viva, class test or interactive quiz to evaluate translation and communicative Hindi skills.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

End-Semester Examination

Course name- Basic Hindi

Course Code-HIN181-4

Paper 2 – Hindi

Max. Time: 2 Hrs Max. Marks: 50
Section Subject Title Types of Questions Choice Marks
A Hindi language 1. Multiple choice 2. Short note 10 questions 4 questions 10x1= 10 5x4 =20
B Translation Translation (English to Hindi & vice versa) 2 questions 2x5= 10
C Conversation writing Descriptive type 1 out of 2 1x10=10

Cross Cutting Issues:

Environment, Gender, Human Values

U1-T1. Samakaleen Kavita Sanchay? (Collection of Poems)

edited by: Dr. Sebastian K A & Dr. Deepak Kumar Gond

20 Hrs. Level of knowledge:

Anal

Description

In this course utilizes the textbook Samkaaleen Kavita Sanchay to foster critical thinking and poetic analysis through a diverse range of contemporary themes. The curriculum spans historical tragedies like 'Hiroshima', environmental concerns in 'Ek Vriksh Ki Hatya', and intense political commentary in works such as 'Tisara Rasta' and 'Hanso Hanso Jaldi Hanso'. Students will explore social identity and language in 'Meri Bhasha Ke Log', confront systemic corruption in 'Varnamaala', and analyze gender dynamics and marginalized perspectives in poems like 'Striyaan', and 'Mein Geeth Gaana Chaahta Hun'. Through these readings, the course aims to enhance vocabulary and enable students to analyze poems within their specific social and political contexts while developing technical skills through digital assignments

Hour 20 Hrs.

Level of knowledge: Analytical

U2: Cultural art forms of India Yakshagana, Kathakali, Ramleela, Krishnaleela

Teaching Hours: (5)

Development Needs:

Local, National

Skill Focused:

Employability

Cross Cutting Issues:

Human Values

U2-T1. Yakshagana, Kathakali, Ramleela, Krishnaleela

Description

This unit introduces students to select traditional Indian cultural and performing art forms, namely Yakshagana, Kathakali, Ramleela, and Krishnaleela, with a focus on their historical origins, thematic concerns, performance techniques, and cultural significance. The unit examines how these art forms function as powerful mediums of storytelling rooted in Indian mythology, epics, and devotional traditions. Students will study the narrative structures, character types, costume design, makeup, music, dance movements, and symbolic gestures associated with each form. Emphasis will be given to understanding how Yakshagana and Kathakali represent regional theatrical traditions of South India, while Ramleela and Krishnaleela reflect the devotional and performative retellings of the Ramayana and the life of Lord Krishna. Through this unit, students will gain insight into the role of cultural art forms in preserving collective memory, moral values, and social traditions, and will critically appreciate their relevance in contemporary cultural and literary studies

U3: Translation Practice- English to Hindi

Teaching Hours: (5)

Development Needs:

Global, National

Skill Focused:

Employability, Skill Development

Cross Cutting Issues:

None

U3-T1. Translation Practice- English to Hindi

Description

This unit focuses on developing students' practical translation skills through the translation of medium-level English prose passages into Hindi, with special emphasis on themes related to education, culture, and environmental awareness. Students will be trained to translate paragraphs that discuss the role of education in social development, the significance of cultural values and traditions, and contemporary environmental concerns such as conservation, sustainability, and ecological responsibility. The unit emphasizes accuracy, clarity, and contextual appropriateness in translation, encouraging students to maintain the original meaning, tone, and style of the source text while adapting it effectively into the target language. Attention will be given to vocabulary selection, sentence structure, idiomatic expressions, and grammatical equivalence between English

and Hindi. Through guided practice, this unit aims to enhance students' linguistic competence, cultural sensitivity, and analytical understanding of translation as a meaningful academic and communicative practice.

Hour: 5

Level of knowledge: Basic

Essential Reading

1. A Hand Book of Translation Studies By: Das Bijay Kumar.
2. SaralSubodh Hindi Vyakaran, By: MotilalChaturvedi. Vinod
3. AnuvadEvam Sanchar – Dr.PooranchandTandon, Rajpal and Son's
4. AnuvadVignan By:Bholanath Tiwari
5. Anuvad Kala By: N.E VishwanathIyer

EXAMINATION PATTERN

COURSE NAME: HINDI ADVANCED

COURSE CODE: HIN281-3

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

The evaluation and assessment will be based on Continuous Internal Assessments and an End Semester Examination.

CIA 1 – Will be Hindi Wikipedia –Project (1) and Seminar (20)

CIA 2 – Mid-semester Examination (50 marks)

CIA 3 –Will be Hindi Wikipedia- Project and Seminar (2) (20 marks)

CIAs and attendance will have 50% weight

The end semester examination will have 50% weight.

The final grade will be weighted average of ESE and CIAs.

Late submission of assignments will be accepted only with prior notice and only under truly exceptional circumstances.

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

The End-Semester Examination for III Semester BA / B.Sc / B.Com (Paper I – Hindi) is conducted for a duration of 2 hours with a total of 50 marks. The question paper is divided into three sections: A, B, and C. Section A (Poetry) consists of essay-type questions. Students are given three choices, out of which one question has to be answered, carrying 10 marks. Section B (Cultural Art Forms of India)

includes descriptive and objective-type questions. Students are required to answer one question, which carries 10 marks. Section C (Translation) contains one passage for translation from English to Hindi. This section has one compulsory question for 10 marks.

STORIES 1 Malbe ka maalik 2 Dilli mein ek mouth 3 Mein haar gayi 4 Pita 5 Salam 6 Mousa ji 7 Tangnazar 8 Ek roomal ek anguthi ek chalni

Description

This unit introduces advanced learners of Hindi to select modern Hindi short stories that reflect complex social, political, and cultural realities of contemporary India. The prescribed texts include 'Malbe ka Malik' by Mohan Rakesh, which explores the trauma of Partition (Vibhajan ki Samasya), and 'Delhi Mein Ek Maut' by Kamleshwar, focusing on urban alienation and metropolitan tragedy (Mahanagariya Visangati). 'Main Haar Gayi' by Mannu Bhandari examines political consciousness and individual conflict, while 'Salam' by Omprakash Valmiki foregrounds Dalit experience and caste-based oppression. Pita by 'Gyanranjan' presents the struggle of marginalized communities (Pithiyon ka Sangharsh), and 'Mausaji' by Uday Prakash highlights the tension between imagination and reality (Kalpana aur Yatharth ka Dwandv). 'Ek Rumal, Ek Anguthi, Ek Chalni' by Amrita Pritam explores themes of incomplete love and women's issues (Adhoori Mohabbat aur Stri Samasyayen), while 'Tang Nazar' by Mahendra Bhishm introduces transgender discourse (Transgender Vimarsh). Through critical reading and analysis of these narratives, the unit aims to enhance students' interpretative skills, deepen socio-literary awareness, and develop an advanced understanding of modern Hindi prose and its engagement with contemporary issues.

U2-T1. 12 th fail, Lunch box, English- Vinglish, Dangal Queen

Description

This unit introduces students to the study of select contemporary Indian films as cultural texts, focusing on their narrative structures, themes, character development, and socio-cultural significance. The prescribed films-The Lunch Box, 12th Fail, Dangal, Queen, and English Vinglish-will be studied for their representation of everyday life, education and perseverance, gender roles, self-identity, empowerment, and social transformation. Through guided classroom discussions, students will analyze cinematic techniques such as storytelling, visual symbolism, dialogue, and characterization. The unit adopts an interactive teaching pedagogy that includes film screening, selected clip presentations, group discussions, and critical interpretation to enhance analytical and communicative skills. Students will be encouraged to relate film narratives to contemporary social realities and literary concepts. For assessment, students will be provided with options in the examination, allowing them to answer questions based on any of the prescribed films, thereby promoting critical thinking, choice-based learning, and independent interpretation.

U3-T1. Social Media Writing

Description

This unit aims to develop students' creative expression and imaginative writing skills through guided practice in various literary forms. Students will be given simple and socially relevant topics, based on contemporary social issues, and will be encouraged to respond creatively by writing a poem, short story, or creative essay, according to their choice and aptitude. Emphasis will be placed on originality of thought, clarity of expression, thematic coherence, and effective use of language.

The unit seeks to foster critical awareness of social realities while enabling students to articulate personal perspectives through creative modes of writing. Through this process, students will enhance their linguistic competence, creative confidence, and ability to engage meaningfully with social issues using literary expression.

- Bachelor of Science (Biotechnology, Chemistry) (SEMESTER - IV)
- Bachelor of Science (Biotechnology, Forensic Science) (SEMESTER - IV)
- Bachelor of Science (Biotechnology, Zoology) (SEMESTER - IV)
- Bachelor of Science (Chemistry, Zoology) (SEMESTER - IV)
- Bachelor of Science (Computer Science, Mathematics) (SEMESTER - IV)
- Bachelor of Science (Computer Science, Statistics) (SEMESTER - IV)
- Bachelor of Science (Data Science, Mathematics) (SEMESTER - IV)
- Bachelor of Science (Data Science, Statistics) (SEMESTER - IV)
- Bachelor of Science (Economics with Data Science) (SEMESTER - IV)
- Bachelor of Science (Economics, Mathematics, Statistics/Econometrics) (SEMESTER - IV)
- Bachelor of Science (Life Sciences) (SEMESTER - IV)
- Bachelor of Science (Physics, Chemistry) with minor in Mathematics (SEMESTER - IV)
- Bachelor of Science (Physics, Mathematics) with minor in Astrophysics (SEMESTER - IV)
- Bachelor of Science (Physics, Mathematics) with minor in Material Science (SEMESTER - IV)
- Bachelor of Science (Psychology) (SEMESTER - IV)

Course learning Outcomes

C01: Remember and write the Kannada vocabulary

C02: Understand words and write Kannada meaning

C03: Evaluate text and create the sentences

C04: Apply the language to the context

Sustainability Development Goals (SDG)

Quality education

21st Century Skills

Technological literacy

Course Content

U1: Syntax: Sentence Formation

Teaching Hours: (15)

Development Needs:

Local, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U1-T1. Syntax: Sentence Formation

Description

Names of the week, month, time, measures, fruits, vegetables, colors in Kannada

Question form; Question tag

Negation

Opposite words for nouns and verbs.

Translation of simple sentences from English to Kannada and vice versa

U2: Conversational activity in various contexts: script writing, Skit based activity

Teaching Hours: (15)

Development Needs:

Local, Regional

Skill Focused:

Employability, Entrepreneurship, Skill Development

Cross Cutting Issues:

Professional Ethics, Sustainability

U2-T1. Conversational writing activity for the various contexts

Description

Greetings forms in Kannada for the different Occassions : Festival, Birthday and other special occasions.

Self Introduction – writing a small passage.

Conversation with the Guests visit to home, Auto Drivers, Vegetable and fruits Vendors.

Essential Reading

- 1.Muddu Kannada: R. L. Anantharamiah
- 2.Tili Kannada- K.S. Madhusudana & H.N. Muralidhara
- 3.Conversational Kannada: N D Krishnamurthy & Dr. U P Upadhyaya

EXAMINATION PATTERN

COURSE NAME: FOUNDATION KANNADA

COURSE CODE: KAN181-4

PATTERN FOR CONTINUOUS INTERNAL ASSESSMENT (CIA)

The evaluation and assessment will be based on Continuous Internal Assessments, written exam and submission.

CIA 1 : First written test to test their writing ability (Vocabulary) - 20 Marks

CIA 2: Second written test to test their writing ability (MSE) – 50 Marks

CIA 3: Four Small Passage writing and submission.- 20 Marks

QUESTION PAPER PATTERN FOR END SEMESTER EXAMINATION (ESE)

SECTION A Two and Three Marks 1. Kannada Varnamale, Vowels, Divided Consonants, Undivided Consonants, Nasal letters 2. Kaagunita 3. Gunitaaksharagalu 4. Kannada digits 5. Time 6. measure or weight in Kannada) 7. Kannada days 8. Months in Kannada 9. Vegetables Names 10. Fruits Names

SECTION B Four Marks 1. Fruits names in Kannada 2. Color names in Kannada SECTION C Five Marks 1. Question Form, Question Tag, Translate the Sentence from Kannada to English and Vice-Versa 2. Negative forms 3. Fill in the blanks according to the Instructions 4. Opposite's words/Phrases 5. Conversational writings

- Bachelor of Science (Psychology) (SEMESTER - III)

Course learning Outcomes

CO1: Expose learners to the modern writings.

C02: Able to understand the literary genre

C03: Able to develop their critical and analytical thinking

C04: Enable them in creative writings.

C05: Able to write essay writings

Sustainability Development Goals (SDG)

Gender equality, Good health and well-being, Peace, justice and strong institutions, Zero hunger

21st Century Skills

Analytical thinking, Creative thinking, Leadership and social influence

Course Content

U1: Selected poems

Teaching Hours: (8)

Development Needs:

Local, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Human Values

U1-T1. Selected poems

Description

1. Kerege Haara- Folk Poetry
2. Kalki- Kuvempu
3. Nimmodanidduu Nimmantaagade – K S Nissar Ahamad
4. Nalavattelara Swaatantrya - Siddalingaiah

U2: Selected short stories

Teaching Hours: (8)

Development Needs:

Local, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Environment, Human Values, Sustainability

U2-T1. Selected short stories

Description

1. Maleraayana Madadi- Folk Story
2. Venkatashaamiya Pranaya – Maasti Venkatesh Ayyangaar
3. Naavu Chirangeevigalu – Russian Story

U3: Selected Prose

Teaching Hours: (12)

Development Needs:

Local, Regional

Skill Focused:

Skill Development

Cross Cutting Issues:

Gender, Professional Ethics

U3-T1. Selected Prose

Description

1. Namma Preetiya Criket- K. Satyanaarayana
2. Maastarara Makkalu- Jayanth Kaaikini
3. Bhaaratada Modala Mahilaa Shikshaki – Kiran M. Gaajanuru
4. Yuvabhaarata Vruddha America – Manu Baligaar

U4: Language Skills

Teaching Hours: (2)

Development Needs:

Regional

Skill Focused:

Entrepreneurship, Skill Development

Cross Cutting Issues:

Sustainability

U4-T1. Language Skills

Description

1. Essay Writing

Essential Reading

1. Doni saagali Munde Hogali- Kuvempu
2. Ooru Keeri- Siddalingaiah

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U1-T1. 1.Sanskrit Varnamale 2. Guneetakshara 3. Origin of Letter 4. Verbs 5. Latlakara Shabda (Male and Female)

Description

This course introduces fundamental concepts in Sanskrit language learning. Sanskrit Varnamala

covers the basic alphabet, including vowels (svaras) and consonants (vyanjanas), forming the foundation of pronunciation and writing. The unit on Guneetakshara explores compound letters formed by combining consonants and vowels, helping learners understand proper articulation. Origin of Letters delves into the phonetic and physiological aspects of Sanskrit sounds, highlighting how each letter is produced through specific speech organs. The Verbs unit introduces the concept of root words (dhatus), their conjugations, and usage in sentence formation, focusing on tense and subject agreement. Finally, Latlakara Shabda emphasizes the present tense forms of verbs, along with masculine and feminine noun declensions, enabling learners to form basic sentences accurately. Together, these units lay a strong grammatical foundation, essential for reading, writing, and understanding Sanskrit texts with clarity and confidence.

U2: 2 Morphology

Teaching Hours: (7)

Development Needs:

National

Skill Focused:

Skill Development

Cross Cutting Issues:

Sustainability

U2-T1. 6. Aatmanepade (Indirect Speech) 7. Akaaranta Shabda (Male) 8. Numbers 9. Question words 10. Relations

Description

The unit on Ātmanepada introduces verbs in the middle voice, commonly referred to as indirect or reflexive forms, where the action reflects upon the doer. It is essential for understanding verb conjugation beyond the active voice. Akārānta Shabda (Masculine) focuses on masculine nouns

ending with 'a', teaching learners their declension across different cases and numbers, which is vital for proper sentence construction. The Numbers unit presents Sanskrit numerals and their usage in counting, sentence formation, and agreements with nouns. Understanding Question Words (kaḥ, kâ, kim, etc.) equips learners to ask and answer basic questions, forming an interactive language foundation. Lastly, the Relations topic introduces vocabulary related to family and kinship, helping students speak and write about their surroundings and relationships. These topics enhance vocabulary, grammar, and conversational ability, fostering deeper comprehension and practical usage of the Sanskrit language.

U3: Syntax

Teaching Hours: (8)

Development Needs:

Cross Cutting Issues:

Sustainability

U3-T1. Syntax 11. Pronouns 12. Active, Passive Voice Conversion 13. Akaaranta Shabda (Female) 14. Prayoge Parivartana 15 Gendered Words

Description

This section focuses on essential grammatical structures to strengthen sentence formation in Sanskrit. Syntax teaches the rules and order of words in a sentence, enabling clarity and correctness in expression. The unit on Pronouns covers words used in place of nouns, such as aham (I), tvam (you), enhancing fluency and reducing repetition. Active and Passive Voice Conversion enables learners to transform sentences from kartari prayoga (active) to karmani prayoga (passive) and vice versa, an important skill in understanding text variations. Akārānta Shabda (Female) introduces feminine nouns ending in 'ā', focusing on their case-wise declension and grammatical usage. The topic Prayoge Parivartana refers to changing sentence patterns based on context or purpose, such as from imperative to interrogative or affirmative to negative. Gendered Words explains masculine, feminine, and neuter nouns, helping learners identify and apply correct agreements in sentence

structure. These topics collectively enrich both written and spoken Sanskrit proficiency.

U4-T1. 16. Karakas (7) 17. Body Parts 18. Basic words for conversation (Good Morning, introduction etc). 19. Colours 20. Translation

Description

This final set of topics builds practical language skills and deepens grammatical understanding. Kāraḥas (7) introduces the seven syntactic roles or cases in Sanskrit—like kartā (doer), karma (object), karaṇa (instrument), etc.—which are crucial for accurate sentence construction and meaning. The Body Parts unit teaches commonly used anatomical terms, enhancing vocabulary for everyday description and communication. Basic Words for Conversation, such as greetings (suprabhātam – good morning), self-introduction, and polite expressions, help learners use Sanskrit in simple interactions. The Colours unit adds descriptive vocabulary, allowing students to talk about appearance, nature, and objects more vividly. Lastly, Translation strengthens comprehension and writing skills by enabling learners to convert sentences between Sanskrit and their native language, reinforcing grammar and vocabulary in context. Together, these topics prepare students to use Sanskrit both accurately and confidently in practical, real-life situations and further reading.

U1-T1. 1. Time 2. Numbers from 51-100 3. Names of Animals in Sanskrit 4.
Names of Birds in Sanskrit 5. Names of Fruits in Sanskrit

Description

Unit 1: Vocabulary for Nature and Numbers introduces learners to foundational Sanskrit vocabulary related to everyday natural elements and numerical expressions. The unit begins with the concept of Time, teaching basic terms for hours, parts of the day, and how to express time in Sanskrit. It extends into Numbers from 51 to 100 , building upon previously learned numerals to enable counting, calculation, and date representation. Learners will also explore the Names of Animals , Birds, and Fruits in Sanskrit, enriching their vocabulary with words commonly found in nature and daily conversations. This unit emphasizes pronunciation, spelling, and usage through engaging examples and repetition. By the end of the unit, students will be able to name various animals, fruits, and birds in Sanskrit and describe time-related activities, enhancing their confidence in both spoken and written communication.

U2-T1. 6. Names of flowers in Sanskrit 7. Names of clothes in Sanskrit 8. Names of vehicles in Sanskrit 9. Things at school. Library, classroom 10. Every day using materials

Description

Unit 2: Everyday Objects and Environment focuses on expanding learners' Sanskrit vocabulary related to common surroundings and daily life. The unit introduces names of Flowers, helping students appreciate nature's beauty through language. It then moves on to Clothes and Vehicles, providing terms useful for describing attire and modes of transportation. Learners also explore vocabulary related to Things at School, including items found in the library and classroom, enabling them to converse about their academic environment. Finally, the unit covers Everyday Household Materials, familiarizing students with objects they encounter daily at home. This practical vocabulary set helps students communicate effectively in real-life situations, strengthening their connection to the language. Emphasis is placed on correct pronunciation, gender usage, and contextual application. Activities and exercises ensure that learners not only memorize words but also use them confidently in simple sentences and conversations.

U3-T1. 11. Genders 12. Antonyms 13. Days of the Week 14. Days of the Month 15. Making Sentences

Description

Unit 3: Grammar and Sentence Construction introduces fundamental grammatical concepts essential for building meaningful sentences in Sanskrit. This unit covers Genders, helping learners understand masculine, feminine, and neuter forms and their correct usage in sentence formation. Students will study Antonyms, enriching their vocabulary by learning pairs of opposite words, which improves expressive abilities. The unit also includes the Days of the Week and Days of the Month, enabling learners to discuss time-related topics fluently. A key focus is on Making Sentences, where students apply grammatical rules to construct simple, coherent sentences correctly. Through varied exercises, learners practice subject-verb agreement, word order, and sentence patterns. This unit bridges vocabulary knowledge and syntax skills, empowering learners to communicate ideas clearly and accurately in both spoken and written Sanskrit.

**U4-T1. 16. Avyaya 17. Making Negative sentences 18. Translation 19.
Vachana Parevartane 20. Examination Hall**

Description

Unit 4: Language Usage and Expression focuses on advanced grammatical structures and practical language skills in Sanskrit. The unit begins with Avyaya (indeclinable words), which are essential for sentence cohesion and meaning. Students learn to form Negative Sentences, enabling them to express denial or negation accurately. The Translation component helps learners strengthen comprehension and linguistic flexibility by converting sentences between Sanskrit and their native language. The study of Vachana Parivartana introduces changing nouns and verbs between singular and plural forms, enhancing grammatical accuracy. Finally, vocabulary and expressions related to the Examination Hall prepare students for academic and formal communication contexts. This unit emphasizes correct usage, sentence transformation, and contextual application, helping learners gain confidence in both written and oral Sanskrit. Practical exercises encourage active participation and reinforce language skills needed for real-life situations.

U1-T1. Subhashithani-Barthruhari's Neethi shatakam, Selected 30 shlokas

Description

Subhashitani from Bhartrhari's Neeti Shatakam is a refined collection of didactic Sanskrit verses that reflect timeless wisdom and ethical values. This module explores 30 carefully selected shlokas that deal with practical life lessons, covering themes such as the power of knowledge, importance of humility, value of time, dangers of greed, and traits of noble versus ignoble individuals. Each verse, compact yet profound, offers moral instruction through vivid imagery and precise language. Bhartrhari's reflections are rooted in a deep understanding of human behavior and societal dynamics. By studying these verses, learners not only enhance their command of Sanskrit language and poetic expressions but also gain insights into Indian philosophical thought. These shlokas serve as mirrors to human nature, inspiring ethical living and thoughtful decision-making. The study of these subhashitas promotes critical thinking, cultural appreciation, and an enriched worldview anchored in classical Indian wisdom.

U2-T1. 1.Hiranyaka taamrachooda katha 2. Tila choorna vikraya katha 3. Shabarashookara katha 4. VaNikputra katha

Description

The selected stories from the Panchatantra —Hiranyaka-Taamrachooda Katha , Tila Choorna Vikraya Katha , Shabarashookara Katha , and Vaṇikputra Katha —are moral tales embedded with practical wisdom and clever strategies for daily life. In the Hiranyaka-Taamrachooda Katha , a mouse and a hermit bird form an unusual bond that highlights trust, mutual aid, and the impact of fear and friendship. The Tila Choorna Vikraya Katha teaches a lesson on greed and cleverness through a tale of dishonest trade. Shabarashookara Katha tells of a wild boar and a hunter, focusing on the consequences of impulsive behavior and revenge. The Vaṇikputra Katha involves a merchant's son and presents a narrative on intelligence, planning, and turning misfortune into success. Together, these stories blend animal characters and human experiences to convey sharp life lessons. Their engaging plots and rich moral layers make them relevant across generations and ideal for teaching values through storytelling.

U3-T1. sandhi prakaranam swara and vyanjana -4 each Samskrutha sambhashanaabhyaasa

Description

This unit introduces students to Sandhi Prakaranam , focusing on the rules of euphonic combination in Sanskrit. It covers four types each of Swarasandhi (vowel combinations) and Vyanjanasandhi (consonant combinations), enabling learners to understand how sounds merge for fluent pronunciation and script accuracy. Additionally, Samskruta Sambhashana Abhyasa emphasizes oral practice in simple Sanskrit conversation. Through structured dialogues and daily usage expressions, students develop confidence in speaking Sanskrit. The combined study of sandhi and spoken practice builds a strong foundation in both linguistic accuracy and communicative ability, fostering deeper engagement with the language in both textual and conversational forms.

U1-T1. Nrusimha champu by Suryakantha shastri, Ramamurthy Tripathi – 1&2 canto

Description

by Śrī Vedānta Deśika is a poetic retelling of the Nṛsimha avatāra, composed in the elegant campū kāvya style—a blend of prose and verse. The editions edited by Śrī Sūryakānta Śāstrī and Śrī Rāmamūrti Tripāṭhi provide a critical and lucid presentation of the first two cantos. The first canto narrates the tyranny of Hiranyakaśipu and the birth and virtuous life of Prahlāda, emphasizing devotion (bhakti) and the tension between divine grace and demonic arrogance. The second canto vividly describes the ferocious manifestation of Lord Nṛsimha from the pillar and the dramatic slaying of the demon king. The editors offer detailed Sanskrit commentary and explain grammatical, poetic, and philosophical elements, making the work accessible to students and scholars alike. These cantos exemplify devotional grandeur, poetic artistry, and philosophical depth, serving as ideal texts for understanding classical Sanskrit literature and Śrīvaiṣṇava theology.

U2-T1. Charudattam of Bhasa – 1 canto

Description

The unfinished Daridra-Charudatta (Charudatta in poverty) tells the story of the courtesan Vasantasena and is interesting for the same story was developed by Śhudraka into the more famous play Mrichakatika . Charudatta is an impoverished Brahman, who is one of the central characters in Sudraka's play Mricchakatika. Sudraka presents Charudatta as a noble and sensitive man, of respectable social position. His state of poverty is a result of his charitable nature, which is also shown as a positive trait.

enimai	2.Ennaalo?	3.Ulaga ottrumai	4.Tholilaalar vinnappam.
5.Maanida sakthi.	6.Saintha Tharasu.	7.putthaga Saalai.	
2Nanthikkalambagam.		1.Vetri murasa chirappau.	
2.Nandhi mann			

Description

The Sweetness of Tamil (Tamilin Enimai) This topic highlights the beauty and richness of the Tamil language. It explores the melodious nature of Tamil, its deep literary heritage, cultural significance, classical value, and global presence.

When Will It Be? (Ennaalo?) A reflective theme that contemplates the future. It deals with hopes, dreams, goals, and the anticipation of when change, progress, or aspirations will come true—both individually and collectively.

World Unity (Ulaga Ottrumai) A call for global harmony and togetherness. It emphasizes the importance of peace, tolerance, cooperation among nations, cultures, religions, and languages. The theme promotes humanity and universal brotherhood.

Workers' Petition (Tholilaalar Vinnappam) This theme centers around the rights, struggles, and demands of workers. It can be framed as a plea or request to society or authorities, advocating for better working conditions, fair wages, and dignity of labor.

Human Power (Maanida Sakthi) A theme that celebrates the inner strength of humans—willpower, courage, intelligence, perseverance, and the ability to overcome challenges. It reflects on how human strength can drive social change and innovation.

The Balanced Scale (Saintha Tharasu) This symbolizes justice, fairness, and equality. The topic could explore the importance of law, ethics, and moral balance in society. It may also relate to how fairness should be upheld in personal and social relationships.

Library (Putthaga Saalai) A symbol of knowledge and enlightenment. This topic praises the importance of books, the habit of reading, and the role of libraries in shaping minds and communities. It may focus on how libraries are gateways to wisdom.

Cross Cutting Issues:

Human Values

U2-T1. Kanneerum Thanneerum-by Dr.S.Sethuraman - 10 hours (All Stories)

Description

Kanneerum Thanneerum (Tears and Water) is a powerful collection of short stories by Dr. S. Sethuraman that delves into the emotional and social landscapes of ordinary people. Spanning approximately 10 hours of reading, these stories explore themes such as human suffering, resilience, poverty, injustice, love, and compassion. Each narrative is deeply rooted in reality, portraying characters from diverse backgrounds—farmers, workers, women, and the marginalized—with empathy and nuance. The title metaphorically connects “tears” (sorrow) and “water” (life), symbolizing how emotional pain and daily survival are intertwined. Sethuraman’s writing is both simple and profound, using strong imagery and subtle social critique. The stories not

only reflect the harsh truths of life but also reveal moments of hope, dignity, and inner strength. Kanneerum Thanneerum is a moving literary experience that captures the essence of human struggle and spirit in a relatable, honest way.

U3: GRAMMAR- Porul Ilakkanam.

Skill Development

Cross Cutting Issues:

Sustainability

U3-T1. Thol. Porul Adhigaram

Description

Porul Adhigaram is the third and final section of the Tolkappiyam, the earliest known Tamil grammar text attributed to Tolkappiyar. While the first two sections deal with phonology (Ezhuthu) and morphology/syntax (Sol), Porul Adhigaram explores semantics, societal structure, and the themes of classical Tamil literature. It is divided into two major parts: Akam (inner life – love, emotions, relationships) and Puram (outer life – war, heroism, ethics, generosity). This section outlines how emotions, human behavior, and social customs are expressed in poetry based on setting, mood, and context. It also classifies landscapes (tinai), symbolic elements, and ideal conduct. Porul Adhigaram forms the foundation for understanding Sangam literature and classical Tamil aesthetics. It is not just grammatical but also cultural and ethical, reflecting the values, duties, and poetic conventions of ancient Tamil society. This section makes Tolkappiyam unique among world grammars for blending linguistics with literary theory and social philosophy.

U4: Language Skill-

Teaching Hours: (3)

Development Needs:

Global

Skill Focused:

Skill Development

Cross Cutting Issues:

Professional Ethics

U4-T1. General essay writing

Description

listening, speaking, reading, and writing. Mastery of these skills allows individuals to communicate ideas clearly, understand others, and engage meaningfully in social, academic, and professional contexts. Good language skills help in expressing emotions, exchanging information, and building relationships. They also enhance learning, critical thinking, and creativity. Developing strong language skills is essential for students, as it supports academic achievement across all subjects. In the workplace, effective communication boosts collaboration and productivity. Language is not just a tool for conversation—it is a medium for sharing culture, values, and knowledge. Therefore, improving language skills is key to personal growth, social interaction, and success in life. It empowers individuals to be confident, informed, and active participants in society. In short, language skill is the foundation of meaningful communication and lifelong learning.

EXAMINATION PATTERN
